Farmers, Read This

THE ROYAL INSURANCE CO.

Of England.

CAPITAL	$10,000,000.
Funds Invested	$23,000,000
Annual Income	5,000,000.

Over $600,000 invested in Canada for the protection of Canadian Policy holders.

Farm Property Insured against damage by Lightning. Losses to live stock by lightning and fire anywhere on the Farm made good.

FACTS WORTH REMEMBERING.

The Royal has the largest surplus funds of any Fire Insurance Company in the world.

The Royal has the largest deposit with the Dominion Government of any other Insurance Company.

The conditions of the Royal's Policies are more liberal than those of other Companies doing business in Canada.

In conclusion remember that security should be the first consideration, and that it is to your interest to insure with the Company that gives the *greatest* security. You may better carry your own risk than entrust it where you have not absolute security.

LOCAL AGENTS.

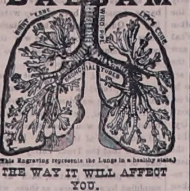
T. DONNELLY, Belleville,
DISTRICT AGENT



(This Engraving represents the Lungs in a healthy state.)

THE WAY IT WILL AFFECT YOU.

It excites expectoration and causes the lungs to throw off the phlegm or mucous; *changes the secretions and purifies the blood;* heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. SUCH IS THE IMMEDIATE AND SATISFACTORY EFFECT that *it is warranted to break up the most distressing cough in a few hours time,* if not of too long standing. *It is warranted* TO GIVE ENTIRE SATISFACTION, EVEN IN THE *most confirmed cases of Consumption!* *It is warranted* not to produce costiveness (which is the case with most remedies), or affect the head, as it contains no opium in any form. *It is warranted to be perfectly harmless* to the most delicate child, although it is an active and powerful remedy for restoring the system. *There is no real necessity for so many deaths by Consumption,* when ALLEN'S LUNG BALSAM will prevent it if only taken in time. Physicians having consumptive patients, and who, having failed to cure them with their own medicine, we would recommend to give ALLEN'S LUNG BALSAM a trial. *Sold by all Druggists.*

CORNS.

ALEX. Ross' Chiropo quickly turns them into a soft pulpy condition. Price $1; free by mail from England.

ALEX. ROSS' HAIR DESTROYER

REMOVES superfluous hair from the hands and face without injury. Post $1; post free.

SPANISH FLY

IS the acting ingredient in Ross' Cantharides for hair's growth. Sent by post, $1, free from England.

Alex. Ross' Hair Color Wash

BRINGS the hair to its original color in two hours; this is guaranteed. $4 by post. Messrs. Beatty & Niles, 52 Young Street, Toronto, have received a supply of these wonderful articles, or they will be sent direct by A. ROSS from Lamb's Conduit Street, Holborn, London, England.

W. P. HUDSON,
Executor for the Estate.

Roslin, Feb, 20, 1882. d&wtf

Daily Intelligencer.

Trip to Manitoba.

LETTER NO. 2.

MR. EDITOR,—In my last I took leave of your readers at a wood dock, not far from Bruce Mines, the last sound being the cries of the wood carriers to the men in the hold "look out below," and the heavy rumble of the wood as it tumbled into the hold. But all that was soon forgotten in sleep. Next morning we woke fairly early to find some of our fellow passengers already on deck, enjoying the scenery as we wound our way up the crooked St. Mary's river. The character of the country was somewhat changed, and though abundance of rocks could still be seen they were in the distance, vegetation was more abundant and some good farming land was seen on either side. But the question most asked was how soon will we get to the Sault? And after a time in the still early morning, a sudden turn showed us first the town on the U. S. side and then that on our own side of the river. A call at the dock for the purpose of changing the mail, gave the passengers an opportunity for a run on shore, of which many availed themselves. The dock here is of great length, as the water is shoal for a considerable distance, and is substantially built. The town is not one of great pretentions, yet it is a neat, smart place and looks as if a good deal of business is done. There are three good sized churches, which speaks well for the moral character of the place. But while we are making our observations the whistle sounds and we must hasten on board. A few minutes more and we are alongside the wharf, on the American side and again many passengers jump ashore to explore the town. By the wall of the warehouse is a seat above which on the wall may be read the legend "for loafers only"; and we notice that though a number seemed not to have anything to do, no one occupied that seat. The town is larger and smarter than on our side, but when we asked for news of the bombardment of Alexandria no one knew any thing about it, as there is no telegraphic communication with the outside world. We ought not to pass this place without a glance at the barracks a little to the east of the wharf. Certainly the town on our side looks as if it was in a dangerous position in case of war with a battery of 4 guns about 12 pounders pointing directly at it across the river. But at present the only use of the battery is to keep the soldiers in practice and to fire the signal gun at 6 o'clock. But the greatest object of interest here is the new canal, with its immense lock. The lock is perhaps the largest in the world, being some 450 feet or more in length and gaining the difference of level between the waters of Lake Superior and the river below at a single lift. The water is 14 feet on the sill and when the steamer runs into the lock the top of the railing around the deck is below the level of the lock wall. Indeed were it not for the pilot house and smoke stack the steamer itself could easily be overlooked by a person only a short distance on either side. But while we are studying its size the great gates swing quietly to without hands, being moved by hydraulic pressure, the operator just standing quietly by and directing the whole by the movement of a small lever. As soon as the gates are closed the water begins to boil and foam through the whole length of the lock, the water not running through the gates, but a subterranean canal and rising through openings in the bottom of the lock. The hydraulic machinery for opening the gates and flumes is well worth inspection, and were examined with a great deal of interest by many of the passengers. The whole lock and canal is a credit to its owners, and we could not help wondering how long it will be before we have as good a one on our side of the rapid. There seems no good reason why all our immense shipping trade should be carried on through an American canal and be always in danger of and sometimes subjected to vexatious annoyances by over zealous officials. To us it seems there could scarcely be a more desirable investment for some of the grand "surplus" which is at present flowing into the coffers of the Dominion, than to make with it a canal every way equal to the one on the other side of the river. Will it not be needed when the C. P. R. is fully open to Thunder Bay, and our consequent shipping trade has fully begun to develop itself? But we must not forget to take a good look at the rapid itself. It is a sudden descent of about 15 feet in a mile of river over a rocky bottom, rough to roaring. Yet it is safe enough to be traversed by Indian canoes, and is a most exciting run. But as we gaze on it our whistle sounds, and again we are off. As we pass out of the canal, all eyes are turned forward for the first glimpse of Lake Superior. But before we reach it we pass some very pretty groves, especially on our side of the river. But we are not kept waiting very long; curve after curve is passed; we glide round a point on which stands a lighthouse on our right, and as we swing round the river broadens and soon straight away ahead of us it stretches till sea and sky meet, and we are out on the last and largest not only of our lakes, but the largest body of fresh water in the world. But the prospect for comfort is not very great, as the water is almost more white than blue, so many white caps come rolling towards us, and the wind is whistling in the rigging in a way very suggestive of seasickness. When the Captain is appealed to for his opinion, he says it will be a little lumpy, which makes some of our more timid passengers feel as if there was a lump in their throat. But as the wind is straight ahead our vessel walks bravely over the waves, and we experience but little trouble; but again our attention is attracted to the high rocky shore; the highest and boldest we have seen; and we wonder if the place the C. P. R. has to pass over is anything like this, if so they will spend at least a little of their bonus before they get through. Our next point is Michipicoten where, we are to leave two immense metal pulleys for endless wire ropes to be used in the copper mine which is being opened there. Conversation with one of the owners brings out the fact that the prospects of the company are very bright. But darkness has set in before the Island is reached, and though there are two lighthouses great care is needed in running in, as there are sunken rocks all about, and as we come near land the engine is slowed down almost to a full stop, as a sudden introduction to one of the rocks might give us all a bath in pehaps 70 fathoms of water. As we are not in bathing costume we like all the better our Captain's caution, but soon we are alongside the Company's wharf, a very substantial structure with a warehouse, but as the night is very dark and nothing to be seen we again turn in. Next morning finds us on a wide waste of waters, no land in sight on any side, and we begin to realize how big our Superior is. As the afternoon passes there looms up far ahead a high, long bluff of rock, which we are told is Thunder Cape, and Silver Islet is lying at its base. Glasses are again in requisition and the rocky shore is eagerly scanned. In good time we are steaming in between the Islet and the shore and many can hardly believe that spot is the place where all the wealth is got of which we have read. We find the village on the mainland and in appearance a good deal dilapidated, evidently it is not what it once was. About 160 hands are now employed at the mine where formerly there were 400. The stamp mill is silent, that work being done elsewhere. But our business done we are off again, this time for Thunder Bay, and as we advance we get some views worth seeing and remembering. There on our right is Thunder Cape, lifting itself up nearly straight 1350 feet above the water. The rock maintains that height all the way from opposite Silver Islet, about four miles, or indeed perhaps eight, till it terminates in the bold point called Thunder Cape. The rock is of a red color, ragged or torn, and in many places perpendicular, showing it to have been forced up by some mighty upheaval, and we cannot help thinking with awe of the tremenduous forces which thus made the rocky crust of the earth their plaything. But there on our left a little in advance of the Cape is Pie Island, so called from the whole top of it looking like an immense pie. If reports be true that in it have formed very rich veins of silver, it may yet come to be a very savory pie. But we are anxious for a sight of Prince Arthur's Landing, and at length, like a white cloud on the dark line of the shore, the houses begin to show in the evening sun. But as this place is likely to be of considerable importance on account of the opening of the C. P. R, and ought not to be dismissed with a single glance, I will here take leave of your readers till my next.

J. W. BELL.

N. W. M. Police.

REDISTRIBUTION OF THE TROOPS.

The following is the redistribution of the North-West Mounted Police Force for the present:—

Fort Walsh will remain headquarters for the present, but probably for only a limited period. Lieut. Col. Irvine, Commissioner, and Capt. Cotton, Adjutant, will stay at headquarters.

A division under command of Superintendent Shurtliff will be stationed there. This division has no outposts.

B Division, under command of Supt. Walsh, has its divisional headquarters at Qu'Appelle, with outposts at Wood Mountain, Fort Ellis and Shoal Lake, and such other points on the railroad as shall be most necessary in suppressing the liquor traffic.

C Division, under command of Supt. Crozier, will remain at Macleod, with outposts at Stand Off, Coal Banks, St Mary's River, and other points where they may seem necessary.

D Division, under command of Supt. Herchmer is at Battleford, with outposts at Saskatchewan and Prince Albert.

E Division, under command of Supt. McIlree, is now at Fort Macleod under orders for Fort Calgary.

Each Division is 100 strong, including non-commissioned officers and men.

D Division is a little under strength at present.—*Fort Macleod Gazette.*

Special Deputy Sheriff, Mr. Michael Shelly, residing at No. 28 Olive Street, New York City says: "My wife would not be able to walk to-day, but for the benefit she has received from St. Jacobs Oil. It is a most wonderful medicine; an unequalled remedy. My wife was an invalid when she began its use; now she is well."

"Now you may not think it remarkable, but I do, that St Jacobs Oil cured me of a case of rheumatism of three years' standing in three weeks," says Mr. Frank Lawler, Alderman of the eighth ward, Chicago, Ill.

John T. Berry, Esq., Rockland Maine, President of the Lime Rock National Bank, and also of the Knox and Lincoln R. R., says he had the rheumatism in his left foot and leg. He used three bottle of St. Jacobs Oil and it relieved him wonderfully. He calls it "a splendid article."

Rheumatism is greatly dependent on a vitiated condition of the fluids, and may be eliminated from the system by cleansing the Blood and regulating the Kidneys. Burdock Blood Bitters will do this most effectually. Trial bottles 10 cents.

Take no more nauseous purgatives. Burdock Blood Bitters act mildly, pleasantly and thoroughly upon the Bowels, and occasion no inconvenience, while it regulates the Liver and Kidneys and tones the enfeebled system. Trial bottles 10 cents.

At the approach of spring great attention should be given to purify the system engorged with foul humors during the winter. Burdock Blood Bitters is Nature's own purifying and regulating tonic.

DELAYS are dangerous, particularly in Kidney Diseases, so take at once DR. VAN BUREN'S KIDNEY CURE and obtain relief from all your sufferings Your Druggist keeps it.

CHEAP AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Magnetic Medicine, which contains forty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column.

The market is full of preparations for the hair, some of them good, and many of them good for nothing. R. P. Hall & Co., of Nashua, N. H., manufacture and sell an article of real merit, which has been advertised in the *Express* for the past year, and we have taken no little pains to inquire how it has been liked by the public. One of our druggists informs us that he has sold more than double the amount of Renewer than of all other hair preparations combined, and when a person once uses it, he will use no other: that it is not only bought by the young people as a dressing, but by older persons for removing dandruff, preserving and increasing the growth of the hair and restoring its natural color. Another druggist says that he sells three or four times as much of Hall's, as of all others.—*Hampshire Express, Amherst, Mass.*

RACKED BY INNUMERABLE PANGS, restless by day, sleepless at night, rising unrefreshed in the morning, without appetite and pestered by varying and perplexing symptoms, the dyspeptic takes indeed a gloomy view of human existence. For him the zest of life seems gone. Heartburn, oppression at the pit of the stomach, and the attendent annoyances of of constipation and billiousness, combine to render him utterly wretched. But there is, if he will but take advantage of it, a reliable source of reliable relief from all misery. NORTHROP & LYMAN'S VEGETABLE DISCOVERY and DYSPEPTIC CURE is, as its name imports, a botanic preparation, free from mineral poison, and an all-sufficient remedy for indigestion in its most obstinate form. It not only enriches the blood by enabling the digestive organs to convert the food received into nutriment, but depurates it by increasing the action of the bowels and kidneys, the natural outlets for its impurities. But while it relaxes the bowels, it never does so violently and with pain, like a drastic cathartic. It aids, but never forces, Nature, invigorating as well as purifying and regulating the system. It thoroughly removes those diseased humors which tend to vitiate the blood, purifies the urinary secretion, and promotes a flow of healthy bile into the natural channel, besides expelling it from the circulation. Experience has proved that this standard medicine is a thorough remedy for dyspepsia, billousness, costiveness, kidney complaints, scrofula, erysipelas, salt rheum, lumbago and all impurities of the blood. Price $1.00. Sample Bottle 10 cents. Ask for NORTHROP & LYMAN'S Vegetable Discovery and Dyspeptic Cure. The wrapper bears a fac-simile of their signature. Sold by all medicine dealers

The REV. CHAS. E. PIPER, formerly of Pittsfield, N. H., but now of Wakefield, R. I., writes: "I have used Baxter's Mandrake Bitters in my family for over two years, and as a result have not called a physician in the whole time. My wife had been an invalid for two years, but these *Bitters* have cured her."

BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, bloches, pimples and the various humors and blemishes of the skin are only symptomatic of bad blood—that needs purfying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanses the blood from all humors, obtains a healthy action of the liver, bowels, kidneys, skin, etc, and strengthening while it regulates and purifies.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle. 284ly

WILL YOU EXCHANGE a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys.

Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

$200.00 REWARD!

Will be paid for the detention and conviction of any person selling or dealing in any bogus, counterfeit or imitation HOP BITTERS, especially Bitters or preparations with the word HOP or HOPS in their name or connected therewith, that is intended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as HOP BITTERS. The genuine have a cluster of GREEN HOPS (notice this) printed on the white label, and are the purest and best medicine on earth, especially for Kidney, Liver and Nervous Diseases. Beware of all others, and of pretended formulas or receipts of HOP BITTERS published in papers or for sale, as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted.

Daily Intelligencer.

BELLEVILLE, FRIDAY, SEPT. 1.

Canadian Fruit.

The Grit press are but too willing at all times to belittle Canada, and oftentimes do so without knowledge of the facts, which are strongly against their remarks. Witness the following from the Ottawa *Free Press*:

> The excessive import tax on fruit, which is not and cannot be grown to any extent in this country, is a cruelty and an injustice sufficient in itself to damn any government in the estimation of people of common sense. Peaches and apples are plentiful and cheap in the States; here where they would be a real boon, and a great aid to public health, they are dear and scarce. Down with the tax on fruit.

Although Ottawa is situated in a region unfavorable for the growing of fruits, it is a gross libel on the Province of Ontario to insinuate that apples are more plentiful or as cheap in the United States. Apples are produced in as great abundance in this Province from Kingston westward as in any country in the world and their quality is superior to those produced in the United States, and the same is true of all fruits that can be produced in this northern latitude, such as pears, plums, quinces, grapes, and the various small fruits, the flavor of which is much superior to that of those grown in the United States. True, the district in which the peach can be successfully grown is limited, but the fruit grown is large and of delicious flavor, and in the course of a very few years the peach orchards will be so largely added to as to supply the home demand. The apple and the pear are the fruit which are eaten by the masses, and as these would in any event, duty or no duty, be supplied by Canadian growers, there is no reason whatever for the outcry raised by the *Free Press*. Before the editor of that journal again ventures to express himself on the subject of fruit, we recommend him to consult Mr. P. V. Bucke, of Ottawa, and besides to read the report of the Ontario Agricultural Commission, after which he will not be so apt to libel his country.

Don't die in the House.

"Rough on Rats." Clears out rats, mice, roaches bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

Duty on Shortage.

THE VESSEL QUESTION SETTLED—NO DUTY TO BE COLLECTED ON SHORTAGE IN FUTURE.

(*Kingston News, Aug. 31.*)

Recently the *News* reporter interviewed the Hon. Minister of Customs in reference to the question of duty on shortage. He stated that on his return to Ottawa he would lay the matter before his colleagues, when, no doubt, a remedy would be provided, which would, while giving no room for complaint, not deprive the country of any customs. Mr Bowell has kept his word. This morning the Collector of Customs received a notice from the Department to the effect that in future no duty is to be collected on shortage, upon certain conditions.

THE PROVISION.

If a vessel is short over one bushel to the thousand, the captain and mate will be required to take oath to the effect that bulk was not broken from the time that the cargo was shipped until it reached Kingston. If such evidence is forthcoming, then no duty upon the shortage will be collected; but if said testimony cannot be procured, duty will be collected.

REJOICED.

The several captains in port, when they heard the news, were greatly rejoiced,—not because of the amount of money that they were relieved of paying, but because they thought the collection was outrageous, seeing that they had to make good the shortage also.

Catarrh of the Bladder.

STINGING irritation, inflammation, all Kidney and Urinary Complaints, cured by "Buchupaiba." $1.

MIRACULOUS ESCAPE FROM DEATH.—The Montreal *Witness* of Aug. 31st says: "Yesterday afternoon a son and daughter of Mr. Joseph St. Martin, aged respectively five and six years, were alone in a front room in the third story of their residence, No. 197 St. Catharine Street. The boy being too short to see out of the window, placed a trunk with the assistance of his little sister, under the window and having ascended, the youthful pair over-balanced themselves and the next instant they fell together to the ground. They were brought into the house and Dr. Laberge was hurriedly sent for. Strange to say, the girl, beside breaking two of her front teeth, was comparatively uninjured, while the boy sustained but slight bruises about the face."

If Nearly Dead

after taking some highly puffed up stuff, with loud testimonials, turn to Hop Bitters and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes, or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides, it is the best family medicine on earth.

COUGHS AND COLDS.—If taken in time are easily cured,—if allowed to continue will result in incurable consumption. Allen's Lung Balsam has the confidence and support of the medical faculty, and is recommended by all who are acquainted with its virtues.

Dropsy is essentially a watery condition of the Blood, dependent upon disordered Kidneys. Burdock Blood Bitters are strongly Diuretic and consequently the best known remedy, acting as it does upon the entire Secretory System.

A SIMPLE herb found on the sunny plains of a Southern clime has, under the skillful manipulation of DR. VAN BUREN, proved one of the greatest blessings ever sent to sufferings humanity. DR. VAN BUREN'S KIDNEY CURE is acknowledged all the world over as the only perfect remedy for Kidney troubles. Your druggist has it.

Nervous debility is a result of indiscretion in the mode of living. Heed nature's unerring laws and take Burdock Blood Bitters, the Great System Renovator and Blood, Liver and Kidney regulator and tonic. Sample bottles 10 cents.

THE MURRAY CANAL.

Turning of the First Sod, by Mrs. Keeler.

A GREAT DEMONSTRATION.

(*By our own Reporter.*)

Thursday, the 31st of August, 1882, will in future be regarded as one of the historical days of the Bay of Quinte district, for so long as vessels pass eastward from Lake Ontario into the Bay of Quinte, it will be remembered that on that day the first sod of the Canal which is to connect the two waters was turned by the widow of the man to whose persistent and energetic efforts, as much as to any other one cause, the credit of the work is due. This important event took place yesterday, on the farm of Mr. Wm. Lovitt, concession B of the township of Brighton, Northumberland County, and about five miles from the village of Brighton. It was a just and graceful tribute to the memory of the late Jos. Keeler, M.P., that his widow was selected to inaugurate the work of constructing the Murray Canal, and the selection was very popular among the residents of the district, who felt that Mrs. Keeler was the most appropriate person to perform that ceremony. The weather was all that could be desired, the heat being tempered with breezes from the bay. The interest which was manifested in the event by the residents of the country round about, was evinced by the fact that there were at least 5,000 spectators on the ground to witness it, and a large proportion of them were ladies. Ample provision was made for the refection of the invited guests. Tables were spread under long arbors of evergreens, and the abundance and excellence of the viands under which the tables groaned spoke more eloquently than the most silver-tongued orator could of the hospitality and culinary skill of the ladies who had the management of this very important department. Two Bands—the Trenton and Brighton Bands—were present, and enlivened the proceedings with music.

A large number of the prominent men for many miles around were present. Among them were noticed the following:—Hon. Mackenzie Bowell, Hon. Robt. Read, John White, M. P., Geo. Guilett, M. P., E. Cochrane, M. P., Col. Prince, U. S. Consul, R. Harcourt, M. P. P., J. Field, M. P. P., T. N. Scripture, of the Brighton *Ensign*; G. Bedford, Warden of Northumberland; J. V. Gravely, Mayor, D. H. Minaker, and Wm. Kerr, of Cobourg; N. Lingham, Mayor, Aldermen Laroche, Vandusen, Diamond, McInitch, Petrie and Clarke, and Messrs. E. McMahon, E. Holden, H. E. Filliter, and John Brenton, of Belleville; B. Gilbert, Clement Armstrong, and H. B. Purdy, of Sidney; Dr. Day, Mayor, and D. Gilmour, J. D. Macaulay, and G. W. Gordon, of Trenton; Wm. Anderson, Reeve of Ameliasburg; Geo. Roblin of Rednerville; A. F. Wood, Madoc; Geo. Keys, (Colborne *Express*) W. L. Payne, J. Boyce, J. D. Murray, Thos. Grier, T. P. Keeler, D. W. Christie, W. A. Towers, and E. Chapin, of Colborne; Arch. Campbell and R. T. Niles, of Lakeport; John Wilson, of Haldimand; N. B. Colcott (Welland *Telegraph*) T. F. Brown, M. McAuliff, J. Ward, N. Griffith, and G. L. Hobson, of Welland, (friends of Mr. J. D. Silcox, the contractor); and many others.

The ceremony took place at about 1:30 p. m. A space had been roped off, to the extent of about a hundred yards square, and the crowd thronged around the ropes, which threatened every moment to give way under the pressure. The preparations had been well made, but all the efforts of the managers could not prevent the crowd, as the supreme moment arrived, from giving way to their enthusiasm, breaking down the ropes, and crowding in upon the chief actors in the ceremony—to the great inconvenience, discomfort and even danger of the latter. Long before the ceremony took place, G. B. Simpson, the veteran keeper of the three Presqu'Isle lighthouses, stood grasping the handles of a plough, determined to be the first person to break up the ground preparatory to the "turning of the sod." His determination and persistence were rewarded. Messrs. Silcox and Mowrey, the contractors, had a carload of material—consisting of several large wheel scrapers, a dozen ordinary scrapers, and other tools—all on the ground, ready for active operations as soon as the ceremony was completed. The ground being ready, Mrs. Keeler entered the open space leaning on the arm of her son, Thos. Keeler, Esq. She was dressed in heavy mourning with her long crape veil thrown back over her bonnet. She bore herself with admirable composure, and performed her part in the ceremony with as much self-possession as if such rare public events were every-day occurrences in her life. Near her stood Hon. M. Bowell, A. Robertson, M.P., John White, M. P., and other prominent men. After a short delay, Mr. Thos. Webb, Reeve of the Township of Brighton, and Chairman of the Managing Committee, approached and presented Mrs. Keeler with the ceremonial spade, and read an address to her. The spade is a beautiful specimen of workmanship. It is of silver, about five inces wide at the base, and about the same length from the base to the point. On the front are three maple leaves beautifully wrought in gold. Two gold plates are on the handle, one of which bears the inscription:—"Presented to Mrs. J. Keeler by the citizens of Brighton and vicinity, on the occasion of turning the first sod of the Murray Canal, Aug. 31st, 1882." The following is the address:—

MRS. KEELER:—Respected Madam: It is with feelings of the most intense pleasure that we, the residents of this section of the country, welcome you here to-day to perform so important and agreeable a ceremony. The work which occupied the time, attention and talents of your beloved husband, and our late lamented and efficient representative, in his Parliamentary capacity, finds its fitting inaugural in the events of this auspicious day. We are sure that while it must cause you, as it does us, keen sorrow to reflect that he did not live to see the results of his earnest efforts in behalf of the Murray Canal, yet a certain amount of consolation comes to us all when we have you here to take the initial step toward the fulfilment of such an important undertaking. You will, therefore, please accept this shovel, with the inscription thereon, as a memento of the event, and to turn the first sod of the Murray Canal. We trust you may, with all assembled here to-day, see the completion of this great work, and witness the meeting of the waters of Presqu'Ile with the Bay of Quinte.

THOS WEBB,
Chairman of Canal Celebration Committee.
Brighton, 31st August, 1882.

The following reply was made:—

MR. CHAIRMAN AND GENTLEMEN,—I assure you that I fully realize the honor you do the memory of my late husband in asking me to turn the first sod of the Murray Canal. I thank you for your manifest appreciation of his efforts in behalf of this important work. I know that it was one of his most cherished projects for the advancement of the interests of his constituents, and that he labored long and faithfully for its accomplishment. An all-wise Providence decreed that he should not live to see this fulfilment of his hopes; but it is, as you intimate, a consolation to me to be assured that his labors were not in vain, and that they contributed to this successful result. The work is worthy of its promoters, and I trust it will be speedily completed, and that it will fully realize all our expectations. I thank you for your kindly address, and for the handsome memento of the occasion. I and my children will treasure them as showing that we may fully regard the Murray Canal as a grand monument to my dear husband's memory.

OCTAVIA KEELER.

The ceremony was then proceeded with. Mrs. Keeler placed in one of the scrapers a heaping shovelful of earth. Hon. M. Bowell seized a spade and added another. The crowd then pressed around, and amidst the eagerness of so many to "turn" some earth into the scraper, a great deal of confusion prevailed, and the crush was something which will not soon be forgotten by those who were in the vortex of that whirlpool of humanity. But the excitement soon subsided, and the crowd thronged toward the platform which had been erected in another part of the field, to hear the speeches.

The canal, it may be said by the way, will be cut due east and west from the point at which the cermony took place. It will run right through Mr. Lovitt's barn, which is only two or three hundred yards from that point.

The remainder of the afternoon was spent in speech-making. The platform was thronged with the speakers and other privileged persons, and there must have been three or four thousand curious listeness collected around it. The chair was taken by Thos. Webb, Esq., who called the meeting to order about 3 o'clock. The first speaker called on was

Hon. M. Bowell, who was greeted with three rousing cheers on coming to the front of the platform. He offered his congratulations to the assemblage on the auspicious event which had brought them together. It was eminently fitting that the ceremony of inaugurating the construction of the Murray Canal should be delegated to the widow of the late lamented Mr. Keeler, who had made the Murray Canal scheme the grand aim of his life. He trusted that the lady who had just performed her part in the ceremony so gracefully would live to witness not only the completion of the work, but to see the great volume of trade which would pass through the canal, and the benefits which it would undoubtedly bring to this whole district. The scheme of a canal to connect the waters of Lake Ontario with those of the Bay of Quinte had been for nearly a hundred years before the minds of the inhabitants of this Province, and had during all these years had warm advocates as well as opponents; unbelievers and croakers had thrown a hundred obstacles in the way of its construction, and it was owing to them that the canal was not now an accomplished fact. One of the first addresses ever passed by the Parliament of Upper Canada, was one affirming the opinion that this canal should be constructed—if not for commercial, at least for military reasons. The principal object of the Government in constructing the canal now was to further the commercial interests of the district and the country at large. God forbid that there should ever be occasion to use the canal for military purposes; but should such a necessity arise, it could be put to invaluable use in the shipment and transhipment of stores. In pushing on the construction of the Murray Canal, the Government had in view the immense quantities of grain which would soon be coming eastward from our great Northwest, and for which it was necessary to furnish ample carrying facilities; and it would be found that the canal will be indispensable to the easy shipment of the grain from the west to the sea coast. The Government could very well afford to go on with the work, having a large surplus in the treasury as the result of government carried on according to sound, economical, and honest principles. The last time he spoke in this vicinity on the subject of the Murray Canal, and promised its early construction, he was told that that was the old story which the people had heard so often and in which they had very little faith. What did those people think now, when they saw the work actually commenced, and in the hands of competent contractors, who are bound to put it through? He was glad to be able to say that the gentlemen who had secured the contract were among the most competent and reliable contractors in the country, and he had every confidence in their ability and intention to carry out with efficiency the work they had undertaken. The Government had acted on the right principle in their selection of the present site. They had taken the advice of the engineers who were deputed to survey the district, and to report as to the proposed route—these gentlemen having reported in favor of the route which was subsequently adopted by the Government. Unless very grave reasons could be urged against the site, it was the duty of the Government—a duty which they owed not only to the people of this district but to the commercial interests of the whole country—that they should adopt the route which presented the least engineering difficulties, and which was recommended by the engineers who had made a careful survey of all the routes which had been proposed. In conclusion, he hoped that the next public occasion in connection with the Murray Canal on which he would have the pleasure of meeting with the ladies and gentlemen he saw before him, and addressing them on that subject, would be the ceremony of opening the Canal; and he trusted that the lady who turned the first sod to-day, would be the first to pass through the Canal on its completion. Mr. Bowell took his seat amid loud cheers.

Hon. Robt. Read was the next speaker. He had been fifty years in this country and the construction of the Murray Canal had been a subject of agitation all that time. The gentleman who had taken the deepest interest in the subject was the late Jos. Keeler, M. P., whose life appeared to be devoted to the great work. He (the speaker) used to think that Mr. Keeler had more faith than usually falls to the lot of men, but this great occasion justified his faith and his work. The present Government had shown not only their willingness but their anxiety to construct works for the benefit of the country, and their record was a contrast in this respect to that of the last Government. It was the kind of a Government to support. In conclusion he hoped to be alive three years hence to attend the opening of the canal.

John White, M. P., was next called on. He regretted that the late Mr. Keeler was not present to witness this occasion, which may be regarded as in great part the fruit of his long and faithful efforts. The construction of the Murray Canal was but an illustration of the policy of the present Government, and as everyone should respect, honor, and love those who work in their interests, the people of this district should support the Government which had given them the Murray Canal. As the Murray Canal is commenced and is about to be pushed to completion, so the Pacific Railway and all the other great works necessary to the commercial greatness of Canada would be as courageously undertaken and energetically carried out, as this. When Sir Charles Tupper last spoke in Trenton he promised the people that so soon as the finances of the country would permit, the Murray Canal would be constructed. He also promised that the Trent Valley Canal would be constructed on the same conditions. The present occasion was an earnest of the faithful carrying out of the latter great national work. He concluded by dwelling on the great services performed in favor of the Murray Canal by the Minister of Customs, who had devoted a vast amount of valuable time to the work, and without his energetic co-operation the scheme could hardly have been brought to its present condition. He then proposed three cheers for Hon. Mr. Bowell, which were heartily given.

A. Robertson, Esq., M. P., then briefly addressed the assembly. A great deal of the success of the scheme now in progress was, he said, owing to the last speaker. If any one had a scheme to be carried through Parliament he could not do better than entrust it to John White. He regarded the Murray Canal not merely as a local or even Provincial work, but a work of great national importance. He dwelt at some length on the advantages to be secured by the construction of the Canal, and concluded by expressing a hope that he might be present two or three years hence at as great a demonstration as the present at the other end of the canal, when the completion of the work would be celebrated.

R Harcourt, Esq. M. P. P. for Monck, was next called on. Though differing in politics from previous speakers he was pleased that he was able to unite with them in congratulating the people not only of this district, but the people of the whole Province—yea of the Dominion—on the inauguration of this great enterprise. The inauguration of a great work, and its successful carrying out, were entirely different things. But the best guarantee that the construction of the Murray Canal would be well and energetically carried out was the fact that it was in the hands of Messrs. Silcox & Mowrey, the contractors, whose names were the best guarantee of good work to be performed. He had watched their contracts on the Welland Canal, and could assure his hearers that they were remarkable for the efficiency of their work. The time of the contract was three years, but he had no doubt that the work would be completed in two years.

MR. WM. KEER, ex-M. P. for West Northumberland, addressed the assembly briefly. After a few introductory remarks he said that one of the things which brought him here today was the pleasure of meeting with the Minister of Customs, whose personal friend he had been for many years. He acknowledged that a great amount of the credit of the commencement of the Murray Canal was due to Mr. Bowell—and that was saying a great deal for a Grit. He was sorry that Sir. John A. Macdonald was not able to be present, but the member of the Cabinet whose presence on this occasion was most appropriate, next to the presence of the Premier, was the Hon. Mackenzie Bowell. He then touched on the debt of gratitude which was due to the late Jos. Keeler, M. P., (the consummation of whose magnificent day-dream was now about to take place) from the people of this district and Province. The name of the late Jas. L. Biggar should also be mentioned in this connection, for that lamented gentleman had also devoted much time and labor to this work. After continuing in an eloquent strain for several minutes, Mr. Kerr wished a hearty God-speed to the Murray Canal and all connected with it. He would imitate a remark made by Lord Elgin in Boston on a similar occasion, and say that he was not here to forbid the banns of marriage between the waters of the Bay of Quinte and Lake Ontario. Three years hence (and three years was the proper period of courtship) he hoped to be present to witness the marriage ceremony.

G. Guillet, M P. for West Northumberland, delivered a brief address. He said that Cobourg was directly interested in the Murray Canal, for it hoped to share in the benefits which would result from the successful completion of the work. He was pleased to know that the Trent Valley Canal was also one of the probabilities of the near future. It was practical politics, such as were exemplified by such works as these, which were wanted in this new country, and not petty parish politics such as too often prevail among us.

E. Cochrane, M. P. for East Northumberland, was called on. He said he believed that ever since the Flood, nature intended that a canal should be constructed across the isthmus which connected Prince Edward with the mainland, and it was strange that nature's intention had not been carried out before now. He had never had any doubt about the construction of this canal; it had to come, and he knew it would come in spite of unbelievers and croakers. A gentleman in Brighton told him the other day that even yet he did not believe that the Murray Canal would be constructed—that it was a trick on the part of the Government; and he would not believe in its construction until he sailed through it. It was such men as those who had hindered the carrying out of this great project until now. He touched lightly on the question of routes, expressing his confidence in the intelligence and professional skill of the engineers, who had reported in favor of the present route. The benefits which, he believed, would certainly result to this district from the construction of the canal, were dwelt on—especially as to the shortening of distances between bay ports and the great centres of trade.

MR. T. F. BROWN, of Welland, endorsed what had been said of the energy of the contractors, Messrs. Silcox & Mowrey. They were worthy of all confidence.

COL. PRINCE, U. S. Consul, being called on, gave expression to his faith in the great results which would follow the construction of the canal. This binding together of the east and west would be watched with more than ordinary interest by him, and he hoped to be present to help celebrate the completion of the canal. Though the American people were great and prosperous, they did not look with jealousy upon the prosperity and enterprise of their younger neighbors, the more so because they knew that anything which tended to directly promote prosperity among neighboring nations, caused indirect prosperity to themselves.

Mr. G. L. Hobson, Mr. Field, M. P. P. for West Northumberland, and Mr. Mowrey, one of the contractors, also delivered brief addresses.

Hon. M. Bowell then moved a vote of thanks to the chairman. Dr. Day seconded the motion, and, in doing so, dwelt at some length on the sanitary advantages which would result from the construction of the canal, owing to the purification of the upper waters of the bay. The motion was carried unanimously.

The Assembly then dispersed after cheers had been given for the ladies and for the Queen.

In the evening the Committee which had the management of the demonstration entertained the invited guests at a banquet in the Clarke House. The majority of the visitors from Belleville arrived home on the midnight express.

The Diamond Dyes always do more than they claim to do. Color over that old dress, It will look like new. Only 10 cents

Excellent reasons exist why *Dr. Thomas Eclectric Oil* should be used by persons troubled with affections of the throat or lungs, sores upon the skin, rheumatic pains, corns, bunions, or external injuries. The reasons are, that it is speedy, pure and unobjectionable, whether taken internally or applied outwardly.

SMITH MEDICINE Co.

GENTLEMEN,—I have made a trial of one box of Dr. Smith's Great German Worm Remedy, with such good effect that I have no hesitation in recommending it to the public as a prompt and reliable medicine. In fact, those who use it once will always do so. Yours truly,
J. Harvie, 172 Cadieux street.

A GOOD INVESTMENT.

PRIVATE tenders by letter will be received up to Thursday, the seventh day of September next, for the purchase of property situated on Campbell, Pinnacle and Front Streets, in the city of Belleville, known as the Ridley property—as follows:

1st.—Being part of lot 27 on east side of Front Street, and being north half of subdivision No 3, measuring on Front Street 21 feet 2 inches, by 120 feet deep and 21 feet in the rear on the lane there situate.

2nd.—Part of lot 21 on west side Pinnacle Street, being subdivision No. 10, measuring on front and rear 42 feet 8 inches, by 120 feet deep, and bounded on Campbell Street on north side of said subdivision.

3rd.—Also other parts of said lot 26 on west side of Pinnacle Street, being subdivision No. 13, measuring 42 feet 5 inches on Pinnacle Street, by 128 feet deep and 41 feet in rear fronting Campbell Street, and bounded on east by a lane 12 feet wide there situate.

On No. 1 is situated a brick veneered store with dwelling above.

On No. 2 is situated two brick stores with rooms above, also frame stable in rear.

On No. 3 is situated four brick stores similar to those on No. 2, also a frame building on the corner of Campbell and Pinnacle Streets.

Tenders will be recived for the whole property en-bloc, or for each parcel separately, and to be addressed to

SCARTH, COCHRAN & CO.
General Managers,
32 Toronto Street, Toronto.

P. S.—The highest, nor any tender not necessarily accepted.

GLASGOW WAREHOUSE.

Daily Intelligencer.

BELLEVILLE, FRIDAY, SEPT. 1.

City and Vicinity.

THE cells held but one prisoner last night.

THE old Belleville Rifles will meet to night to make arrangements for going into camp at Cobourg.

GEO. TITTERSON, a drunk, was brought before the P. M. this morning and fined a dollar and costs.

DR. ALLAN, of this city, is suing the *Monetary Times* for $2,000, for an alleged libel published last year.

A PRACTICE of the Oka Lacrosse Club will be held this evening, and it is desirable that every member should attend.

THE Troublers will play the Silver Leaf Base Ball Club of Napanee next Wednesday, and will run a private excursion on that day.

THE annual exhibition of the County of Prince Edward Agricultural Society will be held in Picton on Thursday, 5th October.

MR. E. A. MCDOWELL has organized a new theatrical company, and will make a tour through Canada in October and November.

THE unpleasant affair between Geo. Purdy and Albert Tucker, noticed in yesterday's issue, has been amicably arranged between the parties.

THE attention of our readers is directed to the advertisement of Miss Downs, fashionable dress maker, in another column. All orders entrusted to her will receive due attention.

MISS ASHLEY and Mr. Lynch have returned home from the Shorthand Writers' Convention, held at Toronto this week. The paper read by the former was very favorably received.

THE thanks of those rwho went from Belleville to take part in or witness the ceremony of turning the first sod of the Murray Canal yesterday, are due to Mrs. Eyre, of Brighton, for many attentions and kindnesses.

THE steamer *Maxwell* arrived home from the Thousand Islands at 6:30 this morning, with a pretty well exhausted party of excursionists. The party, however, declared that they had "a splendid time" at the Islands.

IN addition to those named yesterday, the following "Belleville boys" passed their law examinations in Toronto: H. N. Roberts, primary; F. W. G. Thomas graduated, and amongst the matriculants was J. F. Wills,

THE excursion train which was run to Campbellford yesterday returned last night about 9 o'clock. The excursionists report a very pleasant day spent near Campbellford, notwithstanding that the spot chosen for the picnicking ground was hardly suitable for such a purpose.

MR. WALTER FANNING has just sold to Mr. S. Defries, Conductor on the G.T.R., a fine bay 3 year old colt, 15 hands 3in. in height. It was sired by Clarion Chief out of a dam sired by Tippoo, and is a beautiful specimen of horseflesh. It was raised by Wm. Hall, front of Thurlow.

A CASE of assault from the country was tried to-day by the P. M. A farmer had engaged a man to work for him, but had subsequently discharged him. The man lived in a house owned by the farmer, and the latter tried to compel him to leave it before his time was up. Among other methods used was an attempt to pump dry the well on the premises. But the wife of the laborer threatened those who made the attempt, and even took the axe to one of them. She was fined $2.00 and costs.

THE Central School building has been thoroughly cleaned and put in good condition during the holidays, and is a model of a neat and cheerful school building. Mr. D. Serviss, the caretaker, deserves credit for the care and thoroughness displayed in the appearance of the interior of the building. Some of the desks in the classroom are, however, badly cut and marked where the boys sit, and nearly all the blackboards are in bad repair. The latter should be replaced. Miss Hunter's room appears to be in better condition than any other in the building.

THE public schools opened to-day, and this morning the second scene of life, according to Shakspere, was exemplified on every hand—namely, "the schoolboy with satchel and shining morning face, creeping like snail unwillingly to school." The real work of the term will not begin until Monday.

GREAT complaints are made by owners of property in the city about the depredation made nightly upon their gardens. Mrs. Woods, near Leavens' Cider works, complains that her fence and crops have been nearly destroyed. The Police are on the track of the mauraudors, who we hope will receive justice.

WEATHER PROBABILITIES—Toronto, Sep. 1.—Lakes, moderate to fresh south-west to north-west winds, cloudy to fair slightly cooler weather, with local rains.

INLAND REVENUE.—The following are the Excise collections in the Inland Revenue division of Belleville for the month of Aug. 1882:—

Petroleum inspec. fees	$ 12 00
Licenses	40 00
Malt	55 00
Tobacco	1,935 40
Spirits	6,096 62
	8,139 02
August, 1881	6,424 44
Increase	$1,714 58

BEFORE purchasing Ready made Clothing be sure and look through HENNESSY'S stock. He has over 300 suits in all, and is offering them at actual cost.

Sporting Notes.

On Aug. 30, the Lindsay cricketers beat those of Peterborough at Peterborough by two wickets.

The Peterborough and Orillia Lacrosse clubs play to-day at Peterborough for the district championship.

A return match between the Okas and the Kingston Maple Leafs will be played about two weeks hence.

News Condensed.

—Prince Leopold is slightly better.

—Cheese was steady in Liverpool yesterday at 56s.

—A firm of London stock brokers have been robbed of £15,000 in stocks.

—The population of Winnipeg has increased from 10,000 to 25,000 in one year.

—Building operations in Winnipeg this year are estimated at nearly $3,000,000.

—Fifteen hundred men are employed in the different contracts of the Ontario and Quebec Railway.

—A second line of steamships, to trade between Montreal and Newcastle-upon-Tyne, has been organized.

—Sara Bernhardt, after performing at Bradford, Eng., on Wednesday, was seized with a severe spitting of blood.

—The United States sent to Great Britain 9½ million newspapers and received from there 7½ millions during the past fiscal year.

—The Customs revenue for the Port of Toronto during the month of August was the largest ever received there in any one month.

—Jonas Nauman, reeve of Rainham Township, Haldimand County, Ont., committed suicide on the night of the 22nd inst., by hanging. No reason can be obtained for the rash act.

—The New York Central Railway Co. contemplates building a fifth track from Buffalo to New York, to be devoted exclusively to the important and constantly increasing cattle trade.

—On Wednesday morning at 2 o'clock the dwelling and blacksmith shop belonging to Byron Smith, about two miles from Demorestville, were burned to the ground. They were insured for $1,400 in the Watertown Company.

—A sad accident happened at Hollin, on James Bruce's farm. While drawing in a load from the field, Arthur Nixon fell from the load on a three tined fork, which entered his breast and penetrated to the heart, killing him instantly.

*The term *hydra* may be used to represent any manifold evil. If you would battle successfully with this many-headed monster of disease you will find it expedient to keep Mrs. Pinkham's Vegetable Compound always at hand.—*Dr. Banning.*

—The Committee of the Methodist Episcopal Church, appointed to consider the question of Methodist Union, have reported to the General Conference, approving the efforts now being made to merge the Methodist Churches into one united Methodism for British America, and recommending that a committee be appointed to confer with committees of the Methodist other bodies to negotiate a union if possible with all or any of those bodies.

⁂"Do boldy what you do at all." Boldly do we affirm that Kidney-Wort is *the* great remedy for liver, bowels and Kidney diseases, rheumatism and piles vanish before it. The tonic effect of Kidney-Wort is produced by its cleansing and purifying action on the blood. Where there is a gravelly deposit in the urine, or milky, ropy urine from disordered kidneys, it always cures.

—The Governor-General and Princess Louise left Quebec yesterday for Montreal, *en route* for British Columbia. They will likely spend two days in Toronto, and proceed by special train by way of Niagara Falls, and Chicago and go through to San Francisco. The Vice-Regal party comprises His Excellency the Governor-General, Her Royal Highness the Princess Louise, and two ladies-in-waiting, Lieut.-Col. DeWinton, R. A., Military Secretary, Hon. Wm. Bagot, Comptroller, Hon. J. Bagot, A. D. C., and thirteen servants.

CETEWAYO'S VISIT TO THE QUEEN.—At Cetewayo's recent visit to Queen Victoria at Osborne there were present the Princess Beatrice, the Duchess of Albany, and the Duchess of Connaught. Her Majesty wore the orders of St. Michael and St. George, and the Star of India. The King was dressed with great care in a suit of black, with a silk hat. When shown into the presence of the Queen he stepped in advance of his chiefs, and, "bowing profoundly," it is recorded, "raised his right hand above his head, repeating twice in the Zulu tongue the words 'Au, the Queen.'" What was further said at the interview does not appear, but after it was ended he was shown over the house and through the garden. Luncheon was served to him and his companions at 1.30, they being joined by the Earl of Kimberley, Sir H. Ponsonby, and the ladies in waiting.

O. Bortle, of Manchester, Ontario Co., N.Y. writes:—"I obtained immediate relief from the use of *Dr. Thomas' Eclectric Oil*. I have had Asthma for eleven years. Have been obliged to sit up all night for ten or twelve nights in succession. I can now sleep soundly all night on a feather bed, which I had not been able to do previous to using the Oil."

PROCLAIM it far and wide that DR. VAN BUREN'S KIDNEY CURE not only immediately relieves all Kidney diseases, but what is more important to the unfortunate sufferer, will ultimately cure him effectually.

THE WAR IN EGYPT.

THE EGYPTIANS DISCOURAGED.

Some of Arabi's Spies Captured.

The Turko-Greek Trouble.

LONDON, Sept. 1.—A wounded Egyptian officer has informed his captors that the Egyptians are much discouraged at the result of the recent fighting around Kassassin. Arabi personally addressed his men before the fight on Monday, and told them that the attack upon his rear having thrown his plans into confusion, it was absolutely necessary to defeat the British. This accounts for the determination shown in the attack which ended so disastrously for them. The enemy's position was reconnoitered yesterday and valuable information gained. It is now thought that his entrenchment are not so strong as it was supposed. Several of Arabi's spies, who have been signalling from the British lines, have been arrested and handed over to the native tribunal. The Porte still continues its endeavour to procure England's consent to a landing of troops at Alexandria, but Lord Dufferin has insisted that the Porte shall adhere to the final draft of the Convention. Greece is assuming a warlike demeanour, and is massing troops rapidly. Another outbreak upon the Turco-Graeco frontier is looked for hourly, and is rumoured has broken out already. Official accounts received at Athens state that the Turks were worsted in the recent engagement and now ask for an armistice.

LATEST FROM THE SEAT OF WAR.

A GALLANT ACT.

ALEXANDRIA, Sept. 1.—Seamen from the ironclad *Minotaur* and a Company of the 53rd Regt. approached the enemy's position opposite Ramleh last evening, and blew up a house on the canal which had long been a point of advantage for the enemy's sharp-shooters.

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists.

MORNING DESPATCHES.

EUROPEAN.

ASCENT OF MOUNT ARARAT.

ST. PETERSBURG, Sept. 1.—On the 23d ult. a party of three persons ascended to the highest peak on Mount Ararat. According to savant Chadzko, who in 1850 also accomplished the ascent, the summit of Mount Ararat is 16,916 feet above the sea level. The snow line is never lower than 11,000 feet.

RAVAGES OF "YELLOW JACK."

MATAMORAS, Sept. 1.—There were 6 deaths from yellow fever here yesterday, including 2 soldiers. There have been 214 deaths from the disease here this month.

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinary or Liver Diseases, as they only relieve for a time and make you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

AMERICAN.

THE YELLOW FEVER.

AUSTIN, Texas, Sept. 1.—The yellow fever is spreading to the ranches above Brownsvillle, on the Mexican side of the Rio Grande.

THE INDIAN TROUBLES.

TUBAC, Arizona, Sept. 1.—Before recrossing into Arizona, the Apaches whipped the Mexican troops at San Antonio who numbered about 200, then divided into three parties. Four Americans and a Mexican were killed on Sunday near Bacunchi.

AFTERNOON DESPATCHES

STEAMSHIP LOST.

LONDON, Sep. 1.—The British steamer *Lake Nepigon*, Capt. Campbell, which sailed from Liverpool yesterday for Montreal, is aground on Arklow bank. A boat containing part of her crew and a number of passengers, arrived at Wicklow this morning. The missing steamer will probably be a total loss. The agents of the steamer say there were probably 700 persons aboard. The chief officer of the *Lake Nepigon* telegraphs that the steamer went aground this morning. She carried 23 saloon, and 79 steerage passengers. Her crew numbered 53 persons.

THE IRISH POLICE.

DUBLIN, Sept. 1.—Over 300 members of the Metropolitan Police force have been dismissed. It is expected that hundreds will resign. Great excitement prevails.

TURKEY AND GREECE.

ATHENS, Sept. 1.—It is stated that the Powers have advised an armistice between the Turks and Greeks. Greece is willing to agree thereto if the Greeks are allowed to continue to occupy the positions they held before the fight.

CONSTANTINOPLE, Sept. 1.—The Porte has resolved to surrender the disputed point on the frontier on condition that it be declared neutral territory.

CETEWAYO HOMEWARD BOUND.

LONDON, Sep. 1.—Cetewayo started for South Africa to-day. He was much cheered on the way to the railway station.

PEARLS.—Get your mouth full by using "TEABERRY," the new wonder for the Teeth and Breath. Brush vigorously. See directions. 5 cent samples.

Professor Cowlie's Great Golden Seal Discovery.

The greatest and latest discovery of the nineteenth century. A sure and permanent cure for Fits, Hysterics, Dizziness, and all nervous complaints. When ordering a bottle send full description of disease, age and condition of patient, advice free, price $1.00 per bottle. RICHE, BARBEAU, & Co., 101 St. Francios Xavier St., Montreal, sole agents for Canada.

Consumption, that dread destroyer of the human race, is often the result of bad blood and low vitality, a scrofulous condition of the system. Burdock Blood Bitters cure Scrofula in its worst form.

Dr. E. C. West's Nerve and Brain Treatment is a never failing cure for Nervous Neuralgia, Nervous Headache, Overworked Brain, &c. Sold at James Clarke & Co's.

C. BRITTON, Lindsay, Ont., writes:—I have much pleasure in recommending Baxter's Mandrake Bitters in all cases of Jaundice, Biliousness, Sick Headache and Liver Complaint, for they have given universal satisfaction, and I have sold more of them the past season than any other one patent medicine.

A New Principle.

The principle upon which PUTNAM' PAINLESS CORN EXTRACTOR acts is entirely new. It does not sink deep into the flesh, thereby producing soreness, but acts directly upon the external covering of the corn, separates it from the under layer, removes the direct pressure from the part, and at once effects a radical cure, without any pain or discomfort. Let those who are suffering from corns, yet skeptical of treatment, try it, and by the completeness of the cure they will be ready to recommend Putnam's Painless Corn Extractor to others. Sold by W. R. Carmichael.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, New York City.* [w8m143eod

For 30 Years

The dark-eyed and lovely daughters of Spanish America have used MURRAY & LANMAN'S FLORIDA WATER as their only cosmetic and toilet perfume. It is the most fragrant, as well as the most lasting of all Floral Waters, and possesses refreshing and invigorating properties not contained in any other preparation of the kind.

Hall's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by Jas. Clarke & Co., Belleville, Ont.

MARRIED.

By the Rev. Mr. Burns, at the residence of the bride's father, Mr. ALEXANDER STEWART, of Montreal, to ALICE MAUD, fifth daughter of Harry Mayo, Esq., of this city.

Commercial.

KIDNEY-WORT

FOR THE PERMANENT CURE OF CONSTIPATION.

No other disease is so prevalent in this country as Constipation, and no remedy has ever equalled the celebrated Kidney-Wort as a cure. Whatever the cause, however obstinate the case, this remedy will overcome it.

PILES. THIS distressing complaint is very apt to be complicated with constipation. Kidney-Wort strengthens the weakened parts and quickly cures all kinds of Piles even when physicians and medicines have before failed. ☞ If you have either of these troubles

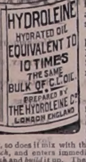
HYDROLEINE



(HYDRATED OIL.)
An artificially digested Cod Liver Oil,

For Consumption, Winter Cough, Affections of the Chest and all Wasting Diseases.

Prescribed by the leading physicians of England, the United States and the Dominion of Canada.

A WONDERFUL FACT.

HYDROLEINE *mixes perfectly with water, showing a complete artificial digestion of the oil,* and just as the HYDROLEINE mixes with the *water,* so does it mix with the liquid contents of the *stomach,* and enters immediately into the *system to nourish and build it up.* The efficacy of HYDROLEINE IS NOT CONFINED to cases of Consumption, as from its valuable tonic effect on the nervous system in addition to its special stimulating action on the organs concerned in the production of *Fat* in the body, it causes *marked increase in weight in persons of naturally thin habit, who do not present any evidence of disease.*

Unlike *ordinary* preparations of Cod Liver Oil, it produces no unpleasant eructation or sense of nausea and should be taken in such very *much smaller doses* according to the directions, as will ensure its *complete assimilation*; this, at the same time, *renders its use economical in the highest degree.*

For sale by all Druggists.

We have sold the above remedy for several months and find it spoken of very favorably by both the medical profession and the public.

We can safely recommend it to parties needing such a remedy.

Daily Intelligencer.

THE UNLOVED WIFE

BY MRS. E. D. E. N. SOUTHWORTH.

'But the Senor had his proofs, and these were corroborated by a strong family likeness.

'There was much cross-questioning, and close investigation. The Marquis learned all the facts of the wreck of the *Falcon*, which, by the way, his own memory confirmed.

'He heard all about the death of his sister and brother-in-law, and the survival and rescue of Mate Zebedee Wyvil and the infant Zuniga, by the *Polly Ann*.

'He heard all the details of the adoption, rearing and education of the young Zuniga by the mate, Zebedee Wyvil, and of the life of the youth at home, at college, and at sea, up to the time of his return from his voyage with Captain Pentecost.

'But he learned nothing of the runaway marriage, the trial for murder, the transportation to the penal colonies, the escape thence, the theatrical career, and so on.

'In short, the Marquis ——— learned all of his young relative that it was expedient that he should know, and nothing more.

'And when he was satisfied that his nephew wanted nothing whatever from him, either of money, influence, or preferment, or any other favor, and when he was pleased to see that the young man was fairly presentable in society, he graciously acknowledged him, entertained him, and presented him to his friends.

'You know the rest.

'But this must be acknowledged—that *never*, in his whole successful career as an actor, did he, 'world-renowned artist, Mr. Alfred Ancillon,' undertake so difficult a part, or achieve so splendid a triumph, as when he caused himself to be introduced to his own daughter as the Senor Zuniga, and thoroughly deceived her in regard to his identity! For although, at first, she was startled out of her self-possession by what she considered a most amazing likeness, yet still in the end she was completely deluded.

'And now one word as to the fine art of successful disguise. It does not consist in coarse contrivances, like staining the complexion of a different hue, or wearing a wig of different colored hair, or anything of that sort, which does not alter the form of the features, or the character of the countenance. It consists in very refined touches, invisible to the naked eye, and yet capable of changing the whole individuality of the face, so that, though it may leave a likeness, it will seem only a likeness. These superfine, magical touches are delicate strokes with a camel's hair pencil at the corners of the eyebrows, the corners of the eyelids, corners of the nostrils and of the mouth, changing the angles up or down as may be required, and so changing the very shape of the features so delicately that the art cannot be detected. Then, with a slight modification in the glance of the eye, the tone of the voice, and the gesture of the hand, the transformation is complete.

'In this artistic manner Zuniga deluded everybody as to his identity, so that if any one had ventured to raise the question whether or not he was the man known to the play-going public as Mr. Alfred Ancillon, his intimate friends must have scouted the idea, and while admitting the likeness, denied the identity, because, and so forth, and so forth.

'You know the rest of the adventurer's story quite as well as he does; so little more need to be added, except that he has bitterly repented all the sorrow his recklessness brought upon his daughter, and even upon her husband. It is not certain that his recovery of his proper name, Zuniga, will lead to any lasting benefit to himself or any one connected with him. As the only son and heir of Don Luis Zuniga, he would be entitled to large landed estates and much funded wealth, all held in abeyance. But courts of law would require more proof of his identity than it may be practical to produce, so it is very doubtful whether his estates can ever be recovered. That is all, friends.'

As the Senor Zuniga concluded his story, he arose, kissed his daughter, and took a turn up and down the room.

'You have been more sinned against than sinning! What a life you have led!' exclaimed Tudor Hereward.

'And I am not yet forty years of age! An age at which many men, and women too, actually first marry and begin life!' said Zuniga, pausing in the midst of his walk.

'*You* must begin a happier life from this time forth, dear,' said Lilith, tenderly.

'I—I—I—think— Don't you think as we had better have luncheon now? Everybody looks so tired,' said Mrs. Downie, wiping her eyes.

Zuniga broke into one of his hilarious laughs and seconded the motion, which was carried unanimously.

CHAPTER LXX.

CONCLUSION.

The Herewards, Senor Zuniga and Mrs. Downie, according to arrangement, lived on in the house on the Champs Elysees during the month of the Prince and Princess Gherardini's bridal tour.

In that month they saw—they even became familiar with—all that was most worth seeing in Paris.

They also made excursions to all places of interest in easy reach of the city.

To well-read persons like the Herewards and Zuniga, who from books were prepared for all things, there could be no surprise; but to Aunt Sophie every day was a new life, every scene a new world, so that she came into a chronic state of amazement.

At the end of the month the Prince and Princess Gherardini returned to Paris.

As Mr. Hereward had still a few days of leisure left, his host and hostess insisted on his spending those days as their guests in Paris.

Mrs. Downie was easily persuaded to stay as long as Lilith should stay.

The Prince and Princess gave a series of brilliant entertainments at the commencement of the Paris season.

Mr. and Mrs. Tudor Hereward always assisted them in receiving. And the Paris world whispered together:

'So *that* was the distinguished statesman to whom Madame Wyvil was betrothed—Monsieur Hereward of the American Legation at the Court of ———.'

Mrs. Downie, in the same black satin dress trimmed with black Brussels lace and black bugles, with a white point lace cap on her head—all of which had been presented to her by the princess to be worn at her wedding—was always present with the receiving party, dodging a little behind whenever a great dignitary, covered with stars, crosses and orders, or a grande-dame blazing with diamonds, approached the circle; yet so thoroughly enjoying the splendid pageant that at length she grew really alarmed as to her spiritual condition and privately spoke her mind to Lilith, as follows:

TO BE CONTINUED.

CINGALESE. A name well known in connection with the HAIR RENEWER, which restores grey hair to its natural color by a few weeks use. Sold at 50 cents per bottle by all Druggists.

Samson lost his strength with his hair. Thousands of men and women lose their beauty with theirs, and very large numbers restore the ravages of time by using the famous Cingalese Hair Restorer. Sold at 50 cents per bottle by all Druggists.

The most wonderful curative remedies of the present day, are those that come from Germany, or at least originate there. The most recent preparation placed upon the market in this country, is the GREAT GERMAN INVIGORATOR, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangements of the nervous system. For sale by druggists, or sent free by mail on receipt of the price, $1.00 per box, or six boxes for $5.00. Address James Clark & Co., Sole agent for Belleville. Send for circular.

Important to Farmers, etc.

If you would keep your kine, cattle, hogs, horses, sheep and poultry in the most perfect health and remunerative condition, mix HARVELL'S CONDITION POWDERS occasionally with their feed. These great specifics are *the wealth* of the barn yard. See to it! Sold every where.

AFTER many years of patient investigation DR. VAN BUREN, of Germany, finally succeeded in perfecting a Kidney Cure that would permanently relieve all cases of Kidney Disease. Be sure and ask your Druggist for DR. VAN BUREN'S KIDNEY CURE.

Rest and Comfort to the Suffering

"Brown's Household Panacea" has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful," "Brown's Household Panacea," being acknowledged as the great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle. 264ly

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrah, Bronchitis, Asthma and Lung Disease by Dr. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the seat of disease. Read and judge for yourself:—

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. JOHN P. WHELAN, Manager of POST and TRUE WITNESS, Montreal. Mr. C. HILL, Montreal, catarrh and bronchitis. Mr. DEBOUCHERVILLE, of the Indian Department, Ottawa, catarrh of many years; now cured. Mr. GEO. AGER, Ottawa, catarrh and lung disease; cured. Mrs. SMITH, London, wife of Medical Detective, cured of catarrh. GEO. MAGUIRE, Toronto, 482 Adelaide street West; daughter cured of asthma. GEORGE WILLIS, Exeter, Ont., catarrh and bronchitis. J. D. ARMSTRONG, 186 Yonge street, Toronto, catarrh and catarrhal deafness. THOMAS TELFER, 12 Melinda street, Toronto, asthma; cured. Mr. BENJ. A. DRAKE, St. Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. BENOIT, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma and bronchitis for over eight years, and who is now perfectly cured.

Mrs. ADAMSON, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitating in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis. JOHN C. FLEMING, Editor of POST and TRUE WITNESS, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write, inclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souvielle and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

$1,000 Forfeit!

Having the utmost confidence in its superiority over all others, and after thousands of tests of the most complicated and severest cases we could find, we feel justified in offering to forfeit One Thousand Dollars for any case of Coughs, colds, sore throat, influenza, hoarseness, bronchitis, consumption, in its early stages, whooping cough, and all diseases of the throat and lungs, except Asthma, for which we only claim relief, that we can't cure with West's Cough Syrup, when taken according to directions. Sample bottles 25 and 50 cents; large bottles one dollar. Genuine wrappers only in blue. Sold by all druggists, or sent by express on receipt of price. JOHN C. WEST & Co., sole proprietors, 81 and 83 King St. East Toronto, Ont. For sale at Jas. Clarke & Co.'s Drug Store.

WILLIAMS' SINGER,

IS Still ahead of all competiotrs,

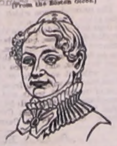
A NOTED BUT UNTITLED WOMAN.
[From the Boston Globe.]



Messrs. Editors :—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of *either* sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Philadelphia, Pa. (3) Mrs. A. M. D.

KIDNEY-WORT
IS A SURE CURE
for all diseases of the Kidneys and
LIVER

It has specific action on this most important organ, enabling it to throw off torpidity and inaction, stimulating the healthy secretion of the Bile, and by keeping the bowels in free condition, effecting its regular discharge.

Malaria. If you are suffering from malaria, have the chills, are bilious, dyspeptic, or constipated, Kidney-Wort will surely relieve and quickly cure.

In the Spring to cleanse the System, every one should take a thorough course of it.

SOLD BY DRUGGISTS. Price $1.

UNCONDITIONAL, INCONTESTABLE
LIFE POLICIES.

THE objection is often made that the Companies may take advantage of some of the conditions on their Policies, and thus either avoid entirely the payment of claims, or compromise with the widow for a small sum. This argument cannot be used against

THE SUN
LIFE ASSURANCE CO'Y OF MONTREAL,

which issues absolutely unconditional policies to selected lives. There is no restriction of any kind on them. The assured may travel to any part of the world without extra premium. He may change his occupation at will, or do anything else he chooses. The contrast is remarkable with other policies. Ask an agent to show you one; it speaks for itself.

TO NERVOUS SUFFERERS—THE GREAT EUROPEAN REMEDY—DR. J. B. SIMPSON'S SPECIFIC MEDICINE.

DR. J. B. SIMPSON'S SPECIFIC MEDICINE is a positive cure for Spermatorrhea, Impotency, Weakness, and all diseases resulting from Self-Abuse, as Nervous Debility, Irritability, Mental Anxiety, Languor, Lassitude, Depression of Spirits and Functional Derangements of the Nervous system generally, Pains in back or side, Loss of memory, Premature Old Age and diseases that lead to Consumption, Insanity, and an early grave, or both. No matter how shattered the system may be from excesses of any kind, a short course of this Medicine will restore the lost functions and procure Health and Happiness, where before was despondency and gloom. The Specific Medicine is being used with wonderful success. Pamphlets sent free to all. Write for them and get full particulars.

Ayer's
Hair Vigor,

FOR RESTORING GRAY HAIR TO ITS NATURAL VITALITY AND COLOR.

IT is a most agreeable dressing, which is at once harmless and effectual, for preserving the hair. It restores, with the gloss and freshness of youth, faded or gray, light, and red hair, to a rich brown, or deep black, as may be desired. By its use thin hair is thickened, and baldness often though not always cured. It checks falling of the hair immediately, and causes a new growth in all cases where the glands are not decayed; while to brashy, weak, or otherwise diseased hair, it imparts vitality and strength, and renders it pliable.

The VIGOR cleanses the scalp, cures and prevents the formation of dandruff; and, by its cooling, stimulating, and soothing properties, it heals most if not all of the humors and diseases peculiar to the scalp, keeping it cool, clean, and soft, under which conditions diseases of the scalp and hair are impossible.

As a Dressing for Ladies' Hair

The VIGOR is incomparable. It is colorless, contains neither oil nor dye, and will not soil white cambric. It imparts an agreeable and lasting perfume, and as an article for the toilet it is economical and unsurpassed in its excellence.

Farmers, Read This

THE ROYAL INSURANCE CO.
Of England.

CAPITAL	$10,000,000,
Funds Invested	$23,000,000
Annual Income	5,000,000.

Over $600,000 invested in Canada for the protection of Canadian Policy holders.

Farm Property Insured against damage by Lightning. Losses to live stock by lightning and fire anywhere on the Farm made good.

FACTS WORTH REMEMBERING.

The Royal has the largest surplus funds of any Fire Insurance Company in the world.

The Royal has the largest deposit with the Dominion Government of any other Insurance Company.

The conditions of the Royal's Policies are more liberal than those of other Companies doing business in Canada.

In conclusion remember that security should be the first consideration, and that it is to your interest to insure with the Company that gives the *greatest* security. You may better carry your own risk than entrust it where you have not absolute security.

LOCAL AGENTS.

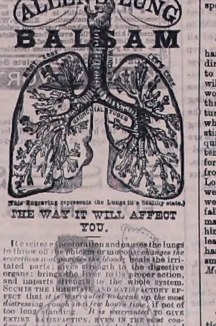
T. DONNELLY, Belleville,
DISTRICT AGENT



This Engraving represents the Lungs in a healthy state.

THE WAY IT WILL AFFECT YOU.

It excites expectoration and causes the lungs to throw off the phlegm or mucous; *changes the secretions and purifies the blood;* heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. SUCH IS THE IMMEDIATE AND SATISFACTORY EFFECT that *it is warranted to break up the most distressing cough in a few hours time,* if not of too long standing. *It is warranted* TO GIVE ENTIRE SATISFACTION, EVEN IN THE most *confirmed cases of Consumption! It is warranted not to* produce costiveness (which is the case with most remedies), or affect the head, as it contains no opium in any form. *It is warranted to be perfectly harmless* to the most delicate child, although it is an active and powerful remedy for restoring the system. *There is no real necessity for so many deaths by Consumption,* when ALLEN'S LUNG BALSAM will prevent it if only taken in time. Physicians having consumptive patients, and who, having failed to cure them with their own medicine, we would recommend to give ALLEN'S LUNG BALSAM a trial. *Sold by all Druggists.*

CORNS.

CHILDREN OF THE RICH AND POOR CONTRASTED.

JAMES RUSSELL LOWELL.

The rich man's son inherits lands,
And piles of brick, and stone, and gold,
And he inherits soft white hands,
And tender flesh that fears the cold,
Nor dares to wear a garment old;
A heritage, it seems to me,
One scarce would wish to hold in fee.

The rich man's son inherits cares—
The bank may break, the factory burn,
A breath may burst his bubble shares;
And soft white hands could hardly earn
A living that would serve his turn;
A heritage, it seems to me,
One scarce would wish to hold in fee.

What does the poor man's son inherit?
Stout muscles and a sinewy heart,
A hardy frame, a hardier spirit;
King of two hands he does his part
In every useful toil and art;
A heritage, it seems to me,
A king might wish to hold in fee.

What does the poor man's son inherit?
A patience learned of being poor,
Courage, if sorrow comes, to bear it,
A fellow feeling that is sure
To make the outcast bless his door;
A heritage, it seems to me,
A king might wish to hold in fee.

Both, heirs to some six feet of sod,
Are equal in the earth at last,
Both children of the same dear God,
Prove title to your heirship vast
By records of a well-fill'd past;
A heritage, it seems to me,
Well worth a life to hold in fee.

Sunday Reading.

Difficulties We all Experience.

It is easy to see how another man's life can be free from the distractions and temptations which interfere with our religious enjoyment. It is not so easy to see how we could live nearer to God without some change in our occupation and surroundings. And this is just as true in the case of one person as another. The business man thinks it must be easy for a clergyman to have faith and to rest in it: for religion is the chief theme of his activities and thoughts. The clergyman, on the contrary, feels that he is in more danger of formalism than the Christian man of business, because religious utterances are in the daily line of his profession. And so in every sphere of life. As Alexander McLaren has phrased it: "The heavens touch the earth on the horizon of our vision, but it always seems furthest to the sky from the spot where we stand."

The Ideal.

There is no human pursuit or calling in which the influence of the ideal may not be felt. The man who never knows the ideal, is sure to find naught but dust and ashes in that which he calls "real." There is a noble lesson in the title of the posthumous book of the greatest of American mathematicians: Ideality in the Physical Sciences. Few could follow Professor Pierce in his profound studies of mathematical and physicial science; but he was not one of those who found the ideal recede as the "practical" became better known. The deeper his knowledge of the phenomena of the universe, the brighter became his vision of the ideal, and of the spiritual, and of the God who made all. And until we surpass Professor Pierce in the "exact science," we may well take care how we speak slightingly of things unseen.

Not Alone.

We do not labor alone. However feeble our hands, that mighty hand is laid on them, to direct their movement, and to lend strength to their weakness. It is not our speech which will produce results, but his presence with our words which will bring it about, that even through them a great number shall believe and turn to the Lord. There is our encouragement when we are self-confident. There is our stimulus when we are indolent. There is our quietness when we are impatient. If we are tempted to think our task heavy, let us not forget that he who set it helps us to do it, and from his throne shares in all our toils, the Lord still, as of old, working with us. If ever we feel that our strength is nothing, and that we stand solitary against many foes, let us fall back on the peaceful thought that one man against the world, with Christ to help him, is always in the majority; and let us leave issues of our work in his hands, whose hands guard the seed sown in weakness, whose smile will bless the springing thereof.—*A. McLaren, D.D.*

Our Only Refuge.

The Lord is our refuge in the day of affliction. In prosperity, we have many refuges: but when adversity comes, we fly at once to the throne of the heavenly grace. If we never yearned for a quiet hour before, we must have it now. The more intense the trial, the closer the soul shuts itself up with God. There are times when the soul's grief is so overwhelming that we cannot speak to any one but God, It would be sacrilegious to break the silence to any one else. Even to him the heart can utter no form of words; the best it can do is the involuntary sigh, the solemn, impressive silence, or the groanings which cannot be uttered. Once there was lip service without the heart; now, the heart moves heavenward without the lips. When the arm of man fails, oh how we lean upon God. The truest philosophy of prayer is learned in the deepest distress. It is then God is to us everything—the helper of the helpless.

A celebrated traveller speaks of being in Alpine regions, so high that he saw the bursting of the clouds beneath his feet. Trials lift us so high above the world that we can see the thunder clouds of earthly care bursting beneath our feet while we rest sweetly and securely in God.

Like some tall cliff which lifts its awful form;
Smiles from the vale and midway leaves the storm;
Tho' round its base the rolling clouds are spread,
Eternal sunshine settles on its head,

—*Christian Union.*

Good vs. Bad Qualities.

How common it is to speak of a strong man's eccentricities, or of his peculiar faults, as if they were the source of his power. Even the boorishness and incivility and ill-nature, of a man, or his overweening vanity, or his violent and ungoverned, temper, and his selfish disregard of the feelings and the rights of others, are sometimes spoken of as elements of strength in him. Yet it is invariably true that such a man has made all his progress and gained all his power in spite of those faults, and not in consequence of them. If he were without these drawbacks, or if he held them in control, he would be more of a man, and do a better work than now. A recent writer on Bismarck has thus emphaized this truth:— "In judging a hero there are two facts to be borne in mind. First, it is not his objectionable, but his good qualities that have enabled him to play a great part. Otherwise it was necessary to despair of humanity. Secondly, where the faults are conspicuous the redeeming virtues must be of no ordinary kind. Some French writers have lately been trying to destroy the fame of Napoleon. The attempt is sufficiently puerile, but the Lanfreys and others do prove the conqueror of Europe to have been a person of many vices. Only they fail to understand that by this process they raise the man to a rather loftier eminence than he previously occupied. For what must have been the genius which so triumphed over the flaws of mind and heart that its possessor not only ruled a continent, but won the love and homage of millions?" If you are conscious of any peculiar faults which are recognized and tolerated by your friends, do not nurse them, or even give them tolerance yourself, in the mistaken notion that they are elements of your strength and attractiveness. You are doing all that you do of good, and holding all the friends you still retain, in spite of them. And if you see the evident faults of one who is widely recognized as a strong man or as a good one, and who attaches many to him, be sure that he has positive good qualities overbalancing those poor ones.

Gems of Thought.

All great men are in some degree inspired.

The truest wisdom is a resolute determination

One must be poor to know the luxury of giving.

Let us believe what we can and hope for the rest.

Fortitude is the guard and support of the other virtues

The heart is the only thing that is better by being broken.

Everyone is eagle-eyed to see another's faults and his deformity.

Greatness lies not in being strong, but in the right use of strength.

Next to love sympathy is the divinest passion of the human heart.

Our bravest lessons are not learned through success, but misadventure.

If evil be said of thee, and it be true, correct it; if it be a lie, laugh at it.

The love of gold can only create a hero, the contempt of it creates a wise man.

If a man takes no thought about what is distant, he will find sorrow near at hand.

True love always makes a man better, no matter who the woman is who inspires it.

Woman is like the reed which bends to every breeze, but breaks not in the tempest.

Music is the universal language of mankind,—poetry their universal pastime and delight.

Matrimony, says a quaint writer, is a flourishing tree, and cradles are the fruit baskets.

There are few occasions when ceremony may not easily be dispensed with, kindness never.

He who, with good health, has a true friend, may laugh adversity to scorn and defy the world.

As there is nothing in the world great but man, there is nothing truly great in man but character.

One life; a little gleam of Time between two Eternities; no second chance to us for evermore.

Love in marriage should be the accomplishment of a beautiful dream, and not, as it too often is, the end.

Great results cannot be achieved at once: and we must be satisfied to advance in life as we walk, step by step.

He that seeketh the depth of knowledge is as it were in a labyrinth—the further he goeth the further he is from the end.

Many have genius, but wanting art are for ever dumb. The two must go together to form the great poet, painter or sculptor.

Serenity is no sign of security. A stream is never so smooth, equable, and silvery as at the instant before it becomes a cataract.

To think kindly one of another is good, to speak kindly one of another is better, but to act kindly one towards another is the best of all.

There is no condition of life so bad but it has one good side. Every situation has its point of view; we should place it in that favorable light.

Oh, how good a thing and how peaceable it is to be silent of others, not to believe all that is said, nor easily to report what one has heard.

Selfishness, though refined, is still but selfishness, and refinement ought never to interfere with doing good in the world as it exists.

Conceit is an assumption which is to nature what paint is to beauty—not only needless, but a detriment to that which is meant to improve.

Never swerve in your conduct from your honest convictions; decide because you see reason for decision, and then act because you have decided.

Pride, like ambition, is sometimes virtuous and sometimes vicious, according to the character in which it is found and the object to which it is directed.

It would appear that there is a great sympathy between the mind of man and falsehood; when we have a truth to tell it takes better if conveyed in a fable.

One man falls by his ambition, another by his perfidy, a third by his avarice, and a fourth by his lust. What are these but so many nets watched, indeed, by the fowler, but woven by the victim.

Temperance and Intemperance.

STRENGTH OF WINES.—The amount of Alcohol present varies greatly in the several liquors of which it forms the intoxicating ingredient, rum containing about 75 per cent.; whiskey and brandy averaging about 50; port wine, 20; sherry 16 to 24, Madeira, 19; claret 10; champagne, 14; cider, 6; ales and porter, from 6 to 12; and abstainers will probably be surprised to learn that all fermented drinks contain alcohol, ginger beer, &c., usually containing from 1 to 3 per cent. of it. Indeed, total abstinence from alcohol would seem almost an impossibility, for even milk contains small quantities of it; and in breadmaking, it is produced in considerable quantity by the action of the yeast upon the sugar in the flour; the aggregate amount of spirit thus produced in London being some 300,000 gallons annually. Some chemists go the length of asserting that even water itself is not entirely free from it!—*Chambers's Journal.*

"FOR THE SAKE OF OTHERS."—I ask you to think of this drink traffic, and of the terrible evils resulting from it. I might go on till midnight speaking of them; but I want to get to a certain point; for I am going to launch forth on this again before I go back to America. Think of the awful surprises that come to those within the reach of this specious infatuation and temptation. A man who was considered in every respect a very good sort of man, except for an occasional fit of intoxication, went into one of these places and took a drink; he took another and another, and in the evening in the madness of drink, he staggered home and struck his wife blows that killed her. He was promptly arrested, and spent the night in the lock-up. In the morning the keeper of the prison woke him as he lay on the floor of his cell sleeping off the effects of the drink. 'Hollo!' he said, 'you have got me in gaol, haven't you? This is a gaol, isn't it?' 'Yes,' said the man; 'you are in gaol.' 'What have you got me in gaol for?' 'Don't you know?' 'Don't I know? I know I was never in gaol before in my life; and this is an awful disgrace, isn't it? But what have you got me in gaol for?' 'You are in gaol for *murder!*' 'What! You don't mean it!' 'Yes, I do.' 'You are joking!' 'No, I am not.' 'For murder?' 'For murder.' 'Have I killed somebody?' 'You have.' 'Oh, my God! What will become of me? Tell me, does my wife know of it?' 'Your wife! why, don't you know?—*it is your wife you have killed!*' He fell like a log on the floor. Now, the keeper of that prison holds a license to sell liquor. The sheriff of the county, who will hang him, if he is to be hanged, owns the grog shop where he got the liquor, and receives the rent of it. The law does not touch these men. Here is the victim; he must pay all the penalty. Now, I say that this is not fair—I say it is not right; and I pray God I may never see the day when I shall say it is right.—*John B. Gough.*

DRUNKENNESS AS A DISEASE.—Some of the medical journals are discussing the question whether intemperance is a crime or a disease; and the general opinion seems to be that a drunken man is a sick man who needs medical attendance as much as appeals to his conscience. Of course there is a strong objection urged against this view of the case, and that is, that it tends to make the drunkard believe he is an irresponsible victim of a purely physical disorder. But while it would be true that he could not help the consequences of the abuse of liquor, it would be equally true that he would be responsible for using the liquor at all, and if he tried to excuse his folly by a misapplication of the facts of his case, that is his fault, and not the fault of the facts, or of any theory arising out of them. There is no doubt that dealing with drunkenness we have been too apt to put the physical element out of sight and look at the moral alone. Nevertheless the drunkard is physically diseased in the brain, and nerves and digestive organs. And that disease interferes with his efforts at reform, and keeps up the depraved appetite. The natural tendency of inebriety is toward chronic and incurable disorders of the body. Let the drunkard have all the moral suasion, legal prohibition, and other abstinence measures that can be brought to bear upon him; but with all he needs skilled medical attendance to cure his body. For unless his body is cured his mental and moral faculties will always be more or less disturbed.—*London Advertiser.*

"The true professional leads a regular gypsy life," says Mr. Fred. J. Englehardt, the great sporting manager, of New Orleans, La., who writes that he cured himself of a severe attack of rheumatism, and subsequently of a stiff neck, by the use of St. Jacobs Oil. He invariably uses it on those whom he trains for the various kinds of athletic exercise.

"Now you may not think it remarkable, but I do, that St Jacobs Oil cured me of a case of rheumatism of three years' standing in three weeks," says Mr. Frank Lawlor, Alderman of the eighth ward, Chicago, Ill.

John T. Berry, Esq., Rockland Maine, President of the Lime Rock National Bank, and also of the Knox and Lincoln R. R., says he had the rheumatism in his left foot and leg. He used three bottle of St. Jacobs Oil and it relieved him wonderfully. He calls it "a splendid article."

Rheumatism is greatly dependent on a vitiated condition of the fluids, and may be eliminated from the system by cleansing the Blood and regulating the Kidneys Burdock Blood Bitters will do this most effectually. Trial bottles 10 cents.

Take no more nauseous purgatives. Burdock Blood Bitters act mildly, pleasantly and thoroughly upon the Bowels, and occasion no inconvenience, while it regulates the Liver and Kidneys and tones the enfeebled system. Trial bottles 10 cents.

At the approach of spring great attention should be given to purify the system engorged with foul humors during the winter. Burdock Blood Bitters is Nature's own purifying and regulating tonic.

DELAYS are dangerous, particularly in Kidney Diseases, so take at once DR. VAN BUREN'S KIDNEY CURE and obtain relief from all your sufferings Your Druggist keeps it.

CHEAP AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Magnetic Medicine, which contains forty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column.

The market is full of preparations for the hair, some of them good, and many of them good for nothing. R. P. Hall & Co., of Nashua, N. H., manufacture and sell an article of real merit, which has been advertised in the *Express* for the past year, and we have taken no little pains to inquire how it has been liked by the public. One of our druggists informs us that he has sold more than double the amount of Renewer than of all other hair preparations combined, and when a person once uses it, he will use no other: that it is not only bought by the young people as a dressing, but by older persons for removing dandruff, preserving and increasing the growth of the hair and restoring its natural color. Another druggist says that he sells three or four times as much of Hall's, as of all others.—*Hampshire Express, Amherst, Mass.*

RACKED BY INNUMERABLE PANGS, restless by day, sleepless at night, rising unrefreshed in the morning, without appetite and pestered by varying and perplexing symptoms, the dyspeptic takes indeed a gloomy view of human existence. For him the zest of life seems gone. Heartburn, oppression at the pit of the stomach, and the attendant annoyances of of constipation and biliousness, combine to render him utterly wretched. But there is, if he will but take advantage of it, a reliable source of reliable relief from all misery. NORTHROP & LYMAN'S VEGETABLE DISCOVERY and DYSPEPTIC CURE is, as its name imports, a botanic preparation, free from mineral poison, and an all-sufficient remedy for indigestion in its most obstinate form. It not only enriches the blood by enabling the digestive organs to convert the food received into nutriment, but depurates it by increasing the action of the bowels and kidneys, the natural outlets for its impurities. But while it relaxes the bowels, it never does so violently and with pain, like a drastic cathartic. It aids, but never forces, Nature, invigorating as well as purifying and regulating the system. It thoroughly removes those diseased humors which tend to vitiate the blood, purifies the urinary secretion, and promotes a flow of healthy bile into the natural channel, besides expelling it from the circulation. Experience has proved that this standard medicine is a thorough remedy for dyspepsia, biliousness, costiveness, kidney complaints, scrofula, erysipelas, salt rheum, lumbago and all impurities of the blood. Price $1.00. Sample Bottle 10 cents. Ask for NORTHROP & LYMAN'S Vegetable Discovery and Dyspeptic Cure. The wrapper bears a *fac-simile* of their signature. Sold by all medicine dealers

The REV. CHAS. E. PIPER, formerly of Pittsfield, N. H., but now of Wakefield, R. I., writes: "I have used Baxter's Mandrake Bitters in my family for over two years, and as a result have not called a physician in the whole time. My wife had been an invalid for two years, but these *Bitters* have cured her."

BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, bloches, pimples and the various humors and blemishes of the skin are only symptomatic of bad blood—that needs purfying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidneys, skin, etc, and strengthening while it regulates and purifies.

Mothers! Mothers!! Mothers!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle 264ly

WILL YOU EXCHANGE a case of Dyspepsia or Billiousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Billiousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys. Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Billousness.

$200.00 REWARD!

Will be paid for the detection and conviction of any person selling or dealing in any bogus, counterfeit or imitation HOP BITTERS, especially Bitters or preparations with the word HOP or HOPS in their name or connected therewith, that is intended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as HOP BITTERS. The genuine have a cluster of GREEN HOPS (notice this) printed on the white label, and are the purest and best medicine on earth, especially for Kidney, Liver and Nervous Diseases. Beware of all others, and of pretended formulas or receipts of HOP BITTERS published in papers or for sale, as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted.

HOP BITTERS MFG. CO.,
Rochester, N. Y.

PIANOS.

The R. S. Williams Pianos

ARE the most reliable Instruments manufactured in Canada, and will compare favorably with the best American Pianos.

BELLEVILLE, SATURDAY, SEPT. 2.

The Coal Trade.

HOW THE YANKEES SEEK TO RETAIN THE CANADIAN MARKET.

It has frequently been stated by the Conservative press, that coal dealers in the United States have sought to retain the Canadian market by special discounts to the amount of the duty, by payment of freight, and by other underhanded means. The Yankees have a double object to effect in carrying on their trade with the Dominion in this illegitimate manner, namely restricting the production of the Canadian mines, and by thus causing the protective duty to fail of its effect, to cause the people of the Maritime Provinces to seek its repeal. Besides, they secured the advantage of keeping a larger number of miners employed than they could if the Canadian trade were lost to them.

The Opposition newspapers have denied these assertions, and therefore the onus of proof rests upon the Conservative press, and we on their behalf accept the responsibility. Our proof rests on some invoices which we have lately been put in possession of, and of which the following are true copies, less the names, which are suppressed for reasons of our own; but if the *Globe* or any of its *confreres* desires, any of their representatives can see the originals by calling at our office and making their desire to do so known. These precious documents are as follows:

OGDENSBURG, N. Y.——, 1881.

To——& Co., Dr.

July 27.	To 2,660 tons McIntyre @$4.75	$11	07
Aug 31.	" 4.1480 " " "	22	52
Sept 24.	" 25.400 " " "	119	70
Nov 14.	" 1.90 " " "	4	96
		$158	25
	Less duty on 32½ tons at 60c	19	50
		$138	75

CLEVELAND, O., Sept. 15, 1881.

M——

Bought of——& Co.

Terms 6 mos

263 tons Straitsville Lower Vein coal @ $2.30	$604	90
Insurance	2	33
	$607	23

CLEVELAND, O., Sept 15, 1881.

M——

Bought of——& Co.

94 tons lump @ $2.80	$263	20
Insurance	1	01
	$264	21

CLEVELAND, O., June 30, 1881.

M——

Bought of——& Co.

281 tons St. L. V. lump @ $2.80	$786	80
Insurance	3	03
	$789	83

CLEVELAND, O., Aug. 9, 1879.

Bought of——& Company.

485 tons Willow Bank coal @ $3.75	$1,818	75
Less lake freight @ $1 35	654	75
	$1,164	00

Thus, whilst the price of coal in Cleveland was $3.75 per ton, the sellers, with the objects above stated in view, delivered their coal in Canada at from $2.30 to $2.80 per ton, throwing off the lake freight, which was from $1.35 to $1.40 per ton. This is not shown on the face of the first three invoices from Cleveland, which are from one firm, but in the fourth, which is from another firm, there is no attempt at concealment. Thus we have the Ogdensburg dealer generously giving his customers a discount to the amount of the duty, and the Cleveland sellers, with equal liberality, delivering their coal free to Canadian customers. Of course the importers were made to pay duty on the full value of the coal at the port of shipment, just as others who have attempted to evade the law similarly in other lines have had to do, and equally of course honest people approve the action of the Government; and free trade Grits, although they adopted the law when in power, grumble and growl.

We invite our Opposition contemporaries to consider the above invoices and explain away the facts therein contained—if they can.

Catarrh of the Bladder.

STINGING irritation, inflammation, all Kidney and Urinary Complaints, cured by "Buchupaiba." $1.

Those Protests.

We have already awakened the Grit organ from its Rip Van Winkle slumber regarding those protests and it regales its readers with an inkling that it will publish *a list of the Tories against whom action is to be taken.* We have no objections to its publishing the list in question. It will be another sample of the celebrated letter, "Come along John and help put down bribery and corruption." The publication of the list will show how anxious the Grit party is to put down corruption. The law courts will show how hypocritical is their cry. Probably the letter will be written with the same pen that wrote "Come along and vote for Col. Brown and your day's pay and expenses will be paid."

If Nearly Dead

after taking some highly puffed up stuff, with lond testimonials, turn to Hop Bitters and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes, or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides, it is the best family medicine on earth.

COUGHS AND COLDS.—If taken in time are easily cured,—if allowed to continue will result in incurable consumption. Allen's Lung Balsam has the confidence and support of the medical faculty, and is recommended by all who are acquainted with its virtues.

Dropsy is essentially a watery condition of the blood, dependent upon disordered Kidneys. Burdock Blood Bitters are strongly Diuretic and consequently the best known remedy, acting as it does upon the entire Secretory System.

A SIMPLE herb found on the sunny plains of a Southern clime has, under the skillful manipulation of DR. VAN BUREN, proved one of the greatest blessings ever sent to suffering humanity. DR. VAN BUREN'S KIDNEY CURE is acknowledged all the world over as the only perfect remedy for Kidney troubles. Your druggist has it.

Dr. E. C. West's Nerve and Brain Treatment is a never failing cure for Nervous Neuralgia, Nervous Headache, Overworked Brain, &c. Sold at James Clarke & Co's.

Editorial Brevities.

Not satisfied with the power and patronage that he has already stolen from the municipalities, Mr. Mowat's appetite has but been sharpened thereby, and like the Giaour in "Vathek," he shouts for "more," the more in this case being the appointment of school teachers, which he purposes to take from the people, who pay the salaries. The object of this new move is thus betrayed by the Ottawa *Free Press*, a blatant organ of the Mowat autocracy, which says:

> "Nothing is more needed in this country than political education, and *none are better qualified to impart it than Liberal teachers under the direction of Liberal Statesmen.*"

Are the people prepared to have teachers appointed for them because of their proficiency as Grit propogandists rather than on account of their ability as educationists? Will the Conservative electors submit to have their children indoctrinated with Gritism at school? Will the respectable Reformers aid in forcing such a project on their fellow-citizens, and in thus condemning themselves to be governed by an army of placemen, with all the dangers attendant thereon? Finally, will a free people allow themselves to be down-trodden in such a manner? These are questions which must be answered at the polls.

"Is it wise now, or fair, after canvassing the Dominion on this question; after sending Mr. Blake down through these provinces to tell about our cottons being overtaxed and our hardware being increased in price by the operation of the tariff; after talking us blind on cornmeal and sugar tariffs, to say that protection was not the issue? It is useless for the press or the politicians of these Maritime Province to claim that the crushing defeat was due to the 'Gerrymander.' There was no 'Gerrymander' in Nova Scotia, and Nova Scotia is strong for the Government. There was no redistribution in New Brunswick, and instead of the four Government members of last term there are now nine." So says the Halifax *Herald*. To which it may be added that in Quebec and British Columbia there was no redistribution, and that whatever success the Grits gained in Manitoba was certainly not owing to hostility to the N. P.

An Englishman writing to a New York paper says: I am prepared to back my opinion upon the following: That Tug Wilson can defeat any pugilist in America; that Chas. Rowell now on the way here, can defeat any pedestrian in America; that Joe Acton or Edwin Bibby, both Englishmen, can defeat any wrestler in America; that the Thames crew will defeat the Hillsdales in the coming match, notwithstanding all the newspaper puffing of the latter; and that the British volunteers will defeat the American guards in the international rifle matches. In reference to this last event, I noticed that two Englishmen have been retained to shoot on behalf of America. Has it come to this, that twelve native born Americans can't be found who are capable of sustaining the reputation of their country at the butts? There is another affair I almost forgot, and that is, I will lay good odds on America beating any country in the world at blowing and vainglorious boasting.

Don't die in the House.

"Rough on Rats." Clears out rats, mice, roaches bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

The Secret of Success in Life

[*Whitby Chronicle, Jan. 19th, 1882.*]

We have just received a copy of a new work entitled—"THE SECRET OF SUCCESS IN LIFE; or, COMMON SENSE IN BUSINESS AND THE HOME." The author is Edwin T. Freedley, of Philadelphia, the author of several works of a similar class, including "A Practical Treatise on Business;" "Legal Adviser;" "Opportunities for Industry," &c. The first work of this writer, issued some thirty years ago, had a sale in England and the United States of over 100,000 copies. The book before us comprises nearly 800 pages, and is divided into two parts, the first treating of success in business life, professional life, farming and other occupations. Most useful hints are given on all points of trade, making it a valuable *vade mecum* for every male reader, let his occupation be what it may. Part 2nd treats in a very complete manner on home comforts, the wise and prudent management of household affairs, how to make home happy, lovable and cheerful, &c. This department will prove a treasure trove to every fair reader, married or maiden. "Secret of Success" throughout is indeed just one of these books that should lie in a convenient spot on any book shelf, where every member of the family can conveniently lay his or her hands on it, for wanted it must often be. It is handsomely bound in extra English cloth, bevelled edges, illustrated with a large number of choice full-page engravings, and printed in clear open type, on toned paper. Messrs. J. S. Roberston & Bros., of our own town, have purchased the exclusive right for the sale of this book in the Dominion. It is sold only by subscription, and although but a few months from the press, the Messrs. Robertson have, we understand, agents at work to-day on this book in all sections of the Dominion, who are placing large orders for it.

Mr. D. S. McAnish, general travelling agent for Messrs. J. S. Robertson & Bros., is now in the city and will have the pleasure of calling upon our citizens shortly with a view of introducing the above valuable book.

Excellent reasons exist why *Dr. Thomas Eclectric Oil* should be used by persons troubled with affections of the throat or lungs, sores upon the skin, rheumatic pains, corns, bunions, or external injuries. The reasons are, that it is speedy, pure and unobjectionable, whether taken internally or applied outwardly.

SMITH MEDICINE Co.

GENTLEMEN,—I have made a trial of one box of Dr. Smith's Great German Worm Remedy, with such good effect that I have no hesitation in recommending it to the public as a prompt and reliable medicine. In fact, those who use it once will always do so. Yours truly,

J. Harvie, 172 Cadieux street.

Montreal, December 9th, 1881.

Nervous debility is a result of indiscretion in the mode of living. Heed nature's unerring laws and take Burdock Blood Bitters, the Great System Renovator and Blood, Liver and Kidney regulator and tonic. Sample bottles 10 cents.

Hall's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by Jas. Clarke & Co., Belleville, Ont.

News Condensed.

—Forest fires are raging in Nova Scotia.

—The Picton mines shipped last week 4,968 tons of coal.

—The railway system of the United States has gained 1,274 miles during the present month.

—It is officially announced that Prince Leopold's condition does not cause serious anxiety.

—The Governor-General and A. R. H. the Princess Louise and staff arrived in Toronto yesterday.

—The steamship *Lake Nepigon* is reported to have been towed off with but little damage to vessel or cargo.

—Five Montreal merchants have been sued for penalties for keeping more than 25 pounds of powder on their premises.

—W. W. Wood, chief engineer of the U. S. navy, was drowned near Point Lookout on August 31st while in a sail boat.

—The latest freight car in the market is 34 feet long and 8½ feet wide. It weighs 27,000 lbs., with a capacity of 54,000 lbs.

—The large Roman Catholic mission of Loughborough will be divided, and two priests engaged instead of one. The people are willing to pay for the change.

—Mr. Wade, secretary of the Kingston Arts Association, states that it would cost too much to have the Exhibition grounds illuminated by the electric light.

—Two men in removing a dumb charge of powder from blasting in Lacey & Mavety's mine near Sydenham, caused an explosion, which seriously injured them. One nearly lost the sight of both eyes.

—Westgate the self-confessed Phœnix Park murderer, who is confined in gaol at Spanish Town, Jamacia, still adheres to his confession and threatens suicide. He has given the names of his alleged accomplices.

—Frederick Godfrey, the well known English musician, is dead. He had been bandmaster of the Royal Horse Guards (the Blues) and he was a brother of Dan Godfrey, the band-master of the Coldstream Guards.

—The Greek patriarch and bishops of Syria and several principal inhabitants telegraph from Damascus denying that there is any insecurity in Syria and Palestine, or any Mussulman raising against the Christians.

—The Hon. Mr. Bowell and the Hon. A. P. Caron will, it is understood, make another trip to the North-West this fall. The Minister of Finance, who is at present in New Brunswick, will, it is expected, return to the Capital next week.

*The term *hydra* may be used to represent any manifold evil. If you would battle successfully with this many-headed monster of disease you will find it expedient to keep Mrs. Pinkham's Vegetable Compound always at hand.—*Dr. Banning.*

—At the Maidstone picnic on Wednesday Mr. W. R. Meredith, M. P., won the gold-headed cane by a majority of nine hundred and eighty over Hon. Oliver Mowat. Mr. J. C. Patterson, M. P., in a brief speech returned thanks on behalf of Mr. Meredith.

—Cuddy McMahon reported through Kingston that his brother was drowned off the B. W. Folger, and afterwards went around soliciting subscriptions to get money to bury the body. It was found that his brother was not drowned, and Cuddy's game was spoiled. He was arrested.

—The executive council of the Supreme Court of I. O. F. met in London on Wednesday and considered the case of several brethren who had been suspended by the S. C. R. A protest was entered against the proceedings on the ground of illegality. The result has not been made public.

—The drill-shed question, which has long been exciting indignation in Montreal, especially among the volunteers, is settled at last by the acting Mayor, Ald. Laberge, signing and executing the agreement with the Government, who will at once set about making the necessary repairs.

,"Do boldy what you do at all." Boldly do we affirm that Kidney-Wort is *the* great remedy for liver, bowels and Kidney diseases, rheumatism and piles vanish before it. The tonic effect of Kidney-Wort is produced by its cleansing and purifying action on the blood. Where there is a gravelly deposit in the urine, or milky, ropy urine from disordered kidneys, it always cures.

—The largest locomotive ever built has just been completed at Paterson, and is one of the twenty-five ordered by the Central Pacific railroad. Its weight without the tender is sixty-two tons. The size of the cylinders is twenty by thirty inches. These engines have eight drivers and a four-wheeled truck.

—The work of unloading the Allan S. S *Acadian*, ashore on Crane Island, is progressing slowly, and it is expected that it will be some days before the wrecking company will be able to set to work on her. When raised she will be taken to Quebec for repairs. The crew have been paid off at the Ancient Capital.

—On August 31st, representatives of a Colonization Company, composed of Dr. Ferguson, M.P., A. Blackburn, James Porter, Samuel and William Bower and Eudo Saunders, all of Kemptville, Ont, deposited in the Department of the Interior $36,000 for lands situated on Long Lake, in the North West.

—Mr. William Abbott, the railway magnate, has been interviewed at Toronto. He considers a fast train on the Grand Trunk between Montreal and Toronto impracticable at present because of the number of trains now run, but says if the anticipations from the fusion are realized the matter of double tracks between Montreal and Toronto, which he regards as necessary, will be brought before the shareholders.

—A number of paper car wheels have been received at the C. S. R. shops, to be placed under the new coaches which are to be built this fall. Each wheel costs about $140 after the duty is paid, so that there is a great difference in price from the steel wheel, which costs but $12. The difference in price is made up by the durability of the paper wheel, which is said to be able to run from 300,000 to 400,000 miles, while the steel wheel can only go about 50,000 miles.

—Guiteau's skeleton is now at the National Army Medical Museum in Washington, but will not be exhibited to the public. The final disposition of the bones of the assassin cannot be determined until Judge Harger decides as to the validity of Guiteau's will, in which he bequeathed his body to Hicks. Experts engaged in microscopical examination of Guiteau's brain have completed their work. It is understood they disagree respecting his sanity, and there will probably be two reports rendered.

C. BRITTON, Lindsay, Ont., writes:—I have much pleasure in recommending Baxter's Mandrake Bitters in all cases of Jaundice, Biliousness, Sick Headache and Liver Complaint, for they have given universal satisfaction, and I have sold more of them the past season than any other one patent medicine.

Sporting Notes.

The yachting spirit has been aroused in Belleville, and it being considered that there is no local 12 tonner fast enough to beat the Katie Gray or Emma, it is probable that one, if not two, craft of that size will be built here during the winter. It is also stated that a gentleman resident in town will have Capt. Cuthbert build him a 22 or 25 tonner, in which speed will be a desideratum.

The Kingston *News* says: "Would it not be a good idea to have a yacht race during the Exhibition week? We hope a move in this direction will be made as early as possible. A yacht race would draw a large number of visitors to the city that otherwise would not come."

The *Gracie* left for Toronto this afternoon.

The rain yesterday afternoon prevented the members of the Sportsmen's Club from practicing at glass ball shooting. The practice will take place on Tuesday afternoon next.

A contest with hard gloves, for a prize of $300, at Barnes' Hall, St. Vincent, Man., between John S. Barnes, of St. Vincent, formerly of Ottawa, and Joe Duchamp, of Pembina, was witnessed by a large crowd of sports from Emerson, West Lynne, Pembina, and St. Vincent. The contest lasted 45 minutes, 16 rounds being fought. On the 16th round Duchamp threw Barnes, and it was claimed struck him when down. The referee decided a foul, and the contest was decided in favor of Barnes.

PETERBORO', Sept. 1.—A match game of lacrosse for the championship of Central Ontario and the association medal took place today between the Orillia and Peterboro' clubs, resulting in easy victory for the latter, who took three straight games in 11, 25, and 2 minutes respectively. The play was good on both sides, but it was apparent from the commencement that the visitors were overmatched. Breaky, of Millbrook, was referee, and disputes and rough play were totally unknown.

RICHFIELD SPRINGS Sept. 1.—The three-mile race at Canadandago lake to-day between Courtney and Lee was won by Courtney in the unprecedented time of 19.31¼. The race was admirably managed throughout, and rowed under most favorable circumstances.

Is three times the man he was before he began using "Wells' Health Renewer." $1 Druggists.

Marine.

The schr. *Helen* arrived yesterday with coal for Rathbun from Oswego.

The big schr *Manzanilla* got out yesterday with 514 gross tons of ore.

The schr. *Bullock* will clear to-day for Fairhaven with 380 tons of ore.

The schr. *Julia* left yesterday with 211 tons of ore.

The schr. *Mary Foster* is in with a load of blocks from Deseronto.

The schr. *Helen* has arrived from Oswego with coal.

The shipments of lumber by Messrs. Rathbun, from different points, are expected to reach a grand total of 15,000,000 feet for the month of August.

Thursday there was launched in Hamilton the largest propeller ever built there. The craft is of 1,000 gross tons, 180 ft. long, 33 ft, beam; depth of hold at shallowest part 15ft., and is calculated to carry 50,000 bush. wheat on a draught of 14 ft. of water. The engines and boilers are very powerful. She is calculated to run 12 miles per hour. Her propeller wheel is 10 ft. in diameter. She will make a trip on Oct. 1st.

Hops.

Picking will begin in most yards this week, says the Otsego *Republican*, although some will defer the matter until next Monday, September 4th. Those who have begun picking have already realized that the crop in the best yards is falling off from last year one-fifth to one-third. James F. Clark, who picked all last week with 150 pickers, says that his crop is falling off 29 per cent. on late ones, and over one-third on Humphreys Gilbert Burke expected more than he got last year, and he does not realize one-half. The estimate of a falling off of 25 per cent. will not be far out of the way. The crop in Wisconsin is a failure, owing to lice, mould and honey dew. New hops are in demand, and fifty cents are freely offered Jas F. Clark has been offered fifty-two cents. Jas. Byard, of this town, delivered three bales of Humphreys, Monday morning, at 50 cts.

Midland Railway of Canada.

PETERBOROUGH, Ont., Aug. 30th 1882.

The traffic of the above railway for the week ending Aug 26th, 1882, was as follows: Passengers and Mails, $5,352.64; Freight, $13,718.83; Total, $19,071 47, as compared with $18,019.42 for the corresponding week of 1881, being an increase of $1,052 05; and the aggregate traffic to date is $647,647.13, being an increase of $157,693.83 over 1881.

J. FRITH JEFFERS,
Auditor.

TROUBLE IN DUBLIN.—The disagreement between the members of the Irish Metropolitan Police and the authorities culminated on Friday. Upwards of 200 men were dismissed for attending a meeting of the members of the force contrary to orders. The whole of the force, excepting the mounted police and "G" division, immediately struck and left duty. Military guards were placed over the police depots. The men on leaving their barracks gave three cheers for the Queen and their officers. Earl Spencer on leaving the castle was also loudly cheered. In the evening serious rioting occurred on the streets, and the military were called out to restore order. The City Council hastily assembled, and resolutions were passed regretting the want of harmony between the police and the authorities and calling upon the citizens to maintain order. A number of the men have applied to the Queensland Emigration Office for passage to that colony.

PEARLS.—Get your mouth full by using "TEABERRY," the new wonder for the Teeth and Breath. Brush vigorously. See directions. 5 cent samples.

Professor Cowlie's Great Golden Seal Discovery.

The greatest and latest discovery of the nineteenth century. A sure and permanent cure for Fits, Hysterics, Dizziness, and all nervous complaints. Notice to Persons Desiring

A GOOD INVESTMENT.

PRIVATE tenders by letter will be received up to Thursday, the seventh day of September next, for the purchase of property situated on Campbell, Pinnacle and Front Streets, in the city of Belleville, known as the Ridley property—as follows:

1st.—Being part of lot 27 on east side of Front Street, and being north half of subdivision No 3, measuring on Front Street 21 feet 2 inches, by 120 feet deep and 21 feet in the rear on the lane there situate.

2nd.—Part of lot 21 on west side Pinnacle Street, being subdivision No. 10, measuring on front and rear 42 feet 8 inches, by 120 feet deep, and bounded on Campbell Street on north side of said subdivision.

3rd.—Also other parts of said lot 26 on west side of Pinnacle Street, being subdivision No. 13, measuring 42 feet 5 inches on Pinnacle Street, by 128 feet deep and 41 feet in rear fronting Campbell Street, and bounded on east by a lane 12 feet wide there situate.

On No. 1 is situated a brick veneered store with dwelling above.

On No. 2 is situated two brick stores with rooms above, also frame stable in rear.

On No. 3 is situated four brick stores similar to those on No. 2, also a frame building on the corner of Campbell and Pinnacle Streets.

Tenders will be received for the whole property en-bloc, or for each parcel separately, and to be addressed to

SCARTH, COCHRAN & CO.
General Managers,
32 Toronto Street, Toronto.

P. S.—The highest, nor any tender not necessarily accepted.

Toronto, Aug. 31, 1882. 95d6t

WE are now receiving and opening up a LARGE NUMBER OF PACKAGES of FALL DRY GOODS.

Some of these are DIRECT IMPORTATIONS FROM ENGLAND AND THE UNITED STATES, and others were PURCHASED IN CANADA, as *we always buy where we can purchase cheapest.*

We invite special attention to our CARPETS. We will show a larger assortment than usual in BRUSSELS, TAPESTRY and WOOL.

GLASGOW WAREHOUSE.

Daily Intelligencer.

BELLEVILLE, SATURDAY, SEPT. 2.

City and Vicinity

EX-MAYOR PATTERSON is in the city.

ONE prisoner, a drunk, was in the cells last night.

ALL the city schools will open for regular work on Monday.

THE steamship *Polynesian* passed St. Felicite this morning.

A MEETING of the City Council will be held on Monday night.

THE market committee met last night and passed two small accounts.

ALD. DICKSON has returned home from the northern part of the county.

TO-DAY'S market was the best that has been in Belleville for several weeks.

DURING the month of August there were 20 births, 5 marriages, and 17 deaths registered in Belleville.

REV. M. W. MACLEAN will preach in St. Andrew's Church to-morrow at both morning and evening service.

MR. W. S. HUNTER has painted a magnificent sign for Ritchie & Co's new premises, which will surpass any thing of the kind in the city.

THE Dungannon & Faraday Agricultural Society will hold its annual agricultural exhibition at L'Amable on Wednesday, the 18th of October.

THE members of the Belleville Quoit Club are providing themselves with new quoits of the best manufacture, weighing 10 and 12 lbs. a pair.

CAPT. E. HARRISON arrived here this morning from Ottawa, and will meet the members of No. 1 Company, 49th Batt., at the Armory this evening.

THERE is no improvement in the condition of Mr. Jos. Ostrom, who was badly injured on Tuesday night by being thrown from a buggy in Ameliasburg.

OUR Piano Tuner will be up on Monday morning, and parties desiring their Pianos tuned will please leave their orders at Mr. J. S. Powley's, Hotel St., next Dr. Burdett's.

MANY Ameliasburg people have a strong belief that the parents of the abducted child—little Effie Badgley—know more about her mysterious disappearance than anyone else.

THE Midland Railway employees had their annual excursion to-day to a point on the main line about fifteen miles from Port Hope. Very few employees on the G.J.R. division attended.

A MEETING of the Directors of the Mechanics' Institute was called for last evening, but as there was not a quorum present no business was transacted. It was decided to meet again on Friday evening, the 8th inst.

ARRANGEMENTS are being made by which the most popular comic operas—such as "Olivette," "Mascot," "Pirates of Penzance," "Billee Taylor," &c.—will be presented in Belleville this season by good companies.

THERE is some talk of erecting a new curling rink here before the curling season begins; but as there is a difference of opinion among members of the Curling Club as to the exact plan of the rink, it is quite possible that no arrangements will be made until it is too late.

IF any person who takes an interesting newspaper or periodical, and has no particular use for it after he has read it, would leave it regularly at the Mechanics' Institute he would be conferring a great favor on the Directors of the Institute, besides doing a public service.

TEAMS from the two local battalions will leave to-night for Ottawa to take part in the Dominion Matches. The 15th will probably be represented by Lieut. Hastings and Ponton, and Ptes. Donald and Soby, and the 49th by Segts. Tammadge and Marshall and Corp. Hilton.

CAPT. E. G. PONTON, acting Adjutant of the 49th Batt., inspected the Company which has been recently organized in Trenton, last evening. He was very much pleased with the appearance of the men and the spirit which evidently animated both men and officers, and he predicts a bright future for the Company.

A MEETING of the Belleville Branch of the Ontario Trade Benevolent Association was held yesterday afternoon, at which it was decided to maintain the present rates for board and lodging. Only one member—Mr. Ketcheson—objected, and withdrew from the association. The meeting was adjourned to Friday the 15th inst.

THE fourth contest for the Spencer Rifle among members of the Hastings Rifle Association took place yesterday afternoon. There were six competitors. The highest score was made Lieut. W. N. Ponton—90, including his handicap. The next two highest scores were 83 and 81, made by Pte. Donald and Pte. Vermilyea respectively.

A LARGE number of the members of No. 1 Company, 49th Batt., assembled in the Armory last night for the purpose of making arrangements for going into camp at Cobourg on the 5th; but owing to the absence of the officers of the Company, nothing was done. Another meeting will be held this evening, when Capt. Harrison will be present. He was unable to arrive from Ottawa in time to attend the meeting last night.

MR. D. T. MCANISH, general travelling agent for Messrs. J. J. Robertson & Bros., subscription book publishers, of Toronto and Whitby, will be pleased to arrange with any parties who desire to take hold of their subscription books and Bibles for the fall trade. This firm show a very fine line of books and offer liberal terms to agents. A notice of one of their leading works will be found in another column. Mr. McAnish, who is now in the city, can be seen at the Queen's Hotel, or a memorandum left in care of the INTELLIGENCER office will reach him.

A MEETING of the Board of Works was held last evening, the chairman—Ald. Starling—the Mayor, and Aldermen Holden, Smith, McInnich and Lingham being present. The following accounts were recommended for payment:—John Lewis, $8.11; Pay List No. 18, $377.49; Thos. Harris, for 7 crossings (3 on Front St., 1 on Hotel, 1 on Campbell, 1 on Bridge and 1 on Market), $385; Thos. Harris, balance on contract, $430.19. The total amount of Thos. Harris' contract for paving Front St. was $4,454.44, as per certificate of measurement by Evans & Bolger.

ONLY two cases were disposed of by the Police Magistrate this morning. George Titterson, a drunk, was discharged, and an assault case between two women was amicably settled by one of the females being fined. Their names were Ellen Gordanier and Olive Seeme. They are both residents of the Plains, and, as such, conceived it their duty to enliven the unusual dulness of that region by a quarrel a night or two ago. The fair Ellen, it seems, was the principal offender; she not only used her tongue and her nails, but soused her opponent with water. This horrible outrage of making her face acquainted with water could not be overlooked by Olive, and hence the action. Two dollars and costs was the price which the Gordanier had to pay for acting in the capacity of baptizer.

WE have been shown an interesting relic of Prince Edward county in the last century. It is an assessment roll of the township of Hallowell, for the year 1795. It contains 87 names altogether. The names are divided into classes, according to the amount of taxes paid by each man. The first class is rated at 2s. 6d., the second at 5s, and the 3rd at 7s. 6d., and so on. There are 80 names on the first class list, 20 on second, 5 on the third, 3 on the fourth, 1 on the fifth, and 1 on the tenth. The highest rate on the list is that of Caleb Elsworth, who is rated at the enormous sum of £1 5s. The assessors are C. Elsworth and Peter D. Conger. Many names can be seen on the list which are still familiar in this part of the country, being borne by the descendants of these pioneers. This interesting and valuable relic is owned by Mr. M. B. Roblin, of this city.

WEATHER PROBABILITIES—Toronto, Sep. 2.—Lakes, fresh to strong east to south winds, cloudy to cooler weather with local rains.

RUNAWAY.—A team belonging to Timothy Hefferin, of Tyendinaga, ran away on Front St. this morning. After going a short distance they broke away from the waggon and dashed on until they got near Walker's Foundry, where they collided with a single rig, a wheel of which they knocked off. But they were themselves overturned, and were then captured.

DROWNING ACCIDENT.—A G. J. R. brakeman named Geo. Terry was drowned this morning, about 9 o'clock, whilst bathing in Moira Lake, near Madoc. The train on which he was working was loading ties near the lake, and the poor fellow took advantage of the opportunity of having a bathe. He was a young man, not more than 19 or 20 years of age. The body was recovered about an hour after the accident, and was to have been brought down to the city this afternoon and taken to the boarding house of the deceased—S. Belch's, corner of Station, St. and Bleecker Ave. The unfortunate young man was brought up near Belleville and has relations in the city.

LITTELL'S LIVING AGE.—The numbers of *The Living Age* for August 26th and September 2d contain the following articles: North Borneo, *Edinburgh*; Natural Scenery, *Quarterly*; Urbs Roma Vale, *Blackwood*; Soliloquium Fratis Rogeri Baconis, and Three Trips to Tartarus, *Fraser*; The Muses in Tyrol, and Talk and Talkers, *Cornhill*; The Art of Life, and Reindeer, *Spectator*; The Emancipation of Women from the Piano, *St. James' Gazette*; with instalments of "No New Thing," and "The Ladies Lindores," sketches of "Lewellin Penrose, Seaman," and "Will Stout, the Parish Beadle," and more than the usual amount of Poetry. For fifty-two numbers of sixty-four large pages each (or more than 3,300 pages a year), the subscription price ($8) is low; while for $10.50 the publishers offer to send any one of the American $4 monthlies or weeklies with *The Living Age* for a year, both postpaid. Littell & Co., Boston, are the publishers.

THE *Monetary Times* has the following:—It seems that the dealers in oatmeal are subjects of peculiar and violent temptations. The firm of Hall & Irwin, of Woodstock, Ont., who until lately had stood high in the mercantile world, have lately succumbed to the pressure and stepped out. The little plan they adopted in the oatmeal line was somewhat novel if not very clever. They would call on dealers and sell them a carload of oatmeal at desirable prices, and make arrangements to draw at sight. Shipping bills would be forwarded. Drafts accepted and paid before the oatmeal would arrive. A couple of dealers in Belleville finally became very anxious about their oatmeal, and on telegraphing ascertained that the shipping bills were forgeries. The clever shippers were "seen" very soon after this discovery, and were induced to secure the money. About twelve car loads were sold in this way to different parties, some of whom will lose heavily. The Sheriff is now in possession of Hall & Irwin's premises. The Belleville dealers referred to by the *Times* are Pitceathly & Kelso and Wm. Templeton.

PRESENTATION.—One of the pleasantest events of the season occurred at the Hub last night, when Mr. William Black, sailing master of the yacht *Norah*, was presented, by the owner and crew of the yacht, with a nicely worded address and a silver watch and chain, in appreciation of his excellent qualities as a yachtsman and a man. The articles presented were procured from Mr. Spangenberg, in whose establishment the chain was manufactured and the watch neatly engraved. Mr. Charles Corby made the presentation on behalf of the subscribers, and presided at the entertainment which followed. After Mr. Black had thanked the donors, speeches were made by nearly all present, including Mr. Robertson, M. P., all bearing testimony to Mr. Black's skill in sailing a yacht, and his high character and personal worth, and numerous songs were sung and recitations given. The company separated, after a most pleasantly spent evening. Mr. Black is an ornament to his profession. Long may he live to wear the watch bestowed on him for long and faithful service. During the evening Messrs. James Clarke & Co. presented Commodore Bell with signal lights for the *Norah*, including side lights and an anchor light. These lamps are of a neat pattern.

BEFORE purchasing Ready made Clothing be sure and look through HENNESSY'S stock. He has over 300 suits in all, and is offering them at actual cost.

Customs Returns.

THE WAR IN EGYPT.

Preparing for Decisive Action.

The British Position Strengthened

LONDON, Sep. 2.—The opposing forces appear to have mutually abandoned the aggressive for a few days, and are devoting their energies to the preparations for a great battle, which appears probable shortly. The transport service, which has been defective, is much improved now, and our troops will be better supplied than has been the case heretofore. The rolling stock of the railway having been increased, the artillery, from the want of which branch of the service the troops in front have suffered, will be rapidly passed to the front, and in the next engagement its superiority over that of the enemy will tell effectually. A reconnaissance yesterday developed new earth works which Arabi has been erecting near Tel-el-Kebir. They do not appear, however, to have impressed our officers with their strength. From his movements Arabi would seem to have made up his mind to make his stand at Tel-el-Kebir, as he is withdrawing a large portion of his troops from Kafr-el-Dwar. Our position has been strengthened at Ramleh by concentrating the garrison in order to be better able to resist an attack. The troubles upon the Turco-Græco frontier have not yet been settled, the powers being unable to agree upon the terms of an armistice which both make a show of desiring to agree to.

LATEST FROM THE SEAT OF WAR.

An Ironclad Shelling the Enemy's Lines.

An Immediate Attack Expected.

ALEXANDRIA, Sept. 2.—The ironclad *Minotaur* shelled the enemy's lines between Ramleh and Aboukir this morning.

ISMAILIA, Sept. 2.—A Highland brigade has arrived from Alexandria.

Most cases of sunstroke among the troops are slight.

ALEXANDRIA, Sept. 2.—It is believed that Wolseley will attack the enemy on Sunday or Monday, with the view of overwhelming the rebellion at a stroke.

ALEXANDRIA, Sep. 2.—The shelling by the *Minotaur* was against a force of infantry and cavalry which had been drawn out by the reconnaissance of the British mounted infantry.

A strong block house has been erected at Gabarri.

The water in the fresh water canal is rapidly rising at Ismailia.

O. Bortle, of Manchester, Ontario Co., N.Y. writes:—"I obtained immediate relief from the use of *Dr. Thomas' Eclectric Oil.* I have had Asthma for eleven years. Have been obliged to sit up all night for ten or twelve nights in succession. I can now sleep soundly all night on a feather bed, which I had not been able to do previous to using the Oil."

For 30 Years

The dark-eyed and lovely daughters of Spanish America have used MURRAY & LANMAN'S FLORIDA WATER as their only cosmetic and toilet perfume. It is the most fragrant, as well as the most lasting of all Floral Waters, and possesses refreshing and invigorating properties not contained in any other preparation of the kind.

MORNING DESPATCHES.

EUROPEAN.

THE DUBLIN POLICE.

DUBLIN, Sept. 2.—The Metropolitan Police have been agitating for a gratuity of 3 months extra pay, similar to that granted to the Royal Irish Constabulary. The meeting which was held to consider the matter and to discuss other grievences resulted in the present crisis.

AMERICAN.

THE CATTLE DISEASE.

AUBURN, N. Y., Sep. 2.—The infected cattle district was nearly the scene of a riot yesterday. The Cattle Commissioners of Denniston, and the State veterinary surgeon, announced their purpose of slaughtering all the cattle in two fields in Sennett. The owners objected, unless they were paid, and forbade their slaughter. The Commissioners claimed the right to kill, without compensation, all the stock exposed to the contagion. The owners threatened the Commissioner with violence. He finally agreed to allow $10 a head for the cattle of the average value of $50, the State to pay the expenses of killing and burying. The slaughter then proceeded.

NEW YORK NOTES.

NEW YORK, Sep. 2.—The shooting of the Americans at Creedmore yesterday, is considered the best ever done.

The report that New York Central Railway had decided to build a fifth track between New York and Buffalo, is denied.

Learning that the members of the disinfecting corps were in the habit of levying black mail on the householders for disinfecting the vaults, the Sanitary Superintendent yesterday suspended the whole force, consisting of 25 men.

The differential passenger rates went into effect yesterday, and there was an increased demand for passage by cheaper routes.

ELECTRIC RAILWAY.

CINCINNATI, Sept. 2.—An electric railway two miles in length will be built here for passenger traffic.

THE PENN ANNIVERSARY.

DOYLESTOWN, Pa., Sept. 2.—The bi-centennial anniversary of the landing of Wm. Penn was celebrated here yesterday. Addresses were made, poems recited, and a banquet was given. The Governor was present.

BOYCOTTING IN SAN FRANCISCO.

SAN FRANCISCO, Sept. 2.—The League of Deliverance has been boycotting prominent merchants for selling Chinese made goods. The merchants caused the arrest of the boycotting parties on a charge of libel, and the case was tried yesterday. Judge Rix said: "Leaving out the question of the Chinese, if a man does wrong there are plenty of ways of punishing him according to law. If such a thing is to be tolerated there is no safety in community, nor proper way to fight a wrong. Regarding the merits of this case, and looking calmly at it, I will without any feeling and without fear of the result, decide on Monday according to what I conclude to be law and evidence." It is thought the decision will put an end to boycotting here.

A BURSTED COMMUNITY.

UNION BRIDGE, M. D., Sept.—Wm. Philips, a married man with two children, and George Stanesefer, aged 20, and Edmund Yingling a married man with two children, entered into an agreement three months ago with Mandela Yingling, Edmund's sister, and Alice Philips to go to Harrisburg, Pa., and set up a "community." The party started and were overtaken by the fathers of the girls, and Philips was jailed. The others were held as witnesses. Philips claims that Yingling concocted the scheme to carry out his designs against Miss Philips.

RAILWAY ACCIDENT.

OKALAND, Ohio, Sep. 2.—A freight train of 18 cars on the Wabash and St. Louis Railway was thrown from the track here yesterday, by a misplaced switch. Engineer Conklin and a tramp were seriously injured

BRADSTREET'S WEEKLY REPORT.

NEW YORK, Sept. 1st.—The general trade situation in the United States, as reported by special telegrams to Bradstreet's *Journal*, continues to improve. The industrial outlook is also brighter. The grown cotton has suffered of late from rain. Special advices from the wheat and corn regions are presented in full in to-morrow's issue. The outlook for wheat as shown by replies to nearly 3,000 enquiries, sent out by Bradstreet's *Journal*, is for a crop of five hundred and twenty-five millions, six hundred thousand bushels. The corn crop is not reported definitely, but is greatly improving. The total number of failures reported during the past week is one hundred and ten, a decrease of twenty-two from the week preceding, and six more than in the corresponding week last year. Canada reports 13, an increase of five.

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinary or Liver Diseases, as they only relieve for a time and make you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

AFTERNOON DESPATCHES

THE MURDERER HYNES.

The Lord-Lieutenant's decision not to interfere with the course of the law in the case of Hynes, convicted of murder, was communicated to Hynes to-day. The execution is fixed for September the second. It has been alleged that several of the Jury were drunk the night before the verdict was rendered.

HOMEWARD BOUND.

LIVERPOOL, Sep. 2.—Melville, Noras and Nenderman of the *Jeannette*, and Commander Berry, of the *Rodgers*, sailed per str. *Parthia* to-day, for New York.

THE LONDON POLICE.

LONDON, Sept. 2.—In consequence of complaints by the Superintendent of the London Police at the new rules for the payment of the police, being published, the Home Office has issued an order threatening with instant dismissal, any man found communicating orders to the force, to the press.

THE LAKE NEPIGON SAFE.

LIVERPOOL, Sep. 2.—The str. *Lake Nepigon* has arrived in the Mersey.

AFFAIRS IN DUBLIN.

DUBLIN, Sept. 2nd.—Five burglaries were committed during the night. The perpetrators were captured in two cases and punished. Several men were fined for intimidating policemen who did duty with the military last evening. Spencer is consulting with the Chief of Police and his officers. Arrangements for police duty on the streets are still incomplete.

REPLACING THE DUBLIN POLICE.

DUBLIN, Sep. 2.—The emergency Committee with sixty men have offered to be sworn as special constables. A difficulty was raised regarding the form of oath, which obliges the person to swear that he is not a member of any secret or political society. The solicitor for the Committee stated that the Committee was not a politicl body. The Lord-Lieut. directed that the case should be stated for opinion by the law officers, which would be communicated to-day, and if it is favorable about 1,000 men will be at once available. The whole of the police have left the service, only 250 officers remaining.

The Diamond Dyes always do more than they claim to do. Color over that old dress. It will look like new. Only 10 cents.

Consumption, that dread destroyer of the human race, is often the result of bad blood and low vitality, a scrofulous condition of the system Burdock Blood Bitters cure Scrofula in its worst form.

A New Principle.

The principle upon which PUTNAM' PAINLESS CORN EXTRACTOR acts is entirely new. It does not sink deep into the flesh, thereby producing soreness, but acts directly upon the external covering of the corn, separates it from the under layer, removes the direct pressure from the part, and at once effects a radical cure, without any pain or discomfort. Let those who are suffering from corns, yet skeptical of treatment, try it, and by the completeness of the cure they will be ready to recommend Putnam's Painless Corn Extractor to others. Sold by W. R. Carmichael.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, New York City.* [w6m143eod

Commercial.

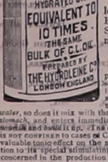
HYDROLEINE



(HYDRATED OIL.)
An artificially digested Cod Liver Oil.

For Consumption, Winter Cough, Affections of the Chest and all Wasting Diseases.

Prescribed by the leading physicians of England, the United States and the Dominion of Canada.

A WONDERFUL FACT.

HYDROLEINE mixes perfectly with water, showing a complete artificial digestion of the oil, and just as the HYDROLEINE mixes with the *water*, so does it mix with the liquid contents of the *stomach*, and enters immediately into the *system* to *nourish* and *build* it up. The efficacy of HYDROLEINE IS NOT CONFINED to cases of Consumption, as from its valuable tonic effect on the nervous system in addition to its special stimulating action on the organs concerned in the production of *Fat* in the body, it causes *marked increase in weight in persons of naturally thin habit, who do not present any evidence of disease.*

Unlike *ordinary* preparations of Cod Liver Oil, it produces no unpleasant eructation or sense of nausea and should be taken in such *very much smaller doses* according to the directions, as will ensure its *complete assimilation*; this, at the same time, *renders its use economical in the highest degree.*

For sale by all Druggists.

☞We have sold the above remedy for several months and find it spoken of very favorably by both the medical profession and the public.

We can safely recommend it to parties needing such a remedy.

Signed,
L. W. YEOMANS & CO.
A. L. GEEN.

THE TRYST.

There was not a cloud in the deep blue sky,
Nor a foaming crest on the sea;
The winds were asleep in the arms of the deep,
And their breath came noiselessly.
The soft sweet rays of the harvest moon,
The heaving waters kissed,
And the light was shed on the Abbey head,
And the tombstones that watch the quiet dead,
And in calm I kept our tryst.

The blank black sky, and the blank black sea,
Blent in the angry night;
The wild winds met where the waters fret,
In a belt of luminous light;
They thundered along the hollow strand,
Where the rain like a python hissed;
And near and far, from rock and scar,
Rang the mighty challenge of nature's war,
And in storm I kept our tryst.

White, weird, and ghastly crept the fog,
Over river, and moor, and coast,
Each fast-moored boat, on the harbor afloat,
Loomed like a threatening ghost.
The sea lay muttering sullenly,
Under the veiling mist:
And the buoy-bell rang, with its ominous tongue
Where the tide on the lip of the rock was flung.
And in gloom, I kept our tryst.

For while holy grief, and loving trust,
With me keep watch together,
I reck not, I, of sea or sky;
Our hearts hold tranquil weather.
So I know, in the royal light of love,
I may claim you, and I list;
So my hand may reach, in its silent speech,
To the spirit greeting where each meets each,
In faith, I kept our tryst.

—*All the Year Round.*

THE UNLOVED WIFE

BY MRS. E. D. E. N. SOUTHWORTH.

'I never was drunk in my life, honey, and I never seed anybody else drunk, but I have read and I heard a heap about drunk; and I do think, for the last week or so, since the princess have been giving these high parties and I mixed up into it all, I must feel just like people do when they are crazy drunk. I ain't myself, honey! I ain't indeed! I donno what Brother Perkins or Brother More would think if they knew the state I'm in. I don't indeed! Why, child when I go up into my room and shut the door and begin my prayers with reciting my hymn:

> Fading, still fading, the last ray is shining,
> Father in heaven the day is declining—
> Safety and innocence fly with the light,
> Temptation and danger walk forth with the night.'

instead of the music of that comforting hymn there is sounding through my brain—'Tooty-loo-loo! Tooty-loo-loo! Tooty-loo-loo!' or some such sinful tune as them there misguided young men and women waltz around to, with their heads on each other's shoulders and their arms around each other's waists in a way I can't approve of! And so, honey, I think when you and Mr. Hereward leave here, I shall go home and try to get back my sober senses.'

'But you have enjoyed it, Aunt Sophie,' urged Lilith.

'That's the worst of it, honey! I have enjoyed it too much! It is a temptation and a snare! A deluding snare.

'Tooty-loo loo! Tooty-loo loo! Tooty-loo-loo! There, I am again with the waltz whirling round to my old Methodist brain! Yes, honey, I am going home!'

'But, Aunt Sophie, you must go first with Mr. Hereward and myself to our home in ——. I know you would like to see for yourself where I am to live, so that you may be able to picture me in my home.

'Oh, yes! indeed I should but—'

'But you will go! My father is to go home with us for a visit—and afterwards he also is to go back to America. And now don't you see that he who brought you out here should also take you home?'

'Oh, yes! Well, if the Sinner is going back so soon as you say, it would be worth be worth my while to stay and go along with him. So I reckon I will.'

At the end of the month of festivity, Tudor, Lilith and Aunt Sophie bade good by to their hospitable host and hostess, and left Paris for ——.

On their arrival at the city Mr. Hereward took them at once to the handsomely furnished house he had engaged, near the Royal Palace.

It was afternoon when they arrived.

And here a glad surprise awaited Lilith. As she entered the hall, led by her husband, a great black beast flew to meet her and rolled joyously at her feet!

It was Lion, her faithful Newfoundland dog, who had followed her to the railway station and from whom she had parted on that dreadful night of her banishment from her home, as she had supposed, forever.

Her joy at meeting her favorite was scarcely less than his own. She welcomed, caressed and talked to him.

'Loyal old Lion! We will never part again—never again, dear old Lion!' until death takes one or the other,' said Lilith, as at last she disengaged herself from him, and went up stairs to her room, conducted by Hereward.

Here another surprise awaited her.

As she entered the room, her old nurse, housekeeper and lady's maid, Nancy, came to meet her; but almost instantly became inarticulate in her words of welcome, and then burst into happy historical tears.

When these had subsided, and Lilith and Aunt Sophie, having laid off their wraps, were seated around the blazing wood fire of the bedroom, with Lion stretched on the rug before them, and Nancy standing leaning her head against the mantelpiece, Hereward explained:

'On the day after I met you in Paris, Lilith, five weeks ago, I wrote to Oxley, at Cloud Cliffs, to send Stephen, Alick, Nancy, and the Newfoundland dog, Lion, out to me by one of the French line of steamers that sail direct for Havre. I gave him minute instructions to see the party all the way from Cloud Cliffs to New York, and on the ship by which they would sail. I directed him to carry out all these instructions without loss of time. And I enclosed a bill of exchange to cover all expenses. He acted so promptly and intelligently on my orders that the whole party reached here four days ago.'

'But I can't get it out'n my head, Miss Lilif, as you and me has died and waked up in t'other world! I'm thankful it aint the bad place; but it don't look quite like Heaven nuther! And that's what puzzles ob me,' said Nancy.

'Never mind, you will come around quite right in a few days,' replied Lilith, consolingly.

Senor Zuniga stayed until after Christmas with the Herewards, and then, about the middle of January, sailed for New York.

Senor Zuniga succeeded beyond his sanguine hopes in recovering his patrimonial estates. He sold them for all they were worth and invested the money in West Virginia land near Frosthill.

Then he married his devoted admirer, Harriet Miles, who was never tired of telling her friends that she always knew that he was a young nobleman in disguise who was only *playing* at play acting for his own amusement.

Madame Zuniga's step-father, old Jab Jordon, is a very much subdued old man. First, he is 'set upon' by Mrs. Jab, and secondly by Master Jab, their only son and heir.

Mr. Rufus Hillary wonders that his brother-in-law should ever have left the exciting and glorious life of a "world-renowned" dramatic artist to settle down into a merely respectable farmer and father of a family. Mr. Rufus Hillary is still an ardent admirer and liberal patron of the stage; he is still unmarried, and his pretty young sister, Miss Emily Miles, keeps his house.

The Herewards are still abroad—Mr. Hereward filling a very important diplomatic position at one of the high courts in Europe, and Mrs. Hereward, at last his deeply loved wife, his companion in domestic life, his helper in official life, is one of the most brilliant and admired among *les grandes dames* who add lustre to the drawing-rooms of the empress.

THE END.

Samson lost his strength with his hair. Thousands of men and women lose their beauty with theirs, and very large numbers restore the ravages of time by using the famous Cingalese Hair Restorer. Sold at 50 cents per bottle by all Druggists.

CINGALESE. A name well known in connection with the HAIR RENEWER, which restores grey hair to its natural color by a few weeks use. Sold at 50 cents per bottle by all Druggists.

The most wonderful curative remedies of the present day, are those that come from Germany, or at least originate there. The most recent preparation placed upon the market in this country, is the GREAT GERMAN INVIGORATOR, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangements of the nervous system. For sale by druggists, or sent free by mail on receipt of the price, $1.00 per box, or six boxes for $5.00. Address James Clark & Co., Sole agent for Belleville. Send for circular.

Important to Farmers, etc.

If you would keep your kine, cattle, hogs, horses, sheep and poultry in the most perfect health and remunerative condition, mix HARVELL'S CONDITION POWDERS occasionally with their feed. These great specifics are *the wealth* of the barn yard. See to it! Sold every where.

AFTER many years of patient investigation DR. VAN BUREN, of Germany, finally succeeded in perfecting a Kidney Cure that would permanently relieve all cases of Kidney Disease. Be sure and ask your Druggist for DR. VAN BUREN'S KIDNEY CURE.

Rest and Comfort to the Suffering

"Brown's Household Panacea" has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful." "Brown's Household Panacea," being acknowledged as the great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle. 264ly

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrh, Bronchitis, Asthma and Lung Disease by Dr. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the seat of disease. Read and judge for yourself:—

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. JOHN P. WHELAN, Manager of POST and TRUE WITNESS, Montreal. Mr. C. HILL, Montreal, catarrh and bronchitis. Mr. DEBOUCHERVILLE, of the Indian Department, Ottawa, catarrh of many years; now cured. Mr. GEO. AGER, Ottawa, catarrh and lung disease; cured. Mrs. SMITH, London, wife of Medical Detective, cured of catarrh. GEO. MAGUIRE, Toronto, 482 Adelaide street West; daughter cured of asthma. GEORGE WILLIS, Exeter, Ont., catarrh and bronchitis. J. D. ARMSTRONG, 186 Yonge street, Toronto, catarrh and catarrhal deafness. THOMAS TELFER, 12 Melinda street, Toronto, asthma; cured. Mr. BENJ. A. DRAKE, St. Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. BENOIT, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma and bronchitis for over eight years, and who is now perfectly cured.

Mrs. ADAMSON, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitating in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis. JOHN C. FLEMING, Editor of POST and TRUE WITNESS, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

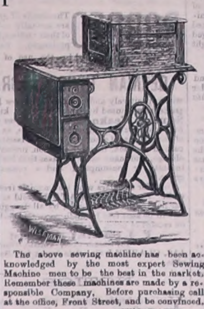
Call or write, inclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souvielle and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

$1,000 Forfeit!

Having the utmost confidence in its superiority over all others, and after thousands of tests of the most complicated and severest cases we could find, we feel justified in offering to forfeit One Thousand Dollars for any case of Coughs, colds, sore throat, influenza, hoarseness, bronchitis, consumption, in its early stages, whooping cough, and all diseases of the throat and lungs, except Asthma, for which we only claim relief, that we can't cure with West's Cough Syrup, when taken according to directions. Sample bottles 25 and 50 cents; large bottles one dollar. Genuine wrappers only in blue. Sold by all druggists, or sent by express on receipt of price. JOHN C. WEST & Co., sole proprietors, 81 and 83 King St. East Toronto, Ont. For sale at Jas. Clarke & Co.'s Drug Store.

WILLIAMS' SINGER,

IS Still ahead of all competitotrs.



The above sewing machine has been acknowledged by the most expert Sewing Machine men to be the best in the market. Remember these machines are made by a responsible Company. Before purchasing call at the office, Front Street, and be convinced.

WM. DAVIS,
Agent.

Belleville, Aug. 25, 1882. 155d-&w

$5 TO $20 per day at home. Sample worth $5 free. Address Stinson & Co., Portland, Maine.

A NOTED BUT UNTITLED WOMAN.
[From the Boston Globe.]

Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of *either* sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Philadelphia, Pa. (3) Mrs. A. M. D.

KIDNEY-WORT
IS A SURE CURE
for all diseases of the Kidneys and
—LIVER—

It has specific action on this most important organ, enabling it to throw off torpidity and inaction, stimulating the healthy secretion of the Bile, and by keeping the bowels in free condition, effecting its regular discharge.

Malaria. If you are suffering from malaria, have the chills, are bilious, dyspeptic, or constipated, Kidney-Wort will surely relieve and quickly cure.

In the Spring, to cleanse the System, every one should take a thorough course of it.

41 SOLD BY DRUGGISTS. Price $1.

UNCONDITIONAL, INCONTESTABLE LIFE POLICIES.

THE objection is often made that the Companies may take advantage of some of the conditions on their Policies, and thus either avoid entirely the payment of claims, or compromise with the widow for a small sum. This argument cannot be used against

THE SUN LIFE ASSURANCE CO'Y OF MONTREAL,

which issues absolutely unconditional policies to selected lives. There is no restriction of any kind on them. The assured may travel to any part of the world without extra premium. He may change his occupation at will, or do anything else he chooses. The contrast is remarkable with other policies. Ask an agent to show you one; it speaks for itself.

ASSETS, - - - - - - - - about $1,000,000.

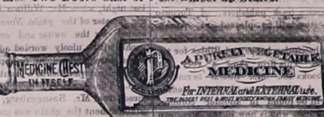
W. T. McINTYRE GENERAL AGENT, BELLEVILLE, ONT.

Office Two Doors East of Post Office, up Stairs.



Farmers and Mechanics.

Provide yourselves with a bottle of *PAIN-KILLER* at this season of the year, when summer complaints are so prevalent; it is a prompt, safe, and sure cure. It may save you days of sickness, and you will find it is more valuable than gold. Be sure you buy the genuine *PERRY DAVIS' PAIN-KILLER*, and take no other mixture.

COBOURG, Ont., March 3, 1880.

I have been selling Perry Davis' Pain-Killer for the past six years, and have much pleasure in stating that its sale in that time has been larger than any other patent medicine that I have on my shelves, and in those years I have never heard a customer say aught but words of the highest praise in its favor. It is an article that seems to have combined in it all that goes to make a *first-class family medicine*, and as long as I have a house and store, Perry Davis Pain-Killer will be found in both.

Yours, &c., J. E. KENNEDY.

Beware of Counterfeits and Imitations.

Price 20c., 25c., and 50c. per bottle.

Ayer's *Hair Vigor,*

FOR RESTORING GRAY HAIR TO ITS NATURAL VITALITY AND COLOR.

It is a most agreeable dressing, which is at once harmless and effectual, for preserving the hair. It restores, with the gloss and freshness of youth, faded or gray, light, and red hair, to a rich brown, or deep black, as may be desired. By its use thin hair is thickened, and baldness often though not always cured. It checks falling of the hair immediately, and causes a new growth in all cases where the glands are not decayed; while to brashy, weak, or otherwise diseased hair, it imparts vitality and strength, and renders it pliable.

The VIGOR cleanses the scalp, cures and prevents the formation of dandruff; and, by its cooling, stimulating, and soothing properties, it heals most if not all of the humors and diseases peculiar to the scalp, keeping it cool, clean, and soft, under which conditions diseases of the scalp and hair are impossible.

As a Dressing for Ladies' Hair

The VIGOR is incomparable. It is colorless, contains neither oil nor dye, and will not soil white cambric. It imparts an agreeable and lasting perfume, and as an article for the toilet it is economical and unsurpassed in its excellence.

Daily Intelligencer.

England's Gun Factory.

WOOLWICH ARSENAL AND ITS PONDEROUS WORKS—FORGING A 100 TON GUN—ITS SIZE, RANGE AND POWER.

A London correspondent of the New York *Evening Post* writes: A little city a few miles down the Thames from London holds in the military and naval affairs of England a position akin to that of the great London itself in the larger sphere of British trade. No foreign foe can threaten England, no warlike plan be devised, no scheme of colonial defence be meditated, but they are quickly betrayed to the huge gun factory and barracks of Woolwich. The city and its arsenal are a kind of martial thermometer, with a gun-mold for a tube, in which the rise and fall of molten metal registers the foreign policy of that empire whose drum-beat traditionally encircles the world.

The government gun-works in Woolwich, cover an area of about a hundred acres, fronting the Thames. In size, in amount of war material produced, and in the perfection of the plant, they are rivalled by no existing works of the kind, except those of Herr Krupp, at Essen, in Germany. In time of peace the Woolwich gun factories give work to about five thousand men, who labor only for a few hours a day. But at

THE SIGNAL OF WAR

every department is fully manned, the number of workmen rises to fifteen thousand or twenty thousand, all the machinery is set in motion night and day, visitors are rigidly excluded, and the whole city bustles with new life and vigor. Even in peace however, access to the works by visitors, not British subjects is exceedingly difficult. The shilling or half crown so potent elsewhere in England avails little at the Woolwich arsenal. The American visitor who wants to see the factories has to make application to his minister at London. Cabinet and tedious delays obstruct the entry of a foreigner if he can not, with the good fortune of the writer, secure the kind offices of one of the managers of the works and go in by the back door.

One of the first and most interesting of the structures seen by the visitor, on the left immediately after entering the arsenal grounds, is the projectile house. Here are stored for exhibition specimens of most of the shot and shell used for field and naval ordnance. They include not merely the missiles now in use, but what may be called an historic series, beginning with the stone balls of medieval times, and coming down to the perfected Palliser of the present day. The monarch of them all is conical Palliser shot used for the 100 ton guns on the British ironclads. The shot is about four and a half feet high, as it stands upright on its blunt base. It is twenty inches in diameter at the place where the conical slope begins, and it weighs 1,920 pounds. To make use of these huge missiles is alone a task of vast labor, using up days of work by hand in the various processes of shaping, polishing and chilling the point. This process of chilling, now applied to all the large projectiles of the British navy, is curious and instructive. The point of the cone is heated, then masses of cold iron are set against it. The effect of the contact, is to extract the sulphur from the metal, leaving its fibre solid, hard, and tough. When fractured the chilled part of the big bullet shows a clear, bright, and firm re-arrangement of the particles—a kind of recrystallization of them—in vivid contrast with the duller hue and rougher particles—a kind of unchilled iron in the body of the missile.

In a structure next to the museum of projectiles, bullets are made. A large cylinder filled with a plunger, reminding one of a huge perpendicular syringe. In the top are two semi-circular pipes, through which the molten metal is forced, partly cooling on its way. The two half circular strips of lead suddenly emerge at a point of junction of the pipes in contact with each other. Just here comes one of the most

WONDERFUL MECHANICAL PROCESSES

of the whole arsenal. Instead of keeping on as two separate pieces, the straight edges of the lead strips cohere firmly at the point of contact. It is explained that the pipes are made absolutely true, and that the particles of lead are brought to close contact, that they cohere under the same law which holds together the particles of any ordinary mass of cold metal. Whatever the cause, it is certain that the semi-circular strips finally emerge in one solid round bar of gleaming lead. The keenest eye cannot detect the central line where the strips were united, and the lead itself, under the hard pressure, is made more heavy and compact. Then an intricate machine, almost human in intelligence, seizes one end of the long coil, cuts it into long sections, and, as quick as lightning, punches each piece into the shape of a bullet, round or conical, as may be needed. The bullets are inspected, counted, and packed away by the million for future wars.

But the manufacture of the great guns for naval warfare forms the really impressive feature of Woolwich factories on this branch of her armament. How to make guns which shall perforate the iron clads of other nations, how to make iron walls which the guns of other nations cannot perforate, is the two-fold problem which constantly spurs her forward. A single sight inside the Woolwich arsenal grounds shows how steadily the fight goes on between the iron-clad and the projectile. One sees hundreds of great guns in line side by side, made a few years ago, which have never been fired since they were tested, and are as new and fresh as when first turned out from the factory. Yet all these guns are to be broken up and recast into improved ordinance Within a few years, they have become obsolete, and all the vast labor they represent goes for nothing save the experience gained. To the cost as well as the progress of wars these long lines of cannon, condemned without trial, bear mute but impressive testimony.

Two-thirds of all the structures of the Woolwich arsenal appear to be given up to the manufacture of these

COLOSSAL CANNONS.

At the first stage of their construction there is made a long core of cast steel. Then strips of wrought steel as long and large as the beams of a house are wrapped around the breech end. The strips are laid on hot, one after another, in coils and, contracting as they cool, form a breech of prodigious strength. Next the gun is placed on a lathe, turned smooth, the centre bored out, and the inside polished until one can see the face reflected from its curves. The rifling is an operation needing peculiar delicacy and skill. It is done with a long stiff rod, upon the end of which is fixed a cutting tool of the hardest steel, grooving as it must the steel core of the gun. So slowly does the massive cylinder revolve that, even at the breech, where it has the largest diameter, it scarcely seems to move at all. The rifling rod as well as the rate of revolution is regulated by a beautiful piece of mechanism, covered with numbered arcs and figures, and described as a marvel of mathematical skill applied to a mechanical process. When the huge hundred-ton creature is done, it is a wonder, indeed. Its weight is twice that of a large railroad locomotive; it is forty feet long from breech to muzzle, it is seven feet in diameter at the breech, and two feet eight inches from inner bore to outer surface. With an efficient range of several miles, it carries a conical shot, twenty inches through, weighing almost a ton, and needing several hundred pounds of powder to project it. A shot of this size now penetrates the thickest naval armor plating, and cuts through twenty inches of solid iron backed with oak as cleanly as a bullet through cheese. It has, after much experiment, been found that the most effective rifling for these cannons is a groove starting as a straight line at the breech. Half way to the muzzle the groove begins to turn, and at the muzzle the curve is greatest, sending the ball out with a kind of circular "snap," which, so say the engineers, gives the greatest range and precision to the projectile.

The massive machinery which handles these big pieces of ordnance as readily as a child's toy, excites scarcely more wonder by its strength than by its unerring accuracy. It includes a horizontal revolving bed, used for cutting the bed plates for the guns, and probably not less than forty feet square; a crane which lifts easily 200 tons and can readily swing in air four American locomotives; and the famous trip-hammer weighing forty tons, and said to be the largest in the world, yet which can be so gently managed as to force a watch crystal into its place without breaking it. How excellent are both the material and workmanship turned out by these splendid machines at Woolwich is proved by accident as well as by design. In a small building is shown an eighty-ton gun which was tested intentionally until it burst. By its side lies the big gun of the Thunderer ironclad, which was burst by accidental double loading a few years ago, with the deadly result which many will recall! In both these great pieces the fractures are almost perfectly symmetrical, forming clubs forward of the breech, and proving alike how flawless was the material and how evenly distributed was the strength of the gun.

In the centre of the Woolwich Works rises a chimney some two hundred feet high, the tallest in the arsenal grounds, and said to be one of the

LOFTIEST IN ENGLAND.

When this or any of the other chimneys are to be mended, the services of a bold chimney climber connected with the works are called for. With a kite he throws a string over the top, then pulls down the kite with a second cord after the first is properly adjusted The string then draws up a stronger string, then a rope, then a corded ladder by which the chimney is climbed. A few years since the man had thus scaled the top of the tallest chimney, built a wooden scaffolding for repairing it, and then came down for dinner, when the woodwork took fire from a flying spark; and it is related as a specimen of the fellow's hardened recklessness, that after the fire burned out he ascended once again on the blackened and half burned rope ladder, not even waiting to have it tested. A long list of similar incidents fill out the annals of Woolwich, to which could be added details of institutions at the arsenal which the limits of this letter must exclude—the torpedo factory, where secrets are so carefully guarded that not even a British General can get admitted, and the workmen are chosen specially for their high character and secretiveness; the great turf-covered magazines, where men, for fear of explosion, must wear list shoes, and discard everything metallic from their clothing: and the vast system of blast furnaces, placed underground, while the men who draw out the molten metal above must wear thick wooden-soled shoes to protect their feet from the heated iron floor. Yet when all martial wonders of Woolwich, with their triumphs of gigantic mechanism, have been seen, one leaves it with the feeling that, after all, the humblest factory in England stands for a larger idea in human progress than the great gun-shop, where science brings her supreme gifts only to aid man to kill his fellow.

AFTER many years of patient investigation DR. VAN BUREN, of Germany, finally succeeded in perfecting a Kidney Cure that would permanently relieve all cases of Kidney Disease. Be sure and ask your Druggist for DR. VAN BUREN'S KIDNEY CURE.

Rest and Comfort to the Suffering

"Brown's Household Panacea" has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful," "Brown's Household Panacea," being acknowledged as great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle. 264ly

"Now you may not think it remarkable, but I do, that St. Jacobs Oil cured me of a case of rheumatism of three years' standing in three weeks," says Mr. Frank Lawler, Alderman of the eighth ward, Chicago, Ill.

John T. Berry, Esq., Rockland Maine, President of the Lime Rock National Bank, and also of the Knox and Lincoln R. R., says he had the rheumatism in his left foot and leg. He used three bottle of St. Jacobs Oil and it relieved him wonderfully. He calls it "a splendid article."

Rheumatism is greatly dependent on a vitiated condition of the fluids, and may be eliminated from the system by cleansing the Blood and regulating the Kidneys. Burdock Blood Bitters will do this most effectually. Trial bottles 10 cents.

Take no more nauseous purgatives. Burdock Blood Bitters act mildly, pleasantly and thoroughly upon the Bowels, and occasion no inconvenience, while it regulates the Liver and Kidneys and tones the enfeebled system. Trial bottles 10 cents.

At the approach of spring great attention should be given to purify the system engorged with foul humors during the winter. Burdock Blood Bitters is Nature's own purifying and regulating tonic.

DELAYS are dangerous, particularly in Kidney Diseases, so take at once DR. VAN BUREN'S KIDNEY CURE and obtain relief from all your sufferings. Your Druggist keeps it.

BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, bloches, pimples and the various humors and blemishes of the skin are only symptomatic of bad blood—that needs purfying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidneys, skin, etc, and strengthening while it regulates and purifies.

The market is full of preparations for the hair, some of them good, and many of them good for nothing. R. P. Hall & Co., of Nashua, N. H., manufacture and sell an article of real merit, which has been advertised in the *Express* for the past year, and we have taken no little pains to inquire how it has been liked by the public. One of our druggists informs us that he has sold more than double the amount of Renewer than of all other hair preparations combined, and when a person once uses it, he will use no other: that it is not only bought by the young people as a dressing, but by older persons for removing dandruff, preserving and increasing the growth of the hair and restoring its natural color. Another druggist says that he sells three or four times as much of Hall's, as of all others.—*Hampshire Express, Amherst, Mass.*

The REV. CHAS. E. PIPER, formerly of Pittsfield, N. H., but now of Wakefield, R. I., writes: "I have used Baxter's Mandrake Bitters in my family for over two years, and as a result have not called a physician in the whole time. My wife had been an invalid for two years, but these *Bitters* have cured her."

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle. 264ly

CHEAP AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Magnetic Medicine, which contains forty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column

RACKED BY INNUMERABLE PANGS, restless by day, sleepless at night, rising unrefreshed in the morning, without appetite and pestered by varying and perplexing symptoms, the dyspeptic takes indeed a gloomy view of human existence. For him the zest of life seems gone. Heartburn, oppression at the pit of the stomach, and the attendant annoyances of of constipation and biliousness, combine to render him utterly wretched. But there is, if he will but take advantage of it, a reliable source of reliable relief from all misery. NORTHROP & LYMAN'S VEGETABLE DISCOVERY and DYSPEPTIC CURE is, as its name imports, a botanic preparation, free from mineral poison, and an all-sufficient remedy for indigestion in its most obstinate form. It not only enriches the blood by enabling the digestive organs to convert the food received into nutriment, but depurates it by increasing the action of the bowels and kidneys, the natural outlets for its impurities. But while it relaxes the bowels, it never does so violently and with pain, like a drastic cathartic. It aids, but never forces, Nature, invigorating as well as purifying and regulating the system. It thoroughly removes those diseased humors which tend to vitiate the blood, purifies the urinary secretion, and promotes a flow of healthy bile into the natural channel, besides expelling it from the circulation. Experience has proved that this standard medicine is a thorough remedy for dyspepsia, biliousness, costiveness, kidney complaints, scrofula, erysipelas, salt rheum, lumbago and all impurities of the blood. Price $1.00. Sample Bottle 10 cents. Ask for NORTHROP & LYMAN'S Vegetable Discovery and Dyspeptic Cure. The wrapper bears a *fac-simile* of their signature. Sold by all medicine dealers

WILL
EXCHANGE
a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys.

Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

BUTLER'S

Celebrated

BLACKBERRY CORDIAL.

The most effectual remedy yet discovered for Cholera, Cholera Morbus, Diarrhœa, Dysentery, Cramps, Colic, looseness of the Bowels &c.

This justly celebrated preparation is highly recommended by the medical men, and has been used with the greatest success for the last ten years throughout the United States.

$72 a week. $12 a day at home easily made. Costly outfit free. Address [illegible] & Co., Augusta, Maine.

Daily Intelligencer.

BELLEVILLE, MONDAY, SEPT. 4.

The Pacific Railway Staff.

Few people have any idea of the magnitude of the work undertaken by the Canadian Pacific Railway authorities, or of the cost of maintenance of the large staff of employees now on their pay rolls. The Company have now, the Winnipeg *Times* informs us, nearly five thousand men employed in operating the road in the North-West, outside of the force employed by Langdon, Shephard & Co., in construction. The men are distributed as follows:

General and Departmental Officers, Clerks, etc.	76
Engineering department	307
Conductors, brakesmen, etc.	356
Drivers, firemen and wipers	260
Station agents, operators and station laborers	544
Track department	1,908
Building department	521
Shops	290
Special gangs handling construction material, fuel, etc.	579
	4,841

The amounts of the pay rolls of the western division for the last five months were as follows:—

March	$ 53,177
April	70,782
May	120,604
June	185,869
July	269,156

From this exhibit a good idea can be had of the immensity of this great national undertaking. The contractors have, in addition to this, just as many, if not more, men employed, making upwards of 9,000 men at work in operating and constructing the Canadian Pacific Railway.

Catarrh of the Bladder.

STINGING irritation, inflammation, all Kidney and Urinary Complaints, cured by "Buchupaiba." $1.

Editorial Brevities.

Mr. Mackenzie, at the East York picnic, expressed a truth when he pointed out that, whatever may be thought of the trade question in the abstract, Free Trade is not to be thought of so long as a country has to raise a revenue. The real trade question in Canada is whether the many shall be highly taxed or the few, or whether the incidence of taxation shall be made to press fairly upon all.—*London Advertiser.*

This sounds very well, but the electors remember that Mr. Mackenzie had five years in which to carry out his ideas, and the result was disaster to every interest concerned. The people will have no more of Grit "revenue tariffs," and this they emphatically declared for the second time on June 20th, when they gave the Government a majority of seventy-five members in the House of Commons.

The Grits of West Hastings are sick of the protest business, and some of those who were the most active in pushing the protest on have been caught in the trap set by themselves and are now anxious for a compromise. The price which they seek is, however, too high. They must either come down or have their political rascality made known, and have heavy fines to pay as well.

The Conservatives of this Riding should muster in large numbers on Friday next, when delegates to the Toronto Convention of the party are to be chosen. Let the best possible men be selected.

Don't die in the House.

"Rough on Rats." Clears out rats, mice, roaches bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

THE ARCHBISHOP OF CANTERBURY.—Dr. Tait, Archbishop of Canterbury, whose serious illness is creating much anxiety in England, was born at Harviestoun Castle, Clackmannanshire (of which his father Mr. Crawford Tait was proprietor), in 1811. His mother was a daughter of Sir Islay Campbell, of Succoth, long President of the Court of Session. He entered the University of Glasgow in 1827, and three years later went to Oxford, where he entered into Holy orders. In 1842 he succeeded the famous Dr. Arnold as headmaster of Rugby School, and remained in that position until 1850, when he became Dean of Carlisle. In 1856 he was appointed Bishop of London, and his missionary operations whilst holding that office are remembered with affection by the inhabitants of the metropolis. He was elevated as Archbishop of Canterbury and Primate of All England by the Queen in 1868.

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists.

—Lady Macdonald and her brother, Col. Bernard have arrived at St. John, N. B., from St. Andrew's. Sir John Macdonald is expected to join them if his duties will permit.

If Nearly Dead

after taking some highly puffed up stuff, with loud testimonials, turn to Hop Bitters and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes, or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides, it is the best family medicine on earth.

COUGHS AND COLDS.—If taken in time are easily cured,—if allowed to continue will result in incurable consumption. Allen's Lung Balsam has the confidence and support of the medical faculty, and is recommended by all who are acquainted with its virtues.

Dropsy is essentially a watery condition of the blood, dependent upon disordered Kidneys. Burdock Blood Bitters are strongly Diuretic and consequently the best known remedy, acting as it does upon the entire Secretory System.

A SIMPLE herb found on the sunny plains of a Southern clime has, under the skillful manipulation of DR. VAN BUREN, proved one of the greatest blessings ever sent to sufferings humanity. DR. VAN BUREN'S KIDNEY CURE is acknowledged all the world over as the only perfect remedy for Kidney troubles. Your druggist has it.

Dr. E. C. West's Nerve and Brain Treatment is a never failing cure for Nervous Neuralgia, Nervous Headache, Overworked Brain, &c. Sold at James Clarke & Co's.

News Condensed.

—Cholera has appeared at Tangiers.

—Mr. Chapleau's return for Terrebonne is gazetted.

—All the passengers of the steamship *Lake Nepigon* were safely landed.

—The decrease in the United States public debt for August was $16,128,000

—The Dominion Rifle Association annual competition commences at Ottawa to-day.

—Several survivors of the *Jeannette* sailed from Liverpool for New York on Saturday.

—The *Mosel*, which ran ashore near Penzance, has broken in two and is a total wreck.

—The *Observer* announces that there is no chance for the recovery of the Archbishop of Canterbury.

—In the Newfoundland fishery there is a deficit on an average year's catch of 400,000 quintals codfish.

—The Cincinnati *Gazette* has a perfect right to estimate the stars in the heavens, and puts them down at 100,000,000.

—The British Minister at Athens has made a strong representation to the Greek Government against continued hostilities on the frontier.

—The deaths from cholera at Manilla average three hundred daily. Fort-five hundred people have died at Hoilo with it the past fortnight.

—The proprietor of a mineral water is making $200,000 a year in London. One of its causes of popularity was that the Prince of Wales liked it.

—Applications for letters patent have been made by the Battle River Valley and North-West land Company and The Qu-Appelle and Long Lake Land Company.

—Mr. A. M. Sutherland, M.PP. for Kildonan has been sworn in Attorney General for Manitoba, *vice* Hon. W. D. Walker, who has accepted a judgeship.

Mr. Dupont, the Conservative candidate in Bagot for the seat in the House of Commons vacated by Mr. Mousseau, was elected on Saturday by a majority of 302.

- Mr. Halkett Lord, special correspondent the London *Standard* and the Sydney (Australia) *Morning Herald*, is making a tour of Canada He is now in Montreal.

—The Governor-General, Princess Louise and party left Toronto on Saturday afternoon for Niagara Falls, where they will remain until to-morrow and thence proceed to British Columbia *via* San Francisco.

*The term *hydra* may be used to represent any manifold evil. If you would battle successfully with this many-headed monster of disease you will find it expedient to keep Mrs. Pinkham's Vegetable Compound always at hand.—*Dr. Banning.*

—During the month ending August 31st, there were 175 patents issued in the Dominion, the fees collected thereon amounting to $4,861.07, being an increase of $756.06 or more than 18 per cent over those of the corresponding month last year.

—Near Elkhorn, Ind., six years ago, an old farmer was robbed of his hoard of money. John Elliot was convicted of the crime and sent to the penitentiary. Just as his sentence is to expire, a thorough search of the thief's old home has resulted in the discovery of the swag in his cistern.

—A Constantinople despatch says: The Porte's offer relative to the trouble on the frontier was that the Greek Government establish a neutral zone round the disputed territory until there is a definite settlement of the question. The proposition, however, was not accepted. According to the latest despatches hostilities still continue.

—Two Philadelphia detectives accused an innocent young man of stealing $100, and showed him how strong was the circumstantial evidence against him. Greatly frightened, he paid them $100 out of his small savings and they kept half, giving the rest to the loser to settle the case. Now the original money has been found where it was mislaid

—When the rider in the guise of a drunken spectator staggered into a circus ring at Marquette, Mich., and the ringmaster went through with the usual foolery of ejecting him, incidentally remarking that no policemen were ever present when order needed to be restored, a German officer hustled the performer off to jail, in spite of all protests and explanations.

."Do boldy what you do at all." Boldly do we affirm that Kidney-Wort is *the* great remedy for liver, bowels and Kidney diseases. rheumatism and piles vanish before it. The tonic effect of Kidney-Wort is produced by its cleansing and purifying action on the blood. Where there is a gravelly deposit in the urine, or milky, ropy urine from disordered kidneys, it always cures.

—The Emperors of Germany and Austria, while at Ischl, attended together a gala performance at the little theatre there. Among the actors and actresses were Mme. Lucca and other favorite artists from the Court theatres. The occasion gained especial interest by the presence of the young Archduchess Valerie, who was then for the first time presented to the Emperor William.

— Theodore Martin, C. B.; Anthony Trollope, Wm. Blanchard Jerrold, Samuel Merley, M. P., Samuel C. Hill, R. S. A., Godfrey Wordworth Turner, and John Hollingshead, have joined the committee for the erection of a bust of Longfellow in Westminster Abbey. Henry Irving, the actor, has granted the use of the Lyceum Theatre for a public meeting, at which Matthew Arnold will support the movement.

—The Executive Committee of the council of the Dominion Rifle Association has not yet been finally selected for the ensuing rifle meeting, but it will probably consist of Lieut.-Col. Kirkpatrick, 47th Battalion, Kingston, chairman of the Council; Lieut.-Col. Thomas Ross, G. G. F G, Ottawa; Major Mason, 13th Battalion, Hamilton; Lieut.-Col. Otter, 2nd Battalion, Q. O. R., Toronto; and Col. Laurie Halifax, N.S.

—The troubles between the Irish Metropolitan Police Force and the authorities seem to be in a fair way for settlement. Adopting the suggestions of the officers nearly 200 of the 234 dismissed men have petitioned for reinstatement, and many of those who declined duty have either returned to the positions or expressed a willingness to so. Several riots have occurred in Dublin during the strike, but the rioters were quickly dispersed by the military.

—Etiquette in Germany forbids the carrying of parcels, no matter how small, by a gentleman Under immense pressure of necessity, a lady may take home in her own hands a small purchase, or carry a book or roll of music to the house of a friend When a dressmaker comes to try on a little walking jacket, a small boy must needs walk behind bearing the garment on his arm. An officer cannot under any circumstances carry anything when in uniform.

PEARLS.—Get your mouth full by using "TEABERRY," the new wonder for the Teeth and Breath. Brush vigorously. See directions. 5 cent samples.

Correspondence.

Whilst correspondents will be accorded space for the expression of their ideas on topics of public interest, it must be in all cases understood that the views so expressed are simply those of the correspondents themselves.

Rowdyism.

To the Editor of the Intelligencer.

SIR,—Rowdyism and trespass are on the increase under what is called by some an efficient police, and at an enormous expense to the city, when we are so burdened with debt. About three years ago I made a complaint to the proper authority of the conduct practised on Sunday evenings, and especially holidays. It was treated with contempt. Lately the rowdies are taking more liberty than usual, as they fear no authority to interfere with them. Monday afternoon drunken men went along the street cursing and using the worst of language. Mrs. Foster, left her house for a short time and some young fellows went into her yard and broke off a limb of the pear tree and carried it away with the pears on. They were told by some one who saw them that the police would catch them, but they laughed at the idea that a policeman would stray so far out of his usual route as to come down here, so far from the Front Street. After dark, they assembled together and began breaking down a fence, tore off a twelve foot board, well nailed on with 12 nails, to steady the top of the pickets, and tore off a number of pickets. One of my neighbors was listening at the time, and heard one of the party say, "Let us go in and do all the damage we can." Another said "no." They then broke some of my neighbor's fence and went on and had a fight. One of my neighbors told me last evening that one of the leading rioters was profaning at a great rate, on Monday afternoon, in front of his house. He sent his boy down to tell one of the police to come and arrest him. He told the policeman, who said, "Go on, I will follow you," but did not go. Dundas street and corner of Foster Avenue is the worst resort in Belleville for trespassers and apple thieves.

I would ask now, after such treatment, if we have not good reason to complain. Burdened with heavy taxes and no protection, we must fight our own way through It must be because we live in the suburbs and are not worth looking after, but when tax time comes we will not be neglected. I don't think a policeman is to be seen in this neighborhood once in two months, unless he is sent for.

JUSTICE.

Dundas Street, Aug. 30th, 1882.

Ministerial Deadheading.

At the Southwestern Indiana M.E. Conference the Committee on Entertainment reported the time as come when "the gratuitous entertainment of the members of the Conference ought to be discontinued, and the Conference assume the responsibility of their own entertainment, and that at the next session of the Conference a committee be appointed to provide entertainment for the Conference and visitors at such boarding places as they may approve, securing the same at such rates as they may find practicable, and give due notice of the session of the Conference." The report brought about an animated discussion, many of the members of the Conference insisting that it was unjust to require ministers to thrust themselves on the hospitality of the brethren. The bishop stated that the only Conference, so far as he knew, that paid its own way was one in New England, and the policy was under discussion in Conferences in New York, Maryland and other States. The subject was finally tabled.

MILITIA GENERAL ORDERS.—Major Henry R. Smith, 47th Battalion, is appointed aide-de-camp to the Major-General commanding the militia; Lieutenant Colonel Worsley, Brigade-Major in military district No. 5, is appointed acting Deputy Adjutant-General commanding that district from 23rd May, 1882, during the absence on leave on medical certificate of Lieutenant-Colonel Van Straubenzie, Deputy Adjutant-General; Lieut. and local Captain E. Raban, R. E., is taken on the strength of the Royal Military College of Canada as instructor in fortification, geometrical drawing and military engineering from 17th August, 1882.

THE SELF ACCUSED MURDERER.—With reference to the confession of the man in Brockville who said he had participated in a dreadful crime in England, the Brockville *Recorder* says; "Speculations among our citizens as to the truth of the story told by the man McGinnis, that he had committed three murders in London, England, five years ago, has been set at rest by his subsequent confession that the story was manufactured from whole cloth and had not a single element of truth. He adheres to the story that his name is McGinnis and that he was born in London. His reason for telling the yarn is that he was sent away from home, and in order to spite his relatives concluded to get into disgrace. He had relatives in both England and Ireland upon whom the confession would bring shame and disgrace. Since being incarcerated his mind has relented, and he now admits with shame and regret that he told a wilful lie."

Excellent reasons exist why *Dr. Thomas Eclectric Oil* should be used by persons, troubled with affections of the throat or lungs, sores upon the skin, rheumatic pains, corns, bunions, or external injuries. The reasons are, that it is speedy, pure and unobjectionable, whether taken internally or applied outwardly.

SMITH MEDICINE Co.

GENTLEMEN,—I have made a trial of one box of Dr. Smith's Great German Worm Remedy, with such good effect that I have no hesitation in recommending it to the public as a prompt and reliable medicine. In fact, those who use it once will always do so. Yours truly,

J. Harvie, 172 Cadieux street.

Montreal, December 9th, 1881.

Nervous debility is a result of indiscretion in the mode of living. Heed nature's unerring laws and take Burdock Blood Bitters, the Great System Renovator and Blood, Liver and Kidney regulator and tonic. Sample bottles 10 cents.

Hall's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by Jas. Clarke & Co., Belleville, Ont.

PROCLAIM it far and wide that DR. VAN BUREN'S KIDNEY CURE not only immediately relieves all Kidney diseases, but what is more important to the unfortunate sufferer, will ultimately cure him effectually.

LARGE SMOKE STACK.—The Strathroy *Age* says:—"The Strathroy Knitting Company erected at their factory this week one of the largest smoke stacks in Ontario. It was manufactured by Messrs. S. Killey & Co., of Hamilton, and made of iron, the weight of which is 5,000 pounds, 85 feet in height and 36 inches in diameter. Its erection was under the immediate supervision of Mr. John Campbell, of Hamilton, one of Messrs. Killey & Co's. master workmen." This is another tall chimney for the Grits to gird at.

A NEW CURE FOR HYDROPHOBIA.—Prof. Tommasai has written a letter to the Italian newspaper *Piccola* describing a case of hydrophobia in which the powerful drug pilicarpina was used without effect. The professor says: "The prodigious effects of this remedy soon showed themselves—profuse sweats and enormous salivation; and yet the malady continued its fatal course as usual. I was one of those who had hoped in the good effects of pilicarpina in cases of hydrophobia, and now this hope has vanished, and it is necessary that the fact should be known."

C. BRITTON, Lindsay, Ont., writes:—I have much pleasure in recommending Baxter's Mandrake Bitters in all cases of Jaundice, Billousness, Sick Headache and Liver Complaint, for they have given universal satisfaction, and I have sold more of them the past season than any other one patent medicine.

A New Principle.

The principle upon which PUTNAM' PAINLESS CORN EXTRACTOR acts is entirely new. It does not sink deep into the flesh, thereby producing soreness, but acts directly upon the external covering of the corn, separates it from the under layer, removes the direct pressure from the part, and at once effects a radical cure, without any pain or discomfort. Let those who are suffering from corns, yet skeptical of treatment, try it, and by the completeness of the cure they will be ready to recommend Putnam's Painless Corn Extractor to others. Sold by W. R. Carmichael

Consumption, that dread destroyer of the human race, is often the result of bad blood and low vitality, a scrofulous condition of the system Burdock Blood Bitters cure Scrofula in its worst form.

KIDNEY-WORT

FOR THE PERMANENT CURE OF CONSTIPATION.

No other disease is so prevalent in this country as Constipation, and no remedy has ever equalled the celebrated Kidney-Wort as a cure. Whatever the cause, however obstinate the case, this remedy will overcome it.

PILES. THIS distressing complaint is very apt to be complicated with constipation. Kidney-Wort strengthens the weakened parts and quickly cures all kinds of Piles even when physicians and medicines have before failed.

☞ If you have either of these troubles

PRICE $1. USE Druggists Sell

BELLEVILLE, MONDAY, SEPT. 4

City and Vicinity

A MEETING of the City Council will be held this evening.

A SACRED concert is to be given this month by the choir of Bridge St. Methodist Church.

A MEETING of the Board of Police Commissioners was to have been held this afternoon.

Two drunks were registered on Saturday night at the Police Station, and one vagrant last night.

SOME fine music is being rehearsed by the St. Thomas' Church choir for the Thanksgiving service.

JOHN MCCALLUM, drunk, and John Milligan, a vagrant, appeared before the P. M. this morning and were dismissed.

THE schools of the city opened for the regular work of the term to-day. There is a good attendance at all the schools.

MR. PYKE, who acted the part of *Bunthorne* in "Patience" when that operetta was produced in Belleville, is a Nova Scotian.

MESSRS. Geo. Wallbridge, H. Corby, W. Bullen, and Ald. Brignall arrived home from Europe yesterday, and were welcomed by a large number of friends.

MISS HUNTER, assistant teacher at the High School, has submitted her resignation to the Board of Education. A special meeting of the Board will be held this evening to consider it.

MESSRS. D. B. Robertson, City Clerk, and Wm. Webster returned home on Saturday from their trip up the northern lakes and to Georgian Bay. They report having had a delightful trip.

THE body of Geo Terry, the G. J. R. brakesman who was drowned in Moira Lake on Saturday, was brought to town in the afternoon, and was buried to-day in Ameliasburg, where his friends reside.

REV. DR. CLARKE was taken suddenly ill yesterday afternoon and was unable to be present at the evening service in Christ Church. Mr. Dunnet read the service. The reverend gentleman is better to-day.

THE steamer which brought home Messrs. Wallbridge, Brignall, Bullen and Corby from England also conveyed a pretty little wife for a citizen of Belleville. The marriage notice will probably appear soon.

THE Market square sadly needs cleaning. The foot walks on the lower bridge are also sadly in need of being replanked. The pump on Cedar Street has been broken for ten days, and boys have stolen most of the iron work.

SOME new music has arrived from England for the Philharmonic Society—consisting chiefly of Mendelssohn's 95th Psalm—"Come Let us Sing," which is to be performed next season by the Society. The regular practice will commence in two or three weeks.

THE regular service in Bridge St. Methodist Church was dispensed with yesterday morning, Dr. Jeffers being too ill to attend, and the arrangements which he had made for a substitute not being carried out. The Dr. was well enough to preach in the evening.

THE Madoc and Stirling Companies of the 49th Battalion will meet No. 1 Company here to-morrow and proceed with them to camp at Cobourg. Capt. Harrison has now secured almost his full complement of men, but he will have to go to camp without a lieutenant, Lieut. Johnson being unable to leave his business.

CYNTHIA HARRIS, the idiotic girl who was dismissed from the Home for the Friendless two or three weeks ago, was brought up at the Police Court this morning on a charge of vagrancy, and was remanded for a week. A charge of abusive language was brought by Mrs. Neil against Irvine Rose. After evidence was taken for the prosecution, the case was adjourned until to-morrow, Mr. Wallbridge, the counsel for the defence, having demanded that the orginal by-law under which the action was brought should be submitted. Jos. McGhee a crippled old vagrant up on remand, was allowed to go.

CAPT. FARLEY, of B. Battery, will act as provost officer at the Cobourg camp.

THE first new barley of the season left port to-day in the schr. *N. P. Downey*, which will fill up at Napanee and proceed to Oswego.

A CARTERS' horse stumbled and fell to-day in front of the residence of Mr. S. Bull, Cedar St., while its owner was delivering a load of wood, and in falling struck its head against a tree. The animal instantly fell dead—either from a sudden disease or from the effects of the blow on the head.

AT this morning's Police Court, Geo. W. Way, a liveryman of Napanee, brought a charge of obtaining a horse under false pretences against Frank Simmonds. The defendant, it appears, hired a horse and rig from Way early on Saturday morning, for the purpose of going to Northport; but he came on to Belleville and left the horse at Docter's Hotel. He was arrested at Napanee on No. 1 express. The explanation Simmonds gives is follows:—He hired the rig for the purpose of taking his wife from Northport to Belleville to catch the mixed train for Port Hope, where she was about to embark for Rochester. But he was advised, on arriving in Bellevile, to go by way of Cape Vincent, so he left the horse and rig at Docter's and took the noon train for Kingston, with the intention of returning by the evening express and taking the horse back to Napanee. The case was settled between the parties, Simmonds paying all costs.

WEATHER PROBABILITIES—Toronto, Sep. 4.—Lakes, moderate winds mostly between west and north, fine weather, stationary or slightly lower temperate.

WEST HASTINGS AGRICULTURAL SOCIETY.—Arrangements were completed on Saturday last for holding the usual Joint Show with the Belleville Horticultural Society, on the evening of the 27th and Thursday, the 28th day of September next.

OLD PAPERS.—The *News* says: "Anson Peters of Ernestown, has copies of the Kingston *Gazette* of 1812 and 1813, to which paper his father was a subscriber. As a curiosity, they are very valuable and interesting. In them are found articles on the latest news from England; an Act to explain, amend and reduce to one Act of Parliament the several laws now in being for the raising and training the militia of this Province; proceedings of the Provincial Parliament of Upper Canada, etc. The spelling is quaint and in the old style; the printing fair, and was undoubtedly done on the old hand presses then in general use. Stephen Miles was the owner and publisher of the *Gazette* in 1812."

BEFORE purchasing Ready made Clothing be sure and look through HENNESSY'S stock. He has over 300 suits in all, and is offering them at actual cost.

Marine.

The schrs. *W. W. Grant*, *Mary Taylor* and *Mary Foster* and the steam barge *Norman* are loading lumber at the Eagle Mill.

The schr. *McClellan* is loading lumber at Sutherland's for Dexter.

The *Jessie McDonald* is in, and will load iron ore for Fairhaven.

Sporting Notes.

The greatest yacht race that there is any record of took place on August 29th, at Beverly, Massachusetts, on the occasion of the annual regatta of the Beverly Yacht Club. There were 148 entries and 114 starters, of which 104 completed the course. The yachts were divided into ten classes, length measurement.

Warren Smith wishes to make matches with Hamm and Wallace Ross, and both are willing to meet him.

Mr. James Fleming, one of the best quoit pitchers of this city—though not the champion of Belleville, as stated by the *News*—pitched a match on Friday at Kingston with Mr. Dodds, of that place. The Kingstonian won easily.

The Shamrocks and Montreal Independents did not play their championship game on Saturday, because they could not agree on an umpire.

The Torontos beat the Caughnawaga Indians in their lacrosse match on Saturday.

As several members have withdrawn from the Earl Lacrosse Club, of Kingston, it has disbanded, and will play no more this season.

The Hamilton typos beat those of Toronto in a base ball match on Saturday by 26 to 8 runs.

Gen. Butler is at Quebec with his famous schooner yacht *America*.

The British rifle team arrived at New York on Sunday.

—Cheese in Liverpool to-day 56s, 6.d

—There has been a heavy gale in England which has inflicted serious injury on the crops.

—A sporadic case of Asiatic cholera, which terminated fatally, has occurred in Adams county, Michigan.

—It will be learned with regret that the state of Mr. Mousseau's health is such that his medical advisers insist on his remaining away from the scene of his labors for some days to come.

—Among the presents showered upon Cetewayo previous to leaving for Zululand were shawls for his wives and a bull-dog. The Maharajah Dhuleep Singh, now that Cetewayo has been so handsomely treated, has made a demand for compensation for losses sustained in the Punjaub many years ago.

—Mr. Robt. J. Leader, a druggist of Brudenell, has been mulcted to the extent of $45 for prescribing without the necessary license. It appears that a patient, failing to receive any relief from his medical adviser, appealed to Mr. Leader, who cured him of his ailment, whereupon, in gratitude for his service, the man pressed a sum of money upon his benefactor.

Rheumatism is greatly dependent on a vitiated condition of the fluids, and may be eliminated from the system by cleansing the Blood and regulating the Kidneys. Burdock Blood Bitters will do this most effectually. Trial bottles 10 cents.

Take no more nauseous purgatives. Burdock Blood Bitters act mildly, pleasantly and thoroughly upon the Bowels, and occasion no inconvenience, while it regulates the Liver and Kidneys and tones the enfeebled system. Trial bottles 10 cents.

At the approach of spring great attention should be given to purify the system engorged with foul humors during the winter, Burdock Blood Bitters is Nature's own purifying and regulating tonic.

THE WAR IN EGYPT.

Arabi Again Advancing.

TURKEY'S TROUBLES.

LONDON, Sept. 4.—Arabi appears to have regained confidence, and has advanced boldly from his stronghold at Tel-el-Kebir, threatening Wolseley's flank and also the Suez Canal. This movement has caused a serious disarrangement of Sir Garnet's plans, and will necessarily delay the projected attack for some days. The delay will afford additional opportunities for gathering all the troops to enable them to strike a decisive blow at the rebels. Yesterday General Graham's advance guard occupied Karami, a position in the direction of Cairo. This movement was rendered necessary by Arabi's new strategic movement. News from Cairo represent the situation there to be very critical in consequence of the fanatical hatred of the natives, which threatens to burst out at any moment. The arrival of an Indian regiment there is anxiously looked for. At Alexandria a quantity of arms and ammunition has been discovered in a mosque. This would indicate the existence of a plot for a native rising. It is hoped, however, that in a few days reinforcements will arrive. The necessity for a short and vigorous campaign is manifest in view of the news that 80,000 men are marching from Tripoli to Arabi's assistance. Turkey's troubles have been added to by the insurrection of Sheikh Abdoullah, who is reported to be threatening Erzeroum. This new danger has probably had its weight in influencing the Porte to come to an amicable arrangement with Greece upon the frontier question. It is reported that each side suffered a loss of about four hundred in the recent hostilities.

ALEXANDRIA, Sept. 4.—A surprise was caused here by Gen. Wolseley's refusal of the Khedive's request that Lord Charles Beresford accompany his staff during his operations in the interior. Lord Beresford is a correspondent of a New York paper, and it is believed that Gen. Wolseley's refusal is due to the fear that he might criticize the handling of the troops in his telegrams to foreign papers.

LATEST FROM THE SEAT OF WAR.

STRENGTHENING THE ARMY.

Conspiracy Discovered in Alexandria.

SUPPLIES STILL LACKING.

Shelling the Rebel Lines.

LONDON, Sept. 4.—Though Gen. Wolseley does not require the third division, the government is determined to strengthen his hands by sending three battalions of infantry, so Gen. Wood may be set free without leaving a garrison of less than 5,000 at Alexandria. A reserve depot of 150 men for each regiment at the front with Gen. Wolseley, will also be formed at Alexandria. A large depot of a thousand reserve men will be formed to replace these as they are drafted to the front to supply casualties. The result of these measures will be that Gen Wolseley will have 22,000 men on the main line of operations, besides the garrison of Alexandria and the Indian Contingent.

ISMAILIA, Sept. 4.—Wolseley's force on the English front from Tel-el-Mahorto to Kassassin still numbers but 5,000 men. The necessary ordnance stores, which are sorely needed, have not yet been landed here.

ALEXANDRIA, Sept. 4.—The ironclad *Minotaur* is shelling the rebel lines because of threatening demonstrations made by the enemy.

ALEXANDRIA, Sep. 4.—Great uneasiness is felt in consequence of the arrest of a native spy, while carrying a letter to Antonio Paulo, the Greek Consul at Siout, who is staying here. Paulo has been arrested. It is rumored that the police have discovered ramifications of a conspiracy in which several Greeks are implicated, the object being to massacre the Europeans in Alexandria, in the event of the British troops being seriously engaged at Ramleh.

The Canadian Cheese King.

By reason of being the largest and most successful manufacturer of cheese in Canada, David M. McPherson, of Lancaster, Ont., has become generally known as the "cheese king" of Canada.

The village of Lancaster lies a little north of the St. Lawrence river, and near the eastern boundary of Ontario, It is surrounded by an excellent grazing country, and one that is in every way adapted to the business of dairying, and in which the growth of grass this season is unusually large. Within a radius of thirty-five miles with Lancaster as a centre, are located eighty cheese factories, thirty-five of which are controlled by Mr. McPherson, who personally owns thirty three of them, ten of which were erected last spring. Thirty thousand dollars are invested in the factories and the apparatus contained in them. The circle in which they are included sweeps over the line of Ontario into the Province of Quebec and south of the St. Lawrence river, nearly to the boundary of New York. Nearly all the factories in this area are controlled by large operators, there being, besides Mr. McPherson, three others who own twenty, two, ten, and six factories, respectively. The remainder of them are owned by single individuals. Those belonging to Mr. McPherson are mostly moderate sized, compact, and inexpensive, but snug and durable structures, and all I visited were neat and tidily kept. The largest of them are supplied with the milk of only 600 and 700 cows, and some of them, I should judge, received the milk of not more than 200 cows. The total daily make in them all, on the first of July, was 400 cheese, averaging 66 lbs. each, all of which are first-class goods, varying from fine to fancy, and sell at the very top of the market. The last sale previous to my visit, early in July, brought 11 cents, delivered at the nearest station.

The mode of manufacture is intended to be the same in all, and is as nearly uniform as it is possible to make it without a more frequent personal inspection than the superintendent of so large a number can give and attend to furnishing supplies, etc. The factories all take the name of "Allan Grove," and the individual factories by numbers,—1, 2, 3.—*National Live Stock Journal.*

MORNING DESPATCHES.

EUROPEAN.

THE DUBLIN TROUBLES.

DUBLIN, Sept. 4.—A despatch says: Some roughs mounted on the equestrian statue were caught attempting to chisel the nose off the Orange Prince, William III., last night; they succeeded in disfiguring the statue.

The weapons believed to have been used in the Phœnix Park assassinations have been found in a stable behind the house of one of the men now in prison undergoing punishment for threatening the widow of a young man murdered by Fenians last July.

It has been ascertained that in the charges made on Saturday and Sunday, 77 persons were wounded by bayonet thrusts, blows and batons.

THE PANAMA CANAL.

PANAMA, Sept 4.—All heavy work on the interoceanic canal is to be stopped; the rainy season so far is a very light one, yet it is found that even a slight rain fall impedes all work, and in low ground entirely prevents it. Men who attempt to work fall sick, and not one is able to work more than three days a week,—the rest of the time has been passed in bed with fever.

AMERICAN.

HORRIBLE MURDER AND SUICIDE.

ST. LOUIS, Sept. 4.—George Green's wife recently secured a divorce from her husband, and was given the custody of their two children, a boy aged 4 and a girl aged two years. Mrs. Green lived with her father three miles from the city. Green having been forbidden to come to their place, sent for the children yesterday, and after playing with them a few hours, shot both with a horse pistol, and not being satisfied that they would die, he shot them again, and ran away. The alarm was given, and a dozen neighbors started in pursuit. Being closely pressed, Green shot himself through the head.

OUTRAGE BY A POLICEMAN.

NEW YORK, Sep. 4.—Henry Dett, aged 57, was arraigned at the court yesterday charged with being drunk and disorderly. The examination showed that he quarrelled with his wife, and that a policeman, Benj. Christopher, who was also drunk, was summoned to arrest him. Arriving at the house Christopher began to club Detts, breaking his arm and bruising his face and hands terribly. Detts' wife interfered, when the policeman struck her twice with his fist, knocking her down. The daughter, aged 17, went to her rescue and was struck in the stomach by the policeman and had her sack torn off her back. Dett was abed when Christopher arrived, but was forced to go to the station almost naked. Christopher was allowed to continue on duty.

NEW YORK HAPPENINGS.

Owen Gillespie, detective on the Hudson R. R., went to Ferdinand Jacobs' boarding house late last evening and called for whiskey. Jacobs refused to give him liquor. A quarrel ensued, Gillespie being ordered from the place. He then attempted to break in the door, and fired three shots into the house, fatally wounding Michael Reichenbach. Gillespie when arrested said he fired the shots because he was insulted.

Henry P. West, a School Commissioner, became angry last evening at a number of boys who built bonfires near his house, and in a struggle with Jas. Wader, aged 12, the latter was pushed under a street car and had his leg crushed. West was arrested and held in bail.

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinary or Liver Diseases, as they only relieve for a time and make you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

AFTERNOON DESPATCHES

FRIGHTFUL RAILWAY ACCIDENT.

CARLSRUHE, Germany, Sep. 4.—A train running between Freiburg and Calmar left the rails near Hugsletten. 50 persons were killed and many injured.

ANTI-RELIGIOUS RIOTS.

PARIS, Sep. 4.—Anti-religious disturbances similar to those which occurred at the Montceaules mines, recently, have broken out near Mont Lucon, and eight crosses have been torn down and destroyed.

NEW YORK, Sept. 4.—Arrived, the *Maas* from Rotterdam.

NARROW ESCAPE OF THE CZAR.

ST. PETERSBURG, Sept. 4.—During military manœuvres to-day, a temporary bridge gave way directly after the Emperor and Empress had passed over. Grand Duke Michael, Gen. Kostarka, and the War Minister, Wanowski, were precipitated into the stream. The latter was seriously injured, the others escaped with slight bruises.

☞ The Diamond Dyes always do more than they claim to do. Color over that old dress. It will look like new. Only 10 cents

O. Bortle, of Manchester, Ontario Co., N.Y. writes:—"I obtained immediate relief from the use of *Dr. Thomas' Eclectric Oil.* I have had Asthma for eleven years. Have been obliged to sit up all night for ten or twelve nights in succession. I can now sleep soundly all night on a feather bed, which I had not been able to do previous to using the Oil."

For 30 Years

The dark-eyed and lovely daughters of Spanish America have used MURRAY & LANMAN'S FLORIDA WATER as their only cosmetic and toilet perfume. It is the most fragrant, as well as the most lasting of all Floral Waters, and possesses refreshing and invigorating properties not contained in any other preparation of the kind.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, New York City.* [w6m143eod

"Now you may not think it remarkable, but I do, that St Jacobs Oil cured me of a case of rheumatism of three years' standing in three weeks," says Mr. Frank Lawler, Alderman of the eighth ward, Chicago, Ill.

John T. Berry, Esq., Rockland Maine, President of the Lime Rock National Bank, and also of the Knox and Lincoln R. R., says he had the rheumatism in his left foot and leg. He used three bottle of St. Jacobs Oil and it relieved him wonderfully. He calls it "a splendid article."

AFTER many years of patient investigation DR. VAN BUREN, of Germany, finally succeeded in perfecting a Kidney Cure that would permanently relieve all cases of Kidney Disease. Be sure and ask your Druggist for DR. VAN BUREN'S KIDNEY CURE.

Commercial.

N. H. DOWNS'

Vegetable Balsamic

ELIXIR!

This valuable medicine is purely vegetable, the discovery of which was the result of many years' close study, in order to discover the cause, the symptoms and the cure—viz:

Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Influenza, Pleurisy, Hoarseness, Spitting Blood, Bronchitis,

and every species of oppression of the Chest and Lungs. In all cases where this Elixir has been duly administered its efficacy has been invariably manifested, convincing the most incredulous that

CONSUMPTION

is not incurable, if properly attended to.—Consumption at its commencement, is but a slight irritation of the membrane which covers the lungs, then an inflammation when the cough is more observable, but rather dry. then becomes local fever and the pulse more frequent, the cheeks flushed and chills more common. This Elixir in curing the above complaints, operates so as to remove all morbid irritations and inflammation from the lungs to the surface, and finally expel them from the system. It facilitates expectoration.

IT HEALS THE ULCERATED SURFACES

and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. It is free from strong opiate and astringent articles, which are of so drying a nature as to be in great danger of destroying the patient; whereas this medicine never dries up the cough, but, by removing the cause, generally destroys the [illegible] cough is entirely gone. Consequently, when the cough is cured the patient is well. Send address for pamphlet giving full directions for cure of pulmonary diseases. Price 25cts. and $1 per bottle. Sold everywhere.

HENRY, JOHNSONS & LORD, Props,
MONTREAL, P. Q.

MACK'S MAGNETIC MEDICINE

Brain and
Nerve Food.

HYDROLEINE

HYDROLEINE
HYDRATED OIL
EQUIVALENT TO
10 TIMES
THE SAME
BULK OF C.L. OIL.
PREPARED BY
THE HYDROLEINE Co
LONDON ENGLAND

(Hydrated Oil.)
An artificially digested Cod Liver Oil.

For Consumption, Winter Cough, Affections of the Chest and all Wasting Diseases.

Prescribed by the leading physicians of England, the United States and the Dominion of Canada.

A WONDERFUL FACT.

Hydroleine mixes perfectly with water, forming a complete [illegible] digestion of the [illegible] and just as the Hydroleine mixes with the water, so does it mix with the liquid contents of the stomach, and enters immediately into the system to nourish and build up. The efficacy of Hydroleine is not confined to cases of Consumption, as it is of value [illegible] effect on the nervous system in a [illegible] due to its special stimulating action on the organs concerned in the production of Fat in the body. It causes *marked increase in weight in persons of naturally thin habit, who do not present any evidence of disease.*

Ordinary preparations of Cod Liver Oil produce [illegible] unpleasant eructation of sense of nausea, and should be taken in such very much smaller doses according to the directions, as will ensure its complete assimilation, this, at the same time, renders its use economical in the highest degree.

For sale by all Druggists.

We have sold the above remedy for several months and find it spoken of very favorably by both the medical profession and the public.

We can safely recommend it to parties needing such a remedy.

Signed,

Daily Intelligencer.

Canadians as Sportsmen.

From the Scottish American Journal.

Canada is pushing herself rapidly into the front rank in almost every way possible. As an emigration field she undoubtedly holds an enviable place, and the manner in which the country is developing is astonishing to all. Her products are now successfully competing in all markets. A certain push characterizes her people that is scarcely second to that distinguishing feature of Americans. The political and social institutions of the Dominion are also surprisingly perfect in a people of so brief a history. In such an unequal contest it might be thought that Canadians would not have time to indulge in pastimes, far less to compete for the laurels in sport. And yet she not only does so, but now wears the bay leaf for many.

Ever since 1876 Canada has retained the championship for oarsmen against the whole world. In her now national game of lacrosse she is almost unrivalled. Her athletes have made their mark wherever they have gone. Even on the turf at Saratoga recently the superiority of Canadian-bred horses has been proved. The Canadian militia have been always marked no less for their loyalty than efficiency, and have on the present emergency again gallantly volunteered their services in Egypt to the Mother Country.

They have always held a high place as marksmen, and in the competitions at Wimbledon have achieved successes that reflected the greatest honor upon the Dominion. As for the grand old national game of curling, Canada has long held the first place, and is likely to continue so to do, her long winters being most favorable to the game.

The Canadian Government wisely gives every encouragement and support to such pastimes and contests. It is impossible to calculate the great benefit which indirectly flows to the Dominion itself through its representatives going abroad, and successfully competing where superiority in muscle, skill and brain are required. Greater attention is thereby directed to the country; and on inquiry it is found that the climate there is unsurpassed, and peculiarly favorable to physical development and health. That is the great desire of all. Even the wish for riches is secondary to it. And thus her representative athletes best proclaim to other nations the great benefits of the Dominion.

As the population increases, so will the number of representative sportsmen of Canada. But when the comparatively few have already earned such a reputation, what may we not reasonably expect from the many when the chances of success are greatly multiplied? The plucky way the Canadians have competed against such great odds for the Kolapore Cup at Wimbledon merits success. Carrying off the Prince of Wales prize this year gives them encouragement, and whets their appetite for still greater laurels.

Sir Colin Campbell's Pleasant Manner.

Sir Colin Campbell came like a whirlwind into the fort, driving in a buggy with Major Allison, his military secretary. As he passed under my gateway he shouted out, 'Brigade-major, follow me!' Fortunately my own buggy was, as usual, at the door, and I was able to obey the order at once. Suddenly he stopped and sprang out like a boy, upon an unfortunate officer commanding a regiment in the fort, saying, 'I know you, sir; I know you, sir. Your regiment is in bad order, sir. Have any of your men been instructed in the Minie rifle drill?' 'Yes, sir.' 'Have the officers?' The unfortunate Major hesitated, and said, 'Some of them, sir.' Upon which Sir Colin turned around to the Adjutant, a smart young fellow standing by, and said, 'How many, sir?' 'None!' replied the Adjutant. 'I thought so,' said Sir Colin. "One of you lied, and it is not you;" and thereupon he placed the unfortunate officer under arrest. He then sent for the next in command, a jolly individual, who came down stairs in exuberant spirits, with his hat well on the back of his head. Not aware of Sir Colin's presence, and only seeing me, as the rest were a little way off, he shouted out "Well, old fellow, what is the row?" I said nothing, but took him to Sir Colin, who said, "Major E., I know nothing about you, good, bad, or indifferent; but this I know, if anything goes wrong under your command, I will try you, sir, by court martial, as I intend to try your Major." And glaring fiercely at us all, he added, "I will try everybody who is incapable."—*Rough Recollections of Military Service, Lieut.Col. B. D. Wardlaw Ramsay.*

Some of England's Ancient Oaks.

Among the ancient oaks of England few are more interesting than the gigantic ruin now standing in an arablefield on the banks of the Severn, near Shrewsbury. It is the sole remaining tree of those vast forests which gave Shrewsbury its Saxon name of Schobbesburgh. The Saxons seized this part of the country A D 577, when they burnt the Roman city of Uriconium, where Wroxeter now stands, four miles from the village of Cressage; and underneath this now decrepit dotard it is said that the earliest Christian missionaries of those times—and possibly St. Chad himself—preached to the heathen before churches had been built. The Cressage Oak-called by the Saxons Criste-ache (Christ's Oak) is probably not less than fourteen centuries old. The circumference of the trunk was about 30 feet, measured fairly at the height of five feet from the ground; but only about one-half of the shell of the hollow trunk now remains. It still bears fifteen living branches, each 15 feet or 16 feet in length. A young oak grows from the centre of the hollow: The noted oaks of England, thanks to those who have preserved them, thanks to the universal veneration for timber, and to a stirring and lengthened history, are innumerable. Windsor Forest is particularly rich in historic oaks, and Sherwood Forest, though disafforested, still contains some memorial timber, like Needwood, once a crown forest, now a fine estate of well-farmed land. Dryden's

"Three centuries he grows and three he stays,
Supreme in state, and in three more decays,"

is a poetical statement, and some of the dates on trees cut down in Sherwood Forest, and marked 600 years before, in the time of King John, prove that it is an under-estimate. The great Winfarthing Oak, in Norfolk, was called the "Old Oak" in the time of the Conqueror, and has been supposed to have attained the age of 1,500 years. The King Oak in Windsor Forest is upwards of 1,000 years old.

A Self-Acting Reporting Machine.

Iron gives an account of another addition to the many scientific wonders of recent years. Herr A. Gentilli, of Vienna, has invented an instrument—named by him the glossograph—consisting of an ingenious combination of delicate levers and blades which, placed upon the tongue and lips and under the nostrils of the speaker, are vibrated by the movements of the former and the breath flowing from the latter. The vibration is transmitted to pencils, which transcribe the several signs produced by the action of the tongue and lips and breath from the nostrils upon a strip of paper moved by a mechanical arrangement. Similar to shorthand, a special system of writing, which may fitly be termed glossography, is produced, based upon the principle of syllable construction and combination of consonants. It is especially suitable for those languages the orthography of which differs least from the phonetic record of the apparatus The instrument is self acting in the fullest sense. Moreover, the application involves as little fatigue to the speaker as severe attention on the part of the person transcribing In reporting proceedings in parliament or courts of law, it is not necessary that the speaker should use the apparatus himself. Anybody may articulate it by repeating in a low voice the words of a speaker, which is sufficient for recording the signs The glossograph, *Iron* says, may be recommended to those orators whose efforts to be heard are consistently ignored by reporters, and who will thus be enabled by simply adjusting the instrument under their nose report their own speeches in spite of those objectionable persons. Seriously speaking, however, the glossograph may play an important part in telegraphy in the near future.

Samson lost his strength with his hair. Thousands of men and women lose their beauty with theirs, and very large numbers restore the ravages of time by using the famous Cingalese Hair Restorer. Sold at 50 cents per bottle by all Druggists.

Cingalese A name well known in connection with the Hair Renewer, which restores grey hair to its natural color by a few weeks use. Sold at 50 cents per bottle by all Druggists.

Important to Farmers, etc.

If you would keep your kine, cattle, hogs, horses, sheep and poultry in the most perfect health and remunerative condition, mix Harvell's Condition Powders occasionally with their feed. Those great specifics are *the wealth* of the barn yard. See to it! Sold every where.

The most wonderful curative remedies of the present day, are those that come from Germany, or at least originate there. The most recent preparation placed upon the market in this country, is the GREAT GERMAN INVIGORATOR, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangements of the nervous system. For sale by druggists, or sent free by mail on receipt of the price, $1.00 per box, or six boxes for $5.00. Address James Clark & Co., Sole agent for Belleville. Send for circular.

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrh, Bronchitis, Asthma and Lung Disease by Dr. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the seat of disease. Read and judge for yourself:—

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. John P. Whelan, Manager of Post and True Witness, Montreal Mr. C. Hill, Montreal, catarrh and bronchitis. Mr. DeBoucherville, of the Indian Department, Ottawa, catarrh of many years; now cured. Mr. Geo. Ager Ottawa, catarrh and lung disease; cured. Mrs. Smith, London, wife of Medical Detective, cured of catarrh. Geo Maguire, Toronto, 482 Adelaide street West; daughter cured of asthma. George Willis, Exeter, Ont., catarrh and bronchitis. J. D. Armstrong, 186 Yonge street, Toronto, catarrh and catarrhal deafness. Thomas Telfer, 12 Melinda street, Toronto, asthma; cured. Mr. Benj. A. Drake, St. Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. Benoit, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma and bronchitis for over eight years, and who is now perfectly cured.

Mrs. Adamson, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitating in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis. John C. Fleming, Editor of Post and True Witness, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write, inclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souville and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

$1,000 Forfeit!

Having the utmost confidence in its superiority over all others, and after thousands of tests of the most complicated and severest cases we could find, we feel justified in offering to forfeit One Thousand Dollars for any case of Coughs, colds, sore throat, influenza, hoarseness, bronchitis, consumption, in its early stages, whooping cough, and all diseases of the throat and lungs, except Asthma, for which we only claim relief, that we can't cure with West's Cough Syrup, when taken according to directions Sample bottles 25 and 50 cents; large bottles one dollar. Genuine wrappers only in blue. Sold by all druggists, or sent by express on receipt of price. JOHN C. WEST & Co, sole proprietors, 81 and 83 King St. East Toronto, Ont. For sale at Jas. Clarke & Co.'s Drug Store.

WILLIAMS' SINGER,

IS Still ahead of all competiotrs,

The above sewing machine has been acknowledged by the most expert Sewing Machine men to be the best in the market. Remember these machines are made by a responsible Company. Before purchasing call at the office, Front Street, and be convinced,

Hotel for Sale.

THE undersigned being about to retire from business, offers his Hotel for sale in the village of Tweed, known as the "Albion Hotel." This will be a good investment as the House is doing the best business in the village and the property will greatly increase in value as the Ontario and Quebec Railway is now in course of construction through the village. There are splendid stables and sheds in connection with the Hotel. Terms easy.

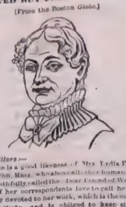
$5 TO $20 per day at home. Samples worth $5 free. Address Stinson & Co., Portland, Maine.

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]



Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass. who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of *either* sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Philadelphia, Pa. (3) Mrs. A. M. D.

KIDNEY-WORT

IS A SURE CURE for all diseases of the Kidneys and

LIVER

It has specific action on this most important organ, enabling it to throw off torpidity and inaction, stimulating the healthy secretion of the Bile, and by keeping the bowels in free condition, effecting its regular discharge.

Malaria. If you are suffering from malaria, have the chills, are bilious, dyspeptic, or constipated, Kidney-Wort will surely relieve and quickly cure.

In the Spring to cleanse the System, every one should take a thorough course of it.

SOLD BY DRUGGISTS, Price $1.

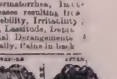
TO NERVOUS SUFFERERS—THE GREAT EUROPEAN REMEDY—DR. J. B. SIMPSON'S SPECIFIC MEDICINE.

Dr. J. B. Simpson's Specific Medicine is a positive cure for Spermatorrhea, Impotency, Weakness, and all diseases resulting from Self Abuse, as Nervous Debility, Irritability, Mental Anxiety, Languor, Lassitude, Depression of Spirits and Functional Derangements of the Nervous system generally, Pains in back Loss of memory Premature Old Age and diseases that lead to Consumption, Insanity, and an early grave, or both. No matter how shattered the system may be from excesses of any kind, a short course of this Medicine will restore the lost functions and procure Health and Happiness, where before was despondency and gloom. The Specific Medicine is being used with wonderful success. Pamphlets sent free to all. Write for them and get full particulars.



Price, Specific, $1.00 per package, or six packages for $5.00. Will be sent by mail on receipt of money. Address all orders,

Cathartic Pills

Combine the choicest cathartic principles in medicine, in proportions accurately adjusted to secure activity, certainty, and uniformity of effect. They are the result of years of careful study and practical experiment, and are the most effectual remedy yet discovered for diseases caused by derangement of the stomach, liver, and bowels, which require prompt and effectual treatment. Ayer's Pills are specially applicable to this class of diseases. They act directly on the digestive and assimilative processes, and restore regular healthy action. Their extensive use by physicians in their practice, and by all civilized nations, is one of the many proofs of their value as a safe, sure, and perfectly reliable purgative medicine. Being compounded of the concentrated virtues of purely vegetable substances, they are positively free from calomel or any injurious properties, and can be administered to children with perfect safety.

Ayer's Pills are an effectual cure for **Constipation or Costiveness, Indigestion, Dyspepsia, Loss of Appetite, Foul Stomach and Breath, Dizziness, Headache, Loss of Memory, Numbness, Biliousness, Jaundice, Rheumatism, Eruptions and Skin Diseases, Dropsy, Tumors, Worms, Neuralgia, Colic, Gripes, Diarrhœa, Dysentery, Gout, Piles, Disorders of the Liver,** and all other diseases resulting from a disordered state of the digestive apparatus.

As a Dinner Pill they have no equal.

While gentle in their action, these Pills are the most thorough and searching cathartic that can be employed, and never give pain unless the bowels are inflamed, and then their influence is healing. They stimulate the appetite and digestive organs; they operate to purify and enrich the blood, and impart renewed health and vigor to the whole system.

Prepared by Dr. J. C. Ayer & Co.,
Practical and Analytical Chemists.

THE ROYAL INSURANCE CO.

Of England.

CAPITAL	$10,000,000.
Funds Invested	$23,000,000
Annual Income	5,000,000.

Over $600,000 invested in Canada for the protection of Canadian Policy holders.

Farm Property Insured against damage by Lightning. Losses to live stock by lightning and fire anywhere on the Farm made good.

FACTS WORTH REMEMBERING.

The Royal has the largest surplus funds of any Fire Insurance Company in the world.

The Royal has the largest deposit with the Dominion Government of any other Insurance Company.

The conditions of the Royal's Policies are more liberal than those of other Companies doing business in Canada.

In conclusion remember that security should be the first consideration, and that it is to your interest to insure with the Company that gives the *greatest* security. You may better carry your own risk than entrust it where you have not absolute security.

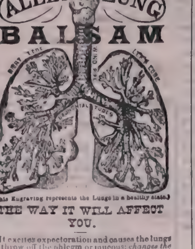
T. DONNELLY, Belleville,
DISTRICT AGENT



(This Engraving represents the Lungs in a healthy state.)

THE WAY IT WILL AFFECT YOU.

It excites expectoration and causes the lungs to throw off the phlegm or mucous; *changes the secretions and purifies the blood;* heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. SUCH IS THE IMMEDIATE AND SATISFACTORY EFFECT that *it is warranted to break up the most distressing cough in a few hours time,* if not of too long standing. *It is warranted* TO GIVE ENTIRE SATISFACTION, EVEN IN THE *most confirmed cases of Consumption! It is warranted not* to produce costiveness (which is the case with most remedies), or affect the head, as it contains no opium in any form. *It is warranted to be perfectly harmless* to the most delicate child, although it is an active and powerful remedy for restoring the system. *There is no real necessity for so many deaths by Consumption,* when ALLEN'S LUNG BALSAM will prevent it if only taken in time. Physicians having consumptive patients, and who, having failed to cure them with their own medicine, we would recommend to give ALLEN'S LUNG BALSAM a trial. *Sold by all Druggists.*

CORNS.

ALEX. Ross' Chiropo quickly turns them into a soft pulpy condition. Price $1; free by mail from England.

Daily Intelligencer.

A Chilian Massacre.

THE BLOODEST PICTURE IN THE BOOK OF TIME.

On the evening of January 14, 1881, the Chilian army had succeeding in advancing from the camp at Lurin to a line in front of Lima, which embraced, from Chorrillos on the left to San Christobal on the right, a distance of six miles. The intrepid Colonel Patricio Lynch, of the Chilian centre grand division, had conceived the idea of assaulting the almost inaccessible heights of San Christobal, on which were mounted some four heavy rifled cannon at such an altitude that they could be made to sweep the horizon at a distance of four miles over an area of sixty degrees. This, then, was the grand point of attack. The Dictator Pierola had held the centre of his lines as the key point, and in consonance with his many errors of judgment left his flanks unprotected.

The Chilian army had been promised the loot of the city in case of success, and as their plan of action on all other occasions was indiscriminate murder and the outraging of women, the Peruvians hoped for little from them. What there was of bravery in the Peruvians was at fever heat. Even the priesthood came out in force, and by their counsel and advices sought to raise up the drooping spirits of the weaker ones in the trenches. All through that night, in the heavy and deathly Peruvian dew, could be heard the sonorous Dominus vobiscum of the good priests as they went from point to point to pray with and encourage the men.

Afar off and for miles out on the plain below could be seen the Chilian forces at their fires, their ribald shouts and songs floating back on the still air, a strange contrast to the holy efforts of the besieged forces on the hill.

A great number of women and children had sought protection on the hill, fearing the capture of Lima, and knowing the fate which awaited them in that event. Their pitiable plight would touch the heart of a Cromwell. Patrician ladies who had been nurtured in ease and affluence were sharing their hastily caught coverings with the poor Creole and Indian, a mutual danger breaking down the barrier of caste, which in that country is very strong. Such food as could be obtained was distributed, and hunger forced the rich and poor alike to eat.

All through the night alternating hope and fear possessed the men, and would reflect themselves upon the helpless women and children, who would pour out such touching prayers to Mary that the onlooker doffed his cap and knelt in reverent attitude to assist in the prayer. A beautiful sight was the heroic conduct of the Sisters of Charity. These good women move about among all, without fear, and did more good by their cool action than all the pronunciamentos promulgated by Pierola.

Thus the night wore on, and it will forever live in the memories of the surviving participants as a night of horror and misery.

At 4:30 in the morning the bugles of the Chilian army sounded "Boots and saddles," and instantly the plains below were in commotion. Bodies of troops, horse and foot, could be seen taking position for action. The final hour had come, and with a tremendous din the Peruvian commander Montoro (on the hill) saw the fearful odds he had to combat.

The Chilian General Lynch advanced on the centre and attacked the troops under the Dictator Pierola. A short, sharp and deadly struggle ensued, in which a heavy loss was sustained by the Chilians—and lo! the Chilian line falls back. This is witnessed with breathless interest from the hill, and as soon as the Chilian line could be seen in retreat the whole garrison, including women and children, knelt in prayer for their deliverance. A revulsion of the feeling of fear came over all, and they shouted in glee. It was a short-lived joy, however, as in ten minutes the Chilians reformed under cover of artillery and again came to the assault. The Peruvian forces were over confident, and ere they knew the movement of Lynch, were broken in the centre and driven back a full mile into their entrenchments. This move left the flank of the hill uncovered, and more open to attack. Joining both wings of the army together Gen. Lynch moved to attack the heights. The large guns were trained on him, but alas for the lack of skill on the part of the Pruvians the guns overshot the enemy.

The Chilians advanced and easily drove or killed the small force at the approaches to the ascent. Up these approaches the Chilians flew in a column of twos until they reached the barricade. Here they were met by a murderous fire from Gatling guns and checked. Shells were lighted and rolled among them, missles of all kinds were brought into use, still the Chilians held the position. A momentary lull in the fire, and the venerable Archbishop of Lima advanced towards the barricade, accompanied by a number of clergymen, and in tones of supplication sought protection for the women and children promising a surrender of the hill. This short time gave both sides an opportunity to recover their senses, and, true to the treacherous nature of both countries, they began the assault again. This time the Chilians tore away the barricade only to leave a holocaust of death in its stead, so hot had been the fire.

Up they clambered, each forming a dead stepping stone for his follower, until the top of the hill was gained; here a fierce hand to hand fight ensued, but the Peruvian troops, never brave in battle, had caught the national fear and were clambering down on the opposite side, leaving their defenceless countrywomen a prey to the Chilians. Then began the bloodiest picture in the book of time. The Chilians shot and stabbed indiscriminately women and children, rich and poor, churchman and layman, and, to crown their demoniac achievement, five Sisters of Charity were found among the slain. Having vented their satanic temper, they ceased, and a parley was held with the few that were unhurt, but the bounds of reason had been passed, and the heroic band of priests and soldiers made a last plunge for God and country, and fell victims to the unerring rifles of the infuriated Chilians.

The sun was just above the horizon, rising in all its glory in a bright clear sky, and looked down upon this ghastly scene as if to mock the inhumanity of man. A stray newspaper man present was reminded of the grand line in "Coriolanus," Act IV., Scene I, where his mother comes to plead for Rome:

> "The heavens do open, the gods look down.
> And this unnatural scene they laugh at."

It was a victory for the Chilians, yet what a puny thing it was to the immortal victory achieved by the godly men and women who laid down their lives for the defence of helpless women and children who were forsaken by their natural protectors.

The history of the Chilian war has many blots, but none so damnable as the massacre of San Christobal.

John T. Berry, Esq., Rockland Maine, President of the Lime Rock National Bank, and also of the Knox and Lincoln R. R., says he had the rheumatism in his left foot and leg. He used three bottle of St. Jacobs Oil and it relieved him wonderfully. He calls it "a splendid article."

The Famous Household Cavalry.

THEIR HISTORY AND SERVICES.

As anything pertaining to the British Army possesses great interest for the general public just now, I hope you will pardon the following statement relating to a portion of that army, of which much that is inaccurate has been lately given forth to the newspaper readers of the country. I allude to the household troops, better known as the "Household Brigade." As they have (or portions of them) been lately ordered to Egypt, the general run of newspaper correspondents seem to think that this is something unprecedented, the general idea being that they have not served out of England since Waterloo. This is not so, and the following little sketch is therefore given:

The Household Brigade consists of three regiments of cavalry and three regiments of infantry. The cavalry are the First Life Guards, Second Life Guards, and the Royal Horse Guards, blue (the old Oxford Blues). This last named is the oldest cavalry regiment in the British Army, and it, as well as the Life Guards, was composed of a superior class of men, being addressed, until toward the end of the last century, as "gentlemen of the Royal Life Guards," etc. Poor Dick Steele was a trooper in the corps once. The three regiments comprise about eighty officers, 200 non-commissioned officers and musicians, and about 1,050 rank and file. Some of them I see are serving in Egypt now, which I think is a foolish thing on the part of the British authorities, for the men are the largest in the British service, and are the only troops in the army that wear breast-plates and back pieces, buckskin breeches and jack boots. They are armed with a breech-loading carbine, and a nearly straight sabre forty inches long. What they will do in Egypt goodness only knows, but if ever they did get among scattered infantry, they would ride them down like chaff. They scattered the best French cavalry at Waterloo like sheep, their weight alone being sufficient to override the heaviest cuirassiers in the French army.

The foot guards consist of three regiments also, viz.: the Grenadier Guards of three battalions, the Coldstream Guards and the Scots Guards of two battalions each. The seven battalions comprise about 250 officers 650 non-commissioned officers and musicians, and 5,250 rank and file. The Scots Guards were known as the Scots Fusilier Guards until 1877, when the Fusilier was dropped. A captain in the guards used to rank with a lieutenant-colonel in the line, but in 1872 this privilege was abolished by a royal warrant, as regards officers entering after that date. The oldest infantry regiment in the British service is the Coldstream Guards (General Monk's regiment), and the Grenadier and Scots Fusilier Guards are not much its junior. The position of colonel of the Grenadier Guards is considered the ranking coloneley in the British Army, it having been held by such men as John (the great), Duke of Marlborough, the Duke of Cumberland (the butcher of Culloden), and in direct succession the Duke of York, the Duke of Wellington, and Prince Albert, who, at his death, was succeeded by the Duke of Cambridge, the present Commander-in-chief of the British army. We regard to their services (I am speaking now of the three foot guards regiments) they would cover all the wars Great Britain has been engaged in since the regin of Charles II., save only those undertaken in India. They served against us during the Revolutionary war, some of them being surrendered at Yorktown. They were also at the battles of Long Island, Guildford Court House, Germantown, 1801, exactly eighty-one years ago, they were fighting and conquering the French on the same ground they are standing on to-day. Skipping the Peninsular war and the Waterloo campaign, in which both cavalry and infantry of the Household Brigade were engaged, they were sent (the infantry), at the outbreak of what is known as the Canadian Rebellion, to Canada, serving during the troubles from 1838 to 1842 Twelve years after they were landed at Eupatoria, on the bleak Crimean coast, and it is needless to speak of their services and gallantry during that miserable campaign. When we got into trouble with England in 1861, about the stoppage of the "Trent," and that Power sent a small force to Canada among its numbers were two battalions of the Guards, who stayed here about three years. And now the fortunes of war take them once more to Egypt, where the climate will prove a more terrible adversary to them than will Arabi Bey and his hordes. I see by the English papers, however, that the men have discarded the bearskin hats, the scarlet tunic, and black woollen trousers, and are provided with light helmets, light clothes, veils and goggles for the eyes. The world moves sure. What would Sir Ralph Abercromby and his officers have thought of private soldiers being furnished with veils, goggles, etc?—*Letter in the Washington Post.*

The Hon. Daniel Beatty, Mayor of Washington, N. J., whose Organs and Pianos are known and used wherever there are newspapers and people, says in reference to St. Jacobs Oil: "My brother, Capt. H. Beatty, purchased St. Jacobs Oil for the use of his wife. She was well pleased with the results it effected as it proved an excellent remedy for rheumatism the disease from which she suffered. From my knowledge of its efficacious working I must say that St. Jacobs Oil is unequalled as a remedial substance."

CINGALESE. A name well known in connection with the HAIR RENEWER, which restores grey hair to its natural color by a few weeks use. Sold at 50 cents per bottle by all Druggists.

Rheumatism is greatly dependent on a vitiated condition of the fluids, and may be eliminated from the system by cleansing the Blood and regulating the Kidneys. Burdock Blood Bitters will do this most effectually. Trial bottles 10 cents.

Take no more nauseous purgatives. Burdock Blood Bitters act mildly, pleasantly and thoroughly upon the Bowels, and occasion no inconvenience, while it regulates the Liver and Kidneys and tones the enfeebled system. Trial bottles 10 cents.

At the approach of spring great attention should be given to purify the system engorged with foul humors during the winter. Burdock Blood Bitters is Nature's own purifying and regulating tonic.

Rest and Comfort to the Suffering

"Brown's Household Panacea" has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful." "Brown's Household Panacea," being acknowledged as great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle. 264ly

"Now you may not think it remarkable but I do, that St. Jacobs Oil cured me of a case of rheumatism of three years' standing in three weeks," says Mr. Frank Lawler, Alderman of the eighth ward, Chicago, Ill.

AFTER many years of patient investigation DR. VAN BUREN, of Germany, finally succeeded in perfecting a Kidney Cure that would permanently relieve all cases of Kidney Disease. Be sure and ask your Druggist for DR. VAN BUREN'S KIDNEY CURE.

DELAYS are dangerous, particularly in Kidney Diseases, so take at once DR. VAN BUREN'S KIDNEY CURE and obtain relief from all your sufferings Your Druggist keeps it

BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, blotches, pimples and the various humors and blemishes of the skin are only symptomatic of bad blood—that needs purifying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidneys, skin, etc, and strengthening while it regulates and purifies.

The market is full of preparations for the hair, some of them good, and many of them good for nothing. R. P. Hall & Co., of Nashua, N. H., manufacture and sell an article of real merit, which has been advertised in the *Express* for the past year, and we have taken no little pains to inquire how it has been liked by the public. One of our druggists informs us that he has sold more than double the amount of Renewer than of all other hair preparations combined, and when a person once uses it, he will use no other: that it is not only bought by the young people as a dressing, but by older persons for removing dandruff, preserving and increasing the growth of the hair and restoring its natural color. Another druggist says that he sells three or four times as much of Hall's, as of all others.—*Hampshire Express, Amherst, Mass.*

The REV. CHAS. E. PIPER, formerly of Pittsfield, N. H., but now of Wakefield, R. I, writes: "I have used Baxter's Mandrake Bitters in my family for over two years, and as a result have not called a physician in the whole time. My wife had been an invalid for two years, but these *Bitters* have cured her."

Mothers! Mothers!! Mothers!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle. 264ly

CHEAP AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Magnetic Medicine, which contains forty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column.

RACKED BY INNUMERABLE PANGS, restless by day, sleepless at night, rising unrefreshed in the morning, without appetite and pestered by varying and perplexing symptoms, the dyspeptic takes indeed a gloomy view of human existence. For him the zest of life seems gone. Heartburn, oppression at the pit of the stomach, and the attendant annoyances of of constipation and biliousness, combine to render him utterly wretched. But there is, if he will but take advantage of it, a reliable source of reliable relief from all misery. NORTHROP & LYMAN'S VEGETABLE DISCOVERY and DYSPEPTIC CURE is, as its name imports, a botanic preparation, free from mineral poison, and an all-sufficient remedy for indigestion in its most obstinate form. It not only enriches the blood by enabling the digestive organs to convert the food received into nutriment, but depurates it by increasing the action of the bowels and kidneys, the natural outlets for its impurities. But while it relaxes the bowels, it never does so violently and with pain, like a drastic cathartic. It aids, but never forces, Nature, invigorating as well as purifying and regulating the system. It thoroughly removes those diseased humors which tend to vitiate the blood, purifies the urinary secretion, and promotes a flow of healthy bile into the natural channel, besides expelling it from the circulation. Experience has proved that this standard medicine is a thorough remedy for dyspepsia, biliousness, costiveness, kidney complaints, scrofula, erysipelas, salt rheum, lumbago and all impurities of the blood. Price $1.00. Sample Bottle 10 cents. Ask for NORTHROP & LYMAN'S Vegetable Discovery and Dyspeptic Cure. The wrapper bears a *fac-simile* of their signature. Sold by all medicine dealers

Will you EXCHANGE a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys.

Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

BUTLER'S
Celebrated
BLACKBERRY CORDIAL.

The most effectual remedy yet discovered for Cholera, Cholera Morbus, Diarrhœa, Dysentery, Cramps, Colic, looseness of the Bowels &c.

This justly celebrated preparation is highly recommended by the medical men, and has been used with the greatest success for the last ten years throughout the United States.

Dominion Ministers and Provincial Politics.

The Toronto *Telegram* is of opinion that Dominion Ministers should not interfere in Provincial politics. It says:

> It might be just as well for Dominion Ministers to keep out of provincial politics. They are returned by the people not to look after provincial affairs, but to look after the affairs of the Dominion. There is really no more ground for Sir John interfering in provincial matters in Ontario than there is for his interfering in provincial matters in Manitoba, or New Brunswick, or British Columbia. We all know what an outcry there would have been if, when the Liberals were in power, Messrs. Mackenzie and Blake, for instance, had taken off their coats and interjected themselves into the provincial politics of Quebec.

Our contemporary is in accord with the theory of the Grit party in this matter, but it apparently forgets that Messrs. Mackenzie, Blake, and others, after declaring against any alliance between the Federal and Provincial Governments, entered actively into the campaign on behalf of Mr. Mowat's administration, and that Mr. Mowat and his colleagues took an equally active part in the Dominion elections in 1878 and 1882. Mr. Mowat's excuse this year was the boundary question, which is an equally good reason for members of the Dominion Government sustaining the views which they hold, in the Provincial elections, and endeavoring to secure a majority for the party which is in accord with them.

Catarrh of the Bladder.

STINGING irritation, inflammation, all Kidney and Urinary Complaints, cured by "Buchupaiba." $1.

Editorial Brevities.

The *Mail* says not a single Grit vote is needed to enable the Conservatives to defeat the Mowat Government, provided every Conservative will go to the polls. Possibly not, but let us wait until Mr. Mowat's gerrymander has been made before being too sure, and let nothing be said that can be misconstrued. We hope that many Grits will vote against the Mowat tyranny, and shall be glad to have their assistance in putting an end to the centralization of authority and in restoring to the people those rights of which they have been deprived by a tyrannous compact which calls itself "Liberal," but is in reality reactionary, corrupt and extravagant.

Mr. Mowat appointed one Division Court Bailiff last week. Business is slack with him at present.

Says the London *Advertiser*: "A protest has been entered against the return of Mr. G. W. Ross in West Middlesex. Among other things charged is bribery. The absurdity of the charge, and the utterly vexatious and frivolous nature of it, are shown in the fact that Mr. Ross' total expenses were but $71, divided as follows: for printing, $42: telegraphing, $24; hall rent, $5." Let the '*Tiser* apply these remarks to the case of Mr. White, whose expenses were but $46.89, of which $41.89 was for printing and $5 for livery.

The Conservative Association of North Hastings will meet at Madoc on Saturday next at 2 p.m., for the purpose of selecting delegates to attend the Toronto Convention. Let there be a large attendance.

If Nearly Dead

after taking some highly puffed up stuff, with loud testimonials, turn to Hop Bitters and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes, or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides, it is the best family medicine on earth.

COUGHS AND COLDS.—If taken in time are easily cured,—if allowed to continue will result in incurable consumption. Allen's Lung Balsam has the confidence and support of the medical faculty, and is recommended by all who are acquainted with its virtues.

Dropsy is essentially a watery condition of the Blood, dependent upon disordered Kidneys. Burdock Blood Bitters are strongly Diuretic and consequently the best known remedy, acting as it does upon the entire Secretory System.

A SIMPLE herb found on the sunny plains of a Southern clime has, under the skillful manipulation of DR. VAN BUREN, proved one of the greatest blessings ever sent to suffering humanity. DR. VAN BUREN'S KIDNEY CURE is acknowledged all the world over as the only perfect remedy for Kidney troubles. Your druggist has it.

CITY COUNCIL.

A meeting of the City Council was held last night, his Worship the Mayor in the chair.

PRESENT—Ald. Dickson, Vanduesen, Smith, Taylor, McIninch, Dunnet, Starling, Tickell, Petrie, Diamond, Macoun, Laroche, Holden, Frost, and Blair.

The minutes of the last two meetings having been read and approved, the Council adjourned for a few minutes in order to allow the Finance Committee to finish the business in hand, which being transacted, the Council resumed.

COMMUNICATIONS, &C.

The following were read.

From Dunham Ockerman, asking for the proper drainage of Catharine Street.

From Thos. Johnson and others, asking that the appropriation of $100 already made for the repair of College Street, be paid.

From B. R. Quinsey and others, asking for a water supply for the northern part of Murney Ward.

From the Police Commissioners, notifying the Council that it would be required to pay the Chief of Police a salary of $1,000 per annum, in monthly instalments.

From W. A. Walker and others, asking for the deepening of the drain across Front St., near W. Y. Mykel's.

The Treasurer presented his monthly statement, as follows:—Receipts, $6,884.73; Expenditures, $6,802.33; cash in hand, $32.40.

From the Secretary of the W. C. Association asking payment of the balance of $29.02 due the association by the city.

From John Grotto, asking the privilege of erecting a tank and pumps at the new ferry slip.

REPORTS.

The different Committees presented their reports.

NOTICES.

Ald. Dickson gave notice of various motions and by-laws.

BY-LAWS.

The rules being suspended, the By-laws for levying the rate of assessment for municipal and school purposes were introduced.

Ald. Dickson introduced a by-law providing for the licensing and regulating of junk-shops within the limits of the city.

MOTIONS.

Ald. Petrie moved, seconded by Ald. Clarke, to the effect that the permission given by the city to the G. J. R. Company to construct a siding on Pinnacle St. be rescinded, and that the Midland Railway Company be notified to remove the said siding. Ald. Petrie held that the laying down of the siding had greatly depreciated property in that vicinity.

At the suggestion of Ald. Dickson, Ald. Petrie allowed his motion to stand as a notice.

WAYS AND MEANS.

Council went into Committee on Ways and Means, Ald. Blair in the chair.

The Finance Committee's report was taken up.

The arbitrary reduction of $50 in the Gas Company's account received some discussion, Ald Diamond at first being of opinion that there should be some definite reason given for the reduction. Both Aldermen, however, shared the general opinion that some considerable reduction should be made.

Ald. Dunnet thought that the account should be referred back to the Gas Company, which should be asked to effect a reduction on account of the non-lighting of lamps in various parts of the city.

On motion of Ald. Diamond, it was decided to refer the account back to the Water and Gas Committee for reconsideration.

The remainder of the report was passed, and the other reports were passed without amendment.

Committee rose and reported.—Adopted.

THE ASSESSMENT BY-LAWS.

Council then went into Committee on By-laws, Ald. Diamond in the chair.

The By law providing for the adoption of the estimates, the levying of the taxes, and the striking of the rate of taxation for municipal purposes for the current year, was taken up.

Ald. Dickson moved that the total amount to be levied for municipal purposes, be $51,869.24.

Ald. Dunnett asked what was going to be done with the $17,000 surplus from last year's income? He wanted to know if this sum was going to be brought over, or if it was all going into the sinking fund? He claimed that the Council was not in a position to decide on the amount to be levied for until it had settled on a rate. He moved in amendment that the blank in the By-law be not filled in until it be ascertained what will be the rate for the current year; which amendment the Chairman ruled out of order, on the ground that Ald. Dunnet should specify an amount.

At this point the city clock struck 11, and as a By-law exists which provides that if the Council is sitting at 11 o'clock it must stand adjourned until the next regular meeting, the discussion suddenly stopped.

Ald. Dunnet pointed out that the Council must stand adjourned, it being after 11 o'clock.

Ald. Dickson claimed that the Council need not adjourn, because when the clock struck the *Committee*, not the Council, was sitting.

In the meantime the Committee had risen and the Mayor had taken the chair.

Ald. Dickson moved that the time be extended for two hours

A very desultory discussion followed, and much confusion prevailed. Some of the Aldermen contended that as the Council was adjourned, and was therefore not in session, there was no necessity to maintain order.

The Solicitor was asked his opinion as to whether the Council was legally in session, and he gave his opinion that, though By-law No. 4 provides that if the Council is in session at 11 o'clock it shall be adjourned, still the action of the Mayor in taking the chair might perhaps legalize the subsequent proceedings. A motion to extend the time he considered in order.

Several aldermen decidedly differed from this view, and expressed themselves pretty decidedly.

Ald. Diamond suggested that the Mayor call a special meeting on the spot, but those who held that the Council was still in session did not like to yield so far as to admit that such a course was necessary.

Ald Dickson pressed his motion for an extension of the time for two hours, and it was put, amid much confusion As it required a two thirds vote of those present to pass it, the motion was declared lost—especially as the majority of the Aldermen did not vote at all. Ald. Frost, indeed—holding that the Council was not in session—expressed his contempt for the proceedings by putting on his hat and lighting a cigar. Ald. Diamond called him to order, but he extended a polite invitation to that gentleman to compel him to remove his hat or extinguish his cigar.

The motion being declared lost, Ald. Dickson demanded the yeas and nays, and these were being taken, when it was suddenly discovered that there was not a quorum present, and the few who had lingered under the impression that they were legally transacting business were obliged perforce to adjourn—but not before Ald. Petrie had moved for an adjournment, which was by some declared to have been carried.

The future student of the municipal history of Belleville will no doubt pore long and earnestly over the records of the Council meeting of the 4th of September, 1882, and will cudgel his brains to discover whether the Council adjourned in the regular way, by the failure to extend the time at 11 o'clock, or for want of a quorum.

Finance Committee.

A meeting of the Finance Committee of the City Council was held last evening. Those present were: Ald. Dickson, (Chairman) Macoun, Dunnet, Starling, Smith, Diamond, Taylor, Vandusen, Petrie, and McIninch.

The subject of the Estimates was taken up.

The Chairman said that if the rate of assessment was to be reduced a reduction would have to be made in the controllable expenditure. He suggested that the estimate for Contingencies be reduced.

Ald. Smith moved that the estimate for Contingencies be reduced from $2,000 to $1,000.—Carried.

On motion of Ald. Taylor it was also decided to reduce the estimate for Public Works to $10,000.

The payment of the following accounts was recommended:—

J. Lewis	$3 70
J. McKeown	4 00
B. Johnston	5 00
J. W. Walker	6 80
F. Butler	2 50
J. W. Walker	1 00
J. W. Walker	6 30

It was decided to pass the recommendation of the Fire Committee to the effect that a tank for fire purposes be constructed in Murney Ward, and that the contract be awarded to Thos. Harris, at the following terms: 48c. per cubic yard for excavation and $1.65 per perch for the wall—he furnishing the material.

It was decided not to pass the recommendation of the Fire Committee, that the Police Station be connected by telephone with No. 2 fire station.

The quarterly account of the Gas Company—$960.05—was considered, and it was decided to reduce the account $50 on account of the failure of the Company to keep the street lamps on the hills well lit. The account was passed with this reduction.

The following additional accounts were passed:—

H. Morgan & Co	$ 15 15
G. S. Johnson & Co	16 25
N. Ure & Co	4 69
Pay-list No. 18	386 49
Thos. Harris	430 19

An animated discussion arose on the question as to whether the account of Thos. Harris—$385.00 for the laying down of seven stone street crossings—should be passed. Aldermen Diamond, Vandusen and Dunnet took the position that any item of expenditure should be submitted to the Council for approval before it is incurred. The Chairman, Ald. Starling and others held that a certain sum of money is appropriated each year for expenditure in each department, and the different committees have the power of expending these sums.

The discussion then drifted into a rather heated altercation on the subject of the paving of Front St. The Mayor asserted that the work had not been done according to contract—a statement which Ald. Starling repelled. The Street Surveyor, being referred to, said the contract had been faithfully carried out, and he was well satisfied with the work done. Ald. Starling said that if the Mayor had discovered that the work was not being done according to contract it was his duty to call attention to it at the time, and not wait to speak until after the work was done. The Mayor said he had called the Street Surveyor's attention to it, but did not press the matter because he though that perhaps the work would do. Coming back to the original subject of discussion, the account for the street crossings was passed.

The Committee then rose.

Campbellford Correspondence.

CAMPBELLFORD, Sep. 4, '82.

The G. J. R. Locomotive Brotherhood picnic, which was held here on the 31st ult., was a great success and very much appreciated by the people of Campbellford. Everything was so well conducted by the Committee that harmony and order prevailed throughout the day, and many were the expressions of surprise at the intelligence and respectability of the crowd and the good behavior carried out from the beginning to the end. We hope it will not be the last time of their visit to our town on a similar occasion.

Excellent reasons exist why *Dr. Thomas Eclectric Oil* should be used by persons, troubled with affections of the throat or lungs, sores upon the skin, rheumatic pains, corns, bunions, or external injuries. The reasons are, that it is speedy, pure and unobjectionable, whether taken internally or applied outwardly.

SMITH MEDICINE Co.

GENTLEMEN,—I have made a trial of one box of Dr. Smith's Great German Worm Remedy, with such good effect that I have no hesitation in recommending it to the public as a prompt and reliable medicine. In fact, those who use it once will always do so. Yours truly,

J. Harvie, 172 Cadieux street.

Montreal, December 9th, 1881.

Nervous debility is a result of indiscretion in the mode of living. Heed nature's unerring laws and take Burdock Blood Bitters, the Great System Renovator and Blood, Liver and Kidney regulator and tonic. Sample bottles 10 cents.

Hall's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by Jas. Clarke & Co., Belleville, Ont.

PROCLAIM it far and wide that DR. VAN BUREN'S KIDNEY CURE not only immediately relieves all Kidney diseases, but what is more important to the unfortunate sufferer, will ultimately cure him effectually.

Dr. E. C. West's Nerve and Brain Treatment is a never failing cure for Nervous Neuralgia, Nervous Headache, Overworked Brain, &c. Sold at James Clarke & Co's.

Tweed Correspondence.

TWEED, Sept. 5.

The Ladies' Aid have favored us with another of their periodical entertainments. This time it was in the direction of a garden party held last Wednesday on the grounds of Mr Warwick Bowell, our postmaster. The attendance was good, and the ladies were well prepared with choice coffee and refreshments. Well made ice cream was also on hand. Social conversation, games, perambulations, &c., were the order of the evening. The band, newly created, and without much notice, gave us a few sweet selections and added greatly to the enjoyment of all. The Ladies of the Aid Society are very successful and with praiseworthy efforts are rapidly liquidating the debt from the Methodist Church. On this occasion over $26.00 were the proceeds. All were apparently pleased with the whole proceedings and felt no doubt thankful to Mr. Warwick Bowell and his good lady for the use of his grounds and home.

PEARLS.—Get your mouth full by using "TEABERRY," the new wonder for the Teeth and Breath. Brush vigorously. See directions. 5 cent samples.

Consumption, that dread destroyer of the human race, is often the result of bad blood and low vitality, a scrofulous condition of the system Burdock Blood Bitters cure Scrofula in its worst form.

A New Principle.

The principle upon which PUTNAM' PAINLESS CORN EXTRACTOR acts is entirely new. It does not sink deep into the flesh, thereby producing soreness, but acts directly upon the external covering of the corn, separates it from the under layer, removes the direct pressure from the part, and at once effects a radical cure, without any pain or discomfort. Let those who are suffering from corns, yet skeptical of treatment, try it, and by the completeness of the cure they will be ready to recommend Putnam's Painless Corn Extractor to others. Sold by W. R. Carmichael

Boarders Wanted.

A FEW eligible boarders can find good board and lodging by applying at the undersigned No. 56 St. Clair St. West Belleville. Terms moderate.

THE General Conference of the Methodist Church of Canada meets to day in Hamilton. Rev. Dr. Jeffers left town last evening for the purpose of attending it, and Robt. Richardson, Esq., left to-day.

THE Secretary of the Belleville Cricket Club received a letter from the Secretary of the Napanee Club requesting the local club to give them a match on Thursday. The Belleville Club will not be able to go to Napanee this week, but may go next week.

THE Kingston *News* of Monday says :—"Mr Dodds, it appears, did not beat Mr. Fleming, the quoit pitcher of Belleville, with ease ; but the latter did not exert himself in order not to discourage his opponent. It is said that Mr. Fleming's equal with the quoits is not in Kingston."

A SAD case of bereavement has just occurred in a family living on Commercial street. Two bright little girls, aged six and eight years respectively, daughters of Mr. D. Collins, tally clerk, were taken ill on Saturday, and symptoms of diphtheria began to be exhibited. They continued to grow worse, until last evening they died within two hours of each other.

IT is quite possible that the City Council, annoyed at what is considered the over charging of the Gas Company, will do away altogether with gas lamps on all streets except Front, and will go back to coal oil illumination on other streets. They refused to pass the quarterly gas account last night, and sent it back to the Water and Gas Committee for reduction.

THE adjourned case of Irvine Rose, charged by Mrs. Neil with abusive language, was disposed of at the Police Court this morning. The case was dismissed, as it was not covered by the bylaw under which the action was brought. Fred Gauthier was charged with selling liquor during prohibited hours. His case was adjourned till to-morrow. Alonzo Hubbell charged Edward Powers with non-payment of wages. The case was dismissed.

A MEETING of the Board of Police Commissioners was held yesterday afternoon, at which it was decided to notify the City Council to pay Chief McKinnon the salary which had been fixed by the Board, namely, $1,000 per annum. The Council can hardly retreat from the position which they have already taken in this matter, and it is probable that the Board will have to issue a writ of *mandamus* against the Council in order to secure the payment of the required sum.

WE published yesterday from the "Live Stock Journal," a notice of the extensive operations of "The Canadian cheese King," Mr. D. M. McPherson, of Lancaster, Ont. We are informed that Mr. McPherson's right hand man, his financial manager and book keeper, is Mr. Wesley McLeod, nephew of Mr. Donald Urquhart of Belleville, and a graduate of Ontario Business College. Mr. McLeod entered Mr. McPherson's employment immediately after leaving the College, three years ago.

THE local marksmen did well on the first day of the D. R. A. meeting. The first match was the nursery, 5 shots at 500 yards. Lieut. Hastings, of the 15th, scored 20, Private Soby 19, and Sergt. Tammadge, of the 49th, 19. All were prize winners. In the Manufacturers' match, Lieut. Hastings was 7th with 32 Serg't. Donald left last night for Ottawa, and he and Corporal Hilton will no doubt give a good account of themselves in to-day's firing. Lieutenants Biggar and Ponton were unable to attend the matches.

AT a meeting of the Oddfellows' Band held last evening the advisability of challenging the Trenton Band to a contest was discussed. Several members thought that this course would be the best answer to the silly vaporings which have recently appeared in the Trenton papers, and which were evidently inspired. It was claimed that there would be no difficulty in raising $1,000 as the stake to be competed for. It was decided, however, that the wisest and most dignified course for the Band to take would be to treat the falsehoods and bluster of the Trenton Band with quiet contempt.

A SPECIAL meeting of the Board of Education was held last evening for the purpose of considering the resignation of Miss Hunter, assistant teacher in the High School. Miss Hunter's reason for resigning her position was that she had been offered another position at a higher salary than she was now receiving. After the resignation had been submitted, however, Miss Hunter sent a withdrawal of it, on account of family reasons. In discussing the resignation and the withdrawal, high praise was accorded by several members to Miss Hunter for the efficiency she had shown as a teacher during her connection with the Board. It was pointed out that during her nine years' service she had not received an advance of salary. It was decided to accept Miss Hunter's withdrawal of her resignation and to grant her an increase of $100 in her salary.

WEATHER PROBABILITIES—Toronto, Sep. 5.—Lakes, light to moderate winds, fine warm weather, Wednesday fine warm.

PAINFUL ACCIDENT.—Mr. John Kerr, formerly of Belleville, now foreman of the G. T. R. quarry near the station at Kingston, met with an accident on Saturday, of which the *Whig* gives the following account :—"The derrick had been used in lowering a heavy stone. When the grips were removed the rope was still tight, and flying up the irons struck Mr. Kerr on the head, causing very serious wounds. The flesh across the forehead was terribly lacerated. Dr. McCammon was called in to dress them. Indeed he was summoned a second time, as the blood, after the wound had been dressed, flowed afresh and in an alarming manner. The doctor said that if the wound had been a trifle more to the side death would certainly have been produced."

THE 49TH BATTALION.—This corps did not proceed to the district camp at Cobourg to-day, as expected, and the reason can be briefly stated. It seems that the two new companies of the battalion, which have recently been organized in Trenton and Madoc, were furnished with the old uniforms used by Nos. 4 and 6 companies of Belleville. These uniforms had been in use for two or three years, and, though the tunics were in tolerably good condition, the trousers were not fit to be worn. Col. Brown was notified of this, and wrote to the department at Ottawa, without, however, receiving any reply. The two companies mentioned would not go to camp in the trousers furnished them; it would have been decidedly unmilitary to have gone in ordinary trousers ; and they had decided objections to going in Highland costume, that is, without any trousers at all. So matters stood until yesterday, when Col. Brown, thinking that he and the battalion had been neglected, telegraphed the captains of the various companies to stop their preparations for going into camp until further notification. This morning, however, he received a letter from the Department stating that the reason why his letters had not been answered was that Col. Powell, the Adjutant-General, was away from the city. He had just returned, however, and the case of the 49th would receive immediate attention. Col. Brown telegraphed this morning to Ottawa stating that if the Department sent forward to the camp a sufficient quantity of clothing to meet the requirements of the battalion, it would go into camp. At this writing no reply has been received, but it is altogether probable that the reply when it does come will be satisfactory, and that the battalion will proceed to Cobourg to-morrow. Since the above was in type we have heard that Col. Brown has received a satisfactory reply to his telegram, and the battalion will in consequence leave for camp to-morrow. No. 1 Company will probably leave on the morning train.

BEFORE purchasing Ready made Clothing be sure and look through HENNESSY'S stock. He has over 300 suits in all, and is offering them at actual cost.

Sporting Notes.

Governor Stanford, of California, is said to own 500 stallions and mares. His stables are over half a mile long, and the farm on which the stable stands contains 2,000 acres.

Mr. Charles Boyle, of Woodstock, Ont., has bought from Mr. A. Grinstead the b.m. Annette, 4 years ; price paid $2,500, and on Friday, Aug. 25th, she came within a head of landing the North American Handicap Steeplechase, which would have about cleared her cost.

The *Spirit of the Times* announces the following nominations for the great $10,000 purse for the 2.27 class, to be trotted at Beacon Park, Boston, on the 14th : Fanny Witherspoon, Black Cloud, Helene, Clingstone, Parana, Edwin Thorne, Humboldt and Santa Claus.

The *Spirit* also says that the secret of the very fast time made by Lady Thorne in the private trial during 1870 is now fully out. She trotted the mile in 2 10½, and the last half in 1.05.

O. Bortle, of Manchester, Ontario Co., N.Y. writes :—"I obtained immediate relief from the use of *Dr. Thomas' Eclectric Oil.* I have had Asthma for eleven years. Have been obliged to sit up all night for ten or twelve nights in succession. I can now sleep soundly all night on a feather bed, which I had not been able to do previous to using the Oil."

THE WAR IN EGYPT.

HURRYING ON THE PREPARATIONS

THE TURCO-GREEK TROUBLES.

LONDON, Sept. 5.—The transport service, though not so utterly inefficient as it has shown itself on former occasions, has almost broken down, and greatly retarded the movements of the troops. Now that an ample supply of locomotives has been secured, this branch of the service will be much improved, and the result of the great struggle when once a vigorous advance is made is looked upon with confidence. In the meantime the inactivity of our troops has emboldened Arabi, who must have considerably weakened his position by attempting to outflank the British. This operation will probably afford General Wolseley the golden opportunity for attack upon an attenuated line of defence which will be easily carried and the enemy's force cut in two. The discovery of a large quantity of arms and ammunition secreted in Alexandria has caused much uneasiness in that city. Many vague rumors find credence among them that a combined attack upon the British outposts will be supported by a rising in Alexandria. The difficulties upon the Turco-Greek frontier appear to be virtually settled, for the present at least. Turkey has expressed a willingness to concede Greece's terms, excepting the small district surrounding Lake Zenos. Lord Dufferin has communicated to the Porte the British Government's assent to the landing of a small force of Turkish troops at Port Said.

LATEST FROM THE SEAT OF WAR.

TURKEY YIELDS AT LAST.

THE CONVENTION SIGNED.

Murderers Hung in Alexandria.

Preparations on both Sides.

CONSTANTINOPLE, Sept. 5th.—The Anglo-Turkish military convention has been signed.

PORT SAID, Sept 5.—Large numbers of Bedouins have again been seen on the banks of the canal between Port Said and Ismailia.

ALEXANDRIA, Sept. 5.—The murderers of the Englishmen Richardson and Dobson have been sentenced to be hung on Thursday.

ISMAILIA, Sep. 5.—Salihiyeh has been abandoned by Arabi. The British will not have enough provisions to be ready to advance for at least a week.

ALEXANDRIA, Sept. 5.—There has been considerable movement in the enemy's camp, apparently occasioned by the arrival of reinforcements.

LONDON, Sep. 5.—A Port Said despatch says over 8,000 Arabs are fortifying Salihiyeh. The enemy are embarking their baggage and military stores from Fort Ghemileh. Some rebel officers from Salihiyeh have arrived at Ismailia, to tender their submission.

News Condensed.

—The report is again circulating of the serious condition of the health of the Empress of Germany.

—Mr. Baker, the public analyst, has found that one-tenth of the lager beer sold in Montreal is pure alcohol.

—Mr. Herbert Spencer has arrived in Montreal. He still suffers much from sleeplessness, and is seeing no one.

—The anniversary of the capitulation of Sedan was celebrated throughout Germany with considerable enthusiasm.

—A gentleman and a lady out rowing near Alexandria Bay, were nearly drowned. A pocketbook containing $1,300 was lost.

—Mr. Morton, M.PP. for King's, N.B., has accepted the Solicitor-Generalship of the Province, in room of the late Hon. J. Crawford.

—About 100 men are at work on the Toronto & Ottawa Railway in the vicinity of Charbott Lake. Some heavy cuttings are to be made.

—The Customs returns of the Dominion for August amounted to $2,422,789,71, same month last year $2,021,116 64 ; increase $401,674.07.

—The Dominion Rifle Association's matches were opened on Monday by Hon. A. P. Caron, Minister of Militia, who fired the first shot at 9 a. m.

—The mob at Mt. Vernon, Md., burnt the city marshal's house and beat his deputy terribly in revenge for an attempt to close the saloons on Sunday.

—Notwithstanding all the efforts and precautions of the loyal prefect of police at Cairo, grave fears are entertained of a rising of the populace against the few remaining Europeans in the city.

—Last year Great Britain had 13,727 locomotives to 18,175 miles of line, or an engine to 1⅓ miles. In the United States there were 20,116 locomotives to 104,300 miles of line, or one engine to 5.1 miles.

*The term *hydra* may be used to represent any manifold evil. If you would battle successfully with this many-headed monster of disease you will find it expedient to keep Mrs. Pinkham's Vegetable Compound always at hand.—*Dr. Banning.*

—The daughter of the head of the Frankfort house of Rothschild was baptized in the Christian, and abjured the Jewish, faith at Paris on Sunday, preparatory to her marriage with Prince Alexander de Wagram.

—The Vice-Regal party spent yesterday in viewing the magnificent scenery surrounding the Falls. The Princess Louise made several sketches of the Falls and environs. The party leaves for the West at noon to-day.

—It is reported that the Canada Pacific Railway Company is negotiating with the Northern Pacific for the control of the Manitoba South-Western Railway. Members of the Syndicate are now in New York for the purpose of closing the agreement.

—The grand total of the defalcations by Hunter, the Montreal notary, so far as known instead of being $25,000 as stated by a Montreal journal, is in the vicinity of $223,000, one hundred thousand of which is due to the Phillips estate. And it is believed the list is not complete yet.

**"Do boldly what you do at all." Boldly do we affirm that Kidney-Wort is *the* great remedy for liver, bowels and Kidney diseases, rheumatism and piles vanish before it. The tonic effect of Kidney-Wort is produced by its cleansing and purifying action on the blood. Where there is a gravelly deposit in the urine, or milky, ropy urine from disordered kidneys, it always cures.

—The superintendent of postal cars for Nova Scotia has reported to the post-office authorities at St. John that the mail bags containing the letters despatched from St John by Thursday night's train for Halifax, Truro, Pictou, &c., was received by the Moncton and Halifax postal clerk with the straps out and all the registered letters gone. Inspector McMillan and the Nova Scotian authorities have been investigating the theft, but no new light has been thrown upon the affair.

Marine.

No vessels are reported inwards.

Departures:—Stambargo *Norman*, Oswego, lumber ; schr. *W. W. Grant*, Oswego, lumber ; schr. *Mary Taylor*, Oswego, lumber ; schr. *Mary Foster*, Oswego, lumber ; schr. *Helen*, Trenton, light ; schr. *Jesse McDonald*, Fairhaven, iron ore.

MORNING DESPATCHES.

AMERICAN.

STEAMSHIP SAFE.

PORT ROYAL, S. C., Sep. 5.—The steamship *Western Texas*, from New York, about whose safety some fears were felt, arrived here safely last night.

NEW YORK NOTES.

NEW YORK, Sep. 5.—A number of large buildings and newspaper offices were illuminated last night with Edison's electric light. It gave great satisfaction, especially to the newspaper men.

John Nesler, in the employ of the New York R. R. for thirty-one years as Treasurer, and who has carried hundreds of millions of dollars from the Company's offices to the bank, is dead.

A BELLICOSE FARMER.

NEWPORT, Sept. 5.—During a fox hunt here yesterday an irate farmer came out with a gun, and his farm hands were armed with stones. The hunters were warned not to trespass on his property and paying no attention to his warning the farmer fired a shot, coming near the face of Wm. K. Thorn, jr., of New York. The farmer claimed that he fired at the hounds. The hunters then took another route.

FREIGHT TRAINS WRECKED.

HARRISBURG, Sept. 5.—A wreck occurred at midnight between three freight trains on the Pennsylvania R.R. in this city. 27 cars were wrecked and two men injured. The accident was caused by one train running into another, while a third train ran into the the first wreck. Travel was blocked.

DIFFICULTY ADJUSTED.

HOLLY SPRINGS, Miss, Sep. 12.—The difficulty between Chalmers and Manning, candidates for Congress, has been adjusted, and joint discussions between them will continue.

THE COREA OUTBREAK.

WASHINGTON, Sep. 5.—Admiral Chitz has made a report regarding the outbreak in Corea. Great excitement prevailed at Yokohama, and it was thought that Japan would declare war, but later news showed that the movement was not national. Chitz learned through the American Minister, that there is no intention of declaring war, but simply to reestablish the Japanese Minister with proper dignity and guard the legation so as to offer refuge to the Japanese subjects. 15,000 Chinese troops have entered Corea, and a like number were approaching the frontier, and ten gun-boats and corvettes were to rendezvous off the south eastern shore. It is impossible to say what bearing this may have on the action of Japan.

ARRESTED ON A CHARGE OF MURDER.

FRANKLIN, N. Y., Aug. 5.—Wm. Aiken & Son failed, and have been arrested on a charge of conspiracy to murder Circuit Clerk Wade and his two sons. A man named Wright had been engaged to kill them at $100 per head. Wright was paid half the money and stationed himself near the town to assassinate the Wades, but weakened and exposed the scheme.

SUICIDES.

VALTECILLS, Mexico, Aug. 5th.—Frank McHolland, Superintendent of the Bueno, Pesta, and other surrounding mines owned by New York capitalists, suicided. Cause unknown.

SALEM, Ohio, Aug. 5.—Byron Smith, for ten years agent for Adams' Express Company here, suicided last night by shooting himself. No cause known.

BANK FAILURE.

SALITIA, Cal., Sept. 5.—The Bank of Salitia closed its doors yesterday. The deposits amount to about $50,000, mostly made by the working class. The capital of the bank is said to be only $5,000. The deposits are a total loss. Hartsell Bros., proprietors of the bank, have left the city.

RAILWAY ACCIDENT.

AUBURN, Sept. 5.—14 persons were injured by a collision on the southern Central Road yesterday, most of these received flesh wounds.

MINING EXPOSITION.

DENVER, Sept. 5.—The Mining Exposition continues to be a great success. It is visited daily by large numbers of people from the east.

YELLOW FEVER.

MATAMORAS, Sept. 5.—200 cases of yellow fever are reported at San Bernardo Tamanlipas. There were 78 new cases in Brownsville yesterday.

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinary or Liver Diseases, as they only relieve for a time and make you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

AFTERNOON DESPATCHES

ONE OF THE HIGH JOINTS DEAD.

LONDON, Aug 5.—Mountague Bernard, one of the High Commissioners who signed the treaty of Washington in 1871, died on Saturday in Herefordshire. He had been slowly sinking some weeks.

THE WORLD'S HARVEST.

Etienne, the well known French authority, has issued estimates of the harvests of the world for 1882. His report is decidedly favorable, indicating no serious deficiency in the crops in any quarter of the world, and general abundance throughout Europe and America.

Terrible Railway Accident.

CARLSRUHE, Germany, Sept. 4.—A train running between Freiberg and Colmar left the rails near Heigstetten. Twenty cars were completely smashed, and the scene of the catastrophe is strewn with the dead bodies of the victims. The train was thrown down an embankment. So far 53 bodies have been found in the ruins, and the wounded number eighty six. It is feared that the list of casualties will be greatly swelled. Several of the bodies have been recovered headless, and many with their limbs cut off. A large number of physicians were soon on the scene. Several of the victims are prominent citizens of Vienna. There were 1,200 persons in the train at the time of the accident, which was caused by a telegraph pole which had been struck by lightning and fell across the track.

THE Q. & O. RAILWAY.—The Montreal *Witness* says:—This railway is being rapidly pushed onward and it is confidently expected will be completed by this time next year, or perhaps a little later in that season. It will then be a matter of eight or nine hours between Montreal and Toronto, as the line will be a competitor with the Grand Trunk Railway for business West. Those who have rapid transit between point and point on any railway are aware that it has been brought about only by competition."

—The Superior Court has decided that the Quebec tax upon commercial travellers is constitutional.

☞ The Diamond Dyes always do more than they claim to do. Color over that old dress. It will look like new. Only 10 cents

C. BRITTON, Lindsay, Ont., writes :—I have much pleasure in recommending Baxter's Mandrake Bitters in all cases of Jaundice, Billousness, Sick Headache and Liver Complaint, for they have given universal satisfaction, and I have sold more of them the past season than any other one patent medicine.

For 30 Years

The dark-eyed and lovely daughters of Spanish America have used MURRAY & LANMAN'S FLORIDA WATER as their only cosmetic and toilet perfume. It is the most fragrant, as well as the most lasting of all Floral Waters, and possesses refreshing and invigorating properties not contained in any other preparation of the kind.

Professor Bowlin's Great Golden Seal Discovery.

The greatest and latest discovery of the nineteenth century. A sure and permanent cure for Fits, Hysterics, Dizziness, and all nervous complaints. When ordering a bottle send full description of disease, age and condition of patient, advice free, price $1.00 per bottle. RICHER, BARBEAU, & Co., 101 St. Francois Xavier St., Montreal, sole agents for Canada.

N. H. DOWNS' Vegetable Balsamic ELIXIR!

This [illegible] medicine is purely vegetable, the [illegible] of which [illegible] the result of many [illegible] close study, in order to discover the cause, the symptoms and the cure of [illegible]

Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Influenza, Pleurisy, Hoarseness, Spitting Blood, Bronchitis,

and every species of oppression of the Chest and Lungs. In all cases where this Elixir has been duly administered its efficacy has been invariably manifested, convincing the most incredulous that

CONSUMPTION

is not incurable, if properly attended to.—Consumption at its commencement, is but a slight irritation of the membrane which covers the lungs, then an inflammation, when the cough is more observable, but rather dry; then becomes local fever and the pulse more frequent, the cheeks flushed and chills more common. This Elixir in curing the above complaints, [illegible] morbid irritations and inflammation from the lungs to the surface, and finally expel them from the system. It facilitates expectoration.

IT HEALS THE ULCERATED SURFACES

and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. It is free from strong operative and astringent articles, which are also drying in their nature, to be in great danger of [illegible] the patient, whereas [illegible] the cough, but by removing [illegible] generally destroys the [illegible] cough is entirely gone. [illegible] the cough is cured the [illegible] for pamphlet [illegible] for cure of pulmonary [illegible] cents, and $1 per bottle. Sold everywhere.

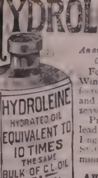
HYDROLEINE



(Hydrated Oil)
An artificially digested Cod Liver Oil.

For Consumption, Winter Cough, Affections of the Chest and all Wasting Diseases.

Prescribed by the leading physicians of England, the United States and the Dominion of Canada.

A WONDERFUL FACT

Hydroleine [illegible] perfectly [illegible] showing a complete [illegible] digestion of the [illegible] just as the [illegible] with [illegible] water, [illegible] with the liquid [illegible] stomach, and [illegible] into the system to nourish and build it up. The efficacy of Hydroleine is not [illegible] of consumption, as from its valuable tonic effects on the nervous system in addition to its special stimulating action on the organs concerned in the production of fat in the body, it causes marked increase in weight in persons of naturally thin habit, who do not present any evidence of disease.

Unlike ordinary preparations of Cod Liver Oil, it produces no unpleasant eructation or sense of nausea and should be taken in much very much smaller doses according to the directions as will ensure its complete assimilation, this, at the same time, renders its use economical in the highest degree.

For sale by all Druggists.

We have sold the above remedy for several months and find it spoken of very favorably by both the medical profession and the public.

We can safely recommend it to parties needing such a remedy.

Signed,

WON BY NINE.

BY RICHARD DOWLING.

From the Pictorial World.

The town of Clashmore is in the southern inland of Ireland. The assizes are held there: it is a garrison town, returns a member of Parliament, has a mayor and corporation, a club for country gentlemen, officers, and a few of the gentlest of the townsfolk, and a river navigable for barges. Like almost every other town in Ireland, its prosperity has gradually declined, and it does not now number half as many souls within its boundaries as thirty five years ago. The grass does not absolutely thrive in the streets, but here and there a few patches are to be seen, and it looks as though the once prosperous town of Clashmore were about to revert to the original, and fit itself for once more grazing fat cattle and timid sheep.

Its manufactures have died; its commerce has fallen away. You can buy houses there for a song. Ground for building is of no value, and even in the principal streets there are ugly gaps where buildings have fallen down or been burnt down, and have been allowed to lie in ruins because, if they were rebuilt, no tenants could be found to take them.

There are three reasons why Clashmore does not crumble away altogether. It is the place to which the farm produce of a large and fruitful country finds its way for export. It has usually a battery of artillery or a squadron of horse and a few companies of infantry, and the gentry about the town still buy many of the things they want in town.

The few men, living in Clashmore, are also members of the club, have not sprung from the town, but have migrated from the country into the town or suburbs, and are all of good family. There is as wide a gulf between the trading community and a few people of independent means as between royalty and mere nobility. Caste feeling is very strong. The ordinary shopkeeper or merchant has no more chance of being admitted to the club or invited to the house of any member of it than he has of being allowed to make the pilgrimage to Mecca in the garb of the Giaour. The two classes coalesce as little as oil and water.

In the fine weather a military band usually played one evening of the week in the barrack square, and on those evenings many of the country people drove and rode in, and suburb branches of the good families came. The sons and daughters of some of the best to do merchants and shopkeepers of Clashmore looked in now and then: but they were overborne and cowed by the more aristocratic promenaders.

Once a year a flower show was held in the botanical gardens just outside the town. Hither thronged the lords and the honorables, and the baronets and the squires and the gentlemen, with their ladies and dames and sons and daughters. Hither also gathered the townsfolk in great strength; but the two classes did not mingle. The first day of the show half a crown was charged for admission, the second day admission might be gained for a shilling. The people from the neighbourhood went on the first day, the traders of Clashmore on the second. It was not the difference of the prices of admission that made the difference of attendance, but the difference of class. It would have been looked on as the height of insolence and presumption if any people of the mercantile class attended the show the first day; it would have been regarded as a whimsical derogation if any of the better class attended the second day.

The last train both on week-days and Sundays passed through Clashmore at half-past nine. In the fine weather the townspeople used the platform of the railway station as a place of meeting and promenade. The better born of the neighborhood would not dream of attending such a place.

In the circle of the whole year there was but one occasion on which the two castes came closely together, and even then it was only the men of higher class mingled with the stratum below. The cause of this break of the general rule occurred in the week immediately preceding Christmas, when the annual charity bazaar of the Sisters of Charity was held in the Courthouse. The wife of the Member for the town, who was a Protestant, sent the most valuable prize for the lottery or for the raffle. The Member always attended, and spent his loose money in the best humor. You might count upon finding a lord there at any time of the day, and in the evening the officers of the garrison dropped over after mess, and formed a conspicuous addition of color to the scene. All formality and distinction were laid aside. The tanner spoke to the peer, and the tallow-chandler to the deputy-lieutenant, as though they had been intimate for years; and of course, every one spoke to the matrons and maids, each of whom had some cunning wile to rid you of your money.

Now Clashmore, although a small town, was famous for the pretty faces to be found in it, and in the year of grace one thousand eight hundred and seventy, the loveliest girl in the town of Clashmore was Ellen Cantwell, only child of William Cantwell, seed merchant. She was by no means the most beautiful girl in the town, but no one could see her and, knowing all the other girls with pretensions to good looks, deny that she was the loveliest. She was no taller than the medium height of a woman. Her complexion was pale, only a slight pink was in her cheek. Her eyes were hazel; her forehead was the most exquisite of her features, it being low and very clear in outline, and transparent at the temples. The greatest charm of all was not of outline or figure, but of carriage. There was in the way she carried her head something dreamy and poetic and unutterably amiable. It had that graceful, unstudied drift you find in all the lines of Raffaelle. Instinctively you knew the *pose* was not the result of art. In the year eighteen hundred and seventy Ellen Cantwell was nineteen years of age, and around her the affection of the people of Clashmore stood like a rampart.

The bazaar that year was particularly brilliant. Never had there been such a large attendance at the local aristocracy, and consequently never had there been such a financial success.

The bazaar lasts two days and two nights. The great event of the opening day is the lottery, in which are a couple of thousands of prizes varying in value from a penny to ten or twenty pounds. All through, both days and nights, the raffles for the various articles not included in the lottery go on. At the end of [illegible] evening, all things undisposed of are put up for auction; and, after the lottery-room having been cleared for the purpose, there is usually a dance.

This year, one of the most attractive prizes to be raffled for was given by Mrs. Fitzgerald of Bawn. The donation was a handsome ornamental chimney-clock. At the time this gift was made to the Sisters of Charity by Mrs. Fitzgerald, her eldest son, the owner of the fine old Bawn estates, was travelling on the Continent. It so fell out that he arrived at Bawn House three days before the bazaar, and that on the first and second days he visited the rooms where it was held.

To each raffle two ladies are appointed—one to tout, and the other to stand behind the table and take the tickets and record throws. It is always so arranged that the more business-like lady of each pair is selected to keep the record and the better looking to act as decoy.

Over the clock presented by Mrs. Fitzgerald presided Mrs. Fennessy, a lady of good position and great influence in the town. The tout for Mrs. Fennessy was Miss Ellen Cantwell. With a bouquet and a bundle of tickets in one hand, she glided about the room quietly and shyly, but with the most deadly effect on the pockets and hearts of the young townsmen, and of the young men who were not of the town.

TO BE CONTINUED.

Samson lost his strength with his hair. Thousands of men and women lose their beauty with theirs, and very large numbers restore the ravages of time by using the famous Cingalese Hair Restorer. Sold at 50 cents per bottle by all Druggists.

Important to Farmers, etc.

If you would keep your kine, cattle, horses, horses, sheep and poultry in the most perfect health and remunerative condition, mix HARVELL'S CONDITION POWDERS occasionally with their feed. These great specifics are *the wealth of the barn yard.* See to it! Sold every where.

The most wonderful curative remedies of the present day, are those that come from Germany, or at least originate there. The most recent preparation placed upon the market in this country, is the GREAT GERMAN INVIGORATOR, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangements of the nervous system. For sale by druggists, or sent free by mail on receipt of the price, $1.00 per box, or six boxes for $5.00. Address James Clark & Co., Sole agent for Belleville. Send for circular.

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrh, Bronchitis, Asthma and Lung Disease by Dr. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the seat of disease. Read and judge for yourself:—

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. JOHN P. WHELAN, Manager of POST and TRUE WITNESS, Montreal. Mr. C. HILL, Montreal, catarrh and bronchitis. Mr. DEBOUCHERVILLE, of the Indian Department, Ottawa, catarrh of many years; now cured. Mr. GEO. AGER Ottawa, catarrh and lung disease; cured. Mrs. SMITH, London, wife of Medical Detective, cured of catarrh. GEO MAGUIRE, Toronto, 482 Adelaide street West; daughter cured of asthma. GEORGE WILLIS, Exeter, Ont., catarrh and bronchitis. J. D. ARMSTRONG, 186 Yonge street, Toronto, catarrh and catarrhal deafness. THOMAS TELFER, 12 Melinda street, Toronto, asthma; cured. Mr. BENJ. A. DRAKE, St Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. BENOIT, 114 Cathedral street, daughter of Mrs, David Perrault, who suffered from asthma and bronchitis for over eight years, and who is now perfectly cured.

Mrs. ADAMSON, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitating in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis. JOHN C. FLEMING, Editor of POST and TRUE WITNESS, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write. inclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souvielle and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer tree at the office.

$1,000 Forfeit!

Having the utmost confidence in its superiority over all others, and after thousands of tests of the most complicated and severest cases we could find, we feel justified in offering to forfeit One Thousand Dollars for any case of Coughs, colds, sore throat, influenza, hoarseness, bronchitis, consumption, in its early stages, whooping cough, and all diseases of the throat and lungs, except Asthma, for which we only claim relief, that we can't cure with West's Cough Syrup, when taken according to directions. Sample bottles 25 and 50 cents; large bottles one dollar. Genuine wrappers only in blue. Sold by all druggists, or sent by express on receipt of price. JOHN C. WEST & Co., sole proprietors, 81 and 83 King St. East Toronto, Ont. For sale at Jas. Clarke & Co.'s Drug Store.

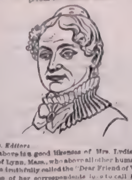
A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]



Messrs. Editors

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of *either* sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Philadelphia, Pa. (3) Mrs. A. M. D.

KIDNEY-WORT IS A SURE CURE

for all diseases of the Kidneys and

—LIVER—

It has specific action on this most important organ, enabling it to throw off torpidity and inaction, stimulating the healthy secretion of the Bile, and by keeping the bowels in free condition, effecting its regular discharge.

Malaria. If you are suffering from malaria, have the chills, are bilious, dyspeptic, or constipated, Kidney-Wort will surely relieve and quickly cure.

In the Spring to cleanse the System, every one should take a thorough course of it.

UNCONDITIONAL, INCONTESTABLE LIFE POLICIES.

THE objection is often made that the Companies may take advantage of some of the conditions on their Policies, and thus either avoid entirely the payment of claims, or compromise with the widow for a small sum. This argument cannot be used against

THE SUN LIFE ASSURANCE CO'Y OF MONTREAL,

which issues absolutely unconditional policies to selected lives. There is no restriction of any kind on them. The assured may travel to any part of the world without extra premium. He may change his occupation at will, or do anything else he chooses. The contrast is remarkable with other policies. Ask an agent to show you one; it speaks for itself.

Hotel for Sale.

THE undersigned being about to retire from business, offers his Hotel for sale in the village of Tweed, known as the "Albion Hotel." This will be a good investment as the House is doing the best business in the village and the property will greatly increase in value as the Ontario and Quebec Railway is now in course of construction through the village. There are splendid stables and sheds in connection with the Hotel. Terms easy.

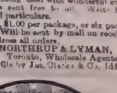
TO NERVOUS SUFFERERS—THE GREAT EUROPEAN REMEDY—DR. J. B. SIMPSON'S SPECIFIC MEDICINE.

DR. J. B. SIMPSON'S SPECIFIC MEDICINE is a positive cure for Spermatorrhea, Impotency, Weakness, and all diseases resulting from Self-Abuse, as Nervous Debility, Irritability, Mental Anxiety, Languor, Lassitude, Depression of Spirits and Functional Derangements of the Nervous system generally, Pains in back or side, Loss of memory, Premature Old Age and diseases that lead to Consumption, Insanity, and an early grave, or both. No matter how shattered the system may be from excesses of any kind, a short course of this Medicine will restore the lost functions and procure Health and Happiness, where before was despondency and gloom. The Specific Medicine is being used with wonderful success. Pamphlets sent free to all. Write for them and get full particulars.



Price, Specific, $1.00 per package, or six packages for $5.00. Will be sent by mail on receipt of money. Address all orders,

NORTHRUP & LYMAN,
Toronto, Wholesale Agents.
Sold in Belleville by Jas. Clarke & Co. Id&w

Cathartic Pills

Combine the choicest cathartic principles in medicine, in proportions accurately adjusted to secure activity, certainty, and uniformity of effect. They are the result of years of careful study and practical experiment, and are the most effectual remedy yet discovered for diseases caused by derangement of the stomach, liver, and bowels, which require prompt and effectual treatment. AYER'S PILLS are specially applicable to this class of diseases. They act directly on the digestive and assimilative processes, and restore regular healthy action. Their extensive use by physicians in their practice, and by all civilized nations, is one of the many proofs of their value as a safe, sure, and perfectly reliable purgative medicine. Being compounded of the concentrated virtues of purely vegetable substances, they are positively free from calomel or any injurious properties, and can be administered to children with perfect safety.

AYER'S PILLS are an effectual cure for **Constipation or Costiveness, Indigestion, Dyspepsia, Loss of Appetite, Foul Stomach and Breath, Dizziness, Headache, Loss of Memory, Numbness, Biliousness, Jaundice, Rheumatism, Eruptions and Skin Diseases, Dropsy, Tumors, Worms, Neuralgia, Colic, Gripes, Diarrhœa, Dysentery, Gout, Piles, Disorders of the Liver,** and all other diseases resulting from a disordered state of the digestive apparatus.

As a Dinner Pill they have no equal.

While gentle in their action, these PILLS are the most thorough and searching cathartic that can be employed, and never give pain unless the bowels are inflamed, and then their influence is healing. They stimulate the appetite and digestive organs; they operate to purify and enrich the blood, and impart renewed health and vigor to the whole system.

THE ROYAL INSURANCE CO.
Of England.

CAPITAL	$10,000,000.
Funds Invested	$23,000,000
Annual Income	5,000,000.

Over $600,000 invested in Canada for the protection of Canadian Policy holders.

Farm Property Insured against damage by Lightning. Losses to live stock by lightning and fire anywhere on the Farm made good.

FACTS WORTH REMEMBERING.

The Royal has the largest surplus funds of any Fire Insurance Company in the world.

The Royal has the largest deposit with the Dominion Government of any other Insurance Company.

The conditions of the Royal's Policies are more liberal than those of other Companies doing business in Canada.

In conclusion remember that security should be the first consideration, and that it is to your interest to insure with the Company that gives the *greatest* security. You may better carry your own risk than entrust it where you have not absolute security.

LOCAL AGENTS.

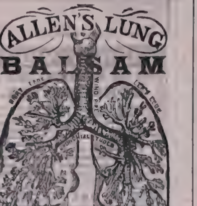
DISTRICT AGENT



(This Engraving represents the Lungs in a healthy state.)

THE WAY IT WILL AFFECT YOU.

It excites expectoration and causes the lungs to throw off the phlegm or mucous; *changes the secretions and purifies the blood;* heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. SUCH IS THE IMMEDIATE AND SATISFACTORY EFFECT that *it is warranted to break up the most distressing cough in a few hours time,* if not of too long standing. *It is warranted* TO GIVE ENTIRE SATISFACTION, EVEN IN THE *most confirmed cases of Consumption. It is warranted not to produce* costiveness (which is the case with most remedies), or affect the head, as it contains no opium in any form. *It is warranted to be perfectly harmless to the most delicate* child, although it is an active and powerful remedy for restoring the system. *There is no real necessity for so many deaths by Consumption,* when ALLEN'S LUNG BALSAM will prevent it if only taken in time. Physicians having consumptive patients, and who, having failed to cure them with their own medicine, we would recommend to give ALLEN'S LUNG BALSAM a trial. *Sold by all Druggists.*

CORNS.

ALEX. Ross' Chiropo quickly turns them into a soft pulpy condition. Price $1; free by mail from England.

ALEX. ROSS' HAIR DESTROYER

REMOVES superfluous hair from the hands and face without injury. Post $1; post free.

SPANISH FLY

IS the acting ingredient in Ross' Cantharides for hair's growth. Sent by post, $1, free from England.

Daily Intelligencer.

In Memory of "Charley" A. Ross.

WHO DIED AGED 23 YEARS.

"LOVED BY ALL WHO KNEW HIM."

And so alas! 'tis ended.
The life so dear, so loved by many hearts.
And saddened memory goes back
To childhood's day, to boyhood's years,
To dawning manhood,
And gathers up the many loved remembrances
Of childhood's tenderness—of boyhood's loving
thoughtfulness
That seemed to live most
In the love it gave to others.
And with this comes the many hopes,
That gather with the gathering years,
Of worthy manhood,—of deeds
If not of sounding fame,
Yet filled with love and goodness
And all that make men truly honored,
The hope—that promises
So richly clustering round the youth,
Would yield a harvest rich and plentiful.
But all are gone, youth's deeds,
With hopes of coming manhood,
Have heard the requiem sound
Dust to dust, ashes to ashes.
But are they lost? Are goodness,
Love and truth measured only by their years?
Not so—The memory of the just is blessed
And shall be blessed to all
Who came within the circle of its love.
And—as the years go by—the memory,
Like a golden chain, will draw us heavenward,
Strengthing as we near the unseen shore,
And yielding its full fruit, when hope
Shall yield to sight and the mortal
Put on immortality.

Madoc, Sept. 3, 1882. W.

The Island of Jersey.

JERSEY, Aug. 14, 1882.

To the Editor of the Intelligencer.

DEAR SIR,—I have been a subscriber to your paper during the last twenty-six years, and never heard a word from this beautiful Isle, one of the gardens of the world. We sailed from Quebec on the S. S. *Peruvian,* of the Allan Line, on the 15th of July, with about 75 passengers. We had a fine sail down the beautiful St. Lawrence. On the third day leaving the shores of Newfoundland, Labrador and the many icebergs on this northern route, we are glad to get our flannels and overcoats. Soon the high wind brings on seasickness to most of our passengers, the next three days rough, cold and raining, not a sail in sight, the seventh day met a few vessels. Sunday morning we were all on deck viewing the green Isle of Ireland. How welcomed especially to many of our passengers who never crossed the ocean before. Our passengers are very interesting, the most of them going on a visit to different parts of the old world, many of them who had made a flying visit to Ontario and the great North-West, and did not find it flowing with milk and honey, were quite disappointed. We had many interesting debates, United States *vs.* Canada, protection *vs.* free trade, &c. We soon arrived at Moville and with many regrets parted with many of our new made friends, who were bound for Ireland and some parts of Scotland. Next morning at daylight we are in sight of Liverpool, got into dock and landed within 9 days. I will not attempt to describe the great improvements Liverpool, London, and Southampton have made during the past 26 years. The Jersey Packet has doubled its speed and capacity. Touching at Guernsey we soon landed at Jersey. It is now over 30 years since I left my native Isle, then a boy of 18 years of age, and revisited it four years after. But Oh, how everything has changed. My dear mother is the only person I could at first sight recognize. I never could have conceived of the improvements, public and private, in every respect, as well as ways and manners of the people They have turned Jersey into a potato garden. The first crop they send to the London market in the month of April, at the enormous price of from 6 to 12 pence per lb. The second crop of potatoes is now ripe In many instances they raise turnips and many other roots, and grain for the second and third crop. They are now harvesting the second crop of hay and of grain sown after the potatoes. Land has more than doubled in value, and now sells for from £200 to £300 per acre. The rental is from £12 to £18 per acre. They also raise an abundance of fruit for the London market. The Jersey cows are increasing in value, quite a number selling for from £200 to £300 each. The farmers all seem to be getting rich, and are pulling down old houses to rebuild them in a better style, straightening and widening their narrow roads, and building piers, harbors, breakwaters everywhere. They have also two railways, fare 1d from one station to another They have lately refitted the interior of the old established church of St. Ouens, my native parish, at a cost of £5,000. This church was built in 1130 and is the second oldest in Jersey. They have also built a fine new Wesleyan Chapel. At St. Heliers they are also completing a beautiful market at the cost of £14,000; it covers a a very large area and has its fountain. The building is one story high covered with glass and is the largest market of the three in the city. Jersey beats the world for its market. Its population is 55,000. St. Heliers, the main town, contains about half of this number. The Island is divided into 12 parishes, and is 14 miles long by 7 wide in its widest part. The Jersey people are quite independent; they make their own laws. It is a great resort for tourists and invalids to spend the heated season. The average is 25,000 per year and every facility is given them to view the scenery round the island. Each day many excursion cars, drawn by four horses, accomodating 42 passengers with each a guide, go around the Island. It will well repay any of our Canadian tourists who comes over the sea to visit Jersey and enjoy its beautiful scenery refreshing and invigorating sea air and at a very cheap rate. Three weeks ago to-day we arrived here. There has been but one shower although everything looks beautiful. No scorching sun here and the least variation of temperature in Europe. The INTELLIGENCER has come to hand promptly and very welcome but I have trespassed to long on your space.

WILLIAM POWELL

Canada Pacific Railway

PASS FOUND THROUGH THE ROCKIES—A LONG DETOUR SAVED.

A St. Paul, (Minn.,) despatch says, one of the most important items connected with the progress of work on the Canada Pacific is contained in the following: Engineer Major A. B. Rogers telegraphs to President Hill, of the Manitoba line, that he has succeeded in finding a feasible pass through the Selkirk, or Gold Range, in British Columbia. This discovery has immense value, as it determines the route of the Canadian Pacific, locating it about fifteen miles north of the boundary line, directly east of Kamloops. From Kamloops it will be nearly an air line to Winnipeg and Thunder Bay. The line will be about 100 miles south of Yellowhead Pass, thus doing away with the necessity of the far northwestern *detour* as laid out by the Government survey. This is the second summer that Major Rogers has spent in British Columbia. Everybody said he could not find the pass, but he has done it, and the Canadian Pacific authorities are happy.

English Notes.

A British railway return was lately laid before Parliament. The following statement representing the business of the year 1881, will speak for itself:—

Miles open	18,180
Total capital paid up	£754,519,000
Number of passengers	622,423,000
Total traffic receipts	63,873,000
Ditto per mile	3,512
Total working expenses	34,589,000
Net traffic receipts	31,378,000
Ditto p. c. on capital	4.27

—The twenty-eighth annual report of the British Post Office was lately laid on the table of the House of Commons. The total estimated number of letters, post cards, book packets, newspapers, etc., received in the United Kingdom from abroad last year is calculated at 40,000,000, while the number sent from the United Kingdom is estimated at 87,000,000. Of these 27,000,000 were from Europe; 22,000,000 from America; 3,000,000 from India; 500,000 from China; 3,775,000 from Australia and New Zealand, and 2,500,-000 from Africa. There were sent to European countries 44,000,000; to America, 22,-000,000; to India, 7,500,000; to China, 1,-775,000; to Australia and New Zealand, 6,-000,000; and to Africa, 6,000,000.

—The English wheat crop this year will again be light. The reports coming in state that it will fall far below the average yield of the past five years, both in quantity and quality. Of late seasons the English people have come to look upon this state of things as inevitable. In 1881 the number of acres planted in wheat was upwards of a million less than in 1874. Affairs in this direction have been going from bad to worse, and from France pretty much the same sort of intelligence has been received. On this side of the Atlantic, both in Canada and in the United States, the reports are cheering, and there is some prospect of large exports to the United Kingdom being made during the season.

—The British will not need for Indian troops, as the native princes are offering military aid to supplement the vast forces at the command of the Government. The Begum of Bhopal has not only offered to supply a contingent of troops for service in Egypt, but has also volunteered to pay their expenses while they are there. Her Highness (says the New York "World") is a strict Mohammedan, and she comes of a family which before this has proved its friendship for England at a perilous time. Her mother, a woman of extraordinary capacity and liberality, made her little State of Bhopal one of the model States of India, and at the outbreak of the mutiny stood by the British, placing all her forces at their disposal. Her loyalty was rewarded by an increase of dominion and by a Grand Commandery of the Star of India. At her death her daughter, whom she had trained very carefully, and who inherited with her crown her capacity and her liberality, succeeded her. She has proved another model sovereign, and has received the order bestowed upon her mother.

"I did have the rheumatism," said Mr. Robert Fletcher, of the Chicago *Irish Tribune*, "and was cured by St. Jacobs Oil. I think it a wonderful, never-failing remedy."

John T. Berry, Esq., Rockland Maine, President of the Lime Rock National Bank, and also of the Knox and Lincoln R. R., says he had the rheumatism in his left foot and leg. He used three bottle of St. Jacobs Oil and it relieved him wonderfully. He calls it "a splendid article."

CINGALESE A name well known in connection with the HAIR RENEWER, which restores grey hair to its natural color by a few weeks use Sold at 50 cents per bottle by all Druggists.

Rheumatism is greatly dependent on a vitiated condition of the fluids, and may be eliminated from the system by cleansing the Blood and regulating the Kidneys. Burdock Blood Bitters will do this most effectually. Trial bottles 10 cents.

Take no more nauseous purgatives. Burdock Blood Bitters act mildly, pleasantly and thoroughly upon the Bowels, and occasion no inconvenience, while it regulates the Liver and Kidneys and tones the enfeebled system. Trial bottles 10 cents.

At the approach of spring great attention should be given to purify the system engorged with foul humors during the winter. Burdock Blood Bitters is Nature's own purifying and regulating tonic.

Rest and Comfort to the Suffering

"Brown's Household Panacea" has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful." "Brown's Household Panacea," being acknowledged as great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle. 264ly

"Now you may not think it remarkable, but I do, that St Jacobs Oil cured me of a case of rheumatism of three years' standing in three weeks," says Mr. Frank Lawler, Alderman of the eighth ward, Chicago, Ill.

AFTER many years of patient investigation DR. VAN BUREN, of Germany, finally succeeded in perfecting a Kidney Cure that would permanently relieve all cases of Kidney Disease. Be sure and ask your Druggist for DR. VAN BUREN'S KIDNEY CURE.

The Rev. CHAS. E. PIPER, formerly of Pittsfield, N. H., but now of Wakefield, R. I., writes: "I have used Baxter's Mandrake Bitters in my family for over two years, and as a result have not called a physician in the whole time. My wife had been an invalid for two years, but these *Bitters* have cured her."

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle. 264ly

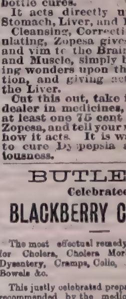
DELAYS are dangerous, particularly in Kidney Diseases, so take at once DR. VAN BUREN'S KIDNEY CURE and obtain relief from all your sufferings. Your Druggist keeps it.

BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, bloches, pimples and the various humors and blemishes of the skin are only symptomatic of bad blood—that needs purfying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidneys, skin, etc, and strengthening while it regulates and purifies.

The market is full of preparations for the hair, some of them good, and many of them good for nothing. R. P. Hall & Co., of Nashua, N. H., manufacture and sell an article of real merit, which has been advertised in the *Express* for the past year, and we have taken no little pains to inquire how it has been liked by the public. One of our druggists informs us that he has sold more than double the amount of Renewer than of all other hair preparations combined, and when a person once uses it, he will use no other; that it is not only bought by the young people as a dressing, but by older persons for removing dandruff, preserving and increasing the growth of the hair and restoring its natural color. Another druggist says that he sells three or four times as much of Hall's, as of all others.—*Hampshire Express, Amherst, Mass.*

CHEAP AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Magnetic Medicine, which contains forty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column.

RACKED BY INNUMERABLE PANGS, restless by day, sleepless at night, rising unrefreshed in the morning, without appetite and pestered by varying and perplexing symptoms, the dyspeptic takes indeed a gloomy view of human existence. For him the zest of life seems gone. Heartburn, oppression at the pit of the stomach, and the attendant annoyances of of constipation and biliousness, combine to render him utterly wretched. But there is, if he will but take advantage of it, a reliable source of reliable relief from all misery. NORTHROP & LYMAN'S VEGETABLE DISCOVERY and DYSPEPTIC CURE is, as its name imports, a botanic preparation, free from mineral poison, and an all-sufficient remedy for indigestion in its most obstinate form. It not only enriches the blood by enabling the digestive organs to convert the food received into nutriment, but depurates it by increasing the action of the bowels and kidneys, the natural outlets for its impurities. But while it relaxes the bowels, it never does so violently and with pain, like a drastic cathartic. It aids, but never forces, Nature, invigorating as well as purifying and regulating the system. It thoroughly removes those diseased humors which tend to vitiate the blood, purifies the urinary secretion, and promotes a flow of healthy bile into the natural channel, besides expelling it from the circulation. Experience has proved that this standard medicine is a thorough remedy for dyspepsia, biliousness, costiveness, kidney complaints, scrofula, erysipelas, salt rheum, lumbago and all impurities of the blood. Price $1.00. Sample Bottle 10 cents. Ask for NORTHROP & LYMAN'S Vegetable Discovery and Dyspeptic Cure. The wrapper bears a *fac-simile* of their signature. Sold by all medicine dealers



WILL
EXCHANGE
a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys.

Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

BUTLER'S
Celebrated
BLACKBERRY CORDIAL.

The most effectual remedy yet discovered for Cholera, Cholera Morbus, Diarrhœa, Dysentery, Cramps, Colic, looseness of the Bowels &c.

This justly celebrated preparation is highly recommended by the medical men, and has been used with the greatest success for the last ten years throughout the United States.

Daily Intelligencer.

BELLEVILLE, WEDNESDAY, SEPT. 6.

"The Coal Tax."

Under the above heading, the *Globe* has the following in reference to the coal invoices published in these columns, showing that United States coal dealers make large reductions to Canadian dealers on account of the duty :—

> The Belleville INTELLIGENCER joins the weaklings who declare that the Americans pay our coal taxes for us. In support of its assertions it produces copies of invoices of coal from Ogdensburg and Cleveland, in which invoices it says the deduction for duty is made.
>
> We can satisfy any reasonable person that this apparent deduction of duty does not prove what the INTELLIGENCER says it proves. On Aug. 14th last we published a letter from a well known wholesale coal firm in Buffalo, in which letter the practice of the trade was clearly set forth. We reproduce an extract :
>
> "We have yours of 10th instant, also the newspaper. We can supply you with coal and coke, but do not think we can do any better for you than other shippers, at least not much. If we make price delivered at Toronto or in Canada we usually include the freight and duty, and of course we deduct these items from invoice price. That is where the reporter was probably misled. We do not prepay duty or freight. Yours truly, " " "
>
> The custom of the trade is, it will be seen, sometimes to quote the price at which coal can be laid down in Canada, duty and freight paid, then to leave the consignee to pay duty and freight, and of course to make proper deductions from the price. The bills produced by the INTELLIGENCER are of this class.

The *Globe's* plea is an ingenious, but not a correct one, and its closing sentence is untrue. Suppose for a moment that the Cleveland invoices were as the *Globe* states, what of the invoice from Ogdensburg, which credits the purchaser as follows :

Less duty on 32½ tons at 60c.—$19.50,

which amount is deducted from the purchase ! The selling price to the American customer was the same as to the Canadian customer, but the Canadian purchaser got a discount to the amount of the duty.

Again, in Cleveland the price of coal was $3.75 per ton to the home consumer ; but the vendors sold to Canadian purchasers at that price and deducted the freight, so that the price of the coal, *delivered in Canada*, was from $2.40 to $2.80 per ton, or from 95c. to $1.35 per ton less than the same coal could be bought at in Cleveland for home consumption. The *Globe's* attempted explanation has no bearing on these facts. Let it try again. If it can show that coal was worth but $2.40 to $2.80 for the home market in Cleveland at the dates of the invoices, it will substantiate its remarks as to the Cleveland invoices, and then it will have to explain that from Ogdensburg.

Don't die in the House.

"Rough on Rats." Clears out rats, mice, roaches, bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

Our Mines. Forests and Fisheries.

Amongst the principal articles published in the Hon. Mr. Mousseau's programme, and to which he urgently asks the attention of every intelligent citizen, are the products of our Forests and Mines—two very considerable sources of wealth—and capable of yielding an immense revenue to the people for many years to come. Our mines are very little known as yet, outside of the immediate localities in which they are situate. Where they have been worked, especially our iron mines, they have been found to be unusually rich in quality, and apparently inexhaustable in supply. It is to hoped that all intelligent men, particularly our manufacturers and mechanics, who are the most deeply interested parties in the development of our mines, will carefully enquire into this matter, and by instructing themselves, be in a position to assist the Government in carrying out the promised programme, having for its object the rapid development of our mineral regions.

Of course it cannot be expected that our Government can do—all at once—what is required to bring about so desirable a result as the opening up of these wealthy regions ; but we have confidence that they will do their part in the matter. During the last session of Parliament some lively speeches were made, criticising the laws relating to gold mining, and it appeared to us then—as it still appears to us—that there is room for improvement in this particular. It might be found advisable to copy from the laws of Australia or from those of our neighbors on the other side of the line—who have had a great deal of experience in mining matters. As to legislation on our Forests, the matter is much more difficult, but this subject must be dealt with by the local Government, they having full control over the forests. Our Ontario rulers have made no improvement on the laws framed by their predecessors. On the contrary, they have meddled and muddled, and placed the settlers at the mercy of the lumbermen. The Conservative Government which will succeed them next year will, however, make the needed alterations.

And now with reference to our fisheries. It is known but to a very few that in this Province of Ontario we have lakes and streams abounding with the very best of fish. The lakes to which we allude are within from 50 to 100 miles of this city, and contain some of the best species of the finny tribes. It is stated that millions of trout, bass and other valuable fish abound. Up to this time the Government have held the opinion that it would be detrimental to the propagation of fish were they to grant license to parties desiring of exporting these fish to foreign countries ; but if it be true, as we have been informed, that the fish in the lakes in question are feeding upon each other, these lakes might be made to yield a considerable revenue. We would suggest that, as an exhibition will be held in London in May next year, in which the fish of the whole world will be exhibited, it would be very advisable that Ontario should be properly represented, and as the time is short an efficient representative ought to be selected at an early date.

Speaker McPherson's Portrait.

(*From the London, Eng., Advertiser, Aug. 15*)

Mr. Charles Mercier, the well known artist, has just completed a life-size full-length portrait of the Hon. D. L. Macpherson, the Speaker of the Canadian Senate, for which he was honoured with a commission from the Government of Canada. The portrait will be placed in the Senate House, whither it will shortly be despatched. Having been on a visit to this country, Mr. Macpherson has favored the artist with direct personal sittings, and these have enabled him to produce a most lifelike and striking portrait, which cannot fail to give entire satisfaction to those who are acquainted with the original, and to enhance the reputation of the artist. The Speaker, who is represented standing full face, is dressed in a black velvet Court suit with the flowing robe of a Queen's Counsel. He is standing on a dais covered with red cloth, figured with fleurs de lis, in front of the chair in which he exercises his authority. Owing to the tall stature and physique of the hon. gentleman the painting seems at first sight to be of heroic proportions, but it is, nevertheless, not larger than life size. Mr. Mercier has had a good sitter, and has made the most of his opportunities. He has treated his subject with dignity and freedom—qualities not often combined in portraiture ; while as regards the general disposition and coloring of the drapery and other accessorial details, he has displayed real erudition by subordinating them as only a skilled artist can to the primary figure. The picture has already elicited high praise from the Princess Louise and the Marquis of Lorne, who visited Mr. Mercier's studio at Knightsbridge during the progress of the work ; and the Speaker himself, who is perhaps the best authority on the subject, has testified that, having visited the portrait several times with different friends, they all expressed unqualified approval of it ; and that he himself is much pleased with the pose and the tone of coloring.

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists.

Colorado Business.

Those who think of attending the National Mining and Industrial Exposition, to be held in Denver during August and September, should purchase the Cheap Excursion Tickets of the "Great Rock Island Route," and take choice of *Four Routes*, with privilege of return until October 31.

Time as quick as the quickest, and no more changes of cars than by any other line—with the advantage in our favor of making the single change necessary in a Union Depot. The rolling stock of this great Railway is simply superb, consisting of magnificent Day Coaches, Pullman Palace Sleeping Cars, world-famous Dining Cars, and exquisite Horton Chair Cars.

If going to the Northwest, don't forget the Famous Albert Lea Route to Minneapolis and St. Paul, where it connects with all trains of the Northern Pacific Railroad and St. Paul and Minneapolis Railway. Tickets for sale at all ticket offices.

Catarrh of the Bladder.

STINGING irritation, inflammation, all Kidney and Urinary Complaints, cured by "Buchupaiba." $1.

Cheese.

THE UTICA MARKET.

UTICA, Sept 4.—Our market has been active to day as compared with last Monday and the week previous, but that is not saying much for it. The tone clearly shows improvement. The rise of ½c. in the ruling price over last week was counted on in view of the advices from New York, and a good many factorymen held out long for 11c. A few choice lots, including some small cheese, were sold at private terms and possibly brough 11c., or better. Fancy cheese finds ready buyers, the demand of the home market having perceptibly increased. July cheese is virtually all cleared away by to-day's transactions, and salesmen report the August product in good condition, which is the reverse of the situation last year. Sales to day have been as follows: 70 boxes at 10¼c., 125 boxes at 10½c., 47 lots, 5,513 boxes, at 10⅝c., the ruling price ; 17 lots, 1,445 boxes, 10¾c.; 4 lots, 545 boxes, p. t. Consigned 785 ; total of the day's transactions, 8,483 boxes, against 6,263 boxes last week, 5,143 two weeks ago. September 5, 1881, the transactions were 8,240 boxes, and on the corresponding date in 1880, 6,668 boxes at 11½c. to 12⅛c.

THE LITTLE FALLS MARKET.

LITTLE FALLS, Sept. 4.—The market shows a better tone, to day. Buyers are at hand and ready to take cheese freely, and altogether the feeling upon the market is much better. Prices are considerably better than a week ago, fully ½c. on the average. Salesmen are beginning to see that it is not wise to longer hold their July cheese and many factories closed out all this class of cheese to-day, and quite a good many have commenced on the August product. There was a distinction made between Julys and Augusts, but in many cases, the former sold equally well with the latter.

If Nearly Dead

after taking some highly puffed up stuff, with loud testimonials, turn to Hop Bitters and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes, or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters ; besides, it is the best family medicine on earth.

COUGHS AND COLDS.—If taken in time are easily cured,—if allowed to continue will result in incurable consumption. Allen's Lung Balsam has the confidence and support of the medical faculty, and is recommended by all who are acquainted with its virtues.

Dropsy is essentially a watery condition of the Blood, dependent upon disordered Kidneys. Burdock Blood Bitters are strongly Diuretic and consequently the best known remedy, acting as it does upon the entire Secretory System.

A SIMPLE herb found on the sunny plains of a Southern clime has, under the skillful manipulation of DR. VAN BUREN, proved one of the greatest blessings ever sent to sufferings humanity. DR. VAN BUREN'S KIDNEY CURE is acknowledged all the world over as the only perfect remedy for Kidney troubles. Your druggist has it.

C. BRITTON, Lindsay, Ont., writes:—I have much pleasure in recommending Baxter's Mandrake Bitters in all cases of Jaundice, Billousness, Sick Headache and Liver Complaint, for they have given universal satisfaction, and I have sold more of them the past season than any other one patent medicine.

Consumption, that dread destroyer of the human race, is often the result of bad blood and low vitality, a scrofulous condition of the system. Burdock Blood Bitters cure Scrofula in its worst form.

News Condensed.

The Texas cattle fever has invaded Maine.

—Vessels from Egypt, Malta and Cyprus are quarantined at Spanish ports.

—A Pottsville, Pa., minister has been arrested for breach of promise of marriage.

—The first district in New York of Edison's electric light has started permanently.

—It is stated that the Canada Atlantic railway will be opened for traffic on the 11th inst.

—Eighteen Braic Montenegro peasants have been arrested and conveyed under escort to Cattaro.

—Montreal Customs receipts for August show an increase of $42,090 over those for August 1881.

—The number of deaths from cholera in Manilla on Sunday was 448, all the victims save one being natives

—Mr. T. W. Ritchie, Q.C., of Montreal, died suddenly on a steamer on Lake Memphramagog on Monday afternoon.

—The Vice-Regal party left Niagara Falls for the West yesterday, the Princess Louise being much recuperated in health.

—Ashburnham, Mass., is experiencing an attack of dysentery approaching an epidemic. Fourteen cases, several fatal, reported.

—The election petition case against the return of Prof. Foster, M. P. for King's, N. B., is proceeding at St. John. Prof. Foster denies any bribery.

—Miss Shaw, the teacher in the central school, west, Ottawa, who was struck by lightning during the storm on Monday, is in a serious condition.

—On Monday two men went into the jewellery store kept by Mr. Lesperance, Montreal, and while the clerk was speaking to one, the other took up $200 worth of goods and bolted.

—E Dwyer-Gray declines to enter into the requisite recognizance at the expiration of his three months' sentence. His term will in consequence be extended for a further similar term.

—It is calculated that the United States post office will turn into the treasury this year a surplus of $1,000,000. This result is attributed to the exposure of the Star Route frauds.

—The first Protestant university was founded at Berlin in 1527, and for nearly a century it ranked well among the high schools of Germany, and then sunk into perfect insignificance.

—Three burglars attacked Mr. Bouchard in his house on Sunday night in Mile End, near Montreal, injuring him badly. On the alarm being given they decamped, taking a gun with them.

—The shifting competition between A and B Batteries took place at Quebec, on Tuesday, B Battery being victorious with 6½ minutes to spare. This is the second time in succession for the Kingston squad to be victorious.

—Dicharde, who killed Demasses in a duel near Paris, on Sunday, was himself badly wounded in the head and arm pit. He received three cuts on the hand. Dicharde will be prosecuted, but certainly acquitted.

"The term *hydra* may be used to represent any manifold evil. If you would battle successfully with this many-headed monster of disease you will find it expedient to keep Mrs. Pinkham's Vegetable Compound always at hand.—*Dr. Banning.*

—The Biddulphers are on the rampage again. Warrants have been issued for the arrest of eight or ten young members of the so-called "Roman line gang" for assaulting, a few nights ago, a party of residents who were peacefully proceeding homewards.

—A desperate ruffian named Giroux, who has just been released from the penitentiary, made a murderous attack upon his brother-in-law, one Lachance, at Quebec on Sunday night. Lachance has seven knife wounds in the neck, and is in a very low condition. Giroux was arrested and lodged in jail

—The report that under an understanding with the authorities the striking Dublin police returned to duty is denied. A large number have returned to work in order to save themselves from dismissal. The Lord Lieutenant has promised careful consideration of the cases of the dismissed men, of whom it is thought about 220 will be reinstated.

—The Toronto Exhibition Grounds were opened on Tuesday morning at 9 o'clock. The formal opening by his Hon. Oliver Mowat, Premier of Ontario took place to-day, at 2:30 p.m. A great feature of the Exhibition will be the electric light. There are to be 41 lamps. In the evening of each day there will be a grand display of electric hydraulic fireworks.

—It is stated that Sir John A. Macdonald has purchased a permanent summer residence at Riviere du Loup, also that the property in the neighborhood of the wharf known as Riviere du Loup Point, was sold for $20,000. It is supposed the purchasers will erect a large hotel and lay out a park and building lots so as to make the place a first class summer resort.

⁂ "Do boldly what you do at all." Boldly do we affirm that Kidney-Wort is *the* great remedy for liver, bowels and Kidney diseases, rheumatism and piles vanish before it. The tonic effect of Kidney-Wort is produced by its cleansing and purifying action on the blood. Where there is a gravelly deposit in the urine, or milky, ropy urine from disordered kidneys, it always cures.

—Last month 714 immigrants were registered at Toronto. Of this number 504 were English, 205 Irish, 82 Scotch, 18 German, and 5 Scandinavian. The above figures include 175 girls, of whom 53 were sent to Miss Rye's Home at Niagara, 65 to Miss McPherson's at Galt, and 56 to Rev. Mr. Barnard's at Hamilton. Besides these, 935 Scandinavians went through to the Western States, and 234 of various other nationalities.

—During a severe thunder shower, on Monday afternoon, the Central School at Ottawa was struck by lightning and fired. The School was full of scholars at the time. Miss Maggie Shaw was injured and remained insensible for some time. The alarm was at once sounded for the fire, which had taken possession of the roof, and the brigade after some exertions prevented the spread of the flames. The crash of the shock was heard with terrific effect in every part of the city.

Excellent reasons exist why *Dr. Thomas Eclectric Oil* should be used by persons, troubled with affections of the throat or lungs, sores upon the skin, rheumatic pains, corns, bunions, or external injuries. The reasons are, that it is speedy, pure and unobjectionable, whether taken internally or applied outwardly.

SMITH MEDICINE Co.

GENTLEMEN,—I have made a trial of one box of Dr. Smith's Great German Worm Remedy, with such good effect that I have no hesitation in recommending it to the public as a prompt and reliable medicine. In fact, those who use it once will always do so. Yours truly,

J. Harvie, 172 Cadieux street.

Montreal, December 9th, 1881.

Nervous debility is a result of indiscretion in the mode of living. Heed nature's unerring laws and take Burdock Blood Bitters, the Great System Renovator and Blood, Liver and Kidney regulator and tonic. Sample bottles 10 cents.

Hall's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by Jas. Clarke & Co., Belleville, Ont

PROCLAIM it far and wide that DR. VAN BUREN'S KIDNEY CURE not only immediately relieves all Kidney diseases, but what is more important to the unfortunate sufferer, will ultimately cure him effectually.

A CARD

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D. New York City.* [w6m143eod

A New Principle.

The principle upon which PUTNAM'S PAINLESS CORN EXTRACTOR acts is entirely new. It does not sink deep into the flesh, thereby producing soreness, but acts directly upon the external covering of the corn, separates it from the under layer, removes the direct pressure from the part, and at once effects a radical cure, without any pain or discomfort. Let those who are suffering from corns, yet skeptical of treatment, try it, and by the completeness of the cure they will be ready to recommend Putnam's Painless Corn Extractor to others. Sold by W. R. Carmichael

KIDNEY-WORT

FOR THE PERMANENT CURE OF CONSTIPATION.

No other disease is so prevalent in this country as Constipation, and no remedy has ever equalled the celebrated Kidney-Wort as a cure. Whatever the cause, however obstinate the case, this remedy will overcome it.

PILES. THIS distressing complaint is very apt to be complicated with constipation. Kidney-Wort strengthens the weakened parts and quickly cures all kinds of Piles even when physicians and medicines have before failed.

43 ☞ If you have either of these troubles

GLASGOW WAREHOUSE.

Daily Intelligencer.

BELLEVILLE, WEDNESDAY, SEPT. 6.

City and Vicinity.

A SPECIAL meeting of the City Council will be held this evening.

FOUR drunks and a tramp were registered at the Police Station this morning.

THE Varuna makes her last trip to the 1000 Islands on Saturday next, the 9th inst.

REV. MR. SCHUSTER has returned home from a two weeks' sojourn at the Thousand Island Park.

HERMANN the Magician is booked at the Metropolitan Hall for the 13th inst., next Wednesday evening.

THE Cricket Club will probably play a return match with the Napanee Club on Friday, the 15th inst.

MISS HELEN BLYTHE, in "A Farmer's Daughter," should attract a good audience on the 15th. She is an actress of note.

VENNOR predicts a fair and frosty September, a wet October and November, and a stormy December, with plenty of snow.

OPEN AIR SERVICE to-morrow evening, D. V., corner of Church and Dundas streets in the vicinity of the new City Mission building.

THE Voters' List Court for the Township of Thurlow has been appointed for Wednesday the 20th September, to be held at the Town Hall, Canifton, at 10 o'clock, a.m.

CAPT. CUTHBERT will sail the yacht *Aileen* in the Royal Canadian and Toronto Yacht Clubs' races on Thursday, Friday and Saturday. Dow Claus will sail the *Emma.*

WE understand that it is the intention of Mr. I. B. Graham to turn the two upper flats of the Metropolitan Block into an opera house next spring. This news is almost too good to be true.

THE workmen are now engaged in building up the front of the Government Building with stone. The front will present a much richer and more massive appearance than if it had been built of brick.

THE police are practising daily with Indian Clubs and dumb bells and are rapidly developing their muscle. The police station, however, affords rather limited space for athletic exercises.

MESSRS. CONLEY, of Scranton, Pa., and Empey, of Bay City, Michigan, who are visiting friends in Trenton, took a trip to Belleville yesterday afternoon with Mr. Ross Cumming, on the yacht *Surprise.*

ALBERT COLLEGE buildings and premises are being repaired and cleaned in preparation for the opening, Sept. 7th. The long needed iron railing on the front steps adds greatly to the safety and convenience of students and visitors.

A CULPRIT named Jas. Finnerty is wanted for robbery and other offences at Arnprior. He is described as standing 6 ft., weighing about 200 lbs., with high cheek bones, light moustache, and blackened eyes, wearing a dark tweed suit and black felt hat; age, about 30 years.

FOUR drunks were before the P. M. this morning—R. Atchison (who wore Her Majesty's uniform, and was disgusted at having to submit to the civil authorities), Wm. Watson, David Maston, and Chas. Haggerty. They were allowed to go, this being the first offence of each.

WE have already called attention to the redundant shade on several streets on Taylor's Hill—especially George St. The foliage is so luxuriant that it shuts out the sunlight from many houses, besides marring the beauty of the streets. The trees should be pruned as soon as possible.

AT the meeting of the M. E. general conference on Tuesday, the report on Education was adopted, and the following were added to the Board of Trustees for Albert College:—S. B. Burdett, L.L.B., of Belleville, and A. L. Morden, Q. C., of Napanee. Rev. T. W. Mavety, M.A., of Belleville, appointed to the Senate of Albert College. Bishop Carman, Drs. Jaques, and Badgley, and Mr. S. B. Burdett were appointed a special committee to secure a change in the charter of Albert University, to make the Senate self perpetuating.

MANY of our readers will be pleased to learn that Mr. A. Ellis was married in Christ Church to-day by Rev. Dr. Clarke. The bride was Miss Alice Frost, of Barnsley, Yorkshire, England, who arrived in Canada last week to share the fortunes of Mr. Ellis. We join with many friends in wishing prosperity and happiness to Mr. and Mrs. Ellis.

A. A. MACDONALD, Chief McKinnon's athletic pupil, is carrying everything before him in the heavy-weight line in the States. At the recent athletic meeting in Boston he defeated Duncan C. Ross and Donald Dinnie (the latter of whom is champion of Scotland) in the heavy-weight contests. Macdonald bids fair to succeed the Chief as Champion of America.

THE Troublers Base Ball Club left this morning on the steamer *Annie Gilbert* for Napanee, where they play a match to day with the Silver Leaf Club of that town. They were accompanied by a number of invited friends. The Club is composed as follows: J. Fleming, catcher; A. Bates, pitcher; S. Canniff, 1st base; J. Borbridge, 2nd base; J. McCullough, 3rd base; B. F. Dickens, short stop; W. Hutchinson, left field; W. Cooper, right field; H. W. Bell centre.

PEOPLE are beginning to inquire whether such a thing exists as a Board of Health. If the Board is to be judged by its works, it must be concluded that it has quietly ceased to exist. Nuisances abound in every part of the city, and the seeds of fever are being sown broadcast. It would be interesting to know how many tours of inspection the members of the Board have made this summer, and still more interesting to know whether the Board intends to perform its duties.

NO. 1 COMPANY, and the Madoc and Stirling Companies of the 49th Battalion, left here to-day for Cobourg to go into camp. The Madoc Company arrived here this morning with only 20 half-uniformed men, officered by Lieut. Orr. On the receipt of Col. Brown's telegram instructing the officers that the Company would not be required to turn out, half the men left the village, and it was found impossible to get them together again in time to reach Belleville by this morning's train. Capt. Harrison has succeeded in getting together a splendid Company—one of the best that he ever took into camp.

THE Montreal *Witness* says:—"The missing link, as the fourteen miles between Peterboro' and Omemee is called, is now claiming a good share of the contractor's energy, and some four hundred men are engaged on that fourteen mile stretch. Lately two new steam shovels have been added to the work at a cost of $25,000, and the contractor expects to have trains running early in the spring. This missing link will give the direct connection between Midland City and Belleville, and other points in the east, and is a bit of road that will play an important part in the future railway operations from the direction of the Georgian Bay."

A VERY good audience assembled last evening in Melrose Presbyterian Church to hear a lecture by Rev. D. Mitchell on his recent trip to the North West. The interest evinced in the lecture was very marked. At the close a collection was taken up in behalf of the Building Fund of the Belleville City Mission, amounting to nine dollars. With such efforts as this the new Chapel on Dundas street would soon be completed, and we trust the example set by the lecturer and the audience will be followed by others in other places. The Treasury of the Building Fund is constantly requiring to be replenished, until the work shall have been completed.

WEATHER PROBABILITIES—Toronto, Sep. 6.—Lakes, moderate to fresh, southerly to westerly winds, fine warm weather.

ALBERT COLLEGE.—The several Departments of this institution will open to-morrow—Thursday—when all the Professors are expected to be in their places.

HOPS.—Hop picking will commence generally throughout the Prince Edward district on the 7th. The highest price we have heard of being offered is 35c., although a sale is reported in Montreal at 50c.

BEFORE purchasing Ready made Clothing be sure and look through HENNESSY'S stock. He has over 300 suits in all, and is offering them at actual cost.

Albert College Notes.

OPENS SEPT. 7TH, 1882.

We are informed that the prospects for the opening of Albert College, Sept. 7, are very encouraging. The staff of Professors is full, and the number of students applying is large. The class of "Junior Freshmen"— or first year men, will be unusually large.

Ladies may prepare for matriculation in Albert College Grammar School, and may matriculate in Albert University. A considerable number of ladies are expected for the year.

Prof. Stanistreet still remains as Professor of music and expects more students than ever this year.

The commercial department will still be under the charge of Prof. Bannister, with a full staff of assistants.

Rev. Amos Campbell, agent of the college, is soliciting endowment funds and students for the opening, Sept. 7. He reports encouraging numbers of new students for the next year.

Prof W. P. Dyer, M. A., expects to be in his lecture room on Sept. 7. He is now completing a special course under the Professors of Harvard University, where many other teachers of natural science resort in summer for special professional training.

THE WAR IN EGYPT.

ARABI PROCLAIMED A REBEL.

What the Rebels are Doing.

Egyptian Officers Surrendered.

LONDON, Sep. 6.—The convention with the Porte includes the proclamation of Arabi as a rebel, which will add greatly to Great Britain's prestige. Arabi is reported to have cut the canal and flooded the country around Zagazig. He has also constructed a new line of defence from Salhich to El Karaim, 8,000 troops being engaged in erecting earthworks. A forward movement by Gen. Wolseley's troops is not probable for some days in consequence of the difficulty experienced in bringing up supplies. Several of Arabi's officers came over from Tel-el Kebir and surrendered yesterday. Mahmoud Fehmy, now that he is in the Khedive's power, has given much valuable information as to the strength and position of Arabi's forces. A great stir was observed in the enemy's camp before Alexandria yesterday, but the cause was not ascertained. The British engineers have commenced operations with a view to letting the sea into Lake Mareotis to prevent an advance by the enemy over its dried up bottom.

LATEST FROM THE SEAT OF WAR.

THE ALEXANDRIA SUSPECTS

FIRE IN ALEXANDRIA.

Aden to be Fortified.

When the Advance is to Begin.

Boldness of the Enemy.

ARBAI'S FORCES.

ALEXANDRIA, Sept. 6.—Antanio Paulo, who was arrested on suspicion of being connected with the plot against the lives of the Europeans, will be sent to Greece. He is not Consular Agent, as stated. The police have advised several other suspected persons to quit the city.

A fire broke out early this morning in Rue Cherif Pacha and several persons suspected of starting the fire have been arrested.

LONDON, Sep. 6.—It is stated that the authorities have decided to fortify Aden at once. A number of heavy guns will be sent there.

ISMAILIA, Sep. 6.—No advance can be expected before the 9th inst.

The Duke of Connaught's brigade of foot guards will arrive at Kassassin on Wednesday. The transport arrangements are being rapidly completed. A party of natives have been ordered to bury the dead at Kassassin.

ISMAILIA, Sep. 6.—It is reported that Arabi has 28,000 troops at Tel-el-Keber, well armed and in good condition. He has large forces at Shaubra, Ghiza, and Moukattan, where he is constructing formidable earthworks. He has 6,000 men at Cairo, and several thousand are camped outside the city, close to Ferinado. Romiette is garrisoned by a regiment of black troops, and a large number of the same troops are within reach in case of necessity. Arabi has an Italian and four Germans on his staff, all able officers. It is reported he has flooded the entire country above Zagazig by cutting the canal.

KASSASSIN, Sept. 6.—The enemy are showing increased boldness. Yesterday a force of two hundred was observed within half an hour's march from the British camp. Infantry disguised as peasants frequently fire at British videttes.

Belleville Cheese Market.

BELLEVILLE, Sep. 6th, 1882.

The past week has been probably the quietest in the trade for the season. Only one lot of 100 boxes changed hands at 11c. Buyers are keeping aloof, knowing that factorymen who have already refused 12c and over would not sell at the prices now obtainable. The cable during the week stiffened 1s to 57s, against 59s. last year and 63s the year previous.

At Ingersoll yesterday there were no transactions reported.

In the Montreal market there is said to be 30,000 boxes of July cheese in store.

The shipments of cheese from Montreal from the commencement of the present season to date were 429,690 boxes, against 345,441 boxes for the corresponding period last year, showing an increase of 84,248 boxes.

At the London, Ont., market on Saturday 11,000 boxes were boarded, but no business was effected, as buyers refused to go higher than 11⅛c, but factorymen would not let go at under 11½c. In the Stratford district sales have transpired at 11⅛c to 11¼c.

The receipts of cheese, in New York, from May 1 to September 1, this year, were 1,234,176, against 1,564,667 boxes for the same period last year—showing a decrease this year of 360,491. Last year the excess of receipts from May 1 to September 1, as compared with the same period in 1880, were 96,000 boxes in excess. The exports, this year, have been 55,000,000 pounds, against 76,000,000 pounds for the like period in 1881.

Sporting Notes.

The members of the Sportsman's Club had good practice at glass balls yesterday afternoon. Card trap revolving, ten balls each, 18 yards rise, weather favorable. Score: R. S. Bell 8; S B. Burdett 7; Prof. J. T. Bell and Jos. Caldwell 5 each; John N. Pringle 4; S. R. Balkwill 3. Mr. Pringle's low score is attributable to a sore shoulder, whilst Mr. Bell broke 8 straight with his own gun and failed on the last two with strange guns.

The Halifax (N. S.) regatta commences to-day. Some keen competitions are expected.

Hanlan is organizing a regatta to take place at Toronto the third week in September. Prizes amounting to $1,500 will be competed for.

The Australian cricketers hauled down their flag to the Past and Present of Cambridge University on August 19th. After an exciting game Cambridge proved the winners by about 20 runs.

The Australians are down to play in Philadephia on October 11, 12, and 13. Mr. Smith, Secretary of St. George's Cricket Club, who was recently in London, has had some conversation with Mr. Beal, manager of the Australian eleven, regarding a match at Hoboken.

Hanlan speaking of the championship said that Ross' assumption of the championship would not induce him to row this season. He said he had his business to attend to, and would be a fool to accommodate opponents whenever they chose to take a shy at him with or without reason. There was much money dependent on him when he rowed a race, and it would be an injustice to his friends to row, unless he were in the best condition. He could not get into condition after his illness in time to row on northern waters this year. Ross would be attended to next year.

Two men, resident in town, who are well known, have been boasting that they have shot partridges ever since the first of August and that they have "cleaned out everything" within six miles of Belleville. The Sportsman's Club ought to prosecute these poachers.

There will be another glass ball shoot on Friday.

The *Gracie* arrived at Toronto at 3 p. m. yesterday, having made a good passage for a small yacht.

The British riflemen made a much better total in their practice on the 5th than did the Americans.

In the Macdougall match at the D. R. A. meeting on Tuesday, five shots each at 400 and 600 yards, Corporal Hilton stood 39th with a score of 38 and won a prize of $4.

Hanlan has challenged Ross, Lee or Courtney to row him a three mile race for $2,500 and the championship in two months from signing articles.

—The Chinese army and a number of ships have been ordered to the vicinity of Seoul, to take action in the Corean difficulty.

MORNING DESPATCHES.

AMERICAN.

BIG FAIR

AMENIA, N. Y., Sep. 6. The Eastern Dutchess fair opened yesterday. The exhibition of cattle and horses was the largest for many years.

GREAT RACING SIRE DEAD.

LONDON, Sep. 6.—Blair Athol, the celebrated race horse, is dead.

A BURNT BUILDING.

MUNICH, Indiana, Sep. 6.—There was a small fire on Monday in James Boyer's flour and bagging mill. A quantity of jute became saturated with water and swelled, bursting the building yesterday, causing a loss of $20,000.

FISHERMEN DROWNED.

ST. JOHN'S, N.F., Sept. 6.—A fishing skiff commanded by John Cheesman was struck by a squall and sunk in Placentia bay yesterday. The crew perished.

CUBAN NEWS.

HAVANA, Sep. 6.—A hurricane passed over Cienfuegos yesterday.

A number of persons having been carried off for ransom in Puerto Principe and Santiago, DeCuba, the Captain General, has proclaimed those provinces under martial law.

It is reported from Spain that the Cuban insurgent Maceo has escaped from prison.

PREPARING FOR A REVOLUTION.

TOMBSTONE, Arizona, Sep. 6.—Nearly every gunshop here has been cleaned out by Mexicans, who are flocking in by dozens, buying up all the arms and ammunition they can obtain for use in the impending revolution in Sonora. It is reported that Governor Ortez has ordered all able bodied men in the State to be drafted to sustain him.

FORGER ARRESTED.

BROOKLYN, Sep. 6.—Francis G. Salmon, a lawyer, accused of forgery and swindling, has been arrested in Florida.

BROOKLYN NAVY YARD.

Orders have been given for the discharge of half of the force in the construction and engineer departments of the navy yard here on Sep. 15th.

DEATH FROM HYDROPHOBIA.

DALLAS, Texas, Sep. 6.—The speaker of the House of Representatives, who died by hydrophobia yesterday, was bitten by a mad dog several weeks ago. At the time he tried to apply plaster to the wound, but it could not be made to adhere. He did not suffer from the actual attack of hydrophobia until a few days ago, when finding he was going mad, he instructed his friends to lash him to a bed, to prevent his harming them. His ravings and frothing became horrible, and all day yesterday his sufferings were indescribable. He has been one of the most prominent men in Texas, and was a candidate for re-election to the legislature.

ANOTHER FASTER.

ST. LOUIS, Sept. 6.—Shillipina Trengel, aged twenty-six, living north of St. Louis, has taken no solid food for three months, and is rarely able to retain liquids in her stomach. The physicians are unable to diagnose the case satisfactorily. The woman is growing weaker and probably will die.

A CONGRESSMAN ARRESTED.

MILWAUKEE, Sept. 6.—Congressman Bragg was arrested yesterday on a warrant sworn out by John Rice, of Chicago, who claims Bragg owes him $1,250. Bragg has gone $2,000 bail.

NEW YORK, Sept. 6.—Arrived: *Australia*, from Hamburg, *Ethiopia*, from Glasgow.

ALMHOUSE IRREGULARITIES.

PHILADELPHIA, Sep. 6.—The Committee of 100 who have been investigating the almhouse irregularities, have decided to request the resignation of several members of the Board of Guardians who were in the old board. It is understood that warrants will be issued for three ex-members.

MURDER.

KENSICO, N.Y., Sept. 6.—Albert Montford, who was murdered in his store on Sunday night, intended to visit New York on Monday to purchase goods. Montfort was found with his forehead split open, the gash being eight inches in length. The left ear was cut in two and the gash extended nearly to the back of his neck, while another blow with an axe previously had cut a gash from a point about an inch from the second to within a short distance of the right ear, thus nearly severing the back part of his head from his body. A blow had also been struck on the top of the head with the blunt portion of an axe. Montfort's pockets were turned inside out and not a cent of money could be found anywhere. His room was bespattered with blood. Mrs. Montfort went to Tarrytown on Saturday to visit a sister. Her brother, Charles Reynolds, has been in the penitentiary, and on Saturday the Sheriff of Tarrytown was looking for him at Kensico, having tracked him there from Tarrytown, on account of a new charge against him. A quarter of a mile from the house the axe was found covered with blood and gray hairs. A shirt spotted with blood was also found at the house of Montfort's father-in-law near White Plains. Near the barn on this farm another shirt was found torn and covered with blood. The coroner has ordered to be arrested Mrs. Montfort, her mother, Mrs. Silbson, her father in-law, and her sister Mary Reynolds.

QUEENSTOWN, Sept. 6—Arrived, *England.*

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinary or Liver Diseases, as they only relieve for a time and make you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

O. Bortle, of Manchester, Ontario Co., N.Y. writes:—"I obtained immediate relief from the use of *Dr. Thomas' Eclectric Oil.* I have had Asthma for eleven years. Have been obliged to sit up all night for ten or twelve nights in succession. I can now sleep soundly all night on a feather bed, which I had not been able to do previous to using the Oil."

For 30 Years

The dark-eyed and lovely daughters of Spanish America have used MURRAY & LANMAN'S FLORIDA WATER as their only cosmetic and toilet perfume. It is the most fragrant, as well as the most lasting of all Floral Waters, and possesses refreshing and invigorating properties not contained in any other preparation of the kind.

CHICAGO MARKETS.

CHICAGO, Sep. 6.—Wheat 98⅛ to 00 Sep.; 40 Oct.; 5 Nov.; 5 to 0 year. Corn 72 Sep.; 68¾ Oct.; 63⅛ Nov.; 59 year 54½ May. Oats 34 Sep.; 27 Oct.; 32⅛ Nov.; 32⅛ year; 2¼ May.

Close S.R. $13.20 Sep.; $12.07½ Oct. $13 50 Nov. Pork $21.35 Sep.; $21.40 Oct.; $21.07½ Nov.; 19.95 year; $19 12½ Jan. Lard $12.92½ Sep.; 11.92½ Oct.; 12.92½ Nov.; $11.75 Jan.; 00.00 March

ROBBED

Thousands of graves are annually robbed of their victims, lives prolonged, happiness and health restored by the use of the great

GERMAN INVIGORATOR

which positively and permanently cures **Impotency** (caused by excesses of any kind), **Seminal Weakness**, and all diseases that follow as a subsequence of Self Abuse, as loss of energy, loss of memory, universal lassitude, pain in the back, dimness of vision, premature old age, and many other diseases that lead to insanity or consumption and a premature grave.

Send for circulars with testimonials free by mail. The **INVIGORATOR** is sold at $1 per box, or six boxes for $5, by all druggists, or will be sent free by mail, securely sealed, on receipt of price, by addressing

F. J. CHENEY, Druggist,
187 Summit St., Toledo, Ohio.

JAS. CLARKE & Co., Sole Agent, for Belleville.

Insurrection in Tunis has again broken out and the French position is threatened.

BIRTH.

On the 4th inst., the wife of C. A. STRATTON of a daughter.

MARRIED.

At Christ Church, Belleville, on the 6th inst., by the Rev. Dr. Clarke, ALFRED ELLIS, Esq., to ALICE, youngest daughter of T. Frost, Esq., (Author) of Barnsley, Yorkshire, England.

On the 30th Aug., at Carlow, by Rev. E. Scammell, Mr. ARCHIE MCARTHUR, of Mayo, to Miss ANNIE GRIFFITH, of Franktown, Lanark.

On the 30th Aug., at Carlow, Mr. DAVID ANDREWS to Miss ELIZABETH TAYLOR, both of Carlow.

On the 30th Aug., at the residence of the bride's father, by the Rev. Samuel McCaulay, JAMES BOLDRICK to AMANDA HOMAN, both of Thurlow.

Commercial.

BELLEVILLE MARKETS.

INTELLIGENCER OFFICE,
Belleville, Sept. 6, 1882.

The new crop of grain is as yet moving slowly.

Wheat brings from $1.00 to $1.05 for fall, and $1.10 for spring.

Only about 2,000 bushels of Barley has been offered as yet, and brought from 70c to 75c. per bush. In the Toronto market, Barley is quoted at 50c. to 70c. per bush. At Napanee already fully 20,000 bush. Barley has been marketed at the above figures.

WELLAND, Ont., March 22, 1882.
My little daughter was troubled with Catarrh for two years, and was very much benefitted by the use of "Hall's Catarrh Cure." She is now about cured: W. T. HOUSE.

WELLAND, Ont., March 20, 1882.
I have used "Hall's Catarrh Cure," and judging from the good results I derived from one bottle, believe it will cure the most stubborn case of Catarrh if its use be continued for a reasonable length of time.
W. H. HELLEMS.

WELLAND, Ont., March 20, 1882.

Vegetable Balsamic

ELIXIR!

This valuable medicine is purely vegetable, the discovery of which was the result of [illegible] study, in order to discover [illegible] the symptoms and the [illegible]

Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Influenza, Pleurisy, Hoarseness, Spitting Blood, Bronchitis,

and every species of oppression of the Chest and Lungs. In all cases where this Elixir has been duly administered its efficacy has been invariably manifested, convincing the most incredulous that

CONSUMPTION

is not incurable, if properly attended to.—Consumption at its commencement, is but a slight irritation of the membrane which covers the lungs, then an inflammation when the cough is more observable, but rather dry; then becomes local fever and the pulse more frequent, the cheeks flushed and chills more common. This Elixir in curing the above complaints, operates so as to remove all morbid irritations and inflammation from the lungs to the surface, and finally expel them from the system. It facilitates expectoration.

IT HEALS THE ULCERATED SURFACES

and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. It is free from strong opiate and astringent articles, which are of so drying a nature as to be in great danger of des[illegible] the patient; whereas this med[illegible] [illegible] the cough, but, by [illegible] [illegible] troys the [illegible] [illegible] is entirely gone. [illegible] when the cough is [illegible] [illegible] Send address for pamphlet giving [illegible] for cure of Pulmonary diseases. Price 25cts, and $1 per bottle. [illegible]

MACK'S MAGNETIC MEDICINE

Brain and
TRADE MARK
Nerve Food.

Is a Sure, Prompt and Effectual Remedy for Nervousness in all its stages, Weak Memory, Loss of Brain Power, Sexual Prostration, Night Sweats, Spermatorrhœa, Seminal weakness, and General Loss of Power. It repairs Nervous waste, rejuvenates the jaded Intellect, Strengthens the enfeebled Brain, and Restores surprising Tone and Vigor to the Exhausted Generative Organs. The experience of thousands proves it an Invaluable Remedy. The Medicine is pleasant to the taste, and each box contains sufficient for two weeks' medication, and is the cheapest and best. ☞ Full particulars in our pamphlet, which we desire to mail free to any address.

MACK'S MAGNETIC MEDICINE is sold by Druggists at 50c. per box, or 12 boxes for $5, or will be mailed free of postage on receipt of the money, by addressing

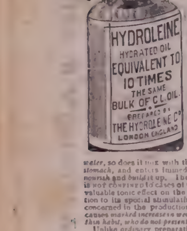
HYDROLEINE



(HYDRATED OIL.)
An artificially digested Cod Liver Oil.

For Consumption, Winter Cough, Affections of the Chest and all Wasting Diseases.

Prescribed by the leading physicians of England, the United States and the Dominion of Canada.

A WONDERFUL FACT.

HYDROLEINE mixes perfectly with water, showing a complete artificial digestion of the oil, and just as the HYDROLEINE mixes with the water, so does it mix with the liquid contents of the stomach, and enters immediately into the *system* to nourish and *build* it up. The efficacy of HYDROLEINE is not CONFINED to cases of Consumption, as from its valuable tonic effect on the nervous system in addition to its special stimulating action on the organs concerned in the production of *Fat* in the body it *causes marked increase in weight in persons of naturally thin habit, who do not present any evidence of disease.*

Unlike ordinary preparations of Cod Liver Oil, it produces no unpleasant eructation of sense of nausea and should be taken in such *very much smaller doses* according to the directions, as will ensure its *complete assimilation*; this, at the same time, *renders its use economical in the highest degree.*

For sale by all Druggists.

We have sold the above remedy for several months and find it spoken of very favorably by both the medical profession and the public.

We can safely reccomend it to parties needing such a remedy.

Daily Intelligencer

WON BY NINE.

BY RICHARD DOWLING.

From the Pictorial World.

The bazar rooms were closed each day at four in the afternoon, and were not reopened until seven in the evening. I was close to four o'clock on the first day that Angus Fitzgerald strolled into the Court house rooms, where the bazaar was held. He had come more as a matter of duty than pleasure. He was four and twenty years of age—a dark haired good looking Irishman, with an income the daughter of a duke need not be ashamed to share. He had, moreover, the reputation of being manly, straightforward, and amiable. In short, not only the townspeople of Clashmore, but the whole country, looked on him as one of the most eligible matches in the neighborhood.

He had scarcely entered the room when the Mayor, who had just been victimized by Ellen Cantwell, nodded towards the young man and said:

'Now, Miss Cantwell, there's a splendid chance for you. You see that young man who has just come in; that is Mr. Fitzgerald, son of Mrs Fitzgerald of Bawn. He ought to be good for a fiver. If I had his income and his youth I could deny nothing to Miss Cantwell.' With a gallant bow the mayor moved off, and the girl turned towards the door and began slowly making her way to the Lord of Bawn.

As soon as she got to where he was quietly moving forward in the human current, she said, 'Mr. Fitzgerald, will you be so kind and charitable as to take a ticket from me for a beautiful clock presented to the Charity by Mrs. Fitzgerald?'

He smiled, looked down, and put his hand in his pocket as a matter of course. After years spent in foreign countries, it was pleasant to hear his native tongue spoken so prettily. As a further matter of course he ought to have taken money out of his pocket and bought a crown's worth of tickets of the petitioner. Instead of which he drew his hand out of his pocket, stepped out of the current of people, and said, 'Why?' The Mayor had been the first to recognize him; she had been the first to accost him.

'Oh, because it is for charity—and then the clock is most lovely. It is gilt bronze. It strikes the hours, half-hours, and quarter-hours. The pendulum is a gilt Cupid in a bronze swing, and on the top is old Father Time, whose beard and hair and head are solid silver, and who mows with his scythe at the hours, halves, and quarter-hours.'

'But I hate striking clocks. Old Father Time is one of the gloomiest things I know and, as to that fabled boy Cupid who went about shooting arrows into hearts, all my principles are against him and his cruelty. Why on earth should I buy tickets for your raffle?'

'Then there's the Charity. If you will not give me something because of this beautiful clock that strikes the hours, half-hours and quarter-hours, give me the money for charity. Think on the dreadful weather. Last year the Sisters gave fifty pounds in coal alone.

He bent over her, and drawing his brows close together, said in a measured impressive voice, 'Look here, I'll let you into a great secret; you are not to tell it to a soul. I am an awful hypocrite. You were the first prson in this room to ask me for charity. I therefore take you into my confidence. But you can't expect to have my confidence and my money. I shall spend a pound at each table in the room but yours. Not a penny at yours. You understand? Now, good bye for the present. May I tell you how I get on later, to-night?'

'Yes,' she answered a little timidly. She though he must be mad, a littlle mad.

'Respect my confidence,' he said gravely.

'I will,' she answered in a state of bewilderment.

He passed away quietly from her side. For a few minutes she was too much surprised and disquieted to attend to her duties, and she stood idly looking out of a window.

When she had sufficiently recovered she turned round and re-began her solicitations.

At four o'clock a bell rang to intimate that the rooms were about to close. Ellen Cantwell made her way hastily to Mrs. Fennesey in order to know how the business in the stall had prospered. The room had already begun to clear. All the patrons but one had left the tables. At the opposite side of the room, talking and laughing lightly, stood young Fitzgerald with his back to her, throwing for a large musical-box.

That night he kept his word. He went to every stall in the bazaar, and threw for every prize in the room, but never once went to her table. Now and then they encountered one another in the crowd. On these occasions he always stopped to tell her briefly what he had been doing, and the names of the things for which he had thrown, and whether he was highest or lowest; for there was usually a prize for the thrower of the lowest, as well as for him who threw the highest.

Young Fitzgerald did not visit the fair next day, and his absence was a source of great relief to Ellen. While he had been in the room the previous day she had been in a state of continued disquiet. Why should he single her out as the confidant of his hypocrisy? She was in no small measure afraid of him.

But, to her annoyance, he came in on the night of the second day. The raffle closed at ten, the auction took place from ten to eleven, and after eleven dancing began. It was just nine when the owner of Bawn arrived. Ellen, with a bouquet, and book of tickets in her left hand, was making a final round of the room when she came upon him.

'Old friends like you and me may shake hands,' he said; 'will you shake hands with me?'

She smiled, and held out her hand timidly to him.

'Thank you,' he said, 'I am glad you have allowed me to shake hands with you. For you see before you an altered man; I have cast aside my hypocrisy, and am going to be awfully sincere this evening.'

'Then,' she said, glancing up with one of those quiet, half shy, half frightened looks which made her so charming, 'come to our table and throw.'

'Throw! oh, bless me, no! I ruined myself throwing yesterday. I have come here to-day to try and get something back in money or goods. That is what I meant by saying I had come in my true character to-day. Now watch me, see if I throw and see if I throw away a single penny this evening. What a wretched bouquet you have! Where did you get it? Let me look at it.'

'Father got it for me from the nursery.'

'I am so sorry I did not think of it in time, and you should have had one from Covent Garden.'

She looked up, looked down, blushed, and seemed confused.

'Surely,' he said, 'it would have been only common politeness for me to get a bouquet for you, when you are so good as to take charge of the clock my mother gave. Of course it would have been too late to telegraph for one yesterday; and all I can now do is to prevent you carrying this one. Why, I could have got old Connolly the gardener to make you a better one than this. But I wont steal your bouquet. Will you give it to me for a charitable purpose, for the purpose of this bazaar?'

'But you say it is of no value. How can it be of any possible use to the bazaar?'

'Let me try what I can do with it.'

'Very well. I know you will get nothing for it. There's ten o'clock. I must run back to my table.'

For several minutes all was confusion at the tables, where they were closing the raffles and declaring the winners and the ties. The latter were to be decided next day.

TO BE CONTINUED.

Samson lost his strength with his hair. Thousands of men and women lose their beauty with theirs, and very large numbers restore the ravages of time by using the famous Cingalese Hair Restorer. Sold at 50 cents per bottle by all Druggists.

The most wonderful curative remedies of the present day, are those that come from Germany, or at least originate there. The most recent preparation placed upon the market in this country, is the GREAT GERMAN INVIGORATOR, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangements of the nervous system. For sale by druggists, or sent free by mail on receipt of the price, $1.00 per box, or six boxes for $5.00. Address James Clark & Co., Sole agent for Belleville. Send for circular.

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrah, Bronchitis, Asthma and Lung Disease by Dr. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the seat of disease. Read and judge for yourself:—

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. JOHN P. WHELAN, Manager of POST and TRUE WITNESS, Montreal. MR. C. HILL, Montreal, catarrh and bronchitis. MR. DEBOUCHERVILLE, of the Indian Department, Ottawa, catarrh of many years; now cured. MR. GEO. AGER Ottawa, catarrh and lung disease; cured. MRS. SMITH, London, wife of Medical Detective, cured of catarrh. GEO. MAGUIRE, Toronto, 482 Adelaide street West; daughter cured of asthma. GEORGE WILLIS, Exeter, Ont., catarrh and bronchitis. J. D. ARMSTRONG, 186 Yonge street, Toronto, catarrh and catarrhal deafness. THOMAS TELFER, 12 Melinda street, Toronto, asthma; cured. MR. BENJ. A. DRAKE, St. Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. BENOIT, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma and bronchitis for over eight years, and who is now perfectly cured.

Mrs. ADAMSON, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitating in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis. JOHN C. FLEMING, Editor of POST and TRUE WITNESS, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write, inclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souville and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

$1,000 Forfeit!

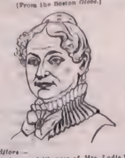
A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]



Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of *either* sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Philadelphia, Pa. (3) Mrs A. M. D.

KIDNEY-WORT

IS A SURE CURE
for all diseases of the Kidneys and
LIVER

It has specific action on this most important organ, enabling it to throw off torpidity and inaction, stimulating the healthy secretion of the Bile, and by keeping the bowels in free condition, effecting its regular discharge.

Malaria. If you are suffering from malaria, have the chills, are bilious, dyspeptic, or constipated, Kidney-Wort will surely relieve and quickly cure.

In the Spring to cleanse the System, every one should take a thorough course of it.

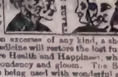
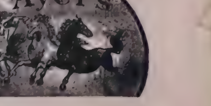
TO NERVOUS SUFFERERS—THE GREAT EUROPEAN REMEDY—DR. J. B. SIMPSON'S SPECIFIC MEDICINE.

DR. J. B. SIMPSON'S SPECIFIC MEDICINE is a positive cure for Spermatorrhea, Impotency, Weakness, and all diseases resulting from Self-Abuse, as Nervous Debility, Irritability, Mental Anxiety, Languor, Lassitude, Depression of Spirits and Functional Derangements of the Nervous system generally, Pains in back Loss of memory, Premature Old Age and diseases that lead to Consumption, Insanity, and an early grave, or both. No matter how shattered the system may be from excesses of any kind, a short course of this Medicine will restore the lost functions and procure Health and Happiness, where before was despondency and gloom. The Specific Medicine is being used with wonderful success. Pamphlets sent free to all. Write for them and get full particulars.



Price, Specific, $1.00 per package, or six packages for $5.00. Will be sent by mail on receipt of money. Address all orders,

NORTHRUP & LYMAN,
Toronto, Wholesale Agents.
Sold in Belleville by Jas. Clarke & Co., ld&w



Cathartic Pills

Combine the choicest cathartic principles in medicine, in proportions accurately adjusted to secure activity, certainty, and uniformity of effect. They are the result of years of careful study and practical experiment, and are the most effectual remedy yet discovered for diseases caused by derangement of the stomach, liver, and bowels, which require prompt and effectual treatment. AYER'S PILLS are specially applicable to this class of diseases. They act directly on the digestive and assimilative processes, and restore regular healthy action. Their extensive use by physicians in their practice, and by all civilized nations, is one of the many proofs of their value as a safe, sure, and perfectly reliable purgative medicine. Being compounded of the concentrated virtues of purely vegetable substances, they are positively free from calomel or any injurious properties, and can be administered to children with perfect safety.

AYER'S PILLS are an effectual cure for **Constipation or Costiveness, Indigestion, Dyspepsia, Loss of Appetite, Foul Stomach and Breath, Dizziness, Headache, Loss of Memory, Numbness, Biliousness, Jaundice, Rheumatism, Eruptions and Skin Diseases, Dropsy, Tumors, Worms, Neuralgia, Colic, Gripes, Diarrhœa, Dysentery, Gout, Piles, Disorders of the Liver**, and all other diseases resulting from a disordered state of the digestive apparatus.

As a Dinner Pill they have no equal.

While gentle in their action, these PILLS are the most thorough and searching cathartic that can be employed, and never give pain unless the bowels are inflamed, and then their influence is healing. They stimulate the appetite and digestive organs; they operate to purify and enrich the blood, and impart renewed health and vigor to the whole system.

THE ROYAL INSURANCE CO.
Of England.

CAPITAL	$10,000,000.
Funds Invested	$23,000,000
Annual Income	5,000,000.

Over $600,000 invested in Canada for the protection of Canadian Policy holders.

Farm Property Insured against damage by Lightning. Losses to live stock by lightning and fire anywhere on the Farm made good.

FACTS WORTH REMEMBERING.

The Royal has the largest surplus funds of any Fire Insurance Company in the world.

The Royal has the largest deposit with the Dominion Government of any other Insurance Company.

The conditions of the Royal's Policies are more liberal than those of other Companies doing business in Canada.

In conclusion remember that security should be the first consideration, and that it is to your interest to insure with the Company that gives the *greatest* security. You may better carry your own risk than entrust it where you have not absolute security.

This Engraving represents the Lungs in a healthy state.

THE WAY IT WILL AFFECT YOU.

It excites expectoration and causes the lungs to throw off the phlegm or mucous, *changes the secretions and purifies the blood;* heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. SUCH IS THE IMMEDIATE AND SATISFACTORY EFFECT that *it is warranted to break up the most distressing cough in a few hours time,* if not of too long standing. *It is warranted* TO GIVE ENTIRE SATISFACTION, EVEN IN THE MOST CONFIRMED CASES OF CONSUMPTION. *It is warranted* not to produce costiveness (which is the case with most remedies), or affect the head, as it contains no opium in any form. *It is warranted to be perfectly harmless* to the most delicate child, although it is an active and powerful remedy for restoring the system. *There is no real necessity for so many deaths by Consumption,* when ALLEN'S LUNG BALSAM will prevent it if only taken in time. Physicians having consumptive patients, and who, having failed to cure them with their own medicine, we would recommend to give ALLEN'S LUNG BALSAM a trial. *Sold by all Druggists.*

Daily Intelligencer.

From the Calf to the Cow.

An article in the New York *Times* on this subject has so many excellent points that we give lengthy quotations from it. The subject is one of large importance and deserves the most careful study.

The raising of the calf should begin as soon as it is in embryo, and this is done through the dam. The dam should be well fed, kept docile, and petted so that her disposition may be quiet and gentle, and friendly. Her milking capacity should be encouraged in every possible way and extended to within a few weeks only, and not more than six at the most, of the birth of the calf. It is a maxim among breeders that the dam confers upon the offspring the constitutional peculiarities and the mental, or rather the instinctive characteristics, while the sire gives the form and outer qualities. So that the future condition and character of the progeny in regard to temper and general disposition, and also in respect of the inherent functions among which digestive and assimilative capacity and capability of milk and butter production must be included, are also inherited from the dam. The training of a pregnant cow is therefore of importance as effecting the value of all desirable qualities of the progeny. And all these points should be well considered in the general treatment of the dam.

Persistent milking is one of the best qualities of a cow; rich and copious milking is another, and these may be encouraged in a cow by liberal feeding up to within six weeks of the time of calving, up to which time, too, the milk should be drawn, or even coaxed, from the cow, if only a pint can be had. During this interval the feeding should be such as will keep the cow in good condition, but not make milk. In the summer, pasture alone, and in winter clover or mixed hay only, should be provided. No grain food at all should be given during this time. If the dam is a heifer she should be handled and taught all the discipline needed for quiet and easy milking. She should be made to stand in the right position; to put her near hind leg back when told; to stand quietly, and submit to have the udder rubbed and the teats pulled.

This, in fact, should be done when the heifer is but a few months old, and continued at intervals up to the time when the calf is expected. Frequent manipulation of the udder encourages its development, and it is not at all infrequent for a calf to be brought to give milk before it is a year old, and even before it has been bred by constant sucking of another calf. This training is therefore valuable physically, as well as effective in forming the disposition of the cow. A young animal thus educated comes to the pail without any trouble; she knows her business, and there is no fright or nervousness when her accustomed attendant removes her calf and begins to milk her.

A calf should be removed from the dam before it has sucked, or at least after the fourth day, when the milk comes to its ordinary quality. It is a doubtful point whether it is well to permit the calf to suck at all or not, but this relates more to the cow than to the calf, and may be left out of present consideration. The whole milk should be given to the calf up to the time when it is fit for use in the dairy and set for cream; a calf does not require cream; milk alone contains every necessary element for the growth and healthfulness of the calf. It may be that the cream of the new milk exerts a mechanical effect upon the milk when it is curdled in the calf's stomach, forming as it does a vast number of minute oily particles in the curd, which, when they are dissolved out of the mass, leave it more porous in texture and more easily acted upon by the solvent juice of the stomach. But as calves have been raised with perfect success on skimmed milk from the time when they were five days old, this question does not seem to have any important significance. A strong, bony frame, a perfect muscular development, and a large capacity for digestion and assimilation are the chief requisites for a dairy cow, and a liberal supply of warm skimmed milk will undoubtedly produce all these. At first the mother's milk only should be given, or at least that from a fresh cow. The milk from a cow long since calved will be found indigestible at first for a young calf, and if it is given freely it produces diarrhœa. The milk should be warmed to its natural temperament, which is about 90°. It should feel hot to the finger, but not more than a comfortable heat. This is more important in the winter time than in warm weather. In a butter dairy the skimmed milk can be fed to calves more profitably than to pigs, and it will be a wise thing for a dairyman to be on the lookout for any choice and promising heifer calves that can be picked up from neighbors or rescued from the butcher, although they may be but a few days old. It frequently occurs that a week old calf can be purchased from persons who cannot raise it for a trifling sum, and such opportunities should be availed of.

A calf should have as much milk as it will take comfortably. A three months old calf will sometimes take 10 or 12 quarts of milk a day and do well on it. So long as it is doing well and growing, and the milk is to spare, the calf should have it up to the age of six months. The milk helps to expand the stomach, and as long as it is digested it increases the capacity of the digestive organs. But the supply should not be suddenly cut off. When the calf is eating solid food and milk is getting scarce, it may be reduced and the quantity made up by the addition of water, gradually reducing the temperature in summer, but keeping it up in winter. It will pay to have a few bushels of oats coarsely ground or crushed at the mill especially for the use of the calves, and to give each of them a small daily supply; this may be given at noon. It will be convenient to have a part of the stables set off for the calves, in which a few pens may be made for them. Each calf should have a pen to itself and be tied by a strap around the neck in the same manner as cows are; if they can have a yard to run in it will be the better for them, even in the cold weather, as they will be warmer and digest their food better with plenty of exercise than if kept closely confined.

When the supply of milk is stopped the quantity of food is to be increased, and the best bone and muscle forming substances are not only the best but the cheapest. Oats and wheat bran, with hay or grass, will build up the frame and produce abundant muscle, but too much concentrated food will not be desirable. Hay and corn fodder will make a good sized calf, but will not alone produce a good prolific cow. In the writer's dairy there are four young cows which were raised at home and four which were boarded out and pastured for fifteen months, getting nothing but grass in the summer and hay and corn fodder in the winter. The first four were given a few oats every day after they were three months old, and were fed a quart of mixed ground food daily in the second year. These four cows with their first calves are now averaging 40 pounds of butter weekly, and are giving from 12 to 14 quarts of milk daily. The others, full as large and well grown, are not giving more than half as much as the first lot, and one although a very promising calf, is not paying for one-half her feed, although butter is sold at 50 to 60 cents a pound. No apparent reason can be shown for the difference in these cows except the manner of feeding them when calves and heifers. It is reasonable to suppose and believe that this difference should result from the manner of feeding, else good feeding would be thrown away upon an animal, and we know it never is. Corn meal is one of the best foods for making a fat, healthy animal that we possess, and a moderate quantity of it may be usefully and beneficially given to a pregnant heifer. We need to encourage the assimulation of every element of rich milk, and this can not be done except by gradual use and training. We can not merely support the life of an animal for a time, and then afterwards, by suddenly increasing or varying the food, turn her into a sort of mill for manufacturing products. The productive habit must grow with an animal, and must be built up by a judicious previous feeding. So that the feeding as well as the training of the calf and a heifer must be habitual from the first, so as to form the habit we desire. When the frame and constitution have been formed, then fat-producing food may be given, but with careful moderation and gradual increase, step by step, as the bone and muscle making food may have been previously supplied.

The cost of all this, and the trouble of it will be found surprisingly small if these are figured up, and a large profit will be realized. If one should go about among his neighbors and try to buy his best cows he would find how highly these are valued. A dairyman soon discovers when he has two cows in one, and is very sharp to fix the double value on the animal, and add besides the cost saved of feeding the second cow, and if $100 a head were offered for all the choicest cows one would meet with in a day's travel, there would be very little trouble in driving a herd home. A hundred dollars is a small price to pay for a cow that will make 250 pounds of butter in the season of ten months. The extra $50 of her value will be repaid over and over again in her ten years of service by the excess of her product over that of a cow that yields 150 pounds. And if we want to have such cows, and will set about raising them, we can not buy them half as cheaply as we can rear and produce them.

Comparative Weight and Yield of Eggs.

A correspondent of the Country Gentleman gives the standard yield and weight of eggs for the different varieties of domestic fowl as follows: Light brahmas and partridge cochins 7 to the pound; they lay, according to treatment and keeping from 80 to 100 per annum, oftentimes more if kept well. Dark brahmas 8 to the pound, and about 70 per annum. Black, white and buff cochins, 8 to the pound; 100 is a large yield per annum. Plymouth rocks 8 to the pound, lay 100 per annum, Houdans 8 to the pound, lay 150 per annum; non-sitters. La Fleche 7 to the pound, lay 130 per annum: non-sitters. Black spanish 6 to the pound, lay 150 per annum. Dominiques, 9 to the pound, lay 130 per annum. Games, 9 to the pound, lay 130 per annum. Crevecœurs, 7 to the pound, lay 150 per annum. Leghorns, 9 to the pound, lay from 150 to 200 per annum. Hamburgs, 9 to the pound, lay 170 per annum. Polish, 9 to the pound, lay 150 per annum. Bantams, 16 to the pound, lay 60 per annum. Turkeys, eggs 5 to the pound, lay from 30 to 60 per annum. Ducks, eggs vary greatly with different species, but from 5 to 6 to the pound, and from 14 to 28 per annum, according to the age and keeping. Geese, 4 to the pound, lay 20 per annum. Guineas, 11 to the pound, lay 60 per annum.

O'Donovan Rossa's reputation as a humanitarian is too well established to require any references concerning it, yet his indorsement of St Jacobs Oil for the ills of humanity is in keeping with his principle—establish the good, remove the bad. Speaking of the Great German Remedy to a friend he said: "Mr. Rossa has been cured of a very severe attack of neuralgia by St. Jacobs Oil as she will gladly tell you, if you call at my residence, 870 Bushwick Ave., Brooklyn, N. Y.

Rheumatism is greatly dependent on a vitiated condition of the fluids, and may be eliminated from the system by cleansing the Blood and regulating the Kidneys. Burdock Blood Bitters will do this most effectually. Trial bottles 10 cents.

CINGALESE. A name well known in connection with the HAIR RENEWER, which restores grey hair to its natural color by a few weeks use. Sold at 50 cents per bottle by all Druggists.

At the approach of spring great attention should be given to purify the system engorged with foul humors during the winter. Burdock Blood Bitters is Nature's own purifying and regulating tonic.

Rest and Comfort to the Suffering

"Brown's Household Panacea" has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful." "Brown's Household Panacea," being acknowledged as the great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle. 264ly

"Now you may not think it remarkable, but I do, that St. Jacobs Oil cured me of a case of rheumatism of three years' standing in three weeks," says Mr. Frank Lawler, Alderman of the eighth ward, Chicago, Ill.

AFTER many years of patient investigation DR. VAN BUREN, of Germany, finally succeeded in perfecting a Kidney Cure that would permanently relieve all cases of Kidney Disease. Be sure and ask your Druggist for DR. VAN BUREN'S KIDNEY CURE.

The Rev. CHAS. E. PIPER, formerly of Pittsfield, N. H., but now of Wakefield, R. I., writes: "I have used Baxter's Mandrake Bitters in my family for over two years, and as a result have not called a physician in the whole time. My wife had been an invalid for two years, but these *Bitters* have cured her."

Mothers! Mothers!! Mothers!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle. 264ly

DELAYS are dangerous, particularly in Kidney Diseases, so take at once DR. VAN BUREN'S KIDNEY CURE and obtain relief from all your sufferings. Your Druggist keeps it.

BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, blotches, pimples and the various humors and blemishes of the skin are only symptomatic of bad blood—that needs purifying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidneys, skin, etc, and strengthening, while it regulates and purifies.

The market is full of preparations for the hair, some of them good, and many of them good for nothing. R. P. Hall & Co., of Nashua, N. H., manufacture and sell an article of real merit, which has been advertised in the *Express* for the past year, and we have taken no little pains to inquire how it has been liked by the public. One of our druggists informs us that he has sold more than double the amount of Renewer than of all other hair preparations combined, and when a person once uses it, he will use no other: that it is not only bought by the young people as a dressing, but by older persons for removing dandruff, preserving and increasing the growth of the hair and restoring its natural color. Another druggist says that he sells three or four times as much of Hall's, as of all others.—*Hampshire Express, Amherst, Mass.*

CHEAP AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Magnetic Medicine, which contains forty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column.

RACKED BY INNUMERABLE PANGS, restless by day sleepless at night, rising unrefreshed in the morning, without appetite and pestered by varying and perplexing symptoms, the dyspeptic takes indeed a gloomy view of human existence. For him the zest of life seems gone. Heartburn, oppression at the pit of the stomach, and the attendent annoyances of of constipation and billiousness, combine to render him utterly wretched. But there is, if he will but take advantage of it, a reliable source of reliable relief from all misery. NORTHROP & LYMAN'S VEGETABLE DISCOVERY and DYSPEPTIC CURE is, as its name imports, a botanic preparation, free from mineral poison, and an all-sufficient remedy for indigestion in its most obstinate form. It not only enriches the blood by enabling the digestive organs to convert the food received into nutriment, but depurates it by increasing the action of the bowels and kidneys, the natural outlets for its impurities. But while it relaxes the bowels, it never does so violently and with pain, like a drastic cathartic. It aids, but never forces, Nature, invigorating as well as purifying and regulating the system. It thoroughly removes those diseased humors which tend to vitiate the blood, purifies the urinary secretion, and promotes a flow of healthy bile into the natural channel, besides expelling it from the circulation. Experience has proved that this standard medicine is a thorough remedy for dyspepsia, billiousness, costiveness, kidney complaints, scrofula, erysipelas, salt rheum, lumbago and all impurities of the blood. Price $1.00. Sample Bottle 10 cents. Ask for NORTHROP & LYMAN'S Vegetable Discovery and Dyspeptic Cure. The wrapper bears a *fac-simile* of their signature. Sold by all medicine dealers.

WILL [illegible]
EXCH[illegible]
a case of
Dyspepsia or
Billousness
for 75 cents?
It is awfully
unwise to
agonize under the many
ailments
arising from
Dyspepsia,
Indigestion,
Disordered
Stomach and
Liver, when
this offer is
made to you
in your own
home in all
sincerity,
with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Billiousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys.

Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Billiousness.

BUTLER'S
Celebrated
BLACKBERRY CORDIAL.

The most effectual remedy yet discovered for Cholera, Cholera Morbus, Diarrhœa, Dysentery, Cramps, Colic, looseness of the Bowels &c.

This justly celebrated preparation is highly recommended by the medical men, and has been used with the greatest success for the last ten years throughout the United States.

BELLEVILLE, THURSDAY, SEPT. 7.

An Independent Opinion.

Herapath's Journal, one of the most influential English newspapers devoted to railways, and, therefore presumably a competent as well as unbiassed authority, expresses the following opinion of the Pacific Railway policy of the Government and the course of the Opposition in relation thereto:—

> "We can but think, without wishing to commit ourselves very warmly to any particular clique or party in Canadian politics, * * * that the Opposition, headed by Mr. Blake, has indulged in a great deal of bunkum in connection with the late Canadian election campaign. After all, perhaps, there is not much cause for surprise in this. In the heat and turmoil of political warfare the Opposition naturally charges the Ministry to which it is opposed with well nigh every imaginable crime. We all remember Dean Swift's famous lines, in which he makes the Opposition exclaim:
>
> "Who bade provisions and the Luddites rise?
> Who filled the butchers' shops with large blue flies?"
>
> The fact is, an Opposition not unfrequently overdoes matters in abusing its opponents, and the result is that a reaction in public opinion sets in in their favor.
>
> One great subject of complaint with the Canadian Opposition has been the rapidity with which the public debt of Canada has been increased. Now we are not prepared to take up the cudgels for Sir John Macdonald's Administration in every particular, or to claim for it the merit of infallibility. But it is perfectly clear that Canada cannot afford to pursue an indolent and stationary policy; she must endeavor to develope her great natural resources, and to attract population and capital to her shores, and this object can only be attained by a vigorous prosecution of useful reproductive public works. Some of the railway ventures of the Canadian Government have, we fear, been attended with disappointing results. The Intercolonial line, for instance, must have been a heavy burden to the Dominion Exchequer, as its working has been attended to the present with the most meagre results. Still, even the Intercolonial Railway has been of indirect utility to Canada, as it has assisted the development of Canadian resources. Moreover, it has been of considerable service in linking the Canadian provinces more effectively together. The Canadian Pacific Railway, again, is a formidable venture, and has, no doubt, entailed already some pecuniary sacrifices upon the Canadian Government. But we think that the policy pursued by Sir John Macdonald's Administration with respect to the Canadian Pacific is deserving of the highest commendation. The Canadian Government, by transferring the task of constructing the line to a great company, and by encouraging and assisting it to a considerable land grant, has succeeded in relieving itself of heavy future pecuniary liabilities, while, at the same time, it has secured to Canada all the advantages which are likely to be attained by the opening out of the new line. But even with regard to the Canadian Pacific Railway the Opposition which has just fruitlessly endeavored to oust Sir John A. Macdonald from office refuses to be satisfied, and it has assailed the Government for giving away so lavishly such a vast area of public land in aid of the new undertaking. This same Opposition is much dissatisfied with the rough course which events have taken in London in connection with the Grand Trunk and the Great Western of Canada Railways. The Opposition has, indeed, in this particular raised an outcry in opposition to what it terms a huge monopoly. When we remember that the return realised on the stocks of the Grand Trunk and Great Western of Canada has hitherto scarcely averaged two per cent. per annum, we certainly ought to feel indignant at the selfish stupidity which the Canadian Opposition has displayed in attempting to depict the Grand Trunk and the Great Western of Canada directors as railway monopolists. However, we may leave such shallow and baseless outcries comparatively unheeded. Upon the whole, we are disposed to regard with satisfaction the result of the Canadian elections, as they appear to us to confirm the power of a Canadian statesman, who, while he has, no doubt, committed some faults and made some mistakes, still appears to us to be a firm and a capable administrator of the affairs of the Dominion.

Don't die in the House.

"Rough on Rats." Clears out rats, mice, roaches bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

The 49th Battalion.

Concerning the difficulty as to the clothing of the 49th Battalion, we learn from an authoritative source that, if the Battalion had remained in its original state, the clothing in its possession would have sufficed for this year's drill; but, owing to the change of headquarters, the commanding officer asked for new trousers for the two new companies in Madoc and Trenton. The department could not comply with this request, in time for camp on the 5th, in consequence of the supply of Rifle trousers in store having become exhausted. So soon, however, as a new supply of trousers becomes available, which will probably be within a few days, the necessary nether garments will be supplied, as desired.

Catarrh of the Bladder.

STINGING irritation, inflammation, all Kidney and Urinary Complaints, cured by "Buchupaiba." $1.

Editorial Brevities.

The question, "Shall practically irresponsible bodies such as Police Commissioners put the ratepayers to such expense as they choose?" is of pressing moment to the people of this city, at least. We hope to hear of the matter being discussed at the Conservative Convention and a declaration made that the Conservative party will abolish the irresponsibles if they succeed in the general election.

The Ottawa *Citizen* after referring to the duty on shortage says: This point having been settled, why, we ask, is a captain of a vessel asked to pay to the importer the full amount of shortage in his cargo? If there be shortage in any one cargo and the captain is asked to pay it, it must be upon the presumption that the grain was in the vessel when she left port. If so, then the captain should satisfactorily account for it and pay the value of such shortage; but if the grain was never in the vessel and evidence of the fact is required to relieve the parties interested from the payment of duty, why should not that evidence also be sufficient to protect the captain from being mulcted the value of shortage by the importer? For our part, we confess we cannot understand why the principle of equity should not apply to all the parties concerned—the captain of the vessel, the importer and the Government. The importer declares it a fraud on the part of the Government to exact duty upon grain which he says had never any existence. Then why should he insist upon being paid for that which he declares never entered the hold of his vessel? If the grain was put into the vessel before leaving the foreign port, then it should be accounted for to the Customs authorities when it arrives at a Canadian port, or duty collected. If it were not in the vessel, the duty should not be paid, nor should the importer be permitted to collect from the captain money to cover the shortage. If it be a fraud on the part of the Government to collect the duty, what is the correct word to describe the action of the importer exacting payment on the shortage?

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1 Druggists.

News Condensed.

—Rev. Dr. Rice was elected President of the Methodist General Conference.

—Three professional thieves escaped from the Montreal gaol on Tuesday night.

—The run by rail between Boston and Montreal, 333 miles, is made in ten hours.

—Sir John Macdonald and Sir Leonard Tilley will return to the capital on the 16th.

—The best bar-keeper, it is said, never takes liquor. He knows of what the stuff is composed.

—Mosquitoes have appeared in London, and several persons are reported to have been stung by them.

—A petition has been filed against the return of W. E. O'Brien, Conservative member elected for Muskoka.

—The citizens of San Francisco have tendered a public reception to the Governor-General and Princess Louise.

—Blondin, who once walked a tight rope across Niagara, is now delighting Berlin, though fifty-eight years old.

—The majority of Mr. Barnard, the Conservative candidate in Yale, B.C., for the House of Commons, is 167. His opponents forfeit their deposits.

—Dichard, editor of the *Petit Caporal*, and DeWassas, editor of the *Combat*, fought a duel at Paris on the 4th with swords. DeWassas was killed.

—Twenty young Oka Indians who have just come of age are about to enter suits against the Seminary of St. Sulpice for allotments of land in the reserve.

—Rich'd Martin, of Adams Township, near Hillsdale, Mich., died on Thursday night, of genuine Asiatic cholera. There are no other cases in the vicinity.

—The Earl and Countess of Cavan sailed from Liverpool on the 30th ult., on their way to spend the winter in Ottawa with their son the Hon. O. H. Lambert.

—Twenty-one carloads of mules, five hundred animals in all, are on the way to New York, whence they will be shipped to Egypt for use by the British army.

—In the case of Mrs. Sibby, who was fearfully beaten by her husband at Toronto and died from the effects of her injuries, the coroner's jury have returned a verdict of wilful murder.

—The Prince and Princess of Wales travel on the Continent as Baron and Baroness Renfrew. As it is late in the season for Carlsbad, it has been decided that he shall try the Homburg waters instead.

—The first day's experience in the free postage delivery at Kingston is satisfactory. Some 416 letters and 421 newspapers were distributed. Only four letters and three newspapers were returned to the post office.

—Contracts have been made for the construction of an Edison electric railway from St. Julien, in Savoy, to Geneva, a distance of 16 miles. This will be the first practical electric railway in Europe.

*The term *hydra* may be used to represent any manifold evil. If you would battle successfully with this many-headed monster of disease you will find it expedient to keep Mrs. Pinkham's Vegetable Compound always at hand.—*Dr. Banning.*

—During the month ending August 31, the total number of immigrants arrived in Ottawa was 237. This number shows a slight decrease compared with that of the arrivals for the preceding month. The arrivals for the season number 1,992, or about 600 in excess of the total immigration for the season of 1881.

The shipping trade of Montreal during August last was the best and largest for several years past. The revenue exceeded that of the corresponding month last year by over three thousand dollars. The prospects now are very favorable for the harbor dues, this year's exceeding those of 1881, notwithstanding the vast decrease in the arrivals of vessels in the spring.

. "Do boldly what you do at all." Boldly do we affirm that Kidney-Wort is *the* great remedy for liver, bowels and Kidney diseases, rheumatism and piles vanish before it. The tonic effect of Kidney-Wort is produced by its cleansing and purifying action on the blood. Where there is a gravelly deposit in the urine, or milky, ropy urine from disordered kidneys, it always cures.

—The Sultan's proclamation to the Egyptians is issued. It declares Arabi a rebel for disobeying the orders of the Khedive and Dervisch Pasha, thereby provoking the intervention of England. It states that the decoration conferred upon Arabi was bestowed at the instance of Dervisch Pasha, in consequence of Arabi's protestations of fidelity. The proclamation exhorts all Egyptians to obey the Khedive.

—On Saturday night a fine team of young horses belonging to Charles Hysson, of Pittsburg, entered a neighbor's field. In the morning the animals were found bleeding profusely from a number of shot wounds in their bodies. One had 70 shots in it and was marked from ear to tail; the other had its hams literally riddled with shots, and would have bled to death had not its wounds been attended to in time. The person who did the deed was seen during the night by two men with a gun in his hand. The matter will go into court.

If Nearly Dead

after taking some highly puffed up stuff, with loud testimonials, turn to Hop Bitters and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes, or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides, it is the best family medicine on earth.

COUGHS AND COLDS.—If taken in time are easily cured,—if allowed to continue will result in incurable consumption. Allen's Lung Balsam has the confidence and support of the medical faculty, and is recommended by all who are acquainted with its virtues.

Dropsy is essentially a watery condition of the Blood, dependent upon disordered Kidneys. Burdock Blood Bitters are strongly Diuretic and consequently the best known remedy, acting as it does upon the entire Secretory System.

INCENDIARY FIRES.

Lake & Jenkins' Barns and Stables, 600 Cords of Wood, and Dr Curlett's Stable Burned.

TOTAL LOSS, ABOUT $10,000.

Two more fires have to be added to the long list of fires which have taken place within the past two or three years, as the work of the accursed incendiary. The city was aroused, shortly after 3 o'clock this morning, by the fire alarm. This fire proved to be in a small wooden shed in rear of the residence of Dr. Curlett, Hotel St., near the corner of Hotel and Pinnacle Sts. It was undoubtedly the work of an incendiary, having been set on fire from the inside. Dr. Curlett, with the assistance of Officer Cook, who arrived on the spot before the alarm was given, succeeded in saving his horse and buggy, but the shed and a ton of hay were entirely consumed. Dr. Curlett, in his attempt to get his buggy out, got confused in the smoke and had quite a narrow escape. Both engines arrived on the spot, but they had no sooner got to work than word came of another and more extensive fire in the lower part of the city. No. 1 engine was ordered to repair at once to the scene of the new fire. It was in the oldest of the stables and sheds recently occupied by Messrs. Lake & Jenkins—the same building in which an unsuccessful attempt was made by an incendiary last winter. Mr. Maxon, whose wood yard was closely adjoining Lake & Jenkins' stables, was one of the first to see the fire, and when he saw it, it was so insignificant that it might have been extinguished with a couple of pails of water. It was then in the north wall of the building, about six feet from the east end, and a few inches from the floor. He had been aroused by the cry that the wood-yard was on fire, but on rising he could find no trace of fire until he went over to the old shed, when, on looking through the window, he saw the fire, which was yet so small that he might have covered it with his cap. He hastened back to his house for a pail of water, but when he got back to the barn again the fire had shot up the wall with almost incredible celerity, and had nearly reached the roof. Several of Lake & Jenkins' employees had in the meantime arrived, and strenuous effort were made to rescue three horses which were stalled near the spot where the fire was raging, and which were mad with terror; but these poor animals had to be abandoned to their fate, the rapid progress of the flames having cut off all means of access to them, and they soon perished. No. 1 engine had by this time got to work, having been stationed near the lower bridge, and she was joined in a few minutes by No. 2 after the latter engine had extinguished the first fire; but the united work of both engines and the energetic and praiseworthy efforts of the firemen were for a time unavailing against the rapid spread of the flames. They communicated to the new wooden driving sheds and stables, which were only just completed by Messrs. Lake & Jenkins a few weeks ago, and the fire was soon bursting from them in great sheets of flame. So rapidly did the flames seize all the inflammable walls and floors that a great part of the contents of the buildings could not be removed, and were, of course, consumed; but the horses, with the exception of the first three which have been mentioned, were got out in safety. From the sheds the fire communicated to the old Lister homestead, on the corner of Pinnacle and Bridge Sts. (lately occupied partly as an office for Lake & Jenkins and a residence by Mr. Lake,) and the rear of the old structure joined in the general blaze; but a number of the firemen concentrated their efforts on the building for a considerable time, and stopped the flames about midway in their destroying march. The ancient building still stands, though badly crippled. But a grand banquet awaited the "fire-fiend" immediately to the south, in Maxon's wood yard, where six or seven hundred cords of hard and soft wood (mostly hard) were piled. It was not long before this great mass of inflammable material was blazing, and it continued to burn—notwithstanding that floods of water were poured on it—until all had been consumed except two or three hundred cords of hard wood, and part of that was charred. By this time the brigade had got the fire under control. The limits of the flames had been reached, and after this the efforts of the firemen were devoted to extinguishing the fire in the area which had already been devastated. This was not finally accomplished until after 9 o'clock. The brigade, officers and men, are deserving of high praise for the really noble way in which they toiled; they undoubtedly prevented the fire from extending southward to Mr. Maxon's office and Northcott & Alford's planing mill, and also saved the new Government Building, just across the street, from receiving a severe scorching. Fortunately there was very little breeze stirring, and what there was came from a favorable quarter (north east and north), or their utmost exertions might have proved unavailing to save the adjoining property.

THE LOSS.

The fire will prove a heavy blow to Messrs. Lake & Jenkins and Mr. Maxon. The former firm lost, besides the three horses already mentioned, about fifteen or twenty carriages and sleighs of all descriptions—some of them quite valuable—more than eighty robes, all their blankets, a large quantity of harness and miscellaneous material, and a great deal of hay and grain. Their new stables and driving sheds were built this summer at a cost of $2,500, and are a total loss, there being no insurance on them. The firm are insured in the Royal for $2,000 on the contents of the buildings; but their loss on the contents will nearly double this amount. Mr. Lake estimates their total loss, over and above insurance, at $4,000. Mr. Maxon's total loss will be between $2,000 and $2,500. His insurance had run out on Tuesday, and had not been renewed. Dr. Curlett's loss will not reach more than $50. The shed in which the fire originated, and the old house on the corner, were owned by Dr. Willson, who was insured in the Royal for $1,000. His loss will be covered by the insurance.

ANOTHER INCENDIARY ATTEMPT

was made this morning (happily unsuccessful) which goes to show that both the other fires were caused by the same parties or others in collusion with them. This attempt was made in Johnson's wood yard. Mrs. Lynch, the wife of a carter in Mr. Johnson's employ, who lives at one end of the wood yard, saw two men enter the yard and deliberately attempt to set fire to a wood-pile, with matches. They wore long overcoats or ulsters and slouched hats. Mrs. Lynch raised an outcry, and the two men made off and disappeared from view. About 2:30 they were seen to return. They stealthily approached a pile of soft wood, produced matches, and proceeded to set fire to the wood. They did not succeed, however, for they were alarmed by Mr. Lynch and again decamped. Mr. Lynch pursued them but was unable to overtake them. Neither Mr. or Mrs. Lynch recognized the men. This morning a number of matches were found on the spot where they attempted to fire the wood-pile. Professional incendiaries are evidently in our midst, and our citizens cannot keep too strict a watch for these enemies of their kind.

THE LATE MRS. BURNS.—In an obituary notice of Mrs. Burns, the widow of the late Rev. Robert Burns, D.D., the *Canada Presbyterian* gives the following particulars of her useful life: Her maiden name was Elizabeth Bonar. She was descended from a long line of pious ancestors, and belonged to a family well represented in this generation by several honored ministers of the Free Church of Scotland. In 1845 she was married to Dr. Burns shortly before he came out to Canada, and in her new sphere had full scope for the exercise of her eminent gifts and graces. She was especially successful in Bible class work, many of those whom she instructed testifying to the good received from her teaching. During the whole of her residence in Toronto she took a warm interest in all the benevolent and charitable institutions of the city. Personally acquainted and connected with several missionaries she gave much attention to mission work. At the great gathering in Philadelphia in 1880 of ladies interested in the Foreign Missions of the Presbyterian Church, Mrs. Burns prepared at short notice a paper which elicited the warmest applause from all who heard it. She was the President of the Murray Mitchell Auxiliary of the Women's Foreign Missionary Society, and presided at a meeting only two days before she was seized with her last illness. She died in Toronto on the 22nd of August, at the age of seventy one, after a brief but severe illness. As the end approached she gently whispered, "Home, home yonder," and passed away in perfect peace. Her stepson, Dr. Burns, of Halifax, hastened to be with her, but arrived too late to see her in life.

O. Bortle, of Manchester, Ontario Co., N.Y. writes:—"I obtained immediate relief from the use of *Dr. Thomas' Eclectric Oil*. I have had Asthma for eleven years. Have been obliged to sit up all night for ten or twelve nights in succession. I can now sleep soundly all night on a feather bed, which I had not been able to do previous to using the Oil."

Professor Bowlin's Great Golden Seal Discovery.

The greatest and latest discovery of the nineteenth century. A sure and permanent cure for Fits, Hysterics, Dizziness, and all nervous complaints. When ordering a bottle send full description of disease, age and condition of patient, advice free, price $1,00 per bottle. RICHERS, BARBEAU, & Co., 101 St. Francios Xavier St., Montreal, sole agents for Canada.

C. BRITTON, Lindsay, Ont., writes:—I have much pleasure in recommending Baxter's Mandrake Bitters in all cases of Jaundice, Billiousness, Sick Headache and Liver Complaint, for they have given universal satisfaction, and I have sold more of them the past season than any other one patent medicine.

GLASGOW WAREHOUSE.

Daily Intelligencer.

BELLEVILLE, THURSDAY, SEPT. 7.

City and Vicinity.

THE Varuna makes her last trip to the 1000 Islands on Saturday next, the 9th inst.

DR. G. S. RYERSON, oculist and aurist, is to visit Belleville professionally on October 14th.

REMEMBER the open air Service this Evening at 7o'clock D.V. corner of Church and Dundas St.

THE case of Fred. Gauthier, charged with selling liquor during prohibited hours, has been dismissed.

THERE was not a quorum of the City Council present last night, and therefore no meeting was held. Another special meeting will be called for to-morrow evening.

THE only case before the Police Magistrate this morning was that of the illustrious David Mountainy, who was charged with beating his wife. His case was laid over until Monday.

THE only arrivals of vessels worthy o note are the steambarge *Norman* and the schr. *McLellan*—the former to load bass wood at the G. J. R. dock and the latter to load lumber at Sutherland's.

AN arbitration is in progress in the city to-day between the Central Ontario Railway and Mr. John Moore, of Madoc, over some land in the Township of Madoc. The arbitrators are—Thos. Emo, John Caskey and G. W. Ostrom.

TO ARRIVE to-night at the old City Fish market, on the Market square, fresh White-fish, Salmon Trout, Mackerel, Haddock, and Bass; and customers can depend on their being fresh, and cheap as the cheapest. All fish delivered.—L. TAYLOR, JR. 1t

MR. S. MASSON, formerly a law student in Belleville, who has been practising law in Winnipeg for several months past, was in the city to day, looking as if the air of the Northwest agreed with him. He says there are too many lawyers in Winnipeg.

MR. WM. ALFORD has been paid the loss recently sustained by him from the partial destruction of his residence by fire. He speaks in the highest terms of the fair adjustment of his claims by the Queen Fire Insurance Company, through Mr. D. B. Robertson, their agent here.

A. A. MACDONALD's winning record in putting the heavy stone at Boston on the 31st ult.—by which he defeated D. C. Ross and Donald Dinnie—was 38 ft. 1½ in. This is behind Macdonald's own record at Toronto last year, which was 40 ft. 7 in. But the latter record is the best that has ever been made.

THE necessity of fire stands along the river was never more felt that it was at the fire last night. The two engines, in order to get water for the first fire, had to go right down over the bank into the river, in rear of Lockerty's, and when they left to go further down the river to supply water for the second fire, some time was lost in getting up the steep bank again.

THE Troublers were almost overpowered by the reception which they met with yesterday at the hands of the Silver Leaf Club of Napanee. The latter club was considerate enough to refrain from troubling their visitors with attentions on their arrival, and the Troublers did not meet with their opponents until they arrived on the ground. After the match was over the Silver Leafs took pity on their defeate visitors and went around with a hat among the crowd (including a number of Belleville men) to procure funds wherewith to give them their supper. A cold collation was spread for the Troublers' refreshment at the Brisco House, and every one of the nine was allowed to partake of it free of expense. With a delicacy of feeling which is highly commendable, none of the Silver Leafs joined the visiting team in their delicious feast. No doubt they wished to spare their defeated guests the humiliation which they would feel at the presence of the victors. The Troublers were allowed to proceed to their boat unharassed by the officious attention of their entertainers. What the Silver Leaf Club does not know about hospitality is not worth knowing.

AT the meeting of the Diocesan Mission Board at Kingston on the 6th, a memorial was read from Rev. A. F. Echlin, suggesting a rearrangement of the mission of Shannonville, the mission of "Frisell's Mills" being added to the mission in place of Northport. On motion of Rural Dean Baker it was resolved that the station of Kingsford be added to the mission of Shannonville, and that of Hinch to the mission of Selby, and that permission be given to the Rev. Mr. Echlin to give up the station of Northport, in the county of Prince Edward.

HERRMANN the great magician will give a performance in the Metropolitan Hall on Wednesday evening next, the 13th inst. In speaking of his performance, the Montreal *Star* says:—"Herrmann has already visited Montreal in former years and has acquired for himself a lasting reputation as a *prestidigitateur* and exponent of the dark mysteries of legerdemain which might fairly be envied by any prince of the mysterious profession. Last night's performance was really good and is well worth going to see. As to what it consists of, it would be losing space to attempt to describe it, as he seems to have the tact of doing anything he pleases and that with the greatest success. He has also with him Prince Awata Katsnoshin, the famed Japanese juggler, who is a really marvelous performer, as well as Mr. E. D. Davies, who is most successful as a ventriloquist, and who stands unrivalled in certain imitations of speech."

THE many friends of Mr. George E. Allen in the city will regret to learn of his intended removal from our midst, he having accepted a position as 2nd class clerk in the Winnipeg post-office at a very good salary. The position was obtained for and tendered to Mr. Allen by the Hon. Mr. Bowell, Mr. Bowell being desirous of retaining the services of so trustworthy, efficient and obliging an officer, in the public service, and at the same time expressing his opinion of Mr. Allen. During the years that Mr. Allen has acted as Assistant Postmaster of this city he has discharged the arduous duties of the position in such a manner as to secure the entire confidence of his superior officers, and the hearty good will and esteem of the public, and while we express the opinion shared in by all who have had to do with him either officially or socially, that we very much regret his leaving us, yet all will be pleased to know that the position he has obtained, is a much more lucrative one than any he could have hoped to secure here.

WEATHER PROBABILITIES—Toronto, Sep. 7.—Lakes, light to moderate winds, fine warm weather.

BEFORE purchasing Ready made Clothing be sure and look through HENNESSY's stock. He has over 300 suits in all, and is offering them at actual cost.

THE WAR IN EGYPT.

THE ENEMY'S OUTPOSTS DRIVEN IN

Lack of Information Retarding the Advance.

An Advance on Monday Probable.

KASSASSIN, Sep. 6.—The British outposts were strongly reinforced to-day, and drove the enemy back. Lieutenant Holland, of the 15th Hussars, was wounded.

PORT SAID, Sep. 6.

General Wolseley has requested the presence of a naval brigade with his army in order that the navy may share the honor of the advance. A brigade, consisting of one hundred blue-jackets, ten officers, and a battery of four Gatling guns, leave Port Said to-morrow for Ismailia.

LONDON, Sept. 6.—The absence of reliable information as to the strength and whereabouts of Arabi's forces is the principal obstacle to General Wolseley's advance. All efforts to obtain such information have failed. Not the slightest reliance can be placed upon the statements of the natives, and British spies are instantly detected. Arabi, however, manages to keep himself well advised of the movements of the British troops, and every movement is promptly met. The few deserters to the British lines have been driven from Arabi's camp as physically unfit for military service. Private advices state that in Egypt there is not the slightest credit to be placed on statements either of any alleged deserters from Arabi's ranks or of any alleged betrayal of Arabi's plans.

Gen. Wolseley telegraphs that the enemy reconnoitred the English position at Kassassin lock to-day, with cavalry. They had no guns, and only musketry fire was exchanged.

NEW YORK, Sep. 6.—A United Press cable from Ismailia says:—The progress of the troops and forces from Ismailia to the front is rapidly progressing. It is probable Gen Wolseley will attack the enemy's position on Monday. It is reported that Arabi is making negotiations for peace directly with Turkey. The rumor is not credited here.

LATEST FROM THE SEAT OF WAR;

Murderer Hanged in Alexandria.

A DETERMINED FIGHT.

The Strength of Arabi's Forces.

Rumored Secret Treaty.

ALEXANDRIA, Sept. 7.—The murderer of the Englishmen Dobson and Richardson was hung this morning by the native police. He was conducted from prison through the town, escorted by a detachment of English troops, who formed a square round the gallows. The condemned man walked in a defiant manner. Several hundred Europeans witnessed the execution, but few natives were present. When the troops withdrew the Arabs came out in large numbers.

LONDON, Sept. 7.—A Kassassin correspondent says: The Egyptian loss in the outpost affair yesterday was heavy, considering its brief duration. After the skirmish I counted six corpses close together. This was by far the most determined demonstration made by the enemy since the battle at Kassassin, and indicates the near approach of a decisive conflict. All the British cavalry, with Generals Lowe and Wilkinson, are now here. Wolseley will proceed to the front on Saturday.

The correspondent of the *News* at Alexandria has obtained from a most reliable source the exact strength of Arabi's army. The total is: infantry, 44,600; cavalry, 18,000; guns, 143; rocket tubes, 8; Bedouins, 30,-000.

An Arab was caught at Ramleh, this morning, spiking the guns.

LONDON, Sept. 2.—A despatch from Paris says it is rumored that England, with the assent of Russia, signed a secret treaty with Turkey relative to the ultimate organization of the Egyptian ground.

PEARLS.—Get your mouth full by using "TEABERRY," the new wonder for the Teeth and Breath. Brush vigorously. See directions. 5 cent samples.

How Mr. Hart Brought His Deer Home.

Mr. Harrison's deer has on several occasions created a sensation, but the proudest period of his life was probably yesterday afternoon, when he was the chief actor in a short melodrama of several acts. The central point in the plot of this melodrama was, that his deership had been bought of Mr. Harrison by Mr. Philip Hart, who had determined to secure him as a permanent ornament to his blacksmith shop, and who had come with a horse and cart, a coil of rope, and three or four assistants, to secure the animal, tie him up, and bring him down to his new quarters as a sheep is brought to market. The play was witnessed by a large number of spectators, many of whom occupied impromptu stage-boxes and front gallery seats—that is, windows and landings overlooking the yard in which the buck was confined. The first act took place in the yard, and the curtain rose, as it were, on the deer, *solus.* To him enters Mr. Hart, with a coil of rope thrown over one arm, and an implement in his mouth, to be used for the purpose of blowing pungent smoke in the face of the animal in order to stupefy him. The deer is coaxed into the barn by means of a pan of grain, and his new owner valorously follows him in; and the door is shut, with the rope trailing on the ground outside. A hubbub is heard inside, as if the barn were being turned inside out, and faithful witnesses who can observe the scene from another part of the building testify that the deer is at the bottom of a heap of rubbish, and his owner is on top, but has succeeded in fastening the rope on the beast's horns. One of the assistants on the outside secures the rope and draws it taut, and his deership is secured. More confusion ensues, and everything movable within reach of the deer's horns is in a state of unrest, when the door is suddenly flung open, and the deer, seeing the sunlight, comes out with a rush. Precipitate retreat of the man at the other end of the rope, who, though feeling rather dry, has no desire to take a horn. The act is finally concluded amid cheers, by the rope being wound around a tree, and the deer being drawn close up to it. The second act opens on the same scene, with the deer struggling furiously to get away, and tearing all the skin off his newly-formed horns, and at last snapping one of them off short. Whenever he approaches the man who holds the rope, the man who holds the rope approaches the fence, and if the deer investigates further, the man who holds the rope mounts the fence—merely to get a better view, he says. Mr. Hart approaches the animal in the rear, and addresses him in terms of endearment, which are subtly intended to engage the deer's attention while a noose is being placed around his hind legs. But it is much easier for the hero of a dime-novel to lasso the untamed deer in the open prairie than for an every-day man to fasten the lasso on a deer in a back yard, and with its head jammed against a tree. The repeated attempts prove unsuccessful, and the efforts of the principal and his assistants finally subside into standing and watching the dives by the deer in his efforts to get free. He finally succeeds. The rope suddenly snaps, and with a bound he reaches the middle of the yard. There is a sudden scarcity of humanity in the yard and an increase in the number of spectators on the neighboring fences. The second act concludes amid great excitement. The third act is chiefly devoted to attempts to recapture his deership, and is quite lengthy. The dialogue is very spirited and some of the situations striking and thrilling in the extreme. One situation—in which the owner of the deer falls over a heap of boxes and rubbish, and waves his well-booted feet defiantly in the air, with the deer rushing violently in that direction—is loudly applauded by the spectators. At last the deer drives his horns into a heap of rubbish and a small boy slips the rope over them, and he is fast once more. Then the same boy offers to lead the animal down the street to his new quarters for $1.00, and the offer is accepted. The rope is taken off and the deer is let out of the yard, followed by a host of interested boys. He refuses to stop when he gets at his destination, and when headed off, rushes up street again and down a gangway, taking refuge at last in the river. Punts are sent out after him, and he is brought back to land, and the chase continues. His deership at last becomes exhausted and is brought back to his old quarters. The last act is performed with the lights turned down—that is, at night. A single human figure—that of the late owner of the deer—is dimly seen wending its way along the street, with a deer meekly following. The two figures quietly proceed on their way to Mr. Hart's shop, where the animal is safely deposited. Mr. Hart says he would not for $100 have had the skin taken off the deer's horns as it was. He paid $12 for the deer.

Sporting Notes.

Joe Mandeville is now the champion oarsman of Kingston, he having beaten Sergt. Gray for that honor on Thursday evening.

The Troublers were badly beaten in their base ball match with the Silver Leafs of Napanee, at Napanee on the 6th. Score 24 to 5 in favor of the Leafs. The local men attribute their defeat in part to the roughness of the field, and to their overthrows, which were chiefly caused by Dickens, short stop, whose right arm was so sore that he had to carry it in a sling part of the time, and throw with his left hand. The Troublers will doubtless make it more interesting for the Napanee men in the return match.

The *Katie Gray* is entered for the second class race in the R. C. Y. C. regatta.

At the Dominion Rifle Association meeting on the 6th the Minister of Militia's match was concluded and the Dominion competition begun. On Tuesday evening a meeting of members of the association was held for the purpose of receiving suggestions from competitors, when a resolution was unanimously adopted declaring that it is undesirable to continue the present system of excluding from the Wimbledon team members who have been twice at Wimbledon in five years.

The four oared race at Halifax was won by the Boston crew.

☞ The Diamond Dyes always do more than they claim to do. Color over that old dress. It will look like new. Only 10 cents

MORNING DESPATCHES.

EUROPEAN.

SEARCHING HOUSES.

VIENNA, Sep. 7.—The police have searched several more houses in connection with the recent discovery of stolen property at the home of members of the Radical Working Men's Society, and arrested 26 persons, including Moot, a brother of the editor of the London *Freiheit*

AMERICAN.

INDIAN LEGISLATURE.

LITTLE ROCK, Sept. 7th.—The Chickasaw Indian Legislature met yesterday. Governor Overton was declared elected.

BILL FILED.

PROVIDENCE, Sept. 7.—W. D. Manton has filed a bill in the U. S. Court against Chaffee, trustee, and W. Sprague, for possession and title of Canonchet.

VESSELS ASHORE.

CORPUS CHRISTI, Texas, Sept. 7.—5 vessels, it is reported, went ashore at Arone's Pass last night in a hurricane.

ARREST FOR FRAUD.

PHILADELPHIA, Sept. 7th.—Kate Adams, housekeeper for ex Supt. Phipps, and ex-storekeeper Jas. Brown were arrested last evening on a charge of unlawfully and wickedly conspiring to cheat and defraud the city, by removing and appropriating goods and chattels to their use belonging to the city. The woman cried bitterly. They were jailed in default of bail.

NEW YORK NOTES.

NEW YORK, Sept. 2.—A cigar box was picked up in the North River yesterday and found to contain the fœtus of a child. In the box was a soap dish and match box similar to those used in hotels. The paper wrapper disclosed the address of George L. Davidson, room 121, Fifth Avenue Hotel. An investigation showed that the match box and soap dish were missing and that that room was occupied by Davidson and his wife. Davidson admitted that he had secured the services of Dr. Theodore F. Kenney, of Paterson, N. J., offering him $2,000 if successful. The child at Kenny's suggestion was disposed of as described. The Doctor and Davidson were arrested. Mrs. Davidson is in a critical condition.

A hundred policemen were on trial here yesterday for assaults on citizens and offences against discipline.

THE STAR ROUTE CASE.

A Washington special says Judge Wylie prepared a charge to the jury in the Star Route cases and may deliver it to-day, in this event the case will go to the jury this afternoon.

INDIAN TROUBLES.

The Secretary of the Interior does not credit the report of the outbreak of the Arrapahoes and the Cheyennes. Should it prove true, troops will be sent in pursuit immediately.

TURBULENT CONVENTION.

SAN FRANCISCO, Sep. 7.—The session of the Greenback Convention yesterday was turbulent. On one occasion the members came near resorting to blows.

THE KENSICO MURDER.

KENSICO, Sep. 7.—The widow of the murdered man Montfort, has been placed under arrest, and her brother, Charles Reynolds, was arrested at Bridgeport, Con., yesterday. Blood-stained papers were found in his pocket, and he was seen in the neighborhood of Montfort's store on Monday morning. A blood-stained shirt which was found under a bridge has been identified as belonging to Reynolds. It is said that $300 was taken from the store at the time of the murder.

KICKED TO DEATH.

CHICAGO, Sep. 7.—At the stock yards yesterday Samuel Williams kicked to death a man named Morman, for alleged intimacy with Williams' wife.

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinary or Liver Diseases, as they only relieve for a time and make you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

AFTERNOON DESPATCHES

THE LIMERICK FATALITY.

LIMERICK, Sept. 2.—The jury in the case of the men killed by the fall of a house adjoining Clifford Lloyd's office, returned a verdict of accidental death. There was no evidence of any attempt to blow or injure the building occupied by Lloyd.

THE CUBAN LEADERS.

PARIS, Sep. 7.—Radrigues, Castella and Macco, lately escaped from prison at Cadiz, and reached Gibraltar with the view of going to America. The British police, nowithstanding their protestations, surrendered them to the Spanish authorities. Two were returned to the prison, but Macco was sent to the galleys.

—Sir William Ritchie, Chief Justice of the Supreme Court of Canada, was on the 6th sworn in at Ottawa as administrator of the Government during the absence of the Governor-General.

—Consumers of Chicago-cured pork will be interested in learning that it has just been discovered that many of the cattle and hogs slaughtered there for the eastern markets are covered with festering sores.

Excellent reasons exist why *Dr. Thomas Eclectric Oil* should be used by persons, troubled with affections of the throat or lungs, sores upon the skin, rheumatic pains, corns, bunions, or external injuries. The reasons are, that it is speedy, pure and un objectionable, whether taken internally or applied outwardly.

Nervous debility is a result of indiscretion in the mode of living. Heed nature's unerring laws and take Burdock Blood Bitters, the Great System Renovator and Blood, Liver and Kidney regulator and tonic, Sample bottles 10 cents.

PROCLAIM it far and wide that DR. VAN BUREN'S KIDNEY CURE not only immediately relieves all Kidney diseases, but what is more important to the unfortunate sufferer, will ultimately cure him effectually.

For 30 Years

The dark-eyed and lovely daughters of Spanish America have used MURRAY & LANMAN'S FLORIDA WATER as their only cosmetic and toilet perfume. It is the most fragrant, as well as the most lasting of all Floral Waters, and possesses refreshing and invigorating properties not contained in any other preparation of the kind.

A New Principle.

The principle upon which PUTNAM' PAINLESS CORN EXTRACTOR acts is entirely new. It does not sink deep into the flesh, thereby producing soreness, but acts directly upon the external covering of the corn, separates it from the under layer, removes the direct pressure from the part, and at once effects a radical cure, without any pain or discomfort. Let those who are suffering from corns, yet skeptical of treatment, try it, and by the completeness of the cure they will be ready to recommend Putnam's Painless Corn Extractor to others. Sold by W. B. Carmichael

Consumption, that dread destroyer of the human race, is often the result of bad blood and low vitality, a scrofulous condition of the system. Burdock Blood Bitters cure Scrofula in its worst form.

A SIMPLE herb found on the sunny plains of a Southern clime has, under the skillful manipulation of DR. VAN BUREN, proved one of the greatest blessings ever sent to sufferings humanity. DR. VAN BUREN'S KIDNEY CURE is acknowledged all the world over as the only perfect remedy for Kidney troubles. Your druggist has it.

Dr. E. C. West's Nerve and Brain Treatment is a never failing cure for Nervous Neuralgia, Nervous Headache, Overworked Brain, &c. Sold at James Clarke & Co's.

SMITH MEDICINE Co.

GENTLEMEN,—I have made a trial of one box of Dr. Smith's Great German Worm Remedy, with such good effect that I have no hesitation in recommending it to the public as a prompt and reliable medicine. In fact, those who use it once will always do so. Yours truly,

J. Harvie, 172 Cadieux street.

Montreal, December 9th, 1881.

Hall's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by Jas. Clarke & Co., Belleville, Ont.

Commercial.

N. H. DOWNS'

Vegetable Balsamic

ELIXIR!

This ... medicine is purely vegetable, the discovery of which was the result of many years' close study, in order to discover the cause, the symptoms and the cure—viz.:

Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Influenza, Pleurisy, Hoarseness, Spitting Blood, Bronchitis,

and every species of oppression of the Chest and Lungs. In all cases where this Elixir has been duly administered its efficacy has been invariably manifested, convincing the most incredulous that

CONSUMPTION

is not incurable, if properly attended to.—Consumption at its commencement, is but a slight irritation of the membrane which covers the lungs; then an inflammation, when the cough is more observable, but rather dry: then becomes local fever and the pulse more frequent, the cheeks flushed and chills more common. This Elixir in curing the above complaints, operates so as to remove all morbid irritations and inflammation from the lungs to the surface, and finally expel them from the system. It facilitates expectoration.

IT HEALS THE ULCERATED SURFACES

and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. It is free from strong opiate and astringent articles, which are of so drying a nature as to be in great danger of drying up the patient; whereas this medicine never dries or stops the cough, but, by removing the cause, generally destroys the hectic ... entirely gone. Consequently, when the cough is cured the patient is well. Send address for pamphlet giving full directions for cure of pulmonary diseases. Price 25cts. and $1 per bottle. Sold every where.

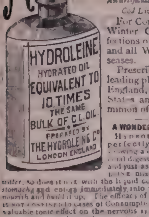
HYDROLEINE



(HYDRATED OIL)
An artificially digested Cod Liver Oil.

For Consumption, Winter Cough, Affections of the Chest and all Wasting Diseases.

Prescribed by the leading physicians of England, the United States and the Dominion of Canada.

A WONDERFUL FACT.

HYDROLEINE mixes perfectly with water, showing a complete ... digestion of the oil, and just as the HYDROLEINE mixes with the water, so does it mix with the liquid contents of the *stomach* and *enters immediately into the system* to nourish and build it up. The efficacy of HYDROLEINE is NOT CONFINED to cases of Consumption, as from its valuable tonic effect on the nervous system in addition to its special stimulating action on the organs concerned in the production of *Fat* in the body it causes *marked increase in weight in persons of naturally thin habit, who do not present any evidence of disease.*

Unlike ordinary preparations of Cod Liver Oil, it produces no unpleasant eructation or sense of nausea and should be taken in such very *much smaller doses* according to the directions, as will ensure its *complete assimilation*; this, at the same time, *renders its use economical in the highest degree.*

For sale by all Druggists.

We have sold the above remedy for several months and find it spoken of very favorably by both the medical profession and the public. We can safely recommend it to parties needing such a remedy. Signed,

WON BY NINE.

BY RICHARD DOWLING

From the Pictorial World.

In twenty minutes the auction was in full swing. The stalls all round the great room had been swept clean, and what had remained undisposed of was hurried up to a table by which stood the auctioneer hammer in hand.

The bids came briskly, the sale was quick, still at eleven o'clock all had not been sold. The auctioneer declared his intention of remaining at his post until the last smoking-cap, coral and bells had been got rid of, and furthermore, he informed such visitors as were anxious to retire to the dancing-room, that it would not be thrown open until the last vestige of the things by his side had been cleared away.

'As I'm a living man I'll sell everything on this table before anyone leaves this room, or the dancing-room is opened. Stewards, see that no one leaves this room until I give leave.'

He proceeded with the sale. As became a good local auctioneer, he was familiar with every person in the room, and in the course of bidding he made frequent appeals by name to those around him. More than once he tried to induce the young owner of Bawn to offer, but in vain. Fitzgerald only shook his head pleasantly, and did not shake it in the way agreeable to auctioneers.

At last the end had arrived. The auctioneer looked with comical ruefulness at the table beside him, saying: 'Ladies and gentlemen, I am sorry to say I have nothing more to offer you. Stop! I said I'd sell everything on that table, and I'd keep my word. I see one more article. Will you hand that, if you please? Come, now for the dance. I have only this to sell. You take it as you find it. I guarantee nothing. What shall we say for it? Some kind gentleman set us going.'

'A shilling.'

'A shilling. Thank you, sir. Any advance on a shilling.'

'Five.'

'Thank you, sir. Any advance on five shillings! Now, gentlemen any advance on five shilling! Going at five shillings. Now, Mr. Fitzgerald, you haven't favored me with a bid this evening. What do you say?'

'Guineas.'

'Thank you, Mr. Fitzgerald, and at five guineas it's gone.' Turning to the Steward, acting as clerk, the auctioneer dictated the entry: 'Mr. Fitzgerald of Bawn, a bouquet five guineas.' And the auction was over.

When Angus Fitzgerald met Miss Cantwell in the dancing room she was engaged for the first four dances.

'You'll give me the fifth?' he said.

'Yes.'

'All right. I'll go smoke until then.'

When at last the fourth dance was over, he, carrying the bouquet for which he had given five guineas in his hand, came and claimed her.

She was quite uneasy and trembling as she took his arm.

'You see,' he said, 'I have carried out my programme! I told you I came here to make good my losses of yesterday, and I have done so. I put that bouquet of yours among the things for sale.'

She looked up and tried to smile. 'But you paid very dearly for it. You have lost again.'

'I have made more money by the transaction than the whole proceeds of the bazaar. I would not now give this bouquet for a thousand pounds.' He raised it to his lips and kissed it.

She held down her head and blushed deeply. Fortunately for her the band began to play, and he led her out among the dancers.

When the music ceased he said, 'Where is the next blank on your card?'

'We are to have but eight altogether. They will not allow us to stay late. The rest are all promised.'

'Your father will take you home?'

'Yes.'

'Ah, then, there is nothing more to wait for. I will go home.' And, having resigned her into the hands of a new partner he left the room, keeping the drooping bouquet pressed to his lips as he went.

Next day everyone in Clashmore knew more about the story of the bouquet than either of those directly concerned in it. Some went so far as to say he had proposed to her. She had been very popular, but this did much to cool the general ardor in her regard. And when, after this, there followed more civility to her and her father from Fitzgerald of Bawn, the good people of Clashmore began to toss their heads, and talk of up starts and so on.

Mr. Fitzgerald asked Mr. Cantwell to shoot over his grounds. And Mr. Cantwell though no great sportsman, went, and came back highly gratified. Fitzgerald dropped in to see Cantwell, and went home to luncheon with the latter. The young man took the father and daughter out for many a drive when the weather was fine, and when June came round, and the band once more played in the barracks square, Miss Cantwell walked up and down with Mr. Fitzgerald of Bawn as though she were an heiress in her own right to the first property in the county, and could trace her name back to the earliest English settlers, and thence to the Conquest.

Just when the summer had gone by, and autumn was almost over, and nothing definite had been arranged between the two, people began to shake their heads gravely, and say young Fitzgerald was only amusing himself with his townsman's daughter, and the result of the whole thing would be a broken heart.

At last it came to be winter once more, and once more matrons and maids were busy about the Christmas bazaar. Nothing had yet been settled, as far as the town knew, between the owner and the buyer of the bouquet last year, and people had now made up their minds that it was a shame. But at the bazaar all had to admit that Miss Cantwell had never looked happier or brighter, that her father was in excellent spirits, and Mr. Fitzgerald in the pleasantest of good humor.

This year Ellen Cantwell was tout for a table at which were to be raffled a silver candelabra, and a diamond gipsy ring; whoever made the highest throw got the candelabra, whoever threw the lowest got the ring. Both prizes were the gift of a 'lady benefactor, who wished to remain anonymous.' The reason Miss Cantwell had been attached to this table was that naturally she got the best table in the show; but this year as last, it had been supplied by Mrs. Fitzgerald, and the committee felt it unfair, unkind to ask Miss Cantwell to assist at the raffle of prizes presented by Mrs. Fitzgerald. Then, naturally, the second best table, that of the candelabra and ring, was allotted to her. With Miss Cantwell, as on the former occasion, was associated Mrs. Fennessey.

To Mrs. Fennessey Fitzgerald devoted himself all day and all the evening of the first day. He took little notice of Ellen, but brought Mrs. Fennessey jellies and biscuits and wine, as though his very life depended on her being in the most brilliant physical condition. On the morning of the second day he asked Mrs. Fennessey what was the lowest throw so far. It was a high one—fourteen.

He took the dice-box, smiled and said 'I mean to win that ring of yours, Mrs. Fennessey.'

His twenty-eighth throw was thirteen.

'That will do,' he said, 'for the present.'

The next thrower, a boy in knickerbockers, cast twelve. Fitzgerald took up the box, put down a five-pound note, and calling out gaily to Mrs. Fennessey not to cheat, began. At last he threw eleven.

TO BE CONTINUED.

Samson lost his strength with his hair. Thousands of men and women lose their beauty with theirs, and very large numbers restore the ravages of time by using the famous Cingalese Hair Restorer. Sold at 50 cents per bottle by all Druggists.

John F. Berry, Esq., Rockland Maine, President of the Lime Rock National Bank, and also of the Knox and Lincoln R. R., says he had the rheumatism in his left foot and leg. He used three bottle of St. Jacobs Oil and it relieved him wonderfully. He calls it "a splendid article."

Take no more nauseous purgatives. Burdock Blood Bitters act mildly, pleasantly and thoroughly upon the Bowels, and occasion no inconvenience, while it regulates the Liver and Kidneys and tones the enfeebled system. Trial bottles 10 cents.

Important to Farmers, etc.

If you would keep your kine, cattle, hogs, horses, sheep and poultry in the most perfect health and remunerative condition mix HARVELL'S CONDITION POWDERS occasionally with their feed. These great specifics are *the wealth of the barn yard.* See to it. Sold every where.

The most wonderful curative remedies of the present day, are those that come from Germany, or at least originate there. The most recent preparation placed upon the market in this country, is the GREAT GERMAN INVIGORATOR which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangements of the nervous system. For sale by druggists, or sent free by mail on receipt of the price, $1.00 per box, or six boxes for $5.00. Address James Clark & Co., Sole agent for Belleville. Send for circular.

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrh, Bronchitis, Asthma and Lung Disease by Dr. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the seat of disease. Read and judge for yourself:—

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. JOHN P. WHELAN, Manager of POST and TRUE WITNESS, Montreal. Mr. C. HILL, Montreal, catarrh and bronchitis. Mr. DEBOUCHERVILLE, of the Indian Department, Ottawa, catarrh of many years; now cured. Mr. GEO. AGER Ottawa, catarrh and lung disease; cured. Mrs. SMITH, London, wife of Medical Detective, cured of catarrh. GEO. MAGUIRE, Toronto, 482 Adelaide street West; daughter cured of asthma. GEORGE WILLIS, Exeter, Ont., catarrh and bronchitis. J. D. ARMSTRONG, 186 Yonge street, Toronto, catarrh and catarrhal deafness. THOMAS TELFER, 12 Melinda street, Toronto, asthma; cured. Mr. BENJ. A. DRAKE, St. Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. BENOIT, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma and bronchitis for over eight years, and who is now perfectly cured.

Mrs. ADAMSON, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitating in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis. JOHN C. FLEMING, Editor of POST and TRUE WITNESS, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write, inclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souvielle and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

$1,000 Forfeit!

Having the utmost confidence in its superiority over all others, and after thousands of tests of the most complicated and severest cases we could find, we feel justified in offering to forfeit One Thousand Dollars for any case of Coughs, colds, sore throat, influenza, hoarseness, bronchitis, consumption, in its early stages, whooping cough, and all diseases of the throat and lungs, except Asthma, for which we only claim relief, that we can't cure with West's Cough Syrup, when taken according to directions. Sample bottles 25 and 50 cents; large bottles one dollar. Genuine wrappers only in blue. Sold by all druggists, or sent by express on receipt of price. JOHN C. WEST & Co, sole proprietors, 81 and 83 King St. East Toronto, Ont. For sale at Jas. Clarke & Co.'s Drug Store.

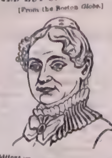
A NOTED BUT UNTITLED WOMAN.
[From the Boston Globe.]



Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of *either* sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Philadelphia, Pa. (3) Mrs. A. M. D.

KIDNEY-WORT

IS A SURE CURE
for all diseases of the Kidneys and
LIVER

It has specific action on this most important organ, enabling it to throw off torpidity and inaction, stimulating the healthy secretion of the Bile, and by keeping the bowels in free condition, effecting its regular discharge.

Malaria. If you are suffering from malaria, have the chills, are bilious, dyspeptic, or constipated, Kidney-Wort will surely relieve and quickly cure.

In this Spring to cleanse the System, every one should take a thorough course of it.

SOLD BY DRUGGISTS. Price $1.

UNCONDITIONAL, INCONTESTABLE LIFE POLICIES.

THE objection is often made that the Companies may take advantage of some of the conditions on their Policies, and thus either avoid entirely the payment of claims, or compromise with the widow for a small sum. This argument cannot be used against

THE SUN LIFE ASSURANCE CO'Y OF MONTREAL,

which issues absolutely unconditional policies to selected lives. There is no restriction of any kind on them. The assured may travel to any part of the world without extra premium. He may change his occupation at will, or do anything else he chooses. The contrast is remarkable with other policies. Ask an agent to show you one; it speaks for itself.

Cathartic Pills

Combine the choicest cathartic principles in medicine, in proportions accurately adjusted to secure activity, certainty, and uniformity of effect. They are the result of years of careful study and practical experiment, and are the most effectual remedy yet discovered for diseases caused by derangement of the stomach, liver, and bowels, which require prompt and effectual treatment. AYER'S PILLS are specially applicable to this class of diseases. They act directly on the digestive and assimilative processes, and restore regular healthy action. Their extensive use by physicians in their practice, and by all civilized nations, is one of the many proofs of their value as a safe, sure, and perfectly reliable purgative medicine. Being compounded of the concentrated virtues of purely vegetable substances, they are positively free from calomel or any injurious properties, and can be administered to children with perfect safety.

AYER'S PILLS are an effectual cure for **Constipation or Costiveness, Indigestion, Dyspepsia, Loss of Appetite, Foul Stomach and Breath, Dizziness, Headache, Loss of Memory, Numbness, Biliousness, Jaundice, Rheumatism, Eruptions and Skin Diseases, Dropsy, Tumors, Worms, Neuralgia, Colic, Gripes, Diarrhœa, Dysentery, Gout, Piles, Disorders of the Liver,** and all other diseases resulting from a disordered state of the digestive apparatus.

As a Dinner Pill they have no equal.

While gentle in their action, these PILLS are the most thorough and searching cathartic that can be employed, and never give pain unless the bowels are inflamed, and then their influence is healing. They stimulate the appetite and digestive organs; they operate to purify and enrich the blood, and impart renewed health and vigor to the whole system.

THE ROYAL INSURANCE CO.

Of England.

CAPITAL	$10,000,000.
Funds Invested	$23,000,000
Annual Income	5,000,000.

Over $600,000 invested in Canada for the protection of Canadian Policy holders.

Farm Property Insured against damage by Lightning. Losses to live stock by lightning and fire anywhere on the farm made good.

FACTS WORTH REMEMBERING.

The Royal has the largest surplus funds of any Fire Insurance Company in the world.

The Royal has the largest deposit with the Dominion Government of any other Insurance Company.

The conditions of the Royal's Policies are more liberal than those of other Companies doing business in Canada.

In conclusion remember that security should be the first consideration, and that it is to your interest to insure with the Company that gives the *greatest* security. You may better carry your own risk than entrust it where you have not absolute security.

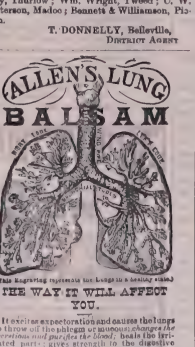
ALLEN'S LUNG BALSAM



(This Engraving represents the Lungs in a healthy state.)

THE WAY IT WILL AFFECT YOU.

It excites expectoration and causes the lungs to throw off the phlegm or mucous; *changes the secretions and purifies the blood;* heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. SUCH IS THE IMMEDIATE AND SATISFACTORY EFFECT that *it is warranted to break up the most distressing cough in a few hours time,* if not of too long standing. *It is warranted* TO GIVE ENTIRE SATISFACTION, EVEN IN THE *most confirmed cases of Consumption. It is warranted not* to produce costiveness (which is the case with most remedies), or affect the head, as it contains no opium in any form. *It is warranted to be perfectly harmless* to the most delicate child, although it is an active and powerful remedy for restoring the system. *There is no real necessity for so many deaths by Consumption,* when ALLEN'S LUNG BALSAM will prevent it if only taken in time. Physicians having consumptive patients, and who, having failed to cure them with their own medicine, we would recommend to give ALLEN'S LUNG BALSAM a trial. *Sold by all Druggists.*

CORNS.

Daily Intelligencer.

Lord Dufferin.

A Constantinople correspondent writes: There never was a man with greater pride and less pretence than Lord Dufferin. He comes down properly upon anyone who offends his dignity while at the same time he is most careless as to appearances. Our noble Ambassador thinks nothing of jumping into a seedy old cab or mounting a horse from the nearest corner when it is a question between a sacrifice of time and dignity. I recollect on one occasion last winter seeing the lean face with its glass eye and curled moustache emerge from a cab that had come suddenly to grief. His Lordship was evidently in a hurry, for the next moment the tall spare form was away on the back of a veritable Rosinante that just then chanced to pass. Not a thought did Lord Dufferin give to the gaping crowd who were thunder-struck when great Elchee rode off on a common hack, with its tail tied up in a twist to keep it clear of the mud. No wonder that the pedestrians, stepping aside at the warning cry of "Larga! Larga!" of the horse-boy running behind, with an umbrella of Sairey Gamp dimensions tucked under his arm, stood still and stared as if to assure themselves that no trick was being played with their vision. It was a sight that quite upset all preconceived ideas in this native mind as to the state and ceremony that surround the British nobleman, and must have occasioned the ghost of poor Lord Stratford, if it haunts the streets of Pera, many severe pangs. No outriders in front, no "canvassers" follow behind, no beautiful Arab horse with new trappings of modern equestrianism, but a spavined steed, with the dirty, rough blanket serving as a saddle cloth hanging down on each side beneath the Elchee's coat tails, and a single attendant working the animal along under the high pressure of a stout stick. But Lord Dufferin is none the worse Ambassador for being above appearances. It shows energy and force of character, two qualities very much wanted out here, in dealing with such shifting individuals as the Turks.

A New Annexation Scheme.

PROPOSED ANNEXATION OF PART OF MAINE TO CANADA.

A Maine State Acadian contemporary has come out with a new idea which, if it happens to be carried out, will cause the annexation of a large section of the present limits of the State of Maine to Canada. There are a great many theories about the scheme, but the proposal, however, is an indication what the feelings of the Acadians of Maine, who number some 40,000, are towards Canada. Our Acadian contemporary goes on to say that the Acadians are all Democrats and hold the balance of power in the State and that the Republican party during late years has done everything in its power to destroy their influence, and moreover, that it went so far as to attempt to establish a Swedish colony to counterbalance their votes, which scheme utterly failed. Now our Acadian friends want Canada to hint a little scheme of annexation to the Republican party in power at Washington, and the contemporary is positive that, with a small compensation, the northern part of Maine would be ceded to Canada with pleasure by the Republican party, who would thus rid themselves of a dangerous obstacle to their success. *La Minerve* of this morning seriously comments upon this new departure saying: It is probable that the Republican party would be disposed to lend itself to such a combination, by consulting its own immediate interests, but now pops up a national question; the Democratic party perhaps would not be brought about so easily at making terms, and then again it is England and not Canada which would negotiate in the matter; all these are numerous obstacles. But in the abstract it would only be just and right, in theory, that this region, which is exclusively Canadian, Acadian and French, alienated from Canada by the stupidity of British diplomatists, should come back to us again. And as to the means, it would be necessary that the scheme should be pleasant to Uncle Jonathan, and not be inoffensive to John Bull. In the meantime, however, the idea will work and matters will go their way."

Another Letter from Mr. Blain.

To the Editor of The Mail

SIR,—The man whose name is before the public must learn to stand abuse, but no one can allow his statements to be called in question without suffering by it. I have therefore reluctantly to trouble you again.

I see by some of the papers that Mr Jas. Trow collected money and paid something—to whom, I did not learn. How Mr. James Trow came to collect money and pay debts of the Reform party, I do not know. Let me, through your paper, ask him a few questions. Who authorized you, Mr. James Trow, to collect money for the Reform party? When did you collect it? How much did you collect? (I will not ask from whom.) To whom, how much, and when, did you pay it, and by whose authority? When you were constituted custodian of the financial honor of the Reform party were you instructed in the distinction between a debt of honor not recoverable at law, and one that was? In making payments, did you pay debts of honor or legal obligations, or both? Have you still authority to collect and pay debts, and will you collect and pay those not yet paid? If you have any doubts about the amounts, and will pay those justly due, and will admit the right to recover, I will send you a writ by return of post, and if I fail to satisfy a jury I will pay the costs of the suit.

I hope that Mr. Trow, who has, according to the papers, been making statements, will make a few by way of answer to the above enquiries.

I see by the press that there are some critics whose heads roll in so serene an atmosphere that to them debts of honor are mean things, and those who speak about them meaner still; one has to regret that some press men striving to lead public opinion should have a base conception of moral obligation. I have no mawkish sentimentality in dealing with those debts, for if an action at law could have been sustained, I would have long since sent the sheriff to collect them. These debts are not the only things that have disgraced the Reform party since Mr. Blake was appointed leader. He will not lift a hand to remove these debts, nor other injustices that have been inflicted upon individual members of the party. These matters have disturbed the equanimity of his mightiness, and are therefore things to be dealt with. Let me say to Mr. Blake, if the evils now affecting the Reform party, and for which he is chiefly responsible, and which he, as leader, has the power to at once remove, be not attended to the end has not yet been reached.

I promised in the opening letter of this correspondence, if space and opportunity offered, I would say something upon Mr. Blake as a leader.

The chief organ of the party has not come to his defence, though the smaller curs have been, and still are, yelping all over the Dominion. To carry out my promise might appear like striking under unfair circumstances. I will therefore not trouble you with this subject, but will await a suitable time, when I find Mr. Blake upon a public platform, where he will have the privilege of either defending himself or allowing judgment to go by default.

Hoping, Mr. Editor, that this may close a very necessary, though to me unpleasant, correspondence.

Yours, &c.,
D. BLAIN.

Toronto, Sept. 6.

The Human Hair.

"Yes," said a St. Louis barber, in answer to a question, "there are a good many curious things about the hair. I suppose you believe, as most people do, that frequent shaving will make the hair grow on your face. That is not so. Just think of it for a minute and try to explain to yourself how scraping you face with razor can put new hair roots in your skin! What shaving does do is to increase the thickness of the hairs already there—not their number. In this way frequent shaving makes the beard somewhat thicker. But at the same time, of course, it makes it coarser. A young freshmen with a little down on his upper lip might spend his entire time shaving himself and he could not start the growth of a single new hair. The beard is not nearly so troublesome to take care of as the hair of the head. The beard is so much smaller and thinner, for one thing. There are about 290 hairs to a quarter of a square inch of surface on the scalp, and only forty hairs to the quarter inch on the chin. Some of the hair follicles on the scalp, particularly at the back of the head, are often turned the wrong way, making what is called a 'cow-lick.' This makes a man heaps of trouble, but can be cured. Frequent brushing is the only remedy for it."

"Hair dyes," he went on; "oh, yes, we all have to use them more or less. I generally make my own, but I could buy just as good, though they would cost more. If you take any half dozen of the standard dyes you will find they are all substantially the same. Nitrate of silver and sulphur do the business. But there is not nearly as much dying of the hair now as there was a few years ago. Gray hair is more fashionable, and it is certainly prettier than dyed hair, which can always be detected, no matter how well it is done. The turning grey of the hair is no sign of any loss in its vitality. It is caused by a weakening of the coloring vessels, that is all. Tight hats cause grayness, as well as baldness. There is something mysterious about the hair. I have studied it carefully, and for a long time, and I have come to consider a man's hair as something almost superior to the rest of his body. It is nearer immortal at any rate. I have seen hair taken from a coffin that had been buried for forty years, when all the rest of the body had disappeared. Not only had it grown long and thick after the death of the body, but it was still growing. Each hair seemed to have a life of its own."

Capt. Malloy of the Kansas City (Mo.) Police force says: "We use St. Jacobs Oil for bruises, cuts, injuries, etc., incident to police business. I have used it myself with the most beneficial results, and the men are enthusiastic in their praises of it. I consider the Great German Remedy a truly marvellous substance completely fulfilling its every claim."

John T. Berry, Esq., Rockland, Maine, President of the Lime Rock National Bank, and also of the Knox and Lincoln R. R., says he had the rheumatism in his left foot and leg. He used three bottle of St. Jacobs Oil and it relieved him wonderfully. He calls it "a splendid article."

Take no more nauseous purgatives. Burdock Blood Bitters act mildly, pleasantly and thoroughly upon the Bowels, and occasion no inconvenience, while it regulates the Liver and Kidneys and tones the enfeebled system. Trial bottles 10 cents.

Rheumatism is greatly dependent on a vitiated condition of the fluids, and may be eliminated from the system by cleansing the Blood and regulating the Kidneys. Burdock Blood Bitters will do this most effectually. Trial bottles 10 cents.

CINGALESE. A name well known in connection with the HAIR RENEWER, which restores grey hair to its natural color by a few weeks use. Sold at 50 cents per bottle by all Druggists.

At the approach of spring great attention should be given to purify the system engorged with foul humors during the winter. Burdock Blood Bitters is Nature's own purifying and regulating tonic.

Rest and Comfort to the Suffering

"Brown's Household Panacea" has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful." "Brown's Household Panacea," being acknowledged as great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle. 264ly

"Now you may not think it remarkable, but I do, that St Jacobs Oil cured me of a case of rheumatism of three years' standing in three weeks," says Mr. Frank Lawler, Alderman of the eighth ward, Chicago, Ill.

AFTER many years of patient investigation DR. VAN BUREN, of Germany, finally succeeded in perfecting a Kidney Cure that would permanently relieve all cases of Kidney Disease. Be sure and ask your Druggist for 'DR. VAN BUREN'S KIDNEY CURE.

The REV. CHAS. E. PIPER, formerly of Pittsfield, N. H., but now of Wakefield, R. I., writes: "I have used Baxter's Mandrake Bitters in my family for over two years, and as a result have not called a physician in the whole time. My wife had been an invalid for two years, but those *Bitters* have cured her."

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle. 264ly

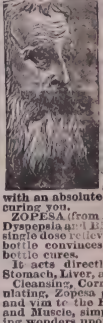
DELAYS are dangerous, particularly in Kidney Diseases, so take at once DR. VAN BUREN'S KIDNEY CURE and obtain relief from all your sufferings. Your Druggist keeps it.

BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, blotches pimples and the various humors and blemishes of the skin are only symptomatic of bad blood—that needs purifying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidneys, skin, etc, and strengthening while it regulates and purifies.

The market is full of preparations for the hair, some of them good, and many of them good for nothing. R. P. Hall & Co., of Nashua, N. H., manufacture and sell an article of real merit, which has been advertised in the *Express* for the past year, and we have taken no little pains to inquire how it has been liked by the public. One of our druggists informs us that he sells more than double the amount of Renewer than of all other hair preparations combined, and when a person once uses it, he will use no other: that it is not only bought by the young people as a dressing, but by older persons for removing dandruff, preserving and increasing the growth of the hair and restoring its natural color. Another druggist says that he sells three or four times as much of Hall's, as of all others.—*Hampshire Express, Amherst, Mass.*

CHEAP AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Magnetic Medicine, which contains forty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column.

RACKED BY INNUMERABLE PANGS, restless by day, sleepless at night, rising unrefreshed in the morning, without appetite and pestered by varying and perplexing symptoms, the dyspeptic takes indeed a gloomy view of human existence. For him the zest of life seems gone. Heartburn, oppression at the pit of the stomach, and the attendant annoyances of constipation and biliousness, combine to render him utterly wretched. But there is, if he will but take advantage of it, a reliable source of reliable relief from all misery. NORTHROP & LYMAN'S VEGETABLE DISCOVERY and DYSPEPTIC CURE is, as its name imports, a botanic preparation, free from mineral poison, and an all-sufficient remedy for indigestion in its most obstinate form. It not only enriches the blood by enabling the digestive organs to convert the food received into nutriment, but depurates it by increasing the action of the bowels and kidneys, the natural outlets for its impurities. But while it relaxes the bowels, it never does so violently and with pain, like a drastic cathartic. It aids, but never forces, Nature, invigorating as well as purifying and regulating the system. It thoroughly removes those diseased humors which tend to vitiate the blood, purifies the urinary secretion, and promotes a flow of healthy bile into the natural channel, besides expelling it from the circulation. Experience has proved that this standard medicine is a thorough remedy for dyspepsia, biliousness, costiveness, kidney complaints, scrofula, erysipelas, liver complaint, lumbago and all impurities of the blood. Price $1.00. Sample Bottle 10 cents. Ask for NORTHROP & LYMAN'S Vegetable Discovery and Dyspeptic Cure. The wrapper bears a *fac-simile* of their signature. Sold by all medicine dealers.



WILL YOU EXCHANGE a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you. ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures. It acts directly upon the Stomach, Liver, and Kidneys. Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver. Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

BUTLER'S

Celebrated

BLACKBERRY CORDIAL.

The most effectual remedy yet discovered for Cholera, Cholera Morbus, Diarrhœa, Dysentery, Cramps, Colic, looseness of the Bowels &c.

This justly celebrated preparation is highly recommended by the medical men, and has been used with the greatest success for the last ten years throughout the United States.

BELLEVILLE, THURSDAY, SEPT. 7.

Grain Testers.

As we understand it is the intention of most grain merchants to use grain testers this season, we again publish the order-in-council, authorizing their use, also a description of the automatic apparatus to be used for filling them.

GOVERNMENT HOUSE, OTTAWA
Tuesday, 6th day of December, 1881

PRESENT:

HIS EXCELLENCY THE ADMINISTRATOR OF THE GOVERNMENT IN COUNCIL.

On the recommendation of the Minister of Inland Revenue, and under the provisions of the 48th and 49th sections of the Act passed in the 42nd year of Her Majesty's Reign, chaptered 16, and intituled "An Act to amend and consolidate the laws relating to Weights and Measures,"—

His Excellency, by and with the advice of the Queen's Privy Council for Canada, has been pleased to order, and it is hereby ordered, that the Regulations respecting the Inspection of Grain testers, established by Order in Council of the 20th August, 1882, be, and the same are hereby cancelled, and the following Regulations substituted in place thereof, viz:—

1. Grain Testers shall only be admitted to verification when—

1. The cup or vessel for containing the grain is cylindrical, the diameter being approximately equal to its depth, and its capacity some authorised submultiple of the gallon, not less than one quart.

2. There is marked on the cup in clearly legible characters its true capacity in standard measure.

3. The counterpoise is arranged so that it can be sealed or stamped in such a manner as will prevent its being tampered with or removed from the instrument to which it belongs without destroying or breaking the seal or stamp.

4. It gives true indications of weight according to the purport of the figures and divisions marked on the beam, and is in equilibrium when the empty cup is attached and the counterpoise is at zero.

5. The knife edges and other working parts are in conformity with section B, of the Order in Council of the 14th of August, 1879.

6. It is accompanied by a hopper or apparatus for automatically filling the weighing cup identical as to form and dimensions with the one deposited in the Standards Department of Ottawa, of which a sketch drawing with figured dimensions and instructions for use, will be given to each Inspector of Weights and Measures.

K. The fee chargeable for verifying and stamping each grain tester shall be one dollar.

1. The Hopper or apparatus for automatically filling the cup of "grain testers," consists:—

(a) Of a substantial stand (A), so made as to carry without shaking the hopper when filled with grain.

(b) Of an arm (B) swinging freely on the top of the stand and carrying the hopper on its outer end.

(c) The hopper (C) for holding a sample of the grain to be tested is an inverted frustrum of a hollow cone, eleven inches in height, seven inches inside diameter at the large end, and 1.15 inches at the smaller end.

2. The orifice at the small or lower end of the cone is exactly 1.15 inches in diameter, and is closed by a valve which can be moved to one side so as to permit the run of the grain into the tester.

3. It is essential that the orifice should be of the exact size stated, and that its lower edge be of uniform height above the bottom of the testing cup to be filled. The standard (A) must, therefore, be of such height that the lower end of the cone shall be exactly 7 inches above the bottom of the testing cup, and the centre of the orifice of the hopper must project sufficiently far beyond the foot of the standard (A) to permit the centre of the test vessel to be placed directly under the centre of the hopper.

Don't die in the House.

"Rough on Rats." Clears out rats, mice, roaches bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

Editorial Brevities.

The Kingston *Whig* thus rebukes the inconsistency of two of its Grit *confreres*:—"The Belleville *Ontario* and Ottawa *Free Press* advise the Ontario Government to gerrymander the constituencies before bringing on the Provincial elections. We do not endorse the suggestion, because to do so would be to advertise our inconsistency. It is urged that fire should be fought with fire, that Sir John resorted to improper expeditions to embarrass the Liberals, and now that he is engineering the new campaign his own precedents and tactics should be adopted to compass his defeat. * * * * * Mr. Mowat is at liberty to readjust two or three seats in order that, according to the population, they may be properly represented in the Local House; but to change the boundaries of fifty or sixty constituencies for no other than a party purpose would not be a wise and patriotic proceeding. We opposed such work on principle, and still oppose it, the more so since we believe it to be unnecessary."

The D. R. A. have, we think done wisely in determining that Canada shall be represented at Wimbledon hereafter by the very best men she can produce. A few years ago a regulation was adopted excluding from the Wimbledon team members who had been over twice in five years, and the result was that the very best shots were excluded. The object of this regulation was to encourage young marksmen, and undoubtedly this object was achieved to some extent, whilst the doings of the teams so organized fell but little, if any, short of those of their predecessors. Still, the public were of opinion that the record might have been bettered but for the restriction, and this appears to have been the opinion of a large majority of the Association as well. Hereafter, then, we hope to see the creditable record made by our representatives at Wimbledon improved upon.

Another letter from Mr. Blain to the *Mail* is reproduced in this day's issue. Mr. Blain asks some questions which the Grit leaders will find it necessary to answer.

According to Edwin Alden & Bro's. American newspaper catalogue just issued, there are 12,156 newspapers published in the United States and Canada. Total in the United States, 11,522; Canada, 636, classified as follows: Dailies, 1,152 tri-weeklies, 80; semi-weeklies, 150; weeklies, 9,078; bi-weeklies; 23; semi-monthlies, 202; monthlies, 1,290; bi-monthlies, 12

As a cure for all diseases of the Lungs, DOWNS' ELIXIR has no equal.

Correspondence.

Whilst correspondents will be accorded space for the expression of their ideas on topics of public interest, it must be in all cases understood that the views so expressed are simply those of the correspondents themselves.

To the Editor of the Intelligencer.

BELLEVILLE, 7th Sept., 1882

SIR,—I noticed in the Daily *Ontario* of the 5th inst. an article stating that ex-Mayor Patterson had almost completed arrangements to move the plant and works of the late Brown & Patterson Agricultural Works, Whitby, to Belleville, and we are all anxious and willing to encourage any new industry in our city that will give employment to the workingman and machinist, remunerating industry, and thus add to the growth and prosperity of the city of Belleville and its surroundings. But "fair play is the jewel," and we feel like opposing class legislation and monopolies.

Mr. N. W. Brown, senior partner of the late firm of Brown & Patterson, Whitby Agricultural works, has already come and established himself in his former line of business, and has not asked for a bonus, or yet exemption from taxes. And he being the patentee of the Whitby Harvester of which so many have been sold in this and adjoining Counties, giving universal satisfaction, he is now preparing to manufacture and supply this same line of goods, improved, and cheaper than they have yet been placed on the market. Now in view of the above facts, we contend that it would be unwise and unjust to grant exclusive privileges to any one firm, over Mr. Brown and other manufacturers in the same line.

JUSTICE.

Catarrh of the Bladder.

STINGING irritation, inflammation, all Kidney and Urinary Complaints, cured by "Buchupaiba." $1.

The Land Regulations.

The Dominion land regulations are much more liberal than those of the United States. The settlement duties are more onerous and the fees higher across the line. Second homesteading is not allowed. In our Northwest, the settler obtains full possession of his homestead at the end of three years; in the States, five years must elapse from the date of entry. The American regulations are so framed that speculative squatting, the curse of this country, is practically impossible. Thus the settler is compelled to swear that he enters upon the land not for the purpose of speculation, nor directly or indirectly for the use or benefit of any other person or persons; but that he intends to hold and cultivate the land for a continuous term of five years and to fulfil the prescribed settlement duties and that the homestead is for his own exclusive use and benefit. And in making final proof at the end of the five years, he must swear that no part of the land has been alienated except for church, cemetery, school or railway purposes. If it is found that the settler has in any manner abused the confidence of the Government, his homestead with his improvement reverts to the public domain.

When dishonest squatters come to grief in the Canadian Northwest, kind-hearted sympathisers, like the Toronto *Globe*, gravely warn the Dominion Government that the injured innocents will be compelled to seek homes across the line. By all means let them go. The Canadian regulations are so liberal that the man who abuses them and robs the Government, either in his own interest or in behalf of some "boss" speculator who employs him, deserves no consideration here as he will receive none there. The department of the interior cannot do better than copy the oath administered in the United States. It would not alarm the honest settler, while it would bring the dishonest one within the bounds of the law. Whatever action it may see fit to take, the Department should not relinquish its exertions until the nefarious business is stamped out. The speculative squatter is the worst enemy of the country. He retards the settlement, deprives bona fide settlers and immigrants of their just rights, and brings odium upon the Northwest.

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1 Druggists.

Midland Railway of Canada.

PETERBOROUGH, Ont., Sep. 7th 1882.

The traffic of the above railway for the week ending Sep. 2nd, 1882, was as follows:

Passengers and Mails, $7,988.40; Freight, $13,622.58; Total, $21,610 98, as compared with $18,963.40 for the corresponding week of 1881, being an increase of $2,647 58; and the aggregate traffic to date is $669,258.11, being an increase of $160,341.41 over 1881.

J. FRITH JEFFERS,
Auditor

—On the morning of the 5th. the body of Robert Alexander, of the 3rd concession of St Louis de Gonzague, was found floating in the Beauharnois canal opposite the store of G. W. Shannon. It was found to be fearfully cut up, how or by what means remains a mystery. There are three cuts on the head, one in the chest, one in the abdomen and one leg broken.

—A farmer named Gabriel Delisle committed suicide at Sutton, P.Q., on Sunday. He was a married man, about 40, with a wife and seven children, and was very sober. About a week ago he showed signs of mental derangement, and on his going out on Sunday afternoon his wife sent two of the children with him. He sent them back, however, and not long after was found, quite dead, hanging by the neck in his sugar-house.

If Nearly Dead

after taking some highly puffed up stuff, with loud testimonials, turn to Hop Bitters and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes, or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides, it is the best family medicine on earth.

COUGHS AND COLDS.—If taken in time are easily cured,—if allowed to continue will result in incurable consumption. Allen's Lung Balsam has the confidence and support of the medical faculty, and is recommended by all who are acquainted with its virtues

Dropsy is essentially a watery condition of the Blood, dependent upon disordered Kidneys. Burdock Blood Bitters are strongly Diuretic and consequently the best known remedy, acting as it does upon the entire Secretory System.

BAXTER'S MANDRAKE BITTERS never fail to cure Costiveness and regulate the Bowels.

*** "Do boldly what you do at all." Boldly do we affirm that Kidney-Wort is *the* great remedy for liver, bowels and Kidney diseases. rheumatism and piles vanish before it. The tonic effect of Kidney-Wort is produced by its cleansing and purifying action on the blood. Where there is a gravelly deposit in the urine, or milky, ropy urine from disordered kidneys, it always cures.

Building Societies and other Monetary Institutions.

Mr. N. S. Garland, Clerk of Statistics in the Finance Department at Ottawa, has sent us a compilation made by him of the laws relating to Building Societies and other Monetary Institutions. This work will fill a long felt want, as the laws relating to such institutions are scattered here and there through the statute books of the several Provinces, both before and after Confederation, and also form part of the laws of the Dominion. The value of such a work as a book of reference can therefore be seen. The difficulty of Mr. Garland's task has been great, but his ability and his special knowledge of the subject have enabled him to discharge it in a highly satisfactory manner, as is evidenced by the volume before us, a handsome book of 416 royal 8vo. pages. Its contents include the laws relating to Building Societies in the Provinces of Upper and Lower Canada—now Ontario and Quebec—New Brunswick, Nova Scotia, Prince Edward Island, Manitoba, British Columbia, and all Acts relating thereto passed by the Dominion Parliament; also, the Joint Stock Company Act of 1877, and an Act authorizing corporations and institutions without the limits of Canada to lend and invest moneys in Canada; an Act relating to interest on moneys secured by mortgage on real estate; a complete and accurate table of all Companies authorized by Private Act—with the amendments thereto, if any—alphabetically arranged; the Ontario Joint Stock Company's Act; an Act to confer additional powers upon Joint Stock Companies, and also the Joint Stock Companies Amended Ordinance of British Columbia; the Credit Foncier Franco-Canadian; the Credit Foncier of the Dominion of Canada; an Act to repeal the duty on Promissory Notes, Drafts, and Bills of Exchange, (with the original Act retained for reference); The Canada Pacific Railway Act; with other Acts and Amendments that have been passed during the last Session of the Dominion Parliament relating to the above Companies; together with a brief review of the progress of Building Societies and Loan Companies in Canada for the past eighteen years. To which has been added Acts relating to Banks and Banking, compiled by William Wilson, Esq., Assistant Law Clerk, House of Commons

The work has been published by subscription at $4 in full cloth or $4 50 half calf, law style, but copies can probably be obtained from the author or from the publisher, Mr. A. S. Woodburn, Ottawa.

PEARLS. Get your mouth full by using "TEABERRY," the new wonder for the Teeth and Breath. Brush vigorously. See directions. 5 cent samples.

A Pittsburg paper reports that the old Haymaker gas well at Murraysville, Penn., is making things lively in the immediate vicinity It is producing gas in enormous quantities, with a roar like that of Niagara, and trembling like earthquake shocks. The other day some workmen put into it a charge of sulphuric ether, when upon huge chunks of rock were discharged and hurled high into the air. It is believed that the escape of gas will soon terminate in a good flow of oil.

O. Bortle, of Manchester, Ontario Co., N.Y. writes:—"I obtained immediate relief from the use of *Dr. Thomas' Eclectric Oil*. I have had Asthma for eleven years. Have been obliged to sit up all night for ten or twelve nights in succession. I can now sleep soundly all night on a feather bed, which I had not been able to do previous to using the Oil

BELLEVILLE, THURSDAY, SEPT. 7.

City and Vicinity.

THE Varuna makes her last trip to the 1000 Islands on Saturday next, the 9th inst.

Two drunks were confined in the cells last night.

MR. R. J. WALLBRIDGE is in the city on a brief visit.

A SPECIAL meeting of the City Council has been called for this evening.

BATTERSBY'S Dominion Railway Guide for September has been received.

STIRLING is agitating for a policeman, and proposes to give him $200 per annum.

MR. HARRISON'S deer did not like his new quarters in Mr. Hart's shop, and he got away yesterday and returned to his old master.

THOS. CHEEVERS was brought up at the Police Court this morning charged with allowing gambling in his saloon. His case was adjourned till Monday.

THE Liberal Conservative Association of West Hastings will meet to-morrow afternoon at 2 o'clock to elect representatives to the Convention at Toronto.

THE ancient poplar tree near the scene of yesterday's fire will die, the roots having been burned. So passes away one of the relics of the village of Belleville.

THE preliminary examination of Mr. Robertson, M. P., respondent in the West Hastings election case, will take place on Monday before Mr. A. G. Northrup.

THE fire-alarm was rung this morning, and the firemen were called out to extinguish the embers of the fire at Lake & Jenkins' which had burst out afresh.

OFFICER HAYES arrested, this afternoon, a small boy from Deseronto giving his name as Joe Smart, for carrying a revolver. He says he bought it from a companion in Deseronto.

THE amateur dramatic association of Trenton—called "The Corps Dramatique"—has commenced operations for the season. It is going to put Knowles' "Hunchback" into rehearsal. The Trenton amateurs are ahead of their Belleville friends this year.

MR. A. A. MACDONALD, the athlete, arrived here this morning from Boston. After the games in which he defeated Ross and Dinnie he was prostrated by an attack of summer complaint, and was unable to take part in any of the games immediately following.

IF the members of the Oka Lacrosse Club do not turn out to practice there is no possibility of their playing another match this season. There will be a practice on Monday morning at 6 o'clock, and it is desired that every active member will be present.

SERGT. TAMMADGE arrived home this morning from the Dominion rifle matches at Ottawa. None of the local riflemen succeeded in getting on the fifty who shot for places on the Wimbledon team. Lieut. Hastings and Pte. Soby will return this evening, and Corp. Hilton to-morrow.

ARRANGEMENTS are now being made for making the Oddfellows' Band the Battalion Band of the Argyle Light Infantry, and there is every probability of the arrangements being successful. The 15th Battalion, as reconstituted, will need a first class band, and it will secure it in the Oddfellows'.

IT is thought by a good many persons in the city who are well capable of judging, that the Metropolitan Block would never do for an Opera House, and could not be made to meet the requirements of one because it has the fatal fault of being too narrow, and could not furnish sufficient stage accommodation.

A MILKMAN living in the vicinity of Belleville has a crab apple tree which has blossomed twice this year. In the spring the tree was covered with blossoms, but they were all shaken off, and the branches remained bare until a week or two ago, when they burst forth into blossom again, and are still in full bloom.

WEATHER PROBABILITIES—Toronto, Sep. 8.—Lakes, and upper St. Lawrence, moderate to fresh northerly to north-easterly winds, fine slightly cooler weather.

MESSRS. Lake & Jenkins are undecided, as yet, whether or not they will resume business in Belleville. Mr. Lake says that, having been burnt out twice since he came here, and four attempts having been made to fire his premises, he has almost become discouraged, and is doubtful whether to remain in Belleville or not. He will decide before Monday what he will do. Messrs. Lake & Jenkins desire to thank their friends as well as the firemen for the service rendered during the fire in the saving of that portion of their property which was rescued from the flames.

THE MURRAY CANAL.—Work on the Murray Canal is evidently going forward with energy. The Brighton *Ensign* says that Messrs. Silcox & Mowry are, evidently, pushing, energetic men. "No sooner were the ceremonies attendant on breaking the first sod over than the ploughs and scrapers were in motion, and now some thirty or more men are at work. They are building a barn 28x100 feet to accommodate some of the teams engaged on the works. This will give room for 48 horses, and space for hay, straw, and grain."

OBIT.—We note to-day the death of Mrs. Frances Wood, wife of Thos. S. Wood, Esq., at the residence of their daughter in Picton at the ripe old age of 88. Mrs. Wood is the mother of Dr. O. C. Wood, formerly of Ottawa, now of Southern California; A. F. Wood, Esq., of Madoc, and Hon. S. C. Wood, of Lindsay. Few people attain her age, but she leaves behind her husband, aged 92 years. They have lived together nearly 70 years. The deceased has left a large number of descendants, it being possible for four generations to be present at her funeral.

PICNIC.—A very large number of the parents, children, and friends of the Union Sabbath School, 15th Concession of Huntingdon, met in Mr. Tummon's grove on Thursday, 31st ult., when a most enjoyable time was spent. Addresses were delivered by Revs. Dunkley, Leach, Walker, McAmmond and Messrs. Henning and C. Tummon, who were listened to with marked attention. What appeared to be the most pleasing feature was the excellent table spread in an adjoining part of the grove and to which all did ample justice. The proceeds were over $60. The officers of the school are to be complimented upon their grand success.—COM.

BEFORE purchasing Ready made Clothing be sure and look through HENNESSY'S stock. He has over 300 suits in all, and is offering them at actual cost.

BIG FIRE AT CAMPBELLFORD.

Heavy Losses.

(From our own Correspondent.)

CAMPBELLFORD Sept. 8.

The most destructive fire that has occurred in our village took place this morning at 3 o'clock. It originated in a building in rear of the St. Lawrence Hotel, occupied by Dr. Byam as a stable, which was quickly consumed, with its contents, including several horses, belonging to Dr. Byam, and also a horse and buggy owned by Dr. McCrea. Thence the fire spread to the Windsor Hotel barn—a brick structure—which was gutted, but the hotel and sheds were saved. A nice little cottage, owned by Mr. Gibb, was also destroyed. The loss to Dr. Byam and Messrs. Blute, Carr Brothers and Gibb was heavy. There was but little insurance on the property. The fire was supposed to be incendiary.

Sporting Notes.

The return match between the Okas and the Maple Leafs of Kingston, is to take place on the 21st.

At the D. R. A. meeting, the 10th Royals, Toronto, took first prize in the Dominion of Canada match. The G.G.F.G. team won the second prize. The Province of Quebec won the London Merchants' Cup.

The R. C. Y. C. race for the Prince of Wales' cup was sailed yesterday in a light wind and was won by the Cygnet, which lost two or three minutes at the start. The actual time occupied by each yacht in making the race was as follows: Cygnet 6 h. 45 m.; Aileen 6 h. 53 m.; Oriole 7 h. 18 m.; Madcap 7 h 28 m.; Verve 7 h. 32 m.; Alarm not timed. Cygnet takes the prize. Aileen was second, Verve third, Madcap fourth and Oriole fifth on time allowance. The Aileen and Oriole lost more than a mile by an error as to the position of the Mimico buoy.

The Celtic four-oared crew have accepted the challenge of the Toronto professional four to row a match for $1,000 a side.

The single scull race at Halifax resulted as follows: Conley 1; Hosmer 2; Hamm 3; Smith 4. Hamm would have won but for an accident to one of his outrigers.

Marine.

The schr. *Delaware* arrived this morning from Cleveland with coal for Downey and Preston.

The schr. *Hanlan* arrived last evening, light, and is loading posts, basswood, and shingles.

The schr. *Sea Foam* will clear this afternoon with lumber from A. Sutherland's.

The schr. *Mary Foster* is in with a load of blocks.

The schr *Belle* of Port Dover is in with a load of laths from Deseronto.

The steam-barge *Norman* has left for Oswego with lumber, posts, ties, &c.

The Diamond Dyes always do more than they claim to do. Color over that old dress. It will look like new. Only 10 cents

One dose of BAXTER'S MANDRAKE BITTERS will relieve Sick Headache. One bottle effects a cure. Price 25c. per bottle.

C. BRITTON, Lindsay, Ont., writes:—I have much pleasure in recommending Baxter's Mandrake Bitters in all cases of Jaundice, Biliousness, Sick Headache and Liver Complaint, for they have given universal satisfaction, and I have sold more of them the past season than any other one patent medicine.

A SIMPLE herb found on the sunny plains of a Southern clime has, under the skillful manipulation of DR. VAN BUREN, proved one of the greatest blessings ever sent to suffering humanity. DR. VAN BUREN'S KIDNEY CURE is acknowledged all the world over as the only perfect remedy for Kidney troubles. Your druggist has it.

SMITH MEDICINE Co.

GENTLEMEN,—I have made a trial of one box of Dr. Smith's Great German Worm Remedy, with such good effect that I have no hesitation in recommending it to the public as a prompt and reliable medicine. In fact, those who use it once will always do so. Yours truly,
J. Harvie, 172 Cadieux street.
Montreal, December 9th, 1881.

The Camp.

NO. 3 DISTRICT.

2,000 MEN UNDER CANVAS

BEAUTIFULLY SITUATED.

(From our own Correspondent.)

COBOURG, Sept. 7.

The camp ground is a large field near the R. C. Church and between William and Ontario streets. The camp is not as completely arranged as might be, yet taking into consideration many things perhaps it could not be bettered. The infantry parade field is quite level and will answer the desired purpose very well, some large shade trees being near the centre, which officers take advantage of during company drill. Most of the camps are in a very inefficient condition. This is perhaps owing to the fact that a large number are on parade for the first time. The infantry is composed of many "boys" consequently the dress is not a perfect fit. The Durham and Kingston Batteries are very well filled up and the men on an average have a fair idea of the drill.

The grounds taken up by the cavalry are near those of the infantry; although the field is much smaller, the situation is beautiful, being level as a piano, the camp being only a short distance from town. The streets at night are full of warriors, many we regret to say, need temperance protection. A good deal of complaint is heard through the disgraceful conduct of some soldiers while on the streets during the evening. This will no doubt be shortly remedied.

The brigade staff comprises the following officers:—

Lt.-Col. Villiers, D. A.G., commanding. Major Gordon, 14th Batt., Brigade Major. Capt. and Lt.-Col Rodgers, 3rd Cavalry, Ass't Brigade Major; Major Ross, 16th Batt., Supply Officer; Major King, District Staff, Quarter Master; Surgeon-Major Bristol, 4th Cavalry, Medical Officer; Lt. McNaughton, Cobourg Garrison Artillery, Musketry Instructor; Capt. Farley, B Battery, Provost Officer; Capt. Hodgins, Queen's Own, Orderly Officer; Serg't Herolet, B Battery, Brigade Serg't Maj.; Serg't P. O'Connor, Brigade Clerk; Serg't. O'Connor, B Battery, Provost Serg't.; Serg't Major Field, 14th Batt., Supply Serg't.; Serg't Thos. Wordhead, P. W. O. Rifles, Camp Quarter Master; Serg't Hume, 14th Batt., Serg't Instructor of Musketry.

The camp is composed as follows:

CAVALRY.

The 4th Regiment H.Q. Kingston, Lieut. Col. Dun commanding.

1st Troop—Capt. Knight, Lieut. Purcell and Lieut. Todd.

2nd Troop—Capt. Perry, Lieut. Griffiths, 3rd Troop—Lieut.-Col. Wood, Lieut. Burnett.

4th Troop—Major White, Picton, 37 men.

ARTILLERY.

Durham Field Battery, Capt. McLean commanding, Lieut's Benson and Sanderson, Surgeon Brent, 66 non commissioned officers and men, 4 guns and 29 horses.

Kingston Battery, Capt. Wilmot commanding, 1st Lieuts. P. G. Wilmot, Wm. officers and men, 4 guns and 29 horses.

INFANTRY.

40th Batt. Cobourg, H.Q.—Staff Lieut.-Col. Smith commanding, Majors Elliot and Webb, Paymaster, Major Lloyd, Quartermaster, Capt. Van Ingen, Surgeon Powell, Assistant Surgeon Willoughby, Adj't. Smith composed of 9 companies.

45th, Bowmanville, H.Q. Staff:—Lieut.-Col. Cubitt in command, Majors Deacon and Scabb, Surgeon Boyle, Ass't Surgeon Bryson, Adjutant, Capt. Hodges, Paymaster Scott, Quartermaster Rodgers, comprising 6 companies of 150 officers and men and brass and string band 15 performers.

49th Batt. Belleville, Lt.-Col. Brown commanding, consisting of seven companies, 250 officers and men. A band also accompanies the Batt.

57th Batt. Peterboro. Staff, Lt.-Col. Rodgers commanding, Major Grover, Major and Adjt. Beel; Paymaster, Capt. John Burnham; Qarter Master, Lt. Miller; Surgeon, Kincaid, M. D.; Assistant Surgeon, Dr. O'Gorman, 6 companies and band of 22 members.

This completes the list up to the present.

The inspection is set for Monday next, and will be under the management of Major General Luard, who is expected to arrive on Saturday.

The Hon. Mr. Caron, Minister of Militia, is expected to accompany the inspector.

Excellent reasons exist why *Dr. Thomas Eclectric Oil* should be used by persons, troubled with affections of the throat or lungs, sores upon the skin, rheumatic pains, corns, bunions, or external injuries. The reasons are, that it is speedy, pure and unobjectionable, whether taken internally or applied outwardly.

Nervous debility is a result of indiscretion in the mode of living. Heed nature's unerring laws and take Burdock Blood Bitters, the great System Renovator and Blood, Liver and Kidney regulator and tonic. Sample bottles 10 cents.

PROCLAIM it far and wide that DR. VAN BUREN'S KIDNEY CURE not only immediately relieves all Kidney diseases, but what is more important to the unfortunate sufferer, will ultimately cure him effectually.

For 30 Years

The dark-eyed and lovely daughters of Spanish America have used MURRAY & LANMAN'S FLORIDA WATER as their only cosmetic and toilet perfume. It is the most fragrant, as well as the most lasting of all Floral Waters, and possesses refreshing and invigorating properties not contained in any other preparation of the kind.

A New Principle.

The principle upon which PUTNAM' PAINLESS CORN EXTRACTOR acts is entirely new. It does not sink deep into the flesh, thereby producing soreness, but acts directly upon the external covering of the corn, separates it from the under layer, removes the direct pressure from the part, and at once effects a radical cure, without any pain or discomfort. Let those who are suffering from corns, yet skeptical of treatment, try it, and by the completeness of the cure they will be ready to recommend Putnam's Painless Corn Extractor to others. Sold by W. R. Carmichael

Consumption, that dread destroyer of the human race, is often the result of bad blood and low vitality, a scrofulous condition of the system. Burdock Blood Bitters cure Scrofula in its worst form.

THE WAR IN EGYPT.

ORDERS ISSUED FOR AN ADVANCE.

Part of Arabi's Position Flooded.

Another Hitch in the Negotiations With Turkey.

RUSSIA PREPARING FOR CONTINGENCIES.

LONDON, Sept. 8th.—Despatches from the front report that a general advance of the British force has been ordered, with the intention of attacking Arabi on Monday or Tuesday. Ismalia has been denuded of troops, only two regiments remaining in garrison. General Wolseley's estimated strength when the Highland Brigade joins him is 15,000 men and 50 guns, and opposed to this Arabi is reported to have a force of 62,000 regulars and 30,000 Bedouins. These, however, are not all in front of General Wolseley's division, a large number remaining at Kafr-el-Dwar and Cairo. Arabi's position at Kefr-el-Dwar has been flooded by the unusual height of the Nile floods. There is still a hitch between Lord Dufferin and the Porte upon the Military Convention and the proclamation of Arabi, the wording of the latter document having been slightly altered from the draft to which Lord Dufferin assented. Instructions from Earl Granville are awaited. This will probably still further delay the departure of Turkish contingent. It is on the cards, indeed, that they will not arrive in Egypt in time to take part in any of the fighting. Russia in view of possible Oriental difficulties is rapidly mobilizing her armies so as to be ready to seize upon any advantageous opportunity for extending her territory.

LATEST FROM THE SEAT OF WAR.

Mandara Reconnoitred.

ALEXANDRIA, Sept. 8th.—The mounted infantry made a spirited reconnoissance of Mandara yesterday. They came in contact with the enemy. Six of the latter were killed or wounded.

MORNING DESPATCHES.

AMERICAN.

TRYING TO CORRUPT JURORS.

NEW YORK, Sept 8.—The *Herald's* Washington special says: Besides Dickson, Star route jurors Olcott and Donihan were approached. The person who approached one of the jurors is well known in Washington; he presented a handful of bills to a juror, and stated if he would see there was a strong jury in behalf of Dorsey, it did not make any difference what became of the other defendants. There is reason to believe that other jurors have been approached and repelled the approachers, but have not mentioned the matter to the court. There are also reports as to one or two jurors who are alleged to have yielded to the temptation.

LOSSES BY TEXAS FLOODS.

FORT CONCHO, Texas, Sept. 8.—The region visited by the flood two weeks ago has been thoroughly searched; 53 white bodies have been recovered and recognized, and a large number of mostly Mexican horses have also been recovered, some at Los Angelos, Ben Ficklin and Conchofero. $12,000 loss in stock and property in surrounding country, and in the aggregate much more. The relief subscriptions already amount to $10,000.

SAN ANTONIO, Texas, Sep. 8.—There was a violent storm here last night, and six inches of rain fell. The river rose eight feet, and many houses were flooded and some carried away. One person is reported drowned. A number of bridges in the surrounding country were washed away. The town of Eagle Pass was overflowed.

YELLOW FEVER.

PENSACOLA, Sep. 8.—There were nine new cases of yellow fever here yesterday.

A $120,000 STEAL.

WASHINGTON, Pa., Sept. 8.—An expert reports that the defalcation in the Washington Savings Bank amounted to $120,000. Ruth, the defaulter, acknowledges getting away with sixty thousand, leaving forty thousand unaccounted for.

NEW YORK, Sept. 8.—Arrived, *Celtic* from Liverpool.

IMITATING GUITEAU.

PROVIDENCE, Sep. 8.—James Dunnanmey, a convict on trial here for a murderous assault on a fellow convict, yesterday attempted to imitate Guiteau's behavior in Court by denouncing his counsel and witnesses, and assuming the conduct of his own defence. Dr. Schwyer, of the Insane Asylum, testified that he did not regard the prisoner as insane. He was ingeniously cross-examined by the culprit.

A BIG EXPLOSION.

GUYAMAS, Mexico, Sep. 8.—The powder house of Fieldner and Vanbarsted was blown up on the 2nd inst., with 10,000 pounds of powder. One man had his legs blown off. The houses in the neighborhood were cracked, roofs destroyed and doors and windows blown in. The damage is estimated at $100,000.

SMALL POX IN NEW JERSEY.

PATERSON, N. J., Sep. 8.—There are thirty cases of small-pox here. The churches, halls and schools are closed, and street gatherings are prohibited.

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinary or Liver Diseases, as they only relieve for a time and make you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

AFTERNOON DESPATCHES

FRANCE'S FOREIGN RELATIONS.

PARIS, Sept. 8.—Duclerc, President of the French Cabinet, declares foreign relations with France are excellent. France needs no alliances, and her aim is peace.

A CONCILIATORY ADDRESS.

DUBLIN, Sept. 8. Clifford Lloyd made a conciliatory speech at Loughrea yesterday.

HAMBURG, Sept. 8.—Arrived, the *Cimbria*.

COREA AND JAPAN.

SHANGHAI, Sept. 8.—The difficulty between Japan and Corea has been arranged. Corea agreed to pay £500,000 compensation to Japan and £50,000 to the relatives of murdered Japanese.

FRENCH OFFICERS ARRESTED.

BERLIN, Sept. 8.—While the grand cavalry manœuvres were being conducted by the Crown Prince yesterday, two French officers of high rank in the civilian dress were arrested; they had been making sketches of the ground.

Dr. E. C. West's Nerve and Brain Treatment is a never failing cure for Nervous Neuralgia, Nervous Headache, Overworked Brain, &c. Sold at James Clarke & Co's.

Sure, safe and effectual, that old remedy, DOWNS' ELIXIR, for the cure of Coughs and Colds.

Hall's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by Jas. Clarke & Co., Belleville, Ont.

BIRTH.

At Belleville, on the 7th inst., the wife of Mr. A. M. KEMP, St. Catharines, of a daughter.

DIED.

At the residence in Picton of her daughter, Mrs C. Mott, on Tuesday the 5th Sept., Mrs. FRANCES WOOD, wife of Thos. S. Wood, aged 88 years.

Commercial.

N. H. DOWNS'
Vegetable Balsamic
ELIXIR!

This valuable medicine is purely vegetable, the discovery of which was the result of many years' close study, in order to discover the cause, the symptoms and the cure—viz:

Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Influenza, Pleurisy, Hoarseness, Spitting Blood, Bronchitis,

and every species of oppression of the Chest and Lungs. In all cases where this Elixir has been duly administered its efficacy has been invariably manifested, convincing the most incredulous that

CONSUMPTION

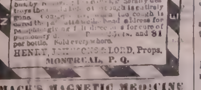
is not incurable, if properly attended to.—Consumption at its commencement, is but a slight irritation of the membrane which covers the lungs; then an inflammation, when the cough is more observable, but rather dry; then [illegible] fever and the pulse is more frequent, [illegible] This Elixir in curing the above complaints, operates so as to remove all morbid irritations and inflammation from the lungs to the surface, and finally expel them from the system. It facilitates expectoration.

IT HEALS THE ULCERATED SURFACES

and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. It is free from strong opiate and astringent articles, which are of so drying a nature as to be in great danger of destroying the patient; whereas this medicine never dries or stops the cough, but, by removing the cause, generally destroys the [illegible] enough is entirely gone. [illegible] for pamphlet giving full directions for cure of pulmonary d[illegible] 25cts. and $1 per bottle. Sold everywhere.

HENRY, JOHNSONS & LORD, Props.
MONTREAL, P. Q.

MACK'S MAGNETIC MEDICINE



Is a Sure, Prompt and Effectual Remedy for Nervousness in all its stages, Weak Memory, Loss of Brain Power, Sexual Prostration, Night Sweats, Spermatorrhœa, Seminal weakness, and General Loss of Power. It repairs Nervous waste, rejuvenates the jaded Intellect, Strengthens the enfeebled Brain, and Restores surprising Tone and Vigor to the Exhausted Generative Organs. The experience of thousands proves it an Invaluable Remedy. The Medicine is pleasant to the taste, and each box contains sufficient for two weeks' medication, and is the cheapest and best. ☞ Full particulars in our pamphlet, which we desire to mail free to any address.

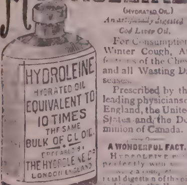
HYDROLEINE



(HYDRATED OIL.)
An artificially digested Cod Liver Oil.

For Consumption Winter Cough, Affections of the Chest and all Wasting Diseases.

Prescribed by the leading physicians of England, the United States and the Dominion of Canada.

A WONDERFUL FACT.

HYDROLEINE [illegible] perfectly [illegible] a [illegible] tual digestion of the oil, and just as the [illegible] water, [illegible] with the liquid contents [illegible] stomach, and enters immediately into the system to nourish and build it up. The efficacy of HYDROLEINE [illegible] cases of Consumption, as from its valuable tonic effect on the nervous system in addition to its [illegible] concerned in the production of *Fat* in the body, it causes [illegible] *thin habit, who do not present any evidence of disease.*

Unlike ordinary preparations of Cod Liver Oil, it produces no unpleasant eructation or sense of nausea and should be taken in such very *much smaller doses* according to the directions, as will ensure its *complete assimilation*, this at the same time, *renders its use economical in the highest degree.*

For sale by all Druggists.

"We have sold the above remedy for several months and find it spoken of very favorably by both the medical profession and the public.

We can safely recommend it to parties needing such a remedy. Signed,

Daily Intelligencer.

WON BY NINE.

BY RICHARD DOWLING.

From the Pictorial World.

'How do we now stand, Mrs. Fennessey?' he asked.

'You owe me seventeen shillings in addition to the note. You have had a hundred and seventeen throws. Only it is for charity, Mr. Fitzgerald, I would say you are taking more trouble about the ring than it is worth.'

'It isn't for charity, I assure you, Mrs. Fennessey. This is purely a business affair. I must win that ring.'

When four o'clock came he was still the lowest. At seven the bazaar opened for the last time for the year. At a quarter to nine a cavalry lieutenant, whom Ellen brought to the table, threw ten.

'How many books of tickets have you got, Miss Cantwell?' asked Fitzgerald.

'Eight books of twenty each,' she answered.

'And how many have you, Mrs. Fennessey?'

'Fourteen, of twenty each.'

'I'll buy the lot and throw till the last moment; for I must win if it is possible.'

He sat down and began to throw as quickly as possible. At a quarter to ten he cast nine. With a smile of pleasure he drew himself up to his full height

'Virtually, the raffle is closed Mrs. Fennessey.'

'Yes, virtually.'

'You think there are no more tickets out?'

'I am almost sure. All the tickets not sold in the room were thrown for early in the evening.'

'Then I'll wait until the end,' he said.

When the clock struck ten, he said, 'Now, Mrs. Fennessey, will you give me the ring?'

'It is not usual to give anything won until to-morrow,' she replied.

'Here is my I O U for it. Thank you.'

The auction had just begun when he and Ellen found themselves in a quiet part of the room, behind a screen, near a window.

He said, 'This night twelve months I carried a bouquet for your sake, carry this ring until I give you a plainer one with a dearer meaning! Will you, Nellie, my love?'

'Oh, but what will your mother say?'

'Is that your only difficulty?'

'Yes.'

'When first I spoke to her she said I'd change my mind in a month. I told her I would never change. She asked me to allow myself a year to try myself, and I promised. Then I asked her to give this ring and that candelabra, and I made up my mind to win for my darling's engaged ring the one my mother had given. Are you quite content now?'

'Perfectly.'

'My Nellie, my own darling Nellie! You will not keep me long waiting? I have waited a whole year. Your father, I am sure, has no objection. You will let me give you that other ring in a month or two?'

'Yes.'

Some one approached. It was a military tread—the tread of a cavalry man.

'By Jove,' said the approaching man, 'some other fellow WON BY NINE!'

THE END.

Hungerford Council.

TOWN HALL, July 15, 1882.

Council met pursuant to adjournment, all the members present.

[illegible] road surveyor be sent to examine the road, leading to boundary by Beatty's and Cassiday's, and to stake out road where most convenient and at least expense for them to get out.

Moved by the 2nd Deputy Reeve, seconded by the 1st, and resolved, That the Road Surveyor be instructed to have the bridge near Doran's repaired; also to repair or change the bridge at Farrell's.

Moved by Henry Mouck, seconded by the 2nd Dep'y Reeve, That the petition of H. A. Allan be laid over for further consideration, and that the Clerk communicate with Mr. Appleby concerning where he intends to locate the Colonization road and lay out the money.

Moved by the 1st Dep. Reeve, seconded by F. Murphy, and resolved, That the following sums be granted on petition for the year 1882: Richardson Marlin, $75; George Oliver, $20; Thomas Gaille, $40; Wm. Haley, $12; Wm. Flemming, $25; Patrick Riley, $25; James Elliott, $25; Henry Larkin, $25; J. Walker, $25; John Gibson, $25; Geo. Young, $15.

Moved by F. Murphy, seconded by Henry Mouck, that the $75 on R. Marlin's petition be not granted, it being a County road.

Moved by the 2nd Dep. Reeve, seconded by the 1st, and resolved, that R. Marlin's petition be laid over to the next meeting of the Council, for further consideration.

Moved by the 2nd Dep'y Reeve, seconded by the 1st, and resolved, That Miss Pringle (a poor girl) get $5 from this Council, order to be given to George Maclin.

The following sums were ordered to be paid: Daniel Golan, $5, for gravel; Hugh Lattice $6 50; Patrick Walsh, $10.

Ordered, that the Road Surveyor have Goose Creek bridge, near Whalen's, repaired.

T. GRAHAM, T. Clerk.

Go to the Fairs!

The term "Fair" may not always be the most appropriate one for the autumn Shows. *Exhibition* is a better word, but far less frequently used. Not only should the farmer go to the Fair, but he ought to take his family with him. The going, simply, is not enough. All members of the household should make it a point to take something to exhibit. One of the boys may take a fine colt, and if it is his own, there will be all the more pride in obtaining a prize. Another son may have a yoke of steers that he has trained for the exhibition. As for the girls, there are a thousand different things that can be made with the needle that will grace the walls of the "Woman's Pavilion," or the rooms of the Household Department. Even so common a thing as bread may be baked with special care, and will attract much attention. Then there are the garden vegetables, potatoes—a new kind, perhaps—pumpkins, squashes, etc., and the products of the farm and orchard. It is not wise to leave all these things at home, and then criticise the Exhibition because you can say, "We have better things at home." To go and take things to the Fair is not enough. The Exhibition should become a school at which all exhibitors and visitors make a study of the implements, cattle, fruit, grain, poultry, etc., that are there. A farmer may owe his success in growing some crop to the knowledge gained at a town Fair. The farmer that has a real pride in the farm will take great interest in the local Fair, and will exhibit the best products of farm life in the boys and girls, who are interested exhibitors at the Fairs. The day at the Fair should be a social one, every one making it a point to meet many neighbors and others with a pleasant word. It is a place for asking and answering questions, and the person who goes through the Exhibition without opening his mouth, is certainly not getting all the good that is within his reach. It is our advice that all go to the Fair—all take something to show, and all find out as much as possible about all the various exhibits that are made by others. In this way the day at the Fair will be a most profitable one. It may be that a premium will not be taken by every one, but the prize money is only a small part of the value that an exhibitor may receive from a Fair, that has been used as a means for a better understanding of the products of the farm, garden, and household.—*American Agriculturist for Sept.*

Samson lost his strength with his hair. Thousands of men and women lose their beauty with theirs, and very large numbers restore the ravages of time by using the famous Cingalese Hair Restorer. Sold at 50 cents per bottle by all Druggists.

Important to Farmers, etc.

If you would keep your kine, cattle, hogs, horses, sheep and poultry in the most perfect health and remunerative condition, mix HARVELL'S CONDITION POWDERS occasionally with their feed. These great specifics are *the wealth* of the barn yard. See to it! Sold every where.

The most wonderful curative remedies of the present day, are those that come from Germany, or at least originate there. The most recent preparation placed upon the market in this country, is the GREAT GERMAN INVIGORATOR which has never been known to fail in curing a single case of impotency, spermatorrhea, weakness and all diseases resulting from self abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangements of the nervous system. For sale by druggists, or sent free by mail on receipt of the price, $1.00 per box, or six boxes for $5.00. Address James Clark & Co., Sole agent for Belleville. Send for circular.

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrh, Bronchitis, Asthma and Lung Diseases by Dr. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the seat of disease. Read and judge for yourself:—

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. JOHN P. WHELAN, Manager of POST and TRUE WITNESS, Montreal. Mr. C. HILL, Montreal, catarrh and bronchitis. Mr. DEBOUCHERVILLE, of the Indian Department, Ottawa, catarrh of many years; now cured. Mr. GEO. AGER, Ottawa, catarrh and lung disease; cured. Mrs. SMITH, London, wife of Medical Detective, cured of catarrh. GEO. MAGUIRE, Toronto, 482 Adelaide street West; daughter cured of asthma. GEORGE WILLIS, Exeter, Ont., catarrh and bronchitis. J. D. ARMSTRONG, 186 Yonge street, Toronto, catarrh and catarrhal deafness. THOMAS TELFER, 12 Melinda street, Toronto, asthma; cured. Mr. BENJ. A. DRAKE, St Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. BENOIT, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma and bronchitis for over eight years, and who is now perfectly cured.

Mrs. ADAMSON, of Belleville, cured of bronchitis and her sister cured of bronchitis and lung disease.

I have no hesitating in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis. JOHN C. FLEMING, Editor of POST and TRUE WITNESS, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write inclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souvielle and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

$1,000 Forfeit!

Having the utmost confidence in its superiority over all others, and after thousands of tests of the most complicated and severest cases we could find, we feel justified in offering to forfeit One Thousand Dollars for any case of Coughs, colds, sore throat, influenza, hoarseness, bronchitis, consumption, in its early stages, whooping cough, and all diseases of the throat and lungs, except Asthma, for which we only claim relief, that we can't cure with West's Cough Syrup, when taken according to directions. [illegible] by all druggists, or sent by express on receipt of price. JOHN C. WEST & Co., sole proprietors, 81 and 83 King St. East Toronto, Ont. For sale at Jas. Clarke & Co.'s Drug Store.

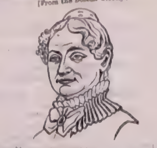
A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]



Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of *either* sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Philadelphia, Pa. (3) Mrs. A. M. D.

KIDNEY-WORT
IS A SURE CURE
for all diseases of the Kidneys and
LIVER

It has specific action on this most important organ, enabling it to throw off torpidity and inaction, stimulating the healthy secretion of the Bile, and by keeping the [illegible] free condition, effecting its regular discharge.

Malaria. If you are suffering from malaria, have the chills, are bilious, dyspeptic, or constipated, Kidney-Wort will surely relieve and quickly cure.

In the Spring to cleanse the System, every one should take a thorough course of it.

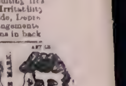
TO NERVOUS SUFFERERS—THE GREAT EUROPEAN REMEDY—DR. J. B. SIMPSON'S SPECIFIC MEDICINE.

DR. J. B. SIMPSON'S SPECIFIC MEDICINE is a positive cure for Spermatorrhea, Impotency, Weakness, and all diseases resulting from Self-Abuse, as Nervous Debility, Irritability, Mental Anxiety, Languor, Lassitude, Depression of Spirits and Functional Derangements of the Nervous system generally, Pains in back or side, Loss of memory, Premature Old Age and diseases that lead to Consumption, Insanity, and an early grave, or both. No matter how shattered the system may be from excesses of any kind, a short course of this Medicine will restore the lost functions and procure Health and Happiness, where before was despondency and gloom. The Specific Medicine is being used with wonderful success. Pamphlets sent free to all. Write for them and get full particulars.



Price, Specific, $1.00 per package, or six packages for $5.00. Will be sent by mail on receipt of money. Address all orders,

NORTHRUP & LYMAN,
Toronto, Wholesale Agents.

Sold in Belleville by Jas. Clarke & Co. 1d&w

Cathartic Pills

Combine the choicest cathartic principles in medicine, in proportions accurately adjusted to secure activity, certainty, and uniformity of effect. They are the result of years of careful study and practical experiment, and are the most effectual remedy yet discovered for diseases caused by derangement of the stomach, liver, and bowels, which require prompt and effectual treatment. AYER'S PILLS are specially applicable to this class of diseases. They act directly on the digestive and assimilative processes, and restore regular healthy action. Their extensive use by physicians in their practice, and by all civilized nations, is one of the many proofs of their value as a safe, sure, and perfectly reliable purgative medicine. Being compounded of the concentrated virtues of purely vegetable substances, they are positively free from calomel or any injurious properties, and can be administered to children with perfect safety.

AYER'S PILLS are an effectual cure for **Constipation or Costiveness, Indigestion, Dyspepsia, Loss of Appetite, Foul Stomach and Breath, Dizziness, Headache, Loss of Memory, Numbness, Biliousness, Jaundice, Rheumatism, Eruptions and Skin Diseases, Dropsy, Tumors, Worms, Neuralgia, Colic, Gripes, Diarrhœa, Dysentery, Gout, Piles, Disorders of the Liver,** and all other diseases resulting from a disordered state of the digestive apparatus.

As a Dinner Pill they have no equal.

While gentle in their action, these PILLS are the most thorough and searching cathartic that can be employed, and never give pain unless the bowels are inflamed, and then their influence is healing. They stimulate the appetite and digestive organs; they operate to purify and enrich the blood, and impart renewed health and vigor to the whole system.

Prepared by Dr. J. C. Ayer & Co.,
Practical and Analytical Chemists,
Lowell, Mass.

Daily Intelligencer.

NOT LOST.

Fret not because the promise of the buds
The fruit doth not fulfil;
Was not the hope and fragrance which they brought,
To us a blessing still?

Nor count as lost the seed we sow in faith
Upon a barren land
And reap not. Doth not God the purpose know
And bless the sower's hand?

Spurn not the vow the eager spirit makes
That weak flesh cannot keep;
The ocean bubbles break, but underneath
There flows a current deep.

The buds that blossom not, the withered seed,
The vows we leave undone,
Are gems we drop; yet angels mark their fall,
And raise them to the crown.

UNFINISHED STILL.

A baby's boot and a skein of wool,
Faded and soiled and soft;
Odd things, you say, and no doubt you're right,
Round a seaman's neck this stormy night,
Up in the yards aloft.

Most like it's folly; but, mate, look here;
When first I went to sea
A woman stood on the far-off strand,
With a wedding ring on the fair soft hand
Which clung so close to me.

My wife! God bless her! The day before
She sat beside my foot,
And the sunlight kissed her yellow hair,
And the dainty fingers soft and fair
Knitted a baby's boot.

The voyage was over; I came ashore;
What, think you, found I there?
A grave the daisies had sprinkled white,
A cottage empty and dark as night,
And this beside her chair.

The little boot, 'twas unfinished still—
The tangled skein lay near,
But the knitter has gone away to rest,
With the babe asleep on that quiet breast,
Down in the churchyard drear.

Aug. 7th. SARA A. FISH.

OUTSIDERS.

John x., 16: "Other sheep I have which are not of this fold."

There is no monopoly in religion. The grace of God is not a little property that we may fence off and have all to ourselves. It is not a King's park at which we look through a barred gateway, wishing that we might go in and see the deer and the statuary, and pluck the flowers and fruits in the royal conservatory. No, it is the Father's orchard, and everywhere there are bars that we may let down and gates that we may swing open. In my boyhood, next to the country school house there was an orchard of apples owned by a very lame man, who, though there were apples in the place perpetually decaying, and by scores and scores of bushels, never would allow any of us to touch the fruit. One day in the sinfulness of a nature inherited from our first parents who were ruined by the same temptation, some of us invaded that orchard; but soon retreated, for the man came after us at a speed reckless of making his lameness worse and cried out: "Boys, drop those apples or I'll set the dog on you." Well, my friends, there are Christian men who have the Church under severe guard. There is fruit in this orchard for the whole world; but they have a rough and unsympathetic way of accosting outsiders, as though they had no business here, though the Lord wants them to come all and take the largest and ripest fruit on the premises. Have you an idea that because you were baptized at 18 months of age and because you have all your life been under hallowed influences, that therefore you have a right to one whole side of the Lord's table, spreading yourself out and taking up the entire room? I tell you no, you will have to haul in your elbows, for I shall place on either side of you those whom you never expected to sit there; for, as Christ said to the Jews long ago, so He says to you and to me: "Other sheep I have which are not of this fold."

MacDonald, the Scotchman, has four or five dozen head of sheep. Some of them are browsing on the heather, some of them are lying down under the trees, some of them are are in his yard. They are scattered around in eight or ten different places. Cameron, his neighbor, comes over and says: "I see you have thirty sheep; I have just counted them." "No," says MacDonald, "I have a great many more sheep than that. Some are here and some are elsewhere. They are scattered all around about. I have four or five thousand in my flocks. 'Other sheep have I which are not of this fold.'" So Christ says to us. Here is a knot of Christians and there is a knot of Christians, but they make up a small part of the flock. Here is the Episcopal fold, the Methodist fold, the Lutheran fold, the Congregational fold, the Presbyterian fold, the Baptist and the Pedo-Baptist fold, the only difference between these last two being the mode of sheep-washing; and so they are scattered all over; and we come with our statistics and say there are so many thousand of the Lord's sheep. But Christ responds: "No, no: you have not seen more than one out of thousands of my flock. They are scattered all over the earth. 'Other sheep I have which are not of this fold.'" Christ in my text was prophesying the conversion of the Gentiles with as much confidence as though they were already converted, and He is, in the words of my text, prophesying the coming of a great multitude of outsiders that you never supposed would come in, saying to you and saying to me: "Other sheep I have which are not of this flock."

In the first place I remark that the Heavenly Shepherd will find many of his sheep among the non-churchgoers. There are congregations where they are all Christians, and they seem to be completely finished, and they remind one of the skeleton leaves which by chemical preparations have had all the greenness and verdure taken off of them, and are left cold and white and delicate, nothing wanting but a glass case to put over them. The minister of Christ has nothing to do with such Christians but to come once a week and with ostrich feather dust off the accumulation of the last six days, leaving them bright and crystalline as before. But the other kind of a church is the armory with perpetual sound of drum and fife, gathering recruits for the Lord of hosts. We say to every applicant: "Do you want to be on God's side, the safe side, the happy side? If so, come in the armory and get equipped. Here is a bath in which to be cleansed. Here are sandals to put upon your feet. Here is a helmet for your brow. Here is a sword for your right arm, and yonder is the battlefield. Quit yourself like a man." There are some who say, "I stopped going to church ten or twenty years ago." My brother, is it not strange that you should be the first man I should talk to! I know all your case. I know it very well. You have not been accustomed to come into the house of God, but I have a surprising announcement to make to you. You are going to become one of the Lord's sheep. "Ah," you say, "it is impossible. You don't know how far I am from anything of that kind." "I know all about it. I have wandered up and down the world, and I understand your case. I have a still more startling announcement to make to you: You are not only going to become one of the Lord's sheep, but you will become one immediately." People of God, pray for that man! I shall not break off so much as a crumb for you Christians in this sermon, for I am going to give it all to the outsiders. "Other sheep I have which are not of this fold."

Many years ago, when the Atlantic went to pieces on Mar's rock, and the people clambered up on the beach, there was a heroic minister of the gospel who aided in saving the wrecked. He did not sit down and take care of the men on the beach, wrapping them in flannels and kindling a fire for them and seeing that they got plenty of food. He knew that there were others that would do that. He said, "Yonder are men and women freezing in the rigging of that wreck. Boys, launch that boat!" And now I see the oar-blades bend under the strong pull; but before they reached the rigging a woman was frozen and dead. She was washed off, poor thing! But he said, "There is a man to save," and he cried out, "Hold on five minutes longer and I will save you. Steady! steady! Give me your hand. Leap into the lifeboat. Thank God, he is saved!" So those who are safe on the shore of God's mercy, I will not spend any time with them at all; but I see there are some who are freezing in the rigging and surrounded by perilous storms. Pull away, my lads. Let us reach them! Alas, one is washed off and gone! There is one more to be saved. Let us push out for that one. Clutch the rope! Oh, dying man, clutch it as with a death grip. Steady, now, on the slippery places. Steady! There! Saved! saved! Just as I thought. For Christ has declared that there are some still in the breakers who shall come ashore. "Other sheep I have which are not of this fold," Christ commands his ministers to be fishermen, and when I go fishing I do not want to go among other churches, but into the wide world; not sitting along Hobokus creek where eight or ten other persons are sitting with hook and line, but like the fishermen of Newfoundland, sailing off and dropping net away outside forty or fifty miles from shore. Yes, there are non-church goers who will come in. They are at this moment being swept into Christian associations. Their voice will be heard in public prayer. They will die in peace, their bed surrounded by Christian sympathies, and be carried out by devout men to be buried, and on their grave will be chiselled the words: "Precious in the sight of the Lord is the death of his saints," and on Resurrection Day you will get up with the dear children you have already buried, and with your christian parents who have already won the palm. And all that grand and glorious history begins now. "Other sheep I have which are not of this fold."

I remark again, the Heavenly Shepherd is going to find a great many of the sheep among those who are positive rejecters of Christianity. I do not know how you came to reject Christianity. It may have been through reading Renaud's Life of Jesus, or through the trickery of some professed Christian man who disgusted you with religion. I do not ask you how you became so, but you frankly tell me that you do reject it. You do not believe that Christ is a divine being although you admit that he was a very good man. You do not believe that the Bible was inspired of God, although you think that there are some very fine things in it. You believe that the Scriptural description of Eden was only an allegory. There are fifty things that I believe that you do not believe. And yet you are an accommodating man. Everybody that knows you says that of you. If I should ask you to do a kindness for me, or if any one else should ask of you a kindness, you would do it. Now I have a kindness to ask of you. It is something that will cost you nothing, and will give me great delight. I want you by experiment to try the power of Christ's religion. If I should come to you, and you were very sick, and doctors had given you up, and said there was no chance for you, and I should take out a bottle and say, "Here is a medicine that will cure you, it has cured fifty people, and it will cure you." You would say "I have no confidence in it." I would say, "Won't you take it to oblige me?" "Well," you would say, "if it's any accommodation to you, I'll take it." My friend, will you be just as accommodating in matters of religion? There are some of you who have found out that this world cannot satisfy your soul. You are like the man who told me one Sabbath night after the services were over: "I have tried this world and found it an insufficient portion. Tell me of something better." You have come to that. You are sick for the need of divine medicament. Now, I come and tell you of a Physician who will cure you—who has cured hundreds and hundreds who were as sick as you are. "Oh!" you say, "I have no confidence in him." But will you not try him? Accommodate me in this matter—oblige me in this matter—just try him! I am very certain he will cure you. You reply: "I have no especial confidence in him, but if you ask me as a matter of accommodation, introduce him." So I do introduce him—Christ, the Physician, who has cured more blind eyes, and healed more ghastly wounds, and bound up more broken hearts, than all the doctors since the time of Æsculapius. The divine Physician is here. Are you not ready to try him? Will you not, as a pure matter of experiment, try him and state your case before him?

Hold nothing back from Him. If you cannot pray any other way, say: "O Lord Jesus Christ, this is a strange thing for me to do. I know nothing about the formulas of religion. These Christian people have been talking so long about what Thou canst do for me. I am ready to do whatever Thou commandest me to do. I am ready to take whatever Thou commandest me to take. If there be any power in religion, as these people say, let me have the advantage of it." Will you try that experiment? I do not at this point of my discourse say that there is anything in religion, but I simply say try it—try it. Do not take my counsel or the counsel of any clergyman, if you despise clergymen. Perhaps we may be talking professionally, perhaps we may be prejudiced in the matter; perhaps we may be hypocritical in our utterances; perhaps we may preach because we are paid to preach; perhaps our advice is not worth taking. Then take the counsel of some very respectable layman, as John Milton, the poet; as Wm. Wilberforce, the statesman; as Isaac Newton, the astronomer; as Robert Boyle, the philosopher; as Locke, the metaphysician. They never preached or pretended to preach, and yet pulling down one his telescope, and another his parliamentary scroll, and another his electrician's wire, they all declare the adaptedness of Christ's religion to the wants and troubles of the world. If you will not take the recommendation of ministers of the gospel then take the recommendations of highly respectable laymen. O men, skeptical and struck through with unrest, would you not like to have some of the peace which broods over the Christian's soul? I knew all about your doubts. I have been through them all. I have gone through all the curriculum. I have doubted whether there is a God; whether Christ is God. I have doubted whether the Bible was true. I have doubted the immortality of the soul. I have doubted my own existence. I have doubted everything; and yet out of that hot desert of doubt I have come into the broad, luxuriant, sunshiny land of Gospel hope and peace and comfort, and so I have confidence in preaching to you and asking you to come in. However often you may have spoken against the Bible, or however much you may have caricatured religion, step ashore from that rocking and tumultuous sea. You do not want your children to grow up with your skepticism. You cannot afford to die in that midnight darkness, can you? If you do not believe in anything else, you believe in love—a father's love, a mother's love, a wife's love, a child's love. Then let me tell you that God loves you more than them all. You will come in. The great heart of Christ aches to have you come in, and Jesus at this very moment, whether you sit or stand, looks into your eyes and says: "Other sheep I have which are not of this fold."

Again I remark that the heavenly shepherd is going to find a great many sheep among those who have been flung of evil habit. It makes me mad to see Christian people give up a prodigal as lost. There are those who talk as though the grace of God were a chain of forty or fifty links, and after they had run out there was nothing to touch the depth of a very bad case. If they were hunting and got off the track of the deer they would look longer among the brakes and bushes for the lost game than they have been looking for that lost soul. People tell us that if a man has delirium tremens twice he cannot be reclaimed; that after a woman has fallen from her integrity she cannot be restored. The Bible has distinctly intimated that the Lord Almighty is ready to pardon four hundred and ninety times; that is seventy times seven; there are men before the throne of God who have wallowed in every kind of sin; but, saved by the grace of Jesus and washed in His blood, they stand there radiant now. There are those who plunged into the very lowest hell of Elm street, New York, who have for the tenth time been lifted up, and finally, by the grace of God, they stand in heaven gloriously rescued by the grace promised to the chief of sinners. I want to tell you that God loves to take hold of a very bad case. When the Church casts you off, and when the club room casts you off, and when society casts you off, and when business associates cast you off, and when father casts you off, and when mother casts you off, and when everybody casts you off, your first cry for help will bend the Eternal God clear down into the ditch of your suffering and shame. And the Good Templars cannot save you, although they are a grand institution. The Sons of Temperance cannot save you although they are mighty for good. Signing the temperance pledge cannot save you, although I believe in it. Nothing but the grace of the Eternal God can save you, and that will, if you throw yourself on it. A man once said to me: "Unless God helps me I cannot be delivered. I have tried everything, sir, but now I have got the habit of prayer, and when I come to a drinking saloon I pray that God will take me safe past, and I pray until I am past. He does help me." For every man given to strong drink there are scores of traps set, and when he goes out of business with his bill of goods on Broadway, or John street, or Fulton avenue, or Atlantic avenue, he will be in infinite peril, and no one but the everywhere present God can see that man through. Oh, they talk about the catacombs of Naples, and the catacombs of Rome and the catacombs of Egypt, the burial places under the city, where the dust of a great multitude lie, but I tell you Brooklyn has its catacombs, and New York its catacombs, and Boston its catacombs, and Philadelphia its catacombs. They are the underground restaurants, full of dead men's bones and all uncleanness. Young man, you know it. God help you.

There is no need of going into the art gallery to see in skilled sculpture that wonderful representation of a man and his sons wound around with serpents. There are families now wrapped in the martyrdom of fang and scale and venom—a living Laocoon of ghastliness and horror. What are you to do? I am not speaking into the air. I am talking to hundreds of men who must be saved by Christ's Gospel or never saved at all. What are you going to do? Do not put your trust in bromide of potassium, or in Jamaica ginger, or in anything that apothecaries can mix. Put your trust only in the Eternal God and he will see you through. Some of you do not have temptations every day. It is a periodic temptation that comes every three months, when it seems as if the powers of darkness kindle around about your tongue the fires of a pit. It is well enough at such a time, as some do, to seek medical counsel; but your first and most importunate cry must be to God. If the fiends will drag you to the slaughter, make them do it on your knees. O God, now that the paroxysm of thirst is coming again upon that man, help him! Fling back into the pit of hell the fiend that assaults his soul. Oh, my heart aches to see men go on in this fearful struggle without Christ. There are those whose hands so tremble from dissipation that they can hardly hold a book and yet I have to tell you that they will yet preach the Gospel, and on communion days carry around the consecrated bread, acceptable to everyone because of their holy life and their consecrated behavior. The Lord is going to save you. Your home has got to be rebuilt. Your physical health has got to be restored. Your worldly business has got to be reconstructed. The Church of God is going to rejoice over your discipleship. "Other sheep I have which are not of this fold.

While I have hope for all prodigals, there are some people whom I give up as lost. I mean those who have been churchgoers all their life, who have maintained outward morality, but who, notwithstanding twenty, thirty, forty years of Christian advantages have never yielded their heart to Christ. They are Gospel hardened. A sermon has no more effect upon them than the shining of the moon upon the city pavement. As Christ says: "The publicans and harlots will go into the kingdom of God before them." They have resisted all the importunity of divine mercy and have done during these thirty years through most powerful earthquakes of religious feeling, and they are farther away from God than ever. After awhile they will lie down sick, and some day it will be told that they are dead. No hope! But I turn to outsiders with a hope that thrills through my body and soul. "Other sheep I have which are not of this fold." You are not gospel hardened. You have not heard or read many sermons during the last few years. As you enter a church everything is novel and all the services are suggestive of your early days. How sweet the opening hymn sounds in your ears and how blessed it is! Everything suggestive of heaven. You do not weep, but the shower is not far off. You sing, and you have noticed that there is always a sigh in the wind before the rain falls. There are those who would give anything if they could find relief in tears. They say: "Oh, my wasted life! Oh, the bitter past! Oh, the graves over which I have stumbled! Whither shall I fly? Alas for the future! Everything is dark—so dark, so dark. God help me! God pity me!" Thank the Lord for that last utterance. You have begun to pray, and when a man begins to petition, that sets all heaven flying this way, and God steps in and beats back the hounds of temptation to their kennel, and around about the poor wounded soul puts the covert of his pardoning mercy. Hark! I hear something fall. What was that? It is the bars of the fence around the sheepfold. The shepherd lets them down and the hunted sheep of the mountains bound in, some of them their fleece torn with the brambles, some of them their feet lame with the dogs, but bounding in. Thank God! "Other sheep I have which are not of this fold."

As a cure for all diseases of the Lungs, DOWNS' ELIXIR has no equal.

The market is full of preparations for the hair, some of them good, and many of them good for nothing. R. P. Hall & Co., of Nashua, N. H., manufacture and sell an article of real merit, which has been advertised in the *Express* for the past year, and we have taken no little pains to inquire how it has been liked by the public. One of our druggists informs us that he has sold more than double the amount of Renewer than of all other hair preparations combined, and when a person once uses it, he will use no other: that it is not only bought by the young people as a dressing, but by older persons for removing dandruff, preserving and increasing the growth of the hair and restoring its natural color. Another druggist says that he sells three or four times as much of Hall's, as of all others.—*Hampshire Express, Amherst, Mass.*

CHEAP AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Magnetic Medicine, which contains forty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column.

RACKED BY INNUMERABLE PANGS, restless by day, sleepless at night, rising unrefreshed in the morning, without appetite and pestered by varying and perplexing symptoms, the dyspeptic takes indeed a gloomy view of human existence. For him the zest of life seems gone. Heartburn, oppression at the pit of the stomach, and the attendant annoyances of of constipation and biliousness, combine to render him utterly wretched. But there is, if he will but take advantage of it, a reliable source of reliable relief from all misery. NORTHROP & LYMAN'S VEGETABLE DISCOVERY AND DYSPEPTIC CURE is, as its name imports, a botanic preparation, free from mineral poison, and an all-sufficient remedy for indigestion in its most obstinate form. It not only enriches the blood by enabling the digestive organs to convert the food received into nutriment, but depurates it by increasing the action of the bowels and kidneys, the natural outlets for its impurities. But while it relaxes the bowels, it never does so violently and with pain, like a drastic cathartic. It aids, but never forces, Nature, invigorating as well as purifying and regulating the system. It thoroughly removes those diseased humors which tend to vitiate the blood, purifies the urinary secretion, and promotes a flow of healthy bile into the natural channel, besides expelling it from the circulation. Experience has proved that this standard medicine is a thorough remedy for dyspepsia, biliousness, costiveness, kidney complaints, scrofula, erysipelas, salt rheum, lumbago and all impurities of the blood. Price $1.00. Sample Bottle 10 cents. Ask for NORTHROP & LYMAN'S Vegetable Discovery and Dyspeptic Cure. The wrapper bears a *fac-simile* of their signature. Sold by all medicine dealers

---

WILL [illegible] EXCHANGE a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys.

Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

BUTLER'S
Celebrated
BLACKBERRY CORDIAL.

The most effectual remedy yet discovered for Cholera, Cholera Morbus, Diarrhœa, Dysentery, Cramps, Colic, looseness of the Bowels &c.

This justly celebrated preparation is highly recommended by the medical men, and has been used with the greatest success for the last ten years throughout the United States.

BELLEVILLE, SATURDAY, SEPT. 9.

The Boundary Question.

The *Globe* is the very antipodes of George Washington, for it can violate the truth and does so whenever it has an object to serve. Witness the following:

> It is Ontario which is the spiritless member of the Confederation; and it is the Ontario Conservatives who willingly mutilate their Province in order to please the Bleus. No parallel can be found in history for conduct at once so traitorous and foolish—foolish because it is plain that, before a resolute phalanx of Ontario Conservatives at Ottawa, the Boundary Award would be safe. The Lower Canadians will not destroy Sir John Macdonald. He serves their purposes too well. They will use him as the means of extracting from the Dominion "equivalents," but if they cannot get what they ask they will satisfy themselves with what is within their reach. As long, however, as the Bleus find in Ontario allies like Meredith, Morris, Merrick, and Lauder they will never cease their aggressions. It is for the people of Ontario to display their indignation against the greedy politicians who propose to deprive Ontario of half her territory in order that Bleu rule may be perpetuated at Ottawa.

Now is it true that the Conservative party propose "to deprive Ontario of half her territory," or any portion thereof? We answer No! and for two reasons:

1st. It has not been determined what territory belongs to Ontario, as the award—so-called—of the arbitrators is a mere piece of waste paper.

2nd. The Conservative party have offered to refer the dispute to the only tribunal capable of legally establishing the boundaries of the Province.

Where, then, does the alleged attempt at robbery by Conservatives come in? Rather, are not the Grits those who wish to rob the Province? They seek the adoption of a conventional boundary that is beyond doubt unjust to Ontario. That it is not just, we have the word of Sir Francis Hincks, one of the arbitrators, who stated in a letter to the press that whenever a doubt arose decision was given against Ontario. Truly a pretty award for the Grit party to ask the people to declare for, and what presumption for the Grit organ to accuse those opposed to it of seeking to rob Ontario.

Further, whatever the views of the Quebec Conservatives may be—and their record shows that there is nothing to be feared at their hands—it is quite certain that the Rouges are anxious to have the area of Ontario as closely circumscribed as possible, Mr. Laurier having stated in his speech on the subject in the Commons that he favored the confirmation of the award, because he was afraid that Ontario would get more territory than it prescribed, if the case went into court!

Who, then, are the robbers of Ontario—the Grits, who wish to accept an insufficient award which robs Ontario, or the Conservatives, who wish to secure to the Province what legally belongs to it?

Don't die in the House.

"Rough on Rats." Clears out rats, mice, roaches, bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

Editorial Brevities.

The Hamilton *Times* says it was a trick of Sir John A. Macdonald to select Hon. Messrs. Bowell and Langevin as members of his Cabinet. To use one of the *Times'* own elegant phrases, nobody but a Grit or a fool would make such a silly assertion.

The Winnipeg correspondent of the *Globe* is endeavoring to undo the mischief that that journal has done in its editorial columns. He writes:

> "A correspondent of the Edinburgh *Scotsman* is dating a series of letters from this place which are calculated to do the country great injury, owing to the judicious mixture of truth with falsehood and misrepresentation. He tries to make out that land is not to be had except by purchasing from squatters, whose claims are shady. The enormous rush, he says, has forced settlement far ahead of surveys. I am quite free to admit that settlement has, along the projected line of the railway, kept ahead of the survey, but a few miles back of the line there is any amount of good land waiting for settlers. The trouble is that settlers all want to be on the line of the railway and within a township of a town site. It is manifest that everybody cannot secure such eligible locations—those who do not are the persons who grumble."

Mr. Mowat has declared himself as being strongly opposed to disallowance, but his declaration must simply refer to disallowance of improper Acts passed by the Legislature under his guidance, as he does not hesitate to disallow munincipal legislation. Witness the following from the St. Thomas *Times*:—"While Mr. Mowat is howling about "disallowance" and seeking to excite his followers to rebellion on this head, we wonder if he is ever moved by remorse at the recollection of the disallowance practised by him upon the Corporation of St. Thomas with reference to the Frontage Tax Bill carried by an overwhelming majority by the freeholders of this city in January last and presented to the Legislature for ratification last season. It was thrown out by Mr. Mowat, who thought the people of this city incapable of judging for themselves what legislation they required for the amelioration of the evils under which they suffer, while, with singular irony, the *Globe*, a short time previously, had announced that St. Thomas would be the first city in Canada to adopt the frontage tax system in its entirety. It is to be hoped, for his own sake, that Mr. Mowat will not bring on the elections late in the fall when the citizens of St. Thomas, wading through the mud and mire of their unpaved streets, may be tempted to pick up some of the mud and fling it at the Premier."

—An investigation into the robbery of mail bags, between Halifax and St. John, is proceeding. Thirty or forty letters are missing.

—The German Temperance Society League has resolved to make common cause with the English National League in the cause of temperance.

—The Kingston Water Works company will sell out to the city for $150,000, and after the city purchases it will take $300,000 more to enlarge the system so as to get a proper supply.

—A Montreal despatch says there are strong suspicions that Robert Alexander, whose mutilated body was taken out of the Beauharnois canal on Thursday, was murdered before his remains where thrown into the water.

*The term *hydra* may be used to represent any manifold evil. If you would battle successfully with this many-headed monster of disease you will find it expedient to keep Mrs. Pinkham's Vegetable Compound always at hand.—*Dr. Banning.*

—Commercial paper has rarely been more promptly met than this season, according to the experience of Montreal wholesale dealers and bankers. At one bank in that city, where 150 notes came due on the 4th inst, not one, it is said, was unpaid when three o'clock struck.

—A package containing ten thousand dollars was snatched from the counter of the Merchants' Bank at Winnipeg on the 8th by a couple of unknown sneak thieves, who, although the alarm was immediately given, effected their escape. None of the stolen bills were those of the Merchants' Bank.

*** "Do boldy what you do at all." Boldly do we affirm that Kidney-Wort is *the* great remedy for liver, bowels and Kidney diseases, rheumatism and piles vanish before it. The tonic effect of Kidney-Wort is produced by its cleansing and purifying action on the blood. Where there is a gravelly deposit in the urine, or milky, ropy urine from disordered kidneys, it always cures.

—The riparian rights test case has been decided against the Government at the Circuit Court, Gloucester, N.B. The plaintiff in the case was fishing upon his own land without any license from the Fisheries Department. The Fishery Inspector, who was defendant in the suit, ordered plaintiff to desist, and forcibly deprived him of his fishing tackle.

—The conduct of Major-General Luard in grossly insulting and placing Major Scott, 8th Quebec Rifles, under arrest at the parade upon the Dominion Rifle Association range on Thursday, is causing much comment. The Major-General was hissed as he drove through the streets of Ottawa, and his want of tact and judgment is generally condemned. At Quebec feeling upon the subject is intense. An official investigation is talked of.

—The new line between Newcastle and Montreal is now thoroughly organized and the service will be opened on the 23rd of September by the SS. *Standard*, sailing from Montreal for the Tyne direct. The principal owners of the line are the firms of Christopher Furness & Co., of Newcastle and West Hartlepool, the largest firm of ship owners in the North of England, and D. Brown & Co., of London, and the line will be known as the Furness line.

—Mr. Gladstone has been improving the recess by taking a trip down the channel in Lord Wolverton's steam yacht, the Palatine. He was accompanied by Mrs. Gladstone and other members of the family. On Sunday, August 20th, the party landed at Portland, and visited the convict prison that furnishes such sensational scenes in the play of "The Black Flag." Re-embarking, the voyage was continued around Land's End and up the Welsh coast as far as Milford Haven.

Catarrh of the Bladder.

STINGING irritation, inflammation, all Kidney and Urinary Complaints, cured by "Buchupaiba," $1.

Oswego Barley Market.

OSWEGO, Sept. 7th, 1882.

Receipts of new barley 5,700 bushels. The first arrival last year was Sept. 11th.

There is a moderate demand for lots to arrive early.

Sales have been made the present week of 15,000 bus. number two to arrive by Oct. 3rd at 90c.: 15,000 number one, same delivery, at 95; 10,000 number one bright for early delivery at $1.00. These are extreme prices. Most buyers offer only 88 for number two, 93 for number one and 98 for number one bright to arrive here by Oct 1st.

If Nearly Dead

after taking some highly puffed up stuff, with loud testimonials, turn to Hop Bitters and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes, or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides, it is the best family medicine on earth.

COUGHS AND COLDS.—If taken in time are easily cured,—if allowed to continue will result in incurable consumption. Allen's Lung Balsam has the confidence and support of the medical faculty, and is recommended by all who are acquainted with its virtues.

Dropsy is essentially a watery condition of the Blood, dependent upon disordered Kidneys. Burdock Blood Bitters are strongly Diuretic and consequently the best known remedy, acting as it does upon the entire Secretory System.

BAXTER'S MANDRAKE BITTERS never fail to cure Costiveness and regulate the Bowels.

A New Principle.

The principle upon which P[illegible] LESS CORN EXTRACTOR acts [illegible] It does not sink deep into the flesh, thereby producing soreness, but acts directly upon the external covering of the corn, separates it from the under layer, removes the direct pressure from the part, and at once effects a radical cure, without any pain or discomfort. Let those who are suffering from corns, yet skeptical of treatment, try it, and by the completeness of the cure they will be ready to recommend Putnam's Painless Corn Extractor to others. Sold by W. R. Carmichael.

CITY COUNCIL.

A special meeting of the City Council was held last evening, His Worship the Mayor in the chair.

PRESENT—Ald. Diamond, Smith, Macoun, Dickson, McInnich, Brignall, Blair, Dunnet, Vandusen, Holden, Starling, Tickell, Frost, Lingham, Campion, Petrie, and Larocbe.

THE ESTIMATES.

The requisition having been read, the Council went into committee of the whole, for the purpose of discussing the estimates for the current year.

Ald. Dickson urged the necessity of settling the estimates at once, chiefly for the reason that it was necessary to meet certain items of expenditure immediately. He submitted a statement of the estimates, and moved that in order to raise the amount required, a rate of 16½ mills on the dollar be imposed on the revised assessment (amounting to $3,554,828,) to raise the amount required for municipal purposes; a rate of 3¾ mills on the dollar for common school purposes upon so much of the assessment as is applicable thereto, $3,211,576; and for separate school purposes a rate of 6 mills on the dollar on $343,312.

The estimates which Ald. Dickson submitted were as follows:

UNCONTROLABLE.

Interest	$26,030.00
Police Magistrate	1,400.00
Police Force	3,600.00
County of Hastings	2,000.00
	$33,030.00

CONTROLABLE.

Board of Works	$10,000.00
Fire	4,371.00
Water and Gas	5,410.24
Poor and Sanitary	1,500.00
Market	500 00
Salaries	4,215.00
Election expenses	200.00
Contingencies	1,000.00
Printing	1,000.00
	28,196.24
Cost of collection, &c.	5,352.00
	33,548.24
Uncontrolable	33,000.00
	66,578.24
Deduct income	9,357.00
Net amount to be raised for municipal purposes	57,221.24
Common school requisition	12,444 62
Separate School requisition	2,066.35
Total amount to be raised	$71,732 21

In support of his resolution Ald. Dickson spoke strongly in advocacy of the plan of meeting the expenditure of each year out of the income of that year. Holding this principle, he had prepared the estimates in accordance with it. He proposed to raise a sum, this year, sufficient to meet the expenditure of the year. He did not, however, provide for the raising of the sinking fund, because if he did provide for that item it would raise the assessment to nearly 3 cents on the dollar. Two cents, he thought, was as much as the people should be called on to pay. He referred to the debentures which would mature in a few years—especially the $100,000 by-law, which would mature in 1890, and he urged the advisability of providing for the payment of these debentures by turning all uncollected taxes into the sinking fund so that they may apply eventually for that purpose. By doing so he did not hope to wholly pay off the debentures in question, but such a course would prove to the world that the city was trying to meet its liabilities, and this would inspire a confidence in the city and enable future Councils to raise money on much better terms that the city had been able to raise money in the past. He also proposed to apply to the sinking fund the $15,000 surplus from last year's income, to be used for the same purpose.

Ald. Dunnet thought the whole cost of paving Front St. should be paid out of this year's income; but Ald. Dickson contended that as that work had been ordered by last year's Council it should be paid out of last year's income.

Ald. Frost objected to the estimates on the ground that only $2,500 of the cost of paving Front St. had been estimated for last year; the remaining $2,000 had never been, and, according to the estimates, would never be, estimated for. He contended that that $2,000 must be assessed for.

Ald Dunnet urged his opinion that it was necessary that all the items of expenditure for the current year, as estimated for, should be presented to the Council for consideration. This the Chairman of Finance had not done. He asked the Council to pass his estimates without really knowing what they were passing. The Council should have each item of expenditure placed on record, for the benefit of future Councils, in order to prevent mistakes, as well as misappropriations of money. The Chairman of Finance said that back taxes should go to the sinking fund, but he had not so applied them: there was nothing to prevent him from doing so. Ald. Dunnet also complained that Ald. Dickson had not brought down his estimates in March, as it was expected that he would, and he would then have been able to meet all the expenditures of this year out of the income of the year. After some further remarks, Ald. Dunnet asked leave to submit a table of amended estimates which he had prepared, which, he said, not only showed every item of expenditure and provided for it, but provided for a rate of only 14½ mills, which, with the 3¾ mills for school purposes, would make a total rate of 18 mills instead of 20 mills as provided for by the estimates of the chairman. He submitted his estimates as an amendment to those of Ald. Dickson.

The amended estimates differed from the original estimates in the following points:—Ald. Dunnet proposed to allow only the required amount of sinking fund for last year to remain in that fund ($6,997 63) and to bring down the balance (which he maintained to be a surplus, but which, Ald. Dickson contended, was part of the sinking fund) to meet the requirements of this year. This surplus or balance amounted to nearly $12,000. He proposed to levy for this year's sinking fund ($8,500), and to appropriate $260 towards the tank in Murney Ward. Of the $4,500 for paving Front street, he proposed to pay $2,500 out of last year's revenue, and $2,000 out of this year's. One or two minor changes were also made. By these means Ald. Dunnet contrived to reduce the rate to 14½ mills for municipal purposes, which, with the 3¾ for common school purposes, made the total rate 18 mills.

Ald. Vandusen opposed the original estimates, following in the same ground as Ald. Dunnet and Frost.

Ald. Dickson declared that the present opposition to the estimates was owing solely to the fact that the two gentlemen who were most persistent in their opposition were foiled in their attempt to get the Council to jump with their views in regard to the paving of Front St. He did not refer to Ald. Frost in this declaration. If the principle which he had enunciated—namely, that of meeting current expenditure out of the current income—were literally carried out, we would this year have to pay nearly 3 cents on the dollar. Ald. Dunnet, in his amended estimates, had directly violated this principle in taking the $11,800 which had been carried to the sinking fund last year, for the purpose of meeting this year's expenditure. Such an appropriation of the city's funds would be a misappropriation. He pointed out the inconsistency of Ald. Dunnet in wishing to appropriate $260 for the building of a tank in Murney Ward out of last year's revenue. He showed that the only difference between his estimates and those of Ald Dunnet was, that his estimates did not provide for sinking fund, but to appropriate all back taxes to sinking fund, and Ald. Dunnet proposed to appropriate part of last year's sinking fund in order to lower the rate. He (Ald. Dickson) was determined to stick fast by the principle of raising enough money to meet the expenditure of the current year. The course proposed by Ald. Dunnet was illegal, for the appropriation of the sinking fund of past years for the uses of the current year was not only illegal, but it was one of the illegalities which had brought disaster to the city in the past. With regard to the charge of dilatoriness in bringing down the estimates, Ald. Dickson explained that the reason the estimates had not been brought down sooner was, that it was impossible to obtain from the Provincial Government information with regard to the Ferry license; the Government, though importuned again and again, having treated all applications from the Council with contempt. It was extremely desirable that it should be known before the estimates were passed, whether the City or the Township of Ameliasburg was to have the control of the Ferry license, for a considerable expenditure of money on ferry, approaches, &c. was involved in the matter. However, he pointed out that he had brought the estimates down early in July, and since that time it had been almost impossible to get a quorum of the Council together. Ald. Dickson quoted the Statute which provides that the Council must provide for the valid debts of the current year out of the income of the year. He pointed out that if we refrained from paying the running expenses of the city out of the income of the year, we were piling up liabilities for future years; for we would soon have to provide for the payment of a large debenture debt, unless it was the intention to repudiate our debts altogether.

Ald. Holden did not think it necessary to levy for sinking fund for some years to come. He pointed out that the only difference between Ald. Dickson and Ald. Dunnet was, that the former wished to make use of a part of the sinking fund, and the latter wished to use the whole.

Ald. Diamond declared his intention of supporting the original estimates, with an amendment to Ald. Dickson's estimates, that the sum of $7,010 from previous years' taxes, paid in during the current year, be applied in reduction of the amount to be raised this year, and the $7,010 be appropriated as follows:—$5,352 to pay the costs of collection and for reductions, and $1,658 towards the reduction and payment of the interest account, and that the rate for Municipal purposes be fixed at 14½ mills on the dollar, and for school purposes 3¾ mills (eighteen mills altogether), and that with this amendment the estimates of the Chairman of Finance be adopted.

Ald. Dunnet said that Ald. Diamond's amendment would achieve the end which he (Ald. Dunnet) had tried to reach in his estimates, and he would withdraw his estimates. He also proposed that Ald. Diamond should withdraw his amendment provided that Ald. Dickson would engraft it in his estimates.

Ald. Dickson objected to have Ald. Diamond's amendment withdrawn; he wished it to go on record that he had not turned his back on the principle which he had so repeatedly enunciated, and in accordance with which he had prepared his estimates.

Ald. Diamond's amendment was therefore put and carried.

Committee rose and reported.—Adopted.

The Council then went into Committee on By-laws, Ald. Diamond in the chair.

The By-laws for levying sums for municipal and school purposes were considered and passed.

Committee rose and reported.—Adopted.

The By-laws were read a second and third time, passed and numbered.

Ald. Clarke spoke with reference to the throwing of refuse in the river, which was practiced by several parties.

He was advised to speak to the Chief of Police on the subject.

Ald. Smith said that at the fire on Thursday morning he had asked several parties to render assistance, and they refused. Shortly after this he saw the Chief of Police, and asked him whose duty it was to force citizens to comply with this request, and his reply was that it was the duty of the Chief Engineer. Ald. Smith complained that the Chief, whose duty it was to enforce obedience on the part of citizens, did not perform his duty. A by-law was in existence which provided that the Mayor, Aldermen, or the Chief Engineer, could call on the citizens to assist at fires, and it was the duty of the policemen to enforce this by-law.

A brief discussion ensued on the subject, after which the Council adjourned.

PEARLS.—Get your mouth full by using "TEABERRY," the new wonder for the Teeth and Breath. Brush vigorously. See directions. 5 cent samples.

Professor Bowlin's Great Golden Seal Discovery.

The greatest and latest discovery of the nineteenth century. A sure and permanent cure for Fits, Hysterics, Dizziness, and all nervous complaints. BELLEVILLE, SATURDAY, SEPT. 9.

City and Vicinity

The SS. *Sardinian* passed St. Felicite inward at 9.5 a.m.

THE Board of Education should meet next Tuesday evening.

LIEUT. HASTINGS and Pte. Soby have arrived home from Ottawa.

No. 1 EXPRESS was five minutes ahead of time to-day—a fact worth noting.

THE names of five prisoners appeared on the police station slate this morning.

NINETEEN cars of imported stock passed here one day last week, on the G. T. R.

The thermometer was as low as 45° at 5o'clock this morning, and there was a white frost.

REV. J. E. HALLIWELL will occupy the pulpit of Christ Church to-morrow, morning and evening.

HEAVY trains, carrying exhibits for the Toronto Exhibition, are passing here on the G. T. R. every day.

THE river is very low, and difficulty is experienced in getting enough water to run the factories along the banks.

LET there be a good attendance at the practise of the Okas on the Hospital Lot on Monday morning at 6 o'clock.

THE return match between the Belleville and Napanee cricket clubs will be played at Napanee on Friday next, probably.

A MEETING of the Hastings Rifle Association will be held on Tuesday evening at Hambly's, to arrange for the annual matches.

THE construction of a fire-stand has been commenced on the bank of the river in rear of Lockerty's tobacco store—a wise move.

ALD. DICKSON, while out hunting in the woods a few days ago, had his hands poisoned with poison-ivy. His hands are very much inflamed to-day and are causing him much pain.

Two farmers tried to get off the ferry steamer together this morning; only one team can get off at a time, and the result was that one of the waggons became suddenly minus a wheel.

A BOX of glass in a farmer's waggon was caught against another waggon while passing it, near the lower bridge, yesterday afternoon; the box tipped and all the glass fell out into the street.

THE Napanee *Beaver* is mistaken when it says that the Silver Leaf Base Ball Club, of that town, has been playing for seven years, and has never been defeated. It was beaten by the Belleville Troublers three years ago.

THE estimates for the current year have at last been passed, and the rate of assessment for municipal purposes will be 14½ mills, which with the 3½ mills for common school purposes, will make the total rate of assessment 18 mills.

MR. S. C. EDWARDS has received an informal challenge from the Kingston Chief of Police to match a team of the Belleville Quoit Club against an equal number of Kingston players during the Fair week. A match will probably be arranged.

MR. BEN GILBERT, of Sidney, informs us that he has an apple tree in his orchard which has blossomed twice this season. Mr. Brown, living on the Kingston Road near the city, has also picked two crops of black raspberries off one of his bushes this season.

THREE drunks were brought up for justice this morning — Michael Burns, Patrick Taugher, and John Shea. They were all discharged. The boy Joe Smart from Deseronto, charged with carrying a revolver, was brought up. The weapon was confiscated, and the boy allowed to go.

GIRLS, says an exchange, don't wear high heels. They contract the anterior tibials and strain the peroneous langus. At least the Medical News says so, and it ought to know. You would look pretty running around with contracted anterior tibials and a strained peroneous langus, wouldn't you.

WEATHER PROBABILITIES—Toronto, Sep. 9.—Lakes, light to moderate winds, mostly between the east and south fine weather, higher temperature.

MR CHARLES W. TAYLOR was on Thursday night the victim of a painful accident. Hearing what he imagined to be the groaning of a person on the street, he hastened through his own yard in that direction, and ran against a wire clothes line, which struck him in the mouth, knocking out one tooth and loosening three other teeth. The groaning proved to proceed from two cats.

OF the new American Drama, "Only a Farmer's Daughter," which is to be produced in the Metropolitin Hall on Friday evening next, the New York *Sun* says:—"No American drama is any purer in sentiment or stronger in dramatic effects and situations. The uniformly large business done is the best proof that it pleases the popular taste." The Company which will produce this play here next week is said to be a first class one, and theatre goers no doubt have a treat in store for them. A plan of the hall is now open at Reynolds.

Now that the Midland railway passenger trains (four every day) are run into the G. T. R. station, the time has come when the erection of a new passenger station in Belleville is not only advisable, but is a pressing necessity. Sometimes there is hardly standing room in the miserable little stone barn which is dignified by the name of the Grand Trunk station. Loud complaints are heard against the G. T. R Company nearly every day, the travelling public having become fully awakened to the necessity of a new structure. The G. T.R. authorities cannot put off this work much longer without bringing disgrace upon themseves.

BURGLARY.—Some parties, yet unknown, entered the house of Mr. Chown, Grove St., at an early hour this morning, effecting an entrance through a cellar window. After regaling themselves with dainties in the kitchen, they went up stairs and took two suits of clothes out of a closet, which they carried away with them. This is all that Mr. Chown has missed, notwithstanding that a dozen silver spoons were lying on the kitchen table. The value of the clothes taken is about $50. No clue to the burglars has yet been discovered.

HERRMANN.—Our old friend, who hails as is commonly supposed from the lower regions, appears before a Belleville audience. He comes to us this time with new tricks and new attractions, in fact he has, we may say, three entertainments rolled into one. It is needless for us to speak in words of praise of the performance always given by Prof. Herrmann, he stands unexcelled as the foremost prestidigitateur of the age. With him are his accomplished wife, who assists him under the stage name Mlle. Addie, also the Japanese Prince Katanoshin, whose juggling tricks are worth going a long way to see, and last though not the least, the renowned E. D. Davies, the premier ventriloquist of the world, whose fame in England none dispute. The Company give but one performance in this city, Wednesday Sept. 13.

BEFORE purchasing Ready made Clothing be sure and look through HENNESSY'S stock. He has over 300 suits in all, and is offering them at actual cost.

Sporting Notes.

The third class yacht's Amelia and Letter C had a challenge race for $50 a side at Kingston on the 8th. The latter won.

The 5 ton yacht *Minnie A.* has again been put into the water, and is now neater looking than ever. She has had a new stern, making her overhang longer, and will be hard to beat when it comes to racing in her class.

At the D. R. A. meeting on Friday, Corp. Hilton won a prize of $5, and one of $20 in the Hamilton Powder matches. In Series A seven shots at 500 yards with the Snider, Hilton scored 33, and in Series B, seven shots with the Martini, he was first with 33. None of the best men are amongst the fifty from whom the Wimbledon team will be chosen.

The R. C. Y. C. races failed yesterday for want of wind, and will be sailed over again on Tuesday. In the first class the *Cygnet* finished first and the *Aileen* second. In the second class the *Emma* was closely pressed says the *Mail*, by the *Katie Gray*, for which a competent sailing master could not be secured. According to the *Globe* the *Katie Gray* was not amongst the starters.

The Napanee and Kingston Cricket Clubs played a return match at Kingston yesterday. The Kingston Cricket Club made 139 runs in two innings, and Napanee, 107, with four wickets to bat.

AFTERNOON DESPATCHES

A MURDEROUS ITALIAN DEALT WITH.

TUNIS, Sep. 9.—The French Council of war has sentenced the Italian, who attacked a French soldier, to 20 years imprisonment.

CRISIS IN THE ENGLISH COTTON TRADE.

MANCHESTER, Sep. 9.—Something like a crisis in the cotton trade at Oldham, is beginning to be felt. Short time will soon be also compulsory, unless there is a change for the better.

THE CHINESE AND COREANS.

PEKIN, Sept.5.—The Chinese authorities have intervened boldly in Corea and seized the father of the king and brought him to China. The king has been reinstated by Chinese troops and ships.

BRITISH VESSEL LOST.

LONDON, Sept. 9.—The British bark *Ganoma* from Sunderland for Java has foundered and a crew of twenty drowned

—The hop plantations in England are in a worse state than ever before known, even the few yards that looked like growing a small crop are now severely struck with mould, and may not supply any hope at the picking.

☞ The Diamond Dyes always do more than they claim to do. Color over that old dress. It will look like new. Only 10 cents

One dose of BAXTER'S MANDRAKE BITTERS will relieve Sick Headache. One bottle effects a cure. Price 25c. per bottle.

C. BRITTON, Lindsay, Ont., writes:—I have much pleasure in recommending Baxter's Mandrake Bitters in all cases of Jaundice, Biliousness, Sick Headache and Liver Complaint, for they have given universal satisfaction, and I have sold more of them the past season than any other one patent medicine.

A SIMPLE herb found on the sunny plains of a Southern clime has, under the skillful manipulation of DR. VAN BUREN, proved one of the greatest blessings ever sent to sufferings humanity. DR. VAN BUREN'S KIDNEY CURE is acknowledged all the world over as the only perfect remedy for Kidney troubles. Your druggist has it.

SMITH MEDICINE Co.

GENTLEMEN,—I have made a trial of one box of Dr. Smith's Great German Worm Remedy, with such good effect that I have no hesitation in recommending it to the public as a prompt and reliable medicine. In fact, those who use it once will always do so. Yours truly,

J. Harvie, 172 Cadieux street.

Montreal, December 9th, 1881.

Consumption, that dread destroyer of the human race, is often the result of bad blood and low vitality, a scrofulous condition of the system. Burdock Blood Bitters cure Scrofula in its worst form.

RITCHIE & CO.'S NEW PREMISES

A Splendid Establishment.

Although the new store of Messrs. Ritchie & Co. can hardly be said to be quite completed, yet the goods of the firm have been moved thither from the old store and business is now being transacted there; and as a very large number of our readers will in future pay regular visits to the establishment, and naturally wish to know what manner of place it is, a brief description of it will probably be interesting at this time. It is hardly necessary to say, in beginning, that in order to secure ample accommodation for Ritchie & Co.'s large and growing business, the stores recently occupied by Holton, Bottoms & Co. as a dry goods store and Mr. Brinkman as a music store have been thrown into one large store by partial removal of the partition wall. The front of the stores has been completely altered, and the large plate-glass windows which have been put in have given the front a uniform and massive appearance. In point of display, the front will be unsurpassed by that of any other establishment in the city, and the effect will be heightened at night by a number of opal reflectors which Mr. Ritchie has procured for the windows. The interior of the premises is in reality two distinct stores with wide entrances from one into the other at the front and rear. To the left is the main shop, 100 ft. in length, with a show-room in the rear (recently added to the main building for this special purpose) 55 ft. deep—giving a total length, from the entrance to the end of the show-room, of nearly 160 feet. The narrower store to the right is to be devoted solely to the clothing, tailoring and gents' furnishing department. It has been thought by some that it would have added greatly to the general appearance of the interior if the partition-wall between the main store and the tailoring store had been removed, and pillars substituted. Doubtless it would; but while a gain would have been made in appearance by doing so, a greater loss in convenience would have been sustained, for with the present arrangement, there is shelving accommodation on each side of the wall, while there would be no such accommodation at all if the wall were removed. The main store has been repaired, painted, newly cornieed &c., since it was vacated by its late occupants, and is much improved in appearance. The chief improvement in the premises is the addition made in the rear for use as a show room. It will admirably meet the purpose for which it was designed. It is lit chiefly by a sky-light, which is so designed that it diffuses the light, and prevents the rays from falling on the goods which are being displayed. The room has been carpeted with green Brussels, but the mirrors and other furniture which it is intended to place in the room have not yet arrived. Opening off the show room are three rooms—one small one for the milliners, one of a similar size for the fitter, and a large apartment for the dress and mantle makers. As already stated, the smaller store to the right will be the gentlemen's side of the establishment, as the left and larger side will be for the ladies. We suppose the fact of the smaller space being devoted to the gentlemen is but a proof of the poet's famous saying, "Man wants but little here below." No poet ever dared to say the same about women—especially in the way of dry-goods. In this comparatively small space, all that a gentleman will require in the way of clothing (barring hats, boots and shoes) will be kept. Mr. Ritchie has determined to make the tailoring department of his establishment a prominent feature, and has engaged the services of one of the best cutters in Toronto, together with a staff of men tailors from that city. The cutter's quarters are at the rear of the store, but the workrooms for the hands and the fitting rooms are in the second and third stories. Between the two stores (if we may so call them) Mr. Ritchie's private office and the book-keeper's office are placed, and near them a winding staircase leads to the second floor of the building. The staircase deserves special notice on account of its admirable construction, its fine finish, and the easy ascent which it affords. Mr. Forin, who designed it, says it is constructed "on geometrical principles." The main part of the second flat will be used for blankets, quilts, carpets, and general house furnishings. A large open space is retained in the centre of the floor, to allow the light from the skylight in the roof to descend to the main store below. Mr. Ritchie at first intended to procure patent reflectors for the purpose of securing sufficient light for the rear of the store; but he now finds that this is unnecessary, there being sufficient light without them. The third flat will be used for the storage of reserve stock. From the third flat we will take a flying leap (metaphorically speaking) into the cellar. The basement, under the rear of the main store, has been fitted up as a wareroom for heavy goods, such as cottons, linens, tickings, ducks, &c. It is a large room, its width being identical with that of the building. The cellar and furnace room connects with this room. A large Harris furnace is placed about the centre of the building, and will supply hot air through registers. From even this hasty description it will be seen that Ritchie & Co. have an establishment which is hardly surpassed, in point of extent and convenience, by any other in the Province; it is a substantial proof of their determination to keep at least abreast of the times. As we have said, their shop furniture is not all in, and the establishment is as yet in a comparatively unsettled and unfinished condition; but when they are thoroughly settled, and all the improvements which they intend to procure have been placed in the establishment, their premises will be such as not only they, but the city as well, will have reason to be proud of. The new store was open to the public to-day, but the new stock, lately arrived from Europe, will not be displayed until next week. We should not omit to mention that the alteration and additions which have been noted were designed by Mr. John Forin, and have been carried out under his supervision, in a thoroughly workmanlike manner.

Excellent reasons exist why *Dr. Thomas Eclectric Oil* should be used by persons, troubled with affections of the throat or lungs, sores upon the skin, rheumatic pains, corns, bunions, or external injuries. The reasons are, that it is speedy, pure and unobjectionable, whether taken internally or applied outwardly.

Nervous debility is a result of indiscretion in the mode of living. Heed nature's unerring laws and take Burdock Blood Bitters, the Great System Renovator and Blood, Liver and Kidney regulator and tonic. Sample bottles 10 cents.

PROCLAIM it far and wide that DR. VAN BUREN'S KIDNEY CURE not only immediately relieves all Kidney diseases, but what is more important to the unfortunate sufferer, will ultimately cure him effectually.

For 30 Years

The dark-eyed and lovely daughters of Spanish America have used MURRAY & LANMAN'S FLORIDA WATER as their only cosmetic and toilet perfume. It is the most fragrant, as well as the most lasting of all Floral Waters, and possesses refreshing and invigorating properties not contained in any other preparation of the kind.

Sure, safe and effectual, that old remedy, DOWNS' ELIXIR, for the cure of Coughs and Colds.

THE WAR IN EGYPT.

Another Fight at Kassassin.

The Enemy Beaten.

KASSASSIN, 9:30 a. m., Sep. 9.—Firing commenced on both sides at seven o'clock this morning, and continued with great precision until 9 o'clock, when the enemy retired.

ISMAILIA, Sep. 9.—There is no report of any casualties during the action yesterday, made by Wolseley, but train arrived here filled with sick and wounded.

LONDON, Sept. 8.—Advices from Egypt state that the British troops are suffering to an alarming extent from the heat, which is insupportable. Several officers have been rendered insensible, and fainted on the sand. Cases of dysentery are numerous, and the medical staff is taxed to its utmost.

LATEST FROM THE SEAT OF WAR.

Another Fight in Progress.

The Advantage with the British.

Advance of the English Forces.

A PARTY OF INCENDIARIES SURPRISED.

LONDON, Sep. 9.—A correspondent at Kassassin says that after six o'clock this morning the Bengal Lancers and Scouts came in with the news that the enemy were approaching in great force on the north side of the railway. The British army was at once put in motion, and by 7 o'clock the artillery duel began. Arabi's troops are of all arms, and are spread over the entire ridge and a mile and a half up the line. A train heavily armed appeared at 9:20 this morning. A forty pounder and Krupp guns are shelling the enemy's right. There is also a 25 pounder a few hundred yards off, playing on the same position. British have the enemy in range exactly. One of our shells burst right over the enemy's ranks. The Egyptian artillery have got our distance very well, and their shells are dropping steadily into our camp. We have horse artillery extended along our line half a mile on the north side of the railway. They are firing rapidly, and at present the Egyptians are slowly retiring. To this moment no casualties have occurred. Reinforcements are just coming up from Mahsameh. A Krupp gun recently captured from Arabi sent a shell nearly in from his train. Our infantry are slowly advancing, and the enemy slowly retreating.

ALEXANDRIA, Sept 9.—During the night a small party of Arabs, whose object is supposed to be incendiarism, attempted to scale ramparts between the Ramleh and Rosetta gates. One of the party was bayonetted by the sentry, and the remainder fled

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinary or Liver Diseases, as they only relieve for a time and make you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

MORNING DESPATCHES.

AMERICAN.

BRADSTREET'S WEEKLY REPORT.

NEW YORK, Sep. 9.—Special telegrams to Bradstreet's *Journal* report that general trade continues exceptionally strong and active. The reports from Minnesota and Dakota are that the weather favors the securing of the heavy wheat crop of that region. The *Journal's* August cotton report from the entire cotton belt shows a falling off in its condition since the close of July. The heavy rains have considerable damage, and the outlook is not favorable. The industrial outlook is obscured by the determined action of the union strikers. There were one hundred and twenty-one failures in the United States reported to Bradstreet's *Journal* during the past week, eleven more than the preceding week, and fifty-six more than the corresponding week of last year. Canada reports fourteen, an increase of one.

EARTHQUAKE AT PANAMA.

PANAMA, Sep. 9.—An earthquake has made the Panama Railway impassable for a distance of 10 miles, the bridges and damaged abutments being cracked. The damage amounts to over $100,000. The rails were bent in some places, and at others the track was sunk. The freight building in Aspinwall is reported to have been destroyed, and one man killed and several injured. Several small shocks occurred on the 7th and 8th. There was a distinct movement last night at 1:15, and another at three o'clock this morning that brought down more ruin. No lives were lost in Panama. The ocean at Aspinwall and Panama was quiet. The naval officers report that the earthquake was felt in Panama Bay six weeks ago. The West India and Panama cable is reported broken.

SALT IN NEW YORK.

WARSAW, N. Y., Sep. 9.—Another salt find, which was made yesterday, proves that a saline basin underlies this whole valley. In purity it is not equalled in the world.

AN OUTLAW'S WHEREABOUTS.

LEAVENWORTH, Kansas, Sepr 9.—It is asserted on good authority that Frank James is hiding in Platt Co., Mo., a few miles east of here. The local newspapers condemn the families known to be harboring him.

DROWNED.

MONTICELLO, N. Y., Sept. 9.—On Thursday evening, while two gentlemen from New York were fishing in White Lake, one named Dick fell overboard, upset the boat, and was drowned. The body was recovered yesterday.

FIGHT IN A GAOL.

DUBUQUE, Ia., Sep. 9.—Five negroes, roustabouts, were jailed here yesterday for robbing a sick lady on a steamboat. Several Irish prisoners took offence at their black associates and a general fight ensued. The negroes were pounded unmercifully with chairs and table legs, but they came near clearing out the gaol. All the force in the court house was summoned and the riot quelled.

NEW YORK NOTES.

NEW YORK, Sep. 9.—The Central Trust Co. has commenced a suit as trustee of a million mortgage given by New York city and the Northern Railroad for its foreclosure.

The Missouri Pacific Railway has declared a quarterly dividend of 1¾ per cent. payable October 2nd.

The steamship *Castilia* sailed for Alexandria yesterday with mules for the British. The English Consul received a letter soon after the arrival of the steamer, representing that at a meeting of Irish patriots here the question of blowing up the *Castilia* with the mules was fully discussed, and decided negatively as impolitic. The pier was guarded after that by police and special agents, up to the time of the vessel sailing.

R. M. Knapp, provision broker, suspended yesterday; liabilities estimated at $50,000.

STRUCK BY LIGHTNING.

POTTSVILLE, Pa., Sept. 9.—Prof. Thurlow, Principal of the High School, and three boys were struck by lightning yesterday while crossing a hill, but not fatally injured. Thurlow had his foot burned, and the boys were knocked down. One had several teeth loosened.

MURDER IN CHICAGO.

CHICAGO, Sept. 9.—Edwin Garrett and Joseph Felargo quarreled yesterday over the latter's intimacy with Garrett's wife. Garrett shot his wife and was killed by Felargo.

SUSPECTED POISONING.

NEVADA, Col., Sept. 9.—Mrs. Jas. Wilson and her son have been arrested charged with poisoning her husband. Wilson died suddenly, and an autopsy revealed the poison.

SUPPOSED MURDERER ARRESTED.

JERSEY CITY, Sep 9.—The two tramps suspected of murdering Cole, at Closter yesterday, have arrived here.

STEAMSHIP ARRIVALS.

NEW YORK, Sep. 9.—Arrived, *Elbe*, from Bremen, *Edam* from Amsterdam, and *Denmark* from London.

Dr. E. C. West's Nerve and Brain Treatment is a never failing cure for Nervous Neuralgia, Nervous Headache, Overworked Brain, &c. Sold at James Clarke & Co's.

Hall's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by Jas. Clarke & Co., Belleville, Ont

N. H. DOWNS'
Vegetable Balsamic
ELIXIR!

This valuable medicine is purely vegetable, the discovery of which was the result of many years' close study, in order to discover the cause, the symptoms and the cure—viz.: Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Influenza, Pleurisy, Hoarseness, Spitting Blood, Bronchitis, and every species of oppression of the Chest and Lungs. In all cases where this Elixir has been duly administered its efficacy has been invariably manifested, convincing the most incredulous that

CONSUMPTION

is not incurable, if properly attended to.—Consumption at its commencement, is but a slight irritation of the membrane which covers the lungs, then an inflammation, when the cough is more observable, but rather dry; then becomes local fever and the pulse more frequent, the cheeks flushed and chills more common. This Elixir in curing the above complaints, operates so as to remove all morbid irritations and inflammation from the lungs to the surface, and finally expel them from the system. It facilitates expectoration.

IT HEALS THE ULCERATED SURFACES

and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. It is free from strong opiate and astringent articles, which are of so drying a nature as to be in great danger of destroying the patient; whereas this medicine never dries or stops the cough, but, by removing the cause, generally destroys the hectic before the cough is entirely gone. Consequently, when the cough is cured the patient is well. Send address for pamphlet giving full directions for cure of pulmonary diseases. Price 25cts. 50cts. and $1 per bottle. Sold everywhere.

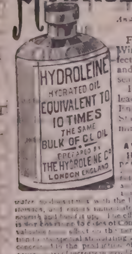
HYDROLEINE



(Hydrated Oil.)
An artificially digested Cod Liver Oil.

For Consumption, Winter Cough, Affections of the Chest and all Wasting Diseases.

Prescribed by the leading physicians of England, the United States and the Dominion of Canada.

A WONDERFUL FACT.

Hydroleine mixes perfectly with water, [illegible] a complete [illegible] digestion of the oil and just as the Hydroleine mixes with the water, so does it with the liquid contents of the stomach, and enters immediately into the system to nourish and build it up. The efficacy of Hydroleine is not confined to cases of Consumption, as from its valuable effect on the nervous system in addition to its special stimulating action on the organs concerned in the production of Fat in the body it causes a marked increase in weight in persons of naturally thin habit, who do not present any evidence of disease.

Unlike ordinary preparations of Cod Liver Oil it produces no [illegible] or sense of nausea and should be taken in such very much smaller doses according to the directions, as will ensure its complete assimilation; this, at the same time, renders its use economical in the highest degree.

For sale by all Druggists.

We have sold the above remedy for several months and find it spoken of very favorably by both the medical profession and the public. We can safely recommend it to parties needing such a remedy.

MAKE IT RIGHT.

Have you ever wronged another—
Stranger, neighbor, sister, brother
In God's sight!
Have you strewed their paths with sadness
You, who should have given them gladness?
Then, as morning follows night,
Make it right.

Make it right by strong endeavor;
Conscience is a mighty lever,
You will find
If you can, make restitution,
or delay its execution,
Lest you of a different mind,
Wax unkind.

It may cost you time and money,
Make your pathway seem less sunny,
Home less bright;
But in that you are mistaken—
Man was never yet forsaken—
Climbing up God's holy height
Make it right.

Should the wrong be past undoing,
Still, the path of right pursuing
All the way,
That you never wrong another,
Stranger, neighbor, sister, brother,
Pray, friend, pray.

DRIFTED ASUNDER.

If you were only here to-night,
And I were looking in your eyes,
I should not mind the autumn's blight,
The wild night-winds or sombre skies;
I should not mind the dreary rain
That falls upon the sodden hill;
Your presence would have power to make
My every pulse with sudden thrill.

If you were here with me to-night,
I would forget life's toil and tears,
The weary struggle without aim—
The brooding shadows of the years.
To-night, if you were only here,
Your dear eyes looking into mine,
Life's sorrows all would drop away,
And living be a gift divine.

But we are miles and miles apart,
And walking widely different ways;
You'll never know your words, dear heart,
Make all the music of my days.
And so I sit alone to night,
In all the autumn wind and rain.
Ah me! ah me! does life hold naught
But broken dreams and bitter pain?

Burlington Hawkeye Philosophy.

My son, when you hear a man growling and scolding because Moody gets $200 a week for preaching Christianity, you will perceive that he never worries a minute because Ingersoll gets $200 for preaching atheism. You will observe that the man who is utterly shocked because Francis Murphy is getting $150 a week for temperance work, seems to think it is all right when the bar-keeper takes in twice as much money in a single day. The laborer is worthy of his hire, my boy, and he is just as worthy of it in the pulpit as he is upon the stump. Is the man who is honestly trying to save your immortal soul worth less than the man who is trying his level best to go to Congress? Isn't Moody doing as good work as Ingersoll? Isn't John B. Gough as much the friend of humanity and society as the bar-tender? Do you want to get all the good in the world for nothing, so that you may be able to pay the high price for the bad?

Remember, my boy, the good things in the world are always the cheapest. Spring water costs less than corn whiskey; a box of cigars will buy two or three Bibles; a gallon of old brandy costs more than a barrel of flour; a "full hand" at poker often costs a man more in two minutes than his church subscription amounts to in three years; a State election costs more than a revival of religion; you can sleep in church, every Sunday morning for nothing, if you are mean enough to dead-beat your lodgings in that way, but a nap in a Pullman car costs you $2 every time; 50 cents for the circus and a penny for the little ones to put in the missionary box; $1 for the theatre, and a pair of old trousers, frayed at the ends, baggy at the knees, and utterly bursted as to the dome, for the Michigan sufferers; the dancing lady who tries to wear the skirt of her dress under her arms and the waist around her knees and kicks her slippers clean over the orchestra chairs every night, gets $600 a week; and the city missionary gets $600 a year; the horse race scoops in $2,000 the first day, and the church fair lasts a week, works twenty-five or thirty of the best women in America nearly to death, and comes out $40 in debt—why, my boy if you ever find yourself sneering or scoffing because once in a while you hear of a minister getting a living, or even a luxurious salary, or a temperance worker making money, go out in the dark and feel ashamed of yourself, and and if you don't feel above kicking a mean man, kick yourself. Precious little does religion and charity cost the whole world, my boy, and when the money it does get is flung into its face, like a bone to a dog, the donor is not benefited by the gift, and the receiver is not and certainly should not be, grateful. It is insulted.

A Woman With a Whim.

In hunting up the battle field of Jonesboro I came across the usual score of blind roads leading no one knew where, and in following one through the woods I came to a point where a fence blocked further progress. On the other side of the fence was a farmer hoeing corn, and after the usual talk about the weather I asked:

'Say, colonel, is this the end of this road?'

'This is the end.'

'Don't go any further?'

'Not a rod.'

'And I've got to ride back?'

'I reckon so, but you'd better come over to the house and have a bite first.'

'Won't it put you to any trouble?'

'Not a bit. Ride down into the scrub and you'll find a low spot where you can jump the horse.'

When I had followed directions and reached his side he continued:

'Stranger, I want to post you in advance. When the Yankees came down here they ripped open our feather beds, broke open our chests, smashed our crockery and stole our chickens. I never laid it up again 'em, but my wife can't forget it. When you reach the house she'll take a squint at ye and ask if you are from the North. You'll say yes, and then she'll ask if you was in the Yankee army. You'll say yes, and then she'll open on you and call you all sorts of hard names. You won't pretend to hear a word, and she'll heave chairs and boot jacks and flat irons at ye and yell at at our four dogs to chew ye up. That's a whim or hers, you see, but she can't hit ye if you are good at dodging, and the dogs dasn't bite anybody.'

'But I don't want to be greeted that way.'

'You never mind. It's only a whim, and after she has tired herself out jawing and throwing and tearing around she'll set to and cook the best dinner in the State of Georgia. There was a chap here from Chicago only last week, and after he had dodged three chairs, a dozen sticks of wood and six milk-pans the old woman pulled him off the hoss and made him feel so much at home that I reckon he may marry our oldest gal this fall.'

I positively declined to take dinner with him, and I think I hear him calling yet as I galloped away:

'Stranger, if you can't face one old woman with a whim now, I don't reckon you bothered our folks very much during the war.'—*Detroit Free Press.*

"The gratifying action of St. Jacobs Oil in my case," says Mr. John S. Krim, agent for the N. Y. & B. Trans. Co., Pier 7, North River, New York, "gives me unlimited confidence in its great general curative power, and I freely recommend it."

Samson lost his strength with his hair. Thousands of men and women lose their beauty with theirs, and very large numbers restore the ravages of time by using the famous Cingalese Hair Restorer. Sold at 50 cents per bottle by all Druggists.

Take no more nauseous purgatives. Burdock Blood Bitters act mildly, pleasantly and thoroughly upon the Bowels, and occasion no inconvenience, while it regulates the Liver and Kidneys and tones the enfeebled system. Trial bottles 10 cents.

Rheumatism is greatly dependent on a vitiated condition of the fluids, and may be eliminated from the system by cleansing the Blood and regulating the Kidneys. Burdock Blood Bitters will do this most effectually. Trial bottles 10 cents.

Cingalese. A name well known in connection with the Hair Renewer, which restores grey hair to its natural color by a few weeks use. Sold at 50 cents per bottle by all Druggists.

At the approach of spring great attention should be given to purify the system engorged with foul humors during the winter. Burdock Blood Bitters is Nature's own purifying and regulating tonic.

Rest and Comfort to the Suffering

"Brown's Household Panacea" has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. It will most surely quicken the Blood and Heal, as its acting power is wonderful." "Brown's Household Panacea," being acknowledged as the great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle. 234ly

After many years of patient investigation Dr. Van Buren, of Germany, finally succeeded in perfecting a Kidney Cure that would permanently relieve all cases of Kidney Disease. Be sure and ask your Druggist for Dr. Van Buren's Kidney Cure.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle. 234ly

Delays are dangerous, particularly in Kidney Diseases, so take at once Dr. Van Buren's Kidney Cure and obtain relief from all your sufferings. Your Druggist keeps it.

Bad Blood.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, blotches, pimples and the various humors and blemishes of the skin are only symptomatic of bad blood—that needs purifying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidneys, skin, etc, and strengthening while it regulates and purifies.

The most wonderful curative remedies of the present day, are those that come from Germany, or at least originate there. The most recent preparation placed upon the market is this country, is the GREAT GERMAN INVIGORATOR, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangements of the nervous system. For sale by druggists, or sent free by mail on receipt of the price, $1.00 per box, or six boxes for $5.00. Address James Clark & Co., Sole agent for Belleville. Send for circular.

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrh, Bronchitis, Asthma and Lung Disease by Dr. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the seat of disease. Read and judge for yourself:—

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. John P. Whelan, Manager of Post and True Witness, Montreal. Mr. C. Hill, Montreal, catarrh and bronchitis. Mr. DeBoucherville, of the Indian Department, Ottawa, catarrh of many years; now cured. Mr. Geo. Agee Ottawa, catarrh and lung disease; cured. Mrs. Smith, London, wife of Medical Detective, cured of catarrh. Geo. Maguire, Toronto, 482 Adelaide street West; daughter cured of asthma. George Willis, Exeter, Ont., catarrh and bronchitis. J. D. Armstrong, 186 Yonge street, Toronto, catarrh and catarrhal deafness. Thomas Telfer, 12 Melinda street, Toronto, asthma; cured. Mr. Benj. A. Drake, St Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. Benoit, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma and bronchitis for over eight years, and who is now perfectly cured.

Mrs. Adamson, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitating in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis. John C. Fleming, Editor of Post and True Witness, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write, inclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souville and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

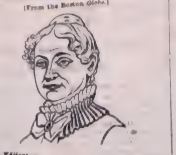
$200.00 REWARD!

Will be paid for the detection and conviction of any person selling or dealing in any bogus, counterfeit or imitation Hop Bitters, especially Bitters or preparations with the word Hop or Hops in their name or connected therewith, that is intended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as Hop Bitters. The genuine have a cluster of Green Hops (notice this) printed on the white label, and are the purest and best medicine on earth, especially for Kidney, Liver and Nervous Diseases. Beware of all others, and of pretended formulas or receipts of Hop Bitters published in papers or for sale, as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted.

Hop Bitters Mfg Co.,
Rochester, N. Y.

A NOTED BUT UNTITLED WOMAN.

[From the Boston *Globe*.]



Messrs. Editors—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of *either* sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Philadelphia, Pa. (2) Mrs. A. M. D.

KIDNEY-WORT
IS A SURE CURE
for all diseases of the Kidneys and
—LIVER—

It has specific action on this most important organ, enabling it to throw off torpidity and inaction, stimulating the healthy secretion of the Bile, and by keeping the bowels in free condition, effecting its regular discharge.

Malaria. If you are suffering from malaria, have the chills, are bilious, dyspeptic, or constipated, Kidney-Wort will surely relieve and quickly cure.

In the Spring to cleanse the System, every one should take a thorough course of it.

SOLD BY DRUGGISTS. Price $1.

MEDICINE CHEST IN ITSELF
A PURELY VEGETABLE MEDICINE
For INTERNAL and EXTERNAL use.
THE OLDEST BEST & MOST WIDELY KNOWN FAMILY MEDICINE

Farmers and Mechanics.

Provide yourselves with a bottle of *PAIN-KILLER* at this season of the year, when summer complaints are so prevalent; it is a prompt, safe, and sure cure. It may save you days of sickness, and you will find it is more valuable than gold. Be sure you buy the genuine *PERRY DAVIS' PAIN-KILLER*, and take no other mixture.

Cobourg, Ont., March 3, 1880.

I have been selling Perry Davis' Pain-Killer for the past six years, and have much pleasure in stating that its sale in that time has been larger than any other patent medicine that I have on my shelves, and in those years I have never heard a customer say aught but words of the highest praise in its favor. It is an article that seems to have combined in it all that goes to make a *first-class family medicine*, and as long as I have a house and store, Perry Davis Pain-Killer will be found in both.

Yours, &c., J. E. KENNEDY.

Beware of Counterfeits and Imitations.

Price 20c., 25c., and 50c. per bottle.

UNCONDITIONAL, INCONTESTABLE
LIFE POLICIES.

THE objection is often made that the Companies may take advantage of some of the conditions on their Policies, and thus either avoid entirely the payment of claims, or compromise with the widow for a small sum. This argument cannot be used against

THE SUN
LIFE ASSURANCE CO'Y OF MONTREAL,

which issues absolutely unconditional policies to selected lives. There is no restriction of any kind on them. The assured may travel to any part of the world without extra premium. He may change his occupation at will, or do anything else he chooses. The contrast is remarkable with other policies. Ask an agent to show you one; it speaks for itself.

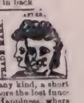
TO NERVOUS SUFFERERS—THE GREAT EUROPEAN REMEDY—DR. J. B. SIMPSON'S SPECIFIC MEDICINE.



Dr. J. B. Simpson's Specific Medicine is a positive cure for Spermatorrhea, Impotency, Weakness, and all diseases resulting from Self-Abuse, as Nervous Debility, Irritability, Mental Anxiety, Languor, Lassitude, Depression of Spirits and Functional Derangements of the Nervous system generally, Pains in back or side, Loss of memory, Premature Old Age and diseases that lead to Consumption, Insanity, and an early grave, or both. No matter how shattered the system may be from excesses of any kind, a short course of this Medicine will restore the lost functions and procure Health and Happiness, where before was despondency and gloom. The Specific Medicine is being used with wonderful success. Pamphlets sent free to all. Write for them and get full particulars.

Price, Specific, $1.00 per package, or six packages for $5.00. Will be sent by mail on receipt of money. Address all orders,

Cathartic Pills

Combine the choicest cathartic principles in medicine, in proportions accurately adjusted to secure activity, certainty, and uniformity of effect. They are the result of years of careful study and practical experiment, and are the most effectual remedy yet discovered for diseases caused by derangement of the stomach, liver, and bowels, which require prompt and effectual treatment. Ayer's Pills are specially applicable to this class of diseases. They act directly on the digestive and assimilative processes, and restore regular healthy action. Their extensive use by physicians in their practice, and by all civilized nations, is one of the many proofs of their value as a safe, sure, and perfectly reliable purgative medicine. Being compounded of the concentrated virtues of purely vegetable substances, they are positively free from calomel or any injurious properties, and can be administered to children with perfect safety.

Ayer's Pills are an effectual cure for Constipation or Costiveness, Indigestion, Dyspepsia, Loss of Appetite, Foul Stomach and Breath, Dizziness, Headache, Loss of Memory, Numbness, Biliousness, Jaundice, Rheumatism, Eruptions and Skin Diseases, Dropsy, Tumors, Worms, Neuralgia, Colic, Gripes, Diarrhœa, Dysentery, Gout, Piles, Disorders of the Liver, and all other diseases resulting from a disordered state of the digestive apparatus.

As a Dinner Pill they have no equal.

While gentle in their action, these Pills are the most thorough and searching cathartic that can be employed, and never give pain unless the bowels are inflamed, and then their influence is healing. They stimulate the appetite and digestive organs; they operate to purify and enrich the blood, and impart renewed health and vigor to the whole system.

THE ROYAL INSURANCE CO.

Of England.

CAPITAL	$10,000,000.
Funds Invested	$23,000,000
Annual Income	5,000,000.

Over $600,000 invested in Canada for the protection of Canadian Policy holders.

Farm Property Insured against damage by Lightning. Losses to live stock by lightning and fire anywhere on the Farm made good.

FACTS WORTH REMEMBERING.

The Royal has the largest surplus funds of any Fire Insurance Company in the world.

The Royal has the largest deposit with the Dominion Government of any other Insurance Company.

The conditions of the Royal's Policies are more liberal than those of other Companies doing business in Canada.

In conclusion remember that security should be the first consideration, and that it is to your interest to insure with the Company that gives the *greatest* security. You may better carry your own risk than entrust it where you have not absolute security.

Daily Intelligencer.

The Far West.

To the Editor of the Intelligencer.

SIR:—I took leave of your readers at Prince Arthur's Landing, and now invite them to an inspection of this place. We found the "Landing" a place of some 1,500 inhabitants, more or less, and showing a good deal of life and business enterprise. Already business has received an impetus and property has received a boom from the influence of the C.P.R. As an instance of the rise in the value of property, I was told by a resident of one piece of land which a year ago could have been bought for $500, but which at the time of speaking (May) could not be bought for less than $10,000, and this was quite a distance from the Bay up along the face of the hill. All along the front street the price is almost fabulous for business stands. The town itself is very pleasantly situated at the west side of Thunder Bay, on a rapidly rising slope of a hill, which from the bay has all the appearance of terraces. The view from here is magnificent. Pie Island lies to the right front, high and massive. Thunder Cape is straight in front, across the bay, rising abruptly from the water to a height of 1,800 feet, and of a color almost like copper; while between the two and away beyond, stretches out Lake Superior. The soil is a light sandy loam, which in dry weather drifts almost like snow. Underneath that and at no great depth is the solid rock. There are two magnificent piers built solidly on piles, affording ample accommodation for much more shipping than yet finds its way here The water is of such depth that the largest steamers find not the least difficulty in approaching by day or night. The Government has just completed a fine lighthouse on the outer end of the western pier, which must be a boon to navigators. To us it began to look a good deal like business to see a great pile of steel rails on the dock, and a train of cars being loaded with them for transhipment on the C. P. R. There are being built two other very long piers to the south of the present docks, it was told us specially for the use of the C.P.R. Altogether the outlook for the "Landing" is bright and we heartily wish her all the prosperity she may attain as the most westerly port in Canadian territory on the great lakes. But while we are making our observations the steamer has been discharging her cargo, and now her whistle sounds, and all hasten on board, and just as the sun is setting we steam away towards Pie Island, and the inner channel. As long as it is light eager passengers are out on deck to see what can be seen. Before we get quite away some one enquires where is the Kaministiquia and Neebing hotel; and one who has been there points it out. The K. can be seen by the aid of opera glasses, but of course the hotel is not in sight, being 5 miles up the narrow river. Next morning up betimes, and every one asking where we are and we are told about 6 hours from Duluth, so we content ourselves watching the shore and the lake. The shore is very high and rocky, but covered with timber and much more regular than our own north shore of Superior. At length dinner is over and Duluth in sight. At first view the city is very disappointing, appearing as a ragged, scattered hamlet, sprawled over the face of a very steep hill. But as we approach it appears much more compact and business like. There are very fine elevators here, two of them capable of holding 1,000,000 bushels each. We are surprised to be told there are 10,000 inhabitants here and cannot see where they all are put. The necessity of the thorough business of the C. P. R. can be seen from the fact that the collector of customs told me they had passed through their hands in two months about $1,500,000 worth of stuff as against one million dollars worth in the same time last year. But to return, the question is what about the trains? Can we go right on? As it is Saturday ought we to go on and travel on Sunday if we can. As there are some ladies on board who have little children, they desire to proceed, and some decide to stay; and here then begins the separation of a highly agreeable company after a very pleasant voyage. I am not sure but there were a few tears as some of the company bade each other good bye. Sunday was a curious day, being intolerably hot and showery, so that we had to carry umbrellas to save ourselves from being roasted and drenched alternately. But Monday came, and with it the worry of getting our goods through the Customs and loaded on the car, but it is done in time, and we have the satisfaction of seeing it go on ahead. The journey up beside the St. Louis river is very exciting. The water itself is of a dull brick red, being so laden with red clay, or in some places in the evening almost an inky black. But after sundry sharp curves we suddenly find ourselves climbing a steep grade, and turning abruptly round a point we are crawling along the edge of a precipice, with a hill rising 300 feet, abruptly on our right, and the river rushing along a hundred feet below so close beneath that we have to put our head out of the window to see where the water touches the shore. This last performance some nervous ladies refused to undertake, feeling safer sitting at the other side of the car. For eleven miles the road rises constantly, and the view of the river is panoramic. It is a continuous rapid for the whole distance, but so crooked that only now and then it can be seen. There are five bridges over gullies varying in height from 60 to 90 feet and to nervous people it is not pleasant to look to the bottom or listen to the creaking of the bridges as we pass over. But they appear to be quite safe. But just before dark we run across an iron bridge and leave the river behind. Next morning early finds us just entering on the prairie and from that time onward the principal feeling is one of a kind of vastness which swallows us up. At 7 o'clock we reach Glyndon and change cars for the north, having a few minutes for breakfast, for which we pay 50c. About 4 p m. we reach Emerson and run into St. Vincent to have baggage examined and rechecked, when we run up to Emerson and are once more in Canada. But as our car of goods is now behind we have plenty of leisure to do the town. Emerson is a lively place. From the station Dominion St. presents quite an imposing appearance, many of the stores would do no discredit to any street in Toronto and the immense stocks of goods assure us of a lively trade. I was informed that Ashdown & Co. carry a general stock of about $165,000. Worthy of mention among the business enterprises is that of Walton & Bird, hardware merchants, from my native town of Peterboro.' Their show of silverware is beautiful and not often have I seen it excelled even in very much larger places. The school house and Town Hall, brick structures, are well worthy of the intelligence and business enterprise of the citizens. There are six churches in the place. But one thing that attracts the stranger's eye at the present time is the immense trade done in farming machinery. The street is continuously lined with teams loaded with ploughs, harrows, mowers, self rake reapers and self-binders, the sales in the latter alone going up this summer far into the hundreds. There must be crops somewhere to demand such an amount of machinery. Among the commonest sounds on the streets is the musical thump, thump, of the pile driver driving down foundations for all sorts and sizes of buildings, public and private. It is quite evident the flood of last spring did not wash out the citizens' faith in their own future. On Thursday our car came in, and at 1 p.m. we began to unload and before 5 p.m. one load was on its way to Nelson, and some reshipped to Gladstone, and the rest distributed to its owners. But when on Friday morning we proposed to start my horse was so lame I had to stay over till Monday. On Sunday I conducted one service for Rev. J. Simmons, Methodist Minister here. On Monday off to Nelson, which I reached early on Tuesday, glad to be among friends once more.

J. W. BELL.

Ready Retorts.

The number of witty replies, ready retorts, and 'good things' generally attributed to Swift, Foote, Sydney Smith, Sheridan, and other departed celebrities, would doubtless considerably astonish those gentlemen, were they to return to life. Happy thoughts are not confined to acknowledged wits, however. Most of us have sometimes had occasion to say: 'What a good repartee such and such and such an answer would have been, had we only thought of it in time.' But there is the rub. It is not given to everyone, perhaps fortunately for the general peace, to be as ready at retort, for example, as the critic to whom the following question was addressed by an artist:

'Don't you think it is about time I exhibited something?' 'Yes; a little talent, for instance,' was the reply.

To a grocer who had retired from business a friend said: 'My dear fellow, you are looking thin; idleness does not agree with you.'

'Well, no,' instantly replied the grocer, 'I don't weigh so much as I did.'

Another tradesman, a Quaker, who sold hats, was asked by a rustic the price of one.

'Fifteen shillings,' was the reply. The pretending purchaser offered twelve shillings.

'As I live,' said the Quaker, 'I cannot afford to give it thee at that price.'

'As you live!' exclaimed the countryman, 'then live more moderately, my friend.'

A tailor and his son were doing a day's work at a farmhouse. The prudent housewife, to secure a good day's work, lighted candles when daylight began to fade. The tailor looked at his son and said, 'Jock, confound them that invented working by candle-light!' 'Ay, replied young snip, or daylight either!'

'You have no idea of the hard work there is in this business,' said a canvasser to a shopkeeper. 'I tell you it is either talking or walking from morning till night.' 'Beg your pardon,' replied the victim. I have a pretty distinct idea of the talking part of your programme. Now, please favor me with an exhibition of the walking part.'

A sarcastic question may sometimes do duty for the severest of replies. 'I never consider a dinner perfect without soup,' said one man to another; I always have soup when I dine,' 'And do you never have anything else?' returned the other.

A punning retort is also at times very effective. 'I had no time to stuff the chicken,' apologized a landlady. 'Never mind, madam; it's tough enough as it is,' quickly replied the boarder.

Search the wide world over, and nothing to equal St. Jacobs Oil can be found.

BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, blotches, pimples and the various humors and blemishes of the skin are only symptomatic of bad blood—that needs purifying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidneys, skin, etc, and strengthening while it regulates and purifies.

DELAYS are dangerous, particularly in Kidney Diseases, so take at once DR. VAN BUREN'S KIDNEY CURE and obtain relief from all your sufferings Your Druggist keeps it.

At the approach of spring great attention should be given to purify the system engorged with foul humors during the winter. Burdock Blood Bitters is Nature's own purifying and regulating tonic.

Rest and Comfort to the Suffering

"Brown's Household Panacea" has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful," "Brown's Household Panacea," being acknowledged as great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle. 264ly

AFTER many years of patient investigation DR. VAN BUREN, of Germany, finally succeeded in perfecting a Kidney Cure that would permanently relieve all cases of Kidney Disease. Be sure and ask your Druggist for DR. VAN BUREN'S KIDNEY CURE.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle. 264ly

The market is full of preparations for the hair, some of them good, and many of them good for nothing. R. P. Hall & Co., of Nashua, N. H., manufacture and sell an article of real merit, which has been advertised in the *Express* for the past year, and we have taken no little pains to inquire how it has been liked by the public. One of our druggists informs us that he has sold more than double the amount of Renewer than of all other hair preparations combined, and when a person once uses it, he will use no other: that it is not only bought by the young people as a dressing, but by older persons for removing dandruff, preserving and increasing the growth of the hair and restoring its natural color. Another druggist says that he sells three or four times as much of Hall's, as of all others.—*Hampshire Express, Amherst, Mass.*

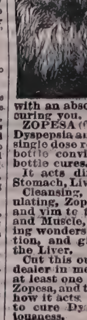
Samson lost his strength with his hair. Thousands of men and women lose their beauty with theirs, and very large numbers restore the ravages of time by using the famous Cingalese Hair Restorer Sold at 50 cents per bottle by all Druggists.

Take no more nauseous purgatives, Burdock Blood Bitters act mildly, pleasantly and thoroughly upon the Bowels, and occasion no inconvenience, while it regulates the Liver and Kidneys and tones the enfeebled system. Trial bottles 10 cents.

The most wonderful curative remedies of the present day, are those that come from Germany, or at least originate there. The most recent preparation placed upon the market in this country, is the GREAT GERMAN INVIGORATOR, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangements of the nervous system. For sale by druggists, or sent free by mail on receipt of the price, $1.00 per box, or six boxes for $5.00. Address James Clark & Co., Sole agent for Belleville. Send for circular.

Rheumatism is greatly dependent on a vitiated condition of the fluids, and may be eliminated from the system by cleansing the Blood and regulating the Kidneys. Burdock Blood Bitters will do this most effectually. Trial bottles 10 cents.

RACKED BY INNUMERABLE PANGS, restless by day, sleepless at night, rising unrefreshed in the morning, without appetite and pestered by varying and perplexing symptoms, the dyspeptic takes indeed a gloomy view of human existence. For him the zest of life seems gone. Heartburn, oppression at the pit of the stomach, and the attendant annoyances of of constipation and biliousness, combine to render him utterly wretched. But there is, if he will but take advantage of it, a reliable source of reliable relief from all misery. NORTHROP & LYMAN'S VEGETABLE DISCOVERY and DYSPEPTIC CURE is, as its name imports, a botanic preparation, free from mineral poison, and an all-sufficient remedy for indigestion in its most obstinate form. It not only enriches the blood by enabling the digestive organs to convert the food received into nutriment, but depurates it by increasing the action of the bowels and kidneys, the natural outlets for its impurities. But while it relaxes the bowels, it never does so violently and with pain, like a drastic cathartic. It aids, but never forces, Nature, invigorating as well as purifying and regulating the system. It thoroughly removes those diseased humors which tend to vitiate the blood, purifies the urinary secretion, and promotes a flow of healthy bile into the natural channel, besides expelling it from the circulation. Experience has proved that this standard medicine is a thorough remedy for dyspepsia, biliousness, costiveness, kidney complaints, scrofula, erysipelas, salt rheum, lumbago and all impurities of the blood. Price $1.00. Sample Bottle 10 cents. Ask for NORTHROP & LYMAN'S Vegetable Discovery and Dyspeptic Cure. The wrapper bears a *fac-simile* of their signature. Sold by all medicine dealers.



WILL YOU EXCHANGE a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys.

Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

BUTLER'S

Celebrated

BLACKBERRY CORDIAL.

The most effectual remedy yet discovered for Cholera, Cholera Morbus, Diarrhœa, Dysentery, Cramps, Colic, looseness of the Bowels &c.

This justly celebrated preparation is highly recommended by the medical men, and has been used with the greatest success for the last ten years throughout the United States.

Daily Intelligencer.

BELLEVILLE, MONDAY, SEPT. 11.

Protested Elections.

The period within which protests can be entered against the return of members elected to the House of Commons in the older Provinces (except in Algoma and Chicoutimi) has now elapsed. So far thirty-four protests have been entered, of which eighteen are against Conservatives and sixteen against Liberals, as follows:—

CONSERVATIVES.

Bosse	Quebec Centre, Q.
Burns	Gloucester, N. B.
Cuthbert	Berthier, Q.
Dickinson	Russell, O.
Foster	King's, N. B.
Girouard	Jacques Cartier, Q.
Guillett	W. Northumberland, O
Hawkins	Bothwell, O.
Jenkins	Queens, P. E. I.
Macdonald, Sir J.	Lennox, O.
McCallum, L.	Monck, O.
O'Brien	Muskoka, O.
Robertson	W. Hastings, O.
Smyth	Kent, O.
Tyrwhitt	S. Simcoe, O.
White	E. Hastings, O.
Wood	Westmoreland, N. B.
Woodworth	King's, N. S.

LIBERALS.

Bain	North Wentworth, O.
Cameron	West Huron, O.
Fisher	Brome, Q.
Geoffrion	Vercheres, Q.
Gunn	Kingston, O.
Jackson	South Norfolk, O.
Keefer	Lunenburg, N. S.
Mulock	North York, O.
Platt	Prince Edward, O.
Ray	Annapolis, N. S.
Rogers	Albert, N. B.
Ross	West Middlesex, O.
St. Georges	Portneuf, Q.
Trow	South Perth, O.
Wells	East Bruce, O.

In addition to these, counter petitions have been entered against the unsuccessful Conservative candidates in North York, King's, N.B., Kingston, and Albert, N. B., and against the unsuccessful Liberal candidates in Westmoreland, N.B., and Monck. Of these protests two, namely those in East and West Hastings, are not likely to come to trial, as the Grits know that they would get the worst of it, which will leave the number of protests entered by each party equal. The Montreal *Gazette* has the following pertinent comments on these facts:—"It will be seen that although the Conservatives carried 134 seats in the five older Provinces to 66 seats won by their opponents, the petitions against the former are but two more numerous than against the latter. Indeed they are even fewer in the case of the Conservatives members, since in King's, N.B., South Simcoe and Queen's, P.E.I., both the candidates were Conservatives, and the party strength is not affected by the protests. The inference to be drawn from this fact is that the charge of corruption made against the Ministerial candidates is utterly unsubstantial, a mere excuse, always resorted to, to account for the crushing defeat of the Liberal party. We may be sure that in every county where improper or corrupt influences were used to promote the success of the Conservative candidates, a protest would have been entered. Mr. Blake, shortly after the elections, issued a circular to his followers urging them to seek diligently for the evidences of undue influence, and visit punishment by a protest in every case in which such could be discovered, yet as the outcome of the appeal from the leader, the Liberals have been able to contest only eighteen Conservative seats, while they find sixteen of their friends liable to the unpleasant experience of being unseated, if not disqualified. The Courts, when the cases come to trial, will fully expose the extent of bribery practised in the late elections, and will show plainly that the Liberal party has neither forgotten nor ceased to exercise its skill in 'mesmerizing voters by batches,' corruptly spending thousands of dollars in a single county, or in acquiring votes by the invitation 'Come along, John! We've lots of money.'"

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists.

Editorial Brevities.

Says the *Mail*: "Mulock's expenses in contesting North York amounted to $1,705,47. Mr. John White, of East Hastings, whose expenses were $46.89, is charged by the Reformers with bribery. Pray, if it is a crime to spend $46.89 in an election, how is the expenditure of $1,705.47 to be described?

The British importation of food has greatly increased during the last fifteen years. Seven times the quantity of bacon and hams, more than twice the quantity of potatoes, and fifty per cent. more of wheat and flour is imported, per head, than was imported in 1867. Wheat and flour are the most important of the articles imported. It cost Britain about six dollars a year per head to buy bread from abroad.

Mr. Morton, the new Solicitor-General for N. B., has given offence to the local Opposition, says the Halifax *Herald*, by accepting office. He was one of the men whom the Opposition expected to throw themselves into the arms of that party. There are several other alleged discontents whose course will probably be found displeasing to the Grits.

The Moncton Sugar Refining Company have declared a dividend of 5 per cent for the past half year. This does not look much like monopoly.

Don't die in the House.

"Rough on Rats." Clears out rats, mice, roaches bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

The Dublin police appear to be grateful for the consideration Lord Spencer extended towards them. They are full of zeal and resolution to do their duty.

O. Bortle, of Manchester, Ontario Co., N.Y. writes:—"I obtained immediate relief from the use of *Dr. Thomas' Eclectric Oil*. I have had Asthma for eleven years. Have been obliged to sit up all night for ten or twelve nights in succession. I can now sleep soundly all night on a feather bed, which I had not been able to do previous to using the Oil."

The Conservative Convention.

ELECTION OF DELEGATES FOR WEST HASTINGS.

On Saturday afternoon there was a large attendance of members of the Liberal Conservative Association for West Hastings, at a meeting called for the election of delegates to the Toronto convention and the transaction of other business. The following gentlemen were chosen as delegates:

BELLEVILLE.

Hon. L. Wallbridge, A. Robertson, M. P., Henry McIninch, Jas. Cummins, Arthur McGinnis, J. W. Campion, E. McMahon, W. J. Diamond, W. B. Northrup, Geo. D. Dickson, John Taylor, A. R. Dougall, Henry Corby, John Phippen, J. E. Smith, S. S. Wallbridge, E. H. Laroche, Walter Alford, L. H. Henderson, George Denmark, Hugh Walker, C. W. Bell, James Clarke, W. J. Hudson, J. R. Northcott, E. Hayne, Mayor Lingham, Hugh Blair, A. Brignall, C. J. Starling, Thos. Kelso, J. W. London, J. C. Jamieson, H. C. Cronk, R. B. Cooper, John Doyle, Irvine Diamond, John Nicholson, J. H. Simpson, D. Collins, Jas. Macoun, Jno. McKeown, Dr. Tracy, Jas. Smith, Jas. McCrudden, J. W. Johnson, J. G. Robinson, John C. Lake, Dr. R. Stewart, J. L. Lewis, R. S. Bell, J. P. Reeves, Wm. Doctor, Wm. Alford, Jas. Mackie and John Jenkins.

SIDNEY.

Baltis Rose, W. H. Knox, W. R. Vandervoort, Henry Fenn, D. J. Fairfield, John Harry, C. H. Bonesteed, S. Dench, Jas. A. Chisholm, A. L. Crouter, Jas. Gay, John Chisholm, Wm. Johnston, Morden Bird, R. S. Young, C. Armstrong, C. W. Ketcheson, Peter Grass, S. Curry, S. S. Tufts, J. C. Rose, J. H. Row, E. Young, A. Ward, B. Gilbert, A. Thompson, D. R. Ketcheson, W. Crouter, J. Young, and R. Grass.

TRENTON.

Geo. Jackson, D. R. Murphy, R. A. Barber, Arthur Murphy, G. W. Ostrom, A. Parent, F. Cornwell, Wm. Shea, W. T. Barker, Thos. Gorman, Jas. Crowe, J. H. Cunningham, R. Loughead, Jas. Orr, and Wm. Lyons.

The following motion was unanimously adopted:

This association regrets that the Ontario Government have taken the appointment of local officers usually made by the Judges of the County Courts, the Municipal Councils, and the local authorities into their own hands, relying upon the corrupting influence of appointments to retain them in power rather than on the constitutional method of relying on the well understood wishes of the people.

An informal discussion took place, the effect of which was to show that the Association favored the abolition of the Chancery Division of the High Court of Justice.

Catarrh of the Bladder.

STINGING irritation, inflammation, all Kidney and Urinary Complaints, cured by "Buchupaiba." $1.

A Female Dr. Tanner.

SHE CLAIMS TO HAVE HAD NO SOLID FOOD FOR THREE MONTHS—PUZZLING THE DOCTORS.

People in North St. Louis are just now discussing a remarkable case, which, if the details are true, outrivals Dr. Tanner in point of fasting. Phillippina Trengel lives with her brother at No. 919 Brooklyn street. She alleges, and her friends substantiate her statement, that on last Monday morning three months had elapsed since she last tasted solid food. During all that time she has tasted nothing but liquids, and she has not been able to retain these in her stomach at all.

The young woman was called up to-day, says a correspondent. She is a tall, thin person, with black hair, sunken eyes and extremely sallow complexion. She is rather thin, but not as emaciated as would be expected. She said she was 26 years old. When asked about her case she smiled and said: "Yes, I guess it is a remarkable one. The doctors say that they have never heard of anything like it." In answer to a question she said that it was just three months ago last Monday since she was able to take food. Since that time she has not been able to eat a bit of solid food, and that she had no desire for it. Sometimes she drinks a good deal of water, and occasionally three or four cups of coffee at a time. At first she said she used to drink considerable milk, because the doctors recommended her to do so, but it was no use, as she could not keep anything on her stomach, not even for a minute. She said she felt so weak that she has not been out of the house latterly, but yet she was not so weak as might be supposed. One of the physicians who had treated her, she said, tried to introduce food into her stomach with a tube, but she could not retain the nourishment. Other doctors had also tried to administer food, but her stomach promptly rejected it.

Dr. C. S. Bauer, one of the physicians who was attending the case, said that it was a most remarkable one and that he had never heard of such a case before. He said the young woman had been under his charge forty days in all. He had not been able to make a satisfactory diagnosis of the case, but he thought the probable cause of the trouple was a stricture of the pyloric orifice of the stomach. He considered that she must die soon, as she is gradually growing weaker. He did not think that anything could be done for her.

If Nearly Dead

after taking some highly puffed up stuff, with loud testimonials, turn to Hop Bitters and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes, or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides, it is the best family medicine on earth.

COUGHS AND COLDS.—If taken in time are easily cured,—if allowed to continue will result in incurable consumption. Allen's Lung Balsam has the confidence and support of the medical faculty, and is recommended by all who are acquainted with its virtues.

Dropsy is essentially a watery condition of the Blood, dependent upon disordered Kidneys. Burdock Blood Bitters are strongly Diuretic and consequently the best known remedy, acting as it does upon the entire secretory System.

One dose of BAXTER'S MANDRAKE BITTERS will relieve Sick Headache. One bottle effects a cure. Price 25c. per bottle.

News Condensed.

—Cholera is raging in Cochin China.

—Yellow fever has been declared epidemic at Pensacola, Fla.

A hundred and seventy natives died of cholera at Manilla on Thursday.

—Advices received at Paris state that cholera is raging in Cochin-China.

—Application for letters patent has been made by the Dominion Iron Company.

—The *Ville de Para*, a new steamship of the Brazilian line, has arrived at Montreal.

The return of David William Gordon, M. P., of Nanaimo, for Vancouver, is gazetted.

-It is now reported that the entire amount stolen from the express office at London is $11,000.

—The new line of steamers between Montreal and Newcastle-on-Tyne consists of nine vessels.

—The barque *Canama*, Sunderland to Java, has foundered, and twenty of her crew were drowned.

—The applications for stock in the Panama Canal Company amounted to over six thousand shares.

—The Prince Edward Island branches of the Land League have sent $585 to Ireland since October last.

—Upwards of four hundred deaths from cholera occur in the vicinity of Manilla, in the Phillipine Islands, daily.

—Eighty-seven houses were burned and one hundred and fifty families rendered homeless by a fire at Port au Prince, Hayti.

—The Therramino volcano in Japan, after seventy years' silence, has erupted. An earthquake has also been felt at various points upon the Island.

—A meeting of the Privy Council was held Saturday at which it is said it was decided that the Civil Service Act of last session be put in force shortly.

—Peter Harcourt, Three Rivers, Que., has entered a suit to upset his late wife's will. She left all her estate, value $10,000, to Rev. N. Tasse, the priest of parish.

—A *post mortem* shows that Henry Auchincloss, a child which died at Newport, R. I., on Thursday, had the cholera. The case was sporadic and there is no alarm felt.

—Mrs. Gruker died of hydrophobia at Reading, Pa., on Friday afternoon. She was unable to eat or drink for three days, and died in whining spasms, whining and barking like a dog.

—A prisoner named Rombough, who is in the Napanee gaol charged with rape, attempted to escape. He picked the bricks out of the chimney with a fork, but his attempt was discovered before he got his job completed.

—A carter named Lesperance, of Montreal, who was taken home in an insensible state by some roughs and died shortly afterwards, is believed to have succumbed to the violence of the party who robbed as well as murdered him.

—Ten contributors of the *Citoyen* newspaper, of Paris, have challenged ten members of the staff of *Le Radical*. A difficulty has arisen regarding seconds, but it is not improbable that the contemplated duels will be fought.

*The term *hydra* may be used to represent any manifold evil. If you would battle successfully with this many-headed monster of disease you will find it expedient to keep Mrs. Pinkham's Vegetable Compound always at hand.—*Dr. Banning*.

— While 4,000 persons were at a Methodist camp meeting at Graham, N. C., on the 8th morning, a boy of 14, who had been unable since birth to utter a sound, suddenly mounted the preacher's platform and made profession of religion, speaking in a clear voice. The occurrence created quite a sensation.

—The Marquis of Lorne while in Chicago on Thursday made a brief speech on 'Change, expressing his delight at the rapid progress of the city. At half-past twelve the same day the Marquis and Princess Louise, with their suite, left *via* the Rock Island Railway, by a special train, for San Francisco and British Columbia.

—A lamp exploded in the house of Mr Godin, Fulford St., Montreal, on Friday night, and whilst Mrs. Godin was attempting to extinguish the flames her clothing took fire. She rushed across the street, her dress in flames, and two men wrapped a coat around her, which smothered the fire. Her injuries were, strange to say, not serious.

—Intelligence has been received at St. John's, Newfoundland, of the landing at Jackson's Arm on the north-west side of White Bay, of a company of French marines who hoisted the French tricolor, and erected temporary monuments bearing the insignia of France. The British North American squadron has left for the scene to investigate the matter.

."Do boldy what you do at all." Boldly do we affirm that Kidney-Wort is *the* great remedy for liver, bowels and Kidney diseases, rheumatism and piles vanish before it. The tonic effect of Kidney-Wort is produced by its cleansing and purifying action on the blood. Where there is a gravelly deposit in the urine, or milky, ropy urine from disordered kidneys, it always cures.

—Mrs Burns, one of the women injured by Barnum's elephant, Emperor, which ran away at Albany in the streets, Aug. 2nd, died on the 8th from internal injuries received. The husband of the deceased was also struck by the elephant and is not expected to live. Mrs. Langley, another victim of the elephant, is dying. Patrick Conlon, who was thrown across the street by the elephant, has commenced a suit against Barnum for $5,000.

—The *Canada Gazette* of Saturday contains the following appointments: Sir Wm. J. Ritchie, to be deputy of the Governor-General of Canada; Adam Hudspeth, of Lindsay, Ont., to be deputy judge of the County Court of the County of Victoria, in the absence of the judge; Wm Barrett, barrister, of Walkerton, to be deputy judge of the County Court of the County of Bruce; James E Taylor, of London, to be a sub collector of customs.

CIRCULATION AND SPECIE. Under the heading "Circulation and Specie" is the following summary for August:

Excess of specie and guaranteed debentures	$2,962,867 81
Excess of unguaranteed debentures	181,083 31
Total excess	$3,143,951 12

PEARLS.—Get your mouth full by using "TEABERRY," the new wonder for the Teeth and Breath. Brush vigorously. See directions. 5 cent samples.

BAXTER'S MANDRAKE BITTERS never fail to cure Costiveness and regulate the Bowels.

A New Principle.

The principle upon which PUTNAM' PAINLESS CORN EXTRACTOR acts is entirely new. It does not sink deep into the flesh, thereby producing soreness, but acts directly upon the external covering of the corn, separates it from the under layer, removes the direct pressure from the part, and at once effects a radical cure, without any pain or discomfort. Let those who are suffering from corns, yet skeptical of treatment, try it, and by the completeness of the cure they will be ready to recommend Putnam's Painless Corn Extractor to others. Sold by W. R. Carmichael

Campbellford Correspondence

FURTHER PARTICULARS OF THE FIRE.

CAMPBELLFORD, Sep. 8.

Our villagers were alarmed this morning about 3 o'clock by the cry of fire, which was found to be in Dr. Byam's stable, which adjoins the St. Lawrence Hotel stables. There is no doubt it was the work of an incendiary, as the fire was first seen bursting from the inside of Dr. Byam's. Both of these stables, with a valuable span of young horses, new phaeton, harness, hay and grain belonging to the Dr. fell a prey to the flames. In Mr. Kerr's stable Dr. McCrea kept his horse, buggy &c., which was also consumed. This was also a very excellent horse, on which the Dr. prided himself very much. Mr. Kerr's loss in hay and grain will be considerable. The devouring element next reached Dr. Byam's dwelling house, some little distance in the front of the stables. This picturesque little cottage, surrounded by evergreens and ornamental trees, soon fell a victim to the devouring element, but by great perseverance the greatest part of the furniture was saved, notwithstanding he will be a loser of about $1,000. It then communicated with the Windsor Hotel stables, where fortunately only one horse was found that night, which by some little force was removed after having been blindfolded. This being a brick building stopped the progress of the flames, but not without great exertion by the firemen, who had brought the engine to its work well and every one did their best. Unfortunately at this juncture the hose of the engine burst several times; this was soon rectified through the kindness of Mr. Turner, manager of the woollen mill, who immediately brought out the one belonging to this factory, which worked admirably and confined the flames within these brick walls. The calculation is that somewhat about five thousand dollars worth of property has been destroyed. Mr. T. Blute will be a loser of several hundred dollars, although he has saved his accomodation for teams in the yard. Mr. Gibbs's cottage was insured for $1,000. The were some other small insurances.

REVENUE AND EXPENDITURE.—Statement of the revenue and expenditure on account of the consolidated fund of the Dominion of Canada as by returns furnished to the finance department to the night of the 31st Aug., 1882:

Customs	$2,422,789 71
Excise	520 042 99
Post Office	100,981 14
Public Works, including railways	366,401 13
Miscellaneous	44,806 1
Total	$3,455,021 78
Revenue to 31st July, 1887	2,534,082 88
Total	$5,989,104 66
Expenditure	$1,514,750 71
Expenditure to 31st July, 1882	2,667,993 23
Grand total	$4,182,743 94

GLASGOW WAREHOUSE.

Daily Intelligencer.

BELLEVILLE, MONDAY, SEPT. 11.

City and Vicinity.

Two prisoners only were in the cells last night.

THE melon-colic days have come, the saddest of the year.

THERE are nearly a hundred pupils in attendance at the High School.

A PLEASANT party of Trenton folk visited the city yesterday on the little steamer *Annie Gilbert*, returning in the evening.

IN the absence of Rev. Dr. Jeffers, the pulpit of the Bridge St. Methodist Church was occupied on Sunday 10th inst. by Rev. Mr. Chapman.

A YOUNG man named Fox, employed in the pharmacy of C.M. Lyman, corner Main street Buffalo, has mysteriously disappeared. He is said to be a native of Belleville.

THE case of Thos. Cheevers, charged with allowing gambling in his saloon, came in this morning at the Police Court. It was laid over till Wednesday for judgment.

MR. WALTER DONNELLY who has returned from Winnipeg wishes us to contradict the report in the *Daily Ontario* which stated that he returned on account of his health.

HERRMANN, the Wizard, in the Metropolitan Hall to-morrow evening, will perform far more wonderful tricks by his own skill than Slade was able to perform with the aid of his familiar spirits.

It is to be hoped that the School Board will, to-morrow evening, take steps to secure the re-establishment of the meteorological station here. Since Prof. Dawson's removal from the High School the instruments have been taken to Ottawa.

DAVID MOUNTENAY, charged with beating his wife, was brought before the Police Magistrate for trial this morning. He was convicted and sentenced to two months up gaol but was allowed to go on the understandingthat if he raised any more disturbance the sentence would be enforced.

IN our report of the proceedings of the City Council, in Saturday's issue, we inadvertently omitted to mention that, on motion of Ald. Smith, it was decided to offer a reward of $500 for the discovery and conviction of the incendiary or incendiaries who caused the recent fires in the city.

WE are pleased to announce that Messrs. Lake & Jenkins have decided to remain in Belleville and continue their business. They will erect new sheds and stables on the site of those which were destroyed, and Dr. Willson will repair the old house on the corner. The new buildings will be commenced at once.

WE are informed by Dr. Curlett, one of the members of the Board of Health, that the two Robertson Blocks, with their rear premises, are the most satisfactory from a sanitary point of view of any similar buildings in the city. This speaks well for the care of Mr. W. N. Thomas, who has charge of these two buildings.

THE preliminary examination in the protested election case of Mr. Alex. Robertson, M.P., should have taken place this morning before Mr. Northrup, but it was indefinitely postponed on account of the absence of Mr. Clute, counsel for the petitioner. Mr. Robertson was present, and ready to submit to the inquisition.

FOR the musicial part of the grand thanksgiving service which is to be held in St. Thomas' Church on Sunday, the 24th inst., Mr. Oldham has secured the assistance of eleven instruments besides the organ, including three violins, two cornets, three clarinettes, and a bass viol. There will be three services on that day. The choir of the church is engaged in rehearsing the music for the occasion.

A MAN named Thos McIlvray was severely injured this morning while unloading timber on the G. J. R. wharf. A crowbar in the hands of a fellow-workman glanced off the edge of a piece of timber and struck the instep of McIlvray's left foot, going completely through it. The injured man was carried to the Prince Edward House and the foot was dressed by Dr. Willson. It is possible that the accident will cripple him for life.

WEATHER PROBABILITIES. Toronto, Sep. 11.—Lakes, fresh to strong easterly to northerly winds, fair weather, not much change in temperature.

PERSONAL.—J. Chas. Dent, author of the *Canadian Portrait Gallery* and *The Last Forty Years*, is spending a few days in Belleville, the guest of Mr. Mathison at the Institute. Mr. Dent had an interview with the Hon. Lewis Wallbridge this morning, with reference to certain political events occurring during Mr. Wallbridge's tenure of office as Solicitor-General in the Sandfield Macdonald-Dorion Government in the summer of 1864, for incorporation in the Last Forty Years.

MINISTERIAL ASSOCIATION.—The first meeting of this Association after the summer vacation was held this morning in the Mechanics' Institute. There was a good attendance of members and the session was very interesting. The subject of the conversation was: "Individual methods of spending the summer vacation." A resolution of sympathy with Dr. Clarke, a member of the Association, in his present illness, was unanimously passed. A resolution was also passed expressing thanksgiving for the merciful deliverance from accident of another member, Rev. A. Turnbull. A new member, Rev. Wm. Stacy, was elected.

FIRE IN PETERBOROUGH.—On Saturday morning Peterborough was visited by the most destructive fire which has occurred there for a long time. The brick carriage factory of Mr. Tobias Fitzgerald on the corner of Charlotte and Aylmer streets was totally destroyed, together with the blacksmith shop of brick belonging to the same gentleman, and a large double brick dwelling on Charlotte street, a brick dwelling also owned by Mr. Fitzgerald on Aylmer street, three rough cast dwellings of the same material on the lane between Charlotte and King streets, and a number of storehouses, sheds, &c., connected with the buildings. Two other fires occurred at about the same time, but did not do much damage.

AN ENEMY OF THE POTATO.—We were shown on Saturday specimen potatoes from the garden of F. Wallbridge, Esq., which were about half eaten by the larvæ of the June bug—whose scientific name is *lachno sterna fusca*. The larvæ are large white grubs, about an inch and a half long, with six legs, and a large horny head, armed with strong jaws. Hardly a potato which has been taken from Mr. Wallbridge's garden this season has escaped the ravages of these grubs, many of them having been entirely eaten out to the skin. The parent insect is a large brown beetle, which flies in the evening during the spring and early summer, and deposits its eggs in the ground, where they hatch out into grubs which live for a space of three years on the roots of grass, grain, and other plants,—nothing vegetable appearing to come amiss to their voracious appetites. After they have attained their full growth they turn into a chrysalis, from which they emerge for the purpose of propagating their kind—after which they survive only a few days. This insect is one of the most formidable enemies of the farmer in localities where it exists in considerable numbers. The best protection against them is to plough up the ground, and let poultry and birds have a chance to find them out and make a meal of them. We are indebted for this little bit of natural history to Prof. J. T. Bell.

BEFORE purchasing Ready made Clothing be sure and look through HENNESSY'S stock. He has over 300 suits in all, and is offering them at actual cost.

Sporting Notes.

Joe Manderville, Kingston champion sculler, proposes to enter in a race against Courtney and Lee at Alexandria Bay.

That second class yacht race at Toronto on Friday, which proved to be no race, seems to have been much mixed. At least the reporters were much mixed, the *Mail* stating that the Emma took the lead, which she kept throughout, closely pressed towards the last by the Katie Gray—the Gracie nowhere. The *Globe* said the only starters were the Emma, Gracie and Gipsy. The Kingston *News* adds thus to the confusion: "In the second class yacht race at Toronto yesterday (Friday) the Gracie of Belleville arrived home a few minutes ahead of the Emma, but as it was after eight o'clock when they arrived, 'no race' was declared.

In the long range rifle match at Ottawa on Saturday ten rounds at 1,000 yards with any rifle, Corporal Hilton stood twelfth with a score of 40 and won a $10 prize.

The Toronto Yacht Club's regatta was sailed on Saturday with great success, although the wind was light. In the first-class the Verve won first prize, Aileen second, Cocquette third, and Cygnet fourth. This was on time allowance, the yachts finishing in the following order: Aileen, Cygnet, Verve and Cocquette. The other starters were the Madcap, Coral and Phantom (catamaran). In the second class, the starters were the Emma, Katie Gray, Gracie and Gipsy. The former won, beating the Katie 2m. 30s., Gracie, 7m 55s., Gipsy, 54m. According to the *Globe*, the *Katie Gray* was last boat off, starting 12 m. 30 sec behind the *Emma* and finishing 7 m. 30 sec. behind. According to this, the *Katie* made the race in less time than any other yacht in it, but must have been handicapped on the start.

Marine.

INWARDS.—The tug *Jessie Hall*, Oswego, light; schr. *W. W. Grant*, Oswego, light; schr. *Mary Taylor*, Oswego, light; schr. *Jessie McDonald*, Fairhaven, light; barge *Oneida*, in tow of tug *Rambler*, Trenton, light. schr *Belle* of Port Dover, High Shore, cordwood.

OUTWARDS.—Schr. *Annie M. Foster*, Fairhaven, iron ore; tug *Jessie Hall*, with barge *Oneida* in tow, Fairhaven, light; schrs. *W. W. Grant* and *Mary Taylor* will clear this afternoon with lumber from the Eagle Mill for Oswego.

☞ The Diamond Dyes always do more than they claim to do. Color over that old dress, it will look like new. Only 10 cents

A SIMPLE herb found on the sunny plains of a Southern clime has, under the skillful manipulation of DR. VAN BUREN, proved one of the greatest blessings ever sent to suffering humanity. DR. VAN BUREN'S KIDNEY CURE is acknowledged all the world over as the only perfect remedy for Kidney troubles. Your druggist has it.

THE WAR IN EGYPT.

THE FIGHT AT KASSASSIN.

The Enemy Roughly Repulsed

FIVE GUNS CAPTURED BY THE BRITISH.

Troubles in the Enemy's Camp.

LONDON, Sep. 10.—Drawing courage from the continued inactivity of Sir Garnet Wolseley's army, Arabi sallied forth from his entrenchments at Tel-el-Kebir on Friday and with a strong force of all arms attacked the British lines. The troops were quickly in motion and an admirable defence was made. At the same that the Tel-el-Kebir division attacked in the front a second force advanced from Salihiye and attempted to outflank the British line. The movement of the enemy was detected and his object defeated. After heavy firing the enemy was forced to retreat, closely pressed by General Wolseley's forces, who drove him into his entrenchments. Our troops were within range of the strong entrenchments and could doubtless have carried them, but as there was not sufficient men available to hold the position after it was captured it was deemed best to retire and await the arrival of the Highland Brigade, now *en route* from Ismailia. The British position was at one moment critical, but the steady and well-directed fire of the troops turned what might have been a reverse into a decisive victory. Five of the enemy's guns were captured and great loss inflicted. The foot guards have now arrived at the front, and when the Highlanders have also joined the main body the decisive battle of the campaign may be looked for. For two days rifle and artillery firing has been heard in Arabi's lines at Kafr-el-Dwar. Prisoners who have been captured state that a large body of recruits mutinied and refused to drill, and were fired upon by the regulars. The Military Convention between England and Turkey still remains unsigned, much to the annoyance of the Porte, which accuses England of purposely delaying negotiations in order to prevent the Turkish troops from operating in Egypt.

LATEST FROM THE SEAT OF WAR.

The Situation at Kassassin.

ISMAILIA, Sept. 10, midnight.—The British have not yet advanced beyond the Ridge two miles north of Kassassin, but the outposts have been doubled, and are supported by the Infantry.

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinary or Liver Diseases, as they only relieve for a time and make you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

AFTERNOON DESPATCHES

THE STAR ROUTE CASE.

WASHINGTON, Sept. 11.—At 10:10 the Jury entered the Court and reported that they had reached a conclusion as to four of the defendants, but stood as on Saturday as to the others, being unable to agree as to them. The Court declined to receive the verdict and took recess until 2 p. m.

RUSSIAN MILITARY MOVEMENTS.

ST. PETERSBURG, Sep. 11.—It is stated that the Government has chartered six transports for the conveyance of stores and military material to Vladivastok.

DIFFICULTY BETWEEN FRANCE AND ITALY.

ROME, Sept. 11.—The conflict as to jurisdiction between Italy and France, is considered an incident of the gravest character, tending to aggravate the strained relations between the two countries.

A LONG SENTENCE.

ANNA, Ill., Sept. 11.—The jury returned a verdict of 99 years penitentiary against Sam'l Hazel, who murdered his 5 year old child.

FATAL FIRE.

PETERSBURG, VA., Sept. 11.—Early this morning three tenements were burned, Henry Porter was roasted alive. Asa Brown inhaled the flames. It is thought he cannot recover.

Agricultural Fairs.

WEST HASTINGS, at Belleville, Sept. 27 and 28.

EAST HASTINGS, at Thrasher's Corners, Oct. 4.

PRINCE EDWARD, at Picton, Oct. 5.

MURRAY, at Wooler, on Wednesday, Oct 18.

TYENDINAGA, at Shannonville, Saturday, Oct. 7.

Excellent reasons exist why *Dr. Thomas Eclectric Oil* should be used by persons troubled with affections of the throat or lungs, sores upon the skin, rheumatic pains, corns, bunions, or external injuries. The reasons are, that it is speedy, pure and unobjectionable, whether taken internally or applied outwardly.

Nervous debility is a result of indiscretion in the mode of living. Heed nature's unerring laws and take Burdock Blood Bitters, the Great System Renovator and Blood, Liver and Kidney regulator and tonic. Sample bottles 10 cents.

PROCLAIM it far and wide that DR. VAN BUREN'S KIDNEY CURE not only immediately relieves all Kidney diseases, but what is more important to the unfortunate sufferer, will ultimately cure him effectually.

For 30 Years

The dark-eyed and lovely daughters of Spanish America have used MURRAY & LANMAN'S FLORIDA WATER as their only cosmetic and toilet perfume. It is the most fragrant, as well as the most lasting of all Floral Waters, and possesses refreshing and invigorating properties not contained in any other preparation of the kind.

Sure, safe and effectual, that old remedy, DOWNS' ELIXIR, for the cure of Coughs and Colds.

SMITH MEDICINE Co.

GENTLEMEN,—I have made a trial of one box of Dr. Smith's Great German Worm Remedy, with such good effect that I have no hesitation in recommending it to the public as a prompt and reliable medicine. In fact, those who use it once will always do so. Yours truly,

J. Harvie, 172 Cadieux street.

Montreal, December 9th, 1881.

Consumption, that dread destroyer of the human race, is often the result of bad blood and low vitality, a scrofulous condition of the system. Burdock Blood Bitters cure Scrofula in its worst form.

MORNING DESPATCHES.

EUROPEAN.

FRANCIS HYNES HANGED.

LIMERICK, Sep. 11.—Francis Hynes was hanged this morning. Hynes endured the pinioning, recited prayers calmly, only a slight tremor being perceptible immediately before the bolt was drawn. Death was almost instantaneous. A large crowd assembled outside the jail, and awaited the hoisting of the black flag. There were many prayers said for the convict's soul. It is not known whether Hynes made a statement previous to his death, but it is certain that up to Sunday he denied having complicity in the murder. A military guard was held in readiness, and seven hundred extra policemen from the northern counties were drafted to Limerick in view of the possibility of a disturbance. During Sunday prayers for Hynes were offered in many of the Catholic churches in the counties of Limerick and Clare.

AMERICAN.

EXPLOSION OF COAL OIL CAN.

CLEVELAND, Sept. 11th.—John and Henry Bender, aged 7 and 11, yesterday attempted to kindle a fire with coal oil, when the can exploded, and the boys were badly burned. Both died in a few hours.

A SENTENCED CRIMINAL.

CHICAGO, Sept 11.—Jas. Tracy, sentenced to be hung on Friday next for the murder of officer Steubner, has written a long and full statement declaring his innocence.

A YOUNG SUICIDE.

MARTIN'S FERRY, West Va., Sept. 11th.—Francis Aler, a boy, fatally shot himself on Saturday because his father forced him to attend school

FATAL EFFECTS OF DRINK.

TROY, N.Y., Sept. 11.—Mrs Robt. Rainey, yesterday while under the influence of liquor, her husband locked her in a room in the third story. Mrs. Rainey improvised a rope of sheets and attempted to descend to the ground. She had hardly begun to descend when the sheet parted, and she fell to the sidewalk and was fatally hurt. The accident was witnessed by a large crowd.

NEW YORK NOTES.

NEW YORK, Sept. 11.—Martin Watzel on Saturday night, while taking a keg to a house where there was to be a christening, slipped and fell; the keg fell on him. He soon died.

Two barns of the Rienchmount Co. alms-house were burned on Saturday night. Loss, $7,000. The main buildings were for a time in danger. Nobody hurt. The paupers and lunatics worked hard to extinguish the fire.

Judge Hilton offers to donate $10,000 to the Russian exiles' fund if Brown, of the Jewish *Herald*, will call for the money. Brown has been consulting the managers of the Society for the relief of exiles, to see if the money would be accepted. Brown favors the acceptance of the gift.

BOYCOTTING IN MILWAUKEE.

MILWAUKEE, Sep 11.—The excitement which began here, growing out of the partial attempt to inforce the Sunday laws and the boycotting action of the brewers towards the merchants who favored the closing of the theatres on Sunday, is spreading rapidly over the State. It is daily more apparent that the question will be forced into politics. The most marked manifestation of the coming contest outside of Milwaukee, is now seen in Racine. Nearly all the Protestant churches there have joined in the movement for the closing of the liquor stores yesterday, but the store keepers yesterday morning issued a statement that if proceedings were instigated against them they would cause the closing of the livery stables, eating houses and other places doing business on Sunday. This caused a great excitement and the effort to close the liquor stores was suspended. A similar state of things is reported from other points.

$150,000 FIRE.

AUBURN, Cala., Sep. 11.—The smelting works of the California Iron Co. were burned yesterday. The works cost $150,000.

HIGHWAY ROBBERY.

ST. LOUIS, Sep. 11.—The stage coach running on the Seligman and Eureka Springs, Ark., was stopped on Saturday by two masked men, heavily armed. Ten passengers were robbed of nine hundred dollars and considerable jewellery. The mail pouch was also robbed of registered letters. No clue to the robbers.

THE STAR ROUTE CASE.

NEW YORK, Sep. 11.—The *Times'* Washington special says:—It is believed the Star Route jury will not be discharged until it becomes plain that further confinement is useless. The subject of bribery continues to excite great interest. It is said that a detective formerly employed by the Government, approached a juror and attempted to corrupt him, pretending he was still a Government employee, and acting for the Government. It is rumored that the juror was approached in the interest of the defence, and took the money offered and placed it in the hands of Judge Wylie.

CONTRIBUTION TO YELLOW FEVER SUFFERERS

BROWNSVILLE, Texas, Sep. 11—The Mayor acknowledges contributions from New York City for the yellow fever sufferers, amounting to two thousand dollars.

U. S. SOLDIERS SURROUNDED BY WATER.

A camp of five companies of U. S. soldiers in the Horse Shoe Bend of the Rio Grand river near here, are surrounded by water and liable to be inundated. The soldiers are busy constructing dykes to keep out the water.

STATION AGENT ABSCONDED.

MEDWAY, Mass., Sep. 11—W. A. Glines, Station Agent, has left town, taking, it is alleged, the funds of the New York and New England R. R. It is supposed he has gone to Canada. The amount of the defalcation is not yet known. His bondsmen will make up the deficiency.

ATTEMPTED INCENDIARY.

SCRANTON, R. I., Sep. 11.—Two men on Saturday night attempted to burn a dwelling on the Sprague Estate, occupied by Mrs. Lawton. Mrs. Lawton gave the alarm and the watchman fired at the men, who fled unharmed. The family had partially packed their goods to move, fearing incendiaries. Four barns, a grist mill, and planing mill on the Sprague estate have already been destroyed by incendiaries.

LARGE FIRE.

PORTLAND, Oregon, Sept 11.—14 buildings were burned here on Saturday night. Loss, $100,000.

HEAVY STORM

MILWAUKEE, Sept. 11th.—A terrific rain storm passed over the country north on Saturday night, doing vast damage to the railroads and farm property. Passengers report over a dozen fires caused by lightning.

EX CHIEF OF POLICE DECEASED

DUNNVILLE, Va., Sept. 11.—Capt Hatcher, ex chief of Police, recently shot by Mayor Johnston, died this morning.

STEAMSHIP ARRIVALS

NEW YORK, Sept. 11.—Arrived, *Bohemia* from Hamburg, *Asia* from London, *Katie* from Copenhagen.

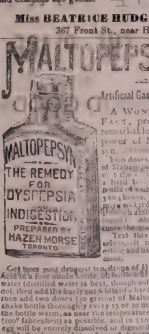
MALTOPEPSYN



Artificial Gastric Juice.

A WONDERFUL FACT, proving the remarkable digestive power of Maltopepsyn.

Two doses (30 grains), of Maltopepsyn will digest the albumen of a hard boiled egg in a bottle of water, in from 3 to 4 hours. How much more will it digest in the stomach assisted by that organ? About twenty times the quantity.

Test this for yourselves.—It is an interesting and useful experiment.

Get from your druggist ten drops of Hydrochloric Acid in a four ounce bottle, fill bottle half full of tepid water (distilled water is best, though soft water will do), then add the finely cut white of a hard boiled egg, then add two doses (30 grains) of Maltopepsyn and shake bottle thoroughly every 15 or 20 minutes, keep the bottle warm, as near the temperature of the body (100° fahrenheit) as possible, and in 3 to 4 hours the egg will be entirely dissolved or digested.

Maltopepsyn is endorsed by the leading Physicians and Chemists throughout the Dominion of Canada.

Send for Pamphlet, 24 pages, giving full treatment of Dyspepsia with the rules of Diet, etc., mailed free upon application by HAZEN MORSE, TORONTO.

Price per bottle, with dose measure attached, 50 cents, contains 48 doses or about one cent per dose.

We have sold the above remedy for several months and find it spoken of very favorably by both the medical profession and the public.

We can safely recommend it to parties needing such a remedy. Signed,

L. W. YEOMANS & CO.
A. L. GEEN.

A Dangerous Guide.

CHAPTER I.

Fraulein Schwartz stood at the door of her cottage, looking anxiously down the road between the mountains. She shaded her eyes with her brown palm and peered along the winding way, which was visible for a mile, except where it curved round the base of a rock too ponderous to be removed. Yes, at last there was no mistake, there was a traveller walking towards her cottage.

'Time enough, too,' she soliloquized. 'Since they opened the new road on the other side of the hill all the carriages go that way, and no one comes this way except some poor tourist who can't afford to ride, or an artist who carries his brushes on his back and little enough besides. Who is going to buy my beautiful carvings that I got from Paris now, I wonder?'

It certainly seemed hard to the fraulein that a diversion of traffic should go so near ruining her, for she had forsaken her German home some years before and settled in Switzerland, in the hope of increasing her income by furnishing the ever increasing horde of travellers with necessaries in the shape of food and lodging, and luxuries in the shape of carved beads and trinkets of all sorts.

The tourist who was now plodding up the neglected track was the first she had seen for two days.

'Good morning, sir,' she said, as soon as Hardy was within easy hail. 'It's a very warm day, sir.'

'Warm!' ejaculated Hardy, throwing himself on a bench; 'it's melting. I've left a good part of myself on the road. If this goes on I must erect a monument to my remains in Switzerland when I go home. Drink, my good woman I am parching.'

But before he had finished asking for it she had brought him a large jug of milk, which he seized and drained.

'That lubricates the thorax satisfactorily,' he remarked as he finished. 'Now, my good woman, I've a friend a little way behind. Can you put us up for the night?'

'Yes, sir; I've two nice clean beds.'

'You're sure they're clean?'

'Oh, yes, sir, they haven't been slept in for a long time.'

'Oh, haven't they? You had better run a warming-pan through them then, if you have such an article; if not, my hat on the end of an alpenstock will do just as well, for it's nearly red-hot. I'll just go in and have a wash, and a shave if you show me my room.'

'This way, sir; it's got a beautiful view.'

Hardy picked up his knapsack and followed her, remarking to himself:

'"Beautiful view!" That's what they always say when your window opens on the back of a cowshed.'

Probably he would not have gone straight to his room had he chanced to look along the road in the direction of the summit of the pass, for there stood a charming little maiden marshalling her goats preparatory to driving them to the inclosure for milking. But though he had not seen her, she had caught sight of him, and after her goats were safely housed, she tripped down to the cottage to see who had arrived.

Life was rather monotonous among the mountains, and, besides, Nina had a special wish to be seen to-day, for it was her birthday, and on these festivals she was permitted to wear a necklet which a rich Englishman had given her two years ago for nursing him when he was lying ill at the cottage. So Nina left her goats and ran to find out who had arrived.

She reached the cottage, and was just passing in at the door, when she heard a footstep behind her. Curiosity urged her to look round, but maidenly dignity forbade the step, so she passed on, wondering if the stranger would speak. He did not, but she felt an arm steal round her waist and a kiss on her cheek.

She darted round in indignation, and met the amused look of Walter, her betrothed.

'Why, Nina, are you going to be angry with me for stealing a kiss on your birthday?'

'Oh, Walter dear, I did not know it was you.'

'Who else did you think it could be, little one? Ah, I did not tell you I was coming over the pass to-day so as to see you before I return to the Brunig.'

As he spoke he held out a bracelet of carved wood—not very valuable, perhaps it was his own work. Nina lifted up her little face to thank him with a kiss as he bent to fasten it round her wrist.

'Nina, who gave you that necklet?' he asked, as his eye caught sight of it.

'Mr. Linton, an Englishman, two years ago. I only wear it on my birthdays.'

'I never saw it before.'

'You forget that we were not betrothed a year ago. Come, my Walter, you must not be jealous. I have never seen him since; I do not know where he is or anything about him.'

But Walter's face did not resume its gay look; he knew something of the free ways of certain travellers, and did not like to know that his Nina had taken a present from an English milord.

'I must go and milk the goats now,' continued Nina; 'come and help me.'

But her step-mother's voice at that moment called her into the cottage.

'Wait for me a minute, Walter,' cried Nina as she ran in. Walter, however, strolled slowly toward the goats, thinking he would begin the milking without waiting till the fraulein had said all that she wanted.

As Nina disappeared through the back door Hardy came out of the front, his face covered with lather, and in a state of comical distress.

'Confound it all!' he exclaimed, 'my razor is in Linton's knapsack. I thought I heard a man's voice here, too; where is he?'

He was surprised to feel an arm grasp his, but immediately drop it with a little shriek.

'Oh, I beg your pardon, sir; I thought you were Walter.'

'I'm sorry to say I am not,' began Hardy; but Nina commenced to laugh as she saw his condition.

'I almost kissed you without looking,' she said with a smile.

'Don't let any consideration for me stop you,' replied Hardy, gallantly; 'but, perhaps, if you could get me a towel the operation would be pleasanter for both of us.'

Nina had tripped away before he finished, and soon returned with the towel; but instead of giving it to Hardy she began to signal with it. This was too much, and he gently took it from her.

'Please postpone your signals for a moment, my little maiden,' he said. But she took no notice.

'Why does he turn away and go on still?' she asked.

'Who?'

'Walter.'

'I give it up; perhaps because he sees me.'

Nina ran away in the direction of the goats, and was soon out of sight.

'Corydon and Phyllis have had a slight row,' mused Hardy; "however, I suppose they will make it up again; It must be a serious business to quarrel with the only available lover within twenty miles. Hallo! here's the lazy fellow crawling up at last. Come along old tortoise!'

A handsome young man, with light, wavy hair and moustache, came slowly up, and sat down on the bench with a sigh of relief.

'I've been resting, Jack,' he said.

''Twould be more worthy of remark if you hadn't.'

'You walk at such a pace, you know.'

'So do you, and a jolly slow one it is. Where's my razor? Lend me your knapsack? Look here, you sit out here for five minutes and recruit yourself with some milk while I shave.'

Hardy disappeared into the house, but a moment after his head appeared out of the window, over the bench on which his chum was lying.

'This is first rate,' he remarked; 'I can go on shaving and listen to your inspiriting conversation at the same time.'

'What beautiful scenery!' exclaimed Linton, looking down the valley.

'A 1,' returned Hardy, 'and the milk is on a level with it.'

'We shall have this view from our room.'

'Yes, but a little more furniture and a little less scenery would be more my form. Look at this looking-glass, one eye at a time please, there isn't room for more on it.'

'This valley always brings happy thoughts to me,' said Linton, half to himself.

'Can't wonder at it,' returned Hardy, as he gave a finishing touch to his chin. 'You were laid up for a week with a sprained ankle somewhere about here, I think, two years ago, weren't you? And we nearly lost ourselves last night trying a short cut.'

'That was a happy time, Jack.'

'Which?'

'When I sprained my ankle. I was nursed by the most charming girl. I wonder if she lives here now. We were like brother and sister before I went away.'

'I've seen her, my boy. But you must take care; she's got a strapping young fellow hanging around who's as jealous as Othello. I'm afraid I've caused a little heart burning already. Oh, I am a sad dog.'

TO BE CONTINUED.

CHEAP AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Magnetic Medicine, which contains forty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column.

CINGALESE A name well known in connection with the HAIR RENEWER, which restores grey hair to its natural color by a few weeks use. Sold at 50 cents per bottle by all Druggists.

As a cure for all diseases of the Lungs, DOWNS' ELIXIR has no equal.

All the People of the Dominion of Canada are Concerned

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrh, Bronchitis, Asthma and Lung Disease by Dr. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the seat of disease. Read and judge for yourself:—

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. JOHN P. WHELAN, Manager of POST and TRUE WITNESS, Montreal. Mr. C. HILL, Montreal, catarrh and bronchitis. Mr. DEBOUCHERVILLE, of the Indian Department, Ottawa, catarrh of many years; now cured. Mr. GEO. AGER Ottawa, catarrh and lung disease; cured. Mrs. SMITH, London, wife of Medical Detective, cured of catarrh. GEO. MAGUIRE, Toronto, 482 Adelaide street West; daughter cured of asthma. GEORGE WILLIS, Exeter, Ont., catarrh and bronchitis. J. D. ARMSTRONG, 186 Yonge street, Toronto, catarrh and catarrhal deafness. THOMAS TELFER, 12 Melinda street, Toronto, asthma; cured. Mr. BENJ. A. DRAKE, St. Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. BENOIT, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma and bronchitis for over eight years, and who is now perfectly cured.

Mrs. ADAMSON, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitating in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis. JOHN C. FLEMING, Editor of POST and TRUE WITNESS, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write, inclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souvielle and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

$1,000 Forfeit!

Having the utmost confidence in its superiority over all others, and after thousands of tests of the most complicated and severest cases we could find, we feel justified in offering to forfeit One Thousand Dollars for any case of Coughs, colds, sore throat, influenza, hoarseness, bronchitis, consumption in its early stages, whooping cough, and all diseases of the throat and lungs, except Asthma, for which we only claim relief, that we can't cure with West's Cough Syrup, when taken according to directions. Sample bottles 25 and 50 cents; large bottles one dollar. Genuine wrappers only in blue. Sold by all druggists, or sent by express on receipt of price. JOHN C. WEST & Co., sole proprietors, 81 and 83 King St. East Toronto, Ont. For sale at Jas. Clarke & Co.'s Drug Store.

New Meat Market.

THE undersigned have opened a Butcher's Stall next door to the INTELLIGENCER Office, Front Street, where they purpose keeping on hand at all times, a choice selection of Fresh and Salted Meats. Housekeepers will save money by giving us a call, before purchasing elsewhere.

$200.00 REWARD!

Will be paid for the detection and conviction of any person selling or dealing in any bogus, counterfeit or imitation HOP BITTERS, especially Bitters or preparations with the word HOP or HOPS in their name or connected therewith, that is intended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as HOP BITTERS. The genuine have a cluster of GREEN HOPS (notice this) printed on the white label, and are the purest and best medicine on earth, especially for Kidney, Liver and Nervous Diseases. Beware of all others, and of pretended formulas or receipts of HOP BITTERS published in papers or for sale, as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND.

Is a Positive Cure

For all those Painful Complaints and Weaknesses so common to our best female population.

A Medicine for Woman. Invented by a Woman. Prepared by a Woman.

The Greatest Medical Discovery Since the Dawn of History.

☞It revives the drooping spirits, invigorates and harmonizes the organic functions, gives elasticity and firmness to the step, restores the natural lustre to the eye, and plants on the pale cheek of woman the fresh roses of life's spring and early summer time.

☞Physicians Use it and Prescribe it Freely.☜

It removes faintness, flatulency, destroys all craving for stimulant, and relieves weakness of the stomach.

That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

LYDIA E. PINKHAM'S BLOOD PURIFIER will eradicate every vestige of Humors from the Blood, and give tone and strength to the system, of man woman or child. Insist on having it.

Both the Compound and Blood Purifier are prepared at 233 and 235 Western Avenue, Lynn, Mass. Price of either, $1. Six bottles for $5. Sent by mail in the form of pills, or of lozenges, on receipt of price, $1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Enclose 3ct. stamp. Send for pamphlet.

No family should be without LYDIA E. PINKHAM'S LIVER PILLS. They cure constipation, biliousness, and torpidity of the liver. 25 cents per box.

☞Sold by all Druggists.☜ (1)

Sold in Belleville by Jas. Clarke & Co. 1d&w

The State Assayer and Chemist of Mass. and leading Physicians endorse and recommend it as a great triumph in medicine.

HALL'S VEGETABLE SICILIAN HAIR RENEWER

Has been in constant use by the public for over twenty years, and is the best preparation ever invented for RESTORING GRAY HAIR TO ITS YOUTHFUL COLOR AND LIFE.

It supplies the natural food and color to the hair glands without staining the skin. It will increase and thicken the growth of the hair, prevent its blanching and falling off, and thus AVERT BALDNESS.

It cures Itching, Eruptions and Dandruff. As a HAIR DRESSING it is very desirable, giving the hair a silken softness which all admire. It keeps the head clean, sweet and healthy.

BUCKINGHAM'S DYE FOR THE WHISKERS

will change the beard to a BROWN or BLACK at discretion. Being in one preparation it is easily applied, and produces a permanent color that will not wash off.

PREPARED BY
R. P. HALL & CO., NASHUA, N. H.
Sold by all Dealers in Medicine.

Farmers, Read This

THE ROYAL INSURANCE CO.

Of England.

CAPITAL	$10,000,000.
Funds Invested	$23,000,000
Annual Income	5,000,000.

Over $600,000 invested in Canada for the protection of Canadian Policy holders.

Farm Property Insured against damage by Lightning. Losses to live stock by lightning and fire anywhere on the Farm made good.

FACTS WORTH REMEMBERING.

The Royal has the largest surplus funds of any Fire Insurance Company in the world.

The Royal has the largest deposit with the Dominion Government of any other Insurance Company.

The conditions of the Royal's Policies are more liberal than those of other Companies doing business in Canada.

In conclusion remember that security should be the first consideration, and that it is to your interest to insure with the Company that gives the *greatest* security. You may better carry your own risk than entrust it where you have not absolute security.

Roslin, Feb. 20, 1882. d&wtf

Daily Intelligencer.

The Sacred "Status Quo."

The English radicals give their account of the origin of the Egyptian war in the following doggerel verses which they sing in the streets of London:

Strike for the sacred "Status Quo,"
Your country's fame consulting;
Where bounteous Nile's dark waters flow
Stands Arabi insulting.

Our fleet's to Alexandria gone,
Our troops shall go to Cairo;
On! Christian brethren, boldly on!
To sack the land of Pharaoh.

With heavy loans that land is rife,
Much Jews have lent the stranger
What British soldier'll grudge his life;
When ten per cent.'s in danger?

We'll nail our colors to the mast,
Our strength the world surprising;
Though British troops be falling fast,
Egyptian bonds are rising.

We'll guard the honor of our flag,
And British interests fully;
We'll play the glorious game of brag,
We'll bluster and we'll bully.

For is not Egypt all our own?
What means this wild commotion?
In war we send out strength unknown.
In peace we send out Goschen.

The grand old man has pledged the state
To each Egyptian bond;
"Amen," in accents big with fate,
The caucuses respond.

In days of old we have been told,
From Sacred Writ's description,
How Jews gained goodly store of gold
By spoiling the Egyptian.

And never shall we now begin—
Whoever gain or lose—
To aid Egyptian sons of sin
In spoiling of the Jews.

Then let the Jingo drum-beat roll—
Dread sound for every foe—
We'll live and die for the "Control,"
The sacred "Status Quo!"

European Tour.

No. 5.

We now come to the counties of Lancashire and Yorkshire, England. Having spent some time in visiting different points in these districts, a few thoughts in reference to them might be interesting to your readers. They are among the most populous and wealthy of England on account of their coal, iron and manufacturing interests. They contain some of the largest cities and manufacturing centres of the realm. The lay of this country is generally undulating, romantic and interesting, variegated with hills, valleys, and beautiful rivulets and streams. The soil, where not broken by coal and iron mines, is rich, producing cereals luxuriantly in favorable seasons. This year the crops throughout the realm are not first class, but above the average for the last four or five years. The season has been very wet, not only too much so for general growth, but has made it very difficult to garner the crop. Much hay has spoiled and it is feared more or less of the grain will suffer the same fate. The roads are very superior in this country. When we tell you how they are made you will not wonder at their excellency. Having met with one of the leading contractors in road and street making, he gave us the procedure. A trench is dug the width of the road or street, three feet deep. This is filled with broken stone to within about six inches of the top. This bed of stone is covered with a cement. Upon this are placed the cut stone or sets prepared for the purpose. The openings or crevices are now filled with bits of stone and sand. Then upon the whole is poured hot tar till it becomes an air and water tight mass, the whole process, including material, costing about 22 shillings per square yard. No rubbish is allowed to collect upon the road either in town or country. These districts produce coal, coke or iron in abundance. It was our privilege, standing at the top of the observatory in the People's Park, Barnsley, to count within the reach of our vision over forty coal pits. This will give an idea how thickly studded some parts of these districts are with these wealth producing interests. We saw some very fine pits turning out immense quantities of coal every year. We visited the cotton mills of Manchester, and the cutlery works of Sheffield. Were shown through the Britannia cotton mill of Manchester, and the entire process of manufacture from the batting to the most finished article, and also through Harrison Bros. & Howson's extensive cutlery and electro-plating works and were here also carefully shown the entire process from the crude metal in the rough to the most polished and finished work. The processes in either case were of a most interesting character. We spent a few days in the old town of Leeds. Though called a town it contains a population of over 250,000 In this country no matter what the population is places are not raised to the position of a city until a certain ecclesiastical dignity is conferred upon them. Leeds is a beautiful town. The sessions of the Methodist conference were held in Leeds this year. It was our privilege to attend a few of the sessions We were present at the time of the discussions upon the state of the work and the revision of the liturgy on baptism. The discussion was very interesting and to the floor the first talent of the connection. The Revd. Wm. Arthur, Drs. Pope, Rigg, Osborne and Geden, also Benjamin Gregory took a leading part in these interesting conversations, as they are called. It was in Leeds the Methodist Missionary society was organized over 70 years ago. It was here that John Wesley asked for volunteers to go to America, and Pillmore and Boardman were appointed for the American work; and they with others organized Methodism in the New World, over 100 years ago. As to the state of the work it is very healthy financially and religiously. The connection report a net increase of over 12,000 members for the year and it has been blessed with some of the most powerful revivals, that have told largely for good upon the entire community in which they took place. Upon the whole we are delighted with our tour through these districts, and from what we saw of their worth and wealth [illegible] not wonder at their commanding influence and position as touching the general interests of the United Kingdom. During our stay in these parts we were very hospitably entertained in the friendly house of G. T. Raley, Esq., Solicitor, Barnsley, the brother-in-law of our travelling companion. A more generous hearted and hospitable family we never met with. In fact everywhere in our travels we have met with nothing but kindness, and hence can speak in the highest praise of the people. A most cordial reception has been given us thus far wherever we have gone. In our next we shall introduce your readers to the grand old city of London.

H.

Thurlow Council.

28th AUGUST, 1882.

PRESENT—H. Ashley, Reeve; N. Vermilyea and J. M. Hurley, Deputy Reeves; J. W. Ross and A. H. Maybee, Councillors.

Moved by N. Vermilyea, seconded by J. W. Ross, that the Treasurer be and is hereby instructed to secure an insurance upon the Town Hall for at least $2,000, in some stock Company for a period of three years.—Carried.

Moved by J. M. Hurley, seconded by A. H. Maybee, that the Clerk notify the Road Surveyor to proceed to let out the following jobs to improve the following roads in the Township of Thurlow:

Swamp road in 5th con. west of J. Sheffield's to Melborne's, $120; Road east from Thrasher's Corners to Bronk's, thence N. to Latta's mills, $120; Road north from Plainfield cheese factory to Tyendinaga, $25; Road north from Plainfield cheese factory, past J. Hale's, $25; Road west from Tweed gravel road past Josh. Hicks' $25; Road over Preston's hill, 9th con. $25; Road west of Moore's toll gate between 6th and 7th con. $25.—Carried.

Moved by J. W. Ross, seconded by A. H. Maybee, that the following sums be placed upon the pay-list to be paid out by the Treasurer, upon the certificate of the Road Surveyor or a member of the Council that the expenditure has been properly made, viz.:

Road in the 5th con. west of J. Sheffield's, $120; Road east from Thrasher's Corners to Bronk's, thence north to Latta's Mill, $120; Road north from Plainfield Cheese factory to Tyendinaga, $25; Road east from Plainfield cheese factory past John Hale's, $25; Road west from Tweed Gravel road past J. Hicks', $25; Road leading over Preston's hill, 9th con Thurlow, $25; Road west from Moore's Tollgate, between 6th and 7th con., $25; Do. between 4th and 5th con. east of Fairfield's bridge to John Homan's, $25; Road between Lots 12 and 13, in 3rd and 4th con. Thurlow, $50; do. 17 and 18, 3 con. $25; do. 17 and 18 in 2 con. north of Thurlow cheese fac'y, $25; do. 3 & 4th con. west of Madoc gravel road, $25.—Carried.

Moved by N. Vermilyea, sec. by J. W. Ross, that the following grants be made in the places indicated below out of the County grants:

Swamp road in the 5th con., $30; Fairman's in the 7th con, $20; North from Plainfield cheese factory to Tyendinaga, $25; East from Plainfield cheese factory past John Halls, $25; Road West from Tweed gravel road past J. Hick's, $25; Road west of Moor's toll gate between 6th and 7th con., $25; Road between 4th and 5th con. east of Fairfield's bridge, $5; Road between lots 12 and 13, between 3rd and 4th con, $50; Road between lots 17 and 18 in 3rd con., $25; Road between lots 17 and 18 in 2nd con, $25; Road between 3rd and 4th con. west of Madoc gravel road, $25; Point Ann hill, $24.—Carried.

Moved by J. W. Ross, sec. by A. H. Maybee that the sum of $20 out of the County grant of 1881, be placed on the pay list for labor done by A. Relthipam on road between lots 17 and 18 in 3rd con.—Carried.

Moved by N. Vermilyea, sec. by J. M. Hurley, that $30 be granted upon the road between lots 12 and 13 in the 5th and 6th con. to be expended under the supervision of P. H. Hambly and A. Jones.—Carried.

The by-law levying seven mills in the dollar for County requirements, and a half mill in the dollar for Township purposes, was introduced and passed.

Daniel Phillips was re-appointed collector for the year 1882.

The account of J. G. Frost for coffin for the late Z. Harlow, $6, was ordered to be paid.

Moved by N. Vermilyea, sec by J. W. Ross, that the account of A. McLaren, M.D., for attendance on the late Z. Harlow, $8 50, be not entertained.—Carried.

Account of A. Sutherland, lumber for roads, $8.30, ordered to be paid.

Account of L. B. Prior, attending arbitrations, Thurlow vs. Sidney, $1.50, ordered to be paid.

"Suffering with rheumatic pains I was Didymus as to remedies. I read of St. Jacobs Oil and said here goes for a half dollar trial. I bought a bottle and before it was half used the screw-wrench pains had gone—and they troubled me no longer," says Ernest King Esq., editor of the Fall River, (Mass.) *Sun*.

BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, blotches, pimples and the various humors and blemishes of the skin are only symptomatic of bad blood—that needs purifying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidneys, skin, etc, and strengthening while it regulates and purifies.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle. 264ly

The market is full of preparations for the hair, some of them good, and many of them good for nothing. R. P. Hall & Co., of Nashua, N. H., manufacture and sell an article of real merit, which has been advertised in the *Express* for the past year, and we have taken no little pains to inquire how it has been liked by the public. One of our druggists informs us that he has sold more than double the amount of Renewer than of all other hair preparations combined, and when a person once uses it, he will use no other: that it is not only bought by the young people as a dressing, but by older persons for removing dandruff, preserving and increasing the growth of the hair and restoring its natural color. Another druggist says that he sells three or four times as much of Hall's, as of all others.—*Hampshire Express, Amherst, Mass.*

Samson lost his strength with his hair. Thousands of men and women lose their beauty with theirs, and very large numbers restore the ravages of time by using the famous Cingalese Hair Restorer. Sold at 50 cents per bottle by all Druggists.

Take no more nauseous purgatives, Burdock Blood Bitters act mildly, pleasantly and thoroughly upon the Bowels, and occasion no inconvenience, while it regulates the Liver [illegible] and tones the enfeebled system. [illegible] cents.

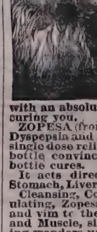
[illegible] Comfort to the Suffering

[illegible] Household Panacea" has no equal [illegible] pain, both internal and external. [illegible] ain in the Side, Back or Bowels, [illegible] at, Rheumatism, Toothache, Lumbago [illegible] any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful," "Brown's Household Panacea," being acknowledged as great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle. 264ly

The most wonderful curative remedies of the present day, are those that come from Germany, or at least originate there. The most recent preparation placed upon the market in this country, is the GREAT GERMAN INVIGORATOR, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangements of the nervous system. For sale by druggists, or sent free by mail on receipt of the price, $1.00 per box, or six boxes for $5.00 Address James Clark & Co., Sole agent for Belleville. Send for circular.

Rheumatism is greatly dependent on a vitiated condition of the fluids, and may be eliminated from the system by cleansing the Blood and regulating the Kidneys. Burdock Blood Bitters will do this most effectually. Trial bottles 10 cents.

RACKED BY INNUMERABLE PANGS, restless by day, sleepless at night, rising unrefreshed in the morning, without appetite and pestered by varying and perplexing symptoms, the dyspeptic takes indeed a gloomy view of human existence. For him the zest of life seems gone. Heartburn, oppression at the pit of the stomach, and the attendant annoyances of of constipation and biliousness, combine to render him utterly wretched. But there is, if he will but take advantage of it, a reliable source of reliable relief from all misery. NORTHROP & LYMAN'S VEGETABLE DISCOVERY and DYSPEPTIC CURE is, as its name imports, a botanic preparation, free from mineral poison, and an all-sufficient remedy for indigestion in its most obstinate form. It not only enriches the blood by enabling the digestive organs to convert the food received into nutriment, but depurates it by increasing the action of the bowels and kidneys, the natural outlets for its impurities. But while it relaxes the bowels, it never does so violently and with pain, like a drastic cathartic. It aids, but never forces, Nature, invigorating as well as purifying and regulating the system. It thoroughly removes those diseased humors which tend to vitiate the blood, purifies the urinary secretion, and promotes a flow of healthy bile into the natural channel, besides expelling it from the circulation. Experience has proved that this standard medicine is a thorough remedy for dyspepsia, biliousness, costiveness, kidney complaints, scrofula, erysipelas, salt rheum, lumbago and all impurities of the blood. Price $1.00. Sample Bottle 10 cents. Ask for NORTHROP & LYMAN'S Vegetable Discovery and Dyspeptic Cure. The wrapper bears a *fac-simile* of their signature. Sold by all medicine dealers



WILL YOU EXCHANGE a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys.

Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

BUTLER'S

Celebrated

BLACKBERRY CORDIAL.

The most effectual remedy yet discovered for Cholera, Cholera Morbus, Diarrhœa, Dysentery, Cramps, Colic, looseness of the Bowels &c.

This justly celebrated preparation is highly recommended by the medical men, and has been used with the greatest success for the last ten years throughout the United States.

BELLEVILLE, TUESDAY, SEPT. 12.

The "Coal Tax."

Under this heading the Halifax *Herald* of the 7th inst., has an article based on our exposure of the trick of the Yankee coal dealers in dodging the duty, in which it says:—"In the familiar jargon of our Grit friends every duty imposed on such foreign articles as can be produced in Canada is a 'tax,' while duties imposed on goods that cannot be produced in Canada are only duties. In this way they have come to speak of 'the coal tax,' 'the flour tax,' etc., etc., though it is very doubtful indeed if a dollar of all the duties collected on Yankee flour and soft coal is actually paid by the Canadian consumer. We have frequently referred to the absurdity of supposing that Canadian importers would buy Yankee flour and pay the duty on it, when they can purchase in any United States city Canadian flour of the same brands at the same prices, on which of course they would not have to pay any duty. The natural inference is that they do not pay the duty, but when they purchase the United States article, get from the seller a rebate equal to the duty. We believe it is the same to very large extent at least in the case of the bituminous coal imported from the United States into Ontario. In confirmation of this we find the following in the Belleville INTELLIGENCER—a journal of undoubted respectability:—"

The *Herald* quotes our article on the subject and goes on to say:—"Of course the very witty and wise Grit editor will at once reply to this, that if the sellers pay the duty in this way why not put a duty of say $5 a ton on foreign coal? The answer to this is very easy. The United States coal owners *could not* afford to pay $5 a ton and *would not* pay it. They *can* afford to reduce their profits 50 cents a ton and are willing to do so rather than lose their Ontario market, which might otherwise be occupied by Nova Scotia coal owners. The moment the Canadian duty would exceed the net profits which the United States coal seller realizes by the sale of his coal, that moment the duty or a proportionate share of it would have to be paid by the Canadian buyer. At present however it is obvious that east of Toronto at all events the coal 'tax' is a tax not paid by the people of Canada."

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists.

Editorial Brevities.

The whole question for the people to decide as to Police Commissioners and other irresponsible bodies, is: "Shall the people's representatives control the expenditure of the people's money?"

Says the London *Advertiser*:

> The Toronto *Mail* is endeavoring to prove that tavern-keeping has degenerated: that the men who now keep licensed houses have encouraged drunkenness and crime, and that the Province has, of late, gone from a moral point rapidly down hill. Is this so? Are the inns and hotels now kept by a lower class of men than they were a few years ago? They are mostly Tory. Are they what the *Mail* paints them? What can they say in defence of themselves?

The explanation is easy. Owing to the partizanship and corruption of the License Commissioners, a larger Grit element has been introduced amongst the tavern keepers.

What's in the wind? Are the Grits afraid to proceed in the West Hastings election case? Mr. Robertson was ready for examination on Monday, when called upon, but the counsel for the petitioners was conspicuous by his absence. It looks very much as if our Grit friends, after all their loud charges of corruption, are about to abandon their charges, fearful of retaliation.

Don't die in the House.

"Rough on Rats." Clears out rats, mice, roaches, bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

Death of Mr. Lanthier, M. P.

ONE OF THE OLDEST MEMBERS OF THE COMMONS GONE.

Mr. J. P. Lanthier, M. P. for Soulanges County, died at his residence at St. Polycarpe, Soulanges, on Monday evening, after a comparatively short illness. Mr. Lanthier's family originally came from Brittany, and he himself was a native of St. Polycarpe, P. Q., where he was born, on the 21st July, 1814, and was consequently sixty-eight years of age at the time of his death. The late gentleman received his education at Nicolet College and at the College St. Sulpice in Montreal. He was married in 1865 to Miss Julienne Bonville, and was a merchant. He is the author of a pamphlet on the Cascades and Coteau Landing Canal, and of another on the Harbors of Coteau Landing and Cascades Bay. He was first returned to Parliament in 1844 for Vaudreuil, and continued to sit until 1847. He was first returned to the Commons at the general elections in 1872; was re-elected by acclamation at the general elections of 1874, and again at the elections of 1878, and defeated Mr. de Beaujeu in the last June elections. He was a strong and unflinching Conservative.

O. Bortle, of Manchester, Ontario Co., N.Y. writes:—"I obtained immediate relief from the use of *Dr. Thomas' Eclectric Oil.* I have had Asthma for eleven years. Have been obliged to sit up all night for ten or twelve nights in succession. I can now sleep soundly all night on a feather bed, which I had not been able to do previous to using the Oil."

COUGHS AND COLDS.—If taken in time are easily cured,—if allowed to continue will result in incurable consumption. Allen's Lung Balsam has the confidence and support of the medical faculty, and is recommended by all who are acquainted with its virtues.

Dropsy is essentially a watery condition of the Blood, dependent upon disordered Kidneys. Burdock Blood Bitters are strongly Diuretic and consequently the best known remedy, acting as it does upon the entire Secretory System.

Ameliasburg Correspondence

AMELIASBURG, Sept. 12.

Farmers are busily engaged in sowing wheat and rye; quite a number from this township go to Toronto to-day by special train to attend the fair there.

Mr. Joseph K. Ostrom died this morning from the effects of the fall about two weeks since. He leaves a wife and seven children, the eldest of which is not over sixteen years of age.

Mrs. Mary Gerow is improving slowly. Her disease "Elephantiasis" is one peculiar to a tropical climate, and it is therefore very seldom that a case of that kind occurs in this latitude.

Quite a number of barrels of apples and pears have been purchased in this vicinity by Mr. J. G. Peck, agent for Messrs. Boulter & Dunning's canning establishment at Picton. I have been informed that this firm purpose entering more extensively into fruit buying in future.

The report circulated in the lower part of the county that Mr. Badgeley's child had been found dead in the marsh, is incorrect, nothing further is known of the child's whereabouts.

The Murray Canal "goes bravely on" quite a number of men and teams are at work on the Canal in the vicinity of Wm. Lovatt's residence in Murray.

Catarrh of the Bladder.

STINGING irritation, inflammation, all Kidney and Urinary Complaints, cured by "Buchupaiba." $1.

Hops.

The New York *Bulletin* has the following correspondence from Jefferson county, dated August 28: "Although hops are two weeks later than usual, the growers are compelled to pick their hops in order to save them from being destroyed by vermin. The most promising yard in our vicinity three weeks ago, I visited yesterday, by request of the owner. On my arrival, I found vines, leaves and hops, yea, even the poles, covered with lice; all busy, active and working to the top of the poles, where the hops are located; I further found that the hop itself was covered with lice in such numbers as to cause it to turn black and unfit for use. I visited three different yards and found them all alike, and I advised the growers to pick them at once, although one-half of the hops are not developed and not any of them ripe, or fit to pick. They followed my advice, and started with all the pickers they could procure this morning, as the only chance to save something for the year's labor especially in their yards. In general the outlook is bad, and getting worse every day, in this vicinity."

The New Forth Bridge.

The New Forth Bridge will have two spans of 1700 feet, two of 675 feet, 14 of 168 feet, and six of 50 feet, with a clear headway of 150 feet above high water spring tides. Mr. W. Baker in a recent paper argues that not only will such a bridge prove stiffer than a suspension bridge, but it will also be cheaper. Steel is to be used in the construction of the bridge. No punching or shearing will be allowed, but all holes will be drilled through the whole thickness of plates and angles after being put together. The effect of wind-pressure on the superstructure has been carefully guarded against, and it is thought that the bridge will stand the strongest hurricane yet known. The total length of the great continuous girder is 5,330 feet, or say a mile, and the viaduct approaches, 2,754 feet, or rather over half a mile. The heaviest train traversing the bridge will not deflect the 1,700-foot girder more than four inches, while a wind-pressure equivalent to 30 pounds per square foot over the entire 1,700 feet will bend the bridge laterally less than nine inches. About 42,000 tons of steel will be used in the superstructure of the main spans, and 3,000 tons of wrought iron in that of the viaduct approach. The total quantity of masonry in the piers and foundations will be about 125,000 yards, and the estimated cost of the bridge, over seven millions of dollars.

Long Bridges.

Mr. K. Pfarski has made a list of the longest bridges at present existing. This statement was made public some time ago, but is worth inserting here for future reference. The lengths are given in meters: Parkersburg Bridge, 2147; St. Charles Bridge, over the Missouri, 1993; Ohio Bridge, near Louisville, 1615; bridge over East River, 1500; Delaware Bridge, Philadelphia, 1500; Victoria Bridge, over the St. Lawrence, about 3000; New Volga Bridge, near Sysran, 1485; HollandsDiep Bridge, near Moerdyk, 1479; bridge over the Pongabunda, near Gooty, India, 1130; Dniester Bridge, near Kiew, 1081; Rhine Bridge, near Mainz, 1028; Dnieper Bridge, in Poltava, Russia, 984; Mississippi Bridge, near Quincy, 972; Missouri Bridge, near Omaha, 850; Weischel Bridge, near Dirschau, 837; Danube Bridge, near Mezzana Corti, 758; Tamar Bridge, near Saltash, 665; Leck Bridge, near Kuilenbery, 665; Mississippi Bridge, near Dubuque, 536; bridge over the Goral River, India, 529; Britannia Bridge, near Bangor, 464; Saane Bridge, near Freiburg, 332; Theiss Bridge, near Szegedin, 355.

If Nearly Dead

after taking some highly puffed up stuff, with loud testimonials, turn to Hop Bitters and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes, or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides, it is the best family medicine on earth.

One dose of BAXTER'S MANDRAKE BITTERS will relieve Sick Headache. One bottle effects a cure. Price 25c. per bottle.

A New Principle.

The principle upon which PUTNAM' PAINLESS CORN EXTRACTOR acts is entirely new. It does not sink deep into the flesh, thereby producing soreness, but acts directly upon the external covering of the corn, separates it from the under layer, removes the direct pressure from the part, and at once effects a radical cure, without any pain or discomfort. Let those who are suffering from corns, yet skeptical of treatment, try it, and by the completeness of the cure they will be ready to recommend Putnam's Painless Corn Extractor to others. Sold by W. R. Carmichael

Dr. E. C. West's Nerve and Brain Treatment is a never failing cure for Nervous Neuralgia, Nervous Headache, Overworked Brain, &c. Sold at James Clarke & Co's.

News Condensed.

Drouth in parts of China threatens another famine.

—The Oka Indians have good crops on their new lands in Muskoka.

—The African Company's steamer "Ethiopian" has been lost off Loango.

—Iron and coal mines in England are preparing for a great strike in October.

—Barnum, the showman, has presented the Toronto Zoo with a pair of Asiatic lions three months old.

—On the advice of his physicians, Bismarck will temporarily abstain from taking part in public affairs.

—In an engagement with the Arabs at Kairouan, Algeria, the French lost 50 killed, the Arabs 150.

—Typhoid fever prevails in the Ottawa district. Three persons from Eardly have died of it within a week.

—Laborers are reported so scarce at Ottawa that a railway contractor only procured two in a search of several days.

—Lieut.-Colonel Striker, M.P.P. for Prince Edward county, has received the Reform renomination for that county.

—Sir George Grey, Secretary of State for the Home Department in Lord John Russell's last administration, died on Sunday, aged 83.

—The steamers "Fleuro Castle," and "Maska," tea-laden, from Hankow for London and Odessa, have been lost near Cape Guardafui.

—The Cheyenne Indians are reported to be working north through Colorado and Kansas. Troops have been sent to intercept and take them back.

—Armed bands of Albanians have attacked Montenegrins upon their own territory. The latter have appealed to the Powers which signed the Berlin Treaty.

—During a thunder storm on Friday night a meteor weighing 1 pound 11 ounces fell in the street at Lebanon, Pa. It appeared like a ball of fire as it struck.

—A boy of fourteen, who has been dumb from his birth, suddenly received the power of speech at a Methodist camp-meeting at Graham, N. C., on Friday.

—A lady succumbed to the influence of chloroform administered for the purpose of having teeth extracted, in a dentist's office at Dunnville, Ont., on the 11th.

—The Russian convicts in the prison at Khokan revolted recently, and the guard was called out to suppress them. A struggle ensued and forty convicts were killed.

—A young man named Costello, aged twenty five and unmarried, fell from the scaffolding of a new house in course of erection on John street, Quebec, on Monday morning, and was instantly killed.

—Eighty-seven houses were burned at Port au Prince, Hayti, on August 11th, including the French Consulate. Loss $500,000. A hundred and fifty families lost all their effects and are homeless.

—Germany has advised the Porte to use moderation in dealing with the Greek frontier question. The differences between Turkey and Greece are still unarranged. The Porte refuses to abandon Kalaepai.

—At Newmarket, Mo., John Hurst, a fisherman, quarrelled with his son, aged eight and became so enraged that he took the boy by the heels, and dashed his head against the ground, killing him instantly.

—A boy named Crawford, about 11 years old, was killed on the N. B. railway at Melville station, N. B., on Friday afternoon, by falling between two cars. He was badly mangled and only lived a few minutes.

—Mr. Acton Burrows, Deputy Minister of Agriculture and Statistics, and two assistants have left Winnipeg with a special car of exhibits of Manitoba products for the provincial exhibition at Kingston. The collection is very fine.

*The term *hydra* may be used to represent any manifold evil. If you would battle successfully with this many-headed monster of disease you will find it expedient to keep Mrs. Pinkham's Vegetable Compound always at hand.—*Dr. Banning.*

—His Excellency the Governor-General and the Princess Louise are due to-day at San Francisco, where they will remain a few days before proceeding to Victoria. The party will probably not leave British Columbia on the return trip till the end of October.

—A bold attempt to escape from Ottawa gaol was made on Sunday evening by Timothy Rajotte and Martin Sparrow, who are waiting trial on a charge of counterfeiting $10 bills on La Banque National. They had been surreptitiously supplied with files and other such appliances by friends outside. Further developments are expected shorty.

."Do boldy what you do at all." Boldly do we affirm that Kidney-Wort is *the* great remedy for liver, bowels and Kidney diseases. rheumatism and piles vanish before it. The tonic effect of Kidney-Wort is produced by its cleansing and purifying action on the blood. Where there is a gravelly deposit in the urine, or milky, ropy urine from disordered kidneys, it always cures.

—In investigating the recent registered letter robbery in St. John, N. B., the evidence pointed against a clerk in the Post Office named Patrick McGuire, but it was not sufficiently strong to establish his guilt. under promise of being allowed to leave the country, he confessed and paid back $500 and took his departure. Fast living was the cause of his fall.

Murder by a Boy.

FREDERICTON, N. B., Sep. 11.—Charles Hassock, aged nine years, of Stanley, was shot in the abdomen on Friday and died on Sunday morning. Walter Gallagher, who shot him, has been arrested on a warrant issued by Mr. William Howe, J. P., before whom the preliminary examination will be held. A coroner went out from the city to hold an inquest on the body. From the latest particulars of the affair it appears that Gallagher had threatened to shoot another boy, he being in the school grounds, and that he accidentally shot Hassock. The prisoner is ten years old.

PEARLS.—Get your mouth full by using "TEABERRY," the new wonder for the Teeth and Breath. Brush vigorously. See directions. 5 cent samples.

BAXTER'S MANDRAKE BITTERS never fail to cure Costiveness and regulate the Bowels.

Professor Bowlin's Great Golden Seal Discovery.

The greatest and latest discovery of the nineteenth century. A sure and permanent cure for Fits, Hysterics, Dizziness, and all nervous complaints. When ordering a bottle send full description of disease, age and condition of patient, advice free, price $1.00 per bottle. RICHES, BARBEAU, & Co., 101 St. Francois Xavier St., Montreal, sole agents for Canada.

PROCLAIM it far and wide that DR. VAN BUREN'S KIDNEY CURE not only immediately relieves all Kidney diseases, but what is more important to the unfortunate sufferer, will ultimately cure him effectually.

Hungerford Council.

TOWN HALL, Sep. 9, 1882.

Council met on call from the Reeve, all the members present.

Minutes of last meeting read and confirmed.

Moved by the 1st. Dep. Reeve, seconded by Henry Mouck, and resolved, that the Council go into Committee on By-laws, James Clare in the chair.

Moved by Robert Gordon, Reeve, sec. by the 1st Dep., that there be three collectors appointed for the year 1882, each to collect two wards the same as last year.—Carried

A By law to levy taxes and appoint collectors, was read a second time and laid over to the next meeting of the Council.

A By-law to unite part of school section No. 13 (Huntingdon) to Union school section No. (Hungerford), went through its various stages, passed and numbered 67.

Council went into general business.

On motion the following sums were ordered to be paid:—Hugh Outwaters, $20; Miss Pringle, a poor girl, $6.00; Hugh Coulter, for gravel, $1 65; INTELLIGENCER, $46 53; John Cassiday, on road, $10.00.

Council adjourned till called by the Reeve.

A BIG CASTING.—Within a week past, a casting of some weight was cast at the lower Philadelphia & Reading shops on Coal street. It is a conical drum, 16½ feet in diameter at the large end, and weighing 20,000 pounds. It is intended for Brookside No. 4 slope, and is only one half of the entire drum. Another like it will be cast, and the two large ends of the two will then be bolted together, with a large wheel between. The entire drum will be carried near the outer and smaller ends by spiders filled inside, and bored out to fit a main drum shaft, which will be of hammered iron 14 inches in diameter. The central wheel will weigh 18,000 pounds, and the whole machine, including spiders, shaft, etc., will not weigh less than 30 tons. The rope will be fastened at the large end of each cone. This is done because the slope on which it is to be used is flat at the bottom and very steep at the top, and the strain is thereby greatly lessened. Two waggons will be hoisted at a time. The engine that is to drive the drum has a cylinder of 20 by 48, and was built by the George W. Snyder Company.—*Evening Chronicle.*

Hall's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by Jas. Clarke & Co., Belleville, Ont.

$500 REWARD.

WHEREAS good reasons exists for believing that the several fires that occurred on the morning of the seventh September instant, on the premises occupied by Lake & Jenkins, Livery Stable keepers, on the corner of Bridge and Pinnacle Streets, and of Dr. Curlett, on Hotel Street, in the City of Belleville, were the work of incendiaries, and

Whereas by the amended Municipal Act of 1879, chapter 31, section 31, authority is given to any Municipality in which a flagrant crime is believed to have been committed, to offer and pay a reward for the discovery, apprehension or conviction of the criminal, or of any person who is suspected to be the criminal,

And whereas the Council of the Municipality of the City of Belleville have determined to offer a reward for the apprehension and conviction of the perpetrator or perpetrators of the above crime,

Therefore be it known, that a reward of $500 will be paid by the Municipality of the City of Belleville to any person or persons who will give such information as will lead to the apprehension and conviction of the person or persons guilty of the above mentioned offence

Dated at Belleville, this 12th day of September, 1882.

Admission 75 and 50 cents. Secure seats without extra charge at Reynolds' Book Store.

SAINTE ANNE, OTTAWA RIVER.

Notice to Contractors.

SEALED TENDERS, addressed to the undersigned and endorsed "Tenders for work at Ste. Anne," will be received at this office until the arrival of the Eastern and Western mails, on TUESDAY, the 19th day of SEPTEMBER, instant, for the excavation of a channel—principally through rock—in the bed of the river on the up-stream side of the new canal works at Ste. Anne.

A plan, showing the position and section of the proposed channel and specifications of the work to be done, can be seen at this office, and at the office of the resident Engineer, at Ste. Anne, on and after FRIDAY, the 8th instant, where printed forms of tender can be obtained.

Contractors are requested to bear in mind that tenders will not be considered unless made strictly in accordance with the printed forms and—in the case of firms—except there are attached the actual signatures, the nature of the occupation and residence of each member of the same; and, further, an accepted bank cheque for the sum of $1,000 must accompany the tender, which shall be forfeited, if the party tendering declines to enter into contract at the rates stated in the offer submitted.

The cheque or money thus sent in will be returned to the respective persons whose Tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,
A. P. BRADLEY,
Secretary.

THE hotel-keepers are charging the old price for meals, the price of provisions having somewhat decreased.

THE Hastings Rifle Association will meet this evening at Hambly's at 8 o'clock for the purpose of arranging the annual matches.

OVER a hundred persons went from here to the Toronto Exhibition this morning. Three heavy passenger trains left, one of which was made up here.

A LITTLE child of Mr. Geo. Soby's was badly bitten by a bull-dog on Taylor's Hill last Sunday. One of its legs is very much lacerated. The dog is still alive.

THE prize lists for the annual shows of the West and East Hastings Agricultural Shows, have been published. Copies may be procured at the INTELLIGENCER office.

THE orchestra in connection with the Oddfellows' Band has been reorganized for the season. It will be even superior to that of last year, and will consist of thirteen pieces.

OF the play "Only a Farmer's Daughter" which is to be produced here next Friday evening in the Metropolitan Hall, the Philadelphia *Ledger* says :—"It is one of the most intensely thrilling dramatic creations ever witnessed in this city."

PROF. BROWN has returned home from the Northwest. He travelled five hundred miles west of Winnipeg, and his opinion of the country is the same as that formed by the best majority of intelligent travellers : that is, enthusiastically favorable.

THE challenge to a game of quoits which Mr. S.C. Edwards received from a member of the Kingston police force a few days ago was not sent by the Chief of Police, but by Wm. J. Linde, a constable. The challenge will be accepted, and a strong team will go to Kingston during Fair week.

A PROMINENT farmer of Ameliasburg says that there will be a fair crop of apples in young orchards this season, but a good deal of the fruit is spotted. Old orchards are not bearing at all. On the whole, he thinks the crop will be better than anticipated, and the pear crop will be exceedingly good.

MR. JAS. ROSS, tax collector, informs us that he will be ready to return the roll of 1881, for the four wards which form his field of labor, in about a fortnight. He has collected about $23,000, and will so far account for about $2,000 as uncollected being the taxes on non-resident property, &c.

WE have been informed that John Bennet, formerly a famous rifle shot here, and connected at different times with the 15th and 49th battalions, committed suicide at Lucknow, Ont., where he has resided for some time past, by cutting his throat. It is stated that the melancholy occurrence was caused by liquor, in which Bennett indulged heavily at times, and which exercised a peculiarly depressing effect upon him.

AN exchange has collected the following statistics regarding the Midland Railway : The system embraces a mileage of about 470 miles. There are 52 locomotives in use, 40 of those being broad guage and 12 narrow guage. On the Midland division there are 21 ; on the Nipissing division, 6 ; on the Whitby & Port Perry, 7 ; and on the Grand Junction, 8. Of the engines in use the majority are 17x34 cylinder and [illegible] ft. driving wheels. These latter are powerful engines, and are said to excel any other kind on Canadian Railways. There are 40 coaches, 25 common cars, and 25 vans. Box cars number as high as 5,409, while flat cars run up as high as 961.

THE return match between the Belleville and Napanee Cricket Clubs has at last been arranged : it will take place at Napanee on Friday. The Belleville team will probably be composed as follows :—W. N. Thomas, W. Peden, T. S. Farrar, J. Jenkins, J. Soby, E. Reeves, E. Corby, J. Fleming, Jas. D. Clarke, H. A. Hodgson, W. Roberts. The team will go to Napanee on the steamer *Annie Gilbert*, having chartered her for the day. A good close match may be anticipated.

Two drunks—Lew Smith and Richard Walton—appeared before the Police Magistrate this morning. Lew Smith was discharged, because he had no money to pay a fine and the Magistrate did not like to force his companionship upon the ladies and gentlemen now residing in the Gaol ; and Walton was allowed to go, because the Magistrate decided that it was sufficient punishment for him to be obliged to remain all night in the same cell with Lew Smith.

WEATHER PROBABILITIES—Toronto, Sep. 12.—Lakes, moderate winds, fine weather, stationary or higher temperature.

GRAND MUSICIAL CONCERT.—We are pleased to know of the very flattering progress Mr. Fetherston and Bridge St. Choir are making in the preparations for their Concert which is to take place at the end of the present month. Besides several renderings by the Choir of selections from the Oratorio of *Elijah*, there will be a number of solos and duets by distinguished amateurs.

PARALYTIC STROKE.—Mr. Jas. Hamilton, a retired merchant from Warkworth who came with his family to reside in Belleville a few months ago, was seized with a paralytic stroke this afternoon about 3 o'clock while sitting reading in the Dafoe House. Dr. Willson was sent for and soon arrived. Mr. Hamilton was quickly restored to consciousness, but was unable to stand. He was driven by Dr. Willson to his home in West Belleville. It is not thought that Mr. Hamilton's sudden illness will result seriously, as this is the first seizure of the kind which he has experienced. He is a brother of Dr. Hamilton, formerly of Belleville, and a cousin of Mrs. Dr. Willson.

MOON V. SARSFIELD.—In the Court of Appeal, Toronto, on the 11th, appeal from the County Court of Hastings by the defendants, the Bethlehem Iron Company. Action brought to recover $90, the price of certain buildings bargained to be sold by the plaintiff to the defendant, and by the latter transferred to the Iron Company. At the trial the plaintiff was nonsuited as against the defendant Sarsfield, and gave a verdict against the appellants with contribution over against Sarsfield, but ordered the company to pay the costs. The company's contention is that there should have been a judgment against Sarsfield, or at any rate the contribution should have extended to costs. J. Bethune, Q.C., for the appeal ; Dougall, Q. C., (Belleville), for the respondent, the plaintiff. No one appeared for Sarsfield. Appeal dismissed as against the plaintiff, and judgment reserved as against Sarsfield.

BEFORE purchasing Ready made Clothing be sure and look through HENNESSY'S stock. He has over 300 suits in all, and is offering them at actual cost.

Sporting Notes.

From a gentleman who attended the Toronto regatta, we learn something intelligible concerning the second class yacht races at Toronto. On Friday the Katie Gray did not start, and the Emma finished a short distance ahead of the Gracie, with the Gipsy beaten off. On Saturday the wind was very light, with a considerable swell. The Gracie's peak halyards broke, whereby she lost nearly ten minutes. The Katie Gray was handicapped six minutes, starting that length of time after the limit fixed, but she was lucky in bringing a breeze with her, nearly closing the gap on the Emma, which, favored in turn, again drew away from her, and led home by 6m. 30s. The Katie's time over the course was 3h. 59m. 30s., whilst that of the Emma was 4h. 4m. 30s. The Emma had a splendid crew, whilst the Katie's canvas was not smartly handled.

The lacrosse match on Saturday for the intermediate championship, between the Young Shamrocks and the White Stars of Quebec, resulted in a victory for the former by three straight games.

A fifty mile bicycle race between Place, of Elmira, Sandford, Hamilton, and Smith, of New York, took place in New York on Saturday. Place was the winner, making the fastest time on record, 3 hours, 27 minutes and 11⅗ seconds.

The match for the Lacrosse championship between the Torontos and the Shamrocks will take place on Saturday, the 23rd inst., on the grounds of the Shamrock Club.

The following is the team selected by the American Cricketers' Association to represent the United States against Canada in the annual match to be played at Nicetown, Philadelphia, on September 18th and 19th : Messrs. C. A. Newhall, T. H. Dixon and E. W. Clark, jun., of the young America Cricket Club; W. Brockie, jun., and W. C. Morgan, third, of the Germantown Cricket Club ; T. Hargrave, of the Girard Cricket Club ; H. McNutt, of the Oxford Cricket Club ; H. Brown, of the Pittsburg Cricket Club, and J. I. Scott, of the Belmont Cricket Club ; S. Law, J. B. Thayer, jun., and C. E Haines, of the Merion Cricket Club.

The following will comprise the Wimbledon team for 1883, they having made the twenty highest total scores in the grand aggregate and Governor-General's Match combined : Captain Hart, Corporal Mitchell, Trooper Langstroth, Lieutenant H. Smith, Corporal Jogg, Lieutenant Throupso, Private Abell, Staff Sergeant W. Ashpol, Sergeant Keddy, Sergeant R. V. Doyle, Private Morris, Gunner Wayper, Captain L. Thomas, Lieutenant H. C. Chamberlain, Quartermaster Corbin, Captain Balfour, Sergeant D Mitchell, Private Dillion, Private Goodie and Lieutenant Mitchell. Hamilton has three representatives in the above list.

☞ The Diamond Dyes always do more than they claim to do. Color over that old dress, It will look like new. Only 10 cents

A SIMPLE herb found on the sunny plains of a Southern clime has, under the skillful manipulation of DR. VAN BUREN, proved one of the greatest blessings ever sent to sufferings humanity. DR. VAN BUREN'S KIDNEY CURE is acknowledged all the world over as the only perfect remedy for Kidney troubles. Your druggist has it.

THE WAR IN EGYPT.

Particulars of Saturday's Battle.

Time Set for the Advance.

ENGLAND AND TURKEY.

LONDON, Sep. 11.—There seems little doubt that the object of Arabi in his operations of Friday was to force this position. The Bengal Lancers report the whole attack partook of the nature of a surprise, as about five o'clock in the morning, when thirty of them were out posting vedettes, they were considerably astonished to find themselves surrounded of a sudden. In front and rear and on either flank were three squadrons of Egyptian cavalry and a strong force of infantry, advancing in regular attack formation. For a moment resistance seemed impossible, but their leader, Colonel Pennington, was not them one to submit tamely. He ordered his little band to dismount and then poured in a galling fire on the advancing enemy. Their cavalry kept hemming them in, and the infantry were beginning to fire at long range The Lancers were in a bad plight and were hard pressed, and something had to be done to get out of it. Accordingly he gave his men the word to remount and delivered a fierce charge on the enemy. The Bengalese charged so furiously that they went right through the Egyptian ranks, killing ten as they went, and losing but one man, a Sikh, on their own side. Col. MacNaughton then galloped back here and called out the rest of the regiment. They being about 400 strong, came up to the rescue, but found that a picket of the 19th Hussars, with a body of the Mounted Infantry, had already come up and were posted side by side with their dusky fellow-soldiers.

Our loss was four killed and sixty wounded, that of the Egyptians a hundred killed and wounded. Of missing on our side there are still a good many, who have probably been taken prisoners.

The bulk of the English force has arrived. The camp has the appearance of a tent city, three miles long and half a mile broad. The army is ready to move, and may possibly advance on Wednesday morning.

The British Foreign Secretary declines to accept the proposal of the Porte to land the Turkish troops at Port Said.

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinary or Liver Diseases, as they only relieve for a time and make you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

LATEST FROM THE SEAT OF WAR; TURKEY'S PREPARATIONS.

Blowing up the Enemy's Dams

ARRANGING FOR THE ATTACK

CONSTANTINOPLE, Sep. 12.—The Grand Council was summoned yesterday to discuss the relations between Turkey and England. A decided military convention must clearly indicate the landing place of Turkish troops in Egypt.

ISMAILIA, Sep. 12.—Boats have gone up the fresh water canal through the Kassassin Locks to blow up dams constructed by the enemy.

KASSASSIN, Sep 11.—Gen. Wolseley has left the camp to arrange for an attack. All the forces have now arrived.

A Salt Mine Two Thousand Years Old.

A mine has been found in the mountains near Salzburg, Austria, which gives indications of having been occupied and abandoned at least two thousand years ago. It contains a large and confused mass of timbers, which were used for support, and a number of miners' implements. The timbers were notched and sharpened; but were subject to an inundation, and left in confused heaps. The implements were chiefly wooden shovels, ax-handles, etc. Among the relics, also, was a basket made of untanned rawhide, a piece of cloth woven of coarse wool, the fibre of which is very even and still in good preservation, and a torch, bound together with flax fiber. The probabilities are that the ancient salt miners were overtaken by the flooding of the mine, as mummified bodies have been discovered also. The find seems to have belonged to the pre-Roman times, as the axe hadles were evidently used for bronze axes, specimens of which have been found upon the surface of the mountain. The relics are of a high order, the basket being superior even to some that were used in the early historic times.

Agricultural Fairs.

WEST HASTINGS, at Belleville, Sept. 27 and 28.

EAST HASTINGS, at Thrasher's Corners, Oct. 4.

Excellent reasons exist why *Dr. Thomas Eclectric Oil* should be used by persons troubled with affections of the throat or lungs, sores upon the skin, rheumatic pains, corns, bunions, or external injuries. The reasons are, that it is speedy, pure and unobjectionable, whether taken internally or applied outwardly.

Nervous debility is a result of indiscretion in the mode of living Heed nature's unerring laws and take Burdock Blood Bitters, the Great System Renovator and Blood, Liver and Kidney regulator and tonic. Sample bottles 10 cents.

For 30 Years

The dark-eyed and lovely daughters of Spanish America have used MURRAY & LANMAN'S FLORIDA WATER as their only cosmetic and toilet perfume. It is the most fragrant, as well as the most lasting of all Floral Waters, and possesses refreshing and invigorating properties not contained in any other preparation of the kind.

Sure, safe and effectual, that old remedy, DOWNS' ELIXIR, for the cure of Coughs and Colds.

MORNING DESPATCHES.

AMERICAN.

THE INDIANS DRIVEN OUT.

TUCSON, Sept. 12.—Sonora advices say that the Apaches have been driven south of the Serra Madre mountains.

SCARLET FEVER.

KINGSTON, N. Y., Sept. 12.—Scarlet fever is raging to an alarming extent in Highlands in this County. The town board of health has ordered Sunday and public schools closed, and taken other precautions.

THE STAR ROUTE CASE.

NEWPORT, R I., Sept 12.—Attorney Gen'l Brewster is reported as saying : "The public need not fear, the Star route defendants who have not been condemned by jury will be tried again. When the next trial will take place depends upon the business of the Courts, and the arrangements that can be made for such an important affair."

AN EMBEZZLER ARRESTED.

NEW ORLEANS, Sept 12.—Isaac Mossman, agent for Calstor & McCollis' whiskey, was arrested yesterday on a requisition from Gov. Renna, charged with obtaining goods under false pretences, and the embezzlement of $16,200. Mossman characterizes the proceedings as malicious.

LOW FARES.

NEW YORK, Sept. 12.—The steamer chartered by the secret order of the Sons of Columbia is carrying passengers between here and Pokeepsie for ten cents. A member of the Order says the enterprise is designed as a test how low the fares for water transportation can safely be made, and whether there is any such a thing as monopoly as applied to the docks and landings. Within ten days we will open another line between Albany and New York and the rate of fare will probably be ten cents for any distance on the line. We will carry freight for about one dollar per ton. If these experiments prove successful we shall, as soon as navigation closes, organize two more such systems, one on the Mississippi river from New Orleans to the head of navigation, and the other from Buffalo to the upper lakes. The rate of fare and freights will be put at a percentage upon the present charges. The Order also proposes to obtain and sell to the public railroads tickets at reduced prices.

DEATH OF A CLERGYMAN.

WEST PORT, Mass., Sep. 12.—Dr. Chandler Robbins, a well-known Boston Unitarian clergyman, died here suddenly yesterday, aged 72

A SCOUNDREL'S CAREER.

PROVIDENCE, Sep. 12.—It is stated that Ballard, who fraudently obtained a certificate of deposit for $7,000 on a bank here, and married a young lady in Newburg, N. Y., last month after a short acquaintance, and deposited worthless checks for $6,000 at a bank there and got a store keeper to cash a worthless check for $1,000, has disappeared. He left a valise containing checks for $29,000 drawn by himself on banks in Baltimore, Boston and elsewhere.

THE STAR ROUTE CASE.

NEW YORK, Sep. 12.—The *Herald's* Washington special says :—It is impossible to describe the feeling which exists against Dickson, the foreman of the Star Route Jury. On the beginning of the case several of the Government Counsel did not regard him as a safe man. Merrick, who has known him intimately for 15 years, said he would stake his professional honor upon his honesty, and he was accordingly accepted by the Government. For several weeks there have been stories that he would sell out his Government friends. Dickson repelled with indignation all such reports, and he was the last man the prosecution would suspect of being against the Government. Dickson told a fellow-juror he had been approached by a man named Bowen, said to be a relative of the proprietor of the New York *Independent*, and also that he had a letter purporting to be signed by Z. L. Tidball, a special agent at the time in the Department of Justice. He was approached also by a man who claimed to have authority from the Attorney-General, but Bowen appeared to be the principal figure in the case. Several jurors told Dickson he was either a knave or a fool. He became greatly excited and so did those jurors who thought all the defendants guilty. The statement made to Dickson which he repeated to the other jurors that the Attorney-General was anxious to achieve a great reputation by convicting the accused was greeted with derisive laughter. Kerr, counsel for the prosecution, denies that Dickson ever was approached by any man on behalf of the prosecution, and says the parties accused by Dickson are in Arizona, on Government business, and it will require 2 weeks to bring them to Washington.

NEW YORK, Sep. 12.—Arrived the *Helvetia* and *Wyoming* from Liverpool ; the *Westphalia* from Hamburg.

AFTERNOON DESPATCHES

BISMARCK ILL.

Paris, Sept. 12.—It is rumored that Bismarck is seriously ill.

ARABI MADE A LAND LEAGUER.

ALBANY, N. Y., Sept. 12.—The John Dillon Land League last night elected Arabi Pasha an honorary member.

SUICIDE OF AN ACTRESS.

PARIS, Sept. 12.—The Russian actress Feygheti shot herself in the apartments of Duc de Morny. She is in a precarious condition. The suicide creates a sensation in society and in theatrical circles, as the actress was of considerable note. It is said the Duke had tired of the actress, and shown a disposition to avoid her. Last evening she went to his apartments with the intention of demanding a reason for his slighting her, and it is believed a quarrel ensued.

DRUNKARDS IN HOSPITAL.

NEW YORK, Sep. 12.—21 men, suffering from the effects of alcoholism, were in the cells at Bellevue Hospital yesterday.

A FEMALE THIEF PUNISHED.

SYRACUSE, N. Y., Sep. 12.—Mary Dixon, a notorious sneak thief, has been sentenced to the Onondaga Penitentiary for 21 months. She robbed 15 dwellings in two weeks.

LAWLESSNESS IN ARKANSAS.

FAYETTIVILLE, Ark., Sep 12.—Fearful lawlessness exists in the southern part of the county. Recently the U. S. Marshal and posse were fired on while attempting to make arrests at the house of Jeff Gelleland, and two or three were wounded On Friday night Jim Webb and two others passed an old man and two boys camping by the roadside Webb deliberately shot the old man through the head. The sheriff and two hundred men are scouring the country. The two men have been arrested but Webb has not been found.

A RICHMOND BANK BREAK.

RICHMOND, Va, Sep. 12—The Richmond Banking and Insurance Company have suspended. The President expresses the belief that depositors will receive dollar for dollar. The suspension is due to large depositors recently withdrawing their funds. The intimate relations of this bank and the Planters' National Bank, John B. Davis being President of both, created uneasiness among the depositors of the latter, and caused small depositors to withdraw their funds Business men having large deposits are rallying to its aid. The Directors of the Planters' Bank were in session all night, examining its condition. This morning two of the wealthiest men in the city were elected directors, Davis then resigned, and Chas. Whitlock was elected President.

A CLERGYMAN PAYS $25 FOR A KISS.—At the Hanley (Staffordshire) Police Court yesterday the Rev. T. Salmon, vicar of New Chapel, was summoned before the magistrates on a charge of assaulting a girl by kissing her. The rev. gentleman having paid the complainant five guineas, the charge against him was withdrawn.—*Pall Mall Gazette.*

SMITH MEDICINE Co.

GENTLEMEN,—I have made a trial of one box of Dr. Smith's Great German Worm Remedy, with such good effect that I have no hesitation in recommending it to the public as a prompt and reliable medicine. In fact, those who use it once will always do so. Yours truly,

J. Harvie, 172 Cadieux street.

Montreal, December 9th, 1881.

Consumption, that dread destroyer of the human race, is often the result of bad blood and low vitality, a scrofulous condition of the system Burdock Blood Bitters cure Scrofula in its worst form.

Commercial.

Daily Intelligencer.

A Dangerous Guide.

'What a fool you are, Jack.'

'All right, don't you make yourself one as well. Here's the old dragon.'

Fraulein Schwartz had heard voices, and came out to welcome the new arrival. She well remembered Linton, and received him with effusion.

'Nina will be back in a minute or two, sir, she has only gone to milk the goats. She has grown since you saw her, sir.'

'Ah, she was a girl then: I suppose she is a woman now.'

'You shall see, sir—here she comes.'

Linton watched her as she came down the road, not altogether pleased to see a tall young fellow with her.

On the other hand, Walter was so vexed at seeing two strangers, evidently waiting her return, that he had half a mind to turn back and retreat over the pass in anger. But his jealously kept him near his betrothed; he could nor let her out of his sight.

'Well, Nina,' said Linton, as she came up, 'I've come back, you see as you asked me two years ago.'

'I am glad to see you, sir,' she replied demurely, for she felt that Walter's eyes were upon her.

'Fraulein Schwartz made me expect to find you quite a woman, but you are still my little Nina, I see. Are you grown too big to be kissed now?'

'Don't be a fool, Charlie,' whispered Hardy to him; 'can't you see that fellow looks as if he would like to murder you?'

But the question had been already decided by Nina's drawing back her hand from Linton's and walking up to Walter. The latter, however, did not look at her, but gazed moodily across the valley.

'A sweet youth, that,' remarked Linton, carelessly.

In the meantime, Walter was clenching his hands in his pockets and muttering to himself: 'She told me that she did not know who he was, and he was in the house all the time. And he would have kissed her.'

CHAPTER II.

'Well, Charlie, I suppose we are to push on to Werhausen to day,' said Hardy as they sat outside the cottage next morning over their breakfast.

'Yes, I suppose so. Where's Nina vanished? I want some more milk.'

'You've about a pint left; let Nina alone, my boy. As it is, that fellow Walter seems to be unable to make up his mind whether to be angrier with you or with Nina. Look at him now, his scowl is enough to turn the milk sour.'

'Oh, bother Walter; I've come twenty miles out of my way to see Nina, and I shall ignore Walter's existence for the next hour. I suppose we ought to start at nine.'

'Yes, and we shall have all our work cut out, for I don't mean to try any more short cuts without a guide.'

'Perhaps Nina can tell us whether we can get one. I'm going to see at any rate. Nina!'

She came running out, and Linton made her sit down while he questioned her about the possibility of obtaining a guide to Werhausen. His excuse for detaining her was not a very happy one, for she at once said that Walter was returning in that direction to-day, and would be glad to guide them.

Hardy looked at Linton interrogatively.

'I wish, Jack, you'd try to arrange it with him,' said the latter; 'he wont do it if I ask him, I'm afraid, and time is an object now.'

'All right, I'll try what I can do,' replied Hardy. 'I think he'll come if only to insure our being at a distance from Nina.'

Walter was not very tractable; at first he refused, but presently yielded, apparently because of some idea which had struck him. He recommended that a start should be made at once, to which no objection could be well made, so the friends packed up their knapsacks and were soon ready.

'Good-by, Nina,' said Hardy, holding out his hand; don't forget me before this afternoon.'

'Good-by, Nina,' echoed Linton. 'Come, Hardy, I'm ready. By Jove! though, I've left my alpenstock in our room. Just get it for me Walter.'

Walter had brought out the baggage from the room, so he could not refuse to do as he was requested. The moment he disappeared Linton drew Nina to him and kissed her.

'That's a good-by kiss, Nina, for I suppose you'll be married long before I come to Switzerland again. Mind you don't tell Walter."

But, as Hardy knew, there was no need to tell Walter. The bedroom window overlooked the group, and the lover had been a spectator of what had happened. Hardy saw his face for a moment with an angry flush upon it, but he did not see the intense hatred which shot from his eyes as he drew back into the room. However, in a few moments he came out apparently calm. He kissed Nina and the fraulein, who only came out at the last minute with the bill which she had been concocting, and soon the travellers were only a speck in the distance to the inhabitants of the cottage.

Linton did not give a thought to the jealousy which he had excited in Walter's mind; in fact, he was scarcely aware of its existence. He did not know that the guide's was an intensely passionate and suspicious temperament; that for one thing he knew he imagined a dozen; that he always made his visits to Nina unexpectedly in order to know whether she had any other admirers than himself. Had he known all this, he might have taken seriously the taciturn way in which the guide plodded on, never offering an observation, and replying as little as possible to what was said. He even refused a cigar which Hardy offered him, a very rare thing for a guide to do.

'I shan't be sorry when we drop our new acquaintance,' remarked Linton; 'he is very uninteresting.'

'I shan't care if that's his worst fault,' replied Hardy.

'He certainly has one rather more annoying; he seems to be able to pick out the worst bits of ground in the district; I'm getting tired already, and we haven't walked three hours.'

'And with one rest. This is a most wretched sort of wilderness. Have you ever been near here before?'

'Never. I'm utterly out of my reckoning.'

'It seems to me,' said Hardy, 'that Werhausen lies a good deal more to the north, while he is working us continually to the west.'

'Ask him.'

Hardy did so, but elicited no answer except that the way they were going was the right one.

'But look here,' exclaimed Linton, testily, as they had to help each other up a rock; we don't want to do any climbing to-day, we want to get to Werhausen, and the road can't be over a mountain.'

'If you are not content to follow me,' replied Walter surlily, 'it would be best for you to go your own road.'

This was a finish to the conversation, for, as the tourists had already supposed, they were utterly out of the ordinary track and neither of them had an idea of their position. Linton received the man's impertinent answer with a philosophic shrug, resigning himself to the unpleasantness of a harder walk than he had anticipated, but Hardy, who had caught sight of his face as he spoke, began to feel seriously uneasy.

'I say, Charlie,' he said, 'don't do anything to make that fellow angry.'

'Make him angry? It's the other way I think. I'm getting fairly savage with him for leading us this dance.'

'I wouldn't tell him so if I were you.'

'Why not?'

'Well, you see, if he were to become unpleasant it would be rather awkward for us, wouldn't it?'

'I don't see that; we are two to one. Besides, why should he turn unpleasant?'

'He saw you kissing Nina this morning.'

'Did he? I can't help it; he shouldn't have been looking.'

'Unfortunately he was, and I can't help thinking he means to pay us out.'

'You think he is taking us this round by way of administering a lesson to us? By Jove! if I thought so—'

'Do keep still, Charley; don't make him angry.'

'Why, what on earth's come over you, Jack? Surely you aren't afraid of that fellow?'

'Yes, I am, I confess it.'

TO BE CONTINUED.

CHEAP AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Magnetic Medicine, which contains forty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column

CINGALESE A name well known in connection with the HAIR RENEWER, which restores grey hair to its natural color by a few weeks use. Sold at 50 cents per bottle by all Druggists.

As a cure for all diseases of the Lungs, DOWNS' ELIXIR has no equal.

DELAYS are dangerous, particularly in Kidney Diseases, so take at once DR. VAN BUREN'S KIDNEY CURE and obtain relief from all your sufferings. Your Druggist keeps it.

At the approach of spring great attention should be given to purify the system engorged with foul humors during the winter. Burdock Blood Bitters is Nature's own purifying and regulating tonic.

AFTER many years of patient investigation DR. VAN BUREN, of Germany, finally succeeded in perfecting a Kidney Cure that would permanently relieve all cases of Kidney Disease Be sure and ask your Druggist for DR. VAN BUREN'S KIDNEY CURE.

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrah, Bronchitis, Asthma and Lung Disease by Dr. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the seat of disease. Read and judge for yourself:—

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. JOHN P. WHELAN, Manager of POST and TRUE WITNESS, Montreal. Mr. C. HILL, Montrael, catarrh and bronchitis. Mr. DEBOUCHERVILLE, of the Indian Department, Ottawa, catarrh of many years; now cured. Mr. GEO. AGER Ottawa, catarrh and lung disease; cured. Mrs. SMITH, London, wife of Medical Detective, cured of catarrh. GEO. MAGUIRE, Toronto, 482 Adelaide street West; daughter cured of asthma. GEORGE WILLIS, Exeter, Ont., catarrh and bronchitis. J. D. ARMSTRONG, 186 Yonge street, Toronto, catarrh and catarrhal deafness. THOMAS TELFER, 12 Melinda street, Toronto, asthma; cured. Mr. BENJ. A. DRAKE, St. Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. BENOIT, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma and bronchitis for over eight years, and who is now perfectly cured.

MRS. ADAMSON, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitating in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis. JOHN C. FLEMING, Editor of POST and TRUE WITNESS, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write, inclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souville and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

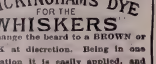
HALL'S VEGETABLE SICILIAN HAIR RENEWER

Has been in constant use by the public for over twenty years, and is the best preparation ever invented for RESTORING GRAY HAIR TO ITS YOUTHFUL COLOR AND LIFE.

It supplies the natural food and color to the hair glands without staining the skin. It will increase and thicken the growth of the hair, prevent its blanching and falling off, and thus AVERT BALDNESS.

It cures Itching, Eruptions and Dandruff. As a HAIR DRESSING it is very desirable, giving the hair a silken softness which all admire. It keeps the head clean, sweet and healthy.

The State Assayer and Chemist of Mass. and leading Physicians endorse and recommend it as a great triumph in medicine.



BUCKINGHAM'S DYE FOR THE WHISKERS

will change the beard to a BROWN or BLACK at discretion. Being in one preparation it is easily applied, and produces a permanent color that will not wash off.

PREPARED BY
R. P. HALL & CO., NASHUA, N. H.
Sold by all Dealers in Medicine.

THE ROYAL INSURANCE CO.

Of England.

CAPITAL	$10,000,000.
Funds Invested	$23,000,000
Annual Income	5,000,000.

Over $600,000 invested in Canada for the protection of Canadian Policy holders.

Farm Property Insured against damage by Lightning. Losses to live stock by lightning and fire anywhere on the Farm made good.

FACTS WORTH REMEMBERING.

The Royal has the largest surplus funds of any Fire Insurance Company in the world.

The Royal has the largest deposit with the Dominion Government of any other Insurance Company.

The conditions of the Royal's Policies are more liberal than those of other Companies doing business in Canada.

In conclusion remember that security should be the first consideration, and that it is to your interest to insure with the Company that gives the *greatest* security. You may better carry your own risk than entrust it where you have not absolute security.

LOCAL AGENTS.

Yours for Health
Lydia E. Pinkham

LYDIA E. PINKHAM'S VEGETABLE COMPOUND,

Is a Positive Cure

For all those Painful Complaints and Weaknesses so common to our best female population.

A Medicine for Woman. Invented by a Woman. Prepared by a Woman.

The Greatest Medical Discovery Since the Dawn of History.

☞It revives the drooping spirits, invigorates and harmonizes the organic functions, gives elasticity and firmness to the step, restores the natural lustre to the eye, and plants on the pale cheek of woman the fresh roses of life's spring and early summer time.

☞Physicians Use It and Prescribe It Freely.☜

It removes faintness, flatulency, destroys all craving for stimulant, and relieves weakness of the stomach.

That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use.

For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

LYDIA E. PINKHAM'S BLOOD PURIFIER will eradicate every vestige of Humors from the Blood, and give tone and strength to the system, of man woman or child. Insist on having it.

Both the Compound and Blood Purifier are prepared at 233 and 235 Western Avenue, Lynn, Mass. Price of either, $1. Six bottles for $5. Sent by mail in the form of pills, or of lozenges, on receipt of price, $1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Enclose 3ct. stamp. Send for pamphlet.

No family should be without LYDIA E. PINKHAM'S LIVER PILLS. They cure constipation, biliousness, and torpidity of the liver. 25 cents per box.

KIDNEY-WORT

THE GREAT CURE

FOR

RHEUMATISM

As it is for all the painful diseases of the **KIDNEYS, LIVER AND BOWELS.**

It cleanses the system of the acrid poison that causes the dreadful suffering which only the victims of Rheumatism can realise.

THOUSANDS OF CASES of the worst forms of this terrible disease have been quickly relieved, and in short time **PERFECTLY CURED.**

PRICE, $1. LIQUID OR DRY, SOLD BY DRUGGISTS. Dry can be sent by mail. WELLS, RICHARDSON & Co., Burlington Vt.

Acts at the Same Time on Kidneys, Liver and Bowels.

KIDNEY-WORT

House and Lot for Sale.

HAVING determined to leave Belleville for the North-west, I offer for sale my family residence on Albert St.

N. B.—Furniture will be sold with the house if desired.

HY. BLEECKER.
July 13th, 1882. 54dtf

Daily Intelligencer.

The North-West

To the Editor of the Intelligencer.

DEAR SIR,—I have been requested by numerous friends and acquaintances in Ontario, to write them concerning this great North-West, in which the people of the older portion of our Dominion are so much interested at present. It being impossible for me to write them separately, I would like you to give a little space in your most valuable and widely circulated paper and I will from personal observation and experience, tell what I know about the country from Brandon to Fort Qu' Appelle.

After having travelled twice over the country since last March, once from Rapid City by the old Hudson's Bay trail or route and once from Brandon, with native ponies (or Shagnappies, as the Indians call them) and with oxen, a distance of about two hundred miles, I think I ought to know a little about the country between here and those two points.

I know that we had bad roads with any amount of mud to pass through or stick in, but we got through after vigorously using the raw hide. I am glad to say that the Canadian Pacific Railway has already put a stop to that way of travelling anywhere along the line. It is astonishing how rapidly the railway is being built. It is already about fifty miles west of Qu'Appelle to the pile of Bones River. It is amusing to observe the Indians when they see the cars for the first time. They will not come very near them at first, they are afraid of the whistle. I saw some of them down on their elbows and knees a short distance from the engine examining the wheels and machinery. They say the noise they make reminds them of a herd of Buffalo running.

But, Mr. Editor, it is the country I was to speak about—its general appearance, climate, soil and productiveness. Nearly all the way up here the country is dotted with bluffs or patches of timber, chiefly poplar, which does not grow very large. It looks like the poplar of Ontario but is far better for fuel. In some places it is very much broken with muskegs and ponds, but nevertheless the land is good and well adapted for stock raising. The wild pea and vetch grow profusely, but as you near the celebrated Qu'Appelle valley, or region, it is not so broken, it is nearly all an open, beautiful prairie, covered with rich vegetation and flowers of the most beautiful color abound, most prominent of which is the rose.

On the whole the country is quite level, some places being slightly undulating or rolling. There are not as many brooks and creeks as in Ontario; there are a few, however. The largest and best that I have seen is Pleasant Creek, which can be utilized for mill purposes. The facilities for damming are admirable, its banks being very high on either side. There has been a great deal said about the climate of this country, especially the blizzards and storms of winter. I have not been here during the winter months yet, but the people who were here last winter tell me that I saw the roughest weather they had, which was the last half of March. I have seen just as bad in Ontario. But the spring and summer months I do know something about. There is a great deal of sunshine here, there is not much rain in the spring; June is the rainy month. The weather has been as nice as anything I ever saw—it is all that can be desired. It is not so excessively hot during the day as in Ontario, and the nights are nearly all quite cool, which makes it very comfortable for sleeping. It has been said that this country was subject to summer frosts. I know there has been no frost here this summer so far—neither in June, July, nor August. I have seen frost in Ontario in all those three months.

Another thing which seems to frighten the people of the East is the floods which they read about. I can say for this country west of Brandon, that there never was and never will be any flood. It is a very small portion of country (comparatively speaking) that is subject to them. It is where the banks of the Red and Assiniboine river are low, which is not the case west of Brandon. The banks of the rivers here are 200 feet high, and it is not at all probable that the water will ever rise above them.

The soil here, which is deep, is a rich black clay loam, almost free from stones—in many places not any to be found—and it is capable of producing very heavy crops of grain and roots. I witnessed the sowing and planting of the half-breeds last spring, and also the harvesting of the same now. The grain, which is wheat, oats, peas, and barley, is excellent, and very heavy. Potatoes and other roots are beautiful. Turnips are very large already. There are no potato bugs here, nor pea bugs either. All kinds of vegetation that do not require very hot weather do exceedingly well here. When I take into consideration the manner in which those half breeds cultivate their land, I am surprised to see such good crops. They don't do as we do in Ontario—they have not the implements, and could not use them if they had. It is all a one horse way of working with them, and ponies at that.

I think hop growing would be a good business in this country, the soil and climate seem just right for it. The hop is to be found growing luxuriantly here in a wild state, any amount of hops ready to pick now, and of the best quality. The Indians (or squaws rather) gather some of them and sell them to the whites. Small fruits would do well here for they are found growing wild. I think some of the very hardy varieties of apples would grow here; also they have not been tried, however.

Wheat growing and stock raising will be the great business of this country. It will be the Russia of America for wheat, which is produced now of the finest quality. Stock ought to do well here also, for it is here that those vast herds of Buffalo that we used to read about were to be found. They are still within two days drive from here, we can yet see traces of them all over the country, their trails leading to the water and their bones scattered about. We also find monstrous horns of the Elk and Moose.

There will be business here next spring in breaking up the prairie, for every section of land is taken in this vicinity, both Government, Syndicate and Hudson's Bay. The Syndicate makes it compulsory on the part of the purchaser of their lands to plough and sow them.

This country not long since was called "The Great Lone Land," but that also is a name of the past. I don't know where you can go and not find the white man, he is pushing into the most remote parts of the country where the land is good, and it is all good as far as I have seen. As Prof. Macoun says, "there is no fertile left," for it is all fertile. I find that his reports are both correct and reliable.

Those land companies which are holding large tracts of land are not liked by the actual settler. They prefer the terms of the Government and Syndicate to them. The country will be and is being settled fast enough without them. The settlers are already in advance of the surveyors in many places. There is too much speculation here at present for the country's good, but time will cure that and people will settle down to work and business.

Now, Mr. Editor, I have already taken more space than I intended, but knowing that the columns of the INTELLIGENCER are ever open for anything that you may deem interesting or instructive to its numerous readers, I will perhaps at some future time write you again.

Hoping that you and I, as well as the whole country, will receive some benefit from the development of this great country.

I remain yours, &c.,
JAS. KNOX,

North-West Territory,
Qu'Appelle, Aug. 29th, 1882.

A New Explosive.

The new blasting material termed "amidogene" is likely to be extensively employed for blasting in tunnels. This substitute for blasting powder, says London *Iron*, was invented a short time ago by Messrs Gemperli, Vicaise, and Wurmb, of Hergiswyl, Canton of Unterwalden. Experts of the Federal Polytechnicum have tested it, and are stated to have found it entirely free from danger. It appears from their report that this explosive can be ignited only by exposure to an electric spark or the naked flame, or by heating up to 180 degrees C. But amidogeine, even if ignited, will not not exert its explosive effect unless firmly inclosed. The manufactory at Hergiswyl was burnt down two years ago, and although about 2,000 lbs. of finished amidogeine were stored in it no accident took place, and even the private residence, which was only twelve feet from the factory, was preserved. Owing to these properties, Swiss railroads have admitted it under certain conditions for transport. The explosive effect of amidogeine is stated to be midway between that of ordinary powder and that of dynamite.

At the Arlington, No. 127 Kearney Street, San Francisco, Cal., resides Mr. Hoover, the renowned counterfeit detector and teacher, who says: "for more than twelve years I suffered with sciatic rheumatism of the very worst type, and at times the pains were almost unendurable. I spent a fortune and exhausted medical skill in that time. I heard about St. Jacobs Oil, but was faithless, as I thought my ailment was ineradicable. I made one very thorough application and so pronounced was the relief that I continued its use. Before I had used up the first bottle I was well.

BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, Blotches, pimples and the various humors and blemishes of the skin are only symptomatic of bad blood—that needs purifying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidneys, skin, etc, and strengthening while it regulates and purifies.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle. 264y

The market is full of preparations for the hair, some of them good, and many of them good for nothing. R. P. Hall & Co., of Nashua, N. H., manufacture and sell an article of real merit, which has been advertised in the *Express* for the past year, and we have taken no little pains to inquire how it has been liked by the public. One of our druggists informs us that he has sold more than double the amount of Renewer than of all other hair preparations combined, and when a person once uses it, he will use no other: that it is not only bought by the young people as a dressing, but by older persons for removing dandruff, preserving and increasing the growth of the hair and restoring its natural color. Another druggist says that he sells three or four times as much of Hall's, as of all others.—*Hampshire Express, Amherst, Mass.*

Samson lost his strength with his hair. Thousands of men and women lose their beauty with theirs, and very large numbers restore the ravages of time by using the famous Cingalese Hair Restorer. Sold at 50 cents per bottle by all Druggists.

Take no more nauseous purgatives. Burdock Blood Bitters act mildly, pleasantly and thoroughly upon the Bowels, and occasion no inconvenience, while it regulates the Liver and Kidneys and tones the enfeebled system. Trial bottles 10 cents.

Rest and Comfort to the Suffering

"Brown's Household Panacea" has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful," "Brown's Household Panacea," being acknowledged as great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle. 264ly

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrah, Bronchitis, Asthma and Lung Disease by Dr. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the seat of disease. Read and judge for yourself:—

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. JOHN P. WHELAN, Manager of POST and TRUE WITNESS, Montreal. Mr. C. HILL, Montreal, catarrh and bronchitis. Mr. DEBOUCHERVILLE, of the Indian Department, Ottawa, catarrh of many years; now cured. Mr. GEO. AGER Ottawa, catarrh and lung disease; cured. Mrs. SMITH, London, wife of Medical Detective, cured of catarrh. GEO. MAGUIRE, Toronto, 482 Adelaide street West; daughter cured of asthma. GEORGE WILLIS, Exeter, Ont., catarrh and bronchitis. J. D. ARMSTRONG, 186 Yonge street, Toronto, catarrh and catarrhal deafness. THOMAS TELFER, 12 Melinda street, Toronto, asthma; cured. Mr. BENJ. A. DRAKE, St Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. BENOIT, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma and bronchitis for over eight years, and who is now perfectly cured.

Mrs. ADAMSON, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitating in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis. JOHN C. FLEMING, Editor of POST and TRUE WITNESS, Montreal.

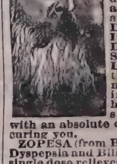
The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write, inclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souvielle and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

The most wonderful curative remedies of the present day, are those that come from Germany, or at least originate there. The most recent preparation placed upon the market is this country, is the GREAT GERMAN INVIGORATOR, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangements of the nervous system. For sale by druggists, or sent free by mail on receipt of the price, $1.00 per box, or six boxes for $5.00. Address James Clark & Co., Sole agent for Belleville. Send for circular.

Rheumatism is greatly dependent on a vitiated condition of the fluids, and may be eliminated from the system by cleansing the Blood and regulating the Kidneys. Burdock Blood Bitters will do this most effectually. Trial bottles 10 cents.

RACKED BY INNUMERABLE PANGS, restless by day, sleepless at night, rising unrefreshed in the morning, without appetite and pestered by varying and perplexing symptoms, the dyspeptic takes indeed a gloomy view of human existence. For him the zest of life seems gone. Heartburn, oppression at the pit of the stomach, and the attendent annoyances of of constipation and billiousness, combine to render him utterly wretched. But there is, if he will but take advantage of it, a reliable source of reliable relief from all misery. NORTHROP & LYMAN'S VEGETABLE DISCOVERY and DYSPEPTIC CURE is, as its name imports, a botanic preparation, free from mineral poison, and an all-sufficient remedy for indigestion in its most obstinate form. It not only enriches the blood by enabling the digestive organs to convert the food received into nutriment, but depurates it by increasing the action of the bowels and kidneys, the natural outlets for its impurities. But while it relaxes the bowels, it never does so violently and with pain, like a drastic cathartic. It aids, but never forces, Nature, invigorating as well as purifying and regulating the system. It thoroughly removes those diseased humors which tend to vitiate the blood, purifies the urinary secretion, and promotes a flow of healthy bile into the natural channel, besides expelling it from the circulation. Experience has proved that this standard medicine is a thorough remedy for dyspepsia, billousness, costiveness, kidney complaints, scrofula, erysipelas, salt rheum, lumbago and all impurities of the blood. Price $1.00. Sample Bottle 10 cents. Ask for NORTHROP & LYMAN'S Vegetable Discovery and Dyspeptic Cure. The wrapper bears a *fac-simile* of their signature. Sold by all medicine dealers



WILL YOU EXCHANGE a case of Dyspepsia or Billiousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Billiousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys.

Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Billousness.

BUTLER'S

Celebrated

BLACKBERRY CORDIAL.

The most effectual remedy yet discovered for Cholera, Cholera Morbus, Diarrhœa, Dysentery, Cramps, Colic, looseness of the Bowels &c.

This justly celebrated preparation is highly recommended by the medical men, and has been used with the greatest success for the last ten years throughout the United States.

BELLEVILLE, WEDNESDAY, SEPT. 13.

Victory in Egypt.

After a protracted, but necessary, delay General Wolseley has struck his first blow at the enemy, and a stunning one it has proved to be. As we gather from the meagre information at hand as we write, the British at an early hour this morning attacked Arabi's strong position at Tel-el-Kebir, directly in front of their lines at Kassassin, and carried it with a loss of 200, whilst the loss of the enemy is placed at ten times that number. The Egyptian army is reported to be completely demoralised and fleeing to the desert. The victory is a glorious one, the enemy's overwhelming strength in numbers and position considered; but it is no more than was expected from the matchless British troops. An early conclusion of hostilities is quite probable, as Arabi staked his all on this battle.

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists.

Midland Railway Crop Reports.

The Midland Railway Company have published a series of crop reports, gathered by the station agents in the country traversed by their lines. These reports are on the whole highly favorable, except as to Haliburton, where cereals generally are stated to be poor and potatoes good. Those of the reports which are of special local interest are herewith reproduced:

BELLEVILLE.

Fall wheat, 20 bushels per acre. Spring wheat, 20 bushels. Barley, 30 bushels. Rye, 22 bushels. Oats, 50 bushels. Barley generally secured in good condition. Roots above an average.

NORTH HASTINGS.

Fall wheat, 23 bushels per acre. Spring wheat, 20 bushels. Rye, 15 bushels. Barley, 25 bushels. Oats, 20 bush. Hay, 1½ tons per acre. Clover a total failure. Fruit poor. Roots, good average crop.

MADOC.

Fall wheat, 25 bushels per acre. Spring wheat, 20 bushels. Barley, 28 bushels. Hay light. Roots good.

STIRLING.

Barley, 40 bushels per acre. Rye, 2[illegible] bushels. Fall wheat, 30 bushels. Spring wheat, 20 bushels. Peas, 15 bushels. Oats, 50 bushels. Buckwheat, 20 bushels. Barley rather light in weight, but very bright. Hay and clover, poor crop. Roots and fruit, short crop.

HOARD'S.

Fall wheat, 20 bushels per acre. Spring wheat, 15 bushels. Barley, 25 bushels. Rye, 15 bushels. Oats, 30 bushels. Hay, 1 ton per acre. Clover killed. Root and fruit crops somewhat poor.

CAMPBELLFORD.

Fall wheat, 18 to 20 bushels per acre. Spring wheat 17 bushels. Barley very bright and plump, large acreages, 30 bushels. Rye, 20 bushels. Oats, 50 bushels. Timothy hay, fair crop. Clover, failure. Roots, prospects good.

HASTINGS.

Fall wheat, 20 bushels per acre. Spring wheat, 15 bushels. Barley, 25 bushels, somewhat light in weight but bright in color. Peas, about half a crop. Hay, 1½ tons per acre. Prospects for roots unfavorable.

Don't die in the House.

"Rough on Rats." Clears out rats, mice, roaches bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

Editorial Brevities.

The *Globe* maintains a discreet silence as to the coal invoices. Surely it has had time to learn the price of coal at Cleveland on June 30th, August 9th, and September 15th, 1881.

Frederick Vanderbilt and Walter Webb, son and son-in-law of W. H. Vanderbilt, pleaded guilty at Canton, St. Lawrence county, N. Y., to an indictment charging them with killing deer out of season. They each paid $50 fine.

General Luard has published in the *Mail* a letter defending himself against the attacks which have been made upon him in connection with the recent unpleasantness at Ottawa. He says:

> Colonel Laurie made two inspections of the teams which contested for the Military Matches of that day, the one before the shooting took place, the other afterwards—the latter for the purpose of making sure that the teams carried during the shooting at the targets the amount of kit required by the regulations for the match. It was at this second inspection after the shooting had been done, that Captain Scott found himself deficient of one of the articles he should have carried, and by sending Major Mudge to get it for production at the kit inspection, did that which he ought not to have done. It was the same sort of act as it would be for a jockey, after a race, to receive from some one else something to make up his proper weight, when going to the scales, he knowing that he had ridden the race under weight.

Whilst the General's motives are no doubt honorable, his manner seems to be highly offensive.

The London *Canadian* is doing good service on behalf of England in Canada. May its shadow never grow less and may its influence increase. To reach the emigrating classes it is necessary to have in England a reliable Canadian organ, which will be quoted by the provincial press, as the London dailies do not reach the class who emigrate. This requirement the *Canadian* is meeting very satisfactorily.

O. Bortle, of Manchester, Ontario Co., N.Y. writes:—"I obtained immediate relief from the use of *Dr. Thomas' Eclectric Oil*. I have had Asthma for eleven years. Have been obliged to sit up all night for ten or twelve nights in succession. I can now sleep soundly all night on a feather bed, which I had not been able to do previous to using the Oil.

COUGHS AND COLDS.—If taken in time are easily cured,—if allowed to continue will result in incurable consumption. Allen's Lung Balsam has the confidence and support of the medical faculty, and is recommended by all who are acquainted with its virtues.

Dropsy is essentially a watery condition of the Blood, dependent upon disordered Kidneys. Burdock Blood Bitters are strongly Diuretic and consequently the best known remedy, acting as it does upon the entire Secretory System.

BAXTER'S MANDRAKE BITTERS never fail to cure Costiveness and regulate the Bowels.

Dr. E. C. West's Nerve and Brain Treatment is a never failing cure for Nervous Neuralgia, Nervous Headache, Overworked Brain, &c. Sold at James Clarke & Co's.

Make Home Attractive.

REPLENISH YOUR LIBRARIES.

BOOKS FOR THE MILLION.

The deservedly popular *World Publishing Company* of Guelph, are showing a high class of books which for design, material and excellent subject matter, surpass anything ever shown in Canada. These works are now being introduced by the agents of the Company, Mr Geo. M. Yerex being general agent for Central Ontario. We will but briefly refer to two or three of them, and append a few of the many testimonials Mr Yerex has received.

Probably no work has ever made its *debut* in Canada that has met with such a hearty welcome as the "Treasury of Song."

From Rev. J. H. Vincent, D. D., Secretary M. E. S. S. Union Superintendent of Instruction of the famous Chautauqua Assembly, etc., etc.:

"I have examined this sumptuous volume with great delight. Typographically, the book is superb, an ornament to the centre-table, and one of the most perfect books I have seen for a holiday or birthday gift. I shall order three copies as prizes for the Competitive Normal Examinations of Chautauqua, 1882."

We add the opinion of the greatest Basso of the world, Myron W. Whitney, who was chosen above all others to sing the Bass Solo at the opening of the Centennial Exposition, in 1876, the audience there being over 100,000 persons. He says:—

"I am happy to express to you my cordial endorsement of Treasury of Song, as a most desirable book for the home circle, and the excellence of its selections as deserving of great praise. I have but one fault to find with the work. If generally introduced in musical homes, you will deprive vocalists of their *best excuse* for not singing on invitation, since the assertion, 'I have no music with me,' will have no force in the presence of Treasury of Song. With sincere congratulations on the musical success of your work, and kindest wishes for the financial success which it so well deserves"

I remain, very sincerely yours,
M. W. WHITNEY.

The "Royal Path of Life" is a "grand good book" and worthy of all praise.

Bound in an elegant and substantial manner, embellished with numerous steel plate engravings, written in the choicest of language and replete with valuable instruction to all classes and conditions of men, it is a most desirable volume for the home.

Rev. J. R. Jaques, D. D., Ph. D., President of Albert College and University, Belleville, says:—

"'The Royal Path of Life' sparkles with gems of the first water. Every page attracts the eye and stretches the mind. No one can well over-estimate the value of such a book in the home."

Rev. John Gray, pastor of St. Andrew's Church, Windsor, says:—

"A further reading of the 'Royal Path of Life' has more than confirmed my opinion previously expressed. It is a royal book on a royal subject. It is brilliant and profound. If it is compiled from the best authors, ancient and modern, the material is used with wondrous skill. All the precious stones from many mines are wrought into the symmetry of a palace that astonishes us by its richness and vastness. Open the book anywhere, and any thoughtful mind will be spell-bound. The 'Royal Path of Life' ought to be on the table in company with the Bible and Pilgrim's Progress. The mind that cannot be stirred with noble aspirations by reading such a book is to be pitied. I hope our Canadian people will so patronize this book, that the publishers will be compelled to run their presses day and night for months to come.—This is one of the best things I could wish for 'this Canada of ours.'"

Their "Family Bibles" are undoubtedly the finest on the continent. They challenge the world to produce their equal for the prices. They contain over two hundred extra features, including the authorised and revised versions of the New Testament *in parallel columns*, two thousand five hundred illustrations, complete Concordance, beautiful marriage certificate, splendid presentation plate, Bible Dictionary, &c., &c.

Extra inducements will be made to Ministers, teachers and students.

Mr. Yerex is desirous of engaging live men for canvassing, to whom he offers very liberal terms.

Orders sent by mail for any of their publications, including besides those mentioned, Prof. Macoun's great work on "Manitoba and the Northwest," Dr. Manning's celebrated "Stock Encyclopædia," "Catholic Bibles," &c., &c., will receive prompt attention. Correspondence solicited. Address George M. Yerex, Belleville, or Geo. S. Wilson, Peterborough. Mr. Yerex will be found at his office, over Post Office, every Saturday.

Catarrh of the Bladder.

STINGING irritation, inflammation, all Kidney and Urinary Complaints, cured by "Buchupaiba." $1.

News Condensed.

—Mrs. Grant, mother of Dr. Grant, ex-M. P., died at Ottawa on the 12th, aged 77 years.

—The recent announcement of the death of Mr. Lanthier, M. P. for Soulanges, proves to be a *canard*.

—The race for the St. Leger stakes at Doncaster to-day was won by Lord Falmouth's Dutch Oven; Geheimaniss second, and Shotover third.

—The first class yachts yesterday made a second attempt to finish the R. C. Y. C. race, unfinished on Friday, but another failure resulted, the wind being too light.

—The lowest tenderers for the Trent navigation works have been offered the contracts. Mr. A. P. Macdonald is the lowest for the Fenelon works, and Mr. George Goodwin for the work at Buckhorn and Burleigh.

—Track laying on the main line of the Canadian Pacific Railroad west has reached the station twelve miles west of Moose Jaw Creek, 50 miles west of Regina, and about four hundred and twenty-five miles west of Winnipeg.

If Nearly Dead

after taking some highly puffed up stuff, with loud testimonials, turn to Hop Bitters and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes, or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides, it is the best family medicine on earth.

One dose of BAXTER'S MANDRAKE BITTERS will relieve Sick Headache. One bottle effects a cure. Price 25c. per bottle.

A New Principle.

The principle upon which PUTNAM' PAINLESS CORN EXTRACTOR acts is entirely new. It does not sink deep into the flesh, thereby producing soreness, but acts directly upon the external covering of the corn, separates it from the under layer, removes the direct pressure from the part, and at once effects a radical cure, without any pain or discomfort. Let those who are suffering from corns, yet skeptical of treatment, try it, and by the completeness of the cure they will be ready to recommend Putnam's Painless Corn Extractor to others. Sold by W. R. Carmichael

PROCLAIM it far and wide that DR. VAN BUREN'S KIDNEY CURE not only immediately relieves all Kidney diseases, but what is more important to the unfortunate sufferer, will ultimately cure him effectually.

Board of Education.

A regular meeting of the School Board was held last evening. Those present were Messrs. Wills (Chairman) Holden, Moore, Diamond, Maxon, Walker, Richards, Wensley, Tennant, Northcott, and Rev. M. W. Maclean.

The minutes of the last three meetings were read and approved.

PETITIONS, &C.

The following were read:—

From the Secretary of the Weston Board of Education, asking the co-operation of the Board in petititioning the Government in favor of the amendment of the law in respect to High Schools.

From Walker & Co., stating that they had garnisheed Mr. Thos. Fuller for that portion of the salary of Prof. Dawson paid to him.

REPORTS.

The Committee on School Management reported at some length and made the following recommendations:—

(1) That the two Fourth Book divisions of the Central School be divided into three divisions; (2) that the senior divisions of the Canifton Road and Station Road Schools be amalgamated; and (3) that the teacher of the Fourth Book in either of the schools mentioned be transferred to the Central School, to teach the new Fourth class there.

The Finance Committee reported, recommending the payment of a number of accounts.

Mr. Johnston, Inspector, presented his report of the recent promotion examinations, which has already been published.

The Board went into Committee of the whole on reports, Mr. Moore in the chair.

Rev. Mr. Burke came in.

The Finance Committee's report was passed.

The report of the Committee on School Management was considered.

With reference to the first recommendation it was explained that there were about 160 pupils in the two 4th Book divisions in the Central School, which was far too great a number.

The recommendation was passed.

The second recommendation being considered, Mr. Holden explained that the object was to take the teacher from the senior division of either the Station Road or Canifton Road School and give him charge of the new division in the Central School.

Rev. Mr. Burke thought this action rather hasty. The course proposed required serious consideration, as the change was a very radical one. He counselled delay in order to ascertain the feeling of the parents who sent their children to the Canifton Road and Station Road Schools.

Mr. Holden admitted that the course recommended would probably have the effect of closing either one or the other of the schools. But this would not be done until it was discovered that it was not necessary to support both. However, it would be absolutely necessary to provide another fourth class teacher for the Central School.

Mr. Diamond said that the Chairmen of both the Station Road and Canifton Road School Committees had expressed their willingness to agree to the course proposed, on condition that a new school, to take the place of both the existing schools, be erected somewhere near the corner of the Canifton and Station Roads.

Mr. Wills dwelt on the necessity of securing another teacher for the Central School. He did not think it would be advisable to go to the expense of engaging the services of a new teacher, when, by an arrangement such as the one proposed, the vacancy could be so easily supplied.

Mr. Wensley said that the attendance in neither of the senior divisions of the two schools in question was much more than 30.

Rev. Mr. Maclean spoke in favor of the adoption of the second recommendation, and moved to that effect. The clause was then passed.

Mr. Northcott moved, seconded by Mr. Richards, that Mr. Dafoe, Head Master of the Station Road School, be appointed teacher of the Fourth Book in the Central School, and that his salary be increased $50.

Mr. Walker asked whether it was in the power of the Board to grant an increase in salary without reference to the Finance Committee.

Mr. Wills pointed out that the recommendation of an increase in a teacher's salary should properly come from the School Management Committee. He objected to have motions for increase in salaries sprung upon the Board suddenly in this way.

Mr. Diamond said that Mr. Dafoe, who was an efficient teacher, holding a first class certificate, and also a man with a family, was only in receipt of $550 a year. He should receive some compensation for being changed from a Head Master to an assistant teacher.

Mr. Holden favored the slight increase proposed, chiefly on the ground that Mr. Dafoe was asked to take a subordinate position after he had occupied the position of Head Master.

The Committee rose for the purpose of suspending the rules.

The rules were suspended and the Committee resumed

Mr. Northcott moved his resolution.

Mr. Walker moved, seconded by Mr. Tennant, that Mr. Dafoe be appointed teacher in the Central School, without any increase of salary. Mr. Walker thought it rather absurd to grant Mr. Dafoe an increase of salary when he was getting rid of much responsibility and his work would be lighter. A rector engaging a curate would hardly grant him a larger salary than his own income amounted to; or, if a foreman in a workshop were made a journeyman again, his salary would hardly be increased.

The amendment was lost.

Mr. Northcott's motion was then carried.

Committee rose and reported

Mr. Walker moved that the report be referred back to the Committee for the purpose of amending Mr Northcott's motion by striking out that portion respecting the increase of salary to Mr. Dafoe.—Lost.

The yeas and nays were called for and were taken with the following result:—

YEAS.—Walker, Tennant—2

NAYS.—Burke, Diamond, Moore, Maxon, Maclean, Northcott, Richards, VanAllan, Wensley—10.

A communication was read from Dr. Wright, Head Master of the High School, respecting the condition of the High School; also enclosing a communication from the Meteorological Department, to the effect that the meteorological station recently established here had been removed to Ottawa, on account of the unsatisfactory way in which reports had been submitted by the late Head Master of the High School, who had charge of the station

Rev. Mr. Burke moved, seconded by Rev. Mr. Maclean, that the Secretary of the Board be instructed to communicate with the proper authorities with a view to secure the re-establishment of the meteorological station in Belleville.—Carried.

Mr. Holden brought up the subject of changes in text-books, which was becoming something of a nuisance. It was a burden on parents who had several children attending school. So prevalent were these changes, that it would almost be economical to buy books wholesale. He could speak from experience. Parents usually cherished a hope that the same book which was used by one child would also do for the next child coming up; but by the time the second child was prepared to use it, the book was no use, the text book having been changed. He knew one lady who could not send her children to school solely on account of her inability to purchase text-books for them. The teachers had no power to change text-books without the consent of the Board. The Board, he thought, should decide arbitrarily on the authorized text-books to be used in the schools.

The Chairman said that in some subjects the Department prescribed the text-books, and its instructions had to be obeyed. There was little doubt that one secret of the oft-repeated changes was that certain parties who were interested in the publication of the books, in Toronto, exercised considerable influence.

Rev. Mr. Maclean moved, seconded by Rev. Mr. Burke, that a committee of five be appointed for the purpose of taking such steps as will secure a uniformity of text-books used in the Public Schools, and also to decide what optional subjects should be taught in the High School.—Carried.

The Chairman appointed as the Committee Rev Mr. Maclean, Rev. Mr. Burke, Mr. Holden, Mr. Diamond, and Mr. Walker.

Mr. Northcott moved that the Chairman of the Board be empowered to purchase lots 5, 6 and part of 9 in accordance with the annual report of the Building Committee. (The Committee had recommended that the lots in question be purchased as a site for the erection of a new school in Bleecker Ward, at a price not exceeding $1,000.)

Mr. Walker moved in amendment that it is inexpedient at present to purchase the lots.

After some discussion the amendment was lost and the original motion was carried.

The Board then adjourned.

$500 REWARD.

WHEREAS good reason exists for believing that the several fires that occurred on the morning of the seventh September instant, on the premises occupied by Lake & Jenkins, Livery Stable keepers, on the corner of Bridge and Pinnacle Streets, and of Dr. Curlett, on Hotel Street, in the City of Belleville, were the work of incendiaries, and

Whereas by the amended Municipal Act of 1879, chapter 31, section 31, authority is given to any Municipality in which a flagrant crime is believed to have been committed, to offer and pay a reward for the discovery, apprehension or conviction of the criminal, or of any person who is suspected to be the criminal,

And whereas the Council of the Municipality of the City of Belleville have determined to offer a reward for the apprehension and conviction of the perpetrator or perpetrators of the above crime,

Therefore be it known, that a reward of $500 will be paid by the Municipality of the City of Belleville to any person or persons who will give such information as will lead to the apprehension and conviction of the person or persons guilty of the above mentioned offence

Dated at Belleville, this 12th day of September, 1882.

BELLEVILLE, WEDNESDAY, SEPT. 13

City and Vicinity

No. 1 express was over an hour late to-day.

THREE drunks were in the cells last night.

THE young men of Brantford are organizing a canoe club. The young men of Belleville, however, have schooner clubs.

MR. JOHN SNELL bought on Tuesday from George Anderson, of Ameliasburg, three fine Berkshire hogs, that turned the scales at 1100 lbs.

THE Hastings Rifle Association did not transact any business last evening, because there were not a sufficient number of members present to form a quorum.

REV. DR. CLARKE left for New York to-day for a two or three week's visit, in order to recuperate his health. The reverend gentleman contemplates a trip to Europe.

STEPS were taken at the Board of Education last evening to secure the re-establishment in Belleville of the meteorological station which was removed to Ottawa recently.

MR. JAS. HAMILTON, who was seized with a paralytic stroke yesterday afternoon, is somewhat better to-day, and Dr. Willson does not apprehend any serious results from this attack.

MR. AND MRS. THOS. PLUMMER left this morning for Portage la Prairie, Man., where Mr. P. will take charge of the new agency of the Montreal Bank which has been opened in that place.

OPEN AIR services to morrow evening at 7:15 (D.V.) in the vicinity of the new City Mission School room, corner of Church and Dundas Streets. These services have been successful, and well attended.

THOS. COLEMAN has been reinstated in the position of Chief Constable of Trenton. They found that they could not get on without burly Tom. R. Cronk, who has been officiating in the capacity of Chief, has resigned.

THE Deaf and Dumb Institute will re-open to-morrow. The pupils from the east will arrive this evening by No. 2 express, and those from the west by the midnight express. There will probably be no change in the personnel of the teaching staff

MR. RIGGS has been re-engaged as leader and instructor of the Oddfellows' Band for another year. The Band is to be congratulated on having secured the services of a gentleman under whose instruction it has made such rapid and satisfactory progress.

PETER, Henry, and Jas. Story, and Abraham Ostrom, four men from Trenton, were brought to the city this morning by Chief Coleman, charged with assaulting a night watchman named Conklin. The hearing of their case was adjourned till this afternoon.

PARENTS who are rich in children but poor in other wordly goods will be glad to learn that steps have been taken by the Board of Education to prevent unnecessary changes being made by teachers in the text books which are used in the schools. These constant changes have long been a source of complaint on the part of the parents who have found the constant drain on their shallow purses almost unbearable.

A MAN named O'Neil brought a charge of non-payment of wages against S. S. Lazier at the Police Court this morning. The case was dismissed, it having been proved that O'Neil had been paid in full. Michael Conway, a drunken vagrant, was discharged. John Ganey, charged with drunkenness, was fined $2.00 and costs. The same man was charged with assaulting Officer Newton by kicking and attempting to bite and throw him, while that officer was bringing him to the police station. The Magistrate deferred judgment in his case. John Shea again appeared on a charge of drunkenness. He was fined $10 and costs or, in default of payment, two months in gaol. A case of abusive language was laid over.

WEATHER PROBABILITIES—Toronto, Sep 13.—Lakes, moderate to fresh easterly to southerly winds, fair weather, with a few local showers, higher temperature.

WE are informed that the dog which bit the little child of Mr. Soby on Sunday, has been shot by its owner, Dr. A. Goldsmith, of Kalamazoo, formerly of this city. We are requested to state that the account of the affair which appeared in our local contemporary was greatly exaggerated. The dog was taken off the child immediately after it had bitten him, and the leg is not so badly bitten as was reported. There will be no necessity to have the leg amputated, for the wound is now doing well.

AT the meeting of the School Board last evening it was decided to divide the two senior divisions of the Central School into three, and to provide a teacher for the third division by discontinuing the senior division of the Station Road school and appointing Mr. Dafoe, the Head Master of that school, as assistant teacher in the Central School, at a slightly increased salary. It was also decided to take steps towards the erection of a new school house somewhere near the crossing of the Canifton and Station roads, to take the place of the Canifton Road and Station Road schools. These are arrangements which have for some time been under consideration, and it is probable that the results will prove their wisdom.

THERE was a great rush to Toronto by yesterday evening's trains, the attraction being the meeting of the Conservative Convention, which is to assemble there to-day. First to arrive was a special of thirteen cars, on which was Sir Leonard Tilley, who was warmly greeted by many old and a number of new-made friends as well. This train was divided here, and on the latter half of it Sir. Leonard and the Belleville delegation—a very strong one, both numerically and intellectually—took their departure. On the express, which followed a few minutes later, were Sir. John A. Macdonald, Hon. Mr. Bowell and other prominent gentlemen on their way to the convention. Sir John's presence was known to but a few, but those he greeted with his usual cordiality. The express was 45 minutes late.

LECTURE TO DEAF MUTES.—Professor Coleman, of the Deaf and Dumb Institute, Belleville, lectured before the Deaf Mute Association of Toronto, in Shaftesbury Hall, Toronto, a few nights ago. The teachers of the Belleville institute went west yesterday to collect their pupils for the forthcoming term.

THURLOW CIRCUIT.—A Sunday School picnic, under the auspices of the Methodist Church, in the 3rd Concession of Thurlow, took place on the 6th inst., at the beautiful grove on the bay shore some distance west of Shannonville. The Sunday School is under the able Superintendency of Mr. Samuel McTaggart, who was untiring in his efforts to make the picnic a success, and his expectations were more than realized in the very large attendance. Several day schools were largely represented, together with Sunday Schools from the vicinity of Shannonville. After the dinner had been served in real picnic style, in response to the call of Mr. McTaggart the larger company congregated around a picnic waggon to listen to short and practical addresses by several gentlemen, lay and clerical, prominently, Rev. J. C. Ash and Mr. Johnston, Inspector of Public Schools for South Hastings. Everybody was delighted with the entire proceedings of the day.

HERRMANN.—This greatest of living magicians will appear in the Metropolitan Hall this (Wednesday) evening. Of his wonderful performance an exchange says: "Herrmann more than ever mystified his guests at the Opera House last evening. He always has some new feature in his programme, but even the tricks he repeats seem fresh. Although you may have seen him perform a feat before and know what he is going to do—or is going to have done by some occult means—you are more puzzled than when you first saw it. It is not at all strange that so many firmly believe he has some awful contract with the devil by the terms of which the party of the second part assists the party of the first part and gives him supernatural power. How else, they say, is it possible, for anybody in full view of a house full of people, standing on a platform in the middle of the orchestra chairs, dressed in a simple dress suit, with his sleeves rolled up, to perform the most astonishing and apparently impossible feats (even to the decapitation of a man) without the aid of machinery?"

Below we give a few extracts from our best dramatic authorities relative to Elliot Barnes' American drama, "Only a Farmer's Daughter." It has the highest indorsements from all the important cities, but in our limited space we give only such as are best known here. Seldom, if ever, has a play received such universal praise:

The Toronto *Mail* says: "Only a Farmer's Daughter is rich in plot, dialogue and construction, and in every respect is one of the finest dramas on the stage."

The Toronto *Globe* says: "A fine play, well performed—appropriate language and expressed with elegance and force."

Brantford *Courier* says: "'Tis a beautiful and thoroughly interesting production."

Hamilton *Spectator* says: "The performance was very fine and the drama of absorbing interest. It is pure—strong—good."

The above were the only Canadian cities in which the piece was played last season.

The Buffalo *Courier* says: "The drama is an exceedingly strong one—the frequent and hearty applause and the enthusiastic recalls testified unmistakably to the success of both the play and its representation."

The Detroit *Free Press* says: "It was a brilliant success. The exciting situations evoked the stormiest applause."

The New York *Herald* says: "Elliot Barnes has written a play that will live."

The Philadelphia *Ledger* says: "One of the best of all the American plays."

New York *Mirror* says: "It well deserves its great success."

Baltimore *Sun* says: "It scored an instantaneous success."

The Pittsburg *Leader* says: "No passion or sympathy possible to the human soul that was not awakened by some noble passage or touching incident. Never was an audience better satisfied"

"The term *hydra* may be used to represent any manifold evil. If you would battle successfully with this many-headed monster of disease you will find it expedient to keep Mrs. Pinkham's Vegetable Compound always at hand.—*Dr. Banning*.

A SIMPLE herb found on the sunny plains of a Southern clime has, under the skilful manipulation of DR. VAN BUREN, proved one of the greatest blessings ever sent to suffering humanity. DR. VAN BUREN'S KIDNEY CURE is acknowledged all the world over as the only perfect remedy for Kidney troubles. Your druggist has it.

The Cobourg Camp.

INSPECTION DAYS—CREDITABLE REVIEW—GRAND STREET PROCESSION.

(From our own Correspondent.)

COBOURG, Sept. 12.

As Monday was the day announced for the inspection of camp at this place, every means in the officers' power was taken advantage of on Saturday to place the men of their respective regiments in an efficient condition.

It was wondered at by many that the inspection should take place so soon after going into camp, hardly giving the officers in charge a fair chance to prepare the men, there being so many in camp who have never before been on parade. But the arrangement could not be changed and the men, upon hearing on Friday last the early date of inspection, set to work to "show their best." Saturday was spent in heavy training, particular pains being taken in Battalion movements, and marching past in columns.

On Sunday the men assembled at 10 a.m. and were marched to their different places of worship, the bands playing appropriate music.

On Monday the whole camp was aroused at an early hour and had guns, belts, caps, boots &c., cleaned up for parade. At 10 a.m. the whole force were out and engaged in a sham fight. The movements were in every way satisfactory to Gen. Luard, who at the close addressed the camp in fitting terms. Owing to the absence of the Minister of Militia on Monday, Tuesday was set for another general inspection. Sham fighting movements were gone through with, but little if any shooting by the infantry. The inspectors spoke in very complimentary terms of the movements gone through, saying that they had exceeded their sanguine expectations. There being so great a number of new men they were puzzled to understand how the officers had brought them in so short a time to understand the drill. Several bands received very flattering compliments from the inspectors as regards music furnished, one of which was the Trenton band of the 49th Batt. At the conclusion of the inspection a heavy round was fired by the artillery.

At 2 p. m. the brigade was again called out for parade through the street. About 3 p. m. the appearance of a small detachment of cavalry announced the coming of the brigade, and a general rush was made on all hands for King St., where the line of march lay. The march was well conducted, most of the regiments moving past in excellent style. We would mention that the 57th and 49th battalions were generally spoken of as marching past in the best order. The line of march was as follows:

Detachment Cavalry
Inspectors on horse back
Cobourg Band
40th Battalion
U. C. F. Co. Band
45th Battalion
Trenton Band
49th Battalion
Peterboro' Band
57th Battalion
Kingston Battery
Horses and Men Riding Guns
Durham Battery
Horses and Men Mounted
Bath Cavalry
Picton Cavalry

The men will return to camp and break up on Saturday or perhaps on Friday.

Cheese.

It seemed to be an accepted fact that cheese was to bring a better price to-day, although the only reason why it should do so was because the make was that of August. The sales of to day take the second week of August in some cases, and the third week in other cases. Cows have lately been turned into the aftermath, and are temporarily doing a little better than they were ten days ago. Most of the factories, however, are one-third off from the flush, and occasionally there is one which is off fully one-half. So far as quality is concerned, it is claimed to be all that could be desired

Transactions for the day include 81 boxes at 10⅞c., 209 at 10¾c., 60 lots, 5,379 at 11c., 2 lots, 154 boxes, at 11⅛c., and 1,009 boxes in 7 lots at private terms. Half of the last were small cheese for home trade Sales 6,327 boxes; commissions 1,502 boxes; total 8,327 Ruling price 11c. One year ago transactions were 6,861 boxes, the leading price being 12⅛c, and about half the sales going at that In 1880 prices were 12c. to 12½c., and in 1879 they were 7½c. to 8½c.—*Utica Herald*

LITTLE FALLS, Sept. 11

The market to-day was not as satisfactory. It was quite unsteady and factorymen were quite "at sea" in determining what prices they should take. All sorts of wild rumors were afloat as to prices paid, it may be stated with a good deal of force that as high as 11⅝c and 12c had been paid in several cases. But after a thorough canvass among buyers and sellers and being shown proof of the falsity of some of the rumors, we feel confident that no cheese sold here to-day at over 11⅛c.

⁂"Do boldly what you do at all." Boldly do we affirm that Kidney-Wort is *the* great remedy for liver, bowels and Kidney diseases, rheumatism and piles vanish before it. The tonic effect of Kidney-Wort is produced by its cleansing and purifying action on the blood. Where there is a gravelly deposit in the urine, or milky, ropy urine from disordered kidneys, it always cures.

Excellent reasons exist why *Dr. Thomas Eclectric Oil* should be used by persons troubled with affections of the throat or lungs, sores upon the skin, rheumatic pains, corns, bunions, or external injuries. The reasons are, that it is speedy, pure and unobjectionable, whether taken internally or applied outwardly.

Nervous debility is a result of indiscretion in the mode of living. Heed nature's unerring laws and take Burdock Blood Bitters, the Great System Renovator and Blood, Liver and Kidney regulator and tonic. Sample bottles 10 cents.

For 30 Years

The dark-eyed and lovely daughters of Spanish America have used MURRAY & LANMAN'S FLORIDA WATER as their only cosmetic and toilet perfume. It is the most fragrant, as well as the most lasting of all Floral Waters, and possesses refreshing and invigorating properties not contained in any other preparation of the kind.

Professor Bowlin's Great Golden Seal Discovery.

The greatest and latest discovery of the nineteenth century. A sure and permanent cure for Fits, Hysterics, Dizziness, and all nervous complaints. When ordering a bottle send full description of disease, age and condition of patient, advice free, price $1.00 per bottle. RICHIES, BARBEAU, & Co., 101 St. Francois Xavier St., Montreal, sole agents for Canada.

THE WAR IN EGYPT.

The British Attack Arabi's Position

TEL-EL-KEBIR CAPTURED.

THE ENEMY IN FULL RETREAT.

THE BRITISH PURSUING.

ALEXANDRIA, Sep. 13—The Khedive received a despatch from Sultan Pacha, saying the British attack on Tel-el-Kebir commenced at 4:30 this morning.

LATER.—Tel-el-Kebir was carried this morning. Forty guns and a large number of prisoners were captured. The cavalry is in pursuit. The demoralization of Arabi's army is complete, his infantry is flying towards the desert.

KASSASSIN, Sep. 13, 5:20.—The attack on Tel-el-Kebir began at 4:45 this morning. The main attack was directed against the enemy's extreme left flank, four miles north of the railway. Heavy artillery and infantry fire is now proceeding. The British troops are advancing rapidly and are evidently turning the enemy's flank.

LONDON, Sept. 13.—A Kassassin despatch says the Egyptians opened the when the British were within about a mile of Tel-el-Kebir. The place appears to have been finally captured by a rush of the Indian cavalry hotly pressing the fugitives on the south, and British cavalry on the north of the canal. Another despatch says the enemy's killed alone amounts to 1,000. The retreat of the enemy on the north is cut off. The cavalry are still pursuing.

An Ismailia despatch says that Tel-el-Kebir was carried this morning with a rush. The first shot was fired at five o'clock and the position was taken in twenty minutes, we having surprised the enemy by a night march. The enemy is in full retreat

KASSASSIN, Sep. 13.—At the capture of Tel-el-Kebir the Egyptian loss is estimated at 2,000. The British loss will probably be 200, including many officers. The Highland Brigade bore the brunt of the action.

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinary or Liver Diseases, as they only relieve for a time and make you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

LATEST FROM THE SEAT OF WAR.

Rejoicings in Alexandria.

3,000 Prisoners taken at Tel-el-Kebir.

ALEXANDRIA, Sep. 13.—The taking of Tel-el-Kebir causes great joy here. An extensive demonstration is organizing for to-night. The Italians and Greeks have taken the initiative, but persons of all nationalities will participate.

A despatch from Gen. Wolseley states that 3,000 prisoners were taken at Tel-el-Kebir.

The cut letting the sea into Lake Mareotis has been completed and the water is spreading rapidly.

AFTERNOON DESPATCHES

SUICIDE.

LONG ISLAND, Sept. 13.—John R. Morris, aged 65, Treasurer of this city, suicided this morning by throwing himself into the East River. He left his house at 2 a.m., complaining of a severe pain in his side. It is reported that the Treasurer's relations with his son, the deputy treasurer, were unpleasant, and this with an investigation of his department by citizens, completed the suicide. Morris' brother killed himself in a similar manner some months ago and his son-in-law, a police officer shot himself last year.

Morning Despatches Condensed.

Preparations are being made for a second trial of the Star route culprits.

The coronation of the Czar has been postponed until next year.

Mrs. Davis, of Huntsville, Alabama, quarrelled with her husband on the 11th, and shot him fatally.

Belleville Cheese Market.

BELLEVILLE, Sept. 13, 1882.

The cheese market during the past week has not developed any activity, closing as dull as at the beginning of the week.

Buyers have offered 11c., but without securing any stock. In the Ingersoll market yesterday 600 boxes changed hands at 11c.

About 500 boxes August cheese sold east of Belleville for 10⅞.

The cable to-day records 55s. 6d. against 61s. 6d. last year, and 63s. the year previous.

On the future outlook for cheese the Utica *Herald* says:

"Light receipts still continue in New York and still everything except stock of unexceptionable quality continues to sag. With receipts one quarter lighter than last year, the price is 1½c lower, and this is in the face of a certainty that there is much less cheese in the country and that a smaller amount will be made from this time out. Buyers who got their fingers burnt last year by taking hot weather cheese at excessive prices, in anticipation of a boom, are letting it alone this year, and only taking such lots as they have orders for, or moderately certain to dispose of, "Beware! take care!" seems to be the motto, and under this very prudent agreement there is comparatively small competition, and cheese is compelled to sell upon its merits at such prices as shippers can afford to pay for. England seems either to have more stock of her own than usual, or else an extra supply from some other source There is no complaint in regard to quality as there was last year. Cheese made down to the tenth of September last season felt the bad effects of excessive heat, and was far from being as fine as it ought to have been. But our makers have not had the same obstacles to contend against this month, and the whole September make bids fair to rank high in quality. When these goods come into market there will be an improvement in prices, if there is to be any advance this season. Even though there should be plenty of stock to supply the demand, the make which is to furnish goods to carry through the winter ought to be worth more than July and first half of August.

PEARLS.—Get your mouth full by using "TEABERRY," the new wonder for the Teeth and Breath. Brush vigorously. See directions. 5 cent samples.

SMITH MEDICINE Co.

GENTLEMEN,—I have made a trial of one box of Dr. Smith's Great German Worm Remedy, with such good effect that I have no hesitation in recommending it to the public as a prompt and reliable medicine. In fact, those who use it once will always do so. Yours truly,

J. Harvie, 172 Cadieux street,
Montreal, December 9th, 1881.

Consumption, that dread destroyer of the human race, is often the result of bad blood and low vitality, a scrofulous condition of the system Burdock Blood Bitters cure Scrofula in its worst form.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, New York City.* [w6m143eod

BEFORE purchasing Ready made Clothing be sure and look through HENNESSY'S stock. He has over 300 suits in all, and is offering them at actual cost.

Sure, safe and effectual, that old remedy, DOWNS' ELIXIR, for the cure of Coughs and Colds.

Commercial.

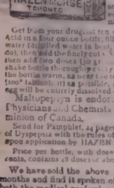
MALTOPEPSYN



MALTOPEPSYN
THE REMEDY FOR DYSPEPSIA INDIGESTION
PREPARED BY HAZEN MORSE TORONTO

Artificial Gastric Juice.

A WONDERFUL [illegible] digestive power of Maltopepsyn.

Two doses (contained) of Maltopepsyn [illegible] of [illegible] in a bottle of water, in [illegible] hours. How much more will it digest in the stomach assisted by that organ? About twenty times the quantity.

Test this for yourselves,—it is an interesting and useful experiment.

Get from your druggist ten drops of Hydrochloric Acid in a four ounce bottle, fill the bottle half full of tepid water (distilled water is best, though soft water will do), then add the finely cut white of a hard boiled egg, then add two doses (30 grains) of Maltopepsyn and shake bottle thoroughly every 15 or 20 minutes, keep the bottle warm, as near the temperature of the body (100° fahrenheit) as possible, and in 3 to 4 hours the egg will be entirely dissolved or digested.

Maltopepsyn is endorsed by the leading Physicians and Chemists throughout the Dominion of Canada.

Send for Pamphlet, 24 pages, giving full treatment of Dyspepsia with the rules of Diet, etc., mailed free upon application by HAZEN MORSE, TORONTO.

Price per bottle, with dose measure attached, cents, contains 48 doses or about one cent per d

We have sold the above remedy for several months and find it spoken of very favorably by both the medical profession and the public.

We can safely recommend it to parties needing such a remedy. Signed,

L. W. YEOMANS & CO.
A. L. GEEN.

Daily Intelligencer.

A Dangerous Guide.

'Why, I believe I could tackle him singlehanded, and I'm sure you could.'

'Yes, but we are in his power. If he means mischief he has nothing to do but to choose his time for doing it.'

'Good heavens, Jack! do you mean that he thinks of losing us on the mountain?'

'I don't say he does, but I fear it. And if he does, how can we prevent him? All he has to do is to suddenly run off; we can never overtake him, as he knows very well. In half an hour he would be out of sight, and we—where should we be?'

Linton grew pale, but recovered himself. They were now walking along the side of a buttress of the mountain, up which they had been toiling. The ascent was very gradual and they could talk without undue exertion. Walter was a couple of yards in front, stolidly striding along.

'What shall we do, Jack?' asked Linton, who recognized in his companion a stronger mind. 'Is it any good to tell him that I meant nothing by kissing Nina, and that I shall never see her again?'

'No, no; we must not let him suspect us or it is all up. When we come to a good place we will propose stopping to eat something; one of us must keep near him all the time. Or, better still, you must get faint and insist upon taking his arm. You must never let it go; as long as he is with us we are safe, for I scarcely expect his wish for revenge is strong enough to let him risk his own safety.'

'I believe he means to thoroughly tire us out before he does anything, and that won't take long, so far as I am concerned; my legs are beginning to give way, and he is going on as fresh as paint. Let's bring matters to a crisis.'

'Hi! Walter,' shouted Hardy; we're getting hungry. We'll stop here and have some bread and cheese.'

'There is a much better place a little further on,' replied the guide, 'where there is a spring.'

'Shall we go on?' whispered Hardy to Linton. 'Be as careless as you can.'

'As you like; if there is a spring it will be a blessing.'

'All right, let's go on if it isn't far,' said Hardy aloud. 'But my friend is knocked up; you must give him your arm, and I'll take that knapsack, if you like.'

Linton moved forward to take his arm. Hardy had already taken hold of the knapsack so quickly that the guide had no time to move away, even if he had wished. He made no objection to the proposal, and Linton put his arm through his, Hardy keeping close in the rear. They could still talk to each other, for they knew that Walter did not understand English.

In this manner they plodded wearily on for another mile, no slight distance when the path is over rocks and loose stones. The scene was a most impressive one, but at present its exceeding desolation was the characteristic which the two friends felt most strongly. Not a house was in sight, and scarcely a tree; nothing but bare rocks and earth. Below them lay a deep dark valley, with a rushing torrent which now looked like a mere white thread; above them black rocks, capped with everlasting snows. For all that they could tell theirs were the first human footsteps that had ever fallen in this desolate spot.

Walter had spoken truth. There was a spring ahead of them, and the sight of it revived their spirits. They took it in turns to drink, one filling his cup while the other mounted guard over the guide. The latter seemed to be conscious by this time that he was the object of suspicion, but his action and look did not alter. He ate his crust and drank the water, without making any attempt to move away from them, and Hardy half began to hope that he had been wronging him. At any rate, he determined to make one more attempt at conciliation.

'What time shall we reach Werhausen, Walter?' he asked.

'I shall get there about six,' he replied.

'Allowing how long for rest?' asked Hardy, purposely, taking no notice of his using the word 'I.'

'You can rest as long as you like,' was the answer, 'but I am going on.'

'What do you mean? We've hired you as our guide, and you'll have to stop or go on as we wish.'

'I am not your guide. I would not take money from you if I were starving. I only brought you here to take you away from Nina. It will be a long time before you will find your way back there again, my fine young gentlemen.'

This was a declaration of war, and all felt it to be so. Walter rose and faced them, standing about two paces off Hardy looked straight at him and said: 'Do you mean that you have brought us out of our way because of some harmless flirting with Nina?'

'Yes,' shouted Walter, losing all command of himself, and making his voice echo down the mountain, 'yes, you would come with your full purses and your smiling faces to turn her away from me, who loved her and worked for her, and live from week to week on the chance of seeing her. You give her presents which she wears, and she tells me with an innocent smile that she does not know where the gentleman who gave them to her has gone, and ten minutes afterward I find him at the cottage and wanting to kiss her this morning. She little thinks I saw him kiss her this morning when he sent me in to fetch his alpenstock. But now it is my turn; you are in my power.'

Hardy stepped forward to seize him, but he stretched out his hand.

'Did you hear that?' he asked. 'Look down the valley.'

A roll of thunder reverberated from mountain to mountain, and instinctively the two friends looked down into the dark valley below them. At the same moment, with a mocking laugh, Walter sprang down the rock. His ruse had succeeded, and they were alone on the mountain.

But his triumph was a short one. Exasperated beyond measure at the trick, and desperate at the state of affairs, Hardy seized a stone as large as his two fists and threw it after the retreating guide. He was a good cricketer and his missile sped truly, hitting Walter on the left shoulder. With a cry he fell forward, rolling over several times before he stopped. The two friends leaped wildly down the mountain in pursuit, reaching him while he was still on the ground. Linton seized him with a grip that showed that he meant to give him no further chance of escape, when a groan broke from the guide's lips.

'Gentle, Charlie,' said Hardy, 'you're hurting him; I'm afraid he's broken something. What's the matter, Walter?'

'My arm,' replied the guide feebly; 'I think it is broken.'

Hardy knew something of surgery, so he examined the arm, and found that it was broken below the elbow. It had become doubled up underneath him as he fell. Hardy tore up their handkerchiefs and bound the arm up, after setting it as well as he could; a shirt from his knapsack was made into a tolerable sling, and when all had been done that could be done, they helped Walter back to the spring and bathed his shoulder and head, the one bruised by the stone, the other by the fall. He received their attentions without thanks, but without any objections. He was evidently in great pain, and appeared to have forgotten the recent excitement he was in.

'Now, Walter,' said Hardy, after a short rest, 'do you feel well enough to walk again? You can take my arm, and when I'm tired Linton will help you along. We must rest every now and then, for we don't feel very fresh. How far is it to the nearest house?'

'Two hours' walk away there is a cottage; we can't reach Werhausen to-night. We must start at once, or we shall have the storm on us.'

Without more talk they rose and set off. It was a weary tramp; they began by retracing their steps for nearly an hour, and then turned off by the side of a pine forest in the direction of Werhausen. By this time it had come to Linton's turn's turn to help the invalid, and he could not refrain from telling him how mistaken he was about Nina.

'She had no idea I was coming to the cottage; I did not know it myself till a few days ago. And that necklet that I gave her two years ago was when she was a child, and nursed me when I sprained my ankle. Besides, Walter, when she found that you were angry with her for wearing it, she determined to give it back to me. Look here, here it is; she gave it to me before breakfast this morning, when you saw us together, and were so savage about it.'

'Is that all true?' he asked.

'Every word, on my honor,'

'Then I have been a jealous fool, and have come very near being worse. I would have killed you if I had dared as we climbed up the side of the mountain this morning, and now you are saving my life, though you know I meant to leave you on the mountain to die. But look, the storm is coming; you must run and leave me. The cottage is round that next point; you will get there in time.'

'No, you must come too; walk as fast as you can.'

'No, leave me; I will shelter under this rock till it is over.'

'Nonsense! you'll never be able to walk a yard by yourself. Lean on me as much as you like.'

Walter had been getting more feeble during the last half hour, and had once or twice shown symptoms of fainting; it would have been almost certain death to leave him alone now with a storm rapidly approaching. So the two friends toiled painfully on with their heavy burden, footsore and weary, and scarce able to drag one foot before the other. They abandoned all hope of reaching the cottage before the storm broke; they knew that when it once had begun there was very little chance of proceeding, and hope of safety had almost died. Suddenly, however, Linton caught sight of a peasant making all speed for the shelter of the cottage; they shouted to him and he came to their assistance. Another moment and the rain came, a thick mist filled the air, and for all they could tell they might be a hundred miles from the little chalet. Fortunately, the peasant knew the vicinity of his home blindfold, and after a struggle against the tempest, they were safely housed from its fury.

A night's rest revived the strength of all three. Under Walter's willing guidance they accomplished in a few hours the rest of the distance to Werhausen, where medical aid was procured. Before they parted Walter took Linton aside and begged him to let him have the necklet which Nina had returned to him.

'I will give it to her again,' he said, 'and will ask her to wear it always, and when I feel suspicious or jealous again I shall look at it, and it will remind me of the time that we have spent together on the road to Werhausen.'—*All the Year Round.*

CHEAP AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Magnetic Medicine, which contains forty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column

CINGALESE A name well known in connection with the HAIR RENEWER, which restores grey hair to its natural color by a few weeks use. Sold at 50 cents per bottle by all Druggists.

As a cure for all diseases of the Lungs, DOWNS' ELIXIR has no equal.

DELAYS are dangerous, particularly in Kidney Diseases, so take at once DR. VAN BUREN'S KIDNEY CURE and obtain relief from all your sufferings. Your Druggist keeps it.

At the approach of spring great attention should be given to purify the system engorged with foul humors during the winter. Burdock Blood Bitters is Nature's own purifying and regulating tonic.

AFTER many years of patient investigation DR. VAN BUREN, of Germany, finally succeeded in perfecting a Kidney Cure that would permanently relieve all cases of Kidney Disease. Be sure and ask your Druggist for DR. VAN BUREN'S KIDNEY CURE.

A PURELY VEGETABLE MEDICINE
For INTERNAL and EXTERNAL use.
THE OLDEST BEST & MOST WIDELY KNOWN FAMILY MEDICINE

Farmers and Mechanics.

Provide yourselves with a bottle of *PAIN-KILLER* at this season of the year, when summer complaints are so prevalent; it is a prompt, safe, and sure cure. It may save you days of sickness, and you will find it is more valuable than gold. Be sure you buy the genuine *PERRY DAVIS' PAIN-KILLER*, and take no other mixture

COBOURG, Ont., March 3, 1880.

I have been selling Perry Davis' Pain-Killer for the past six years, and have much pleasure in stating that its sale in that time has been larger than any other patent medicine that I have on my shelves, and in those years I have never heard a customer say aught but words of the highest praise in its favor. It is an article that seems to have combined in it all that goes to make a *first-class family medicine*, and as long as I have a house and store, Perry Davis Pain-Killer will be found in both.

Yours, &c., J. E. KENNEDY.

Beware of Counterfeits and Imitations.

Price 20c., 25c., and 50c. per bottle.

ARE YOU GOING TO TRAVEL?

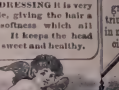
HALL'S VEGETABLE SICILIAN HAIR RENEWER

Has been in constant use by the public for over twenty years, and is the best preparation ever invented for RESTORING GRAY HAIR TO ITS YOUTHFUL COLOR AND LIFE.

It supplies the natural food and color to the hair glands without staining the skin. It will increase and thicken the growth of the hair, prevent its blanching and falling off, and thus AVERT BALDNESS.

It cures Itching, Eruptions and Dandruff. As a HAIR DRESSING it is very desirable, giving the hair a silken softness which all admire. It keeps the head clean, sweet and healthy.

The State Assayer and Chemist of Mass. and leading Physicians endorse and recommend it as a great triumph in medicine.



BUCKINGHAM'S DYE FOR THE WHISKERS

will change the beard to a BROWN or BLACK at discretion. Being in one preparation it is easily applied, and produces a permanent color that will not wash off.

PREPARED BY
R. P. HALL & CO., NASHUA, N. H.
Sold by all Dealers in Medicine.

Daily Intelligencer.

Roots for Winter.

I cannot but congratulate Mr. Stokes, or any other man who in this year of scarce grain, and consequently high prices, has a full supply of mangels for winter feeding to any and all kinds of farm stock, not excepting hogs and hens, but especially for sheep, and above all things for milch cows. Plenty of mangels means healthy animals and a full supply of milk, and he who one year raises plenty is not at all likely thereafter to neglect so desirable a crop. The mangel is comparatively a tender vegetable and any hard freeze, one that will at all freeze the body of the roots, will greatly injure its keeping qualities, and so the crop should by all means be harvested before any danger of such a freeze; here in western New York we begin to gather our mangels as soon as the middle of October, and as it requires steady work to secure our crop in a week or ten days, we expect to be all through by the 25th. With only a few hundred bushels, they may be left a little longer, as they can be hurried in on the appearance of cold weather. In *harvesting*, we have each man take two rows, and throw six rows together for a row of piles. By using a stout leather one-fingered mitten on the right hand, the man pulling can easily twist off the top as he pulls the mangels, and can do it much faster and better than it can be done with any cutting instrument. The team and waggon drive alongside the row of piles, and one man and a boy with the driver will put on as many as the team can draw, say forty bushels, in a very few minutes. We use extra waggons, and teams enough so that by leaving a standing waggon to be unloaded a waggon is continually being loaded. In this way we get into the barn cellar or pit, about 1,500 to 2,000 bushels per day. In *storing* mangels two things are to be looked after—they must be kept warm enough so they do not freeze, and cool enough so they do not grow. Mangels are as easily spoiled by freezing as potatoes, and any amount of frost that enters the body of the root causes them to become worthless and decay rapidly: on the other hand, too much warmth causes them to sprout, and this makes them shrivel and become corky. A moderate amount of shrivel without growing does not in the least injure their feeding value. If mangels are well dried when stored they are not at all likely to heat and spoil. In this respect they are not like turnips or Swedes. The same method and conditions that would keep Irish potatoes well would be adapted to keeping mangles. If Mr. Stokes' cellar is so constructed that it can be well aired or ventilated on cool nights or days, so that the temperature can be kept down below 40°, I can think of no better place in which to store enough to last till early spring.

A good way of keeping mangels, although accompanied with considerable more labor, is in pits. Select a piece of dry ground where water will not settle in, or mush around the pits, and, if dry enough, dig one or two feet deep and about four feet wide, and as long as desirable, fill with mangels from the waggon, piling to a height sufficient to make a steep slant to each side—if a little dirt gets among the roots so much the better, as they are less likely to heat or shrivel; about every four feet apart set a common two-inch drain tile, or a tube made with three or four boards, into the top of roots, so it will project clear through the roof of pit when covered up. Cover the roots now with a coat of straw or any other material to exclude the dirt, and on this put soil enough to exclude all frost, and as danger of colder weather comes on apply more soil, coarse manure or anything else handy, so as to keep all frost from the roots; when too cold the ventilating tiles or tubes can be taken out and the place filled with straw, and the whole covered with soil. A part or the whole of one of these pits can be taken out and placed in the cellar at a time when there is no danger of frost in handling them. One word as to *feeding* them. Some people, too lazy to properly cut them, claim that they may as well be eaten whole, but I have always found it to pay, and pay well, to cut or slice all roots before feeding to any stock. Mangels can be sliced rapidly and very well by putting them into a long, rather narrow box, and by using a sharp spade cut them, commencing at one end of the box, or they may be sliced in limited quantities with a knife and by hand; but in both these ways there is a liability of leaving some pieces nearly square or round, and of the cattle getting these pieces into their throats and choking. The best of all ways to cut any root is to use some sort of cutting machine, and I much prefer those that use a sort of gouge for doing the cutting. This sort of cutter both cuts and breaks the mangel, and the pieces are much more irregular and do not pack so close in the box or manger when being fed. This sort of cutter does not cost over $13 or $14, and will cut from one to three bushels per minute, according to the muscle used.—*J. S. Woodward in N. Y. Tribune.*

The Dividing Line.

There seems to be a growing sentiment among our advanced dairy farmers that a more accurate method of determining the value of of milk at factories than the system of weighing shall be put into practice.

By weight there is no discrimination between two given or delivered qualities of milk; the one that is rich in butter and the other almost wholly wanting in this quality, are each paid for at uniform rates; or if taken to a co-operative factory, an average of so many pounds of milk in the aggregate is figured as making so many pounds of cheese, as witnessed by the scales. This, it will be seen, is not equitable, or even just, to all concerned.

When I first began delivering milk to the factory, the quantity was determined by noting the depth of inches the milk indicated when put into the receiving can; but as this was so manifestly inaccurate, it soon gave place to weighing, and since then the standard of weight, instead of inches, has been adhered to; but now, when butter has become the great want and the thing for which most factories are run, the idea of the percentage of butter, or fatty matters in the milk, seems to be the tendency for estimating the value, as well as to find its quality.

To take the different qualities of milk as it comes from the half hundred or more farms, without any discrimination, is actually a matter of injustice, and does a great deal to retard reforms that would naturally follow a less conservative course. No doubt can exist but that milk of different dairies varies vastly in value for manufacturing purposes, and that a scientific view of the matter will prevail in the immediate future there can be but little doubt. The advent of thoroughbred or even the high grade cows is making this reform one of necessity, for when a well-bred dairy of superior milking qualities, fed as the judgment of the owner may direct as regards the production of a superior quality of milk, is pitted against a dairy that has no qualities to recommend it, and is fed only as Providence supplies, the present rule of paying each of these farmers one price is radically wrong.

Yet the discrimination should not end here, for a dairy may be fed in such a manner that the quantity may be excessive, and the milk possess a restricted value, actually upon a par with skim milk, and worth no more; and in the past, patrons who fed their cows largely upon whey, bran and other foods calculated to produce a flow, without regard to quality, have been charged with diluting their milk, and have been made to rest under a cloud of suspicioned dishonesty, when no doubt they were perfectly honest, and actually did not know that any difference existed in the qualities of milk.

Curious as it may appear, the same cow fed upon foods of different characters will show the surprising variation of nearly six per cent. in the butter product, and this may extend to include whole dairies as well as individual cows; so the discrimination of paying a man one dollar for one hundred pounds of milk when it has three or four pounds of butter in it, and then pay another a like price for a like quantity, when it only possesses one or two pounds of butter or fatty matter, is to actually offer a reward for dishonesty. Leaving out the element of butter making, the standard of cheese even cannot be kept up with poor and thin milk, our best cheese demanding a quality of milk equal in proportionate value to the milk desirable for the manufacture of butter.

But what is the remedy? Clearly it is impossible to make up each farmer's milk separately, and the cream could only be churned by itself, when gathered upon the cream plan of the butter factories, which will not become a general system for this locality. The plan of uniform feeding cannot be made practicable, so the only way would be to obtain, by some expeditious means, the butter fat value of each man's milk, either by a daily or weekly test, and thus arrive at a close "guess," which would be much better, and of more decided justice, than the to-each-man-alike system now in vogue.

When this is done, and a man is credited with the exact performances of his dairy, we may expect to see a rapid advance made in both breeding and selection for dairy stock, and with it will come a vast increase in our dairy productions, and a corresponding cheapening; two elements of success that will do much toward drawing a sharp dividing line between genuine and counterfeit dairy produce.—*Cor. Ohio Farmer.*

Mr. Samuel Weakly, Supt. Adams' Express Co. Stables, 22nd Street, Philadelphia, Pa., says St. Jacobs Oil cured him as if by magic, of a most severe rheumatic attack.

BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, blotches, pimples and the various humors and blemishes of the skin are only symptomatic of bad blood—that needs purifying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidneys, skin, etc, and strengthening while it regulates and purifies.

The market is full of preparations for the hair, some of them good, and many of them good for nothing. R. P. Hall & Co., of Nashua, N. H., manufacture and sell an article of real merit, which has been advertised in the *Express* for the past year, and we have taken no little pains to inquire how it has been liked by the public. One of our druggists informs us that he has sold more than double the amount of Renewer than of all other hair preparations combined, and when a person once uses it, he will use no other: that it is not only bought by the young people as a dressing, but by older persons for removing dandruff, preserving and increasing the growth of the hair and restoring its natural color. Another druggist says that he sells three or four times as much of Hall's, as of all others.—*Hampshire Express, Amherst, Mass.*

Samson lost his strength with his hair. Thousands of men and women lose their beauty with theirs, and very large numbers restore the ravages of time by using the famous Cingalese Hair Restorer. Sold at 50 cents per bottle by all Druggists.

Take no more nauseous purgatives. Burdock Blood Bitters act mildly, pleasantly and thoroughly upon the Bowels, and occasion no inconvenience, while it regulates the Liver and Kidneys and tones the enfeebled system. Trial bottles 10 cents.

Rest and Comfort to the Suffering

"Brown's Household Panacea" has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful," "Brown's Household Panacea," being acknowledged as great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle 264ly

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrh, Bronchitis, Asthma and Lung Disease by Dr. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the seat of disease. Read and judge for yourself:—

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. JOHN P. WHELAN, Manager of POST and TRUE WITNESS, Montreal. Mr. C. HILL, Montreal, catarrh and bronchitis. Mr. DEBOUCHERVILLE, of the Indian Department, Ottawa, catarrh of many years; now cured. Mr. GEO. AGER Ottawa, catarrh and lung disease; cured. Mrs. SMITH, London, wife of Medical Detective, cured of catarrh. GEO MAGUIRE, Toronto, 482 Adelaide street West; daughter cured of asthma. GEORGE WILLIS, Exeter, Ont., catarrh and bronchitis. J. D. ARMSTRONG, 186 Yonge street, Toronto, catarrh and catarrhal deafness. THOMAS TELFER, 12 Melinda street, Toronto, asthma; cured. Mr. BENJ. A. DRAKE, St. Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. BENOIT, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma and bronchitis for over eight years, and who is now perfectly cured.

MRS. ADAMSON, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitating in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis. JOHN C. FLEMING, Editor of POST and TRUE WITNESS, Montreal.

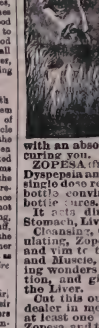
The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write, inclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souvielle and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

The most wonderful curative remedies of the present day, are those that come from Germany, or at least originate there. The most recent preparation placed upon the market is this country, is the GREAT GERMAN INVIGORATOR, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangements of the nervous system. For sale by druggists, or sent free by mail on receipt of the price, $1.00 per box, or six boxes for $5.00 Address James Clark & Co., Sole agent for Belleville. Send for circular.

Rheumatism is greatly dependent on a vitiated condition of the fluids, and may be eliminated from the system by cleansing the Blood and regulating the Kidneys Burdock Blood Bitters will do this most effectually. Trial bottles 10 cents.

RACKED BY INNUMERABLE PANGS, restless by day, sleepless at night, rising unrefreshed in the morning, without appetite and pestered by varying and perplexing symptoms, the dyspeptic takes indeed a gloomy view of human existence. For him the zest of life seems gone. Heartburn, oppression at the pit of the stomach, and the attendant annoyances of of constipation and biliousness, combine to render him utterly wretched. But there is, if he will but take advantage of it, a reliable source of reliable relief from all misery. NORTHROP & LYMAN'S VEGETABLE DISCOVERY and DYSPEPTIC CURE is, as its name imports, a botanic preparation, free from mineral poison, and an all-sufficient remedy for indigestion in its most obstinate form. It not only enriches the blood by enabling the digestive organs to convert the food received into nutriment, but depurates it by increasing the action of the bowels and kidneys, the natural outlets for its impurities. But while it relaxes the bowels, it never does so violently and with pain, like a drastic cathartic. It aids, but never forces, Nature, invigorating as well as purifying and regulating the system. It thoroughly removes those diseased humors which tend to vitiate the blood, purifies the urinary secretion, and promotes a flow of healthy bile into the natural channel, besides expelling it from the circulation. Experience has proved that this standard medicine is a thorough remedy for dyspepsia, biliousness, costiveness, kidney complaints, scrofula, erysipelas, salt rheum, lumbago and all impurities of the blood. Price $1.00. Sample Bottle 10 cents. Ask for NORTHROP & LYMAN'S Vegetable Discovery and Dyspeptic Cure. The wrapper bears a *fac-simile* of their signature. Sold by all medicine dealers



WILL EXCHANGE a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys.

Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

BUTLER'S

Celebrated

BLACKBERRY CORDIAL.

The most effectual remedy yet discovered for Cholera, Cholera Morbus, Diarrhœa, Dysentery, Cramps, Colic, looseness of the Bowels &c.

This justly celebrated preparation is highly recommended by the medical men, and has been used with the greatest success for the last ten years throughout the United States. Prepared by

BELLEVILLE, THURSDAY, SEPT. 14.

A "Monopoly" Abolished.

Whilst the Grit press have been accusing the Government of playing into the hands of the St. Paul, Minnesota and Manitoba Railway Company in maintaining their monopoly of railway communication with Winnipeg, it turns out, as the Winnipeg *Times* makes known, that they have been doing the exact opposite. Our Winnipeg contemporary furnishes the particulars as follows :—

"The merchants of Winnipeg should lose no time in telegraphing to their correspondents in the Eastern markets to ship Fall goods to the Landing. Messrs. Manning & Co., who will run the division until it is thoroughly completed and ready to be handed over to the Syndicate, say in a year hence, are making arrangements which will ensure the swift despatch of freight from the Landing to Rat Portage. A large quantity of first class rolling stock has already been secured, and the Department of Railways will turn over to the contractors all that it can lay its hands upon. The rates are low, and with water rates from Collingwood and Owen Sound to the Landing, the cost of bringing goods from Toronto and Montreal to Winnipeg will, of course, be very much lower than the all-rail rates by Chicago and St. Paul. An impression prevailed that those members of the Syndicate who are interested in the Manitoba road would be strong enough at Ottawa to block the opening of the Eastern division at least until next fall. If a policy of delay were ever contemplated by Mr. Hill and his associates, which is doubtful, the prompt action of the Government in putting the road into the hands of such a powerful firm as Messrs. Manning & Co. has defeated it.

"Merchants have undoubtedly had cause to complain of the rates levied by the Manitoba road, which, having no competitor, made the most of its opportunity, and, running through a country almost as sparsely settled as Manitoba, was compelled in the nature of things to adopt rates high enough to compensate it for the lack of return freights. Henceforth, however, from the opening until the close of navigation on Lake Superior, Winnipeg will not be dependent on the St. P., M. & M., and during that period of five or six months, rates both from the Landing and St. Paul will be reasonably low. For the remainder of the present season, Messrs. Manning & Co. will strain every resource at their command to carry goods cheaply and swiftly from the Superior steamers to Winnipeg, and by the opening of navigation next year, they will be in a position to handle all the freight that can be put down at the Landing. Navigation will be open for two months longer, and the merchants of Winnipeg should "make hay while the sun shines." The saving on a carload brought up from the Landing will be no inconsiderable item."

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists.

Editorial Brevities.

Surely the *Globe* is in its dotage, or has been frightened out of its wits at the prospect of the Convention, else it would not call that gathering a "conspiracy." If our aged and mentally infirm contemporary will refer to Worcester it will find that "conspiracy" is defined as "a combination of persons for an evil purpose ; a plotting ; a plot—especially a plot against a Government, or a concerted treason." Bad though the Tories are, in the estimation of the Grit organ, it will hardly dare to say that they are plotting treason against the Mowat Government, in taking constitutional means to secure the defeat of that organization.

The New York and Ontario Millers' Association, one of the most prominent members of which is Mr. Wheler, a Grit M. P., are so well satisfied with the regulations governing grinding in bond that they have passed resolutions requesting the Government to continue them. It is now in order for the *Globe* to abuse Mr. Wheler for disobeying its teachings.

The Hamilton *Times* continues to talk nonsense, in the most offensive manner that it can assume, as to the presence of Messrs. Bowell and Langevin in the same Cabinet. It winds up by saying :

> A man does not require to be either a wise Grit or a Tory fool to comprehend Sir John's game in getting Langevin and Bowell together at the Council Board.

Really this "Grit fool" is too absurd. Does he remember the famous Argenteuil speech of that virtuous champion of Protestantism, Mr. Huntington, who was hauled over the coals for it by, amongst others, his colleagues, including Mr. Cauchon, who, afraid to trust himself to speaking *extempore*, read a paper defining his position, in which he said :

> On my arrival at Ottawa towards the middle of January, I presented myself without delay at the office of the First Minister, to inform him that the discourse of the Hon. Postmaster General at Lachute placed me in a false position as a Catholic ; that I could not admit the doctrines enunciated, as I understood them, and that in consequence I desired to know whether the hon. Minister on that occasion did or did not convey the sentiments of the Government, and if the latter was responsible for the words he there uttered. Liberal, or, if you will, reformer in politics, I am not the same in religion, where, for me, everything is unchangeable, and when my title of Catholic shall become incompatible with that of Minister of State, the choice will to me be easy. But happily we have not yet come to that, for at the side of religious society exists civil society with its own distinct attributes. On this neutral ground men of all creeds and origins can meet and work together for the material well-being of the country.

And yet neither of these champions of their respective creeds, who were at least as far apart in their views on religious topics as Messrs. Bowell and Langevin, and old enemies politically, resigned because of this little difference. Neither did the *Times* contend that they were members of the Government for any sinister reason. Let the Hamilton organ try to be consistent, if it cannot be courteous or even decent. Or, failing that, let it ponder well the closing sentence of our extract from Mr. Cauchon, and thus discover how ridiculous it has made itself.

The Montreal *Star* makes the following hard hit at the Toronto fair : We have no wish to depreciate the Toronto Exhibition, but cannot refrain from expressing our admiration for the coolness with which the Toronto press dubs the institution in question "Canada's great Fair." We have only three objections to the assumption. It is not "Canada's !" it is not "Great ! !" and it is not "Fair ! ! !"

The successful discovery of a pass through the Rocky Mountains about 100 miles south of that selected by the Government engineers and which was at first adopted, is important, says the Montreal *Gazette*, in that it shortens the length of the Pacific Railway by seventy-nine miles, a matter of considerable importance in competing with trade from the Pacific to the Atlantic, and the American Pacific lines for the through route from Europe to Asia. It is now pretty generally known that the Canadian Pacific is the shortest possible route from Europe to Asia, and from the Atlantic to the Pacific. With the road shortened by the 97 miles, which this new route will take off, the following will be the comparative distances by the Canadian and American Pacific lines :—

	Miles.
From Montreal to Port Moody, via C. P. R.	2,850
From New York to Port Moody, via C. P. R. and Montreal	3,260
From N. Y. to P. Moody, via C. P. R. and Brockville	3,140
From N. Y. to San Francisco	3,330

These figures show the advantages of our line for through traffic. But the advantages are still greater when we compare the respective lines with regard to European and Asiatic trade :—

	Miles.
Liverpool to Montreal	2,715
Liverpool to New York	3,040
Liverpool to P. Moody, via C. P. R.	6,063
Liverpool to San Francisco	6,830
Liverpool to Yokohoma, Japan, via M. and the C. P. R.	10,983
Liverpool to Yokohama, via N. Y. and San Francisco	12,038
Hence from Liverpool the distance via Montreal is less than that via New York by	767
And the distance to Yokohama is less by the Canadian route by	1,070

These figures surely prove that the Canadian route must become the great highway betwen Europe and Asia. If Halifax be taken as the terminus instead of Montreal the distance from Liverpool to Port Moody would be 6,186 miles, which would still be less than from Liverpool to San Francisco by 646 miles.

The leading organ of the Grits argues that, whilst it was wrong for the Dominion and Local Premiers, being in accord, to assist each other in the elections of 1867 and 1871, and for the Dominion Premier to assist his supporters in the Ontario campaign which will shortly be opened, it was right for the Grit Premiers of the Dominion and of Ontario to aid each other in the contests of 1874, 1875, '78 and '79, and for the Grit Premier of Ontario to actively engage in the Dominion elections of the present year. The *Globe* never was remarkable for consistency, but its moral obliquity in this matter disgusts everybody.

Don't die in the House.

"Rough on Rats." Clears out rats, mice, roaches bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

The Convention.

The Conservative Convention, which opened at Toronto on the 13th, was the greatest gathering of the kind ever held in Canada. There were upward of two thousand delegates in attendance, and many more could not gain admittance.

It was at two o'clock that the convention was to be called to order, and that business was to be commenced. At that hour, or shortly after it, Sir John Macdonald and Mr. W. R. Meredith, M. P. P., ascended the platform, and were received with loud and enthusiastic cheers. Accompanying the two leaders were Sir Leonard Tilley, Hon. Mackenzie Bowell, Hon. John Carling, Hon. Frank Smith, Mr. Kirkpatrick, M. P., Mr. Plumb, Hon. T. N. Gibbs, Hon. Alex. Morris, Mr. A. W. Lauder, Mr. Sproule, M. P., Mr. Bell, M. P. P, Mr. J. J. Hawkins, M.P., Mr. A. Boultbee, Mr. Thos. White, M. P., Mr. Patterson, M. P. of Essex, Mr. Bunting, Mr. White, M. P. P. of Essex, Mr. Hesson, M. P., Mr. McCuaig, Mr. Creighton, M. P. P., Mr. Metcalfe, M. P. P., Mr. Kilvert, M. P., Mr. Coughlin, M. P., Mr. Woodworth, M. P., Mr. Robertson, M. P., Mr. Merner, Mr. Kranz, M. P., Mr. Rykert, M. P., Mr. McCarthy, M. P., and Mr. Wigle, M. P.

Mr. Edward Gurney, jr., of Toronto was elected Chairman, and after addresses by Sir John A. Macdonald, Mr. Meredith and Mr. Morris, the Convention adjourned until to-day.

Catarrh of the Bladder.

STINGING irritation, inflammation, all Kidney and Urinary Complaints, cured by "Buchupaiba." $1.

Vice-Regal Party.

THEIR NARROW ESCAPE FROM INSTANT DEATH.

SAN FRANCISCO, Sep. 13.—The train with the Marquis of Lorne and the Princess Louise on board was run into at Port Costa this morning by a yard engine. The engine and train were badly damaged. It is reported the Princess was slightly bruised.

O. Bortle, of Manchester, Ontario Co., N. Y. writes :—"I obtained immediate relief from the use of *Dr. Thomas' Eclectric Oil*. I have had Asthma for eleven years. Have been obliged to sit up all night for ten or twelve nights in succession. I can now sleep soundly all night on a feather bed, which I had not been able to do previous to using the Oil."

Nervous debility is a result of indiscretion in the mode of living. Heed nature's unerring laws and take Burdock Blood Bitters, the Great System Renovator and Blood, Liver and Kidney regulator and tonic. Sample bottles 10 cents.

PROCLAIM it far and wide that DR. VAN BUREN'S KIDNEY CURE not only immediately relieves all Kidney diseases, but what is more important to the unfortunate sufferer, will ultimately cure him effectually,

Correspondence.

Whilst correspondents will be accorded space for the expression of their ideas on topics of public interest, it must be in all cases understood that the views so expressed are simply those of the correspondents themselves.

To the Editor of the Intelligencer.

SIR,—In reply to the article in your valuable paper of Sept. 7th, in which my name appears under the heading "Cannibalism in Stirling," I would state that many errors exist in the statement of the circumstances which led to the row mentioned. Some three years ago Mr. John Fanning exhibited a horse at the Fair at Thrasher's Corners, concerning which Purdy said, that I had said that the horse mentioned had out travelled his, which I did admit and confirmed, for I was an eye-witness to the race. This was the conversation that took place between us at the commencement of our row. Purdy said that he "would lick me," and in reply I said that I "would not deny it, as I was not a fighting man," but if necessary that I could get a man who would stay with him. I deny that I attributed my failure in getting the 1st prize at Belleville fair to Purdy. I got the 2nd prize and never entertained any hard feelings towards him since, having in friendship met several times, during which the matter never was mentioned. But on this instance he spoke to me first about the old affair concerning the prizes received at Belleville, and said that I had blamed him, which I denied *in toto*, and I endeavored to end the conversation on the subject, which seemed to be of no avail.

I deny that I started the quarrel. Far from it. During the talk he rushed from a distant part of the room towards me, and grabbed me around the neck, when I clenched him, and my mental frenzy due to drink overpowering me no doubt was the occasion of his receiving the bite I gave him. I felt that his friends would assist him, and that I had not fair play and would not receive any—in other words I felt that as I was so fiercely assailed, that I had to seek resource in any means that I could to save myself.

A[illegible] TUCKER.

Stirling, Sep. 13, 1881.

Ontario Chronicle please copy.

News Condensed.

—Four new sub-commissioners have been appointed under the Irish Land Act.

—Mr. David McRae, of Guelph, has been elected President of the Mechanics' Institutes Association.

—The Ontario Bee-keepers' Association met in Toronto on the 13th, Hon. L Wallbridge, President, presiding.

—Mr. Vanderbilt's team Early Rose and Aldine made a mile at Charter Oak Park, Hartford, on the 13th in 2:16½

—Pending the receipt of statements by Majors Mudge and Scott the investigation into the Luard-Scott towel affair remains in abeyance.

—One hundred and fifteen natives and three Europeans died in Manilla from cholera on Monday There were 125 deaths in the Provinces.

—The North Shore Railway, it is said, contemplate extending their road to the mouth of the Saguenay River and establishing a winter port there.

—The Canada Atlantic Railway has been inspected and passed by the Government engineer, and traffic between Ottawa and Coteau commences this week.

—Of the seventy-two delegates elected by the Republican primaries in New York State, sixty are expected to vote against the renomination of Governor Cornell.

—The Greek Minister of Foreign Affairs has issued a circular saying that if the Porte does not immediately surrender the four disputed points on the frontier Greece will resume hostilities.

—The Martini-Henri rifles, which were supplied by the Imperial Government for the use of those who are eligible to compete for places upon the team to represent Canada at Wimbledon next year, have arrived.

—The actual amount of the defalcation of McNeill, the official in the the Montreal city treasury, has not yet been ascertained, but the chairman of the Finance Committee thinks it will be about five thousand dollars.

*The term *hydra* may be used to represent any manifold evil. If you would battle successfully with this many-headed monster of disease you will find it expedient to keep Mrs. Pinkham's Vegetable Compound always at hand.—*Dr. Banning.*

—The Alleghany presbytery recently discussed Sunday travelling, and refused to allow one of its members to take the train to attend his services fifteen miles distant from his other church He was told he must take a horse or resign his position.

—An endeavor is to be made to induce the Dominion Government to provide a winter service between the north shore of the St. Lawrence and the Intercolonial Railway, at Murray Bay, by subsidizing a ferry steamer to run between the Bay and Riviere Ouelle.

—The September report of the Ontario Bureau of Industries shows that throughout Western Ontario the harvest season was an unusually long and tedious one. The east fared somewhat better. The crops throughout are not so good as those of preceding years.

—The Credit Foncier have decided to close their operations in Canada unless power is given them to exact seven per cent and upwards upon their loans. So much value do they place upon this concession that are willing to renounce the monopoly for half a century which their charter gives them

*** "Do boldy what you do at all." Boldly do we affirm that Kidney-Wort is *the* great remedy for liver, bowels and Kidney diseases, rheumatism and piles vanish before it. The tonic effect of Kidney-Wort is produced by its cleansing and purifying action on the blood. Where there is a gravelly deposit in the urine, or milky, ropy urine from disordered kidneys, it always cures.

—The directors of the Toronto Exhibition Association last night gave a banquet to the principal exhibitors, in the dining hall on the grounds. The place was comfortably filled, about 200 sitting down to table. Among the guests were Sir Leonard Tilley, Hon Mackenzie Bowell, Hon. Edward Blake, and others. Messrs. Tilley, Blake and Bowell made short speeches.

—The first meeting of the united Committees of the various Methodist Churches in Canada met at Hamilton yesterday, to consider the question of Methodist union. The question was discussed and a motion setting forth that the time has come when all reasonable effort shall be made to ascertain a basis of agreement upon which to unite the various Methodist Churches in Canada, was carried unanimously The Committee resumes its labors to-day.

PEARLS.—Get your mouth full by using "TEABERRY," the new wonder for the Teeth and Breath. Brush vigorously. See directions. 5 cent samples.

BIG YIELD.—The Colborne *Express* says : "Mr. John Gummer informs us that from a ten acre field of fall wheat he has a return of 445 bushels—average 44½—weighed it will likely go 45 to 46, as the quality is excellent. He also says that the present is his most abundant harvest all round."

RAILWAY BUILDINGS.—Mr. E. A. C. Pew has completed arrangements and signed a contract with the Souris & Rocky Mountain Railway Company to build their line from a point on the Canadian Pacific Railway 100 miles west of Winnipeg to the Rocky Mountains. Mr. Pew has also purchased a controlling interest in the company. It is proposed to spend $50,000 the first month and $150,000 the second month on construction this season. Parties have already started with plans and specifications for the scene of operations, and work will probably begin some day this week. The first 50 miles are to be completed by the 1st June, 1883, and the balance in time to comply with the terms of the charter. The S. & R. M. Railway runs in a northwesterly direction through Rapid City, Fort Ellis, Battleford and Edmonton.

If Nearly Dead

after taking some highly puffed up stuff, with loud testimonials, turn to Hop Bitters and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes, or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters ; besides, it is the best family medicine on earth.

Asthma and Bronchitis Cured.

HALIFAX, N. S., Jan. 1882

C. M. PUTTNER, Esq., PH. M. :

SIR,—I consider it my duty, not only to yourself, but to my fellow creatures who are suffering from Asthma and Bronchitis, as I had for some time previous to using your "Emulsion of Cod Liver Oil with Hypophosphites," to give my testimony to the most wonderful good effect it had. Having suffer for some time with Asthma and Bronchitis, accompanied with great nervous exhaustion, and having carefully read your Essay on the combination and uses of your Emulsion, I was persuaded to give it a trial, and on using two bottles I began to receive great benefit and relief, and after using three bottles I was completely revived and am to-day perfectly free from either Asthma or Bronchitis, and my nervous system much invigorated and built up. I have found it very pleasant and palatable, and with no taste of the oil whatever, and can with great confidence recommend it to those suffering as I did previous to taking your compound. In conclusion, I consider I owe you a debt of great gratitude for the benefit I have received from your Emulsion and only hope that many may be induced to give it a trial, and receive as great benefit as I have from its use. I am, yours, &c.,

ALEX. STEPHENS, SR.,
Merchant.

Notice to Contractors.

SEALED TENDERS, addressed to the undersigned, and endorsed "Tenders for Port Hope Works," will be received until TUESDAY, the 26th inst., inclusively, for the construction of a

BREAKWATER
—AT—
PORT HOPE, ONTARIO,

according to a plan and specification to be seen on application at the office of the Harbor Master, Port Hope, where printed forms of tender can be obtained.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, the blanks properly filled in, and signed with their actual signatures.

Each tender must be accompanied by an *accepted* bank cheque, made payable to the order of the Honorable the Minister of Public Works, *equal to five per cent.* of the amount of the tender, which will be forfeited if the party decline to enter into a contract when called on to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department will not be bound to accept the lowest or any tender.

By order,

F. H. ENNIS,
Secretary.

Department of Public Works, Ottawa, 8th September, 1882. 106d3t

$500 REWARD.

WHEREAS good reason exists for believing that the several fires that occurred on the morning of the seventh September instant, on the premises occupied by Lake & Jenkins, Livery Stable keepers, on the corner of Bridge and Pinnacle Streets, and of Dr. Curlett, on Hotel Street, in the City of Belleville, were the work of incendiaries, and

Whereas by the amended Municipal Act of 1879, chapter 31, section 31, authority is given to any Municipality in which a flagrant crime is believed to have been committed, to offer and pay a reward for the discovery, apprehension or conviction of the criminal, or of any person who is suspected to be the criminal,

And whereas the Council of the Municipality of the City of Belleville have determined to offer a reward for the apprehension and conviction of the perpetrator or perpetrators of the above crime,

Therefore be it known, that a reward of $500 will be paid by the Municipality of the City of Belleville to any person or persons who will give such information as will lead to the apprehension and conviction of the person or persons guilty of the above mentioned offence

Dated at Belleville, this 12th day of September, 1882.

Some of these are Direct Importations from England and the United States, and others were purchased in Canada, as *we always buy where we can purchase cheapest.*

We invite special attention to our Carpets. We will show a larger assortment than usual in Brussels, Tapestry and Wool.

GLASGOW WAREHOUSE.

Daily Intelligencer.

BELLEVILLE, THURSDAY, SEPT. 14.

City and Vicinity

Two drunks only were in the cells last night.

Mr. Corby shipped two car loads of whiskey to Halifax to-day.

The first prize for cheese presses and hoops at the Toronto Exhibition was awarded to Mr. H. Ashley, of Foxboro.

The case of Thos. Cheevers, charged with allowing gambling in his saloon, was dismissed this morning by the Police Magistrate.

John Patterson and Thos. Sheldon, recently sentenced to the Central Prison, were removed thence from the County Gaol on Tuesday night.

John Garry, charged with assaulting officer Newton while in the discharge of his duty, was sentenced yesterday afternoon to a month in gaol.

Remember the open air service this evening at 7:15, (D. V.) corner of Church and Dundas Sts., in the vicinity of the new City Mission school room.

The Cricket Club, unfortunately, will not be able to send a team to Napanee to-morrow, owing to the absence of some players and the inability of others to go. The return match will probably take place some day next week.

We have received a copy of the Morris (Man.) *Herald*, the weekly paper which Mr. Geo. B. Fraser, formerly of Belleville, has purchased. The paper is a neat and spicy little sheet, and would do credit to a larger place than Morris can be.

The case of the four men from Trenton, charged with assaulting a night-watchman, was settled yesterday afternoon by Jas. and Henry Story being sent to gaol for two months and one month respectively, and Peter Story and Abraham Ostrom being discharged.

Wm. Watson and John Smith, two drunks, were brought before the Magistrate this morning, and were both discharged. The case of John [illegible], charged with committing an assault on Chas. Pierson, was enlarged. Thos. Highlands, accused of fraudulently removing his goods in order to avoid distress, was remanded.

We are pleased to learn that Mr. W. J. Butler has been appointed Midland Railway Station Agent in Belleville—Mr. Upton, who has been filling that position, having been promoted. The appointment is a good one, Mr. Butler having already made himself a favorite here by his obliging ways and his close attention to his duties.

Rev. Wm. Stacey, late of Wincanton, England, who has been selected as pastor of the Congregational Church, in this city, will be publicly installed to-morrow (Friday) evening. The installation service takes place in the church, and will be conducted by Revs. S. A. Jackson and Thos. Hall, of Kingston, and Hugh Pedley, of Cobourg.

Mr. Thos. Furlong, who has for some time past been employed as clerk in J. W. Walker's hardware store, being about to leave for Michigan to take a similar position there, was entertained by a number of friends (ladies' as well as gentlemen) in the hall in the Ashley Block, where a delightful evening was spent in dancing. A supper was also given, at which kindly and cordial wishes for Mr. Furlong's future success were expressed.

A very heavy wind prevailed early this afternoon. Several trees on Taylor's Hill were blown down and three near the G. T. R. station were laid low. Hats flew in every direction, followed by their owners, and innumerable male faces were to be seen peering from the windows and doors of shops near the corners of streets, watching females, with all sail set bearing up against the wind. The gale was followed closely by heavy rain storm, after which the weather cleared.

Weather Probabilities—Toronto, Sep. 14.—Lakes, fresh to strong southerly to westerly winds, fair warm weather, with local showers.

The Horse Fair which was held yesterday at the new Driving Park was, we are sorry to say, a shabby and altogether unsuccessful affair. The number of entries was very small, the attendance was still more meagre, and even the small exhibit of horseflesh that there was was not up to the mark. It is too bad that the Fair should have been allowed to be held at all, since it did not receive the support and encouragement of the more prominent members of the Driving Park Association.

There is every evidence that Helen Blythe, in "Only a Farmer's Daughter," will be greeted by a large audience in the Metropolitan Hall to-morrow evening. The press of eastern Ontario speaks highly of the play, the actress, and her support. The Ottawa *Citizen* of Tuesday says of the performance on the previous evening :—"Long before the curtain rose it was impossible to obtain seats on the floor of the house and the gallery was filled to overflowing. The plot of the piece has already been described, and fully merits all the praises which have been lavished on it by the press elsewhere. Miss Helen Blythe fully justifies the most enthusiastic praises that have been given her, and her support from first to last is good."

Herrmann.—The few who went to see Hermann last night had the satisfaction of witnessing the most wonderful performance of the kind ever seen in Belleville. The feats performed by Hermann himself were hardly more marvellous than those of the Japanese juggler and balancer, who surpassed any performer in that line who has yet appeared here; and Mr. Davis' ventriloquial and imitative entertainment was received with the greatest enthusiasm. Hermann's spiritual-cabinet deceptions were most startling—far more incomprehensible than the cabinet tricks which have been performed here in public by professed spiritualists. The apparent impossibilities, however, are easily accounted for by the fact of a false back to the cabinet, which swung outward. It is to be hoped that the Herrmann and his assistants will pay Belleville another visit, when he will be certain of a much larger audience than he received last night.

Before purchasing Ready made Clothing be sure and look through Hennessy's stock. He has over 300 suits in all, and is offering them at actual cost.

Death of Mr. Frank Shanly.—A telegram from Brockville on the 13th says :—"Passengers who arrived this morning by the Western train report the sudden death of Mr. Frank Shanly, C.E., which occurred at an early hour this morning shortly before the train reached Brockville. The deceased gentleman, when he boarded the train, appeared to be in excellent spirits and conversed freely with many friends. Before reaching Gananoque he complained of feeling a choking sensation and asked for a doctor. He coughed violently and was compelled to leave his berth and go to the front of the car for fresh air. A few minutes later he returned to his berth and there expired. The Conductor states that for the past three years the deceased gentleman made a practise when travelling to leave his berth and go out on the platform for fresh air, complaining of heart disease. He occupied the position of adjuster of Intercolonial Railway claims, was a brother of Mr. Walter Shanly, C.E., and was one of the most distinguished railway engineers on the Continent. It is only a few days ago that he wept at the grave of his only son. Hon. Mr. Carling, Mr. Mackintosh, M. P., and other friends were on board at the time, and did all they could to relieve his sufferings. The remains were left at Brockville and his friends communicated with. Mr. Shanly was born in County Leitrim, Ireland, about 58 years ago. He came to this country about the year 1847."

—James L. Finigan, M. P. for Ennis, is dead.

—The first regular train on the Canada Atlantic Railway left their station at Ottawa on the 11th.

—The Conservatives of Addington have nominated Mr. George Denison as their candidate for the Ontario Legislature.

—The largest individual sheep-owner in Texas is a woman, known all over the States as the "Widow Callahan." Her sheep, more than 50,000 in number, wander over the ranges of Uvalde and Bandera Counties, in the southwestern part of the State. Their grade is a cross between the hardy Mexican sheep and the Vermont merino. They are divided into flocks of 2,000 head each, with a "bossore" and two "pastoras" in charge of each flock. At the spring and fall shearings, long trains of waggons transport the "Widow's" wool to the market of San Antonio.

The Diamond Dyes always do more than they claim to do. Color over that old dress. It will look like new. Only 10 cents

Excellent reasons exist why *Dr. Thomas Eclectric Oil* should be used by persons troubled with affections of the throat or lungs, sores upon the skin, rheumatic pains, corns, bunions, or external injuries. The reasons are, that it is speedy, pure and unobjectionable, whether taken internally or applied outwardly.

A New Principle.

The principle upon which Putnam' Painless Corn Extractor acts is entirely new. It does not sink deep into the flesh, thereby producing soreness, but acts directly upon the external covering of the corn, separates it from the under layer, removes the direct pressure from the part, and at once effects a radical cure, without any pain or discomfort. Let those who are suffering from corns, yet skeptical of treatment, try it, and by the completeness of the cure they will be ready to recommend Putnam's Painless Corn Extractor to others. Sold by W. R. Carmichael.

Baxter's Mandrake Bitters never fail to cure Costiveness and regulate the Bowels.

SMITH MEDICINE Co.

Gentlemen,—I have made a trial of one box of Dr. Smith's Great German Worm Remedy, with such good effect that I have no hesitation in recommending it to the public as a prompt and reliable medicine. In fact, those who use it once will always do so. Yours truly,

J. Harvie, 172 Cadieux street.

Montreal, December 9th, 1881.

Dr. E. C. West's Nerve and Brain Treatment is a never failing cure for Nervous Neuralgia, Nervous Headache, Overworked Brain, &c. Sold at James Clarke & Co's.

Hall's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by Jas. Clarke & Co., Belleville, Ont.

THE WAR IN EGYPT.

BATTLE OF TEL-EL-KEBIR.

GALLANTRY OF THE BRITISH.

Officers Killed and Wounded.

HOW THE FIGHT WAS WON.

ZAGAZIG OCCUPIED

New York, Sep. 13.—The *Telegram's* despatch says : The Highland Brigade distinguished themselves notably at the redoubts at Tel-el-Kebir, all of which along the entire enemy's lines were carried at the point of the bayonet. At half-past five this morning the Highlanders dashed in on the left, completely surprising the enemy. The latter, however, soon rallied from their surprise and pluckily replied with volleys of musketry, inflicting loss on their assailants.

The following officers fell : British officers killed—Major Colville, Seventy-fourth Highlanders ; Lieut. Somerville, Seventy-fourth Highlanders. British officers wounded—Col. Hutchinson, Forty-sixth Regiment ; Captain Keppel, 74th Highlanders ; Captain Cumberland, 74th Highlanders ; Lieut. Midwood, 74th Highlanders ; Lieut. Gordon Cary, 74th Highlanders.

Lieut. Gordon in the melee killed three Egyptian officers with his claymore. As the Forty-sixth dashed over the entrenchments their leader, Col. Hutchinson, was wounded in the mouth and carried off the field. At half-past six o'clock the correspondent rode with Gen. Wolseley's staff some three miles behind Arabi's entrenchments. The Egyptians were in full retreat.

I counted 300 Egyptians lying dead upon the field. The British cheered Gen. Wolseley after the battle. On our right the Guards and Rifles carried all before them. The full extent of our loss is not yet known, but it will probably reach about 200. The colored troops fought nobly. The black Soudan troops on the Egyptian side fought pluckily and Arabi's artillery was well-served, but the pure Egyptian regiments behaved very cowardly.

The British cavalry are pushing forward on the right toward Zagazig to cut off the retreat of the Egyptians from Kafr-el-Dwar. The enemy retreated at full speed toward the desert and Cairo. The Highland brigade while in action presented the most martial sight imaginable.

At a quarter before five a. m. the British artillery opened fire before the enemy were aware of their presence. The British infantry immediately afterward pressed forward, deploying and opening in file from their sheltered positions. The rebels discovered the British when about a mile from their works, and opened a heavy fire from rifles. The British paused for a moment on the line of the sand hills to watch the jets of fire from the enemy's works, and then with a gallant rush were among the rebels.

Acting on the General's orders, they reserved their fire and went in with the bayonet. The slaughter for a time was very great. The rebels could not stand it, but broke and fled, pursued hotly by the British. Your correspondent followed the Royal Irish Regiment into the trenches before one fort, which was filled with Arabi's followers and with the dead and dying. The British in advance crept up to within 200 yards of the fort, and then with a ringing cheer they cleared the trenches of the enemy with a determination that no troops could withstand.

The Indian troops and Highlanders were hotly pushing the rebels on the south, while on the north our men cut off the retreat of a large number. Several thousand were taken prisoners and the enemy is now in full retreat. Forty guns were captured in the works, but as the cavalry are pressing the routed foe, more prisoners and guns will be captured. The first fire of the Egyptians was very wild. Our first fire disconcerted them, and their fire went over our heads.

The artillerymen in the pit soon got to work, but their shot and shell went very wide of the mark. With daylight the enemy's fire improved, and fell on our men like a hailstorm. Many men fell, but not a second did the British stop. Covering parties, lying down, fired at the enemy while those in front passed on.

General Graham's brigade worked with gallantry ; nothing could describe their cheers. It resembled a wild yell above the din of musketry. As they charged up the steep slopes and into the trenches one could scarcely help feeling pity for the terror-stricken Egyptians. Many hid away in corners of the works and others fled at their utmost speed, throwing away everything from them.

London, Sep. 13.—General Wolseley's official despatch to the War Office says :—"We struck camp at Kassassin look last evening and bivouacked on a high ridge above the camp until 1:30 this morning. We then advanced upon a very strongly fortified position held by Arabi Bey with twenty thousand regulars, of whom twenty-five hundred were cavalry with seventy guns, and six thousand Bedouins and irregulars. My force was about 11,000 bayonets, 2,000 sabres, and 60 guns. To have attacked so strong a position by daylight with the troops I could place in the field would have entailed very great loss. I resolved, therefore, to attack before daybreak, marching the six miles that intervened between my camp and the enemy's position in the darkness. The cavalry and two batteries of horse artillery on the right hand orders to sweep round the enemy's line at daybreak. The first division, composed of the second brigade, under Gen. Graham, supported by the Foot Guards, under the Duke of Connaught, seven batteries of artillery, numbering 42 guns, with a supporting brigade ; then the second division, the Highland brigade leading, and the Indian contingent—these on the south side of the canal, with the naval brigade on the railway, advanced. Great emulation was displayed by the regiments to be the first in the enemy's works. All went at them straight. The Royal Irish particularly distinguished itself by its dash, and the manner in which it closed with the enemy. All the enemy's works and camps are now in our possession. I do not yet know exactly the number of guns captured, but the number is considerable. Several trains with immense quantities of supplies were captured. The enemy ran away in thousands, throwing away their arms when overtaken by our cavalry. Their loss is very great.

Ismailia, Sept. 14.—General Drury Lowe, of the cavalry division, is already off on a hare-and-hounds chase after Arabi Pasha towards Cairo via Balbeis. Arabi narrowly escaped, galloping off on a thoroughbred Arab steed.

London, Sep. 13.—General McPherson telegraphs from Zagazig that he made a forced march after the capture of Tel-el-Kebir and occupied Zagazig this afternoon. He seized five trains. The Governor surrendered to the British, and people are submissive.

MORNING DESPATCHES.

EUROPEAN.

RUSSIAN PLOTTINGS.

St. Petersburg, Sept. 14.—The decision of the Minister to postpone the Czar's coronation till next year has been arrived at in consequence of numerous revolutionary indications discovered by the Moscow police as the preparation progressed. The decision will discontent everyone, as it will furnish a reason to the party of Grand Duke Constantine which bases its hopes on the theory that the Russian Sovereign will not really be Emperor until crowned, and the people should depose the Prince who refuses to submit to the ceremony. To mitigate the evil effect of the decision, their Majesties will soon pay a private visit to Moscow.

AMERICAN.

EDITORS FIGHTING.

Tombstone, Arizona, Sept. 14.—It is reported that Samuel Purdy, editor of the *Epitaph*, and Patrick Hamilton, editor of the *Independent*, have departed with seconds and surgeons for Sonora. The trouble grew out of an article in Hamilton's paper. Purdy sent a challenge. The weapons are revolvers, distance ten paces.

NEW YORK NOTES.

New York, Sept. 14.—Gen. Henry T. Kiersted, a retired merchant, formerly a prominent citizen, died yesterday, aged 89.

A. M. Sullivan, the well known Irish agitator and leader of the Home Rule party, arrived yesterday. He was cordially received by a committee of his countrymen.

Arrived, *State of Florida* from Glasgow, *Virginia* from Liverpool.

KILLED ON A RAILWAY.

Florence, N. J., Sept. 14.—Chas. Erben and Joseph Parker fell asleep on the track last night. A train killed Erben, and fatally injured Parker.

YELLOW FEVER IN MEXICO.

Loredo, Texas, Sept. 14.—Yellow fever of the most malignant type has broken out at Mier, Mexico. The fever was brought from Matamoras in merchandise. The inhabitants are leaving in every direction. There is much uneasiness here. All the towns are quarantined against Mier on the Rio Grande.

BLAINE ON THE DEFENSIVE.

Chicago, Sept. 14.—A magazine here publishes a paper by Blaine, vigorously defending the South American policy of the Garfield administration.

DENOUNCING A CANDIDATE.

Cleveland, Sept. 14.—The Catholic *Universe*, Bishop Gilmour's organ, has denounced Foran, Democratic candidate for Congress, as a renegade Catholic, and advises good Catholics to vote for Everett, Republican nominee.

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinary or Liver Diseases, as they only relieve for a time and make you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

AFTERNOON DESPATCHES

The gale having prostrated the telegraph wires, the press despatches were not received this afternoon.

The Hop Trade.

THE CROP IN ENGLAND.

Now that picking has begun in the Prince Edward district, the discouraging accounts given earlier in the season we regret have been verified, as the crop will not be over half an average one.

Buyers have been offering 40c , but there is every indication of the price going higher.

A gentleman who has just returned from a visit to the Hop growing districts in England, reports that in Kent and Surrey the crop is a total failure, and many growers paying £3 per acre will be ruined. In one yard of 200 acres he was told that the proprietor would not pick 100 lbs. this year, and in many yards the crop was not worth the trouble of picking. In the west of England the crop is not quite so bad, but even there the crop was not over an eighth of an average one. All growers that he met were unanimous in the opinion that the present year was the worst ever known for hops in England.

The sale of the first pocket in London brought £50 sterling per 100 lbs., which was about double the average for years previous.

Agricultural Fairs.

West Hastings, at Belleville, Sept. 27 and 28.

East Hastings, at Thrasher's Corners, Oct. 4.

Dungannon and Faraday, at L'Amable, Oct. 18

Permanent, Montreal, Sept. 14 to 23.

Provincial, Kingston, Sept. 18 to 23.

Western, London, Sept. 25 to 29.

Central, Cobourg, Sept. 26 to 28.

Central, Hamilton, Sept. 26 to 28.

Central, Guelph, Oct. 3 and 4.

West Peterboro, Peterboro' Oct. 3 and 4.

Lennox, Napanee, Oct. 4 and 5.

East Peterboro, Norwood, Oct. 10 and 11.

Cheese Fair, Woodstock, Oct. 11 and 12.

Prince Edward, at Picton, Oct. 5.

Murray, at Wooler, on Wednesday, Oct 18.

Tyendinaga, at Shannonville, Saturday, Oct. 7.

For 30 Years

The dark-eyed and lovely daughters of Spanish America have used Murray & Lanman's Florida Water as their only cosmetic and toilet perfume. It is the most fragrant, as well as the most lasting of all Floral Waters, and possesses refreshing and invigorating properties not contained in any other preparation of the kind.

A simple herb found on the sunny plains of a Southern clime has, under the skillful manipulation of Dr. Van Buren, proved one of the greatest blessings ever sent to sufferings humanity. Dr. Van Buren's Kidney Cure is acknowledged all the world over as the only perfect remedy for Kidney troubles. Your druggist has it.

One dose of Baxter's Mandrake Bitters will relieve Sick Headache. One bottle effects a cure. Price 25c. per bottle.

Coughs and Colds.—If taken in time are easily cured,—if allowed to continue will result in incurable consumption. Allen's Lung Balsam has the confidence and support of the medical faculty, and is recommended by all who are acquainted with its virtues.

Dropsy is essentially a watery condition of the Blood, dependent upon disordered Kidneys. Burdock Blood Bitters are strongly Diuretic and consequently the best known remedy, acting as it does upon the entire Secretory System.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. Joseph T. Inman, *Station D, New York City.* [w&m148eod

Consumption, that dread destroyer of the human race, is often the result of bad blood and low vitality, a scrofulous condition of the system. Burdock Blood Bitters cure Scrofula in its worst form.

Sure, safe and effectual, that old remedy, Downs' Elixir, for the cure of Coughs and Colds.

Commercial.

TORONTO MARKET.

Toronto, Sept. 14.—Fall wheat No. 1 $0.00 to 0.00 ; No. 2, $1.14 to $1.18 ; No. 3, $1.12 to $0.00. Spring No. 1, —$1.20 to $1.21; No. 2, $1.18 to $1.19; No. 3, $0.00 to $0.00. KIDNEY-WORT

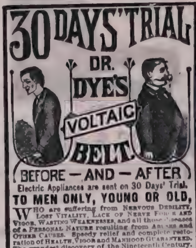
Acts at the Same Time on the Kidneys, Liver and Bowels.



Electric Appliances are sent on 30 Days' Trial.

TO MEN ONLY, YOUNG OR OLD,

WHO are suffering from Nervous Debility, Lost Vitality, Lack of Nerve Force and Vigor, Wasting Weaknesses, and all those diseases of a Personal Nature resulting from Abuses and Other Causes. Speedy relief and complete restoration of Health, Vigor and Manhood Guaranteed. The grandest discovery of the Nineteenth Century. Send at once for Illustrated Pamphlet free. Address

VOLTAIC BELT CO., MARSHALL, MICH.

SAINTE ANNE, OTTAWA RIVER.

Notice to Contractors.

SEALED TENDERS, addressed to the undersigned and endorsed "Tenders for work at Ste. Anne," will be received at this office until the arrival of the Eastern and Western mails, on TUESDAY, the 19th day of SEPTEMBER, instant, for the excavation of a channel—principally through rock—in the bed of the river on the up-stream side of the new canal works at Ste. Anne.

A plan, showing the position and section of the proposed channel and specifications of the work to be done, can be seen at this office, and at the office of the resident Engineer, at Ste. Anne, on and after FRIDAY, the 8th instant, where printed forms of tender can be obtained.

Contractors are requested to bear in mind that tenders will not be considered unless made strictly in accordance with the printed forms and—in the case of firms—except there are attached the actual signatures, the nature of the occupation and residence of each member of the same ; and, further, an accepted bank cheque for the sum of $1,000 must accompany the tender, which shall be forfeited, if the party tendering declines to enter into contract at the rates stated in the offer submitted.

The cheque or money thus sent in will be returned to the respective persons whose Tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,
A. P. BRADLEY,
Secretary.

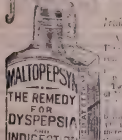
MALTOPEPSYN



MALTOPEPSYN
THE REMEDY FOR DYSPEPSIA AND INDIGESTION
PREPARED BY HAZEN MORSE TORONTO

Artificial Gastric Juice.

[illegible] Test this for yourselves, it is an interesting and useful experiment.

Get from your druggist ten drops of Hydrochloric Acid in a four ounce bottle, half-filled with tepid water (distilled water is best, though soft water will do), then add the finely cut white of a hard boiled egg, then add two doses (30 grains) of Maltopepsyn and shake bottle thoroughly every 15 or 20 minutes, keep the bottle warm, as near the temperature of the body (100° fahrenheit) as possible, and in 2 to 4 hours the egg will be entirely dissolved or digested.

Maltopepsyn is endorsed by the leading Physicians and Chemists throughout the Dominion of Canada.

Send for Pamphlet, 24 pages, giving full treatment of Dyspepsia with the rules of Diet, etc., mailed free upon application by HAZEN MORSE, TORONTO.

Price per bottle, with dose measure attached, 50 cents, contains 48 doses — about one cent per dose.

We have sold the above remedy for several months and find it spoken of very favorably by both the medical profession and the public.

We can safely recommend it to parties needing such a remedy. Signed,

L. W. YEOMANS & CO.
A. L. GEEN.

Daily Intelligencer.

A Hundred Husbands Poisoned.

AN AWFUL STORY OF CRIME AMONG HUNGARIAN PEASANTS—A PECULIAR DRUG.

From the London Standard.

VIENNA, Aug. 24.—Thekla Popoy, the peasant woman who is being tried on a charge of aiding and abetting upwards of a hundred women in poisoning their husbands, is a very remarkable character—destined to occupy a position at once unique and picturesque in the annals of crime. She is a gipsy; and is now some seventy years of age. She lived in a little village named Melenczo, and it may almost be said that murder was her trade. People say she had her agents and emissaries, whose business it was to keep up her "connection," and it must have been horrid and gruesome spectacle to see the grizzly hag seated in her armchair every day, receiving her customers during business hours, and giving them the diabolical advice and aid they sought.

They were all married women from the neighboring country side, eager, for some reason or another, to get rid of husbands who obstinately refused to die in the ordinary course of nature, but who, by Thekla's friendly offices, might be made amenable to the resources of art. These wretches paid the old gipsy a fee of from fifty to a hundred florins for each bottle of poison, and were duly instructed by her in the safest methods of its "exhibition."

Thekla's Popoy's clients were, however, not always married women. Sometimes she had dealings with young girls who quarrelled with their sweethearts, and who, from jealously or rage, had determined to kill them. This woman's terrible trade prospered amazingly for two years. She excited no suspicion, because the drugs she administered acted slowly, though surely, and in their effects simulated the symptoms of disease. Even now that the bodies of some of her victims have been exhumed they show no signs of poisoning, though the stomachs are eaten away.

The first case that set people on the alert was that of one Jocza Kukin, a rich peasant, who died at Melencze two months ago. Ugly rumors about his death were spread, and the gossips whispered mysterious hints of foul play. There was in consequence an inquest; but the most careful post-mortem examination failed to reveal any traces of poisoning in his case. The whole story was slipping out of the memories of the villagers, when suddenly a dreadful revelation was made. A gipsy girl, the daughter of old Tuekia Popoy came befor the court of Gross Bedskekek, and horrified it by the tale she had to tell. She confessed that she gave the wife of Jocza Kukin a bottle of some red liquid poison prepared by her mother. She did this by her mother's instructions. Having had a quarrel with her respected parent over some property, she determined to betray her. Thekla Popoy's daughter further declared that she actually saw Kukin's wife pour this poison into his coffee, and that she told her mother what she knew and had seen. The gipsy replied: "One day I will poison you also unless you hold your tongue."

Of course this statement caused Tuekia Popoy and the widow of Kukin to be arrested. They, however, denied the charge brought against them. Oddly enough, the Judge, by a clever ruse not quite in keeping with English notions of fair play to accused prisoners, managed to overhear the two women talking the affair over in jail. Among other things he overheard was Kukin's widow saying to her accomplice, "Well I am young and pretty. He was old and ugly. Why should he not die?" The Judge after that had little doubt that the prisoners were guilty. They were therefore put on their trial, and the clue thus unexpectedly placed in the hands of the authorities was actively followed up.

Strange discoveries were soon made, showing that, from the woman Theklia Popoy as a centre, a vast and complex ramification of crime extended far and wide throughout the community. The trial has been deferred for several weeks, so that the bodies of men supposed to have been murdered by their wives may be exhumed and examined.

An Odd Ocean Steamer.

A dome-covered and mastless vessel is being built at Nyack at the yard of James E. Smith, for the American Quick Transit Steamship Company. It is the invention of Capt. Moreland, for forty years conected with the Cunard Line. She will be launched about the middle of Sept., but, as it will take at least a month to put in her boilers and machinery, she will not be ready for her trial trip before the latter part of October. If she realizes the expectations of her inventor she will be put in the West India fruit trade, and other vessels will be made for the freight and passenger transatlantic service. All her timbers are in position, her planking is about completed, and a large force of men are hurrying forward the work. The best materials are used, and she will be stronger than the ordinary vessels, to sustain the strain of her engines, which will be double the usual power.

The vessel is 150 feet long, 21 beam, and 16 extreme breadth. She is sharp forward, and has a long, clean run aft. The speed promised is about twenty-five miles an hour, so that the voyage across the Atlantic may be made in less than six days. The model is different in every important respect from the ocean steamers now in use. First, she has about 33 per cent. more beam, and instead of the straight sides going deep down into the water, there will be a graceful rise from the keel to the load line. It is claimed that the hull will be more stable without ballast than the present type of vessels. The "turtle back" or dome deck, is a distinguishing feature as it will afford enlarged space on passenger vessels for saloon accomodation, and on freight vessels for the comfortable housing of cattle. It can be used as a promenade-deck in fair weather. The whole upper deck will thus be covered in, and the space usually exposed to the weather will be entirely utilized. It will thus be light, airy, and well ventilated. Abaft will be the main saloon, a spacious apartment, furnished in mahogany and black walnut. Large staterooms will open from the main saloon. Directly forward of the main saloon will be the engine-room, then the mess-room and officers state-rooms. Still further forward will be the quarters for the crew. Greater safety is claimed for the turtle-back; it will tie the vessel's sides together, thus making her stronger; no sea, no matter how large, can strike at right angles, and the concussive force from boarding seas is avoided by the perfect shedding of them on the curved surface. The wheel-house, smoke-stacks, ventilators, and flag and signal staffs, will be the only things rising above the upper decks. There will be no spars or masts. Among the advantages claimed are the absence of all top weight, which strains the ship in heavy weather, the avoiding of great outlay for sails and rigging, and the dispensing with a large crew of practical sailors. Another claim is that, in a straight course of the ocean, taking the wind as it blows, the atmospheric resistance against the spars, masts, and rigging of a vessel driven by steam power is so great that the gain by their removal will more than compensate for the loss of the advantage of sails in a favorable breeze. To meet the emergency of derangement to the main shaft, screw, or machinery at sea, a pair of auxiliary screws are placed one above the other in the dead-wood just forward of the main shaft and screw. When not in use, they will be inclosed by large shutters flush with the wood. If the ordinary steering apparatus should become disabled, the arrangement of these shutters is such that they can be used as a sort of double rudder, one for port and one for starboard.—*New York Sun.*

CHEAP AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Magnetic Medicine, which contains forty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column.

CINGALESE. A name well known in connection with the HAIR RENEWER, which restores grey hair to its natural color by a few weeks use. Sold at 50 cents per bottle by all Druggists.

As a cure for all diseases of the Lungs, DOWNS' ELIXIR has no equal.

DELAYS are dangerous, particularly in Kidney Diseases, so take at once DR. VAN BUREN'S KIDNEY CURE and obtain relief from all your sufferings. Your Druggist keeps it.

At the approach of spring great attention should be given to purify the system engorged with foul humors during the winter. Burdock Blood Bitters is Nature's own purifying and regulating tonic.

AFTER many years of patient investigation DR. VAN BUREN, of Germany, finally succeeded in perfecting a Kidney Cure that would permanently relieve all cases of Kidney Disease. Be sure and ask your Druggist for DR. VAN BUREN'S KIDNEY CURE.

Mothers! Mothers!! Mothers!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle. 284ly

$200.00 REWARD!

Will be paid for the detention and conviction of any person selling or dealing in any bogus, counterfeit or imitation HOP BITTERS, especially Bitters or preparations with the word HOP or HOPS in their name or connected therewith, that is intended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as HOP BITTERS. The genuine have a cluster of GREEN HOPS (notice this) printed on the white label, and are the purest and best medicine on earth, especially for Kidney, Liver and Nervous Diseases. Beware of all others, and of pretended formulas or receipts of HOP BITTERS published in papers or for sale, as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted.

UNCONDITIONAL, INCONTESTABLE LIFE POLICIES.

THE objection is often made that the Companies may take advantage of some of the conditions on their Policies, and thus either avoid entirely the payment of claims, or compromise with the widow for a small sum. This argument cannot be used against

THE SUN

LIFE ASSURANCE CO'Y OF MONTREAL,

which issues absolutely unconditional policies to selected lives. There is no restriction of any kind on them. The assured may travel to any part of the world without extra premium. He may change his occupation at will, or do anything else he chooses. The contrast is remarkable with other policies. Ask an agent to show you one; it speaks for itself.

HALL'S VEGETABLE SICILIAN HAIR RENEWER

Has been in constant use by the public for over twenty years, and is the best preparation ever invented for RESTORING GRAY HAIR TO ITS YOUTHFUL COLOR AND LIFE.

It supplies the natural food and color to the hair glands without staining the skin. It will increase and thicken the growth of the hair, prevent its blanching and falling off, and thus AVERT BALDNESS.

It cures Itching, Eruptions and Dandruff. As a HAIR DRESSING it is very desirable, giving the hair a silken softness which all admire. It keeps the head clean, sweet and healthy.

The State Assayer and Chemist of Mass. and leading Physicians endorse and recommend it as a great triumph in medicine.

BUCKINGHAM'S DYE FOR THE WHISKERS

will change the beard to a BROWN or BLACK at discretion. Being in one preparation it is easily applied, and produces a permanent color that will not wash off.

PREPARED BY
R. P. HALL & CO., NASHUA, N. H.
Sold by all Dealers in Medicine.

Farmers, Read This

THE ROYAL INSURANCE CO.

Of England.

CAPITAL	$10,000,000.
Funds Invested	$22,000,000
Annual Income	5,000,000.

Over $600,000 invested in Canada for the protection of Canadian Policy holders.

Farm Property Insured against damage by Lightning. Losses to live stock by lightning and fire anywhere on the Farm made good.

FACTS WORTH REMEMBERING.

The Royal has the largest surplus funds of any Fire Insurance Company in the world.

The Royal has the largest deposit with the Dominion Government of any other Insurance Company.

The conditions of the Royal's Policies are more liberal than those of other Companies doing business in Canada.

In conclusion remember that security should be the first consideration, and that it is to your interest to insure with the Company that gives the *greatest* security. You may better carry your own risk than entrust it where you have not absolute security.

LOCAL AGENTS.

LYDIA E. PINKHAM'S

VEGETABLE COMPOUND,

Is a Positive Cure

For all those Painful Complaints and Weaknesses so common to our best female population.

A Medicine for Woman. Invented by a Woman. Prepared by a Woman.

The Greatest Medical Discovery Since the Dawn of History.

☞It revives the drooping spirits, invigorates and harmonizes the organic functions, gives elasticity and firmness to the step, restores the natural lustre to the eye, and plants on the pale cheek of woman the fresh roses of life's spring and early summer time.

☞Physicians Use It and Prescribe It Freely.☜

It removes faintness, flatulency, destroys all craving for stimulant, and relieves weakness of the stomach.

That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use.

For the cure of Kidney Complaints of either sex this Compound is unsurpassed.

LYDIA E. PINKHAM'S BLOOD PURIFIER will eradicate every vestige of Humors from the Blood, and give tone and strength to the system, of man woman or child. Insist on having it.

Both the Compound and Blood Purifier are prepared at 233 and 235 Western Avenue, Lynn, Mass. Price of either, $1. Six bottles for $5. Sent by mail in the form of pills, or of lozenges, on receipt of price, $1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Enclose 3ct. stamp. Send for pamphlet.

No family should be without LYDIA E. PINKHAM'S LIVER PILLS. They cure constipation, biliousness, and torpidity of the liver. 25 cents per box.

☞Sold by all Druggists.☜ (1)

A GREAT GATHERING!

The Conservatives of Ontario in Convention Assembled

AN EX-REFORMER IN THE CHAIR.

Speeches by the Leaders of the Party.

HEARTY CONDEMNATION OF THE BUREAUCRACY.

The Enemies of Confederation and of Canada "Must Go"

Mr. Meredith on Local Affairs.

Municipal Self-Government to be Re-established.

CENTRALIZATION TO BE STOPPED

The Licensing System to be no Longer a Political Weapon.

THE PREMIER'S SPEECH.

SIR JOHN MACDONALD, who was received with great cheering, said:—I am told by a great authority—no less an authority than the organ of the misnamed Reform party—that I am out of place here, that I ought to be attending to my own business and to the business of the Dominion at Ottawa, and that I should leave other men to consider local provincial politics. I agree to a very considerable extent with the principle that I should pay strict attention to Dominion matters; but I maintain that in coming here to meet the Liberal-Conservatives of Ontario, in considering with them matters affecting the province, and in leading as far as I can my friends to consider questions in which the interests of the province and the Dominion are intermingled, and cannot be separated, I am serving the Dominion. (Hear, hear.) You saw me blush, I suppose, when the chairman alluded to me. (Laughter.) It is my habit to blush at a compliment. (Renewed laughter.) But while you were speaking, Mr. Chairman, I thought among other things that you were altogether out of place—that you were not, according to your own definition of a chairman, fitted to be a chairman of this meeting—that you, instead of being in a position to say as little as possible, should be one of those men who, for patriotic reasons, should be in a position in which you could not refuse to come out at an early day to fight the battles of Confederation and of the Conservative party. (Cheers.) You, sir, said it was the duty of the chairman to say as little as possible. I will only say to you that the general feeling of this audience is very much that of the Scotch judge, who, when the celebrated Henry Erskine told him that the case was so plain he would make his statement short, exclaimed, "Oh, Master Harry, dinna be brief, dinna be brief." (Cheers and laughter.) Allow me, sir, to congratulate the Conservative party on the success of this meeting. It is a signal success. (Cheers.) I think there are at least two hundred present. (Loud laughter.) You know two hundred people make a successful meeting. That is the number, I am told, that greeted Mr. Mackenzie at Victoria park, and of course his meeting was a success. (Laughter.) Seriously speaking, I am glad to see such a wonderful gathering; and I am proud, sir, to have you as our chairman. (Cheers.)

THE TRUE REFORM PARTY.

You and your family were for many years connected with the Reform party, when there was something to reform; but you have risen superior to old party connections—sacrificing, what is a great thing for a party man, your party feelings—you have done this, I say, for the good of your country. And I am proud to know and believe that the Liberal-Conservative party includes in its ranks all or most of the true Reformers of the old Baldwin party. (Cheers.) Not only that, but besides those who like yourself have openly declared their principles as opposed to the party calling itself Reform to-day, there are many Reformers who, though they have not the courage to declare themselves openly, wish God speed to every effort that is made to develop this great country of ours. (Cheers.) Mr. Chairman, in drawing a distinction between the Conservative party and that other party, you said that one is governed by positive assertions and the other by negative. That is quite true. That while the Opposition in the Dominion House and the Government in the Local House—and they are one and the same things, being joined by ties which cannot be severed—negative every principle that looks to the improvement of the country, they are positive that the Local Government will hold its place, and that it will use its influence in the fight for free trade, so far as it dare fight for it, in opposition to the expressed will of the people. Sir,

WHEN BAD MEN CONSPIRE

good men must unite. I do not say that any one single member of the Ontario Government is a bad man. Some of the members I know well. Mr. Mowat I have known from his infancy, and I have an affection for him, as I had for his father before him. But I do say that when regardless of the best interests of their country, and for the purpose of holding positions for which they have neither the ability nor the capacity, those men endeavor to break up the Confederation and to sow the seeds of disunion—when these petty men sneer at the Dominion and attempt to introduce the entering wedge of secession—I would be wanting in my duty if I did not come here to call upon the Liberal-Conservatives of Ontario and all patriotic men to rise in their might and remove them from power. You must not rest upon your oars. You must not depend simply upon the justice of your cause (Applause.) Victory will crown—as it has crowned in Egypt to day—(loud cheers)—the struggles of the brave soldiers who, under wise guidance and leadership, throw themselves upon the enemy and carry the entrenchments, however strong the enemy may be. (Cheers.) It is a good augury for this meeting that it is being held while the sunlight of victory is shining on the points of the bayonets of our soldiers in Egypt. (Loud and continued cheering.) Sir,

THE CONFEDERATION IS IN DANGER.

Do not think that there is no danger because the agitators are few in numbers and insignificant. It is known that the French revolution occurred, and the head of Louis XVI. rolled on the scaffold, in consequence of the reckless agitation of a small minority in Paris. (Hear, hear.) Do not think then that an active minority cannot cause danger, and do not despise or neglect the first intimation that there is an attempt to disintegrate or destroy the constitution. The active man who is continually pressing his principles upon the public is worth a thousand men who sit at home and do nothing, just as twenty or fifty or a hundred soldiers or organized police are superior to a disorganized mob. We must not, therefore, despise the small beginnings of those who are enemies of our constitution. (Hear, hear.) One of the questions with which the Ontario Government founds an attack upon the Confederation, in the hope of thereby retaining power, is

THE BOUNDARY QUESTION.

Gentlemen, that question arose many years ago. In 1872 I offered, as Premier of Canada, to leave it to be settled by the Judicial Committee of the Privy Council. Had the Government then agreed to my proposal the question would have been settled two years afterwards, or eight years ago. But for factious and political reasons that offer, a perfectly fair offer—an offer to secure a legal decision, an offer which any of you would accept were the boundaries of your farms in dispute, was not accepted. It was a sensible offer and a proper offer, and it is an offer from which we have not varied. Mr. Mowat's organ got up the lie the other day that Mr. Mousseau in a speech said there was a bargain between him (Mr. Mousseau) and myself that Ontario should not be granted territory to which she is entitled unless Quebec got a consideration. Mr. Mousseau did not say any such thing, and he could not truly; but he has explained the matter, and I dare say you have seen his explanation in the *Mail*. The fact is the question must be legally settled. The reasons why the Dominion does not accept the award are these:—It was an arbitrary award. It was an award made on a reference without the consent of Parliament. It is an award which can by no means be made valid. If the Dominion Parliament passed an Act to-morrow ratifying it,

IT WOULD NOT BE LEGAL;

and Mr. Blake, who values his reputation as a lawyer, has not ventured to say that it would be. There was an Imperial Act passed declaring that the Dominion Parliament, with the consent of the provinces concerned, might increase, diminish, or otherwise alter the boundaries of any province; but that Act does not give us power to say what is the true boundary line of a province. A decision as to what is the true line—and that is the line required for Ontario by the Confederation Act—can only be arrived at through the courts. (Hear, hear.) And if I had agreed to the proposal of Mr. Mowat and Mr. Mackenzie, and had passed a bill affirming that a certain line was the true line, my bill would not have been worth the paper it was printed on, for you would still have to go to the courts to get a decision as to where the true line is. But in this matter Mr. Mowat has shown

A GREAT WANT OF CANDOR.

You may remember how he tried to conceal the fact that I had endeavored to arrive at a settlement. You may remember how he tried to deny that I had made several propositions until a confession was drawn from him by the united exertions of my friends, Mr. Meredith and his colleagues. (Hear, hear.) They got him to admit at last that he had been treating with me, and, as you know, it was while he was privately discussing with me the best means of arriving at a solution of the question, that he was openly abusing me and trying to prejudice those whose good opinion I value against me, on the ground that I was wilfully sacrificing and neglecting Ontario's interests. (Hear, hear.) I proposed a reference to the Privy Council, but he said that would cost too much. Then I proposed that Lord Eldon or Lord Cairns should be invited to enquire into the matter out here, to report to the Privy Council at home, in order to get a final decision from the highest tribunal. But as you are aware, agitators do not care for the settlement of a disputed question; their political existence depends upon the keeping of the question open. So the proposal was not accepted. At the very last Mr. Mowat secures the passage of a resolution in which he offers to agree to an arbitration if, in the meantime, the Dominion Government will give him the territory to manage until a decision had been arrived at. (Laughter.) Now, suppose you and I had an arbitration about the coat on my back, would you be justified in proposing that I should take the coat off and allow you to wear it until the question was settled? (Laughter.) I could not agree to that; but I'll tell you what I did. I went as far as Solomon did in giving his judgment about the disputed child. I said, "We will leave it to the courts; but in the meantime you appoint a commissioner and the Dominion will appoint a commissioner, and the two will govern the country until a settlement is arrived at, when the money will be divided according to our respective rights." But this has not been accepted; and Mr. Mowat, forgetting his pledge as a member of the Reform party that there should be neither alliance nor hostility between the Dominion and Provincial Governments, has gone to the country and stated that the Dominion Government and its supporters in Parliament have been untrue to Ontario. Sir, what has been the verdict of the people of Ontario with reference to his statement? (Cheers.) Do you think that the 88 Ontario men in the House of Commons would sacrifice their province any more than the 88 Ontario men who sit in Toronto?

THE LITTLE PREMIER DESCRIBED.

But Mr. Mowat, with his little soul rattling like a dried pea in a too large pod—what does he care if he wrecks Confederation and interferes with the development of Canada so long as he can enjoy his little salary as Attorney-General, and keep Mr. Hardy, Mr. Pardee, Mr. Dardy, and Mr. Lardy—(loud laughter)—in office? What does he care if he causes the destruction of our commercial, agricultural and financial hopes so long as he can sit in his office as Attorney-General and whittle away at little bills, upsetting courts, and creating the same courts over again under another name? (Laughter and applause.) It is this policy that I am here to oppose, and it is this policy that I call your attention to as patriots. I have heard people speak contemptuously of the Legislature, and say it is a one-horse affair. I wrote the other day to a friend who said that, and remarked that to desire to govern a country of two millions of people is an ambition worthy of the greatest men in the world—(cheers)—and to wish for a seat in the Ontario Legislature is a great and worthy ambition. (Hear, hear.) Before I sit down I will speak for one moment about the other point upon which Mr. Mowat attacked us—the disallowance of

THE STREAMS BILL.

Gentlemen, I am personally responsible for that disallowance. I tell you that as First Minister of Canada I would have been unworthy of my position if I had not disallowed that bill. (Hear, hear.) It is of the first consequence that the rights of property should be protected, and if those rights are not protected it is a sure sign that the country is barbarous. Every man has a right to enjoy the fruits of his labor, and if the country in which he lives does not protect him in that enjoyment, that country cannot rank among civilized nations. In this case a timber merchant who had earned his possessions by by hard work desired to afford additional means for floating his timber to market. He therefore at great expense dammed up a stream that was not navigable, and built a timber slide. A less enterprising man desired to use his improvements. But he did not offer to pay half of their cost. He merely claimed the right to use them, and went to the courts in support of his claim. It was while the matter was before the courts that Mr. Mowat, at the dictation of a nephew of the claimant—Mr. Caldwell—stepped in and passed the bill, ostensibly a public bill, but really a private measure, giving Mr. Caldwell the right to use Mr. McLaren's property. Now the Confederation Act says that the Dominion Government, as representing the Parliament has the power to look after the peace and good government of the country, and this measure was conducive to neither. But it is said we have made an attack upon

PROVINCIAL RIGHTS,

and that we have done this at the dictation of other provinces in the Dominion. Do you not think that the people of Quebec are as anxious to maintain their provincial rights as the people of Ontario? Do you think their representatives would consent to an attack or be a party to an attack upon rights which they by virtue of their position in the Dominion value most highly? However, gentlemen, we have been supported in disallowing this confiscatory bill. (Hear, hear.) I may say, though, that I do not care what the popularity of disallowance of such a measure may be; as long as I hold my present position it will be my duty to encounter any unpopularity for the sake of protecting the rights of property. (Cheers.) But I have kept you too long. The enthusiasm which you show proves that you intend to rescue Ontario from

THE TYRANNICAL HANDS

into which it has fallen. (Hear, hear.) There is no greater sign of weakness than tyranny. If it is impossible for a Government to point to good measures, and to win the people by their means, it resorts to tyranny. (Hear, hear.) Was there ever such a tyrannical Government as the forcible feeble Government of Ontario? (Hear, hear.) They were afraid the tavern-keepers would be against them, so they took possession of their business. They were afraid bailiffs and court officials would be against them, so they took the control of these officers and said, "If you dare call your soul your own we will starve you." (Hear, hear.) A sheriff is liable to be indicted if a prisoner in his charge escapes. But the Government will not allow the sheriffs to select gaol officials upon whom they know they could rely, but arranged matters so as to be in a position to thrust worn-out political hacks upon them. The greatest proof of freedom in this country is in the existence of local self government; but of this the Local Government is depriving you. (Hear, hear.) It is the knowledge of the fact that he cannot win the country by his measures that causes Mr. Mowat to seize upon all the fountains of power and patronage, and to agitate against the Confederation. But this is a thing he must put down. And I tell my friends in the Local House that they will fall short of their duty if they do not put an end to this concentration of all the power in the province in the hands of five or six gentlemen sitting in Mr. Mowat's office. (Loud cheers.)

MR. MEREDITH'S SPEECH.

MR. W. R. MEREDITH, who was then introduced, was loudly applauded. He said the enthusiasm of the gathering inspired him with the belief that the Conservative party was determined to enter the contest on the present occasion to win. At the last local contest the party was unprepared and without organization. Besides that, the support which the candidates received from the party was not what it should have been. It was to be remembered, however, that it was to the friends of progress in Canada of the highest importance that the Local Government should no longer be in the hands of the retrograde party, for so long as the Reformers held the Ontario Government, so long would the citadel be in the hands of the enemy. It was the duty at this juncture, not only of every man calling himself a Liberal-Conservative, but of every patriotic man to put his shoulder to the wheel and to remove from power the men who were putting themselves in the way of the country's advancement.

A SHADY RECORD.

What had been the course of the present Government since it had assumed power? Everything that could be done in the way of creating useless offices had been done with a view to seizing upon the control of Dominion affairs for the party. And he could say that large as was the Conservative majority in the Dominion House, at the next general election, if Mr. Mowat was allowed to continue in office, so well was he laying his wires, there was a danger that the control of affairs would pass into the hands of the Reformers. It was therefore of the highest importance that those who desired the well-being of the country should remove the present Local Government from office. (Hear, hear.) He (Mr. Meredith) had been accused by the Reform party as a traitor to his native province. In no way had he shown himself as such. (Hear, hear.) As an Ontario man he was proud of his province, and anxious to promote its welfare. He, nevertheless, could not overlook the fact that he was a citizen of a great Dominion, and that it was his bounden duty as a patriotic Canadian to frown down all attempts to create sectional quarrels in the Confederation, and all efforts to bring about disintegration. He would appeal to anyone to say what had been the record of the Reform party so far as its attitude towards the Confederation was concerned. Before 1867, by raising the cry of French domination, the Reformers endeavored to bring about ill-feeling, and if possible war, between Upper and Lower Canada. Later on, when the question of better terms for Nova Scotia came up, an effort was made to cause sectional difficulties (Hear, hear.) When Prince Edward Island was added to the Dominion the Reformers opposed the addition of that little gem to Canada, and carped at the terms. When British Columbia was admitted they did not hesitate to say that they were in favor of letting that province stay out of the Union. To-day they were again raising sectional cries, but their only object was their own aggrandizement. (Hear, hear) An attempt was being made to make the people of Ontario believe they were being robbed of their territory, but as had been explained, it was not within the power of the Dominion authorities, the Quebec politicians, or any other men to deprive the province of an inch of territory to which it was legally entitled—(hear, hear)—and the gentlemen who were shouting about

THE ROBBERY OF ONTARIO

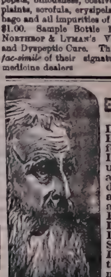
knew that right well. (Hear, hear.) There was a tribunal to which the province could appeal if it thought any injustice was being done to it, and in the matter of the disputed territory the recommendation was made that the question should be legally and perfectly settled by a properly constituted authority. As apposed to this proposal, which had been already endorsed by the people at the polls, the Ontario Reformers had counselled the taking of the territory by force. The Opposition objected to such a proposal, and in doing so he was sure they had the support of all patriotic and honest citizens of Ontario. (Cheers.) Then it was said that a conspiracy had been entered into between Sir John Macdonald and Quebec to deprive Ontario of her rights, and it was alleged that Quebec had said that if Ontario was awarded the 62,000,000 acres in dispute Quebec must receive and equivalent. But did not these stories, if true, justify the course Sir John had taken in the interests of his country? Was it not important that there should not be given to the Province of Quebec the slightest excuse for saying "these 62,000,000 acres of land were illegally given to Ontario, therefore we are entitled to get out of the taxpayers of Ontario an equivalent"? (Hear, hear.) Sir John in his wisdom had said that Ontario must have every inch of land to which she was entitled, but she would prove her claim in a court of law. (Hear, hear.) Was not this the proper and constitutional course to take? Would it not prevent Quebec from saying that by a disputed award Ontario had been given territory that did not belong to her, and that in consequence Quebec should receive some consideration at the hands of the Dominion? Again, the House of Commons had voted the reference

CONTINUED ON SECOND PAGE.

The most wonderful curative remedies of the present day, are those that come from Germany, or at least originate there. The most recent preparation placed upon the market is this country, is the GREAT GERMAN INVIGORATOR, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangements of the nervous system. For sale by druggists, or sent free by mail on receipt of the price, $1.00 per box, or six boxes for $5.00 Address James Clark & Co., Sole agent for Belleville. Send for circular.

Rheumatism is greatly dependent on a vitiated condition of the fluids, and may be eliminated from the system by cleansing the Blood and regulating the Kidneys. Burdock Blood Bitters will do this most effectually. Trial bottles 10 cents.

RACKED BY INNUMERABLE PANGS, restless by day, sleepless at night, rising unrefreshed in the morning, without appetite and pestered by varying and perplexing symptoms, the dyspeptic takes indeed a gloomy view of human existence. For him the zest of life seems gone. Heartburn, oppression at the pit of the stomach, and the attendent annoyances of of constipation and biliousness, combine to render him utterly wretched. But there is, if he will but take advantage of it, a reliable source of reliable relief from all misery. NORTHROP & LYMAN'S VEGETABLE DISCOVERY AND DYSPEPTIC CURE is, as its name imports, a botanic preparation, free from mineral poison, and an all-sufficient remedy for indigestion in its most obstinate form. It not only enriches the blood by enabling the digestive organs to convert the food received into nutriment, but depurates it by increasing the action of the bowels and kidneys, the natural outlets for its impurities. But while it relaxes the bowels, it never does so violently and with pain, like a drastic cathartic. It aids, but never forces, Nature, invigorating as well as purifying and regulating the system. It thoroughly removes those diseased humors which tend to vitiate the blood, purifies the urinary secretion, and promotes a flow of healthy bile into the natural channel, besides expelling it from the circulation. Experience has proved that this standard medicine is a thorough remedy for dyspepsia, biliousness, costiveness, kidney complaints, scrofula, erysipelas, salt rheum, lumbago and all impurities of the blood. Price $1.00. Sample Bottle 10 cents. Ask for NORTHROP & LYMAN'S Vegetable Discovery and Dyspeptic Cure. The wrapper bears a *fac-simile* of their signature. Sold by all medicine dealers



WILL EXCHANGE a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys.

Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

BUTLER'S

Celebrated

BLACKBERRY CORDIAL.

The most effectual remedy yet discovered for Cholera, Cholera Morbus, Diarrhœa, Dysentery, Cramps, Colic, looseness of the Bowels &c.

This justly celebrated preparation is highly recommended by the medical men, and has been used with the greatest success for the last ten years throughout the United States.

of the matter to a competent tribunal. For the reference the Quebec members had voted; Quebec and the other provinces were therefore committed to the reference, and to the result of the reference. (Hear, hear.) Therefore, if the reference was made, and Ontario proved her right to the territory, the territory would belong to this province, and Quebec having agreed to the reference could not claim an equivalent for the 62,000,000 acres. (Hear, hear.) But what was the course of Mr Hardy, Mr. Pardee, and Mr. Mowat? They not only threatened to take the territory by force, but

THEY INSULTED THE VOLUNTEERS

by impugning their loyalty, and alleging that they would drop their allegiance to the Queen, at the whim of a few Ontario politicians, and join with rebels against constituted authorities in a civil war. He (Mr. Meredith) had too much confidence in the loyalty of the volunteers and their love for the old flag, to think for a moment they would act the part of disloyal men or do anything of which British subjects should be ashamed. (Hear, hear.) It was said, however, that if he (Mr. Meredith) was placed at the head of affairs he would join with Sir John Macdonald and deal unjustly with his province. He did not think it was necessary for him to deny such an accusation in the presence of an assembly of friends, but he would say that he believed Sir John Macdonald had too high an idea of his position and the duties of a member of the Government of Ontario, to dictate the position such a Government should take on any question. For his part he could say that Sir John Macdonald had never yet interfered in such a manner, and he might add that as much as he admired Sir John, should he attempt to do that which was unjust to Ontario, he (Mr. Meredith) would rise above mere party considerations and say, "I am here as the custodian of the rights of the province; I am here to defend those rights against political friends as well as politcal foes," and there was not a man in the community who knew him who did not also know that he would do as he said. (Cheers.) Another question upon which the Reformers had tried to excite the people was

THE STREAMS BILL.

He was one of those who believed the provinces should hold fast the rights guaranteed them by Confederation. But the Dominion had rights as well as the provinces, and these rights must be exercised within the lines of the Confederation Act. It was provided amongst other things at Confederation that there should be a safeguard against improper provincial legislation, and that safeguard consisted of the power to disallow given to the Dominion Government. That power should be exercised with the greatest care. That it was properly and carefully exercised when the bill handing to Mr. Caldwell the property of Mr. McLaren was passed no one can successfully dispute. This would indeed be a poor country to live in if a partisan majority could seize upon the property of a political opponent and confer it upon a friend, knowing that against its extraordinary conduct there was no appeal. Nor was the disallowance of an arbitrary and grossly unfair measure an attack upon provincial rights. If it was, the very men now complaining of the disallowance had been guilty of attacks upon the provinces, for a few short years ago they disallowed a bill from Prince Edward Island for precisely the same reason that the Steams bill was disallowed, while Mr. Blake sat in judgment upon the Quebec Fire Policy Act, and disallowed it, because he considered it to be unwise. (Hear, hear.) The ground he took was that the provinces had a right to exercise the powers conferred upon them within the limits of the Confederation Act without the interference of the Dominion Executive. At the same time, if a province passed a measure opposed to the proper principles of legislation, or to the general interests of the Dominion at large, the Dominion not only had a right under the law, but it was its duty to exercise its power to veto and prevent the defective law from taking effect. (Hear, hear.)

MUNICIPAL GOVERNMENT IN DANGER.

It was almost an axiom that the fullest possible liberty, consistent with the general interest, should be accorded every citizen. It followed as a corollary to that that there should be given to our municipal bodies the fullest possible power consistent with the proper administration of local affairs. The Provincial Government had not followed this doctrine, but had taken from the people all possible powers, declaring that they were not fit or competent to exercise them—(hear, hear)—and they had done this for the purpose of aiding their party. (Hear, hear.) Were not the license commissioners and inspectors, he would ask, merely political machines, used for political purposes? He held that in taking away from the people the right of dealing with

THE LICENSING QUESTION,

the Government had been guilty of two grave offences; one was taking away rights which the people should exercise; the other was taking a mean advantage of an honest sentiment among the temperance people for the purpose of making use of it for their own political advantage. When the Crooks Act was originally passed, Mr. Mowat declared that he would select for the position of commissioners the best men, irrespective of politics, and that he would not use the licensing system for partisan purposes. How has he carried out his pledge? Instead of appointing men without regarding political alliances, he had selected the most active partisans he could find for the express purpose of controlling the liquor trade in the interests of his party. He (Mr. Meredith) was prepared to say that the present Opposition if it took office would be prepared to wipe away the partisan Boards of Commissioners. (Loud cheers.) It was prepared to restore to the people of the province the rights they formerly exercised. (Cheers.) It proposed to give back to the municipal bodies the rights they formerly enjoyed. (Continued cheering.) He was not afraid that the people would not, or could not, use their powers properly. He was not like the alleged Liberals, who were afraid to entrust the people with the powers belonging to them. (Cheers.) Nor did he suppose in making the announcement that he would alienate one temperance vote. No one could deny that the licensing power had been used for political and not temperance purposes, nor was it possible to forget

THE INSULT TO TEMPERANCE MEN

of which Mr. Mowat had been guilty. "I could not find," he (Mr. Mowat) had said, "one temperance Conservative in the country whom I could entrust with the administration of the law." He (Mr. Meredith) thought there were just as honest temperance Conservatives as temperance Reformers. (Hear, hear.)

MR. MOWAT'S GRASP OF POWER.

To show his hearers the insidious manner in which Mr. Mowat had encroached upon the rights of the people, he would just mention one circumstance. Mr. Bethune proposed that the Government should appoint Division Court clerks and bailiffs. Mr. Mowat was shocked at the proposal, and said he could never take the power to appoint such officials. Three or four years afterwards he took the power. But at first he only proposed—and this showed that it was for his party that he was working—to take the larger and more remunerative offices. If there had been any public reason why he should have taken the power to appoint in these cases he would have at once taken the small as well as the larger office under his wing. But it was not until the party expressed a wish that he should take in the small offices also that he included them in his bill. Now, in the opinion of the Opposition, it was neither desirable nor necessary that those offices should be filled by politicians. It therefore proposed to restore the power to appoint these officials to the county judges—men who were in a position to select independently the best persons for the position. It was not the intention of the Opposition to carry out the Ministerial policy of seizing even the patronage of the schools, and appointing the school teachers, but it was their determination to restore to the people the control of their own affairs. (Loud cheering.)

The hon. gentleman concluded by again pointing to the necessity of removing from office the men who had declared that they would use their offices and all the power they could seize upon to thwart the wishes of the people regarding the fiscal policy of the country. He urged the young men who were flocking in such numbers to the Conservative standard to aid in the good work of sending patriotic men to the Legislature to labor for the province and for the people, and not, as the Reformers labored, for their own aggrandisement. (Loud cheers.)

"It was my wife's misfortune to be laid up with rheumatism," writes Peter Balliet, Alexander, Kan. "that she could not sleep because of the pain, and could not move her arm. Three days' use of St. Jacob's Oil cured her, as I can prove to any one's satisfaction."

Daily Intelligencer.

BELLEVILLE, FRIDAY, SEPT. 15.

End of the Egyptian War.

Glorious as was the victory won by the gallant troops led by Sir Garnet Wolseley at Tel-el Kebir, it was hardly to have been hoped that it would prove so decisive as to end the war. Yet so it has proved. The pursuit of the fleeing enemy was so rapidly conducted that Cairo was reached by the pursuers almost as soon as by the pursued, and Arabi and his chief adviser Toulba surrendered unconditionally to their conquerors, whilst ten thousand of the enemy's troops laid down their arms. Thus the war has been ended at one stroke, and General Wolseley and the British troops gain additional well-earned laurels. This glorious news will be received with joy by all civilized peoples.

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists.

The Coal Trade.

Besides increasing the number of miners and giving employment to ships and capital, there is a further great advantage to the Dominion from the fostering of the coal trade in Nova Scotia, namely the increasing of the revenue of that province. No one has, we presume, forgotten the agitation in Nova Scotia for better terms, and the fact that Parliament found it necessary to increase the provincial subsidy. However, with the increase in the output of coal there will be no more heard of future agitation for still better terms, as the province now derives a largely increased revenue from coal royalties, thanks to a policy which develops our own resources. The Halifax *Herald* informs us that the output of coal for this year in Nova Scotia will far exceed that of any previous year. The sales in 1881 were larger than ever before, being over a million tons, while under the reciprocity system they never reached more than two-thirds of that quantity. But the yield in the part of the year already past exceeds by about twenty-five cent that of 1881. The prospects are that we shall sell in 1882 over one and a quarter million tons of coal, or nearly double our sales four years ago. And we think, adds our contemporary, that the production of coal in this province is likely to be largely increased. Mining companies appear to feel sure of the sale of any quantity they can raise, hence they are enlarging their works and increasing their output. Spring Hill is adding about fifty per cent every year to the quantity of coal raised and sold, and in nearly every other mining region in the Province an improvement is found.

Don't die in the House.

"Rough on Rats." Clears out rats, mice, roaches bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

Who Pays the Duty?

The Berlin *News* says:—"The editor of the Belleville INTELLIGENCER has seen invoices of coal sold by American dealers to Canada where the amount of Canadian duty is deducted from the same. One of these was for 32½ tons, less the duty on same:—$19.50. This shows conclusively what we have continually maintained, namely, that where imported goods came in competition with those of our own country the producer almost invariably pays the duty.

"We have been given another proof of the same by a long conversation with Mr. J. H. Ashdown, one of the largest wholesale merchants in Manitoba, as he has not only one of the largest stores in Winnipeg, but no less than three very successful branch establishments at Emerson, Portage la Prairie, and Rapid City. He assured us most positively that in nearly all the purchases he makes in the States he receives, in addition to the ordinary discount which is allowed to American purchasers, a reduction equal to the Canadian duty.

"No doubt other dealers could be found by the hundred who can give the same evidence, but the character of Mr. Ashdown for honesty and veracity, is so well established and acknowledged that if dozens of other names were added to prove the same thing it would not add to the force.

"All this proves once more, what we have so often proved by facts, that where imported goods come in competition with those of our own country the producer almost always pays the duty, all the twaddle and sophism of ranting Grits to the contrary notwithstanding."

O. Bortle, of Manchester, Ontario Co., N.Y. writes:—"I obtained immediate relief from the use of *Dr. Thomas' Eclectric Oil.* I have had Asthma for eleven years. Have been obliged to sit up all night for ten or twelve nights in succession. I can now sleep soundly all night on a feather bed, which I had not been able to do previous to using the Oil.'

Nervous debility is a result of indiscretion in the mode of living. Heed nature's unerring laws and take Burdock Blood Bitters, the Great System Renovator and Blood, Liver and Kidney regulator and tonic. Sample bottles 10 cents.

PROCLAIM it far and wide that DR. VAN BUREN'S KIDNEY CURE not only immediately relieves all Kidney diseases, but what is more important to the unfortunate sufferer, will ultimately cure him effectually.

Hall's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by Jas. Clarke & Co., Belleville, Ont.

The Convention.

The speeches of Sir John A. Macdonald and Mr. W. R. Meredith—the leaders of the Conservative party in the Dominion and in Ontario respectively—as reported by the *Mail*, are reproduced in other columns. That they would be eloquent and to the point was to be expected, and expectation is more than realized in their candor, moderation and terseness. Sir John sweeps away all Mr. Mowat's pretences on the Boundary and Streams questions, whilst Mr. Meredith, dealing with the usurpations of the Provincial Government, clearly shows what the effect of those usurpations is and manfully declares that he will, if given the opportunity, restore to the people those rights of which they have been unjustly deprived. He was particularly explicit on the license iniquity, of which the people of West Hastings have had so bitter an experience, and showed the danger to the Dominion from Mr. Mowat's insidious graspings of power and patronage.

These speeches are masterpieces of their kind and will largely assist in securing the victory which we feel assured the Conservatives of this province will, with proper organization, secure when the general election occurs.

Catarrh of the Bladder.

STINGING irritation, inflammation, all Kidney and Urinary Complaints, cured by "Buchupaiba." $1.

Editorial Brevities.

Sir Garnet Wolseley commenced his attack on the Egyptian tyrant on the 13th, and the result was a brilliant victory. On the same day the Conservatives of Ontario, led by equally able leaders in the field of politics, began to attack the Mowat tyranny in Ontario. The coincidence is a happy one, and we hail the augury with pleasure.

The *Mail* publishes the following pen-portrait of the Ontario Grits:—"The remnant of the Grit party, which now holds a feeble place in the Dominion Parliament and is losing its hold on the province of Ontario, has nothing of the Reform party but its name; it is a jackass in a lion's skin; it has abandoned every Liberal principle professed in old times by men whose shades must shudder at the creatures who have usurped their title."

Prince Arthur, Duke of Connaught, was the first of the Queen's sons to receive his baptism of fire. He commanded a brigade of the Guards at Tel-el-Kebir and conducted himself gallantly.

The *Globe* has not as yet been shamed out of sneak-reporting. Its application for the admission of one of its reporters to the Convention was refused, and yet it furnishes what purports to be a report by a member of its staff who had managed, by some underhanded, and consequently disreputable, means to gain admission.

General Wolselely has not realized his anticipation of dining in London on September 15th, after having ended the Egyptian war. However, he has come near enough it to please his admirers, and they now comprise all the people of Great Britain and her colonies.

The Close of the Convention.

The *Mail* says:—"The second day of the Liberal-Conservative Convention was naturally not so exciting as the first, nor the members present so many. But from half-past nine in the morning till half-past one, from 600 to 1,000 men were present during most of the time, listening to the brief addresses and passing the resolutions elsewhere published and commented on. The gravity and earnestness of the meeting were most encouraging; the status of the men present was very noticeable—the wealth, the business, the intelligence, and the political experience of the province were all strikingly represented. The speech in which Mr. Cowan, of Galt, with a fervent earnestness that carried conviction to the country, pledged himself and his friends to the support of the National Policy against the organized official hostility of Mr. Mowat's Government, was a very noticeable feature of the day. Messrs. Gurney and Cowan are not men who speak lightly for talk's sake; they are too busy for mere talking; they understand the temper of the people and they recognize the danger they have to face in the public interests; and they mean work.

"The speech of the Finance Minister was an event of the day as well. We shall refer to it more particularly again. Meantime, the eagerness with which it was waited for, the enthusiasm with which it was received, and the facts which it contained, must have struck those present with great force. Sir Leonard Tilley's presence and his speech were significant reminders of the fact that the National Policy was to a certain extent at stake; and that Mr. Mowat must be removed in order that the policy might be vindicated.

"We congratulate our friends on the enthusiasm and energy they have manifested. We congratulate the two chiefs on the evidence of their popularity they have witnessed. We congratulate the people of Ontario on the earnest spirit that is abroad among them. We hope to be able to congratulate the province ere long on its redemption from a clique of men who, possessing neither ability nor honesty nor loyalty, have been conspiring to smother the free exercise of the liberties of the people, and to fortify themselves in power by intimidation, corruption, and misrepresentation. Those who were present at the convention of 1881 are proud of their part in it, and of the success which flowed from it. Let those who have been members of the convention of 1882 see that they shall have reason to be as proud." We will publish the resolutions to-morrow.

PEARLS.—Get your mouth full by using "TEABERRY," the new wonder for the Teeth and Breath. Brush vigorously. See directions. 5 cent samples.

Sure, safe and effectual, that old remedy, DOWNS' ELIXIR, for the cure of Coughs and Colds.

Campbellford Correspondence

CAMPBELLFORD, Sept. 12.

THE REVOLVER AGAIN.—A man by the name of David Johnson, who lives all over, but has been in the employ of Messrs. H. B. Rathbun & Son off and on for the last five years, on Monday last came to the office in Campbellford for settlement, and was paid what money was due to him, according to Mr. Callaghan's instructions, but still Johnson claimed one dollar and fifty cents more. He then left, but came back in the afternoon intoxicated and demanded the dollar and fifty cents. Two or three times Mr. Callaghan told him to go out of the office and said he would get no more money there. Johnson then drew his revolver and said he had five shots ready for Callaghan. It is thought that if Mr. Callaghan had made any motion towards Johnson he would have shot him dead. Mr. Callaghan then took the revolver from him assisted by County Constable Saylor and brought him before Jas. Loviscoute, Esq. Prisoner was sent to Cobourg jail.

This afternoon (Thursday) the high wind blew down the roof of the new Methodist Church and forced out the gable wall. The force of the wind also removed a chimney and part of a wall from Mr. T. Hopkins' new building.

If Nearly Dead

after taking some highly puffed up stuff, with loud testimonials, turn to Hop Bitters and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes, or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides, it is the best family medicine on earth.

The International Rifle Match.

The rifle match between teams representing the British Volunteers and the National Guards of the United States was began at Creedmor on the 14th. The conditions are: Twelve men a side, 7 shots each at 200, 500, 600, 800, 900 and 1,000 yards. Position: At 200 yards standing; at 500 and 600 yards prone; at other ranges any position. Guns to be cleaned only between ranges. The match is divided into two parts, the first three ranges to be shot on the first day and the longer ranges on the second day. The contest on the first day was close, but the British were ahead 19 points, the score being as follows:—

	200 yds.	500 yds.	600 yds.	Total.
British	340	378	344	1062
Americans	331	369	343	1043

The British practice at the long ranges has been much superior to that of the Americans, and consequently their success is highly probable.

☞ The Diamond Dyes always do more than they claim to do. Color over that old dress. It will look like new. Only 10 cents.

For 30 Years

The dark-eyed and lovely daughters of Spanish America have used MURRAY & LANMAN'S FLORIDA WATER as their only cosmetic and toilet perfume. It is the most fragrant, as well as the most lasting of all Floral Waters, and possesses refreshing and invigorating properties not contained in any other preparation of the kind.

A SIMPLE herb found on the sunny plains of a Southern clime has, under the skillful manipulation of DR. VAN BUREN, proved one of the greatest blessings ever sent to suffering humanity. DR. VAN BUREN'S KIDNEY CURE is acknowledged all the world over as the only perfect remedy for Kidney troubles. Your druggist has it.

Daily Intelligencer.

BELLEVILLE, FRIDAY, SEPT. 15.

City and Vicinity

THE police cells were untenanted last night.

THERE was no business transacted at the Police Court this morning.

"ONLY a Farmer's Daughter" at the Metropolitan Hall this evening.

HON. MR. BOWELL and Miss Bowell arrived in the city by the noon express to-day.

THE public installation in the Congregational Church this evening should be borne in mind.

MR. W. H. BLAND, formerly of Belleville, now of Pembroke, is in the city on his way home from the Toronto exhibition.

MR. HEATH, advance agent of "Atkinson's Jollities" is in the city. That company will appear here next Thursday; the 21st.

MESSRS. CHAS. GILLEN and Geo. Moore, old Belleville boys, are working adjoining farms about 800 miles north-west of Winnipeg.

THE Cobourg *Sentinel-Star* says that the 49th Battalion, although having had but two days' drill, did exceedingly well on review day.

MISS HELEN BLYTHE and her Company arrived here this morning by the express from the east, and are stopping at the Dafoe House.

THE gale which began yesterday morning continued with unabated violence throughout the afternoon. No serious damage, however, was caused in the city.

A SUBSCRIBER sends us, all the way from Winnipeg, a copy of the INTELLIGENCER of August 18th, for which we advertised to complete our files. Thank you, W. A.

A BASS weighing 4 lbs. 14 oz. was caught at Long Point a day or two ago by Mr. W. H. Garratt. Such a streak of luck is enough to make a sportsman sing "heavy bass" for the remainder of the season.

THE telegraph wires were prostrated in all directions by the storm yesterday—to such an extent, in fact, that but one wire was working between Belleville and Toronto this morning. A large gang of repairers are at work, but the work of removing fallen trees and leveled poles, and mending broken wires, is necessarily slow, even in the hands of the experts who have it in charge.

A CENTENARIAN.—The Brighton *Ensign* tells of an old woman in the township of Ameliasburg, aged 107 years. On the occasion of a recent funeral she walked some fifteen or twenty rods and appeared to be possessed of her faculties to a good degree. Her time is taken up, for the most part, with piecing quilts, and does she not even need spectacles. She was the first white person born in Adolphustown, a fact which very few, we think, will dispute from personal knowledge.

MR. CHAS CARMAN, second son Mr. J. W. Carman, formerly of Belleville, has adopted the lyric stage as his profession, having, it is said, developed a magnificent bass voice and had it well cultivated. He has secured a good position as solo basso in the Bijou Theatre, New York.

A CAR has arrived at the G. T. R. station here for Larkin, Carroll & Co, contractors on the Ontario & Quebec Railway, containing material for the manufacture of nitro-glycerine. They intend to manufacture their own glycerine for use in this section, and are erecting a factory in Tweed for that purpose.

CAPT. PORTE, of the steamer *Varuna*, said that he never experienced such rough weather on the bay as he encountered yesterday afternoon. It was with the greatest difficulty that the *Varuna* could make her landing. It was found impossible to run the ferry steamer during the greater part of the afternoon.

A PAIR of bicyclists from St. Catharines entered the city yesterday afternoon. One of them was Mr. S. Carman, eldest son of Mr. J. W. Carman, formerly editor of the *Ontario*, and the other was Mr. H. Goodman. They made the run down from Trenton in 45 minutes. Sam has a lot of old friends in Belleville who will be delighted to see him, and whom he will no doubt be pleased to see. He is now "ye local" of his father's paper, the *News* of St. Kitts. It is the intention of the two bicyclists to continue their trip to Montreal, which city they expect to reach on the 20th. They left home on Monday afternoon.

OLD Hiram Barnhart, the head of a comparatively well known family, returned home from abroad, drunk, last night, and tried to enter the family mansion, near the G. T. R. station. It was occupied at the time by Mrs. Barnhart and her deaf and dumb daughter, who refused the old man admission, whereupon he drew a knife and threatened vengeance, and has been hanging around the house all morning, trying to enter. The police were notified this afternoon, and Mr. Barnhart will probably soon occupy a position with which he is already familiar—a position behind the bars of a cell.

WEATHER PROBABILITIES—Toronto, Sep. 15.—Lakes, moderate to fresh westerly to southerly winds, fair warm weather.

PIANO RECITAL.—A young lady named Miss Anna M. Dunlap, from Picton, (late of Boston, Mass.,) gave a concert in the City Hall last evening, assisted by Mrs. Walter Ross, of Picton, Mr. Burke, of Boston, and Mr. Fetherston, of this city. Owing partly to the meagre and injudicious advertising of the event, and partly to the inclement weather, the audience was very small. Miss Dunlap in all the selections which she played, but particularly in the active study by Kallak and the Tannhauser March, proved herself a pianist of great natural abilities and rare power of execution. Mrs. Ross sang three songs with the sweetness with which she has more than once captivated a Belleville audience. Mr. Burke has not a good voice naturally, but it has been well cultivated and is not unpleasant. Mr. Fetherston sang Schumann's "Blondel's Song" with the fine taste which he always displays in his singing, and also officiated as accompanist.

THAT DEER AGAIN.—Mr. Harrison's deer has once more been acting the chief part in a highly sensational and exciting piece—a piece, however, which came very near having a tragic denouement. A little boy named Johnny Hutchinson, employed by Patterson Bros., had occasion to go through the yard to the stable in the rear, last evening about 6 o'clock, when he was suddenly and savagely attacked by the deer. The boy grasped the animal by the horns and hung on, literally for dear life. A violent struggle ensued. The deer endeavored to disengage himself, the boy would not let go, and the two rolled over and over together on the ground. Finally the boy's perilous situation was perceived by parties in the rear of Patterson's store, who went to his assistance and rescued him from what would probably have proved a horrible death. The deer escaped from the yard and wandered about all night; but this morning returned to the yard. Mr. Patterson, however, would not tolerate his presence any longer, and drove him out of the yard again and shut the gate on him. He is now a wanderer on the face of the earth.

MECHANICS' INSTITUTES.—At a meeting of the Association of Mechanics' Institutes of Ontario held in Toronto on Tuesday last the Belleville Institute was represented by Mr. W. N. Ponton. Delegates from about 60 Institutes were present. From the annual report it appears that 79 Institutes are associated, and upwards of 100 are in existence in Ontario. The Hamilton and Brockville Institutes have become defunct during the year. With regard to membership, the Belleville Institute rules tenth, and with regard to assets, twelfth among the associated Institutes. Having only $1200 a year to distribute among the various Institutes, the scope of the Association is a limited one in respect to encouraging and aiding arts and manufactures in connection with the Institutes, and it can only do this by the distribution of standard scientific and mechanical works, or by the presentation of prizes for attendance, and proficiency at evening classes. Several regulations of the Education Department were severely criticised, especially those controlling the expenditure of the funds of the various Institutes and the modes and times of conducting evening classes. A resolution moved by Mr. Ponton, instructing the Executive Committee to confer with the Department on these subjects, was unanimously carried. The regulations in question prejudicially affect the Belleville Institute, in an especial manner in respect to the annual Government grant, payment of which has been refused, on account of some technical non-compliance with departmental regulations, which were admitted by all the delegates who spoke to be unjust and unwise.

BAXTER'S MANDRAKE BITTERS never fail to cure Costiveness and regulate the Bowels.

THE KELSO FARM.—The following, from the Hallock (Minnesota) *Enterprise*, will be read with interest of the many friends of the Messrs. Kelso:—"Situated about two miles west of Hallock, is the above mentioned farm comprising between 4,000 to 5,000 acres, and owned by C. G. L. and Wm. F. Kelso, and superintended by Mr. L. W. Bristol. This farm is most beautifully situated on the south branch of the Two Rivers. On both sides of the stream are heavy wooded lands consisting of varieties of hard wood timber. As we approach the farm we find most substantial buildings erected on the banks of the rivers, consisting of a handsome Residence, Farm Laborers' House, Granary, Machinery Hall, Barns, Sheds, Blacksmith shop, Ice House and outbuildings, and judging from the substantial structure of these buildings, it is easily seen the owners intend permanent farming, and that they are fully satisfied with the products of the soil. These gentlemen came here a little over two years ago anticipating farming 1000 acres. Since then the realizations have so exceeded their expectations that they have added thousands of acres, and next year will harvest some 2,000 acres. Their average in wheat in 1881 was 24½ bushels per acre, and this year they confidently expect between 25 to 30. The oat crop is enormous, likewise with flax, potatoes and all garden products. It cannot but astound an eastern man the amount of work and the rapidity it is done here. With 35 horses and 25 men one hundred acres a day is harvested and in ploughing season from 35 to 40 acres with the same number of horses and 15 men. After a siege of twelve days, Mr. Kelso has finished the harvesting of his large wheat and oat crop and has started ploughs at once to work that will backset about 40 acres per day."

BEFORE purchasing Ready made Clothing be sure and look through HENNESSY'S stock. He has over 300 suits in all, and is offering them at actual cost.

THE WAR IN EGYPT.

ARABI ARRESTED AT CAIRO.

The Rebel Chief in the Hands of the British.

Cairo Occupied by the British Troops.

TEN THOUSAND EGYPTIANS SURRENDER.

ALEXANDRIA, Sep. 15.—Arabi and Toulba Pashas were arrested by the Egyptian police at Cairo, it is reported for having incited the populace to incendiarism and plunder. Arabi was handed over to the English on their arrival at Cairo. Arabi's house was surrounded by the Bengal cavalry. Arabi Pacha has been handed over by the Egyptian authorities to Gen. Wood as a prisoner of war.

LONDON, Sept. 15.—Gen. Wolseley telegraphs that Gen. Low has occupied Cairo. Arabi and Toulba Pasha have surrendered unconditionally, and ten thousand troops at Cairo have laid down their arms.

TEL-EL-KEBIR, Sept. 14.—Hundreds of fugitives are giving themselves up to the British Generals and officers. The enemy's losses are considerably heavier than was expected. The British casualties are about 150, including thirty killed, among whom are eight officers. The fighting may now be looked upon as more or less finished. The Egyptian wounded are being carefully cared for.

The Indian cavalry made great havoc among the enemy, whom they completely demoralised. The Indian cavalry are now at Zagazig. General Drury Lowe is at Beldari. The Highland Brigade marched to guard Zagazig, and the headquarters will follow there to-morrow.

The British will now take possession of the railway to Cairo. The second cavalry Brigade captured five trains full of stores. As far as fighting is concerned, yesterday's success will probably end the campaign.

Arabi's papers were seized.

LATEST FROM THE SEAT OF WAR.

THE WAR OVER.

Midshipman DeChair Safe.

The Troops in Good Health and Spirits.

A British General Enters Kafr-el-Dwar.

LONDON, Sept 15.—Gen. Wolseley telegraphs from Cairo that the war is over, and to send no more men from England. "Midshipman DeChair is safe. I have been received here with open arms by all classes. The soldiers are glad to return to their homes. Our cavalry did extremely well in the long and forced march yesterday. Arabi and Toulba Pacha are both confined in our guard rooms. I will now change my base from Ismailia to Alexandria. The health and spirits of the troops are excellent."

ALEXANDRIA, Sept. 15.—The Khedive and British Consul General will proceed to Cairo as soon as the road is open. All the affairs of submission must be made to the Khedive nominally but by actual surrender to Gen. Wolseley.

Kafr el-Dwar is not yet occupied. Negotiations for its occupation are expected to be concluded this afternoon.

Yesterday Gens. Wood and Harmon rode into the earthworks with a small party, in consequence of the display of flags of truce. Toulba Pasha was at Kafr-el-Dwar shortly before his escape to Cairo. Those whom he left in command at the former place were warned if Taulba wished to surrender he must make his submission to Gen. Wolseley and the display of a flag of truce did not imply cessation hostilities. Wood was received with greatest cordiality by all ranks at Kafr-el-Dwar. Roubi Pascha was commandant of the troops at Tel-el-Kebir and is deeply implicated in the rebellion.

LONDON, Sep. 16.—Gen. Wolseley telegraphs that the prefect of police at Cairo has undertaken to maintain order till I go to Cairo.

Excellent reasons exist why *Dr. Thomas Eclectric Oil* should be used by persons troubled with affections of the throat or lungs, sores upon the skin, rheumatic pains, corns, bunions, or external injuries. The reasons are, that it is speedy, pure and unobjectionable, whether taken internally or applied outwardly.

COUGHS AND COLDS.—If taken in time are easily cured,—if allowed to continue will result in incurable consumption. Allen's Lung Balsam has the confidence and support of the medical faculty, and is recommended by all who are acquainted with its virtues.

MORNING DESPATCHES.

EUROPEAN.

A HETERODOX CLERGYMAN ON TRIAL.

ATHENS, Sep. 15.—Rev. W. H. Scott, President of the Ohio University, is being tried before the official board of the Methodist E. Church on charges of denying the trinity, vicarious atonement and divinity of Christ, total depravity and resurrection of the body. It is believed that the defence will disprove the first four charges and justify the last charge by the evidence that one-third of the ministers are of the belief that the resurrection of the body is not an essential test for church membership. It is claimed that Bishop Foster, Daniel Curry and other leaders of the church hold views like Scott. The case will go up to the conference at Trenton, next week.

AMERICAN.

AN OIL BOOM.

PITTSBURG, SEPT. 15.—The draining of the oil basin of the cherry grove region has boomed the price of oil. Since Monday the price advanced 8 cents, the sales reaching figures not heretofore obtained in this market. Tuesday they were 4,679,000 barrels, Wednesday 3,025,000, and yesterday 4,431,000. The market yesterday opened at 63¾ asked, and closed at 67½ bid with more buyers than sellers.

MORE OUTRAGES BY INDIANS.

OMAHA, Sept. 16.—It is reported that five hundred Indians appeared along Beaver Creek on the Kansas line, south of Dundy County, southwest of Nebraska, stealing horses and murdering settlers. The Superintendent of the B. & M. Railway sent orders for a large quantity of ammunition to be sent out. The Indians are reported to be the Cheyennes.

A HOMICIDE ACQUITTED.

DANVILLE, Va., Sep. 15.—Mayor Johnson, who killed ex-Chief of Police Hatcher has been honorably discharged.

AN EXTORTIONIST FOILED.

WASHINGTON, Sep. 15.—It is stated that Dr. Lamb will not be allowed the bill of $1,000 for making the Garfield autopsy, on the ground that he is a regular employee of the Government and cannot draw two salaries.

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinary or Liver Diseases, as they only relieve for a time and make you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

AFTERNOON DESPATCHES

THE HILLSDALES BEATEN.

LONDON, Sep. 15.—The race on the Thames between the Hillsdales and the Thames Rowing Club crews, was won by the Thames crew by two lengths. The Hillsdales broke their slide after leading two miles, hence their defeat.

DEATH OF AN EMINENT PHYSICIAN.

LONDON, Sep. 15.—Sir Jas. Alderson, physician extraordinary, to the Queen is dead. From 1867 to 1870 he was President of the Royal College of physicians.

BREAK IN THE CANAL.

SYRACUSE, N. Y., Sep. 15.—There was a serious break in the Erie Canal at Camellins. A hundred feet of the bank was carried out. Two boats were swept into the breach and one canal boat was broken in two.

SCHOONER SUNK.

TOLEDO, Ohio, Sep. 15.—The schr. *St. Andrews*, owned at St. Catharines, with a cargo of 15,000 bushels of wheat has sank off Long Point, Lake Erie. Crew saved.

News Condensed.

—Prof. Barnard has discovered a new comet.

—The Montreal exhibition was opened on the 14th.

—The Thunder Bay branch of the Canadian Pacific railway will be opened for traffic to-day.

—Mr. McKnight of Owen Sound has been elected President of the Bee Keepers' Association.

—Two directors of the Sultan's palaces have been arrested for embezzling a large amount of funds.

—One of the buttresses of St. Patrick's Cathedral of Dublin fell yesterday, killing outright four women.

—Rev. Dr. Pusey, one of the founders and leaders of the Oxford Tractarian movement, is lying at the point of death.

—Engineer Melville, Moros, and Ninderman, of the *Jeannette*, and Lieutenant Berry, of the *Rodgers*, have arrived in New York.

—The Manitoba exhibit for the Provincial exhibition has arrived at Kingston. The entries number 8,000, and will probably be increased to 10,000 before the date of closing.

—Great damage was committed by the wind storm of yesterday, and the lightning of the previous day. Numerous fatalities are reported, and lake vessels were compelled to run for shelter.

—The largest university is Oxford in Oxford, England. It consists of twenty-five colleges and five halls. Oxford was the seat of learning in the time of Edward the Confessor. It claims to have been founded by Alfred.

*The term *hydra* may be used to represent any manifold evil. If you would battle successfully with this many-headed monster of disease you will find it expedient to keep Mrs. Pinkham's Vegetable Compound always at hand.—*Dr. Banning.*

—Writs have been issued for a general election in Newfoundland. For the districts of St. George's and White and Bonne Bay nomination day will be October 16 and polling day October 21st. For the other districts October 30th and November 4th.

—A recent return shows that the rates of mortality at different ages in the British army are lower than among civilians, until the soldiers attain 35 years, after which the military death rate rises rapidly. Under 20 the average death rate of troops on home service is half that of civilians.

—H. M. screw gun vessel *Phœnix*, one of the North American squadron, is reported ashore on the east coast of Prince Edward Island. She lies in a dangerous position, the sea making a clean breach over her. The flagship *Northampton*, the *Foam*, and *Charger* have gone to her assistance.

—Congratulatory despatches from Her Majesty upon her safe arrival and the British victory at Tel-el-Kebir awaited the Princess Louise at San Francisco. An address of welcome from the British societies was presented to the Governor-General, who replied. The Princess was not present, fatigue being assigned as the cause of her absence.

**"Do boldly what you do at all." Boldly do we affirm that Kidney-Wort is *the* great remedy for liver, bowels and Kidney diseases, rheumatism and piles vanish before it. The tonic effect of Kidney-Wort is produced by its cleansing and purifying action on the blood. Where there is a gravelly deposit in the urine, or milky, ropy urine from disordered kidneys, it always cures.

A New Principle.

The principle upon which PUTNAM' PAINLESS CORN EXTRACTOR acts is entirely new. It does not sink deep into the flesh, thereby producing soreness, but acts directly upon the external covering of the corn, separates it from the under layer, removes the direct pressure from the part, and at once effects a radical cure, without any pain or discomfort. Let those who are suffering from corns, yet skeptical of treatment, try it, and by the completeness of the cure they will be ready to recommend Putnam's Painless Corn Extractor to others. Sold by W. R. Carmichael.

Marine.

The arrivals since our last report are Schrs. L. D. Bullock, from Fairhaven; Mary Taylor, from Oswego; and Belle of Hamilton, from Baker's Island, light.

Cleared—Schrs. Hanlan, Mary Taylor, W. W. Grant and L. D. Bullock, for Oswego, lumber; Sea Foam, for Dexter, lumber; and Forest Queen for Fairhaven, iron ore.

The only casualty reported in the bay is the grounding of the schr. Anna M. Foster on the north shore, near Telegraph light house.

Consumption, that dread destroyer of the human race, is often the result of bad blood and low vitality, a scrofulous condition of the system. Burdock Blood Bitters cure Scrofula in its worst form.

Dropsy is essentially a watery condition of the Blood, dependent upon disordered Kidneys. Burdock Blood Bitters are strongly Diuretic and consequently the best known remedy, acting as it does upon the entire Secretory System.

SMITH MEDICINE Co.

GENTLEMEN,—I have made a trial of one box of Dr. Smith's Great German Worm Remedy, with such good effect that I have no hesitation in recommending it to the public as a prompt and reliable medicine. In fact, those who use it once will always do so. Yours truly,

J. Harvie, 172 Cadieux street.

Montreal, December 9th, 1881.

Dr. E. C. West's Nerve and Brain Treatment is a never failing cure for Nervous Neuralgia, Nervous Headache, Overworked Brain, &c. Sold at James Clarke & Co's.

Commercial.

and a thousand other diseases that owe their origin to a disordered state of the Stomach and Bowels, and inaction of the Digestive Organs, when the use of

DR. HENRY BAXTER'S MANDRAKE BITTERS

will give immediate relief, and in a short time effect a permanent cure. After constipation follows **Biliousness, Dyspepsia, Indigestion, Diseases of the Kidneys, Torpid Liver, Rheumatism, Dizziness, Sick Headache, Loss of Appetite, Jaundice, Apoplexy, Palpitations, Eruptions and Skin Diseases, etc.,** all of which these Bitters will speedily cure by removing the *cause.* Keep the *Stomach, Bowels, and Digestive Organs in good working order* and perfect health will be the result. Ladies and others subject to SICK HEADACHE will find relief and permanent cure by the use of these Bitters. Being tonic and mildly purgative they PURIFY THE BLOOD by expelling all Morbid Secretions.

PRICE 25 CTS. PER BOTTLE.

For sale by all dealers in medicine. Send address for pamphlet, free, giving full directions.

MACK'S MAGNETIC MEDICINE

Brain and
Nerve Food.
TRADE MARK

Is a Sure, Prompt and Effectual Remedy for Nervousness in all its stages, Weak Memory, Loss of Brain Power, Sexual Prostration, Night Sweats, Spermatorrhœa, Seminal weakness, and General Loss of Power. It repairs Nervous waste, rejuvenates the jaded Intellect, Strengthens the enfeebled Brain, and Restores surprising Tone and Vigor to the Exhausted Generative Organs. The experience of thousands proves it an invaluable Remedy. The Medicine is pleasant to the taste, and each box contains sufficient for two weeks' medication, and is the cheapest and best. ☞ Full particulars in our pamphlet, which we desire to mail free to any address.

MACK'S MAGNETIC MEDICINE is sold by Druggists at 50c. per box, or 12 boxes for $5, or will be mailed free of postage on receipt of the money, by addressing

MACK'S MAGNETIC MEDICINE Co.
Windsor, Ont., Canada.

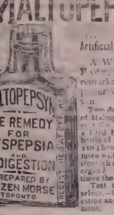
MALTOPEPSYN



MALTOPEPSYN
THE REMEDY FOR DYSPEPSIA AND INDIGESTION
PREPARED BY HAZEN MORSE TORONTO
REGISTERED

Artificial Gastric Juice.

A WONDERFUL PAPER, proving the remarkable digestive power of Maltopepsyn.

Two doses (30 grains) of Maltopepsyn will digest the white of a hard boiled egg in a bottle of water, in from 3 to 4 hours. How much more will it digest in the stomach assisted by that organ? About twenty times the quantity.

Test this for yourselves,—it is an interesting and useful experiment.

Get from your druggist ten drops of Hydrochloric Acid in a four ounce bottle, fill bottle half full of tepid water (distilled water is best, though any water will do), then add the finely cut white of a hard boiled egg, then add two doses (30 grains) of Maltopepsyn and shake bottle thoroughly every 15 or 20 minutes, keep the bottle warm, as near the temperature of the body (100° fahrenheit) as possible, and in 3 to 4 hours the egg will be entirely dissolved or digested.

Maltopepsyn is endorsed by the leading Physicians and Chemists throughout the Dominion of Canada.

Send for Pamphlet, 24 pages, giving full treatment of Dyspepsia with the rules of Diet, etc., mailed free upon application by HAZEN MORSE, TORONTO.

Price per bottle, with dose measure attached, 50 cents, contains 48 doses or about one cent per dose.

We have sold the above remedy for several months and find it spoken of very favorably by both the medical profession and the public.

We can safely recommend it to parties needing such a remedy.

Signed,

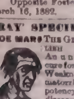
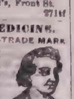
GRAY' SPECIFIC MEDICINE.

TRADE MARK THE GREAT ENGLISH REMEDY. TRADE MARK



BEFORE TAKING

An unfailing cure for Seminal Weakness, Spermatorrhea, Impotency, and all diseases that follow as a sequence of Self-Abuse; as loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age, and many other Diseases that lead to Insanity or Consumption and a Premature Grave.



AFTER TAKING

☞ Full particulars in our pamphlet, which we desire to send free by mail to every one. ☞ The Specific Medicine is sold by all druggists at $1 per package, or six packages for $5, or will be sent free by mail on receipt of the money by addressing

THE GRAY MEDICINE CO.,
Toronto, Ont., Canada.

$5 TO $20 per day at home. Sample worth $5 free. Address STINSON & Co., Portland, Maine.

Daily Intelligencer.

CHEAP AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Magnetic Medicine, which contains forty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column.

BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, bloches, pimples and the various humors and blemishes of the skin are only symptomatic of bad blood—that needs purifying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidneys, skin, etc, and strengthening while it regulates and purifies.

The market is full of preparations for the hair, some of them good, and many of them good for nothing. R. P. Hall & Co., of Nashua, N. H., manufacture and sell an article of real merit, which has been advertised in the *Express* for the past year, and we have taken no little pains to inquire how it has been liked by the public. One of our druggists informs us that he has sold more than double the amount of Renewer than of all other hair preparations combined, and when a person once uses it, he will use no other: that it is not only bought by the young people as a dressing, but by older persons for removing dandruff, preserving and increasing the growth of the hair and restoring its natural color. Another druggist says that he sells three or four times as much of Hall's, as of all others.—*Hampshire Express, Amherst, Mass.*

Samson lost his strength with his hair. Thousands of men and women lose their beauty with theirs, and very large numbers restore the ravages of time by using the famous Cingalese Hair Restorer. Sold at 50 cents per bottle by all Druggists.

Take no more nauseous purgatives. Burdock Blood Bitters act mildly, pleasantly and thoroughly upon the Bowels, and occasion no inconvenience, while it regulates the Liver and Kidneys and tones the enfeebled system. Trial bottles 10 cents.

Rest and Comfort to the Suffering

"Brown's Household Panacea" has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful," "Brown's Household Panacea," being acknowledged as great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle. 264ly

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrah, Bronchitis, Asthma and Lung Disease by Dr. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the seat of disease. Read and judge for yourself:—

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. JOHN P. WHELAN, Manager of POST and TRUE WITNESS, Montreal. Mr. C. HILL, Montreal, catarrh and bronchitis. Mr. DEBOUCHERVILLE, of the Indian Department, Ottawa, catarrh of many years; now cured. Mr. GEO. AGER, Ottawa, catarrh and lung disease; cured. Mrs. SMITH, London, wife of Medical Detective, cured of catarrh. GEO. MAGUIRE, Toronto, 482 Adelaide street West; daughter cured of asthma. GEORGE WILLIS, Exeter, Ont., catarrh and bronchitis. J. D. ARMSTRONG, 186 Yonge street, Toronto, catarrh and catarrhal deafness. THOMAS TELFER, 12 Melinda street, Toronto, asthma; cured. Mr. BENJ. A. DRAKE, St Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. BENOIT, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma and bronchitis for over eight years, and who is now perfectly cured.

Mrs. ADAMSON, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitating in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis. JOHN C. FLEMING, Editor of POST and TRUE WITNESS, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write, inclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souville and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

CINGALESE. A name well known in connection with the HAIR RENEWER, which restores grey hair to its natural color by a few weeks use. Sold at 50 cents per bottle by all Druggists.

As a cure for all diseases of the Lungs, DOWNS' ELIXIR has no equal.

DELAYS are dangerous, particularly in Kidney Diseases, so take at once DR. VAN BUREN'S KIDNEY CURE and obtain relief from all your sufferings. Your Druggist keeps it.

At the approach of spring great attention should be given to purify the system engorged with foul humors during the winter. Burdock Blood Bitters is Nature's own purifying and regulating tonic.

Mothers! Mothers!! Mothers!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle. 284ly

Asthma and Bronchitis Cured.

HALIFAX, N. S., Jan. 1882

C. M. PUTTNER, Esq., PH. M.:

SIR,—I consider it my duty, not only to yourself, but to my fellow creatures who are suffering from Asthma and Brochchitis, as I had for some time previous to using your "Emulsion of Cod Liver Oil with Hypophosphites," to give my testimony to the most wonderful good effect it had. Having suffered for some time with Asthma and Bronchitis, accompanied with great nervous exhaustion, and having carefully read your Essay on the combination and uses of your Emulsion, I was persuaded to give it a trial, and on using two bottles I began to receive great benefit and relief, and after using three bottles I was completely revived and am to-day perfectly free from either Asthma or Bronchitis, and my nervous system much invigorated and built up. I have found it very pleasant and palatable, and with no taste of the oil whatever, and can with great confidence recommend it to those suffering as I did previous to taking your compound. In conclusion, I consider I owe you a debt of great gratitude for the benefit I have received from your Emulsion and only hope that many may be induced to give it a trial, and receive as great benefit as I have from its use. I am, yours, &c.,

ALEX. STEPHENS, SR.,
Merchant.

AFTER many years of patient investigation DR. VAN BUREN, of Germany, finally succeeded in perfecting a Kidney Cure that would permanently relieve all cases of Kidney Disease. Be sure and ask your Druggist for DR. VAN BUREN'S KIDNEY CURE.

$200.00 REWARD!

Will be paid for the detection and conviction of any person selling or dealing in any bogus, counterfeit or imitation HOP BITTERS, especially Bitters or preparations with the word HOP or HOPS in their name or connected therewith, that is intended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as HOP BITTERS. The genuine have a cluster of GREEN HOPS (notice this) printed on the white label, and are the purest and best medicine on earth, especially for Kidney, Liver and Nervous Diseases. Beware of all others, and of all pretended formulas or receipts of HOP BITTERS published in papers or for sale, as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted.

$500 REWARD.

WHEREAS good reason exists for believing that the several fires that occurred on the morning of the seventh September instant, on the premises occupied by Lake & Jenkins, Livery Stable keepers, on the corner of Bridge and Pinnacle Streets, and of Dr. Curlett, on Hotel Street, in the City of Belleville, were the work of incendiaries, and

Whereas by the amended Municipal Act of 1879, chapter 31, section 31, authority is given to any Municipality in which a flagrant crime is believed to have been committed, to offer and pay a reward for the discovery, apprehension or conviction of the criminal, or of any person who is suspected to be the criminal,

And whereas the Council of the Municipality of the City of Belleville have determined to offer a reward for the apprehension and conviction of the perpetrator or perpetrators of the above crime,

Therefore be it known, that a reward of $500 will be paid by the Municipality of the City of Belleville to any person or persons who will give such information as will lead to the apprehension and conviction of the person or persons guilty of the above mentioned offence

Dated at Belleville, this 12th day of September, 1882.

NELSON LINGHAM,
Mayor.

D. B. ROBERTSON,
City Clerk.

HALL'S VEGETABLE SICILIAN HAIR RENEWER

Has been in constant use by the public for over twenty years, and is the best preparation ever invented for RESTORING GRAY HAIR TO ITS YOUTHFUL COLOR AND LIFE.

It supplies the natural food and color to the hair glands without staining the skin. It will increase and thicken the growth of the hair, prevent its blanching and falling off, and thus AVERT BALDNESS.

It cures Itching, Eruptions and Dandruff. As a HAIR DRESSING it is very desirable, giving the hair a silken softness which all admire. It keeps the head clean, sweet and healthy.

The State Assayer and Chemist of Mass. and leading Physicians endorse and recommend it as a great triumph in medicine.

BUCKINGHAM'S DYE FOR THE WHISKERS

will change the beard to a BROWN or BLACK at discretion. Being in one preparation it is easily applied, and produces a permanent color that will not wash off.

PREPARED BY
R. P. HALL & CO., NASHUA, N. H.
Sold by all Dealers in Medicine.

THE ROYAL INSURANCE CO.
Of England.

CAPITAL	$10,000,000.
Funds Invested	$23,000,000
Annual Income	5,000,000.

Over $600,000 invested in Canada for the protection of Canadian Policy holders.

Farm Property Insured against damage by Lightning. Losses to live stock by lightning and fire anywhere on the Farm made good.

FACTS WORTH REMEMBERING.

The Royal has the largest surplus funds of any Fire Insurance Company in the world.

The Royal has the largest deposit with the Dominion Government of any other Insurance Company.

The conditions of the Royal's Policies are more liberal than those of other Companies doing business in Canada.

In conclusion remember that security should be the first consideration, and that it is to your interest to insure with the Company that gives the *greatest* security. You may better carry your own risk than entrust it where you have not absolute security.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND.

Is a Positive Cure

For all those Painful Complaints and Weaknesses so common to our best female population.

A Medicine for Woman. Invented by a Woman. Prepared by a Woman.

The Greatest Medical Discovery Since the Dawn of History.

☞ It revives the drooping spirits, invigorates and harmonizes the organic functions, gives elasticity and firmness to the step, restores the natural lustre to the eye, and plants on the pale cheek of woman the fresh roses of life's spring and early summer time.

☞ Physicians Use It and Prescribe It Freely. ☜

It removes faintness, flatulency, destroys all craving for stimulant, and relieves weakness of the stomach.

That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. **For the cure of Kidney Complaints of either sex this Compound is unsurpassed.**

LYDIA E. PINKHAM'S BLOOD PURIFIER will eradicate every vestige of Humors from the Blood, and give tone and strength to the system, of man woman or child. Insist on having it.

Both the Compound and Blood Purifier are prepared at 233 and 235 Western Avenue, Lynn, Mass. Price of either, $1. Six bottles for $5. Sent by mail in the form of pills, or of lozenges, on receipt of price, $1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Enclose 3ct. stamp. Send for pamphlet.

No family should be without LYDIA E. PINKHAM'S LIVER PILLS. They cure constipation, biliousness, and torpidity of the liver. 25 cents per box.

☞ Sold by all Druggists. ☜ (1)

Daily Intelligencer.

FOREVER AND FOREVER.

Flake follows flake like spirits,
Whose wings the winds dissever;
Thought follows thought, and lights
The realm of mind forever.

Drop follows drop and swells,
The stream, returning never;
Word follows word and tells
A truth and lives forever.

Beam follows beam to cheer
With hope, the best endeavor;
Throb follows throb and fear
Gives place to joy forever.

The drop, the flake, the beam,
Teach us a lesson ever,
The word, the thought, the dream,
Impress the soul forever.

Sigh follows sigh, and heaven
The breast with life's soft fever;
Smile follows smile, and leaves
The light of joy forever.

Tear follows tear, and flows
In streams returning never;
Glance follows glance and flows
With love in hearts forever.

Friend follows friend,—the thread
Of life, the fates dissever;
Soul follows soul, the dead
In Christ shall live forever.

The sigh, the smile, the fear,
The hope that cheers endeavor,
The faith that guides us here,
Foretoken life forever.

TABERNACLE SERMONS.

Discourse by Rev. T. De Witt Talmage.

THE POPULAR CHRIST.

Unto him shall the gathering of the people be.—Genesis xlix., 10.

Through a supernatural lens, or what I might call a prophescope, dying Jacob looks down through the corridors of the centuries until he sees Christ the centre of all popular attraction and the greatest being in all the world, so everywhere acknowledged. It was not always so The world tried hard to put Him down and to put Him out. In the year 1200, while excavating for antiquities fifty-three miles northeast of Rome, a copperplate tablet was found containing the death warrant of the Lord Jesus Christ, reading in this wise:

"In the year 17 of the empire of Tiberius Cæsar, and on the 25th of March, I, Pontius Pilate, Governor of the Prætore, condemn Jesus of Nazareth to die between two thieves. Quintius Cornelius to lead him forth to the place of execution."

That death warrant was signed by several names. First, by Daniel, rabbi Pharisee; secondly, by Johannes, rabbi; thirdly, by Raphael; fourthly, by Capet, a private citizen. This capital punishment was executed according to law. The name of the thief crucified on the right hand side of Christ was Dismas; the name of the thief crucified on the left hand side of Christ was Gestes. Pontius Pilate, describing the tragedy, says the whole world lighted candles from noon until night. Thirty-three years of maltreatment. They ascribed His birth to bastardy and His death to excruciation. A wall of the city, built about those times and recently exposed by archæologists, shows a caricature of Jesus Christ, evidencing the contempt in which He was held by many in His day—that caricature on the wall representing a cross and a donkey nailed to it, and under it the inscription: "This is the Christ whom the people worship." But I rejoice that that day is gone by. Our Christ is coming out from under the world's abuse. The most popular name on earth to-day is the name of Christ. The scoffers have become the worshippers. Of the twenty most celebrated infidels in Great Britain in our day, sixteen have come back to Christ, trying to undo the blatant mischief of their lives—sixteen out of the twenty. Every man who writes a letter or signs a document, wittingly or unwittingly, honors Jesus Christ. We date everything as B. C. or as A. D.—B. C., before Christ; A. D., *anno Domini*, in the year of our Lord. All the ages of history on the pivot of the upright beam of the cross of the Son of God, B. C., A. D. I do not care what you call Him—whether Conqueror, or King, or Morning Star, or Sun of Righteousness, or Balm of Gilead, or Lebanon Cedar, or Brother, or Friend, or take the name used in the verse from which I take my text, and call him Shiloh, which means His Son, or the Tranquilator, or the Peacemaker, Shiloh. I only want this morning to tell you that "unto Him shall the gathering of the people be."

In the first place, the people are gathering around Christ for pardon. No sensible man or healthfully ambitious man is satisfied with his past life. A fool may think he is all right. A sensible man knows he is not. I do not care who the thoughtful man is, the review of his lifetime behavior before God and man gives to him no special satisfaction. 'O!' he says, "there have been so many things I have done I ought not to have done, there have been so many things said I ought never to have said, there have been so many things I have written I ought never to have written, there have been so many things I have thought I ought never to have thought, I must somehow get things readjusted, I must somehow have the past reconstructed; there are days, and months, and years which cry out against me in horrible vociferation." Ah! my brother, Christ adjusts the past by obliterating it. He does not erase the record of our misdoing with a dash of ink from a register's pen, but lifting His right hand crushed, red at the palm, He puts it against His bleeding brow, and then against His pierced side, and with the crimson accumulation of all these wounds He rubs out the accusatory chapter. He blots out our iniquities. O! never be anxious about the future; better be anxious about the past. I put it not at the end of my sermon; I put it at the front: Mercy and pardon through Shiloh, the sin-pardoning Christ. "Unto Him shall the gathering of the people be." "O!" says some man, "I have for forty years been as bad as I could be, and is there any mercy for me?" Mercy for you. "O!" says some one here, "I had a grand ancestry, the holiest of fathers and the tenderest of mothers, and for my perfidy there is no excuse. Do you think there is any mercy for me?" Mercy for you. "But," says another man. "I fear I have committed what they call the unpardonable sin, and the Bible says if a man commit that sin he is neither to be forgiven in this world nor the world to come Do you think that there is any mercy for me?" The fact that you have any solicitude about the matter at all proves positively that you have not committed that unpardonable sin. Mercy for you? O! the grace of God which bringeth salvation! The grace of God! Let us take the surveyor's chain and try to measure God's mercy through Jesus Christ. Let one surveyor take that chain and go to the north, and another surveyor take that chain and go the south, and another surveyor take that chain and go to the east, and another surveyor take that chain and go to the west, and then make a report of the square miles of that vast kingdom of God's mercy. Ah! you will have to wait to all eternity for the report of that measurement. It cannot be measured. Paul tried to climb the height of it, and he went height over height, altitude above altitude, mountain above mountain, then sank down in discouragement and gave it up, for he saw Sierra Nevadas beyond and Matterhorns beyond, and waving his hand back to us in the plain, he says, "Past finding out; unsearchable, that in all things He might have the pre-eminence." You notice that nearly all the sinners mentioned as pardoned in the Bible were great sinners—David a great sinner, Paul a great sinner, Rahab a great sinner, Magdalen a great sinner, the Prodigal Son a great sinner. The world easily understood how Christ could pardon a half-and-half sinner, but what the world want to be persuaded of is that Christ will forgive the worst sinner, the hardest sinner, the oldest sinner, the most inexcusable sinner. To the sin-pardoning Shiloh let all the gathering of the people be.

But, I remark again, the people will gather around Christ as a sympathizer. O! we all want sympathy. I hear people talk as though they were independent of it. None of us could live without sympathy. At this season of the year we come home from our summer absence, and perhaps we leave a portion of our family away until the cool weather is established, and how lonely the house seems until they all get home. But alas! woe for those who never come home. Sometimes it seems as if it must be impossible. What, will their feet never again come over the threshold? Will they never again sit with us at the table? Will they never again kneel with us at family prayer? Shall we never again look into their sunny faces? Shall we never again on earth take counsel with them for our work? Alas! me, who can stand under these griefs? O! Christ Thou canst do more for a bereft soul than any one else. It is he that stands beside us to tell of the resurrection. It is he that came to bid peace. It is he that came to us and breathes into us the spirit of submission until we can look up from the wreck and ruin of our brightest expectations and say: "Father, not my will, but Thine be done." Oh, ye who are bereft, ye anguish bitten, come into this refuge. The roll of those who come for relief to Christ is larger and larger. Unto this Shiloh of omnipotent sympathy the gathering of the people shall be. Oh, that Christ would stand by all these empty cradles and all these desolated homesteads and all these broken hearts, and give you any help at such a time. Suppose the world comes and offers you money. You would rather live on a crust in a cellar and have your departed loved ones with you than live in palatial surroundings and they away. Suppose the world offers you its honors to console you. What is the Presidency to Abraham Lincoln when little Willie lies dead in the White House? Perhaps the world comes and says: "Time will cure it all." Ah, there are griefs that have raged on for thirty years and are raging yet. And yet hundreds have been comforted, thousands have been comforted millions have been comforted, and Christ has done the work. Oh! what you want is sympathy. The world's heart of sympathy beats very irregularly. Plenty of sympathy when we do not want it, and often when we are in appalling need of it no sympathy. There are multitudes of people dying for sympathy—sympathy in their work, sympathy in their fatigues, sympathy in their bereavements, sympathy in their financial losses, sympathy in their physical ailments, sympathy in their spiritual anxieties, sympathy in the time of declining years—wide, deep, high, everlasting, almighty sympathy. We must have it, and Christ gives it. That is the cord with which He is going to draw all nations to Him. At the story of punishment a man's eye flashes and his teeth set and his fist clenches, and he prepares to do battle even though it be against the heavens; but what heart so hard but it will succumb to the story of compassion. Even a man's sympathy is pleasant and helpful. When we have been in some hour of weakness, to have a brawny man stand beside us and promise to see us through, what courage it gives to our heart and what strength it gives to our arm. Still mightier is a woman's sympathy. Let him tell the story who, when all his fortunes were gone and all the world was against him, came home and found in that home a wife who could write on the top of an empty flour barrel, "The Lord will provide;" or write on the door of the empty wardrobe, "Consider the lilies of the field; if God so clothed the grass of the field, will he not clothe us and ours?" Or let that young man tell the story who has gone the whole round of dissipation. The shadow of Blackwell's Island is upon him, and even his father says, "Be off! never come home again!" The young man still sees his mother's arm outstretched for him, and how she will stand at the wicket of the prison to whisper consolation, or get down on her knees before the Governor begging for pardon, hoping on her vagrant boy after all others are hopeless. Or let her tell the story who, under villainous allurement and impatient of parental restraint, has wandered off from a home of which she was the idol into the murky and thunderous midnight of abandonment, away from God, and farther away, until some time she is tossed on the beach of that early home a mere splinter of a wreck. Who will pity her now? Who will gather these dishonored locks into her lap? Who will wash off the blood from the gashed forhead? Who will tell her of that Christ who came to save the lost? Who will put that weary head upon the clean white pillow and watch by day and watch by night until the hoarse voice of the sufferer becomes the whisper, and the whisper becomes only a faint motion of the lips, and the faint motion of the lips is exchanged for a silent look, and the cut feet are still, and the weary eyes are still, and the frenzied heart is still, and all is still? Who have compassion on her when no other have compassion? Mother! Mother!

Oh! there is something beautiful in sympathy—in manly sympathy, wifely sympathy, motherly sympathy; yea, and neighborly sympathy. Why was it that our city was aroused with excitement last week when a little child was kidnapped from one of our streets? Why were whole columns of the newspapers filled with the story of a little child? It was because we are all one in sympathy, and every parent said: "How if it had been my Lizzie? how if it had been my Mary? how if it had been my Maud? how if it had been my child?—how if there had been one unoccupied pillow in our trundle-bed to-night? how if my little one—bone of my bone and flesh of my flesh—were to-night carried captive into some den of vagabonds, never to come back to me? how if it had been my sorrow looking out of the window, watching and waiting—that sorrow worse than death?" Then when they found her why did we declare the news all through the households, and everybody that knew how to pray said, "Thank God!" Because we are all one, bound by our great golden chain of sympathy. Oh! yes, but I have to tell you this morning that if you will aggregate all neighborly, manly, wifely, motherly sympathy, it will be found only a poor starving thing compared with the sympathy of our great Shiloh, who has held in His lap the sorrows of the ages, and who is ready to nurse on His holy breast the woes of all who will come to Him. Oh! what a God, what a Saviour we have! But in larger vision see the nations in some kind of trouble ever since the world was derailed and hurled down the embankments The demon of sin came to this world, but other demons have gone through other worlds. The demon of conflagration, the demon of volcanic disturbance, the demon of destruction. La Place says he saw one world in the northern hemisphere sixteen months burning. Tycho Brahe said he saw another world burning. A French astronomer says that in three hundred years fifteen hundred worlds have disappeared. I do not see why infidels find it so hard to believe that two worlds stopped in Joshua's time, when the astronomers tell us that fifteen hundred worlds have stopped. Even the moon is a world in ruins. Stellar, lunar, solar catastrophes innumerable. But it seems as if the most sorrows have been reserved for our world. By one toss of the world at Ticubore, of 12,000 inhabitants only twenty-six people escaped. By one shake of the world at Lisbon in five minutes 60,000 perished and 200,000 before the earth stopped rocking. A mountain falls in Switzerland, burying the village of Goldau. A mountain falls in Italy in the night, when 2,000 people are asleep, and they never arouse. By a convulsion of the earth Japan was broken off from China. By a convulsion of earth the Caribbean islands broken off from America. Three islands near the mouth of the Ganges, with 340,000 inhabitants—a great surge of the sea breaks over them and 214,000 perish that day. Alas, alas for our poor world. It has been recently discovered that a whole continent that connected Europe and America—part of the inhabitants of that continent going to America over the tablelands of Mexico up through the valleys of the Mississippi, and we are finding now the remains of their mounds and their cities in Mexico, in Colorado and the table lands of the West. It is a matter of demonstration that a whole continent has gone down, the Azores off the coast of Spain only the highest mountains in the sunken continent. Plato described that continent, its grandeur, the multitude of its inhabitants, its splendor and its awful destruction and the world thought it was a romance, but archæologists have found out it was history, and the English and the German and the American fleets have gone forth with archæologists, and the *Challenger* and the *Dolphin* and the *Gazelle* have dropped anchor, and in deep sea soundings they have found the contour of that sunken continent. Oh! there is trouble marked on the rocks, on the sea, on the flora and the fauna. Astronomical trouble, geological trouble, oceanic trouble, political trouble, domestic trouble, and standing in the presence of all those stupendous devastations, I ask if I am not right in saying that the want of this age and all the ages is divine sympathy and omnipotent comfort, and they are found not in the Brahma of the Hindoo or the Allah of the Mohammedan, but in the Christ unto whom shall the gathering of the people be. Other worlds may fall, but this morning star will never be blotted from the heavens. The earth may quake, but this Rock of Ages will never be shaken from its foundations. The same Christ who fed the 5,000 will feed all the world's hunger. The same Christ who cured Bartimeus will illumine all blindness. The same Christ who made the dumb speak will put on every tongue a hosanna. The same Christ who awoke Lazarus from the sarcophagus will yet rally all the pious dead in glorious resurrection. "I know that my Redeemer liveth," and that "to him shall the gathering of the people be." Ah! my friends, when Christ starts thoroughly and quickly to lift this miserable wreck of a sunken world, it will not take long to lift it. I have thought that this particular age in which we live may be given up to discoveries and inventions by which through quick and instantaneous communication all cities and all communities and all lands will be brought out for Gospel invitation, and some great prophet of the Lord will come and snatch the mysterious, sublime and miraculous telephone from the hand of Commerce, and all lands and kingdoms connected by a wondrous wire, this prophet of the Lord may, through telephonic communication, in an instant announce to all nations pardon and sympathy and life through Jesus Christ, and then putting the wondrous tube to the ear of the Lord's prophet, the response shall come back: "I believe in God, the Father Almighty, maker of heaven and earth, and in in Jesus Christ, His only son." You and I may not live to see the day. I think those of us who are over 40 years of age can hardly expect to see the day. I expect before that time our bodies will be sound asleep in the hammocks of the old Gospel ship as it goes sailing on. But Christ will wake us up in time to see the achievement. We who have sweat in the hot harvest field will be at the door of the garner when the sheaves come in. That work for which in this world we toiled and wept and struggled and wore ourselves out shall not come to consummation and we be oblivious of the achievement. We will be allowed to come out and shake hands with the victors. We who fought in the earlier battles will have just as much right to rejoice as those who reddened their feet in the last Armageddon. Ah! yes, those who could only give a cupfull of cold water in the name of a disciple, those who could only scrape a handfull of lint for a wounded soldier, those who could only administer to old age in its decrepitude, those who could only coax a poor waif of the street to go back home to her God, those who could only lift a little child in the arms of Christ, will have as much right to take part in the ovation to the Lord Jesus Christ as a Chrysostom. It will be your victory and mine, as well as Christ's. He the conqueror, was shouting in His train. Christ the victor will pick out the humblest of His disciples in the crowd, and turning half around on the white horse of victory He shall point her out for approval by the multitude as He says: "She did what she could." Then putting His hand on the head of some man, who by his industry made one talent do the work of ten, He will say: "Thou hast been faithful over a few things, I will make thee ruler over ten cities." Two different theories about the fulfillment of this promise. There are people here to-day who think Christ will come in person and sit on a throne. Perhaps He may. I should like to see the scarred feet going up the stairs of a palace in which all the glories of the Alhambra and the Mabel Tagh and the St. Mark's and the Winter Palace are gathered. I should like to see the world pay Christ in love for what it did to Him in maltreatment. I should like to be one of the grooms of the chargers, holding the stirrup as the King mounts. O! what a glorious time it would be on earth if Christ would break through the heavens and right here where He has suffered and died have this prophecy fulfilled. "Unto Him shall the gathering of the people be." But failing in that I bargain to meet you at the ponderous gate of heaven on the day when our Lord comes back. Garlands of all nations on His brow—of the bronzed nations of the south and the pallid nations of the north—Europe, Asia, Africa, North and South America, and the other continents that may arise meantime from the sea, to take the place of their sunken predecessors, arch of Trajan, arch of Titus, arch of Triumph in the Champs Elysees all too poor to welcome this king of kings, and lord of lords, and conqueror of conquerors in His august arrival. Turn out all Heaven to meet Him. Hang all along the route the flags of earthly dominion whether decorated with crescent, or star, or eagle, or lion, or coronet. Hang out Heaven's brightest banner, with its one star of Bethlehem and blood-stripped of the cross. I hear the procession now. Hark! the tramp of the feet, the rumbling of the wheels, the clattering of the hoofs, and the shout of the riders. Ten thousand times ten thousand, and thousands of thousands. Put up in Heaven's library, right beside the completed volume of the world's ruin, the completed volume of Shiloh's triumph. The old promise struggling through the ages fulfilled at last: "Unto Him shall the gathering of the people be."

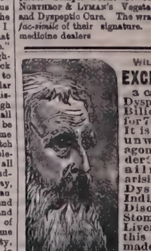
"While everlasting ages roll,
Eternal love shall feast their soul,
And scenes of bliss forever new
Rise in succession to their view."

AFTER many years of patient investigation DR. VAN BUREN, of Germany, finally succeeded in perfecting a Kidney Cure that would permanently relieve all cases of Kidney Disease. Be sure and ask your Druggist for DR. VAN BUREN'S KIDNEY CURE.

The most wonderful curative remedies of the present day, are those that come from Germany, or at least originate there. The most recent preparation placed upon the market in this country, is the GREAT GERMAN INVIGORATOR, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangements of the nervous system. For sale by druggists, or sent free by mail on receipt of the price, $1.00 per box, or six boxes for $5.00. Address James Clark & Co., Sole agent for Belleville. Send for circular.

Rheumatism is greatly dependent on a vitiated condition of the fluids, and may be eliminated from the system by cleansing the Blood and regulating the Kidneys. Burdock Blood Bitters will do this most effectually. Trial bottles 10 cents.

RACKED BY INNUMERABLE PANGS, restless by day, sleepless at night, rising unrefreshed in the morning, without appetite and pestered by varying and perplexing symptoms, the dyspeptic takes indeed a gloomy view of human existence. For him the rest of life seems gone. Heartburn, oppression at the pit of the stomach, and the attendant annoyances of of constipation and billiousness, combine to render him utterly wretched. But there is, if he will but take advantage of it, a reliable source of reliable relief from all misery. NORTHROP & LYMAN'S VEGETABLE DISCOVERY and DYSPEPTIC CURE is, as its name imports, a botanic preparation, free from mineral poison, and an all-sufficient remedy for indigestion in its most obstinate form. It not only enriches the blood by enabling the digestive organs to convert the food received into nutriment, but depurates it by increasing the action of the bowels and kidneys, the natural outlets for its impurities. But while it relaxes the bowels, it never does so violently and with pain, like a drastic cathartic. It aids, but never forces, Nature, invigorating as well as purifying and regulating the system. It thoroughly removes those diseased humors which tend to vitiate the blood, purifies the urinary secretion, and promotes a flow of healthy bile into the natural channel, besides expelling it from the circulation. Experience has proved that this standard medicine is a thorough remedy for dyspepsia, biliousness, costiveness, kidney complaints, scrofula, erysipelas, salt rheum, lumbago and all impurities of the blood. Price $1.00. Sample Bottle 10 cents. Ask for NORTHROP & LYMAN'S Vegetable Discovery and Dyspeptic Cure. The wrapper bears a *fac-simile* of their signature. Sold by all medicine dealers



WILL YOU EXCHANGE a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys.

Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

BUTLER'S
Celebrated
BLACKBERRY CORDIAL.

The most effectual remedy yet discovered for Cholera, Cholera Morbus, Diarrhœa, Dysentery, Cramps, Colic, looseness of the Bowels &c.

This justly celebrated preparation is highly recommended by the medical men, and has been used with the greatest success for the last ten years throughout the United States.

Daily Intelligencer.

BELLEVILLE, SATURDAY, SEPT. 16.

The Conservative Platform.

The real work of the great Conservative Convention at Toronto consisted in the resolutions adopted, which are given herewith. The platform thus adopted leaves nothing to be desired. We are particularly pleased with the plank which proposes to confer the franchise on the sons of mechanics and others, and with the closing resolution conferring a well merited mark of esteem and confidence on Mr. Meredith. Every man who desires reform—who is opposed to tyranny—who wishes our public affairs honestly and economically conducted—will approve of the Conservative platform. Read it.

Resolved, That in the opinion of this convention the course of the present administration of Ontario in the expenditure of the public money without useful or adequate result and too often with political objects only; in their persistent attacks on the powers of the municipalities, so long and so beneficially exercised in their respective localities; in the manipulation of all branches of the public service for the purpose of securing political support; in their attempts to sow the seeds of dissension and distrust between the several provinces of the Dominion; in their ill-concealed desire to procure the disintegration of the Federal Union, and the rupture of the links now happily binding the provinces together, and in their factious efforts individually and as a Government to thwart the well-understood will and determination of the people to foster and develop the various industries of the Dominion, deserves and should receive the unqualified condemnation of the electors of Ontario.

Resolved, That it is the undoubted right of the Provincial Legislatures to exercise without interference by the Government of the Dominion the exclusive powers vested in them by the British North America Act; if these powers are exercised lawfully and constitutionally, and not in a manner prejudical to the interests of the Dominion, the Liberal-Conservative party is prepared at all times to maintain and defend this right; but provincial legislation which provides for the taking of private property and applying it to public uses without making adequate compensation to the owner is contrary to natural justice and the fundamental principles of legislation in civilized communities and prejudical to the interests of the Dominion, and it is the undoubted right and manifest duty of the Government of the Dominion, in the exercise of the powers vested in it by the same Act, to prevent such legislation remaining in force by disallowing it; and the Act known as the Rivers and Streams bill, inasmuch as it provided for the taking of valuable private property and applying it to public uses without making adequate compensation to the owner, was therefore rightfully disallowed, and the Government of the Dominion would have failed in the discharge of its duty had it permitted that Act to remain in force.

Resolved, That the Liberal-Conservative party is at all times prepared by lawful and constitutional means to maintain and defend the territorial rights of the province, as defined by the Britian North America Act, but this convention most earnestly deprecates, as unwise and unpatriotic, the course which the Government of Ontario has pursued with regard to the boundaries of the province and the award in regard to them since the refusal of the Parliament of Canada to assent to the award—a course dictated solely by a desire to assist the Dominion Opposition in the recent elections for the House of Commons, opposed to the interests of and calculated to disintegrate the Dominion. And this convention also desires to record its approval of the mode proposed by the Government and sanctioned by the Parliament of Canada for the determination of the boundaries in dispute as the most satisfactory mode now open for arriving at a final settlement of the matters in difference, and which, while securing the just rights of the province, will be satisfactory to and obligatory on the whole Dominion.

Resolved, That the National Policy, twice endorsed and approved as a main issue at the polls, has amply fulfilled its promise, by increasing the prosperity and promoting a closer union of the provinces; and that the bitter hostility which has been displayed towards it by the members of the Ontario Government being a direct attack upon the commercial and industrial well-being of Ontario and the Dominion, and in contravention of the policy of non-intervention laid down and urged by the Reform leader in 1872, and approved of by his party, is deserving of the unqualified condemnation of the electors of Ontario.

Resolved, That this convention disapproves of the policy which has been pursued by the Government of Ontario of taking from the people powers which they have heretofore exercised through their municipal bodies, and of centralizing those powers in the Government, and is of opinion that the tendency of legislation should be in the direction of extending, rather than curtailing, the powers of the municipalities, so as to leave to the people, as far as practicable, the management of their local affairs.

Resolved, That the present system of issuing tavern and shop licenses through Government officials having been instituted and systematically used for the purpose of rendering those engaged in the liquor traffic subservient to the Administration of the day, it is the opinion of this convention that, without interfering with the laws regulating the liquor traffic and limiting the number of licenses that may be issued, the power of issuing licenses, and the fees derived therefrom, should be restored to the municipalities.

Resolved, That this convention strongly disapproves of the usurpation by the Ontario Government of the power of appointing Division Court clerks and bailiffs; a power which has been used for partisan purposes, and has been prejudicial to the due administration of justice in those courts.

Resolved, That the revenues of the province being to a large extent derived from its timber, the supply of which is rapidly decreasing, the public interests demand that greater care should be taken for the preservation of it, and that it should be provided by law that no additional territory should be placed under license without the consent of the people's representatives in the Legislative Assembly.

Resolved, That in the promotion of the settlement of the free grant districts of the province, every effort should be made to further the interests of the settlers by a liberal expenditure in the development of the resources of the country, and by returning, as far as practicable, to the principles of the Homestead law of 1868; due regard being had to the interests of the province at large in the revenue derived from the sale of timber, as well as in the preservation of such timber as may be requisite for home consumption.

Resolved, That the state to which the Mowat Administration has brought the finances of the province—with a rapidly increasing expenditure on stationary or diminishing revenue (the ordinary expenditure having doubled from 1871 to 1881), living year by year largely on capital for the ordinary expenses of Government, and our formerly large available surplus now nearly gone—is one calling for the earnest consideration of thoughtful men of all classes, with a view to interposing a check on recklessness which, if not stopped, must at no distant date bring the province to direct taxation.

Resolved, That the extension of the franchise so as to bring within its privileges the sons of mechanics and others not now entrusted with it on equal terms with the sons of any other class of the community upon whom it has been conferred; the gradual and judicious decentralization of the administration of justice; the reform of the municipal system, especially with regard to the constitution of the County Councils; the improving and cheapening of the school system so far as it can be done without impairing its efficiency, especially with regard to the supply of text-books and in the direction of leaving to the people large powers in the management of their school affairs, and the absolute exclusion of party politics from the administration of the Education Department: the lessening as far as practicable the costs of administering the Provincial Government, and the exercise of a rigid economy in the management of provincial affairs, should, in the opinion of this convention, form part of the policy and receive the early attention of a Liberal-Conservative Government of this province.

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists.

Editorial Brevities.

From the *Mail's* report of the Hon. Mr. O'Donohoe's speech at the Toronto convention, we learn that the hon. gentleman concluded as follows:

> I might say that as the Orangemen and the Catholics in the old land are joining hands we ought to do so here, and I ask the great Orange chieftain himself, the Hon. Mackenzie Bowell, to shake hands with me. (Cheers.)

Some of our Grit contemporaries think it is a very funny thing that the hon. gentleman did actually shake hands. But, when it is considered that Mr. O'Donohoe had stated that the Mowat Government had unfairly treated his fellow countrymen and co-religionists, and as the same Government had acted towards the Orangemen in a grossly unjust manner, it is no wonder that Mr. Bowell had a fellow feeling with and was ready to shake hands with any one who wished to turn the Mowat Government out of office.

Mr. A. F. Wood, of Madoc, was appropriately honored by being chosen to move the second resolution before the Toronto Convention. Mr. Wood made a brief but able speech on the occasion.

Says the Dundas *Standard*: "The Hamilton *Times* calls Hon. Messrs. Bowell, Carling and Aikens 'numbskulls.' This reminds us of our Jenkins of 'Ginx's Baby' fame calling Beaconsfield a 'limpet.'"

As illustrating the reliability of telegrams to Grit papers we have the following, which appeared in the Ottawa *Free Press*:

> TORONTO, September 13.—The Conservative Convention will probably be attended by about 150 delegates. Over 500 were expected. The Ottawa delegation, headed by Capt. McCaffrey, arrived last night.

It is only necessary to say that the *Globe* stated the attendance at the Convention at 2,000, and that hundreds were unable to gain admittance.

In December next, Mr. Gladstone will have completed fifty years of Parliamentary service. He entered the House of Commons on the 13th of December, 1832, and since that time he has never failed to secure a seat in each successive Parliament. The friends and admirers of the great statesman intend celebrating the golden event with great *eclat*.

Don't die in the House.

"Rough on Rats." Clears out rats, mice, roaches bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

Bridgewater Correspondence.

BRIDGEWATER, Sept. 14.

Things in general are going on much as usual and the railroad is progressing. A number of men have been brought up from the lower Provinces to work on it, and more are coming. A number of teams are engaged in drawing large stones for building the bridges, which are being pushed forward as fast as possible. The ties are being distributed along the road, and the rails will soon follow, and thus there will soon be communication by railroad between here and the outer world.

Yesterday the Methodist Church had a Sabbath school picnic which was well attended. To-day the Catholics have one near Queensboro', and they are to be pitied, for it has been raining tremendously, accompanied by thunder storms and gales, and many who went out in the morning in all the glories of elegant costumes will have to invest for a fresh supply with the Dry Goods merchants. "An ill wind that blows nobody any good."

Mr. Alexander McDonald was exhibiting some oats here the other day. Some of the heads were nearly two feet long and they stood about six feet high. How is that for high!

A malicious individual here says he is afraid some of the young embryo lawyers who have gone up for examination will be plucked because their handwriting is so plain that any one can read it. Certainly there is nothing, except checking over a lawyer's bill, causes so much profanity as trying to read a lawyer's letter.

O. Bortle, of Manchester, Ontario Co., N.Y. writes:—"I obtained immediate relief from the use of *Dr. Thomas' Eclectric Oil*. I have had Asthma for eleven years. Have been obliged to sit up all night for ten or twelve nights in succession. I can now sleep soundly all night on a feather bed, which I had not been able to do previous to using the Oil."

Nervous debility is a result of indiscretion in the mode of living. Heed nature's unerring laws and take Burdock Blood Bitters, the Great System Renovator and Blood, Liver and Kidney regulator and tonic. Sample bottles 10 cents.

PROCLAIM it far and wide that DR. VAN BUREN'S KIDNEY CURE not only immediately relieves all Kidney diseases, but what is more important to the unfortunate sufferer, will ultimately cure him effectually.

News Condensed.

Hops have been sold at 51 cts. per pound, at Cazenovia, New York.

—16,279 lbs of maple sugar were manufactured in the County of Carleton last year.

—Some wines, especially those of Bordeaux, are said to be richer in iron than most of the chalybeate springs.

—Patrick Ryan, caretaker of the new fort at Toronto, committed suicide on Friday by shooting himself with a rifle.

—Two cases of yellow fever on board H. M. S. "Contest," just arrived at Halifax, N.S., from the West Indies. They are recovering. No other cases.

—The report of the death of Mr James Lysaght Finigan, late member of Parliament for Ennis, proves to have been untrue. He is now convalescent.

—H. M. S *Phœnix*, ashore on the east coast of Prince Edward Island, is a total wreck, and her stores are being removed. The crew were all saved.

—The September moon fulls on the 27th, twenty-six minutes after midnight. It is the superb harvest moon—one of the crowning glories of the autumn.

—John Cook, of Markham township, while eating supper at his sister's house in Toronto on Thursday night, met with his death by a piece of meat sticking in his throat.

—Patrick Callery has been arrested at Sussex, N. B., for causing the death of Loward Kennedy, who was killed on the I. C. R. near Petitcodiac. An inquest is in progress at Petitcodiac.

*The term *hydra* may be used to represent any manifold evil. If you would battle successfully with this many-headed monster of disease you will find it expedient to keep Mrs. Pinkham's Vegetable Compound always at hand.—*Dr. Banning.*

—The Montreal Harbor Commissioners show an increased revenue for the month of August over the same month of last year of $3,000, and of tonnage by 8,298 tons. For the season the decrease is about 3 per cent.

—A shocking fatal accident occurred at Quebec. A young man named Costelow, son of a Government contract of that name, fell to the street below from dome of a two-story house, on which he was working, and was instantly killed.

—For last year, the world's production of leads is estimated by Herr Landsberg at 440,000 tons. China and Japan are not included as producers of this metal, although the probability is that their output of lead is very large every year.

—The Black Diamond Steamship Company, of Montreal, has decided to increase its capital stock by $100,000. They have recently purchased the steamship *Coban*, and she will be placed upon the line between Montreal and Cape Breton.

—A Strathroy volunteer, belonging to the 26th Battalion, was sent to London jail for twenty-four hours from camp under an escort on Wednesday night by Col. Atwood for being drunk and disorderly, and for assaulting a citizen while under arms.

—Now that the rebellion is crushed, it is reported that Italy and Russia demand the immediate reassembling of the European Conference. It is also stated that England will insist upon her right to call the Conference together whenever the exigencies of her policy may require.

—The Picton *Gazette* says:—"It has been industriously circulated by the Grits 'that arrangements have been entered into with Dr. Platt for him to retain the seat on the payment of $700.' We are authorized to state that there is not a word of truth in the report, but the law must take its course."

—At the Battery Ball Practice at Brockville Camp, the Ottawa Field Battery made the best score on record, 436, beating highest previously made by 37, also beating the best scores of A and B Batteries, and discounting the Gananoque Battery. Col. Montizambert, of B Battery, highly complimented the successful corps.

***"Do boldy what you do at all." Boldly do we affirm that Kidney-Wort is *the* great remedy for liver, bowels and Kidney diseases. rheumatism and piles vanish before it. The tonic effect of Kidney-Wort is produced by its cleansing and purifying action on the blood. Where there is a gravelly deposit in the urine, or milky, ropy urine from disordered kidneys, it always cures.

—At the nomination for Kildonan, Man., on the 14th, Attorney-General Sutherland was re-elected by acclamation. He made a lengthy speech, in which he attributed his election to the popularity of the Norquay Government. Mr. Leacock, M. P. P. for Birtle, also addressed the meeting, announcing himself as an out-and-out supporter of the Norquay Government, which had, notwithstanding the boastings of the Opposition, carried all the by-elections since the rising of the House.

—Herbert Spencer in a recent conversation alluded to Oscar Wilde as an "outlandish person who attempted to reconcile idiocy with art, and namby pambyism with sentiment." His only comment upon Mr. Wilde's reception in America was an expressed surprise that he had been tolerated so long, and he remarked that the weight of his influence in England could be judged by the fact that his practices there had continued for years without finding and imitator.

—Among the most remarkable natural echoes is the of Eagle's Nest, on the banks of Killarney, in Ireland, which repeats a bugle call until it seems to be sounded from a hundred instruments; and that on the banks of Naha, between Bingen and Coblentz, which repeats a sound seventeen times. The most remarkable artificial echo known is that in the castle of Simonetta, about two miles from Milan. It is occasioned by the existence of two parallel walls of considerable length. It repeats the report of a pistol sixty times.

Catarrh of the Bladder.

STINGING irritation, inflammation, all Kidney and Urinary Complaints, cured by "Buchupaiba." $1.

—It seems that a large portion of the town of Levis is built upon the Jesuits' estate property, for the restoration of which throughout the Province a regular claim is confidently expected to be set up shortly.

PEARLS.—Get your mouth full by using "TEABERRY," the new wonder for the Tooth and Breath. Brush vigorously. See directions. 5 cent samples.

Sure, safe and effectual, that old remedy, DOWNS' ELIXIR, for the cure of Coughs and Colds.

Hall's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by Jas. Clarke & Co., Belleville, Ont.

For 30 Years

The dark-eyed and lovely daughters of Spanish America have used MURRAY & LANMAN'S FLORIDA WATER as their only cosmetic and toilet perfume. It is the most fragrant, as well as the most lasting of all Floral Waters, and possesses refreshing and invigorating properties not contained in any other preparation of the kind.

How Arabi was Captured.

New York, Sept. 15.—A despatch to the *Evening Telegram* from Alexandria, Sept. 15, says:—Arabi as soon as he saw that his army at Tel-el-Kebir was doomed to defeat, galloped rapidly off to Zagazig, where he had ordered a special train to be held in readiness, and was conveyed to Cairo. Owing to some delays in the route, he arrived there only an hour before General Lowe's cavalry entered the city. His appearance in the capital caused the most intense excitement. He did not anticipate that the British would enter Cairo for forty-eight hours at least, and when it was known that they had reached the outskirts of the city, the Prefect of Police proceeded to Arabi's headquarters and arrested him. His staff had already deserted him and not a soldier was to be seen about him. He made no attempt at resistance, and was handed over to the British. He expressed a desire to at once send in his submission the the Khedive, and he was furnished writing materials for the purpose. Rouby Pasha, one of the delegates from Cairo, who came on to Kafr-el-Dwar yesterday, has been instructed to inform all the Egyptian commanders that General Wolseley requires their personal surrender at Benha. There is no doubt that this demand will be at once complied with. Engineers are now engaged in repairing the railway and telegraph to Cairo.

If Nearly Dead

after taking some highly puffed up stuff, with loud testimonials, turn to Hop Bitters and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes, or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides, it is the best family medicine on earth.

Water Elm.

An important use for water elm has presented itself in the making of sewing machine tables, the American Sewing Machine Company uses 30,000 feet per month in this way. The elm is laid one layer on another to the required thickness and then veneered with walnut. The process does not diminish the expense, but is rendered feasible by the scarcity of Illinois and Indiana walnut, which is hard to obtain, while that from Missouri and other southern states warps so badly that its use has been abandoned. Water elm has in the past been a much despised wood, being thought almost worthless, except for use in making baskets or in some other trivial way, and not worth the cutting, but it appears to have a value, after all.

A SIMPLE herb found on the sunny plains of a Southern clime has, under the skillful manipulation of DR. VAN BUREN, proved one of the greatest blessings ever sent to sufferings humanity. DR. VAN BUREN'S KIDNEY CURE is acknowledged all the world over as the only perfect remedy for Kidney troubles. Your druggist has it.

One dose of BAXTER'S MANDRAKE BITTERS will relieve Sick Headache. One bottle effects a cure. Price 25c. per bottle.

Professor Bowlin's Great Golden Seal Discovery.

The greatest and latest discovery of the nineteenth century. A sure and permanent cure for Fits, Hysterics, Dizziness, and all nervous complaints. When ordering a bottle send full description of disease, age and condition of patient, advice free, price $1.00 per bottle. RICHEES, BARBEAU, & Co., 101 St. Francis Xavier St., Montreal, sole agents for Canada.

Daily Intelligencer.

BELLEVILLE, SATURDAY, SEPT. 16.

City and Vicinity

THERE were only two drunks in the cells last night.

No. 1 express was over an hour late again to-day.

CITY MISSION Services to-morrow in the City Mission School Room at 2:30 and preaching service at 7 o'clock D. V.

MR. ALMON P. REED, of the 4th con. Thurlow, has over an acre of sugar cane, some of which is over eleven feet in height.

WE have received a copy of Mr. J. S. McMurray's new song "Pretty Little Mina," the words of which are written by R. K. Curlett, of this city. The song is likely to prove popular with professionals.

IT is now extremely improbable that the Oka Lacrosse Club will be able to visit Kingston next week to play the Maple Leafs or the Earls owing to the illness of some of the members and the absence of others.

AN effort will be made by the Cricket Club to send a team to Napanee next Friday, the 22nd inst., and it is to be hoped that it will be successful, for the club has already given the Napanee men one disappointment.

THE steamer *Nellie Cuthbert* is open to charter, on reasonable terms, to a private party who wish to visit the exhibition at Kingston. Terms can be arranged with the owner, A. W. Crawford, at the Windsor Hotel or on the steamer.

THREE immense blocks of free stone for the front of the Government Building have arrived, and are now being dressed preparatory to being placed in position. On the largest of them, the coat of arms is to be cut after it has been set up.

THERE is a probability of the store recently occupied by Mr. John Fox being turned into the Anglo American Hotel. Mr. Jas. Ashton, one of the owners of the block, has this plan in contemplation. It would add greatly to the accommodation of the Anglo.

THOSE who have subscribed for stock in the proposed car-works are beginning to be curious as to what is going forward with respect to that work. Diligent inquiry fails to discover any steps that have been taken to hasten the formation of the Board of Directors.

"THE Electoral Spark" is the name of the piece which is to be presented in the Metropolitan Hall next Thursday evening, the 21st. inst., by the famous "Jollities Combination." The Montreal *Gazette* says of it:—"The play, if such it can be called, is certainly intensely funny, and its irresistible comic situations are brought out in highly humorous manner. Again and again peals of laughter and rounds of applause rang through the house, and from first to last there was no cessation in the merriments."

ONLY two drunks were brought before the P. M. this morning—W. J. Morrison, who was fined $2.00 and costs, and Hiram Barnhart (the persecutor of his wife and daughter, whose case we referred to yesterday), who was sent to gaol for a month.

MR. JAS. ASHTON is in the city. He has passed his final examinations in Toronto, both as Attorney and Barrister, and is about to take his departure for the West to practise his profession. He is yet undecided whether he will settle in Colorado or in British Columbia.

THE 49th Battalion arrived home by a special train about noon to-day. No. 1 Company and the Madoc and Stirling companies marched from the G. T. R. station to No. 1 Armory, and there disbanded with hearty cheers for the commanding officers. The men look as burned and dilapidated as if they just arrived from Egypt.

MR. A. A. MACDONALD, the athlete, took part in the athletic games at Lucknow, and won second prize in putting the heavy stone, Donald Dinnie taking first with a score of only 35 feet. Mr. Macdonald, it is needless to say, was not in condition. He has beaten Dinnie's record, by over five feet.

A FINE bus has just been completed at St. Charles' factory, for the Imperial Hotel of Galt. The ornamental painting was done by Mr. Richardson, and is perhaps superior to anything of the kind from his facile brush. A portrait of Sir John Macdonald appears on a panel on one side of the 'bus, and another of Hon. A. Mackenzie on the other side.

AS fine a set of harness as was ever manufactured in Belleville has just been turned out by Mr. Wm. Davis. It is a double set, made of American oak-tanned leather with silver trimmings and small rubber buckles. The set has been purchased by Mr. D. L. Lockeby, and will be exhibited at the Montreal Exhibition, where a first prize probably awaits it.

THE Deaf and Dumb Institute opened on Thursday, there being 230 pupils in attendance. This is the largest number ever present at the beginning of a term. Some 40 more are expected to arrive. The personnel of the teaching staff will undergo no change. The Institution never opened under more favorable circumstances than the present, and a successful term is anticipated.

AN attack on Belleville sportsmen in general and Belleville base-ball players in particular appears in the Napanee *Beaver*. A number of devotees of the latter game have seen this screed and are justly indignant at the falsehoods and misrepresentations which it contains; but we would advise them to confine their indignation to the journal in which it appears, and not attach any blame to Napanee sportsmen, for it is some considerable time since the *Beaver* has represented the views of the respectable portion of Napanee society.

OUR LITTLE ONES AND THE NURSERY.—The most beautifully Illustrated Magazine for little people in the world. Published in Boston and London. Monthly; 15 cents a copy; $1.50 a year. The publishers will send a specimen for a three cent stamp. Russell Publishing Company, Geo. A. Smith & Co., Managers, 149 A Tremont Street, Boston, Mass.

TRENT NAVIGATION WORKS.—The *Courier* says:—"Mr. Belcher assures us that the route by Stony Lake and Burleigh, is the line chosen by engineer Rubidge, for the Trent Huron Canal and that the present improvements are only an instalment towards the completion of the connecting links of this magnificent inland navigation water stretches. Mr. T. Crosby of Peterboro is putting in gates in the Locks at Chisholm's Rapids."

THE NEW SEE OF PETERBORO'.—The *Whig* says:—"Bishop Jamot, first Bishop of Peterboro', will take possession of his See on next Thursday, festival of St. Matthew. He will leave Toronto by special car, accompanied by His Grace the Archbishop of Toronto, Bishop Crinnon, of Hamilton, Bishop O'Mahoney, and a number of priests. Great preparations, it is said, are made in Peterboro' for Bishop Jamot's reception."

COOL ROBBERY.—Mr. Geo. Maybee, formerly of this city, now of Napanee, was robbed of $140 last Saturday night. The *Standard* gives the following version of the robbery:—"When Mr. George Maybee went to bed on Saturday night last he laid his pants, in a pocket of which he had $140, on the foot of the bed, and left a light burning in the room. When he arose on Sunday morning his pants were not where he left them the night before. After a search they were found down stairs, minus the money, but how they got there and what became of the money are matters which Mr. Maybee would like very much to have explained. That some person entered his house, went stealthily to his room while he slept, took the pants to where they were found, and, having secured the plunder, departed undetected, is certain, but who did it he has not, he says, the slightest suspicion."

PUBLIC INSTALLATION.—Rev. William Stacy, formerly of Wincanton, England, was last evening inducted into the pastorate of the Congregational Church. There was a good attendance present, including quite a number of friends from other churches. The services were of a most interesting character. Rev. Dr. Jackson, of Kingston, occupied the chair, and on the platform were Rev. D. Mitchell, Rev. A. Turnbull, Rev. Mr. Burns, Mr. Parmalee, besides those who took an active part in the service. Rev. Thos. Hall, of Kingston, addressed the pastor in a most impressive manner, and Rev. Hugh Pedley, of Cobourg delivered an equally impressive address to the congregation, the speakers dwelling on the mutual duties and responsibilities of pastor and people. The ceremony of induction was then proceeded with, after which the new pastor briefly addressed the congregation. Rev. Mr. Stacy begins his pastorate with good prospects of success, which, it is to be hoped, will be fulfilled.

WEATHER PROBABILITIES.—Toronto, Sep. 16.—Lakes, moderate to fresh southerly to southwesterly winds, fine warm weather.

"ONLY A FARMER'S DAUGHTER."—This drama, which was produced in the Metropolitan Hall last night before a very large and highly intelligent audience, cannot be praised as a literary production. Though its dialogue is at times spirited, though it contains several scenes and situations which are well worked up, its faults of construction and the improbable—nay impossible—contradictions of character which it presents are sufficient to condemn it. Nevertheless it has received the stamp of popular approval; and after all it does not much matter (pecuniarily) whether a play has glaring defects and inconsistencies so long as it contains the elements of popularity, which this drama undoubtedly possesses. The principal character of the piece—that of *Lizzie Stark*, a vulgar but clever adventuress, who has devoted her life to the advancement of the interests of *Jack Hartley*, a former fellow convict, with whom she is in love—was played by Miss Helen Blythe, the Miss Helen Bly who played *Camille* and *Juliet* here nearly five years ago. Then she was a slender girl, just budding into womanhood, and her genius was yet in its germ; she has now developed into a woman of matronly appearance, and she has also ripened into an actress of undoubtedly great natural powers, as well as having become a proficient in the details of her art. We were sorry that she had not a character last evening in which she could fully display her natural gifts and her artistic acquirements; it could plainly be seen that she was acting well within her powers. But even the portraiture which she presented of the vulgar, shrewd, beautiful, cool, cruel, unscrupulous, and yet faithful *Lizzie* was, in its way, worthy of great praise. In the portrait she presented to the audience she showed not only a fine dramatic instinct and knowledge of her art, but a keen knowledge of human nature, especially of the contradictions of character and the subtleties of motive which are only to be found in women, and only in women of that peculiar class, one of which she was representing. Miss Blythe's support was, on the whole, not good. Mr. Bryan's *Harold Lennox*, Mr. Neil's *Philip Bartram*, and Miss Frank's *Mother Stark*, were, however, honorable exceptions.

The International Rifle Match.

This match was completed on Friday, and resulted in an easy victory for the British. Score:

	800 yds.	900 yds.	1,000 yds.	Total
British	293	313	307	913
Americans	255	271	236	762

Majority for the British.............. 151

Adding their 19 majority on the first day to the British score, it will be seen that they win by 170.

Sporting Notes.

The Kingston *News* says:—"Mr. A. W. Hepburn, of Picton, has exchanged his little steamyacht *Flora* for the sailing yacht *Lady Agnes*, (formerly *Gorilla*,) of Trenton. The *Flora* is a small open steamyacht, and was built by Mr. Lewis Francis, of this city. Mr. Francis also built her engine. The *Gorilla* is now a very old yacht, but, being built of oak, is still strong and seaworthy. She was built by Mr. Wm. Power, of this city.

The following team of cricketers, amateurs and professionals, left England on the 14th for Australia on the *Peshawur* for an Australian tour under the management of the Melbourne Cricket Club: Hon. Ivo Bligh (Kent), captain; Mr. G. B. Studd (Middlesex and Cambridge University), Mr. C. T. Studd (Middlesex and Cambridge University), Mr. A. G. Steel (Lancashire and late Cambridge University), Mr. C. F. H. Leslie (Middlesex and Oxford University), Mr. W. W. Read (Lancashire), Mr. G. F. Vernon (Middlesex), Mr. M. P. Lucas (Sussex), Mr. E. F. S. Tylecote (Kent), W. Bates (Yorkshire), A. G. Barlow (Lancashire), W. Barnes (Notts), F. Morley (Notts). The amateurs will have their expenses paid and the professionals will receive £220 each in addition to their expenses. Three matches will be played—at Melbourne, Sydney and Adelaide—against the Australian team now in England.

Hanlan has accepted Ross' challenge to row for $2,500 a side two months after signing articles, on any course between Boston and Washington.

Midland Railway of Canada.

PETERBOROUGH, Ont., Sep. 13th 1882,

The traffic of the above railway for the week ending Sep. 9th 1882, was as follows:

Passengers and Mails, $8,792.34; Freight, $15,132.20; Total, $23,924.54, as compared with $21,188.84 for the corresponding week of 1881, being an increase of $2,735 70; and the aggregate traffic to date is $693,182.65, being an increase of $163,077.11 over 1881.

Excellent reasons exist why *Dr. Thomas Eclectric Oil* should be used by persons troubled with affections of the throat or lungs, sores upon the skin, rheumatic pains, corns, bunions, or external injuries. The reasons are, that it is speedy, pure and unobjectionable, whether taken internally or applied outwardly.

BAXTER'S MANDRAKE BITTERS never fail to cure Costiveness and regulate the Bowels.

A New Principle.

The principle upon which PUTNAM' PAINLESS CORN EXTRACTOR acts is entirely new. It does not sink deep into the flesh, thereby producing soreness, but acts directly upon the external covering of the corn, separates it from the under layer, removes the direct pressure from the part, and at once effects a radical cure, without any pain or discomfort. Let those who are suffering from corns, yet skeptical of treatment, try it, and by the completeness of the cure they will be ready to recommend Putnam's Painless Corn Extractor to others. Sold by W. B. Carmichael.

LATEST FROM THE SEAT OF WAR.

The Times on the Situation.

ITEMS OF INTEREST.

The Commander at Damietta Refuses to Surrender.

Kafr el-Dwar Occupied.

LONDON, Sep. 16.—The *Times* says if the lives of Arabi and his immediate followers are spared these men must be put once for all out of the way without doing further damage. They cannot be permitted to retire to Constantinople to become the centre of impalpable intrigues to destroy the authority of the Khedive. The army must be disbanded and replaced by Gend'armerie sufficient to maintain order. If the troops are ordered to defend the distant frontiers it is sufficient to maintain them on the frontier and not keep them at Cairo.

ALEXANDRIA, Sep. 16.—Ninet, Arabi's European adviser, has not yet been arrested.

The commander at Damietta refuses to surrender. He has five thousand black troops.

Hassan Pacha Cherei, Arabi's Minister and Kemlai Pacha have been arrested.

Mahmoud Pacha Barrouki, has been arrested near Cairo.

Several prisoners have been identified as having participated in the massacres.

The native troops having disappeared, Gen. Wood occupied Kafr-el-Dwar and Mahala this afternoon.

MORNING DESPATCHES.

EUROPEAN.

THE SOUTH AMERICAN TROUBLES.

LIMA, Aug. 24.—Bolivia still adheres to her alliance with Peru. There are prospects for a renewal of war. It is probable that Bolivia will send troops to assist the Peruvians to defend Arequipa, which the Chilians propose to attack. The total cost of the war to Chili was sixty million dollars, but she recovered twenty four millions from the nitrate guano and Peruvian Custom houses.

AMERICAN.

PRESIDENT ARTHUR IN NEW YORK.

NEW YORK, Sept 16.—President Arthur arrived last night.

EMPLOYING CHINAMEN.

LOUISVILLE, Sept. 16.—Anderson, the leading short horn breeder in the United States, will discharge the negro farm hands and employ Chinamen on his plantation altogether; he thinks others will do the same.

$19,000 STOLEN.

NEW YORK, Sept. 16.—The embezzlements of Lathrop, assistant cashier on the N.J. Central Railroad, do not exceed $19,000.

A MATTER OF OPINION.

PITTSBURG, Sep. 16.—Yesterday the infant child of Anton Pelate was found dead with a big cat sitting on its breast. A doctor derides the suggestion that the cat sucked the child's breath away, and says the symptoms indicate that death resulted from convulsions or strangulation.

AMERICAN TRADE IN MADAGASCAR.

BOSTON, Sept. 16.—Madagascar advices state that the American export trade is the source of a serious local disturbance between the rival authorities on the island. The safety of American residents is not yet involved. The Chiefs of several seacoast tribes ignored the Queen's prohibition of the export of ebony, rosewood and other valuable products to this country. The Chiefs sent a large force of soldiers to enforce the decree. Some skirmishes occurred, only a few being killed, but hundreds of the Queen's troops are dying of fever. The Queen has commenced arming her troops with American weapons.

BRADSTREET'S WEEKLY REPORT.

NEW YORK, Sep. 15.—Special telegrams to Bradstreet's *Journal* state that the wheat crop has all been secured in the North-west. The growing corn has greatly improved and cotton has likewise enjoyed favoring weather and made marked gains in condition. There were one hundred and thirty-nine failures reported to Bradstreet's *Journal* during the past week, eighteen more than the corresponding week of last year. Canada had twenty-two, an increase of eight.

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinary or Liver Diseases, as they only relieve for a time and make you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

AFTERNOON DESPATCHES

RUSSIAN OPINION.

ST. PETERSBURG, Sept. 16.—The *Gazette de St. Petersburg* says, that to allow England to settle the Egyptian question without consulting the Powers is not to be thought of.

QUEENSTOWN, Sep. 16.—Arrived the *Republic*

BIG FACTORY BURNED.

ELMIRA, Sep. 16.—At three o'clock this morning the immense boot and shoe factory of I. Richardson & Co., a four story brick building, was burned. Loss, $300,000. Insurance, $150,000. Three hundred hands are out of employment. Four firemen were seriously hurt by the falling walls.

THANKSGIVING SERVICES

LONDON, Sep. 16.—Mr. Gladstone has asked the Archbishop of York to direct a thanksgiving service to be held in the churches to-morrow for the success in Egypt.

Obituary.

At her mother's residence at Thomasburg after a lingering illness, borne with Christian patience and in simple child like trust in a Heaven Father, in the twentieth year of her age, on Wednesday morning, the 13th Sept., Ellie Stokes passed away to her rest. The funeral took place yesterday afternoon at 3 o'clock, attended by a large concourse of sorrowing friends and relatives. Much sympathy is evinced by the whole community for Mrs. Stokes (herself ill) and the family; as it was only a short time ago that a still older daughter, Maria, a most intelligent, Christian girl, beloved by everyone, was also committed to her rest. May the God of hope and consolation who has seen fit, in His wise providence to call three members of this loving family to their heavenly rest, be with the mourners and comfort them in their sad bereavement.—Com.

Thomasburg, Sep. 15th, 1882.

☞ The Diamond Dyes always do more than they claim to do. Color over that old dress. It will look like new. Only 10 cents

BEFORE purchasing Ready made Clothing be sure and look through HENNESSY'S stock. He has over 300 suits in all, and is offering them at actual cost.

COUGHS AND COLDS.—If taken in time are easily cured,—if allowed to continue will result in incurable consumption. Allen's Lung Balsam has the confidence and support of the medical faculty, and is recommended by all who are acquainted with its virtues.

Consumption, that dread destroyer of the human race, is often the result of bad blood and low vitality, a scrofulous condition of the system. Burdock Blood Bitters cure Scrofula in its worst form.

Dropsy is essentially a watery condition of the Blood, dependent upon disordered Kidneys. Burdock Blood Bitters are strongly Diuretic and consequently the best known remedy, acting as it does upon the entire Secretory System.

SMITH MEDICINE Co.

GENTLEMEN,—I have made a trial of one box of Dr. Smith's Great German Worm Remedy, with such good effect that I have no hesitation in recommending it to the public as a prompt and reliable medicine. In fact, those who use it once will always do so. Yours truly,

J. Harvie, 172 Cadieux street.

Montreal, December 9th, 1881.

Dr. E. C. West's Nerve and Brain Treatment is a never failing cure for Nervous Neuralgia, Nervous Headache, Overworked Brain, &c. Sold at James Clarke & Co's.

MARRIED.

On the 13th inst., by the Rev. P. McCauley, at the residence of Henry Fenn, Esq., father of the bride, ROBERT CAMPBELL to ELIZA FENN, both of Sidney.

On the 13th inst., by the Rev. S. McCauley, at the residence of John Cooley, WILLIAM P. WAY to ADA GARDNER, both of Thurlow.

DIED.

At Belleville, on the 16th inst., LILLIAN RAYMOND, infant daughter of M. R. Lazier. [Funeral from the family residence, cor. of Queen St. and Foster Avenue, to-morrow at 3 p. m.]

Commercial.

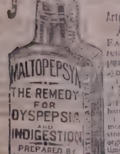
MALTOPEPSYN



Artificial Gastric Juice.

A WONDERFUL FACT, proving the remarkable digestive power of Maltopepsyn. [illegible] a hard boiled egg in a bottle of water, in from [illegible] How much more will it digest in the stomach assisted by that organ? About twenty times the quantity.

Test this for yourselves,—it is an interesting and useful experiment.

Get from your druggist ten drops of Hydrochloric Acid in a four ounce bottle, fill bottle half full of tepid water (distilled water is best, though soft water will do), then add the finely cut white of a hard boiled egg, then add two doses (30 grains) of Maltopepsyn and shake bottle thoroughly every 15 or 20 minutes, keep the bottle warm, as near the temperature of the body (100° fahrenheit) as possible, and in 3 to 4 hours the egg will be entirely dissolved or digested.

Maltopepsyn is endorsed by the leading Physicians and Chemists throughout the Dominion of Canada.

Send for Pamphlet, 24 pages, giving full treatment of Dyspepsia with the rules of Diet, etc., mailed free upon application by HAZEN MORSE, TORONTO.

Price per bottle, with dose measure attached, 50 cents, contains 48 doses or about one cent per do[se]

We have sold the above remedy for several months and find it spoken of very favorably by both the medical profession and the public.

We can safely recommend it to parties needing such a remedy. Signed,

THE LORE-LEI.

I know not whence it rises,
This thought so full of woe;
But a tale of the times departed
Haunts me—and will not go.

The air is cool and it darkens,
And camly flows the Rhine;
The mountain peaks are sparkling
In the sunny evening shine.

And yonder sits a maiden,
The fairest of the fair;
With gold in her garments glittering,
And she combs her golden hair.

With a golden comb she combs it,
And a wild song singeth she,
That melts the heart with a wondrous
And powerful melody.

The boatman feels his bosom
With a nameless longing move;
He sees not the gulfs before him,
His gaze is fixed above.

Till over boat and boatman
The Rhine's deep waters run;
And this, with her magic singing,
The Lore-Lei hath done!

—Heinrich Heine

A Street Car Scene.

Recently a man dressed in good clothes, an eye glass and a gold-mounted cane, and possessing an altogether clerical appearance hailed a passing street car. There was nothing unusual or particularly noticeable in this except the air of lofty dignity with which he commanded a halt, and the desperate effort which he made to maintain his centre of gravity as he passed the car revealed the fact that he was slightly intoxicated. Arriving at the door he solemnly raised his foot to enter, but not raising it high enough he fell headlong on the floor of the car. Raising himself up with some difficulty, he cast a severely reproving look at the old gentleman sitting near the door and said:

"Sir, what d'you lift this car for just as I was goin' to get in?"

'My dear sir, I didn't lift the car,' replied the old gentleman meekly.

'Well, p'raps you didn't. I won't 'tempt to argue with a man in your condition. My amiable friend, it is firm and deliberate opinion you've been looking upon the wine when it is red. Very sorry to see it in a man of your age. What'd 'pose your mother would say if she would see you intossicated? My friend, I have shed many bitter tears over such a case as yours. Yes,' continued he in faltering voices and pulling out his handkerchief, 'and I'm blessed if I ain't weeping now, as you readily observe.'

Whereupon he wiped his eyes with a grand flourish, blew his nose, and navigated to the other end of the car. When he reached his destination he pulled the bell strap and started for the door. When he got about halfway, tripped and fell at full length on the floor. Raising himself with difficulty and turning to the lady he said.

'Madame, you've got the biggest feet I ever saw.'

'Sir!' exclaimed the lady indignantly.

'Oh, don't 'pologise!' said he, 'I beg you won't 'pologise, but if you'd just pare 'em down a little it would be a great convenience to the travelling public.'

The lady was speechless with indignation and the passengers convulsed with laughter, while the man staggered to the platform, jumped off and immediately sat down, raised himself with difficulty, shouldered his cane and staggered off.

Spoopendyke as a Farmer.

HIS EXPERIENCE IN BARRELED WEEVIL AND OTHER THINGS.

Brooklyn Eagle.

'This,' said Mr. Spoopendyke, as he gazed around on his new acquisition of six acres, 'this, my dear, is what I have always wanted. A farm and a farmer's life are the highways to happiness, Mrs. Spoopendyke, don't you think so?'

'It's perfectly lovely,' rejoined Mrs. Spoopendyke. 'I was born on a farm, and I was always healthy, though I had to go a good ways for water.'

'I'll fix that, my dear,' returned Mr. Spoopendyke. 'I'll bring the water. Now where are my agricultural reports? I must plant right off if we are going to have crops, and when they're ripe we'll take them to market.'

'I see the report says you must give your hens chopped turnip once in a while,' said Mrs. Spoopendyke putting her thumb on the paragraph.

'Either that or cabbages,' returned her husband. 'I don't know whether we'll have cabbages enough,' he continued musingly.

'You might have less buckwheat,' suggested Mrs. Spoopendyke. 'I should think, though, that two acres would be enough for one hen, and if it isn't you can buy a load now and then from the neighbors.'

'I'll think that over,' replied Mr. Spoopendyke. 'Here's one thing I don't understand. It says we should test a few seeds before planting to make sure they will germinate, but it don't say how to do it.'

'May be it means to boil them,' suggested Mrs. Spoopendyke, 'or perhaps you—'

'Or, perhaps you think it means to crack 'em with an axe to see if they are hard! I s'pose you've got an idea you stick straws into 'em to see if they're done! Well, you don't; you put acid on 'em, I'll get some acid and drop 'em in, and if it discolors 'em they're no good, and if it don't they're all right. I think we ought to have some weevil for the pig.'

'I don't know where you're going to plant it,' said Mrs. Spoopendyke, 'unless it will grow with buckwheat or onions. You can't put it in with the cabbages; the pig and hen would fight.'

'Do you know what weevil is?' demanded Mr. Spoopendyke, glaring at his wife. 'Got a notion it's some kind of weed for the pig to smoke haven't you? Imagine it's gilt edged note-paper with a monogram for him to write on, don't you. We'll it isn't a swallow-tail coat or a plug hat for him to go to church in, neither! You don't plant weevil, Mrs. Spoopenkyke, any more than you do soap, or clothespins or stair-rods. You buy it in barrels and I'll offer some.'

'I think we ought to have some lace curtains for the front windows,' suggested Mrs. Spoopendyke, anxious to change the conversation.

'Yes, and we want a folding bedstead for the cow, and we've got to have a new arm chair for the pig, and I'm afraid those cabbages wont do without a wet nurse!' squealed Mr. Spoopendyke. 'I suppose I've got to hire a man to see that the meadow don't go fishing on Sundays and upset your religious notions. O! you're a farmer's wife, you are! If I had time to write an index to you and get some dod gasted binder to fit you up and with a fly leaf, you'd make a whole agricultural report!'

And Mr. Spoopendyke shot into the house and to bed, while his wife, having put all the oil lamps into buckets of water so they couldn't explode during the night fell asleep dreaming that the cabbage patch had eloped with the onions, while the cow and the pig had died of weevil and the windmill had abandoned agricultural pursuits and started off through Ohio preaching the gospel.

The celebrated oarsman of Kingston, Canada, Mr. Ed. Tricket, says: "I have found St. Jacobs Oil a sure and certain cure for rheumatism, etc."—*New York Clipper.*

CHEAP AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Magnetic Medicine, which contains forty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column.

BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, blotches, pimples and the various humors and blemishes of the skin are only symptomatic of bad blood that needs purfying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidneys, skin, etc, and strengthening while it regulates and purifies.

The market is full of preparations for the hair, some of them good, and many of them good for nothing. R. P. Hall & Co., of Nashua, N. H., manufacture and sell an article of real merit, which has been advertised in the *Express* for the past year, and we have taken no little pains to inquire how it has been liked by the public. One of our druggists informs us that he has sold more than double the amount of Renewer than of all other hair preparations combined, and when a person once uses it, he will use no other: that it is not only bought by the young people as a dressing, but by older persons for removing dandruff, preserving and increasing the growth of the hair and restoring its natural color. Another druggist says that he sells three or four times as much of Hall's, as of all others.—*Hampshire Express, Amherst, Mass.*

Samson lost his strength with his hair. Thousands of men and women lose their beauty with theirs, and very large numbers restore the ravages of time by using the famous Cingalese Hair Restorer. Sold at 50 cents per bottle by all Druggists.

Take no more nauseous purgatives. Burdock Blood Bitters act mildly, pleasantly and thoroughly upon the Bowels, and occasion no inconvenience, while it regulates the Liver and Kidneys and tones the enfeebled system. Trial bottles 10 cents.

Rest and Comfort to the Suffering

"Brown's Household Panacea" has no qual for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful," "Brown's Household Panacea," being acknowledged as great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle. 264ly

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrh, Bronchitis, Asthma and Lung Disease by Dr. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the seat of disease. Read and judge for yourself:—

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. JOHN P. WHELAN, Manager of POST AND TRUE WITNESS, Montreal. Mr. C. HILL, Montreal, catarrh and bronchitis. Mr. DEBOUCHERVILLE, of the Indian Department, Ottawa, catarrh of many years; now cured. Mr. GEO. AGER, Ottawa, catarrh and lung disease; cured. Mrs. SMITH, London, wife of Medical Detective, cured of catarrh. GEO. MAGUIRE, Toronto, 482 Adelaide street West; daughter cured of asthma. GEORGE WILLIS, Exeter, Ont., catarrh and bronchitis. J. D. ARMSTRONG, 186 Yonge street, Toronto, catarrh and catarrhal deafness. THOMAS TELFER, 12 Melinda street, Toronto, asthma; cured. Mr. BENJ. A. DRAKE, St. Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. BENOIT, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma and bronchitis for over eight years, and who is now perfectly cured.

Mrs. ADAMSON, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitating in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis. JOHN C. FLEMING, Editor of POST and TRUE WITNESS, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write, including stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souville and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

CINGALESE. A name well known in connection with the HAIR RENEWER, which restores grey hair to its natural color by a few weeks use. Sold at 50 cents per bottle by all Druggists.

As a cure for all diseases of the Lungs, DOWNS' ELIXIR has no equal.

DELAYS are dangerous, particularly in Kidney Diseases, so take at once DR. VAN BUREN'S KIDNEY CURE and obtain relief from all your sufferings. Your Druggist keeps it.

At the approach of spring great attention should be given to purify the system engorged with foul humors during the winter. Burdock Blood Bitters is Nature's own purifying and regulating tonic.

Mothers! Mothers!! Mothers!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle. 264ly

Asthma and Bronchitis Cured.

HALIFAX, N. S., Jan. 1882.

C. M. PUTTNER, Esq., PH. M.:

SIR,—I consider it my duty, not only to yourself, but to my fellow creatures who are suffering from Asthma and Brohchitis, as I had for some time previous to using your "Emulsion of Cod Liver Oil with Hypophosphites," to give my testimony to the most wonderful good effect it had. Having suffered for some time with Asthma and Bronchitis, accompanied with great nervous exhaustion, and having carefully read your Essay on the combination and uses of your Emulsion, I was persuaded to give it a trial, and on using two bottles I began to receive great benefit and relief, and after using three bottles I was completely revived and am to-day perfectly free from either Asthma or Bronchitis, and my nervous system much invigorated and built up. I have found it very pleasant and palatable, and with no taste of the oil whatever, and can with great confidence recommend it to those suffering as I did previous to taking your compound. In conclusion, I consider I owe you a debt of great gratitude for the benefit I have received from your Emulsion and only hope that many may be induced to give it a trial, and receive as great benefit as I have from its use. I am, yours, &c.,

ALEX. STEPHENS, SR.,
Merchant.

MEDICINE CHEST IN ITSELF
A PURELY VEGETABLE MEDICINE
For INTERNAL and EXTERNAL use.
THE OLDEST BEST & MOST WIDELY KNOWN FAMILY MEDICINE

Farmers and Mechanics.

Provide yourselves with a bottle of *PAIN-KILLER* at this season of the year, when summer complaints are so prevalent; it is a prompt, safe, and sure cure. It may save you days of sickness, and you will find it is more valuable than gold. Be sure you buy the genuine *PERRY DAVIS' PAIN-KILLER*, and take no other mixture

COBOURG, Ont., March 3, 1880

I have been selling Perry Davis' Pain-Killer for the past six years, and have much pleasure in stating that its sale in that time has been larger than any other patent medicine that I have on my shelves, and in those years I have never heard a customer say aught but words of the highest praise in its favor. It is an article that seems to have combined in it all that goes to make a *first-class family medicine*, and as long as I have a house and store, Perry Davis Pain-Killer will be found in both.

Yours, &c., J. E. KENNEDY.

Beware of Counterfeits and Imitations.

Price 20c., 25c., and 50c. per bottle.

UNCONDITIONAL, INCONTESTABLE LIFE POLICIES.

THE objection is often made that the Companies may take advantage of some of the conditions on their Policies, and thus either avoid entirely the payment of claims, or compromise with the widow for a small sum. This argument cannot be used against

THE SUN LIFE ASSURANCE CO'Y OF MONTREAL,

which issues absolutely unconditional policies to selected lives. There is no restriction of any kind on them. The assured may travel to any part of the world without extra premium. He may change his occupation at will, or do anything else he chooses. The contrast is remarkable with other policies. Ask an agent to show you one; it speaks for itself.

$500 REWARD.

WHEREAS good reason exists for believing that the several fires that occurred on the morning of the seventh September instant, on the premises occupied by Lake & Jenkins, Livery Stable keepers, on the corner of Bridge and Pinnacle Streets, and of Dr. Curlett, on Hotel Street, in the City of Belleville, were the work of incendiaries, and

Whereas by the amended Municipal Act of 1879, chapter 31, section 31, authority is given to any Municipality in which a flagrant crime is believed to have been committed, to offer and pay a reward for the discovery, apprehension or conviction of the criminal, or of any person who is suspected to be the criminal,

And whereas the Council of the Municipality of the City of Belleville have determined to offer a reward for the apprehension and conviction of the perpetrator or perpetrators of the above crime,

Therefore be it known, that a reward of $500 will be paid by the Municipality of the City of Belleville to any person or persons who will give such information as will lead to the apprehension and conviction of the person or persons guilty of the above mentioned offence

Dated at Belleville, this 12th day of September, 1882.

HALL'S
VEGETABLE
SICILIAN
HAIR
RENEWER

Has been in constant use by the public for over twenty years, and is the best preparation ever invented for RESTORING GRAY HAIR TO ITS YOUTHFUL COLOR AND LIFE.

It supplies the natural food and color to the hair glands without staining the skin. It will increase and thicken the growth of the hair, prevent its blanching and falling off, and thus AVERT BALDNESS.

It cures Itching, Eruptions and Dandruff. As a HAIR DRESSING it is very desirable, giving the hair a silken softness which all admire. It keeps the head clean, sweet and healthy.

The State Assayer and Chemist of Mass. and leading Physicians endorse and recommend it as a great triumph in medicine.

BUCKINGHAM'S DYE FOR THE WHISKERS

Will change the beard to a BROWN or BLACK at discretion. Being in one preparation it is easily applied, and produces a permanent color that will not wash off.

THE ROYAL INSURANCE CO.
Of England.

CAPITAL	$10,000,000.
Funds Invested	$23,000,000
Annual Income	5,000,000.

Over $600,000 invested in Canada for the protection of Canadian Policy holders.

Farm Property Insured against damage by Lightning. Losses to live stock by lightning and fire anywhere on the Farm made good.

FACTS WORTH REMEMBERING.

The Royal has the largest surplus funds of any Fire Insurance Company in the world.

The Royal has the largest deposit with the Dominion Government of any other Insurance Company.

The conditions of the Royal's Policies are more liberal than those of other Companies doing business in Canada.

In conclusion remember that security should be the first consideration, and that it is to your interest to insure with the Company that gives the *greatest* security. You may better carry your own risk than entrust it where you have not absolute security.

LOCAL AGENTS.

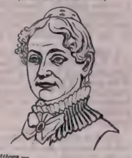
T. DONNELLY, Belleville,
DISTRICT AGENT

A NOTED BUT UNTITLED WOMAN.
[From the Boston *Globe*.]



Messrs. Editors.—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of *either* sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Philadelphia, Pa. (2) Mrs. A. M. D

July 13th, 1882. 54dtf

Daily Intelligencer.

Elzevir and Grimsthorpe Council.

TOWN HALL, Bridgewater, Aug. 28.

Council met pursuant to adjournment.

Minutes of last meeting read and approved.

The County Surveyor addressed the Council and stated that the Toronto & Ottawa Railroad was interfering with the public road near the cemetery and he had notified the Chief Engineer that a new road must be built as good as the present one before destroying the latter, and at his request the Council went with him to see the road staked out.

After dinner the Council resumed.

The following petitions were presented and ordered to be received:

From E. Klinsteuber *et al* for grant for road between D. Launday's and J. Greatrix's.

From J. Kleinsteuber *et al* for grant for road on Lot 2, 9th con.

The road commissioner reported he had examined James Lindsay's road, it was only 20 feet wide and would be expensive, requiring 1 culvert and in all 20 rods of crosswaying besides grading.

The following motions were passed:

That Samuel Greatrix be recommended at the next meeting of the council for a grant equivalent to his taxes, on road between 2 and 3 in 7th con.

That $20 be granted on the petition of Julius Kleinsteuber *et al* to be sold by Road Commissioner to lowest bidder.

That $10 be granted on road to James Lindsay's.

That $15 be granted to A. Thompson, Jr. for gravelling the road between 14 and 15, 3rd con.

The auditors for the Collector's Rolls from 1875 to 1880 inclusive presented their report and the collector returned his rolls.

On motion the rolls from 1875 to 78 inclusive were ordered to be returned to the Treasurer after the clerk had made a return to the County Treasurer of the rolls outstanding on them, and the rolls for 1879, 80 and 81 were returned to the collector to continue collection till meeting of Council in October.

On motion, the platform of the hay scale was ordered to be replanked, to the satisfaction of the Reeve.

The following motion was passed. That the clerk send the following statement to County Auditors: "After having examined the Township Treasurer's accounts in reference to balance of school money in the County Treasurer's books against the municipality, we do not find that anything is due to schools and think the said balance had accrued through improperly keeping the Township accounts. The Municipal Council respectfully request the County Auditors to submit the matter to the Minister of Education, advising the cancelling of said balance."

The Treasurer presented his half yearly report to 30th June, which having been examined, was ordered to be received

On motion M. Tummey received $6 for 12 weeks support to 26th August and Thos. Thompson was paid $4 for auditing collector's rolls, and an account of the INTELLIGENCER Pub. Co. was ordered to be paid.

It being seven o'clock the meeting was adjourned till the following Monday.

MONDAY, Sep. 4.

Council resumed. Present: the Reeve, Messrs. McIlroy, James and Burns.

The clerk read a notification from the County clerk that $1,279.40 would be required from this municipality this year for County purposes.

A By-law was passed and numbered 91, levying the following rates on the dollar for the present year: 2½ cents for County and Township purposes, 3 mills to meet County indebtedness, 1½ mills general school rate and the following for the school sections: 2c S. S. No. 1 and ½c. for special rate for same, 7 mills for S. S. No. 2, 1½c. for S. S. No. 3, 9 mills for No. 4, 2c. for S. S. No. 5, 7 mills for S. S. No. 6 and 1½c. for S. S. No. 7.

A By-law to preserve trees and timber growing on road allowance was passed and No. 92.

On montion $27.50 paid by trustees of the Flint estate for statute labor for 1881 was paid to Mr. Tuttle for lumber for sidewalks in Bridgewater, and $15 was granted on road between 3rd and 4th con. from lot 8 through the French settlement, to J. Baker, to be laid out to the satisfaction of Mr. McIlroy, and Mr. A. James was empowered to engage a competent man and examine timber growing on road allowances, estimate the value of the same and report at next meeting of Council.

Council adjourned till ten o'clock Monday, 30th October.

Effects of Protection in Canada.

(*From the Boston Textile.*)

Since the adoption of the Canadian protective tariff, their manufactures have increased with great rapidity, and before its adoption Canada, to the impartial observer, seemed to show no signs of ever becoming a manufacturing country. The provinces have been for years sending the most of their energetic and valuable labor to the United States, as better wages were to be obtained here, and America has gained immensely at the cost of Canada on this account.

Now it is a settled fact that in a large portion of the Provinces the land is as productive as our Northwestern States, and in many parts the climate is as good. Why, then, has Canada only been a stopping station to thousands of immigrants who have intended making it their home, and why have the energetic and sober native population emigrated in swarms to this side of the line?

Our view is, that as their manufacturers were compelled then to compete with English and European wages, they could pay only such wages. Consequently as soon as an operative obtained any skill, and money enough to pay his fare across the line, he or she would take the first chance to come where American wages were paid and work could be obtained. Now that the manufacturers are protected they can and will give employment to more operatives at higher wages and the operatives will become, instead of food producers, consumers, and make a good home market for the farmers, who will in turn be benefitted, and the growth and prosperity of the Provinces will thus be assured.

We are always glad to see our neighbors prosper, and although were the protection removed from their manufacturers, they would be compelled as formerly to send their labor to us and their money to either England or America for manufactured goods, yet we prefer to see a prosperous and contented people to the North of us than a free trade country which can help other nations very slightly in profiting a penny while they lose a pound. Prosperity, like adversity, is contagious. The great manufacturing nations are without exception the rich and prosperous ones, and those who are the largest manufacturers are the most wealthy. We claim that manufactories in any nation are the great promoters and supporters of all other interests, and that a nation's manufacturers cannot possibly prosper without all other interests being in a flourishing condition.

We see the rule working in the case of all nations, and find England first in wealth and first in manufactures; France second in both, and America third in both although a new country. We also see America gaining as no other nation ever did, in wealth and in manufactures and our agriculturists, whom (our English cousins weep over as groaning under a heavy and unjust burden) to support the manufacturer, have never been paralleled in prosperity, while England, blessed with free trade and imposing none of the so called unjust burdens on the agriculturists, is losing her agricultural subjects by emigration almost as fast as they can get money to pay their fare to America. Why is this thus? Is it because they, the labor and sinew of England pity us poor, miserable, benighted Americans, or is it that our protection to manufacture enables them to earn about double the wages they can at "'ome you know?"

While the sentiment of this paper favors commerce and assistance to American shipping, we believe that in protection lies the main source of our unparalleled growth, and that a wealthy and prosperous nation must be as nearly independant as possible in supplying its own market with manufactured goods. We heartily wish prosperity to Canada. May protection prove as beneficial to her as it has to us.

MARRYING A DECEASED WIFE'S SISTER.—The Deceased Wife's Sister Bill, which it was thought would settle all matters connected with the long vexed question, seems likely to prove inoperative, at least as regards the Episcopalian branch of the Protestant Church in Canada, as it is announced that the celebration of a marriage of this nature has just been refused solemnization by the pastor of his church to one of our citizens. The Anglican Bishop of Quebec withheld his sanction on the ground that while the law of the land renders all such marriages valid, it does not at the same time compel any clergyman to perform the ceremony. It is understood that the opinion of the highest legal authorities in the city has been taken and fully supports the Lord Bishop's decision. In the meantime it is said that the parties in the case have been obliged to have recourse to the clergy of another denomination whose canons allow it.

"With special and most gratifying success I used St. Jacobs Oil for a severely sprained knee. It was cured in ten days, and I cannot say too much in praise of the valuable substance," says Mr. S. S. Rhody, of the M. C. R. R., cor. Page and Railroad sts., Jackson, Mich.

BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, bloches, pimples and the various humors and blemishes of the skin are only symptomatic of bad blood—that needs purifying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidneys, skin, etc, and strengthening while it regulates and purifies.

Rest and Comfort to the Suffering

"Brown's Household Panacea" has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful," "Brown's Household Panacea," being acknowledged as great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle. 264ly

As a cure for all diseases of the Lungs, DOWNS' ELIXIR has no equal.

Take no more nauseous purgatives. Burdock Blood Bitters act mildly, pleasantly and thoroughly upon the Bowels, and occasion no inconvenience, while it regulates the Liver and Kidneys and tones the enfeebled system. Trial bottles 10 cents.

At the approach of spring great attention should be given to purify the system engorged with foul humors during the winter. Burdock Blood Bitters is Nature's own purifying and regulating tonic.

Mothers! Mothers!! Mothers!!

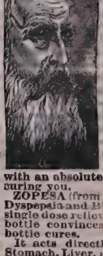
Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle. 264ly

Rheumatism is greatly dependent on a vitiated condition of the fluids, and may be eliminated from the system by cleansing the Blood and regulating the Kidneys. Burdock Blood Bitters will do this most effectually. Trial bottles 10 cents.

RACKED BY INNUMERABLE PANGS, restless by day, sleepless at night, rising unrefreshed in the morning, without appetite and pestered by varying and perplexing symptoms, the dyspeptic takes indeed a gloomy view of human existence. For him the zest of life seems gone. Heartburn, oppression at the pit of the stomach, and the attendant annoyances of of constipation and biliousness, combine to render him utterly wretched. But there is, if he will but take advantage of it, a reliable source of reliable relief from all misery. NORTHROP & LYMAN'S VEGETABLE DISCOVERY and DYSPEPTIC CURE is, as its name imports, a botanic preparation, free from mineral poison, and an all-sufficient remedy for indigestion in its most obstinate form. It not only enriches the blood by enabling the digestive organs to convert the food received into nutriment, but depurates it by increasing the action of the bowels and kidneys, the natural outlets for its impurities. But while it relaxes the bowels, it never does so violently and with pain, like a drastic cathartic. It aids, but never forces, Nature, invigorating as well as purifying and regulating the system. It thoroughly removes those diseased humors which tend to vitiate the blood, purifies the urinary secretion, and promotes a flow of healthy bile into the natural channel, besides expelling it from the circulation. Experience has proved that this standard medicine is a thorough remedy for dyspepsia, biliousness, costiveness, kidney complaints, scrofula, erysipelas, salt rheum, lumbago and all impurities of the blood. Price $1.00. Sample Bottle 10 cents. Ask for NORTHROP & LYMAN'S Vegetable Discovery and Dyspeptic Cure. The wrapper bears a *fac-simile* of their signature. Sold by all medicine dealers

The most wonderful curative remedies of the present day, are those that come from Germany, or at least originate there. The most recent preparation placed upon the market in this country, is the GREAT GERMAN INVIGORATOR, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangements of the nervous system. For sale by druggists, or sent free by mail on receipt of the price, $1.00 per box, or six boxes for $5.00. Address James Clark & Co., Sole agent for Belleville. Send for circular.

AFTER many years of patient investigation DR. VAN BUREN, of Germany, finally succeeded in perfecting a Kidney Cure that would permanently relieve all cases of Kidney Disease. Be sure and ask your Druggist for DR. VAN BUREN'S KIDNEY CURE.



WILL EXCHANGE a case of Dyspepsia or Billiousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Billiousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys.

Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

BELLEVILLE, MONDAY, SEPT. 18.

The Provincial Elections.

The Ontario Government have issued the writs for the eight vacant seats in the Legislature. The nominations are to be held on Wednesday, the 11th of Oct., and the elections one week later. West Hastings is one of the constituencies in which an election is to be held, to fill the seat for the one remaining year of Mr. Robertson's term. It is therefore incumbent on the Liberal-Conservatives to choose their candidate at once and place him in the field. We can hardly believe that the Grits will offer opposition, as they have absolutely no chance of winning, but it is just as well to be prepared for all emergencies.

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1 Druggists.

The Boundary Question.

Nothwithstanding the decision which the people of Ontario gave in June, on the boundary question, the Grits are evidently determined that the subject shall be the chief issue on their behalf in the forthcoming elections for the Provincial Legislature. The Conservative party are willing to meet their opponents on that, as one of the most prominent issues on which the people shall decide, and moreover they will have the truth of the matter, which the Grits are doing their best to obscure, brought fully forth for the judgment of the electorate. Were evidence wanting that Mr. Mowat's supporters feel and know that they have a bad case, it is to be found in the fact that they are basing their appeal to the popular tribunal on passion and prejudice, rather than on arguments with reason to sustain them. Mr. Mousseau, the new Premier of Quebec, is held up as a bugaboo to frighten the electors of Ontario into voting for the continuance of the present agitation—for sustaining a so-called award, which has its foundation, as one of the arbitrators confesses, in injustice to Ontario—for preventing a settlement of the dispute and bringing on a conflict with the Federal authorities—for depriving Ontario of the revenues from the disputed territory, or such portions of it as is here—by continuing Mr. Mowat and his colleagues in power.

Now let any reasonable man ask himself this question: Suppose Mr. Mousseau holds the views attributed to him by the *Globe* and its echoes, how could he influence the settlement of the dispute by the Supreme Court, or by the Judicial Committee of the Imperial Privy Council, before either or both of which tribunals the Dominion Government propose the case shall be carried? The inquiry at once shows that Quebec could not influence the decision to any greater extent than any of the other Provinces. Hence the absurdity of the frothings of the Grit organs as to Quebec's hostility are self-evidently intended for the sole purpose of arousing unreasonable prejudice, and so to gain a verdict determined by passion, not by reason.

But Mr. Mousseau is not the enemy of Ontario—the devourer of our Province's estate—that he is represented as being by the Mowat organ grinders. What Mr. Mousseau states that he said to Mr. Masson, when that gentleman was about to enter the Cabinet in 1878, was that he would advise him not to take office if Ontario was to have given to her a large area of territory not awarded her by the Confederation Act, and that if Ontario's borders were improperly extended, those of Quebec must also be extended. Now as the Confederation Act did not fix the boundaries of Ontario, which were, at the time of its passage, as now, undetermined on the north and west, Mr. Mousseau's remarks clearly meant that he wished this province to be kept within the boundaries when such should have been determined. Under the circumstances, his words could have no other meaning. This explanation is all that is necessary to show that the *Globe* has grossly misrepresented the Premier of Quebec, with an easily discernible purpose. The position which he took was therefore a perfectly proper one, namely that of protesting against any unfairness towards his own Province. Moreover, he never broached such a subject to Sir John A. Macdonald, for which we have Sir John's word.

Now contrast the conduct of Mr. Mousseau with that of Mr. Mowat. The position of the former is above shown. The latter, instead of holding firmly to the rights of his Province, urges the adoption of what he chooses to call an award, in which every point was given against Ontario, and to the injustice of which to this Province Mr. Laurier bore ample testimony when, previous to voting against the submission of the dispute to the only competent authority, he declared that he favored the award because he feared that if the case were adjudicated upon, Ontario would get *more than the arbitrators proposed to give her.* Thus Mr. Mowat is prepared to submit to injustice to the Province, in order to forward his own end, namely maintaining himself in power.

What the people of Ontario want is that all the territory to which the province is found to be legally entitled should be awarded to her, and that a decision from which there shall be no appeal shall be given. They do not desire that threats should be made or ill-feeling engendered which may culminate in violence, and as there is but one mode of obtaining justice, namely that proposed by the Conservative party, they will, we feel convinced, disregard all appeals to passion and prejudice, and place in power that party which is prepared to secure a friendly, peaceful and above all binding settlement of the question.

BAXTER'S MANDRAKE BITTERS never fail to cure Costiveness and regulate the Bowels.

Editorial Brevities.

Evidence as to the beneficial effect of the tariff on Canadian trade and industry continues to accumulate. The *Textile*—an influential trade publication of Boston—bears testimony from a foreign point of view, whilst the President of the Ontario Manufacturers' Association, in his annual address to that body, said:—"As the result of the adoption of a protective policy industries were flourishing as never before, old industries had revived and expanded, new ones had sprung into existence, and everywhere signs of genuine prosperity were plainly visible. This they had claimed would be the result of the adoption of the policy which they had so long advocated, and events had proved the wisdom and justice of the claim. He congratulated the country on the rapid opening up and development of the North-West. Thanks to the National Policy they had secured that market for Canadian manufacturers, and especially was this true of the agricultural implement trade, but it was in a greater or lesser degree true of almost all trades."

Don't die in the House.

"Rough on Rats." Clears out rats, mice, roaches bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

Campbellford Correspondence.

CAMPBELLFORD, Sep. 15.

It is again our painful duty to record another fire in our village, supposed to be the work of an incendiary, which happened on Saturday morning about one o'clock. The property belonged to Mr. H. Williams and consisted of a pump factory planing mill, &c. situated on the western side of the village, and driven by steam. Its being detached prevented the fire doing any more damage. All the property was quickly consumed, as the devouring element had taken a strong hold before being discovered, and ere the engine could be brought into action. The loss is calculated to be about twelve hundred dollars. There is no insurance. Mr. Williams had just brought his machinery into working order through perseverence and industry. The expressions of sympathy for him are unanimous.

The damage by the wind storm of Thursday last to the new Methodist Church, spoken of in my last, is very considerable, and will cost several hundred dollars in its restoration.

Mr. McNeil, who has filled many important situations for the last five years on the G. J. R., has taken a position on the Murray Canal and is therefore leaving that Company.

Catarrh of the Bladder.

STINGING irritation, inflammation, all Kidney and Urinary Complaints, cured by "Buchupaiba." $1.

Ameliasburg Correspondence.

AMELIASBURG, Sept. 18.

The damage caused by the gale on Thursday last, to the apple and pear crops in this vicinity, will be at least twenty-five per cent in growth alone. As it is conceded among observing "Fruit-growers," that late fall and winter apples make at least one half of their growth during the month of September, and the same rule applies to pears—fruit blown from the trees by the gale, if properly separated, will save longer than if picked at maturity. The direct loss to fruit thus blown from the trees, is in growth. Persons who have had fruit blown off, should not allow fruit buyers to take any advantage by declaring that the fruit is comparatively worthless.

Mrs. Mary Gerow still continues to improve slowly.

Rain is very much needed here.

Francis Peck leaves for Kingston to-day, to attend the Provincial Exhibition. Having made a very large number of entries of fruit and vegetables, he will exhibit 30 varieties of potatoes, 40 and 20 collections of apples, as well as each single variety of apples.

Competition among apple buyers still continues animated. The old buyers are very much displeased because they cannot control the apple trade as formerly, and the consequence is that a good deal of double dealing has already taken place both on the part of buyers and sellers. Some of the old buyers are apparently losing caste on account of past transactions.

TERRIBLE ACCIDENT AT MELVILLE.—Smith Viant and Charles Weeks were instantly killed during the forenoon of Saturday last while endeavoring to put up new timbers in the bridge at R. B. Cooper's mill at Melville. The timbers fell, killing Viant and Weeks instantly. Daniel How, Esq., and several others barely escaped. Weeks was unmarried, Viant leaves a wife and five or six children poorly provided for.

In Peace as in War.

BRITISH VOLUNTEER RIFLEMEN DEFEAT THE AMERICANS—AN EASY VICTORY.

The British had a majority at every range, as follows:—9 at 200 yards, 9 at 500, 1 at 600, 38 at 800, 42 at 900, 71 at 1,000 yards—total majority, 170. The highest score at 200 was 31, made by Heap, McVittie, and Dods on one side, and Howard on the other.

Highest at 500 yards was 34; made by Heap and McVittie for the British, and Smith for the Americans. Highest at 600 yards, 34, made only by Dolan, of the American team. Highest at 800 yards, 31, made only by Boulter, of the British. Highest at 900 yards, 32, made only by Pearse, of the British. Highest at 1,000 yar s, 32, made only by Humphrey, of the British.

The individual totals are as follows, out of a highest possible 210:—

BRITISH.		AMERICAN.	
Major Pearse	177	Pte. Smith	168
Pte. McVittie	176	Pete. Pollard	162
Corpl. Parry	170	Pte. Hinman	158
Boulter	170	Atkinson	156
Sergt. Dods	166	Pte. Ogden	153
Corpl. Caldwell	166	Sergt. Dolan	151
Sergt. Oliver	165	Sergt. M'Nevin	150
Corpl. Bates	164	Col. Howard	149
Capt. Godsal	161	Sergt. Paulding	142
Major Humphrey	159	Maj. Shakespeare	142
Pte. Goodyear	158	Pte. Alder	140
Lieut. Heap	143	Pte. Hinds	134
Total	1,975	Total	1,805

O. *Bortle*, of Manchester, Ontario Co., N.Y. writes:—"I obtained immediate relief from the use of *Dr. Thomas' Eclectric Oil.* I have had Asthma for eleven years. Have been obliged to sit up all night for ten or twelve nights in succession. I can now sleep soundly all night on a feather bed, which I had not been able to do previous to using the Oil."

Nervous debility is a result of indiscretion in the mode of living. Heed nature's unerring laws and take Burdock Blood Bitters, the Great System Renovator and Blood, Liver and Kidney regulator and tonic. Sample bottles 10 cents.

The "Times" on the Victory.

The *Times* in its leader warmly praises General Sir Garnet Wolseley, and gives him all the credit for the success of the campaign in Egypt. It says:—It is impossible to conceive of an operation more successful and executed in a more masterly manner. The whole plan of the campaign, it says, was settled by General Wolseley, with the concurrence of his superiors and the hearty acquiescence of his chief advisers, before he left England. There never was any question about the canal being the basis of operations. Before he left England he put his finger upon Tel-el-Kebir, saying there Arabi would stand and we should attack him on the 15th of September. We mention the circumstance to show that a great deal, which to the outside observer seems chance, is really foreseen, planned or allowed for. General Wolseley has achieved a success which renders all apology for his methods superfluous.

Wreck of H. M. S. "Phœnix."

HALIFAX, Sep. 15.—A telegram to-day from the neighborhood of the wreck of H. M. S. *Phœnix* says the stern post is broken and the screw and rudder lost and the ship full of water. Not the slightest expectations of getting her off. The stores have all been landed.

The steamer *Beaver* at Pictou from the Magdalen Islands, reports that when off East Point, P. E. I., on Tuesday morning, saw H. M. S. *Phœnix* ashore on the ledges. Sent a boat to offer assistance. An officer said no assistance could be rendered, as the vessel was lost, and they were getting materials ashore. A heavy storm has prevailed in the Gulf or the past forty-eight hours, and the vessel is a total wreck by this time.

ST. JOHN, N. B., Sep. 15.—The only news received here regarding H. M. S. *Phœnix* is that she is ashore at East Point, P. E. I., that she is bilged and is full of water, but that the crew, all of whom were saved, were quartered in a neighboring lobster factory. It is supposed she will be a total wreck.

The Dominion Exhibition.

PROGRAMME OF THE SHOW AT KINGSTON.

The programme for the Exhibition, as prepared by the officers, is as follows:

Monday—Officers and members of the Association, judges and exhibitors, notified to attend, members of the press, and necessary attendants, will be admitted on presenting the proper credentials, badge, or ticket of admission. Other persons will be admitted on payment of 25 cents each time. The rule for admission will be the same throughout the Exhibition.

Tuesday—The judges and delegates requested to attend on this day, will report themselves on arrival to the Secretary and commence their duties at once. On receiving their class-books, they will be furnished with the blank prize tickets, when they shall have finally determined their awards. The first prize tickets will be red; the second, blue; the third, yellow; the fourth, white; extras, green; the "highly commended" tickets, white. On completing the class, judges shall report to the Secretary. The main exhibition building will be closed till 4 p. m., for the purpose of affording the judges an opportunity of discharging their duties properly. Non-members admitted to the grounds on payment of 25 cents each time. All the building and grounds will be open to visitors.

Wednesday.—The judges on live stock requested to attend will report themselves on arrival, to the Secretary, and commence their duties at once. On receiving the class books, they will be also furnished with the blank prize tickets, which they shall fill up and affix in each section as soon as they shall have finally determined their awards. The first prize tickets will be red; the second, blue; the third, yellow; the fourth, white; extras, green; the "commended" trickets, white. On completing the class, the judges shall report to the Secretary. Admission 25c. The display of fruits, plants and flowers, and all exhibits will be open to the public. The annual meeting of the Council of the Provincial Agricultural and Arts Association for the purpose of hearing the President's address, the awards of the judges on the essays, a discussion on the present position and future work of the Association, and other business to conclude with the presentation of medals to the successful competitors for farm prizes in group No. 3, at the City Hall at 7:30 p.m.

Thursday—Admission as usual to non-members, 25 cents. Prize animals to be in the ring at 2 p.m.

Friday—All the buildings and grounds will be open to visitors. Admission 25 cents. Prize animals to be in the ring at 2 p.m.

Saturday—The exhibition will be considered officially closed at 9 a.m., when the treasurer will commence paying the premiums, Exhibitors will remove all their property from the grounds and buildings. The gates will be kept closed as long as necessary, and none will be admitted except those who can show that they have business to attend to.

—The last steamer from the Orient brought to San Francisco a remarkable curiosity, in the shape of a live salamander, which is now confined in a large wooden trough, and daily supplied with fresh water and live fish at the Palace Hotel. The salamander comes from Japan, and was captured in a fresh water lake in the mountains. The specimen is three and a half feet in length, has four feet and an extensive tail, head being broad and flat, and shaped like a heart, and the eyes so small as to be hardly discernible. The mouth is not unlike that of the crocodile, and the novel guest at the hotel is known to be at least seven years old. It is dark brown in color, the epidermis being covered with excrescences, which are watery glands, secreting an acrid viscid fluid.

PEARLS.—Get your mouth full by using "TEABERRY," the now wonder for the Teeth and Breath. Brush vigorously. See directions. 5 cent samples.

Sure, safe and effectual, that old remedy, DOWNS' ELIXIR, for the cure of Coughs and Colds.

Hall's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by Jas. Clarke & Co., Belleville, Ont.

For 30 Years

The dark-eyed and lovely daughters of Spanish America have used MURRAY & LANMAN'S FLORIDA WATER as their only cosmetic and toilet perfume. It is the most fragrant, as well as the most lasting of all Floral Waters, and possesses refreshing and invigorating properties not contained in any other preparation of the kind.

PROCLAIM it far and wide that DR. VAN BUREN'S KIDNEY CURE not only immediately relieves all Kidney diseases, but what is more important to the unfortunate sufferer, will ultimately cure him effectually.

News Condensed.

—The Portage, Westbourn and North-West Railway Act has been put in force.

—The *Canada Gazette* contains a further prorogation of Parliament till the 26th October.

—The first rail of the Pontiac and Pacific railroad between Hull and Pembroke was laid on Friday.

—Mr. Lanthier, M. P., whose demise was prematurely announced a few days ago, died on Friday night.

The verdict against two of the defendants in the Star route trials has been set aside and a new trial granted.

—About 600 English converts to the Mormon faith passed through Buffalo on Thursday on their way to Salt Lake City.

The farmers of Niagara Falls district talk of organizing a vigilance committee for the defence of their property from incendiaries.

—The Quebec *Chronicle* says that a sullen reception awaits General Luard upon his inspection of the troops now in camp at Levis.

—Prof. Barnard's comet is the fourth discovered during the present season, and he receives Prof. Warner's two hundred dollar prize.

—The Directors of the Prince Edward Island Bank have been cited to appear in the Supreme Court to account for the payment of $44,000 to the Bank of Montreal.

—A lodge of naughty Good Templars in Montreal has had its charter cancelled because its members indulged in dancing and card-playing after lodge proceedings.

—The death is announced of Rev. Edward Bouverie Pusey, D. D., the eminent Biblical scholar and Theologian and Regius Professor of Hebrew in Oxford University.

—The receipts at the Toronto Exhibition this year have been six thousand dollars more than last year, and expenses not so large, but the weather has been more favorable.

—A despatch from Downing Street states that Her Majesty graciously permits the society recently organized for the encouragement of science and literature in Canada to be styled the "Royal Society of Canada."

"The term *hydra* may be used to represent any manifold evil. If you would battle successfully with this many-headed monster of disease you will find it expedient to keep Mrs. Pinkham's Vegetable Compound always at hand.—*Dr. Banning.*

—Great preparations are being made in Victoria, B. C., for the reception of the Marquis of Lorne and Princess Louise. Arches have been erected in the streets, and the reception will be the grandest ever witnessed in the Pacific Provinces.

—Letters patent have been granted to the Canada Bank Note Engraving and Printing Company, the Watson Manufacturing Company, the National Investment Company of Canada, the Qu' Appelle Farm Syndicate and the North-west Trading Company.

—A farm hand named Leveque was brutally murdered on Saturday, September 9th, by a fellow workman near Turtle Mountain, Man. Both men formerly belonged to Ottawa. The murdered escaped into Dakota, but was captured and taken back to Winnipeg.

***"Do boldy what you do at all." Boldly do we affirm that Kidney-Wort is *the* great remedy for liver, bowels and Kidney diseases. rheumatism and piles vanish before it. The tonic effect of Kidney-Wort is produced by its cleansing and purifying action on the blood. Where there is a gravelly deposit in the urine, or milky, ropy urine from disordered kidneys, it always cures.

—The Marquis of Lorne and Princess Louise sailed from San Francisco for Victoria on the war steamer *Comus* at noon on Saturday. The U. S. steamer *McPherson*, and the yacht squadron escorted the *Comus* down the harbor. The Marquis and Princess, on the night previous, visited the Chinese theatre and restaurant.

If Nearly Dead

after taking some highly puffed up stuff, with loud testimonials, turn to Hop Bitters and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes, or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides, it is the best family medicine on earth.

A SIMPLE herb found on the sunny plains of a Southern clime has, under the skillful manipulation of DR. VAN BUREN, proved one of the greatest blessings ever sent to suffering humanity. DR. VAN BUREN'S KIDNEY CURE is acknowledged all the world over as the only perfect remedy for Kidney troubles. Your druggist has it.

One dose of BAXTER'S MANDRAKE BITTERS will relieve Sick Headache. One bottle effects a cure. Price 25c. per bottle.

Daily Intelligencer.

BELLEVILLE, MONDAY, SEPT. 18.

City and Vicinity.

THE police are having a holiday. There have been no arrests for three days.

ROSA JONES, a former inmate of the Home for the Friendless, died yesterday.

GEO. E. HENDERSON, Esq., Q. C. leaves to-morrow to conduct the Brockville Assizes.

MESSRS. Lake & Jenkins commenced to-day the re-erection of their sheds and stables.

SEE W. & D. Paterson's advertisement in regard to their bean carnival, which is a novelty in its way.

MR. E. GINGRAS has secured a good position in connection with the construction of the Murray Canal.

MRS. E. MARTIN, of Brantford, has been appointed House Keeper at the Institute for the Deaf and Dumb.

HON. ROBT. READ was thrown from his buggy to-day on Front street, but fortunately escaped serious injury.

THE City Council should meet this evening, but it is not probable that a quorum can be got together.

REV. MR. SPENCER, Clerical Secretary of the Ontario Synod, officiated in Christ Church yesterday at both services.

THE *Gracie* did not return from Toronto until Saturday night. She lay in Presqu'Ile Harbor during the great blow of Thursday.

THE idiot girl Cynthia Harris was brought before the Magistrate this morning on a charge of vagrancy, and was discharged.

THE assault case of Chas. Pierson against John Wier came up at the Police Court this morning, and was further enlarged till to-morrow.

WALTER DONNELLY left to-day by the noon express for Montreal, where he has the prospect of a good position in an extensive hadware establishment.

REV. PROF. MOWAT, of Queen's College, occupied the pulpit of St. Andrew's Church yesterday, and preached two excellent sermons. Rev. Mr. Maclean was filling a vacant pulpit in Ottawa.

A MEETING of the 15th Battalion Rifle Association will be held this evening at Hambly's, after the meeting of the Hastings Rifle Association, in order to elect officers and make arrangements for the annual matches.

A COLLISION occured this morning in the harbor between the steamers *Varuna* and *Prince Edward*, the former vessel driving her nose into the port bow of the ferry. The damage did not amount to much, but it was a narrow escape for the *Varuna*, for if it had not been for Capt. Jellett's presence of mind in reversing the engine of the ferry steamer just in time, the *Varuna* would hardly have made her customary trip to-day and perhaps would not have been afloat.

A RUFFIAN named Davy was this afternoon leading away the half witted girl Cynthia Harris, who was discharged from the Police Court this morning, when he was detected by Officer Newton, who arrested them both and lodged them in the cells.

No farmer, or anyone interested in Agriculture, should fail to see the Power Lift Gilpin Sulkey Plough at work at the approaching exhibition of the West Hastings Agricultural Association. It will be worked on the farm of Mr. J. W. Ponton, on the second day of the exhibition.

A LARGE number of people left here today for the Montreal and Kingston Exhibitions. Both the *Alexandra* and the *H*[illegible] had far more than their usual quota of passengers, and the platform of the G.T.R. station was crowded with the excursionists who left by the noon express and the special train which followed it. Quite a number of excursionists also came down by the G. J. R. train.

A FEW days ago we noted the death of two of Mr. D. Collins' children within two hours of each other; it is now our painful duty to record the death of another member of his family—the eldest, a bright little girl of thirteen years—from the same fell disease, diphtheria. She died on Saturday night, and was buried yesterday. Mr. and Mrs. Collins have only one child left. The bereavements which they have suffered are sufficient to extort sympathy from the most unfeeling heart.

MESSRS. J. M. Walker & Co., manufacturers of farming implements, are preparing the foundation for an extension to their already large premises, which will, when completed this fall, double their capacity and double the number of hands employed. The firm have by years of industry built up an extensive trade and are already employing many more hands than ever before employed by them, and we gladly note the necessity that has arisen for doubling the capacity of their factory.

PROF. MACOUN has returned from his trip to the seaside, and though not so successful as he anticipated in securing birds, yet he got many fine specimens, including the osprey, solan goose, and the night heron. His botanical researches, were, however, eminently successful, in Alpine and sub-Alpine plants on the Shick-Shook mountains and along the cost in Gaspe. He also brought with him a great variety of sea weeds, which will be submitted to Prof. Bell to determine the foraminifera and diatoms; and mounted a handsome collection of sea weeds for the Dominion Museum at Ottawa. On Mount Albert, one of the highest peaks of the Shick-Shocks, on August 26th, snow lay two feet deep in the depressions. The Professor was much impressed with the wildness and grandeur of the scenery in Gaspe.

"A large audience assembled at the Opera House last evening to witness the very funniest of funny pieces that have ever been presented before a Decatur audience. No description on paper can do justice, and no attempt to describe the manner of its rendition can possibly do the actors credit. It is one continual laugh from beginning to end, and anyone witnessing the performance goes away feeling about a year younger. The music is excellent, and some of it fine. The rendering of the solo and quartette 'With Empty Hands' was artistic and received a hearty encore. The company as a whole are first class and deserve a hearty reception wherever they may appear."—Decatur, Ill., *Herald*, Nov. 2, 1881. Atkinson's Jollities company will make their first appearance at the Metropolitan Hall, Thursday evening and will probably draw a full house, as it is a very fine company. Plan is now open at Reynolds'.

WEATHER PROBABILITIES—Toronto, Sep. 18.—Lakes, and Upper St. Lawrence fresh to strong southerly to southwesterly winds, fair warm weather, with local showers, thunder storms.

AN OLD RESIDENT GONE.—Mr. William McDavitt, an old and respected resident of the Township of Thurlow, died at the family residence in Thurlow on the morning of the 18th inst. Mr. McDavitt leaves a widow and seven children to mourn his loss. Mr. McDavitt was father of Mr. Chas. McDavitt, Reeve of Wicklow and McClure.

FISH STORY.—A good fish story is told to the Oswego *Express* by Mr. E. Clemens, who was recently on a fishing excursion on the Bay of Quinte. While trolling, a huge sturgeon took the spoon and was not long in running out all the line of the fisherman. This done, the fish commenced towing the boat at a rate of five miles an hour. Mr. Clemens says that his involuntary excursion created great astonishment to people living on the bay shore, who could not imagine what the motive power of his craft was. The fish, after three quarters of an hour, grounded in shoal water. Mr. Clemens dispatched it with a hatchet.

CAVING-IN OF A TANK.—About 10 o'clock this morning one side of the excavation for the water tank on Octavia St. suddenly caved in. There were seven or eight men working in the excavation at the time, the depth being about 7 feet. Only two men, however, were at work near the side which fell in, and these were Joseph Hurst and Michael Cullen. They were knocked down and completely covered by the falling earth and stones, which must have amounted to about a dozen ordinary cart-loads. The other workmen, however, soon extricated them from their dangerous position, when it was discovered that Hurst had his left leg fractured above the knee by a large stone which had tumbled on it; Cullen was somewhat injured internally. Dr. Murphy set the broken limb, and Hurst is now doing well, but it will be weeks before he is able to resume his work. As he is a married man with a large family, the accident is a serious one for him. It is thought that as the wall of the excavation caved in on the side next the sidewalk, the accident was caused by the continual springing of the boards on the ground from people passing that way.

BEFORE purchasing Ready made Clothing be sure and look through HENNESSY'S stock. He has over 300 suits in all, and is offering them at actual cost.

The Melville Bridge Accident.

FURTHER PARTICULARS.

The following particulars of the fatal accident at Melville, not given by our Ameliasburg correspondent, have reached us by telegraph:—

CONSECON, Sep. 16.—A sad accident occurred this morning a few miles from this place, near the village of Melville, which resulted in the instant death of two men named Smith Viant and Charles Weeks. They were engaged working under a bridge which has been under construction for some days, and was nearly constructed when, there being such a large quantity of dirt on the beams, which being in a very weak condition could not bear this heavy load and consequently, broke in the centre of the bridge, precipitating about four tons of dirt and the ends of the beams on the men, crushing them down among the stones, mud, and water. Weeks was horribly injured, having one leg broken in two places, and otherwise mangled. Viant is not bruised much, but received one blow on the head which would cause his death. They were completely covered with dirt to quite a depth, and there was some trouble to get them extricated from beneath it. The other men had a very narrow escape of sharing their fate, but escaped with a few bruises. Their remains were conveyed to this place, where they lived. Viant leaves a wife and four small children. Much sympathy is felt for them. Weeks is a single man.

A gentleman from the city who has just returned from the scene of the accident informed an INTELLIGENCER reporter to-day that the timbers which fell on Weeks broke one of his legs in three places, besides breaking his back and neck and dislocating his lower jaw. Viant had a wooden leg, having met with an accident in an American mine some years ago which necessitated the amputation of a leg. His wooden leg was smashed to splinters, but the other was uninjured. He was killed by a blow on the back from one of the timbers, which broke it. Two men—James Thurison and R.L. Hayes—were under the bridge when it fell, and narowly escaped being crushed to death. The funeral of the two men took place yesterday and was largely attended.

Sporting Notes.

The Hillsdales made an effort before leaving London to arrange for another match with the Thames crew, but the latter declined the proposal.

The R. C. Y. C. race was finished at the third time of asking, on Saturday. The Oriole won, with the Aileen second. The winning yachts were much favored by two shifts of wind.

The Montreal Lacrosse Club defeated the Toronto by three games to one on Saturday.

The Maitlands and Independents (both of Toronto) played at Toronto on Saturday for the intermediate lacrosse championship. The former club won.

HARPER'S MAGAZINE for October presents an unusual variety of contributions, every one of which must challenge the attention of a large class of readers. Abbey's "Autumn"—the frontispiece illustration—is an exquisitive drawing, engraved by Closson. Mrs. Lillie's second paper on Surrey is full of the charms of English rural life, and is beautifully illustrated by Alfred Parsons and E. B. Abbey. Mr. Rideing's "Medical Education in New York" is a novel and entertaining paper. W. H. Bishop contributes the first of an exceedingly interesting series of papers on Southern California beautifully illustrated. Colonel Higgerson's third paper of his series on American History treats of the Spanish Discoveries of America in the author's most attractive style, with excellent illutrations. Will Carleton's poem, "Flash; The Fireman's Story," is in his best vein, and is admirably well illustrated by A. B. Frost. William Black's novel, "Shandon Bells," is continued—illustrated by William Small. Margaret Floyd contributes a curious and interesting story of New York society entitled "Passages from the Journal of a Social Wreck." A characteristic story of New England life, "Old Miss Todd," is contributed by Rose Terry Cooke. Another and briefer story, "The History of Yankee Jim," by Samuel Adams Drake, is full of pathos. The Editorial Departments abound with timely and interesting matter in their respective fields.

—Mr. George Goodwin has signified to the Department of Railways and Canals his intention of accepting the contract for the works at Buckhorn and Burleigh which were awarded to him.

—The Methodist joint committee, which has been sitting at Hamilton to see if a basis of union for the different branches of Methodism in Canada could be arrived at, has adjourned to meet in Toronto on the last Tuesday in November.

—The Toronto yacht Oriole on her return trip from Port Dalhousie rescued a lady and gentleman found in a disabled yacht. The latter had encountered the gale of Thursday, and the occupants had given up all hope of ever again seeing land. The couple started from Ogdensburg on Thursday for Toronto, intending to visit the exhibition.

—The largest empire in the world it that of Great Britain, comprising 8,557,758 square acres, more than a sixth part of the land of the globe, and embracing under its rule nearly a sixth part of the population of the world. In territorial extent the United States ranks third, containing 3,580,242 square miles, including Alaska; in population it ranks fourth with its 50,000,000 people. Russia ranks second, 8,352,940 square miles.

Excellent reasons exist why *Dr. Thomas Eclectric Oil* should be used by persons troubled with affections of the throat or lungs, sores upon the skin, rheumatic pains, corns, bunions, or external injuries. The reasons are, that it is speedy, pure and unobjectionable, whether taken internally or applied outwardly.

COUGHS AND COLDS.—If taken in time are easily cured,—if allowed to continue will result in incurable consumption. Allen's Lung Balsam has the confidence and support of the medical faculty, and is recommended by all who are acquainted with its virtues

DR. E. C. West's Nerve and Brain Treatment is a never failing cure for Nervous Neuralgia, Nervous Headache, Overworked Brain, &c. Sold at James Clarke & Co's.

A New Principle.

The principle upon which PUTNAM' PAINLESS CORN EXTRACTOR acts is entirely new. It does not sink deep into the flesh, thereby producing soreness, but acts directly upon the external covering of the corn, separates it from the under layer, removes the direct pressure from the part, and at once effects a radical cure, without any pain or discomfort. Let those who are suffering from corns, yet skeptical of treatment, try it, and by the completeness of the cure they will be ready to recommend Putnam's Painless Corn Extractor to others. Sold by W. R. Carmichael.

LATEST FROM THE SEAT OF WAR.

MURDERER HANGED.

Preparing to take Damietta.

Supposed Turkish Intrigue.

ISMAILIA, Sep. 18.—Arabi is reported as looking 20 years older than in February and as saying, "God is merciful, all have perished."

ALEXANDRIA, Sep. 18.—An officer who surrendered explains that Arabi left his best soldiers at Kafr-el Dwar, because he thought the move on Ismailia was a ruse, and the real attack would be on Kafr-el-Dwar.

The Sultan has recently been in communication with Arabi through Damietta. It is believed the resistance of the commander at that place originates from Stamboul.

ALEXANDRIA, Sept. 18.—One of the participators in the Juno massacre was hanged to day.

It is reported that gunboats and troops have been ordered to move against Abdallah Pasha who is still holding Damietta.

Train service on the railroad between Cairo and Alexandria has been resumed. All the stations will be occupied by the English.

PORT SAID, Sept. 18.—The commander of Damietta also hold the forts at Debha and Ghemileh, the governor of Port Said has sent an Arab to the rebel commander on Friday, but the messenger has not returned.

ALEXANDRIA, Sept. 18.—The British have occupied Tantah.

MORNING DESPATCHES.

AMERICAN.

PREDICTIONS OF A STORM.

WASHINGTON, Sep. 18.—The disastrous cyclone that visited the south Atlantic ports early last week was predicted by the signal service several days in advance of its appearance in any part of the country. This is regarded as one of the most brilliant achievements of the service and undoubtedly thousands of dollars worth of property and many lives were saved by the warning given.

NEW YORK NOTES.

NEW YORK, Sept. 18.—T. Thomas, claiming to be a medical student from Hamilton, Ont., has robbed his landlady, Mrs. Weatherhead, of $3,000 worth of property and disappeared.

The *World* publishes the results of the investigations into the books and accounts of the Brooklyn Bridge. The *World* claims it shows the book and accounts full of forgeries, and the misrepresentation and errors are incalculable, and are confused and complicated in a manner which in the books of a private concern would instantly excite suspicion and provoke a legal enquiry and action. The toal and final cost of the bridge, including the interest on bonds, is $22,000,000. The actual material used in the construction of the bridge represents less than one-fifth of this amount. The expenditure for labor thus far is $3,000,000, the amount already expended on the bridge is nearly $14,000,000. The *World* finds one error of $800,000 in the granite account, and alleges that the contracts were let to favored contractors at higher prices than materials would have been furnished for by others, and more responsible bidders.

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinary or Liver Diseases, as they only relieve for a time and make you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

AFTERNOON DESPATCHES

WOMAN SHOT BY A PROCESS-SERVER.

LONDON, Sep. 18.—A woman was shot by a process-server near Ghynties, County Donegal, while resisting the seizure of her cattle. The process-server was arrested.

DEATH OF DEAN WELLESLEY.

LONDON, Sep. 18.—Gerald Valerian Wellesley, Dean of Windsor and domestic chaplain to the Queen, is dead.

RUSSIAN TROUBLES.

ST. PETERSBURG, Sep. 18.—The allotted term for maintainance of the minor state of siege in St. Petersburg and a few other towns expired on the 16th inst. It is stated that it is to be prolonged another year.

A SAN FRANCISCO HOAX.

SAN FRANCISCO, Cal., Sep 18.—Before the war ship *Comus* sailed for Victoria with the Marquis of Lorne and the Princess, the Capt. received an anonymous note stating that the steamer would be blown up by a torpedo as soon as the Vice-Regal party were on board. The captain was much frightened and applied to the capt of the revenue cutter *Richard Rush*. The latter, accompied by marines, thoroughly inspected the *Comus*, but found nothing suspicious. However, the *Rush* accompanied the *Comus* some distance, and saw the Vice-Regal party safely off.

LARNE, Sep. 18.—The *State of Nebraska* has arrived.

Loss of the Asia.

The *Globe* says;—Scarcely has the painful impression upon the public mind caused by the loss of the *Manitoulin* passed away when the news is received of another terrible calamity upon our northern lakes. The news of the loss of the steamer *Asia*, of the Great Northern Transit Company's line, will carry grief and desolation to the hearths of many Canadian homes. The *Asia* had taken the place of the ill fated *Manitoulin*, which was burned in the early part of this season on the route from Collingwood to Sault Ste. Marie. She left Owen Sound about midnight on Wednesday with about one hundred souls aboard, the majority bound for the lumbering shanties. Shortly before noon on Thursday the terrible gale which swept over the western peninsula struck the ship, and after rolling heavily in the trough of the sea for about twenty minutes she foundered. A number of the passengrs and crew took to the boats, only one of which is known to have landed. This boat contained the only survivors, Mr. D. A. Tinkess, Manitowaning, and Miss Christy Ann Morrison, from near Owen Sound. The other five occupants of the boat perished from exhaustion and exposure. The survivors suffered greatly from exposure to the wind and waves, but both, it is thought, will recover. The story of the loss of the doomed ship and her boats' crews, as related by Mr. Tinkess, is heartrending.

Latest From Egypt.

The British Ambassador has notified the Porte that military operations in Egypt have ceased, and that an early homeward movement of the troops will commence. Upon the arrival of the Khedive at Cairo a grand review of the whole force will be held, and the Household Cavalry will then lead in the march for home. The Khedive has issued his decree dissolving the Egyptian army and proclaiming all the officers who joined Arabi rebels, and as such liable to the penalties of martial law. The disbandment of the army will remove an important obstacle to the restoration of order.

The Diamond Dyes always do more than they claim to do. Color over that old dress. It will look like new. Only 10 cents

Professor Bowlin's Great Golden Seal Discovery.

The greatest and latest discovery of the nineteenth century. A sure and permanent cure for Fits, Hysterics, Dizziness, and all nervous complaints. When ordering a bottle send full description of disease, age and condition of patient, advice free, price $1.00 per bottle. RICHHES, BARBEAU, & Co., 101 St. Francois Xavier St., Montreal, sole agents for Canada.

Consumption, that dread destroyer of the human race, is often the result of bad blood and low vitality, a scrofulous condition of the system. Burdock Blood Bitters cure Scrofula in its worst form.

Dropsy is essentially a watery condition of the Blood, dependent upon disordered Kidneys. Burdock Blood Bitters are strongly Diuretic and consequently the best known remedy, acting as it does upon the entire Secretory System.

SMITH MEDICINE Co.

GENTLEMEN,—I have made a trial of one box of Dr. Smith's Great German Worm Remedy, with such good effect that I have no hesitation in recommending it to the public as a prompt and reliable medicine. In fact, those who use it once will always do so. Yours truly,

J. Harvie, 172 Cadieux street.
Montreal, December 9th, 1881.

BIRTH.

On Monday morning, the 18th inst., the wife of H. E. FILLITER, Esq., of a daughter.

Commercial.

$500 REWARD.

WHEREAS good reason exists for believing that the several fires that occurred on the morning of the seventh September instant, on the premises occupied by Lake & Jenkins, Livery Stable keepers, on the corner of Bridge and Pinnacle Streets, and of Dr. Curlett, on Hotel Street, in the City of Belleville, were the work of incendiaries, and

Whereas by the amended Municipal Act of 1879, chapter 31, section 31, authority is given to any Municipality in which a flagrant crime is believed to have been committed, to offer and pay a reward for the discovery, apprehension or conviction of the criminal, or of any person who is suspected to be the criminal,

And whereas the Council of the Municipality of the City of Belleville have determined to offer a reward for the apprehension and conviction of the perpetrator or perpetrators of the above crime,

Therefore be it known, that a reward of $500 will be paid by the Municipality of the City of Belleville to any person or persons who will give such information as will lead to the apprehension and conviction of the person or persons guilty of the above mentioned offence.

Dated at Belleville, this 12th day of September, 1882.

NELSON LINGHAM,

N. H. DOWNS'

Vegetable Balsamic

ELIXIR!

This valuable medicine is purely vegetable, the discovery of which was the result of many years' close study, in order to discover the cause, the symptoms and the cure—viz.:

Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Influenza, Pleurisy, Hoarseness, Spitting Blood, Bronchitis,

and every species of oppression of the Chest and Lungs. In all cases where this Elixir has been duly administered its efficacy has been invariably manifested, convincing the most incredulous that

CONSUMPTION

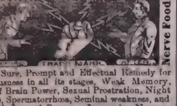
is not incurable, if properly attended to.—Consumption at its commencement, is but a slight irritation of the membrane which covers the lungs then an inflammation, when the cough is more observable, but rather dry; then becomes local fever and the pulse more frequent, the cheeks flushed and chills more common. This Elixir in curing the above complaints, operates so as to remove all morbid irritations and inflammation from the lungs to the surface, and finally expel them from the system. It facilitates expectoration.

IT HEALS THE ULCERATED SURFACES

and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. It is free from strong opiate and astringent articles, which are of so drying a nature as to be in great danger of destroying the patient; whereas this medicine never dries or stops the cough, but, by removing the cause, generally destroys the hectic [illegible] so that the cough is entirely gone. Consequently, when the cough is cured the patient is well. Send address for pamphlet giving full directions for cure of pulmonary diseases. Price 25cts. and $1 per bottle. Sold everywhere.

HENRY, JOHNSONS & LORD, Props.
MONTREAL, P. Q.

MACK'S MAGNETIC MEDICINE



Is a Sure, Prompt and Effectual Remedy for Nervousness in all its stages, Weak Memory, Loss of Brain Power, Sexual Prostration, Night Sweats, Spermatorrhœa, Seminal weakness, and General Loss of Power. Prescribed by the leading physicians of England, the United States and the Dominion of Canada.

A WONDERFUL FACT.

HYDROLEINE mixes perfectly with water, showing a complete artificial digestion of the oil, and just as the HYDROLEINE mixes with the water, so does it mix with the liquid contents of the stomach, and enters immediately into the system to nourish and build it up. The efficacy of HYDROLEINE is NOT CONFINED to cases of Consumption, as from its valuable tonic effect on the nervous system in addition to its special stimulating action on the organs concerned in the production of *fat* in the body it causes *a marked increase in weight in persons of naturally thin habit, who do not present any evidence of disease.*

Unlike ordinary preparations of Cod Liver Oil, it produces no unpleasant eructation or sense of nausea and should be taken in such very *much smaller doses* according to the directions, as will ensure its *complete assimilation*; this, at the same time, *renders its use economical* in the *highest degree*.

For sale by all Druggists.

We have sold the above remedy for several months and find it spoken of very favorably by both the medical profession and the public.

We can safely recommend it to parties needing such a remedy.

Signed,

SHAWN BUIE.

A LEGEND OF KILKEE.

(*From the Dublin University Magazine*)

The period of these recollections was long antecedent to the invasions of political society upon the simple manners and customs of the west of Ireland. The wild and barren scenery of that portion of the county Clare which forms a barrier against the waves of the Atlantic, seemed to have communicated to the inhabitants much of its own rough character. Uninitiated in those wiles which attended the increase of population and knowledge, there was among them little to disturb the harmony of their local society. Dishonesty was scarcely known. They were willing to contribute to the relief of each other's wants, and always ready to befriend the needy. Their habits were those of plain fishermen. Fearlessly launching their corraghs, or horse-skin canoes, when the weather permitted, they obtained a precarious livelihood. Constant association with the steep and rugged face of the precipices had rendered them daring. Accustomed to follow the seal into his hiding places, agility and strength were cultivated into them. It was their wont to scale the cliffs in search of the sea-fowl's nest; and to descend when the retiring sea had left the seal asleep on the benches of the cavern; so that through constant intercourse with dangers, they at last became so familiarized with peril that they scorned fear. Their amusements were as simple as their pursuits. The country dance on the village green, the donkey race, or bowling match, constituted their principal sources of enjoyment.

For a considerable period previous to the date of this narrative these had been the customary habits of the residents of Kilkee. Its domestic scenery, now so highly prized, was then but little known; its extensive strand was more frequently used as a race-course than a bathing-place. Little of its original appearance can now be traced; the central village green has been covered with buildings for summer visitors; the semicircular bay which then presented to the eye but heather and wildness, is now adorned with lodges of every shape and size.

There are few occurrences in human life which press more heavily on the heart than the change we sometimes witness in places which had been the scenes of youthful enjoyment. We sigh over the simplicity of our former pursuits, and the wreck of the scenes where they occurred. How vividly do we recall the natural wildness of the scenery of Shawn Buie's exploits, now for ever defaced, or the innocence of the inhabitants now also undiscoverable.

Among other evil consequences, at first, from increasing social intercourse, the practice of smuggling for some time held a prominent place. It had just been introduced at the period of Shawn Buie's history. Previous to that time, the forbidding aspect of the coast kept vessels of every description aloof. None ventured near enough to reconnoitre; and the Excise Department considered the expense of an establishment of police to be an unnecessary demand on government funds. This was natural, considering the appearance of the shore, which for miles together presented an unbroken extent of precipitous rock elevated from fifty to three hundred feet above the level of the sea. The indentations on its breast, the caverns and creeks, formed by projecting fragments torn from the parent cliff by some great convulsion of nature, were lost to the eye at the distance to which vessels ventured to approach; and, indeed, could they have been more narrowly inspected, they would not have furnished a much greater inducement to become better acquainted with them, as in almost every instance they are quite as inaccessible as the perpendicular cliff itself. These excavations from the great body of the land cause, in many instances, appearances the most romatic. Their variations are fantastic, producing endless alternations in height, depth, width, and prominence. Encouraging the curious wanderer into situations at one time perfectly safe of approach, at another dangerous in the extreme.

Among several of these mighty fragments which lie scattered through the waters of the coast, and which bear, deservedly, in many instances, the name of "islands," one holds a prominent rank, both on account of its size and history. It stands about half a mile from the land, in height about three hundred feet, and to all appearance, on every side, quite perpendicular. It is said to occupy the space of about an acre. Its surface supplies a few sheep with pasturage, and the shelter of two small huts into which they may retire, at either night or during inclement weather. Tradition says that it was once the abode of a monk who was condemned to live there as a penalty for some dreadful crime of which he had been falsely accused, and that the rock was wont to rise in height during very stormy weather, in order to keep the holy man from the effects of the dashing sea; and subside again as a calm approached. That he lived for upwards of two hundred years; and suddenly disapperared leaving no traces of any remains behind him. The name of Bishop's Island has accordingly been attached to it.

Exactly opposite Bishop's Island are two caverns, the entrances to which cannot be less than two hundred feet in height, and fifty in width. Their depth we never penetrated. Close to these caverns at the northern side, there is a steep and dangerous path which few venture to descend, leading to a small nook into which the sea calmly rolls, broken in its swells by a narrow entrance. This little nook leads to a grotto worn out of the rock by the constant action of the waves, returning with every tide, which expands as you advance, into a large roomy place, well adapted as an occasional asylum for seals or smugglers. A corragh or small boat could safely unload her cargo here; and by means of ropes could have it conveyed to the summit of the cliff. At the same time, the descent is perilous and well concealed from above. A small rivulet flowing from a bay three miles distant, has formed for itself a little channel to the edge of the cliff just at the spot where the descent is first commenced; but instead of directing its course along the path, it discharges its waters directly over the rock and thus conceals the descent from an accustomed or a very close observer.

I was ascending this path one afternoon in the Autumn of 181—. The weather had been for several weeks very warm, and the short dry grass which lined the edge of the cliffs had become smooth and slippery. The face of the rock fronting Bishop's Island contains a kind of crumbling slaty oil which yields under the feet, and frequently renders the descent or ascent of such places anything but easy or safe. I had taken off my shoes to use my feet as hands, and had nearly ascended half-way up this path, lying as close to the ground as possible, and carefully examining every spot before trusting my weight to it; when on taking a sudden turn upwards, for the first time I perceived a man watching me with intense anxiety. He had recognized me before I had observed him, and for some reason had remained stationary until I had reached the spot where he stood. As I had resided for sometime in the village, and been in the habit of rambling far around the country, I felt rather surprised, and by no means pleased to be in the power of a perfect stranger, who was scanning me with a countenance not expressive of kindness or good will. He could with one stamp of his foot have loosened so much of the soil above as would have participated me into the sea below, without the power of remedy, or the chance of his ever being detected. However, being ignorant of any reason for anger on his part, I proceeded with the intention of passing him peaceably. He continued gazing at me silently until I approached him, then quietly turned and began to ascend. When he had reached the top of the cliff, he uncoiled a small rope which he held in his hand, and throwing it down assisted me considerably in the ascent. I had now an opportunity of scrutinizing him more accurately. He was ill-made; not above five feet four or five; had bad legs, awkward arms, and one shoulder higher than the other; his hair was red and shaggy; his eyes small and gray; his nose long and much turned to one side; and his lips much compressed. He wore a hat without a crown, tied round with a string, a large rusty frieze coat, knee breeches unbuttoned at the knees, and not any shoes or stockings. He had the above-mentioned coil of rope in his hand, but no weapon of any kind. When we had mutually surveyed each other, I thanked him for his kindness in assisting me to the top of the precipice.

TO BE CONTINUED.

CHEAP AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Magnetic Medicine, which contains forty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column.

Samson lost his strength with his hair. Thousands of men and women lose their beauty with theirs, and very large numbers restore the ravages of time by using the famous Cingalese Hair Restorer Sold at 50 cents per bottle by all Druggists.

CINGALESE. A name well known in connection with the HAIR RENEWER, which restores grey hair to its natural color by a few weeks use. Sold at 50 cents per bottle by all Druggists.

DELAYS are dangerous, particularly in Kidney Diseases, so take at once DR. VAN BUREN'S KIDNEY CURE and obtain relief from all your sufferings. Your Druggist keeps it

The market is full of preparations for the hair, some of them good, and many of them good for nothing. R. P. Hall & Co., of Nashua, N. H., manufacture and sell an article of real merit, which has been advertised in the *Express* for the past year, and we have taken no little pains to inquire how it has been liked by the public. One of our druggists informs us that he has sold more than double the amount of Renewer than of all other hair preparations combined, and when a person once uses it, he will use no other: that it is not only bought by the young people as a dressing, but by older persons for removing dandruff, preserving and increasing the growth of the hair and restoring its natural color. Another druggist says that he sells three or four times as much of Hall's, as of all others.—*Hampshire Express, Amherst, Mass.*

Asthma and Bronchitis Cured.

HALIFAX, N. S., Jan. 1882.

C. M. PUTTNER, Esq., PH. M.:

SIR,—I consider it my duty, not only to yourself, but to my fellow creatures who are suffering from Asthma and Bronchitis, as I had for some time previous to using your "Emulsion of Cod Liver Oil with Hypophosphites," to give my testimony to the most wonderful good effect it had. Having suffered for some time with Asthma and Bronchitis, accompanied with great nervous exhaustion, and having carefully read your Essay on the combination and uses of your Emulsion, I was persuaded to give it a trial, and on using two bottles I began to receive great benefit and relief, and after using three bottles I was completely revived and am to-day perfectly free from either Asthma or Bronchitis, and my nervous system much invigorated and built up. I have found it very pleasant and palatable, and with no taste of the oil whatever, and can with great confidence recommend it to those suffering as I did previous to taking your compound. In conclusion, I consider I owe you a debt of great gratitude for the benefit I have received from your Emulsion and only hope that many may be induced to give it a trial, and receive as great benefit as I have from its use. I am, yours, &c.,

ALEX. STEPHENS, SR.,
Merchant.

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrh, Bronchitis, Asthma and Lung Disease by Dr. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the seat of disease. Read and judge for yourself:—

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. JOHN P. WHELAN, Manager of Post and TRUE WITNESS, Montreal. Mr. C. HILL, Montreal, catarrh and bronchitis. Mr. DEBOUCHERVILLE, of the Indian Department, Ottawa, catarrh of many years; now cured. Mr. GEO. AGER, Ottawa, catarrh and lung disease; cured. Mrs. SMITH, London, wife of Medical Detective, cured of catarrh. GEO. MAGUIRE, Toronto, 482 Adelaide street West; daughter cured of asthma. GEORGE WILLIS, Exeter, Ont., catarrh and bronchitis. J. D. ARMSTRONG, 186 Yonge street, Toronto, catarrh and catarrhal deafness. THOMAS TELFER, 12 Melinda street, Toronto, asthma; cured. Mr. BENJ. A. DRAKE, St. Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. BENOIT, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma and bronchitis for over eight years, and who is now perfectly cured.

Mrs. ADAMSON, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitating in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis. JOHN C. FLEMING, Editor of POST and TRUE WITNESS, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write, inclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr M. Souvielle and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

$200.00 REWARD!

Will be paid for the detention and conviction of any person selling or dealing in any bogus, counterfeit or imitation HOP BITTERS, especially Bitters or preparations with the word HOP or HOPS in their name or connected therewith, that is intended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as HOP BITTERS. The genuine have a cluster of GREEN HOPS (notice this) printed on the white label, and are the purest and best medicine on earth, especially for Kidney, Liver and Nervous Diseases. Beware of all others, and of pretended formulas or receipts of HOP BITTERS published in papers or for sale, as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted.

$1,000 Forfeit!

Having the utmost confidence in its superiority over all others, and after thousands of tests of the most complicated and severest cases we could find, we feel justified in offering to forfeit One Thousand Dollars for any case of Coughs, colds, sore throat, influenza, hoarseness, bronchitis, consumption, in its early stages, whooping cough, and all diseases of the throat and lungs, except Asthma, for which we only claim relief, that we can't cure with West's Cough Syrup, when taken according to directions. Sample bottles 25 and 50 cents; large bottles one dollar. Genuine wrappers only in blue. Sold by all druggists, or sent by express on receipt of price. JOHN C. WEST & Co., sole proprietors, 81 and 83 King St. East Toronto, Ont. For sale at Jas. Clarke & Co.'s Drug Store.

New Meat Market.

THE undersigned have opened a Butcher's Stall next door to the INTELLIGENCER Office, Front Street, where they purpose keeping on hand at all times, a choice selection of Fresh and Salted Meats. Housekeepers will save money by giving us a call, before purchasing elsewhere.

THE BEST REMEDY

FOR

Diseases of the Throat and Lungs.

AYER'S

CHERRY PECTORAL.

In diseases of the pulmonary organs a safe and reliable remedy is invaluable. AYER'S CHERRY PECTORAL is such a remedy, and no other so eminently merits the confidence of the public. It is a scientific combination of the medicinal principles and curative virtues of the finest drugs, chemically united, of such power as to insure the greatest possible efficiency and uniformity of results It strikes at the foundation of all pulmonary diseases, affording prompt relief and rapid cures, and is adapted to patients of any age or either sex. Being very palatable, the youngest children take it readily. In ordinary Coughs, Colds, Sore Throat, Bronchitis, Influenza, Clergyman's Sore Throat, Asthma, Croup, and Catarrh, the effects of AYER'S CHERRY PECTORAL are magical, and multitudes are annually preserved from serious illness by its timely and faithful use. It should be kept at hand in every household for the protection it affords in sudden attacks. In Whooping-cough and Consumption there is no other remedy so efficacious, soothing, and helpful.

Low prices are inducements to try some of the many mixtures, or syrups, made of cheap and ineffective ingredients, now offered, which, as they contain no curative qualities, can afford only temporary relief, and are sure to deceive and disappoint the patient. Diseases of the throat and lungs demand active and effective treatment; and it is dangerous experimenting with unknown and cheap medicines, from the great liability that these diseases may, while so trifled with, become deeply seated or incurable. Use AYER'S CHERRY PECTORAL, and you may confidently expect the best results. It is a standard medical preparation, of known and acknowledged curative power, and is as cheap as its careful preparation and fine ingredients will allow. Eminent physicians, knowing its composition, prescribe it in their practice. The test of half a century has proven its absolute certainty to cure all pulmonary complaints not already beyond the reach of human aid.

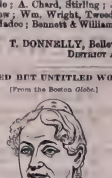
DISTRICT AGENT

A NOTED BUT UNTITLED WOMAN.

[From the Boston *Globe*.]



Messrs. Editors :—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of *either* sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Philadelphia, Pa. (9) Mrs. A. M. D

July 13th, 1882. 54dtf

Daily Intelligencer.

European Tour.

No 6.

On the second day of August by train from Barnsley, Yorkshire, we arrived at London, the great metropolis of the empire. In attempting a description of the interesting points of the great city to a tourist one scarcely knows where to begin. Its vastness in every respect almost confuses one London, says one, is the political, moral, physical, intellectual artistic, literary, commercial and social centre of the world. In no other city are so many distinct aspects presented, in no other city are so many individual traits and peculiarities observable; no other city possesses the wealth, the importance and the abounding population which distinguish it. To London, as the true centre of the world, come ships of every clime, bearing the productions of nature, the result of labor and the fruits of commerce. Railways converge to it, and science, art, discovery and invention seek it as their true home. Its merchants are princes, and the resolves of its financiers make and unmake empires. Cobbett called it "the great Wen" and Carlyle "the tuberosity of modern civilization," and another writer, "a province covered with houses." A visit to this wonderful city is not only a pleasure and delight, but almost an inevitable necessity to those who possess means and leisure. Foreigners are every day becoming better acquainted with its public buildings, its docks, its bazaars, warehouses, shops, squares, parks, museums and interminable and crowded streets. And when once within the circle of its spell every stranger endeavors to accomplish the greatest possible amount of sightseeing in the smallest space of time and in the most economical manner. London is one of the most ancient cities of the realm, dating back in its history to the first century of the Christian era and even beyond that time It is situated on the banks of the Thames, about 60 miles from the sea. The banks of the river are lined on either side with wharves, docks and warehouses. The river is crossed by a number of beautiful and substantial bridges, uniting the northern and southern sides into one great city. The population of London is over 4,000,000, i. e., greater than Scotland, nearly equalling the Dominion of Canada, and over two thirds the population of Ireland. Its population increases at the rate of 42,000 per year. In London a child is born every five minutes and someone dies every 9 minutes. London covers an area of over 78,000 acres, equal to 122 square miles Its location is in a valley and is surrounded by gently rising hills. It is said to be one of the best drained best paved, best lighted, and best ventilated cities in Europe, perhaps in the world, and therefore it is considered one of the healthiest cities within the area of civilization. The stranger wonders as he passes through the many streets at its dense population, north south, east and west, how it is possible to keep so clean, sweet and well preserved nearly every part of the metropolis. Yet effectually it is done by the present system of draining and street and property cleansing. The ratable property of London is assessed at over £250,000,000. The city consumes annually about 1,600,000 quarters of wheat or 12,800,000 bushels, 300,000 cattle, 1,700,000 sheep, 28,000 calves, and 200,000 pigs, 4,025,000 head of game and over 3,000,000 salmon, irrespective of other fish and flesh. To light the city about 1,000,000 gas lights fringe the steets, consuming every 24 hours 38,600,000 cubic feet of gas. The water works supply over 60,000,000 gallons of water per day. To warm the people of London and to supply its factories, a fleet, amounting to over 1,000 sail is employed in bringing annually 3,198,000 tons of coal, exclusive of 5,500,000 tons brought by rail. It contains about 9,000 public houses and over 2,000 wine merchants. To supply other needs of the city there are 2,500 bakers, 2,000 butchers, 2,600 tea dealers and grocers, 1,270 coffee room keepers, nearly 1,500 dairymen, 1,850 tobacconists, 2,400 physicians, and 500 undertakers, 3,000 boot and shoe makers, 2,950 tailors, 2,000 linen drapers, 1,500 milliners, and 1,540 private schools, 280 Government Board Schools, 3,000 Attorneys, 3,900 barristers, 2,000 clergymen, and 1,043 churches and chapels. Thus, as the reader will easily perceive, London is a world in itself. The appliances for the suppression of fire in London are very complete and effective. They comprise 50 stations, 3 floating engines, 29 land steam engines, 108 hand engines and 240 firemen, costing the city annually £55,000. There is an average of five false alarms per night.

There are many ways of seeing London, just, according to the taste of the visitor will his steps be led in this or that direction. If, for instance, he be an antiquarian, he will seek the older parts at the east end, if he be an artist or connoiseur he will visit the picture exhibitions; if his taste incline to commercial pursuits, he will spend a day at each of the great docks and explore the principal warehouses; if his penchant be for fashionable life he will go to the parks, squares and streets at the west end; if he be a lawyer he will visit the Courts at Westminster and in the city; if he be a politician, he will try to obtain an order of admission to the Houses of Lords and Commons; if he be literary, he will look into the Libraries of the British Museum, the London Institution, Sion College and other great depositories of books; if he be a philanthropist, or so inclined, he will seek acquaintance with the various London charities; if he be medical, he will certainly go to the fine Royal Hospitals; if his taste be in the direction of the drama, he will make a series of after dark tours to the several theatres; if he be fond of amusements, he will seek the Crystal Palace and the various exhibitions; and if he be specially engaged in religious work, he will certainly not fail to visit the churches and the religious and philanthropic institutions of the city. To do the most work in the shortest time the stranger should at once provide himself with one of the latest published guides, and with a few hours study he can make himself fairly well acquainted with the leading streets, the location of the principal places of interest, and what trains or 'buses will carry him to these. Where these fail a cab at reasonable rates can easily be secured, of which there are over 12,000 in the city. The policemen are very gentlemanly, and are always found there ready and willing to give any information in their power. The London policemen, numbering about 10,000, are gentlemen—superior in physical appearance and well calculated in the discharge of their duties, to give the stranger a very high estimate of the Metropolitan police force. Among the many places of interest which we visited in our tour of London, we have only time and space in this letter to mention one. At 10 a. m., the first morning in the city we entered St. Paul's Cathedral, to enjoy the religious service always conducted at that hour every day in the week, except Sunday. We were delighted to find on that Thursday morning, an interesting and devotional congregation. The services were solemn and impressive, and especially so to a stranger in that massive, magnificent and historic Cathedral. We were not only in the presence of the great Architect of the Universe, whom we worshipped, but around us were many striking and beautiful monuments erected to the honor of the illustrious dead; containing memorials of the great among all professions, Soldiers, Sailors, Philosophers, Lawyers, Painters, Poets, &c., and beneath us were the ashes of the Duke of Wellington, Viscount Nelson, Sir Christopher Wren, the Architect of the Cathedral, and many others. St. Paul's rears its noble proportions over the ashes of many churches. The first was a christian church, in the earliest times of the christian religion, destroyed during the prosecution of Diocletian. The second was built in the time of Constantine, the Roman Emperor, destroyed by the early Saxons. The third dates back to the year 610, and was destroyed by fire in 1083, The fourth was built by Bishop Mauritius and was destroyed by the great fire of 1666. The present structure took 35 years in building, from 1675 to 1710, and cost £747,954 2s 9d, which amount was raised by a small tax on the coal brought into the city. The circumference of the building is nearly half a mile. From east to west it measures 510 feet, from north to south 282. The elevation of the cross from the foundation is 404 feet, the weight of the ball is 5,600 lbs. that of the cross 3,360 lbs. and the bell, which can be heard 20 miles, weighs some 14 tons. The moment you enter the building you are struck by its lofty vaulting and the noble concave with which it soars upwards. Besides monuments it contains the following curiosities:—the geometrical stair case which hangs without visible support, the model room containing Sir C. Wren's original and favorite model of St. Paul's, a model of St. Peter's at Rome, the great bell, the whispering gallery, in which the slightest whisper at one end is heard, as if close to the ear, at the other end 150 feet away; and in which the slapping of a door resounds like a discharge of artillery or a roll of thunder, The dome, apart from St. Peter and St. Paul, is the finest in the world, and is supported by 8 immense pillars, each of them 40 feet at the base. The interior of the dome is painted with historical representations, emblematical of St Paul's life. In whatever light St. Paul's is viewed it is one of the most interesting sights of London. It was also our privilege to worship there on Sabbath afternoon in the midst of a congregation of over 4,000. Cannon Liddon preached an eloquent and appropriate sermon upon the transfiguration scene. The large congregation seemed very attentive, thoughtful and devotional

The most recent great public event in connection with St. Paul's was the great thanksgiving service held in the Cathedral for the recovery of the Prince of Wales from a serious illness in February 1873.

H.

"I am satisfied from my experience that St. Jacobs Oil is a remarkably good rheumatic remedy," said Mr. Chas. W. Wright, manager of Spurr's extensive drug store, Worcester, Mass., "I had a very severe attack of muscular rheumatism and suffered great pain for some time, I commenced to use the Oil, and it took the pain entirely away."

BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, bloches, pimples and the various humors and blemishes of the skin are only symptomatic of bad blood—that needs purifying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidneys, skin, etc, and strengthening while it regulates and purifies.

Rest and Comfort to the Suffering

"Brown's Household Panacea" has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful," "Brown's Household Panacea," being acknowledged as great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle. 264ly

As a cure for all diseases of the Lungs, DOWNS' ELIXIR has no equal.

Take no more nauseous purgatives. Burdock Blood Bitters act mildly, pleasantly and thoroughly upon the Bowels, and occasion no inconvenience, while it regulates the Liver and Kidneys and tones the enfeebled system. Trial bottles 10 cents.

At the approach of spring great attention should be given to purify the system engorged with foul humors during the winter. Burdock Blood Bitters is Nature's own purifying and regulating tonic.

Rheumatism is greatly dependent on a vitiated condition of the fluids, and may be eliminated from the system by cleansing the Blood and regulating the Kidneys. Burdock Blood Bitters will do this most effectually. Trial bottles 10 cents.

Mothers! Mothers!! Mothers!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle. 264ly

RACKED BY INNUMERABLE PANGS, restless by day, sleepless at night, rising unrefreshed in the morning, without appetite and pestered by varying and perplexing symptoms, the dyspeptic takes indeed a gloomy view of human existence. For him the zest of life seems gone. Heartburn, oppression at the pit of the stomach, and the attendant annoyances of of constipation and biliousness, combine to render him utterly wretched. But there is, if he will but take advantage of it, a reliable source of reliable relief from all misery. NORTHROP & LYMAN'S VEGETABLE DISCOVERY and DYSPEPTIC CURE is, as its name imports, a botanic preparation, free from mineral poison, and an all-sufficient remedy for indigestion in its most obstinate form. It not only enriches the blood by enabling the digestive organs to convert the food received into nutriment, but depurates it by increasing the action of the bowels and kidneys, the natural outlets for its impurities. But while it relaxes the bowels, it never does so violently and with pain, like a drastic cathartic. It aids, but never forces, Nature, invigorating as well as purifying and regulating the system. It thoroughly removes those diseased humors which tend to vitiate the blood, purifies the urinary secretion, and promotes a flow of healthy bile into the natural channel, besides expelling it from the circulation. Experience has proved that this standard medicine is a thorough remedy for dyspepsia, biliousness, costiveness, kidney complaints, scrofula, erysipelas, salt rheum, lumbago and all impurities of the blood. Price $1.00. Sample Bottle 10 cents. Ask for NORTHROP & LYMAN'S Vegetable Discovery and Dyspeptic Cure. The wrapper bears a *fac-simile* of their signature. Sold by all medicine dealers

CINGALESE. A name well known in connection with the HAIR RENEWER, which restores grey hair to its natural color by a few weeks use. Sold at 50 cents per bottle by all Druggists.

The most wonderful curative remedies of the present day, are those that come from Germany, or at least originate there. The most recent preparation placed upon the market is this country, is the GREAT GERMAN INVIGORATOR, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangements of the nervous system. For sale by druggists, or sent free by mail on receipt of the price, $1.00 per box, or six boxes for $5.00 Address James Clark & Co., Sole agent for Belleville, Send for circular.

AFTER many years of patient investigation DR. VAN BUREN, of Germany, finally succeeded in perfecting a Kidney Cure that would permanently relieve all cases of Kidney Disease. Be sure and ask your Druggist for DR. VAN BUREN'S KIDNEY CURE.

WILL you EXCHANGE a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys.

Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

Daily Intelligencer.

BELLEVILLE, TUESDAY, SEPT. 19.

The Crops.

The report of the Bureau of Industries for September, gives very interesting and, on the whole, favorable reports of the crops. It also contains miscellaneous statistics, embracing the acreage and produce of hay and clover, the acreage of root crops, buckwheat, beans, flax, hops and fruit, and the year's produce of maple sugar. Following are the figures for the whole Province, and for the County of Hastings:

	The Province.	The County.
Meadow and Clover, acres in crop	1,863,098	41,976
Meadow and clover, tons of produce	2,138,489	43,859
Potatoes, acres in crop	164,266	5,235
Mangle Wurzel, acres in crop	16,060	137
Carrots, acres in crop	9,981	115
Other Roots, acres in crop	75,164	420
Buckwheat, acres in crop	52,965	2,005
Beans, acres in crop	20,357	310
Flax, acres in crop	5,413	17
Hops, acres in crop	2,047	6
Orchard and Garden, acres	213,725	6,091
Vineyard, acres	1,824	34
Maple sugar, pounds made this year	3,292,321	280,797

Returns made by correspondents, based on the threshing machine records of their several localities, show that the total produce of fall wheat in the Province is 32,352,403 bushels; of spring wheat, 9,295,793 bushels; of barley, 23,545,059 bushels; of oats, 52,997,169 bushels; and of peas, 11,428,479 bushels. These figures exceed the estimates made on the 1st of June, especially the figures of wheat and oats. More accurate data, however, will be furnished by the returns of threshers, the results of which will be given in the October Report of the Bureau.

That Husband of Mine

Isthree times the man he was before he began using "Wells' Health Renewer." $1. Druggists.

Editorial Brevities.

The best that the Hamilton *Times* can say of the coal invoices which show that American dealers give a special rebate to Canadian purchasers, is to call them "twaddle." The *Times* may consider itself as wise as a serpent, but it is also as harmless as a dove, despite the hard words which it occasionally uses.

The amount of railroad building that is going on in the United States, is something almost incredible. In the month of August last 1,274 miles were constructed, and the total for 1882 up to September, is over 7,000 miles. The cost of railways built this year is on an average $25,000 per mile or $175,000,000 for the eight months. When a nation spends a million dollars per day on building railroads there ought not to be much said about the decline of her carrying trade.

Nova Scotia is to be numbered henceforth among the countries that import raw cotton, says the Halifax *Herald* of the 12th. Fifty bales were landed at Windsor, probably the first importation ever made into the province for manufacturing purposes. The cotton factory at Windsor will begin work the last of this month. The managers of that enterprise have not allowed the grass to grow under their feet to any considerable extent.

Port Hope *Times*.—"We have been looking up statistics and find the increase in the consumption of liquor of last year over previous years is something astonishing. Drunkenness may not be as open as formerly, there may not even be as many arrests for it, but the whiskey is drank all the same, and much more of it too. That is one of the faults of Crooks' Liquor Act; it drives drinking into corners, where it develops comparatively unseen."

Says the London *Advertiser*:—

Sir Richard Cartwright is the *bete noir* of the Tory party. The Tory press acts under instructions from the Prime Minister. The *Mail* receives its orders from headquarters. The signal is given and the abuse is begun all along the line.

Nonsense! Sir Richard is the *bete noir* of the Grit party. The Conservatives would gladly see him in Parliament again as, by his rancorous opposition to the N. P., he renders their cause more popular than it otherwise would be.

Catarrh of the Bladder.

Stinging irritation, inflammation, all Kidney and Urinary Complaints, cured by "Buchupaiba." $1.

Moon, Weather, and Tides.

At one of the late meetings of the British Association at Southampton, Sir W. Thomson delivered an address to a large audience upon the tides. While explaining the theory of the moon's influence on the tides, he incidently touched on the supposed influence of the moon's changes upon weather, and pointed out that the comparison of most careful and complete indications of the barometer, thermometer, and anemometer, and the times of the new and full moon and half moon, had failed to establish any relation whatever between them, and had proved on the contrary that if there was any dependence of the weather on the phases of the moon, it was only to a degree, quite imperceptible to ordinary observation. We might take it confidently not only that it was not proved that there was a dependence of the weather on the changes of the moon, but that it was proved that there was no general dependance of weather on the changes of the moon. The attraction of the moon upon our globe, however, was described as not merely causing the tides, but as producing an incessant palpitation and tremor of the earth.

O. Bortle, of Manchester, Ontario Co., N.Y. writes:—"I obtained immediate relief from the use of *Dr. Thomas' Eclectric Oil*. I have had Asthma for eleven years. Have been obliged to sit up all night for ten or twelve nights in succession. I can now sleep soundly all night on a feather bed, which I had not been able to do previous to using the Oil."

THE LOST "ASIA."

Partial List of Her Ill-Fated Passengers.

NAMES OF THE CREW.

Proceedings Initiated Against the Company

COLLINGWOOD, Sept, 18.—No further particulars as to the loss of the steamer *Asia* have as yet reached here, and nothing can be expected until the arrival of the steamer *Northern Belle*, which was despatched from Parry Sound to the scene of the disaster, or until the return of the tug *Mary Ann*, sent from here early this morning. The steamer when leaving here Wednesday evening, the 13th, had on board a gang of McDougall's men, some twenty-seven or thirty in number, with supplies, five teams, &c., bound for French River, as well as a fair complement of passengers. The following are a few of those who are booked here—the names of others it will be difficult to secure, they having purchased through tickets, and the steamer's books being lost.

NAMES OF THE CREW.

The crew consists of the captain, J. N. Savage; first mate, John McDermid; second mate, A. McNab; wheelsmen, M. Davis and G. McKay; watchman, James Smith; deck hands, John McIlroy, James Nolan, Wm. Stinson, C. Innes; first engineer, T. K. Bruce; second engineer, M. Widower; foreman, H. DeGroat, James Lamb; steward, Stephen Carter; waiters, Isaac Bennett, A. Watt, T. Lawrence; porters, R. Walker and T. Hill; ladies' maid, Mrs. Walters; cooks, Wm. Jackson and J. Jackson; purser, John McDougall.

NAMES OF PASSENGERS.

The passengers were twenty-seven or thirty shanty men, names as yet unknown; William Christy, newly married, and wife, Collingwood; Wm. Clinton, B. Morrey, Mr. and Mrs. W. H. Wood, Cincinnati, Ohio; A. Bowse, Mr. Ship, Mr. Duncan and son, of Hamilton; J. Martin, Collingwood; a man named Kerr and family, of Limehouse, Ont.; W. B Gallagher, Manitowaning; J. H. Tinkiss, Manitowaning; Mr. NcNabb, Miss Hanbury, Owen Sound; Mr. Sproule, of Cookstown, supposed to be on board. The two saved are D. C. Tinkiss and Miss Christie Morrison, who have not yet reached here from Parry Sound. Numerous telegrams have been received here for a full list of the passengers on board, but it is impossible to give it. It appears that the only list is with the purser, and he with the passengers and crew, went down in the vessel.

Don't die in the House.

"Rough on Rats." Clears out rats, mice, roaches bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

Canning Tomatoes.

Many people who are quite successful in canning fruits generally, are apt to fail with the tomato. A lady says:—"We have ten acres of fruit of all kinds and I take a great deal of pride in canning fruit. I got nearly all the prizes at the fairs. I wish you could peep into my cellar to see my tomatoes and peaches, some canned last fall and some a year ago, not mentioning my other fruit. I will tell you how I can my tomatoes—both red and yellow. I pick the tomatoes—the smoothest and best shaped—and scald them and skin them carefully; take the stem out with a penknife, taking care not to cut the tomato so as to let the juice or seed run out; then I place them in the cans, some of them with the stem end next to the can, and some with the blossom ends; then I take the juice that has run out of some that I have peeled to cook, having seed or pulp, and add a little salt and pour on my whole tomatoes until nearly full; then place them in a kettle of cold water, and let them cook till I think they are heated through; then I seal them. I use nothing but glass jars—two quart jars—and after the cover has been on about five minutes I take it off, so they will settle, letting the gas out; then I fill up with juice, and seal again, and my cans are always full to the cover. A great many have not learned this. You have no idea how nice they look through the glass; they show every vein and rib, and look as if they were put up raw, and when used they are just as if they had been taken from the vines, and if you don't believe me, try it this summer. I always keep my fruit in the dark, and it don't fade through the glass.

If Nearly Dead

after taking some highly puffed up stuff, with loud testimonials, turn to Hop Bitters and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes, or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides, it is the best family medicine on earth.

Financial Statements.

The bank statement for the month ending 31st August, 1882, shows the capital authorized $67,146,666; do subscribed, $61,816.416,17; do. paid up, $59,318,111. 85; notes in circulation, $31,459,186.89; total liabilities $153,443,923.57; total assets, $231,059,110.65.

A statement of affairs of loan companies and building societies in the Dominion of Canada for the year 1881, as furnished by them to the Department of Finance, shows that the total dividends paid amounted to $12,120,328 21; amount loaned during the year, $19,419,566 16; do. received from borrowers, $15,950,237.68; do. for deposit, $18,309,344 13; amount repaid to depositors, $17,055,786.93; amount borrowed for purpose of investment, $83,017,449.90; present cash value of investment on mortgages and other securities, $66,366,100.06; value of the real estate under mortgage, $132,986,695.05; total liabilities, 1881, $71,965,117.04; do., 1880, $66,764,299.40; total assets, 1881, $73,966,638.10; do., 1880, $68,263,390.96.

PEARLS.—Get your mouth full by using "TEABERRY," the new wonder for the Teeth and Breath. Brush vigorously. See directions. 5 cent samples.

Hall's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by Jas. Clarke & Co., Belleville, Ont.

For 30 Years

The dark-eyed and lovely daughters of Spanish America have used MURRAY & LANMAN'S FLORIDA WATER as their only cosmetic and toilet perfume. It is the most fragrant, as well as the most lasting of all Floral Waters, and possesses refreshing and invigorating properties not contained in any other preparation of the kind.

Nervous debility is a result of indiscretion in the mode of living. Heed nature's unerring laws and take Burdock Blood Bitters, the Great System Renovator and Blood, Liver and Kidney regulator and tonic. Sample bottles 10 cents.

PROCLAIM it far and wide that DR. VAN BUREN'S KIDNEY CURE not only immediately relieves all Kidney diseases, but what is more important to the unfortunate sufferer, will ultimately cure him effectually.

News Condensed.

—Bebel, the German Socialist, is dead.

—Yorkville has voted to unite with Toronto.

—To-day is the anniversary of President Garfield's death.

—Eight cases of small-pox are reported from St. Norbert, Man.

—An international electric exhibition is being held at Munich.

—The break on the Erie Canal will probably take a fortnight to repair.

—James Tracy, who murdered Officer Huebner, was hanged at Chicago, on the 15th.

—There were 58 deaths in Mrailla on the 14th from cholera, and 184 in the vicinity.

—A man having two bombs in his possession has been arrested at Ronchia, near Trieste.

—The Halifax cotton factory is progressing rapidly, and is expected to be in running order early in 1883.

—The steamer "Yorkshire," from Shanghai for New York, tea laden, is a total loss on the Chinese coast.

—The Post Office at Campbelltown, N. B., has been robbed of $300 in cash, and $100 worth of postage stamps.

—Arrests of Irredentists continue in Hungary. The Imperial family have been received enthusiastically at Trieste.

—Forty-three thousand emigrants landed in the United States in August against 57,000 persons during the previous August.

—Writs have been issued for a general election in Newfoundland. The Opposition attack the Government's railway policy.

—Floods in Lombardy, Venetia, and the Tyrol have caused an immense destruction to property. The city of Trent is inundated.

—Ten of the Dominion Cabinet Ministers are in Ottawa, another is expected there today, and Sir Charles Tupper sails from England next Thursday.

—John McRae, of Upper Boularderie, N.S., who mysteriously disappeared, 24th of May last, has been found dead, having hanged himself in some woods near by.

—The Garfield monument fund fair is taking on enormous dimensions. Applications for space by exhibitors already outrun the limits of the rotunda of the capitol at Washington.

—Mr. A. P. MacDonald has accepted the contract for the work at Fenelon Falls in connection with the Trent Navigation. Mr. Alexander Manning, of Toronto, is associated with him.

"The term *hydra* may be used to represent any manifold evil. If you would battle successfully with this many-headed monster of disease you will find it expedient to keep Mrs. Pinkham's Vegetable Compound always at hand.—*Dr. Banning*.

—The assessed valuation of real and personal property in New York in 1882 is $1,233,476,000, an increase of $47,528,000 compared with last year. The rate of tax levy is $2,25, against $2.62 last year.

—The inquest on the body of the man Fortin, who was shot dead in Quebec by three boys, has terminated in a verdict of manslaughter against Edouard Jacques, one of the boys. He has been arrested.

—Many cases of serious illness among railway hands are reported from Yale, it is supposed from drinking poisonous tea. A large number are prostrated, and a medical investigation is proceeding as to the cause.

—Montreal had a good meeting on Saturday evening over the Egyptian victory. It is described as to the largest, most respectable and most enthusiastically loyal mass meeting of citizens that ever occurred in Montreal.

—The Earl and Countess of Cavan are in Ottawa, and are staying with their son, the Hon. Mr. Lambert, who is a resident of Ottawa. Lord Cavan has been holding some religious meetings, and is to conduct more during the ensuing week.

—The 16th, the day for opening the Mexican Central Railroad, saw direct telegraphic communication between Boston, Buffalo, Chicago, Kansas City, Pueblo, Col., Rincon, N. M., El Paso, Tex., and Chihuahua, Mex, a distance of 3,057 miles. Several messages were sent and received.

***"Do boldy what you do at all." Boldly do we affirm that Kidney-Wort is *the* great remedy for liver, bowels and Kidney diseases. rheumatism and piles vanish before it. The tonic effect of Kidney-Wort is produced by its cleansing and purifying action on the blood. Where there is a gravelly deposit in the urine, or milky, ropy urine from disordered kidneys, it always cures.

—The volunteer review taking place at Montreal during the exhibition there will be attended by nearly 2,000 Canadian troops and by a couple of United States militia companies. The formalities necessary to enable the latter to enter Canada under arms are rather curious.

—The Duke of Bedford, Right Hon. W. H. Smith, and other English gentlemen are said to be engaged in a scheme to further Irish emigration to Canada, and desire some guarantee that when the emigrants get here they will find employment.

—Another $20,000 has gone from America to Land League Treasurer Egan at Paris, and it is announced that Messrs. Sexton and Redmond will lecture in October in America in the cause of the League. The League might secure Arabi Bey from the British Government for a consideration to lecture also.

—The provincial exhibition opens at Kingston to-day, the Hon. Mr. Pope, Dominion Minister of Agriculture, officiating. The Ontario provincial fair dates back to 1846, and for the last twenty years has awarded annually between $10,000 and $15,000 in prizes. The Manitoba exhibit this year is noteworthy.

—A telegram received at Halifax yesterday day by the naval authorities state that the British war ship *Phoenix*, ashore on East Point, Prince Edward Island, is bilged and full of water. All her materials, guns, etc., have been taken off. None of the ship's crew were lost by the wreck. The ship is now offered for sale as she lies on the beach.

Cheese.

NEW YORK, Sept. 6.—Receipts for the week were 70,486 boxes; exports, 34,083 boxes.

Exporters have been quite generally out of the field on their own account and buying almost entirely on orders. This has lessened trade and weakened the market, which closes dull and dispirited. Creamery skimmed cheese are almost unsaleable unless of excellent make and carrying some stock.

THE TRUE NEWSPAPER MAN.—Some men seem to be born to do newspaper work, and will do it if they have to live on cold hash and button their coat up to their chin while their only shirt is in the wash. And they will be just as happy, too, as the son-in-law of a monopolist with a bad cough. They would never be contented in any other calling, even if it paid them $10,000 a year and firewood. All others should keep out of the Journalistic field.—*Middletown Transcript*.

Sure, safe and effectual, that old remedy, DOWNS' ELIXIR, for the cure of Coughs and Colds.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, New York City*. [w6m143eod

Professor Bowlin's Great Golden Seal Discovery.

The greatest and latest discovery of the nineteenth century. A sure and permanent cure for Fits, Hysterics, Dizziness, and all nervous complaints. When ordering a bottle send full description of disease, age and condition of patient, advice free, price $1.00 per bottle. RICHER, BARBEAU, & Co., 101 St. Francios Xavier St., Montreal, sole agents for Canada.

Five women named Carroll, Ryder, Casey, and Maher, two of whom live on the Roman line, Biddulph, have been summoned to appear for complicity in an assault with attempt to murder one John Keef on the Roman line on the 3rd inst.

$500 REWARD.

WHEREAS good reason exists for believing that the several fires that occurred on the morning of the seventh September instant, on the premises occupied by Lake & Jenkins, Livery Stable keepers, on the corner of Bridge and Pinnacle Streets, and of Dr. Curlett, on Hotel Street, in the City of Belleville, were the work of incendiaries, and

Whereas by the amended Municipal Act of 1879, chapter 31, section 31, authority is given to any Municipality in which a flagrant crime is believed to have been committed, to offer and pay a reward for the discovery, apprehension or conviction of the criminal, or of any person who is suspected to be the criminal,

And whereas the Council of the Municipality of the City of Belleville have determined to offer a reward for the apprehension and conviction of the perpetrator or perpetrators of the above crime,

Therefore be it known, that a reward of $500 will be paid by the Municipality of the City of Belleville to any person or persons who will give such information as will lead to the apprehension and conviction of the person or persons guilty of the above mentioned offence.

Dated at Belleville, this 12th day of September, 1882.

NELSON LINGHAM,
Mayor.

D. B. ROBERTSON,
City Clerk.

LAZIER & MEYERS.

Daily Intelligencer.

BELLEVILLE, TUESDAY, SEPT. 19.

City and Vicinity.

THREE prisoners were in the cells last night.

THE police now entertain their visitors with melons.

THERE are now fourteen men and three women in the County Gaol.

THE City Council failed to meet again last night, as there was not a quorum present.

BOULTER AND DUNNING'S canning factory, of Picton, has already received more orders than it can fill this season.

A THUNDER storm visited this district early this morning, and lasted for about an hour, during which time a great quantity of rain fell.

BY good luck, nobody has as yet fallen through the lower bridge, but the chances are good for somebody breaking a leg or falling into the water some of these fine nights.

A MAN from Hungerford named Francis Doran was found dead drunk by the police last night. He had $85 on his person. He was brought before the P.M. this morning, and was allowed to go.

CYNTHIA HARRIS and the man Davy, who was leading her away yesterday, were brought before the Police Magistrate this morning. The girl was remanded for a week, and the man was discharged.

DURING August there were 134 predictions issued for the Lower Lake region. Of these 114 were fully verified, 6 partially and 14 not. The percentage of predictions fully verified was 85.1 and of those wholly or in part 89 6, leaving 10.4 unverified.

JACOB JONES was brought before Judge Lazier this morning, charged with having used threatening language towards his wife, he having failed to furnish sureties for his future good behavior. He will be left in gaol till Monday, when he will be discharged by consent.

PATRICK FITZPATRICK was brought before the Police Magistrate this morning, charged with selling liquor on Saturday night. The charge was sustained and he was fined $20 and costs. Mr. Fitzpatrick was also charged by Geo. Hunt, his hostler, with nonpayment of wages. The case was laid over till Thursday.

THE Montreal *Herald* says of Atkinson's Jollities company, which is to appear here on Thursday night:—"The Company appeared well balanced, and it is difficult to say which was most popular with the audience. The piece as a whole is not only laughable, but wholly free from any taint of vulgarity, and it is acted with rare animation and with fulness. The music is exceedingly good, and the same may be said of the singing, for all the members of the Company possess pleasant and well trained voices."

CYNTHIA HARRIS, the half witted girl who has been giving some trouble to the police lately, just before she was liberated from the County Gaol threatened to burn down the building if they would not let her go. It was found necessary to punish her with solitary confinement in order to make her tractable.

WE have received a fine advertising sheet, printed in colors, of Baird's Famous Minstrels, to which company Messrs. J. S. McMurray and A. E. Wensley, of this city, are attached. A lithograph of Baird's Quintette Club, in which the counterfeit presentments of our two friends appear, is printed in colors on the back cover of the sheet.

THE Winnipeg *Times* of the 14th, says:—"Mr. C. J. Starling and staff, of Belleville, Ont., are temporarily staying at the Douglas. Mr. Starling purposes putting up seven brick dwelling houses on Smith Street. Each will contain nine rooms, and will rent for $60 per month. Owing to his inability to obtain brick this season, the houses will not be completed until next fall."

HON. BILLA FLINT, who is spending the season at his property at Bancroft, purchased a short time since a new team and outfit with which he sent Mrs. Flint the latter part of last week to Madoc, to take the train for Belleville. On the way it became necessary to stay over night at S. Golding's hotel. In the night the hotel stable caught fire, burning up Mr. Flint's team and entire rig, not even the whip being left. Mr. Golding also lost a pair of horses, and various other articles in the barn.

THE Kingston *News* yesterday appeared in a greatly enlarged form and a handsome new dress of type—evidences of prosperity on which we heartily congratulate our contemporary. Seventy-two years ago the Kingston *Gazette*, from which the *News* is directly descended, was established by Stephen Miles—father of Mr. E. Miles, of this office—who published it upwards of eight years. The *News* was commenced in 1840, and the *Daily News* in 1851. Thus our contemporary has attained a good old age, and in the hands of its present able and enterprising proprietor, Mr. L. W. Shannon, we have no doubt that it will maintain its old-time standard of excellence.

WEATHER PROBABILITIES—Toronto, Sep. 19.—Lakes, strong winds or moderate gales veering to the north west and north, fair to cloudy considerably cooler weather, with rain areas and thunder storms.

THE RIFLE WON.—The Spencer Rifle presented by the President of the Hastings Rifle Association for competition among members of the Association has become the property of Sergt. Tammadge, who won it for the third and last time yesterday afternoon. There were four competitors. Sergt. Tammage and Lieut. Hastings each started with a handicap of 16; the former's total score was 84, and the latter's 78. At the 600 yard range both did excellent shooting—Sergt. Tammage scoring 28 and Lieut. Hastings 78. Lieut. W. N. Ponton had a start of 30, and scored 81, and Pte. Vermilyea started with 35 and scored 67.

THE American Agriculturist for October is an unusually attractive and valuable number of this old, reliable and famous journal. We notice important changes in the new and handsome cover, fine paper, and superior finish of many engravings. It is a double number, containing a large Premium List filled with many desirable articles for those who make up clubs. Among the leading contributors: P. H. Jacobs, on Poultry-keeping, full illustrated; J. N. Muncey, feeding hogs; Dr. Geo. Thurber, on Gladious, Skullcaps, Hemp, and other plants; Prof. Buckhout, on Bladder Plums; L. D. Snook, on Household Devices; X. A. Willard, on Cold Storage of Butter; Prof. W. A. Jordan, on Ground Limestone; Col. M. C. Weld, on Ensilaging Corn Fodder: Mr. Orange Judd, on Crops and Prices, ect.; and D. D. Bishop, on Curing Corn Fodder. Guenon's Wonderful Discovery; Farming in Egypt; Fall Ploughing; Humbugs Exposed, are all important. Of the eighty illustrative engravings are two large ones of "October;" "Farewell to the Woods;" Camp TipTop—a Summer Home; Prize House-Plans; Red Polled Cattle, and a long list of labor-saving devices for the farm, garden, and household, such as: Field Roller, Loading Corn, Mending Tools, Pig Rack, Fence Posts, Door Latch, Hoe, Potato Bin, Cold Cellar, Filter, Shoe Box, etc., etc. The Children's Columns are full of instructive reading—The *Doctor Talks* on various kinds of Nuts, Galls, etc. Orange Judd Co., Publishers, New York. $1.50 per annum; single number, 15 cents.

BEFORE purchasing Ready made Clothing be sure and look through HENNESSY'S stock. He has over 300 suits in all, and is offering them at actual cost.

AMERICAN OPINION.—The Utica *Herald* says:—"At an expense of many thousands of pounds and the cost of some valuable lives, the British have demonstrated that the Caucasian race has rights that the people of all climes are bound to respect. The fact that no nation of Europe protested against the efforts of England to restore order along a great international highway, shows the justness of her cause. The fact that her enemy turned out less formidable than expected, does not detract from the courage of her convictions and the brilliancy of her arms; as, when she determined upon intervention, France promised to be her ally, and some other European powers possibly her enemy."

Excellent reasons exist why *Dr. Thomas Eclectric Oil* should be used by persons troubled with affections of the throat or lungs, sores upon the skin, rheumatic pains, corns, bunions, or external injuries. The reasons are, that it is speedy, pure and unobjectionable, whether taken internally or applied outwardly.

COUGHS AND COLDS.—If taken in time are easily cured,—if allowed to continue will result in incurable consumption. Allen's Lung Balsam has the confidence and support of the medical faculty, and is recommended by all who are acquainted with its virtues.

Dr. E. C West's Nerve and Brain Treatment is a never failing cure for Nervous Neuralgia, Nervous Headache, Overworked Brain, &c. Sold at James Clarke & Co's.

Address and Presentation.

A surprise awaited Capt. E. Harrison at the armory of No. 1 Company, 49th Batt., last evening, when he went there to keep a business appointment with a number of the members of the company. He was presented with a handsome morocco dressing-case, accompanied by the following address:—

CAPT. HARRISON,—

We the undersigned members of No. 1 company, 49th Battalion, cannot permit you to take your departure for Ottawa without giving expression to the feelings of profound respect, esteem and affection with which we regard you, both as an officer and a man. Some of us have been members of No. 1 Company for many years, during which time we have never had cause to complain of any act of yours toward the company; on the contrary, we have often been indebted to you for many acts of kindness, generosity and consideration, exceeding your duty to us as our officer, yet never interfering with such duty. Some of us are new members of the company; but have, since we joined it, been so impressed by your many excellent qualities, that so long as we retain our connection with the 49th Battalion, it will be our delight and pride to serve under you. We all unite in bearing testimony to your great ability as an officer, and hope that your connection with the Militia of Canada may be long, and as honorable to yourself and as useful to your country as it has been in the past.

We respectfully request you to accept this dressing case, as a slight token of our esteem and affection, and also of our appreciation of the innumerable kindnesses and courtesies which you have extended to us, as Captain of No. 1 Company.

Capt. Harrison was completely taken by surprise, but replied to the address in an appropriate and pithy speech. The remainder of the evening was spent in social intercourse.

This little incident will be heard of with pleasure by a very great number of people, both civil and military, for no officer in this county has devoted more time and trouble to military matters than has Capt. Harrison, and no other is more deserving of having his exertions recognized in the way in which Capt. Harrison's were recognized by the members of his company last night.

Another Fire in Peterborough.

On Saturday evening about 7 o'clock, says the *Review*, a fire broke out in the biscuit and confectionery factory of Hall Bros., on Water street, which resulted in another destructive conflagration, destroying that fine block, which stood on the corner of Water and Hunter streets, and was owned by Mr. George Dunsford. An explosion occurred in the east end of the third story, blowing out the wall, which fell on a small house beneath, seriously injuring Mrs. Roddy. There was a considerable interval before getting a stream of water on the fire. There was a delay at the engine house through losing a strap from the harness in taking the horses to the shed, and after the engine was placed on the bridge at the creek on Hunter street, and had commenced pumping, the hose burst. It was twenty-nine minutes before the water from one branch was brought to bear on the flames, and by that time the fire had gained considerable headway. The stream was thrown on the fire in the front part of the building occupied by Hall Bros., and the flames leaped the brick wall in the rear and caught on the mansard roof of the adjoining building, which was soon in a blaze. The fire in this way leaped the walls, and, catching in the mansard roof, spread over the whole block, which was occupied in addition to Messrs. Hall, by Mr. J. L Brown, who had a grocery and liquor store in the corner of the block, and Mr. A. P. Morgan, whose hotel was on Hunter street. The building was totally consumed and only a small portion of the wall is left standing. Mr. Brownlee's house was also wholly destroyed. The loss on building was about $15,000—insured for $8,300; Hall's loss $3,000—fully insured; Brown's loss $1,500—fully insured; Morgan was insured for $1,600. The *Review* is severe on the Council for refusing to have a supply of water from the water works.

Sporting Notes.

The Duke of Westminster's stable has won during the present year $62,130. W. S. Crawford's winnings amount to $57,250; Lord Bradford's to $52,975, and Mr. Lefevre's to $53,715

Neither Wilson, Aldine nor Overman lost a race from Chicago to Hartford. Wilson captured $6,000 in purses, Aldine $4,300, and Overman $3,525. Clingstone and Edwin Thorne were the heaviest circuit winners, each carrying off $7,250.

The largest winning stables in America up to September 1, are: Dwyer Brothers, $49,780; P. Lorillard, $38,440; M. Young, $19,125; A. Burnham, $18,766; Appleby & Johnston, $18,505; George W. Bowen & Co., $16,525; Chas Reed, $15,576; Pelham stable, $15,205; George Lorillard, $15,585; E. F. Snedeker & Co., $11,595; Preakness stable, $6,820.

Hanlan has accepted Kennedy's challenge and covered his money and will probably row him within three weeks.

The Canadian cricket eleven did fairly yesterday in the international match, scoring 108 to the American eleven's 128. As the Canadian eleven was fancied weak, the result is satisfactory, especially as the Canadians have opened the second innings well.

English Hop Report.

Messrs. W. H. & H. LeMay, London, report dated August 30 as follows: There has been another advance of 20s. per cwt. established in 1881 English hops, and nothing now remains under £11 11s. per cwt. Old olds, both English and foreign, are in request and are rapidly going into consumption. A few small lots of new English hops have arrived, and have been pretty freely taken at £18@25 per cwt. Mould is very prevalent in mid and East Kent, and will reduce the yield considerably. American reports are not satisfactory; in some places lice have got right into the hops, and will destroy the quality to a great extent. 1881 Americans are in request here at £13 13s. to £15 15s. Continental reports are again unfavorable; bad weather now prevails, and will spoil the condition and color. In many districts 1881's have all gone into consumption, and the older dates have been shipped to England, where the demand is still great for them, but which can no longer be satiated.

The imports of foreign hops into England last week were 2,351 bales. For the corresponding week last year 144 bales.

A New Principle.

The principle upon which PUTNAM' PAINLESS CORN EXTRACTOR acts is entirely new. It does not sink deep into the flesh, thereby producing soreness, but acts directly upon the external covering of the corn, separates it from the under layer, removes the direct pressure from the part, and at once effects a radical cure, without any pain or discomfort. Let those who are suffering from corns, yet skeptical of treatment, try it, and by the completeness of the cure they will be ready to recommend Putnam's Painless Corn Extractor to others. Sold by W. R. Carmichael,

SMITH MEDICINE Co.

GENTLEMEN,—I have made a trial of one box of Dr. Smith's Great German Worm Remedy, with such good effect that I have no hesitation in recommending it to the public as a prompt and reliable medicine. In fact, those who use it once will always do so. Yours truly,

J. Harvie, 172 Cadieux street.

Montreal, December 9th, 1881.

LATEST FROM THE SEAT OF WAR.

Wholesale Surrender of Egyptians

The Forts at Aboukir to be Occupied by the British.

The Khedive Going to Cairo.

ALEXANDRIA, Sep. 19.—Abdellah Pasha, commander at Damietta, requested an officer to be sent to instruct him of the recent events. This is considered as foreshadowing the surrender of Damietta

ALEXANDRIA, Sep. 19.—From ten o'clock on Monday morning until late in the afternoon bodies of infantry, cavalry and artillery continued to pour in from Aboukir, and surrender their arms. There are many more to come.

The ironclads *Minotaur*, *Sultan* and the gun boats *Falcon* and *Condor* sailed eastward this morning, and are now anchored off Aboukir. The forts there will be occupied by the sailors and marines.

Altogether 23,000 men have made submission at Katr-el-Dwar.

The Indian cavalry leave Cairo to-day for the purpose of escorting the Khedive from Alexandria to Cairo on Thursday.

MORNING DESPATCHES.

AMERICAN.

BRANCH OF THE N. Y. CIVIL SERVICE.

ALBANY, Sep. 19.—A branch of the New York Civil Service has been organized here. The list of officers include a number of influential sub-citizens of both parties. The President is Mathew Hale. The first object to ascertain will be to secure the election of Congressmen who favor the Pendleton Bill and other reform measures now before Congress.

NEW YORK NOTES.

NEW YORK, Sep. 19.—The *Times* estimates that Cornell will on the first ballot command 218 votes, Folger 160, Wadsworth 68, the rest scattering.

The line of chartered steamboats that were carrying passengers between here and Pokeepsie, for 10c., and the passenger steamboats, have been suspended It is stated that it will probably not resume until the Sons of Columbia have their own boats, and a fund for the purchase of such boats will be raised by subscription from members of the order. The Free Canal Union yesterday authorized a committee to correspond with the Mayors of the cities and towns upon the Erie Canal, east of Rochester, with a view of establishing a branch organization to co-operate with the central body. The committee were further instructed to communicate with the political organizations of New York and Brooklyn to learn what help might be expected from them. Ex-Governor Seymour has declared himself heartily in favor of abolishing all tolls on canals.

Arrived the *Gallia* from Liverpool; the *Vandalia* from Hamburg; the *Furnessia* from Glasgow; the *Salier* from Bremen.

WASHINGTON SPECIALS.

WASHINGTON, Sep 19.—It is reported that Howgate's female friend who remained here for some time after he disappeared has now joined him

It is believed that the official statement of the post office department for the fiscal year will show that the receipts exceed the expenditures by at least one million.

It is said that the cost of the Star Routes will be two millions less than the sum appropriated, or more than two million less than Brady's estimates.

MELVILLE'S WIFE INSANE.

PHILADELPHIA, Sept. 19—It is said that Mrs. Melville has been deranged for several years. And insanity runs in her family. She is a daughter of Judge Waldon, of Buffalo. Her derangement caused the marriage to be unhappy almost from the wedding day. It is alleged when her husband returned home on Saturday, she upbraided him for not allowing her more money, and presenting a pistol threatened to shoot him. Rather than have words he left the house. While Melville was away on the *Jeannette* expedition his wife had had half his salary, and he also made extra provision for her.

THREE MEN SHOT.

DAWSON, Iowa, Sep. 19.—A Quaker here shot 3 men who raided his melon patch. One has died.

NEW YORK, Sep. 19.—Arrived, the *Baltic* from Liverpool.

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinary or Liver Diseases, as they only relieve for a time and make you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

AFTERNOON DESPATCHES

ARCTIC EXPLORATION.

LONDON, Sep. 19.—Sir Henry Gore Booth, from Hammerfest, on the arctic exploring vessel, *Kara*, set ice on August 12th. and was subsequently driven ashore. She floated on Sept. 2nd uninjured, and sailed southward.

FATAL EXPLOSION.

BERLIN, Sep. 19—By an explosion of fire damp in a mine, near Dantmond, 20 persons were killed or injured.

Hops.

In New York the market is reported by the *Daily Corn Bulletin*. The crop in the State of New York will not exceed 65 per cent. of an average crop; and speaking of the prospects that journal says:—"There may possibly be some change in the situation later on more favorable to buyers, but for the present there seems nothing upon which to base a hope of any thing of that sort. In fact, the whole situation seems greatly against them, with a prospect of it remaining so, during the more active season at least, as English houses are already bidding three hundred shillings for new crop American, and strongly intimating than even more money will be secured for them in a short time. Local dealers have been paying 55c in the interior, and if some reports coming to hand within a few days are true, 57c has been bid and refused. In this market sales have been made at as high as 55c for 1881's and 57c for 1882's, while nothing in way of a decent article is offering, or likely to be obtained at less than 50. There is a liberal demand from both brewers and shippers, but trade seems to be checked by difficulty in inducing growers to sell." The price in Montreal is reported at 45c, with a probable very short crop. Messrs Thomas Barker & Sons, of the Borough, in their circular of the 31st ult. review the situation and prospects of the hop trade as follows:—

The approaching hop crop in England seems destined to become one of the most serious disasters to growers since 1854 and 1860. In the greater part of the plantations, where with care and washing the blight had been mastered, mould has now appeared, and out of the total of about 65,000 acres under cultivation, the average return is not expected to be more than two hundred weight per acre. Prices, therefore, of old stocks of which fine qualities early in the season became extremely scarce, have continued rapidly to advance, and in many cases values have more than doubled themselves within the last few months, while rubbish of all descriptions, unsaleable in other years, has found a ready market.

The accounts from the Continent, as to the crops, are more favorable. Bavaria, Wurtemburg, Alsace, &c., promise a good half crop, Bohemia and the Altmark districts are more favored, and may be expected to yield fully two-thirds of a crop; already samples of the new Bohemian are to hand of fine quality. The Belgian crop in the Alost district is principally a failure. Poperinghe promised well with a good two third crop, but the bad weather of last week did considerable damage.

Alexandria Bay Sculling Match.

ALEXANDRIA BAY, N. Y., Sep. 18.—The race for $1,000 was rowed this evening in Poplar Bay by Courtney, Ten Eyck and Dempsey. A good start was made. Courtney at once took the lead. At the quarter mile he led Ten Eyck half a length, with Dempsey half a length behind Ten Eyck. At a mile from the start, Courtney led Ten Eyck a length and was rowing 32 strokes to the minute, Ten Eyck 34 and Dempsey was three lengths behind Ten Eyck, rowing 32 strokes. At the turn Ten Eyck was so near Courtney's buoy that Courtney stopped and Ten Eyck turned ahead. Courtney turned four seconds later and Dempsey was far behind. On the first half mile of the return Courtney soon took the lead again. At a mile from the finish Courtney was a length ahead. He and Ten Eyck pulled hard, 30 strokes to the minute. A slight breeze sprang up, making the water lumpy. At a mile and a quarter from the turn Courtney was leading Ten Eyck by two lengths, and passed the home buoy an easy winner; time, 20.59½ Dempsey half a mile behind. The wind blew very fresh from 1 to 3:430 p. m., when it calmed down somewhat, but the course remained rough. Courtney at the finish seemed somewhat out of breath and said it was the hardest race he ever rowed. Ten Eyck was quite exhausted. It was the opinion of those on the referee's boat that Courtney could have made better time if necessary. Considering the condition of the weather the race was declared satisfactory on all hands. There were 2000 people present and the river was full of steamboats from all points.

Agricultural Fairs.

WEST HASTINGS, at Belleville, Sept. 27 and 28.

BAXTER'S MANDRAKE BITTERS never fail to cure Costiveness and regulate the Bowels.

Consumption, that dread destroyer of the human race, is often the result of bad blood and low vitality, a scrofulous condition of the system. Burdock Blood Bitters cure Scrofula in its worst form.

Dropsy is essentially a watery condition of the Blood, dependent upon disordered Kidneys. Burdock Blood Bitters are strongly Diuretic and consequently the best known remedy, acting as it does upon the entire Secretory System.

Commercial.

TORONTO MARKET.

TORONTO, Sept. 19.—Fall wheat No. 1 $1.14 to $1.15; No. 2, $0.00 to 0 00; No. 3, $1.11 to $1.12. Spring No. 1,—$1.20 to $1.21; No. 2, $1.19 to $0.00; No. 3, $0.00 to $0.00. Barley—No. 1 00 to 00; No. 2, 00 to 00; No. 3 extra, 82 to 83; No. 3, 55 to 56. Peas—No. 1, 00 to 00; 2, 00 to 00 Oats—No. 1, 45 to 00; No. 2, 00 to 00. Corn—00. Wool—00 to 00. Flour—superior, $5.15 to $5.25; extra, $5.00 to $5.10; fancy, $0.00 to $0.00; strong bakers $0.00 to $0.00; spring extra, $0.00 to $0.00, superfine, $0.00 to $0.00; fine, $0.00 to $0.00. N. H. DOWNS'
Vegetable Balsamic
ELIXIR!

This valuable medicine is purely vegetable, the discovery of which was the result of many years' close study, in order to discover the cause, the symptoms and the cure—viz.:

Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Influenza, Pleurisy, Hoarseness, Spitting Blood, Bronchitis,

and every species of oppression of the Chest and Lungs. In all cases where this Elixir has been duly administered its efficacy has been invariably manifested, convincing the most incredulous that

CONSUMPTION

is not incurable, if properly attended to.—Consumption at its commencement, is but a slight irritation of the membrane which covers the lungs then an inflammation when the cough is more observable, but rather dry; then becomes local fever and the pulse more frequent, the cheeks flushed and chills more common. This Elixir in curing the above complaints, operates so as to remove all morbid irritations and inflammation from the lungs to the surface, and finally expel them from the system. It facilitates expectoration,

IT HEALS THE ULCERATED SURFACES

and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. It is free from strong opiate and astringent articles, which are of so drying a nature as to be in great danger of destroying the patient; whereas this medicine never dries or stops the cough, but, by removing the cause, generally destroys the hectic, and the cough is entirely gone. Consequently, when the cough is cured the patient is well. Send address for pamphlet giving full directions for cure of pulmonary diseases. Price 25cts. and $1 per bottle. Sold everywhere.

HENRY, JOHNSONS & LORD, Props.

HYDROLEINE

HYDROLEINE
HYDRATED OIL
EQUIVALENT TO
10 TIMES
THE SAME
BULK OF C. L. OIL
PREPARED BY
THE HYDROLEINE Co
LONDON ENGLAND

(HYDRATED OIL.)
An artificially digested Cod Liver Oil.

For Consumption, Winter Cough, Affections of the Chest and all Wasting Diseases

Prescribed by the leading physicians of England, the United States and the Dominion of Canada.

A WONDERFUL FACT. HYDROLEINE mixes perfectly with water showing a complete artificial digestion of the oil and just as the HYDROLEINE mixes with the water, so does it mix with the liquid contents of the stomach, and enters immediately into the system to nourish and build it up. The efficacy of HYDROLEINE IS NOT CONFINED to cases of Consumption, as from its valuable tonic effect on the nervous system in addition to its special stimulating action on the organs concerned in the production of Fat in the body, it causes marked increase in weight in persons of naturally thin habit, who do not present any evidence of disease.

Unlike ordinary preparations of Cod Liver Oil, it produces no unpleasant eructation or sense of nausea and should be taken in such very much smaller doses according to the directions, as will ensure its complete assimilation; this at the same time, renders its use economical in the highest degree.

For sale by all Druggists.

We have sold the above remedy for several months and find it spoken of very favorably by both the medical profession and the public.

We can safely recommend it to parties needing such a remedy.

SHAWN BUIE.

A LEGEND OF KILKEE.

(From the Dublin University Magazine)

He looked for an instant, and then replied:

'Thunder-an-age; but if it was not for the honor and glory of the green leaf, which you have in your hat, but it is I would have made a horroch of you before you would have felt it itself. But what the dickens brought you here? Faix, and you have a bould foot anyhow. Let me now tell you for wanst, niver again let the sole of your foot kiss the face of this road, unless you want to make food for the divers among stones below.'

So saying, he threw himself on his hands and knees, and feet foremost, descended the path with a degree of celerity which I should have considered utterly impracticable half an hour before.

For a considerable time I kept aloof from the scene of this alarm. Almost a month had elapsed from the period of this occurrence, when the village was thrown into a state of much excitement. A village dance was held on the green, one Sunday afternoon. Around Neilo, the piper, were gathered boys and girls, young men and maidens, while the favorite lass of the village was dancing with a gentleman, who had lately arrived. All was mirth and gaiety, when suddenly a man was observed running at the top of his speed for the direction of Skiah. The dance ceased. Every eye was fixed on him. He was covered with sweat and dust.

'Boys, can any of yees save me!' cried he, dashing in among us, and wiping off the sweat from his forehead with the sleeve of his coat. 'Holy Virgin, can't one of yees hide me? The poliss are after me, and I'll be kilt, if yees don't help me!'

'Run to the rocks,' cried out several voices at once, pointing to the ledge at the soutern side.

'Tim, you sowl,' cried one to a little fellow, 'Tim, show the poor fellow the way to the Hag's Hole; and Tim'—here he whispered something in the child's ear; and in a moment afterwards they both started off at a sling trot towards the left-hand cliff. The fugitive had out-stripped his pursuers more than he calculated, for he was far out of sight before they arrived. The dance, of course, had broken up, and the party separated, either to talk over the matter, or to turn to other amusements, when two policemen entered the village, and began to search for their man.

Every place where it was thought possible that he could be concealed was examined. Inquiries were made but all to no effect, for the villagers either professed ignorance or refused to give information. The rocks were tried over and over again; every nook, every grotto, the ledges of the amphitheatre were searched, even by torchlight, but fruitlessly; and late at night the police came back, professing their intentions of returning to Kilrush on the following day.

On the succeeding Tuesday, about six o'clock in the evening, I took my hand line and went to a favorite spot on the cliff to fish for breame. The evening was the close of one of the loveliest days which had appeared that season. The cool sea-breeze so refreshing after the mid-night heat, gently rippled the waters beneath; and the red disk of the sun descended rapidly, as if anxious to cool itself in the mighty ocean. Having been successful with my baits, I laid down upon the grassy edge of the rock to enjoy the luxury of the hour. The evening shades had far advanced before I rose to return home. When in the act of drawing up the hand line, I stooped over the cliff to see what prevented it yielding, for it had caught in some projection of the face of the cliff, when I perceived a canoe with four men, stealing beneath the land as close to the shore as safety would permit, and advancing in the direction of Bishop's Island. The lateness of the hour; the number of persons in the boat, usually only occupied by two; their distance from any landing place; and the cautious manner in which they were proceeding, impressed me forcibly with the idea that all was not as it ought to be. Idle persons are always meddling in matters which do not concern them; and being young and tolerably active, and my own master, I resolved at once to observe their motions and ascertain, if possible, their object.

After some efforts to disengage the line, I was at last compelled to break it. Coiling up the remainder, I followed the boat, which had made considerable progress before I could make up with it. This line of coast is most dangerous to persons unacquainted with it. The ceilings of old caverns which advance far into the land have, in many instances, fallen in and left narrow chasms, which a person often comes upon suddenly, not observing them until he is almost stepping into the depth beneath. These clefts sometimes extend nearly a quarter of a mile, and are so numerous, that what would appear at first to be a walk of only a mile, is by this means prolonged by two or three. It may then be easily understood how much more quickly the canoe would advance than I could without considerable exertion. The darkness, which had by this time much advanced, increased the difficulty. I traced the boat, however, to very near Bishop's Island. There the men rested on their oars, and apparently listened attentively to ascertain if any sound was near. They frequently stooped over to whisper, their dark figures, perceived against the clear bright sea, approaching each other at intervals and receding again. All was so still that nothing could be heard but the rippling of the water against the rocks below. At length a sound which resembled the hammering of a flint with a knife could be distinguished, and they looked towards the before mentioned descent to the cavern opposite the island several times with apparent anxiety and uncertainty. They then commenced steering towards it; and I immediately hastened towards it, hoping in the darkness to escape observation. I succeeded beyond my expectations in reaching the turning point of the path, where it may be remembered I first met the man of the high shoulder, when suddenly I saw two persons, about ten yards beneath, stooping over the projecting fragment of the cliff. This sight at once stopped my progress. I stood petrified. While I was thus deliberating, my strength and courage oozing away, I was roused by one of the men seizing hold of the other by the arm, and saying in a loud whisper—

'Shawn, it is the devil's work intirely; we had best give over!'

'What do you mane?' replied the other. 'Is it cod-livered ye're growing?'

'Why, Shawn to tell you the truth. I cannot murder 'em in cold blood. It is the devil's work out an' out!'

'Thunder-an-age; but that's a fine thing anyhow. Murther, in troth, in cold blood! And will yees tell me what are they going to do to us, if it isn't to murther us all, an' more of us than there are. Will they not shoot them below in the cave that is trusting to ourselves to save 'em. The devil a bit of one of them but shall sleep sweet an' aisy in the bottom of the say this blessed night! An' sure they can shoot the fishes wid their pistils, if they want work for 'em. Whisht, whisht!' said he, seizing the other as if to hold him back, as the latter struggled as much as his position would permit him.

'Whisht, whisht, I tell yees; do yees want to make 'em shoot us at wanst; man alive! Let me alone, I tell yees; I will do it.'

And, with a kick of his foot, he sent a large fragment of the rock headlong down the precipice.

TO BE CONTINUED.

CHEAP AND GOOD.—For 50 cents you can purchase from any reliable druggist, a box of Mack's Magnetic Medicine, which contains forty-five doses; this is cheaper than any other similar medicine sold, and while it is cheap our druggists say it is the best, and gives satisfaction in all cases. Read the advertisement in another column.

Samson lost his strength with his hair. Thousands of men and women lose their beauty with theirs, and very large numbers restore the ravages of time by using the famous Cingalese Hair Restorer. Sold at 50 cents per bottle by all Druggists.

DELAYS are dangerous, particularly in Kidney Diseases, so take at once DR. VAN BUREN'S KIDNEY CURE and obtain relief from all your sufferings. Your Druggist keeps it.

The market is full of preparations for the hair, some of them good, and many of them good for nothing. R. P. Hall & Co., of Nashua, N. H., manufacture and sell an article of real merit, which has been advertised in the *Express* for the past year, and we have taken no little pains to inquire how it has been liked by the public. One of our druggists informs us that he has sold more than double the amount of Renewer than of all other hair preparations combined, and when a person once uses it, he will use no other: that it is not only bought by the young people as a dressing, but by older persons for removing dandruff, preserving and increasing the growth of the hair and restoring its natural color. Another druggist says that he sells three or four times as much of Hall's, as of all others.—*Hampshire Express, Amherst, Mass.*

Asthma and Bronchitis Cured.

HALIFAX, N. S., Jan. 1882

C. M. PUTTNER, Esq., PH. M.:

SIR,—I consider it my duty, not only to yourself, but to my fellow creatures who are suffering from Asthma and Bronchitis, as I had for some time previous to using your "Emulsion of Cod Liver Oil with Hypophosphites," to give my testimony to the most wonderful good effect it had. Having suffered for some time with Asthma and Bronchitis, accompanied with great nervous exhaustion, and having carefully read your Essay on the combination and uses of your Emulsion, I was persuaded to give it a trial, and on using two bottles I began to receive great benefit and relief, and after using three bottles I was completely revived and am to-day perfectly free from either Asthma or Bronchitis, and my nervous system much invigorated and built up. I have found it very pleasant and palatable, and with no taste of the oil whatever, and can with great confidence recommend it to those suffering as I did previous to taking your compound. In conclusion, I consider I owe you a debt of great gratitude for the benefit I have received from your Emulsion and only hope that many may be induced to give it a trial, and receive as great benefit as I have from its use. I am, yours, &c.,

ALEX. STEPHENS, SR.,
Merchant.

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrh, Bronchitis, Asthma and Lung Disease by Dr. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the seat of disease. Read and judge for yourself:—

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. JOHN P. WHELAN, Manager of POST and TRUE WITNESS, Montreal. Mr. C. HILL, Montreal, catarrh and bronchitis. Mr. DEBOUCHERVILLE, of the Indian Department, Ottawa, catarrh of many years; now cured. Mr. GEO. AGER Ottawa, catarrh and lung disease; cured. Mrs. SMITH, London, wife of Medical Detective, cured of catarrh. GEO. MAGUIRE, Toronto, 482 Adelaide street West; daughter cured of asthma. GEORGE WILLIS, Exeter, Ont., catarrh and bronchitis. J. D. ARMSTRONG, 186 Yonge street, Toronto, catarrh and catarrhal deafness. THOMAS TELFER, 12 Melinda street, Toronto, asthma; cured. Mr. BENJ. A. DRAKE, St. Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. BENOIT, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma and bronchitis for over eight years, and who is now perfectly cured.

Mrs. ADAMSON, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitating in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis. JOHN C. FLEMING, Editor of POST and TRUE WITNESS, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write, inclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souvielle and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

$200.00 REWARD!

Will be paid for the detention and conviction of any person selling or dealing in any bogus, counterfeit or imitation HOP BITTERS, especially Bitters or preparations with the word HOP or HOPS in their name or connected therewith, that is intended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as HOP BITTERS. The genuine have a cluster of GREEN HOPS (notice this) printed on the white label, and are the purest and best medicine on earth, especially for Kidney, Liver and Nervous Diseases. Beware of all others, and of pretended formulas or receipts of HOP BITTERS published in papers or for sale, as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted.

UNCONDITIONAL, INCONTESTABLE
LIFE POLICIES.

THE objection is often made that the Companies may take advantage of some of the conditions on their Policies, and thus either avoid entirely the payment of claims, or compromise with the widow for a small sum. This argument cannot be used against

THE SUN
LIFE ASSURANCE CO'Y OF MONTREAL,

which issues absolutely unconditional policies to selected lives. There is no restriction of any kind on them. The assured may travel to any part of the world without extra premium. He may change his occupation at will, or do anything else he chooses. The contrast is remarkable with other policies. Ask an agent to show you one; it speaks for itself.

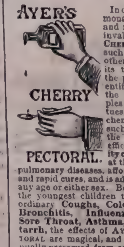
THE BEST REMEDY
FOR
Diseases of the Throat and Lungs.



In diseases of the pulmonary organs a safe and reliable remedy is invaluable. AYER'S CHERRY PECTORAL is such a remedy, and no other so eminently merits the confidence of the public. It is a scientific combination of the medicinal principles and curative virtues of the finest drugs, chemically united, of such power as to insure the greatest possible efficiency and uniformity of results. It strikes at the foundation of all pulmonary diseases, affording prompt relief and rapid cures, and is adapted to patients of any age or either sex. Being very palatable, the youngest children take it readily. In ordinary **Coughs, Colds, Sore Throat, Bronchitis, Influenza, Clergyman's Sore Throat, Asthma, Croup, and Catarrh,** the effects of AYER'S CHERRY PECTORAL are magical, and multitudes are annually preserved from serious illness by its timely and faithful use. It should be kept at hand in every household for the protection it affords in sudden attacks. In **Whooping-cough and Consumption** there is no other remedy so efficacious, soothing, and helpful.

Low prices are inducements to try some of the many mixtures, or syrups, made of cheap and ineffective ingredients, now offered, which, as they contain no curative qualities, can afford only temporary relief, and are sure to deceive and disappoint the patient. Diseases of the throat and lungs demand active and effective treatment; and it is dangerous experimenting with unknown and cheap medicines, from the great liability that these diseases may, while so trifled with, become deeply seated or incurable. Use AYER'S CHERRY PECTORAL, and you may confidently expect the best results. It is a standard medical preparation, of known and acknowledged curative power, and is as cheap as its careful preparation and fine ingredients will allow. Eminent physicians, knowing its composition, prescribe it in their practice. The test of half a century has proven its absolute certainty to cure all pulmonary complaints not already beyond the reach of human aid.

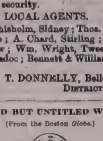
DISTRICT AGENT

A NOTED BUT UNTITLED WOMAN.

[From the Boston *Globe*.]



Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of *either* sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Philadelphia, Pa. (3) MRS. A. M. D.

KIDNEY-WORT

THE GREAT CURE

FOR

—RHEUMATISM—

As it is for all the painful diseases of the KIDNEYS, LIVER AND BOWELS.

Daily Intelligencer.

Gibraltar's English History.

In the Spanish Cortes, not long ago, a deputy, smarting under the sense of humiliation shown by patriotic Spaniards who see an English garrison impregnably fortified in their proudest stronghold, ventured to suggest an inquiry as to the means by which Gibraltar might be restored to Spanish possession. Another, as patriotic perhaps, but more judicious and polite, begged that this delicate question might be postponed, and the subject was dropped. Gibraltar is perhaps the most unique spot in European territory. If Constantinople, with its Bosphorus, harbor and southern sea, is the strongest strategic point in military history, Gibraltar is no less the most impregnable single fortress in the world; its very name has become a synonym of unassailable strength.

To the traveller who takes a boat from Tangiers, it discloses its full and elephantine proportions, and is grandly picturesque. A narrow elevated promotory, jutting out into the sea, three miles in length, it incloses between its extremity, which is called Europa Point, and the mainland to the west, the Bay of Gibraltar, about nine miles across. The force of the Levanters, which sometimes scourge the Bay, is broken by the new and old moles, which offer large and safe harbor for shipping. The rock rises at first in a gentle slope, and then more abruptly until it reaches the elevation of about a thousand feet, where a signal station is established; then, after a slight depression, it ascends again to its landward extremity, reaching a height of fifteen hundred feet, where it falls to the neutral ground. The city lies at the foot of its western cliffs. Gibraltar was the *Mons Calpe* of the ancient geographers, and twelve miles opposite, on the African coasts, is their *Mons Abyla*. These two are the "Pillars of Hercules," upon which the inexorable deity of the waters had inscribed the forbidding words, *Ne plus ultra*. Between them flows the famous strait. The adventurous Phœnicians passed through and defied the motto. Hamed followed with his Carthaginian galleys, and soon the spacious vessels of Cadiz were carrying corn to Ostia. Rome seized the Rock when Carthage fell, and when in turn the Roman power was subverted, the Vandals rushed past it, and left it to the Visigoths, who held it during their occupacy of Spain for three hundred years. Then the Moors took it, in 711, and after an occupancy, with a few temporary interruptions, of seven centuries and a half, they lost it again, in 1462, to the Spaniards. Two centuries and a half, nearly, it remained in their hands.

The treaty of Ryswick in 1697 put an end to the long war in which England had been engaged and the procumbent Rock slumbered for three years. But the peace was of short duration. The death of Charles II. of Spain without heirs, plunged Europe into the war of the Spanish succession, and Gibraltar again comes into view; not only as a rock of offence among the nations involved, but distinctively as a prize greatly coveted by the English. It was besieged, and a demand was made for its rendition in behalf of Charles III. as rightful King of Spain. The garrison consisted of but from three hundred to five hundred men, with one hundred guns. The demand was made by the Landgrave of Hesse Darmstadt, supported by an English fleet under Admiral George Rooke. It was upon this issue that it was boldly captured by the English Commander on the 24th of July, 1704. The banner of the new King, Charles III., was hoisted over Gibraltar, but Rooke pulled it down with his own hand, and running up the British flag, took possession of the fortress for and in the name of Queen Anne.

The *twelfth* siege in the history of the famous "Rock" was begun in that same year, October, 1704, by the French and Spanish, and although the English garrison was small and the equipment inadequate, the besiegers lost ten thousand men, and the siege was raised in April, 1704. European politics were in a very troubled and excited condition, and the English possession was rather precarious until the peace of Utrecht, in 1714. By that treaty there was a formal cession of Gibraltar to the British Crown, "in all manner of right forever."

Spain before long awoke to a sense of her humiliation, but it was a strife between lofty expressions and powerful possessions. Philip V., the successful claimant to the Spanish throne, told the English minister, in December, 1725, "You must either relinquish Gibraltar, or your trade to the Indies." Pursuant to this, in the next year, the Spanish ambassador to England made a formal demand for the restoration of the place, with the alternative of war. The latter was promptly accepted by the English, and the *thirteenth* siege of the place began in January, 1727. The Spanish investment was weak; the English garrison bold not only in defence, but in offensive sorties, and the siege came to an end by negotiations for peace, which issued in a treaty on the 23rd of June, 1727.......

It soon became manifest that neither diplomacy nor happy accident would recover the place; it must be *via facta*, by the mighty hand of war, or not at all. And thus we reach the *fourteenth* and last siege.

War was declared in Spain against England on the 16th of June, 1779, and Gibraltar became at once an objective point. There was but a small English garrison, comprising five companies of artillery. They were commanded by a heroic man, whose name was soon to be known all over the civilized world. This was General George Elliot. He promptly utilized the scanty materials at his disposal, and, scarce of men and provisions, prepared for the shock. The large Spanish squadron in the bay was soon joined by a French force, and the besiegers numbered of land troops fourteen thousand men. The rock was furiously bombarded, and seventy of the defenders killed. Enduring with patience, and waiting through long weary months, almost without hope for succor, the British commander at last attempted a diversion. On the 26th November, 1783, an evening order was issued for a sortie of the garrison upon the enemy's advanced works before day. It was eminently successful; these works were dismantled and one of their principal magazines blown up. But the winter wore on, and in the spring it was manifest that the grand attempt was to be made, to which all others had been child's play. English vessels running in had increased the supplies, and the garrison now numbered seven thousand men with ninety-six guns. On the 17th of June, 1782, the French men of war conveyed the new and well equipped forces of the Duke de Crillon, new works were erected, red-hot shot were fired, battering ships were placed in position, every device was resorted to by both besiegers and besieged; at last, on the 13th of September, 1782, the final and most furious assault was made. It failed; on the 16th of October the investing force began to break up, and the siege was only nominal until the 2nd of February, 1783, when news arrived of the preliminaries of peace. On the 12th, Elliott and Crillon met on the "neutral ground;" the war was at end, and Gibraltar was, and has permanently remained, an English possession; hers by conquest, by energy of defence, by treaty, and therefore apparently not to be gain-said by Spain or any other power.—Henry Coppee, *in the Philadelphia American.*

As a cure for all diseases of the Lungs, DOWNS' ELIXIR has no equal.

A Kidnapped Girl Finds Her Relations After Twenty-seven Years.

Twenty-seven years ago a little girl 10 years old, named Elizabeth Alexander, living with her parents in Humphreys County, Tenn., was sent to a neighbor's house to borrow meal. She found the family of the neighbor absent from home, and started to return, when she was met by a man named Rance Peppers riding a horse. Peppers told the child to get up behind him and go to the next house and get the meal. The girl allowed herself to be placed behind Peppers, and, instead of taking her to the next house, he rode through the woods out of the settlement and kept travelling until they reached Hornersville, in Dunklin County, Mo. Peppers died some time afterward and gave the girl to Nelson Mills, who brought her to the lower end of New Madrid County about twenty five years ago. She was raised by Mills, and when a young woman was married to Jefferson Coonrod, a farmer in that neighborhood. She is now the mother of three children. Last year a man named Mitchell came, to Portageville from Tennessee, got acquainted with Mrs. Coonrod, and happening to mention Humphreys County, she asked him if he knew Bob Alexander, and then told him the story of her being kidnapped by Peppers. Mitchell became interested in the story, and wrote the facts back to Tennessee. It was ascertained that the Alexanders had moved from that county, no one knew where. About a month ago letters came to Mrs. Coonrod from Graves County, Ky., from her brother, sister and nephew, stating that they had heard of her, and as a test of her identity, asked her what her mother's maiden name was. (Her brother signed his W. A. Alexander.) Mrs. Coonrod wrote to her brother, addressing him as William Americus Alexander, stating her mother's name was Patsy Combs. On Sunday Mr. W. A. Alexander and Mrs. Jennie Jones, the brother and sister, and young Alexander, a nephew, arrived at Portageville from Wingo Station, Graves County, Ky., and were soon in the arms of their long-lost relative. This is a very romantic story, but it is absolutely true.—*New Madrid, Mo., Record.*

"It came to me like oil upon the troubled waters," said the Rev. Thaddeus David, Carr street, Cincinnati, Ohio, in speaking of his experience with St. Jacobs Oil, "I was cured by the Great German Remedy of a case of rheumatism, of years' standing, in less than two months' time. I will always bless the day I found it."

BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, blotches, pimples and the various humors and blemishes of the skin are only symptomatic of bad blood—that needs purifying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidneys, skin, etc, and strengthening while it regulates and purifies.

Rest and Comfort to the Suffering

"Brown's Household Panacea" has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful." "Brown's Household Panacea," being acknowledged as great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle. 234ly

Take no more nauseous purgatives. Burdock Blood Bitters act mildly, pleasantly and thoroughly upon the Bowels, and occasion no inconvenience, while it regulates the Liver and Kidneys and tones the enfeebled system. Trial bottles 10 cents.

At the approach of spring great attention should be given to purify the system engorged with foul humors during the winter. Burdock Blood Bitters is Nature's own purifying and regulating tonic.

Rheumatism is greatly dependent on a vitiated condition of the fluids, and may be eliminated from the system by cleansing the Blood and regulating the Kidneys. Burdock Blood Bitters will do this most effectually. Trial bottles 10 cents.

Mothers! Mothers!! Mothers!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle. 264ly

RACKED BY INNUMERABLE PANGS, restless by day, sleepless at night, rising unrefreshed in the morning, without appetite and pestered by varying and perplexing symptoms, the dyspeptic takes indeed a gloomy view of human existence. For him the zest of life seems gone. Heartburn, oppression at the pit of the stomach, and the attendant annoyances of of constipation and biliousness, combine to render him utterly wretched. But there is, if he will but take advantage of it, a reliable source of reliable relief from all misery. NORTHROP & LYMAN'S VEGETABLE DISCOVERY and DYSPEPTIC CURE is, as its name imports, a botanic preparation, free from mineral poison, and an all-sufficient remedy for indigestion in its most obstinate form. It not only enriches the blood by enabling the digestive organs to convert the food received into nutriment, but depurates it by increasing the action of the bowels and kidneys, the natural outlets for its impurities. But while it relaxes the bowels, it never does so violently and with pain, like a drastic cathartic. It aids, but never forces, Nature, invigorating as well as purifying and regulating the system. It thoroughly removes those diseased humors which tend to vitiate the blood, purifies the urinary secretion, and promotes a flow of healthy bile into the natural channel, besides expelling it from the circulation. Experience has proved that this standard medicine is a thorough remedy for dyspepsia, biliousness, costiveness, kidney complaints, scrofula, erysipelas, salt rheum, lumbago and all impurities of the blood. Price $1.00. Sample Bottle 10 cents. Ask for NORTHROP & LYMAN'S Vegetable Discovery and Dyspeptic Cure. The wrapper bears a *fac-simile* of their signature. Sold by all medicine dealers

CINGALESE. A name well known in connection with the HAIR RENEWER, which restores grey hair to its natural color by a few weeks use. Sold at 50 cents per bottle by all Druggists.

Samson lost his strength with his hair. Thousands of men and women lose their beauty with theirs, and very large numbers restore the ravages of time by using the famous Cingalese Hair Restorer. Sold at 50 cents per bottle by all Druggists.

The most wonderful curative remedies of the present day, are those that come from Germany, or at least originate there. The most recent preparation placed upon the market in this country, is the GREAT GERMAN INVIGORATOR, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangements of the nervous system. For sale by druggists, or sent free by mail, on receipt of the price, $1.00 per box, or six boxes for $5.00. Address James Clark & Co., Sole agent for Belleville. Send for circular.

AFTER many years of patient investigation DR. VAN BUREN, of Germany, finally succeeded in perfecting a Kidney Cure that would permanently relieve all cases of Kidney Disease. Be sure and ask your Druggist for DR. VAN BUREN'S KIDNEY CURE.

EXCHA[illegible] a case of Dyspepsia or Billousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys.

Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

Daily Intelligencer.

BELLEVILLE, TUESDAY, SEPT. 19.

The Vacant Constituencies.

The vacant constituencies, in which elections will be held on October 18th, are eight in number. Their names and party complexion, up to June last, in the Legislature are as under :

Conservatives.	Grits.
Essex, S.	Bruce, E.
Hastings, W.	Muskoka.
Glengarry.	Renfrew, N.
	Simcoe, E.
	Waterloo, S.

Already the Grits have lost Nort Renfrew, which will be represented during the next session by an independent Conservative, to whose return they agreed, fearful of the result of a contest. It is quite probable that one, if not two, more of the constituencies vacated by Grits, will be redeemed by the Opposition.

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists.

The Cost of Living.

The *Globe* having published some figures showing that the price of farmers' produce has declined, and having attributed the decline to the N. P., the *World* turns the tables on the Grit organ in the following neat style : "Accepting the correctness of these figures, we may say that the *Globe* has established a fact of great importance. But we must invite our contemporary to look at the logic as well as the facts of the case. If we are now to have a time of cheap living, what becomes of a certain argument against the national policy which has been extensively made use of ? The N. P. was making the cost of living high, it was contended, a special injury to the working man. Our contention was that the high prices of meat and provisions, which was by all odds the principal element in the greatest cost of living, were due to causes of an accidental or temporary character only, and when these had ceased to operate the phenomenon to which they gave rise would pass away too. It was impossible, we held, that Chicago prices should long remain at a level so much out of proportion with New York and Liverpool prices as that which they have averaged for the last fifteen months or so. But opponents of the N. P. took it for granted that the accident of a year was something that had come to stay with us, and held the N. P. responsible for it. Their arguments on this head will not appear of much value now, and we have to thank the *Globe* for its services in showing so clearly what a change it is that is now going on. The facts of the case being now beyond a dispute, let the public draw their own inferences."

Catarrh of the Bladder.

STINGING irritation, inflammation, all Kidney and Urinary Complaints, cured by "Buchupaiba." $1.

The Picton Mail Service.

The Grit press have been raising a great outcry concerning the change recently made in the Picton mail service, and as a matter of course attributed unworthy motives to the Government and alleged that they had sacrificed the public convenience, in order to gratify political spite. The following explanation, given by the *Mail*, will show how untruthful all the charges were :—"It is the duty of the Post-Office Department to expedite the delivery of letters. In the performance of its duty in this respect, and with the intention of supplying the people of Picton with their mails in the most rapid manner, the department has been compelled to discontinue the sending of the mail bags by the Prince Edward county railway and to find a new route for them, partly by the Bay of Quinte railway, and partly by waggon on the public road. Under the old arrangements with the Prince Edward county railroad, the service was not performed with anything like regularity. The entire passenger rolling stock of the road consists of but one locomotive and a few cars, which constitute the one regular train, running backwards and forwards, between Trenton and Picton. The train is no doubt a comfortable one ; but there is just a little difficulty about it, and that is that whenever the Grand Trunk mail train is a few minutes late in reaching Trenton the mails for Picton miss connection, as the Prince Edward County Railway Company's rolling stock does not wait for them. The reason given by the manager for this is that if he waits for the mails the rolling stock cannot get back from Picton in time to put its passengers on the afternoon Grand Trunk trains. Since January 1st the mails for Picton have missed in consequence, on an average, three times a week. The wisdom of the new arrangement will be at once admitted by business men when it is stated that whereas three times a week, under the old arrangement, letters leaving Toronto at 7 p.m., and Montreal at 10 p. m., did not reach Picton until 3 p.m. the following afternoon, letters leaving the same places at the same time are, under the new arrangement, delivered regularly at Picton at nine o'clock in the morning, or six hours earlier. The recipient of the letter at Picton has therefore, under the new arrangement, plenty of time to reply to his letters on the day of their arrival. By the old arrangement the letters did not arrive until it was too late to reply the same day. Nor is the change an expensive one. By it the cost of sending the mails is reduced $1,000 a year. To sum up : by the change Picton will receive three mails instead of two per day, the mails will arrive regularly and the cost of conveying them will be reduced. It has been alleged that the change was simply made for the purpose of depriving Mr. G. W. McMullen, of Pacific Scandal notoriety, who is now one of the owners of the P. E. C. road, of the profits of carrying the mails. When it is stated that the accusation was originated by the organ of Mr. Blake in this city, it will be seen that it is not true."

Don't die in the House.

"Rough on Rats" Clears out rats, mice, roaches bed-bugs, flies, ants, moles, chipmunks, gophers. 15.

THE LOST "ASIA."

The Law Defied by her Owners.

The Government Taking Action.

The following information has been obtained from Messrs. Risley and Meneally, of the Steamboat Inspection Office : She belongs, or did belong, to the Great Northern Transit Company, and was originally inspected by Mr. Risley, pronounced seaworthy, and chartered to ply between Windsor and Duluth, but was not authorized, on account of her space and equipments, to carry more than forty passengers or to sail on the Georgian Bay. On the 24th of July last Mr. Beatty, of Thorold, general manager of the company, applied to Mr. Risley for such an amendment to the charter as would empower the *Asia* to carry 150 passengers, while the company to which the *Asia* was leased requested about the same time that the *Asia* should be permitted to carry 400 passengers. Mr. Risley, according to the revised Marine and Fisheries Act, is empowered to grant authority to steamboat owners to sail on a different route from that described in their charter, but not to give authority to carry more passengers than the charter allowed, and he therefore wrote in reply that if the company added a 17 feet yawl, 130 life preservers and had a fire engine placed amidships he would forward their application to the Minister of Marine and Fisheries, though certainly not for more than 150 passengers. It is just possible, therefore, that the company took it for granted their application would be entertained and acted accordingly which action was of course illegal, always supposing the report that about 100 people perished is found to have been correct. In fact the department has telegraphed Mr. Risley to employ a lawyer at once, who would initiate proceedings against the Great Northern Transit Company. So particular is the law on this passenger question that the charter of the vessel is required to be posted in the most conspicuous place on board, so that he who sails may read ; but we need hardly say this is not always done or that even the best regulated steamboats do not scruple in taking more passengers than the law allows. When the company applied for the amendment they forwarded their charter to Mr. Risley ; so that when the ill-fated vessel went down she had none posted in a prominent or other part of her, which was a gross contravention of the law.

If Nearly Dead

after taking some highly puffed up stuff, with loud testimonials, turn to Hop Bitters and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes, or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters ; besides, it is the best family medicine on earth.

Another Vessel Lost.

COLLINGWOOD, Sept. 19.—On Thursday, the day of the great storm, a sailing vessel, the *Morin*, passed down from the Isle of Cove to Midland City, and when opposite Cabot's Head was signalled by a two-masted schooner which showed a flag of distress. The *Morin* at once put about, and the sailors went to work to trim her sails, but when she straightened out the stranger had disappeared. She sailed down to where the schooner was seen, but nothing could be found but a few pieces of timber and other wreckage. It was but the work of a moment, which goes to show the severity of the gale, which old mariners here consider the heaviest which has taken place on the lake for some years.

As near as can be learnt, eighty-five passengers went on board at Collingwood, twelve at Owen Sound, and the crew consisted of about twenty-five all told. There should be no guess work about this, as the number who went on board at Collingwood must be accurately known at the company's office. The *Asia*, by recent printed reports, was only allowed to carry forty passengers. At what point public opinion in Canada will compel steamboat owners to observe the law, or steamboat inspectors to enforce it, is an open question.

A passenger who left the *Asia* at Owen Sound, says they had a very rough passage thither from Collingwood. He adds :—I may say, however, before I got back to the boat the inspector at Owen Sound and the captain came along, and I noticed that the inspector examined the boat in different places while the captain stood in the gangway. Bowes on approaching the boat saw the inspector come up to the captain, and in a gruff angry voice say, 'What about this boat ?' The captain answered, 'I don't know.' 'Well,' replied the inspector in a loud voice, 'I know this about her, she won't go out of here to night ; if she does SHE WON'T REACH FRENCH RIVER.'

The captain then said, 'You toll her, and I'll risk her,' to which the inspector replied, 'Well, I'll toll her, and you risk her, but she'll never get to French River, as she is strained.'

WAUBAUSHENE, Sep. 19.—The steamer *Wiarton Belle* arrived from Byng Inlet at 8:30 this evening, and reports the finding of the body of Robt. Sparks, P. L. S., of Ottawa. The body had on a life-preserver, and was picked up by some fishermen about five miles from Byng Inlet lighthouse, and was taken to Byng Inlet. The body is supposed to be that of one of the passengers by the ill-fated steamer *Asia*. There was also found by the fishermen off Byng Inlet a yawl with no name on, supposed to belong to some sailing vessel.

O. Bortle, of Manchester, Ontario Co., N. Y. writes :—"I obtained immediate relief from the use of *Dr. Thomas' Eclectric Oil*. I have had Asthma for eleven years. Have been obliged to sit up all night for ten or twelve nights in succession. I can now sleep soundly all night on a feather bed, which I had not been able to do previous to using the Oil."

Sure, safe and effectual, that old remedy, DOWNS' ELIXIR, for the cure of Coughs and Colds.

News Condensed.

—Twenty-seven new cases of yellow fever at Pensacola, Fla., and one death.

—In the cricket match, Canada vs. the United States, the latter won by eight wickets.

—According to the popular proverb fall began in earnest with the advent of the new moon.

—The Massachusetts Democratic State convention has nominated General Butler for the Governorship.

—There were twelve deaths from cholera at Mander on Friday and Saturday, and 346 in the vicinity.

—Two negresses fought at the side of a well in North Carolina a few days ago, fell in, and were drowned.

—The Montreal Exhibition was opened by Lieut. Governor Robitaille with the usual ceremonies on the 19th.

—Halifax, N.S., garrison will be reduced to one regiment of the line, three batteries of artillery, and a company of engineers.

—Lord Dillon has served one thousand ejectment decrees upon tenants of his Irish estate who have not paid rent since 1870.

—The best man on the "American" team at Creedmoor was an Englishman named Smith. So says the New York *Telegram*.

—Alonzo Cash, aged 48, fatally shot his wife Minnie, aged 17, near Dormansville, New York on the 18th, and then killed himself.

—Several suspects confined in Irish gaols have been released recently, and all who cannot be speedily brought to trial will be set free shortly.

—Rev. A. J. Bray, of Montreal, has floated a Colonization Society for the Northwest on the London market with a nominal capital of £1,000,000 sterling.

—During the first half of the present year, the receipts of the Russian Government increased 1,950,000 roubles ; expenditure increased 23,000,000.

—The Danish Polar Expedition is bound on the coast of Nova Zembla. The members of the expedition have suffered extreme hardships, but no deaths have occurred.

—Mrs. Scott Siddons has again retired from the stage, her last theatrical venture, in London, having been a failure. It is said she will again devote herself to dramatic readings.

—Sir G. Macpherson Grant, of Ballindalloch, M. P., has refused an offer from Lord Dunmore of 1,000 guineas for his famous polled bull Justice, which was wanted for Lord Dunmore's American property.

—Leslie Corke, a clerk in the Toronto post-office, was arrested on Monday for robbing the mails. He has confessed to the theft of a large number of letters containing money and a number of marked bills were found upon him.

—Four hundred employes of the Steinway piano works, Hunter's Point, L. I., struck on the 18th on account of the unpopularity of the superintendent. It is said that if the latter is not discharged 1,000 employes in New York will also strike.

—It is said that Sir Albert Smith's object in protesting the Westmoreland election is to discover what became of his own money, which will be shown in court for the edification of the public, and it is to be hoped to the satisfaction of Sir Albert.

*The term *hydra* may be used to represent any manifold evil. If you would battle successfully with this many-headed monster of disease you will find it expedient to keep Mrs. Pinkham's Vegetable Compound always at hand.—*Dr. Banning.*

—Mr. Gladstone will meet his Scotch constituents early in Octcber and make one speech, which will be delivered in Edinburgh. He and Mrs. Gladstone will be the guests of Lord and Lady Rosebery at Delmany during their visit to Midlothian.

—The Porte has offered to abandon several of the disputed points on the Greek frontier and an amicable settlement of the difficulties with Greece is probable. Sheikh Obeidullah has surrendered to the Turkish authorities and has been exiled to Medina.

—Some English farmers are now travelling through Ontario with a view to gaining information as to the prospects for settlers, which they will convey to those whom they represent at home. Their railway fares are defrayed by the Government.

—During a performance by Orton's circus at Mount Airy, North Carolina, on the 18th, the seats fell with 1,500 people. Over fifty persons were seriously injured. Four ladies who were among the victims of the disasters, are in a critical condition. Many men, women and children had their legs and arms broken.

—The Ontario Fruit Growers' Association held their annual meeting at Kingston on Tuesday. The opening address of Mr. P. C. Dempsey, the President contained a large fund of interesting information, in relation to horticulture. Mr. Wm. Saunders, of London, was unanimously elected President for the ensuing year.

*** "Do boldly what you do at all." Boldly do we affirm that Kidney-Wort is *the* great remedy for liver, bowels and Kidney diseases, rheumatism and piles vanish before it. The tonic effect of Kidney-Wort is produced by its cleansing and purifying action on the blood. Where there is a gravelly deposit in the urine, or milky, ropy urine from disordered kidneys, it always cures.

—The reappearance of Saturn and Jupiter among the evening stars of September is a forcible reminder of the approach of fall, and recalls pleasantly the clear, frosty nights of last winter, when they shone so brilliantly in the west. Since then they both approached the sun, have passed their conjunction, and now, on their reappearance, we find them in the east, ready to replace there the glory of the departing Venus.

—Two little daughters of T. McKenna, a carpenter residing at Wyoming, were drowned on the 18th in Bear creek, at Woodley's mills. They were driving a horse and buggy to Petrolia, accompanied by a boy, who foolishly drove the horse into a deep place in the creek, intending to give him a drink. The horse went in headlong, dragging the buggy, in which was seated the children, down into deep water, where they were both drowned. The boy escaped by jumping out.

—Geo. Murphy and Frank Rooney, the former held to await trial for burglary and the latter to answer a charge of larceny, escaped from the custody of the sheriff's officers at Toronto on Monday. They were in a cell attached to the court house and with an iron spoon they forced the padlock of the door, and dashing past two of the sheriff's men, gained the street. Strange to say, the turnkeys were within two yards of the cell door while the padlock was being forced. The sheriff has offered a reward of $100 for their capture.

Daily Intelligencer.

BELLEVILLE, TUESDAY, SEPT. 19.

City and Vicinity

CAPT. E HARRISON returned to Ottawa last night.

ANOTHER clean slate at the police station this morning.

THE general dulness pervades the police circles. There was no business at the Police Court this morning.

MR. R. F. BENJAMIN, formerly of Belleville, now of Ottawa, is in the city on his way to Chicago to visit his brother.

MESSRS. H. Pretty and C. Hall did some good shooting yesterday on the bay—killing 26 ducks, 22 of which they captured.

OPEN air service to-morrow at 7:15, D.V. corner of Church and Dundas Sts., in the vicinity of the new City Mission School Room.

THE heavy rains of yesterday and the day before have spoiled a good deal of prospective hunting on the part of our local Nimrods.

THE North Hastings agricultural fair and cattle show is to be held at Garner's, in Huntingdon, on Tuesday, October 10th, commencing at 10 a. m.

THE annual rifle matches of the 49th Battalion will take place on Saturday. The date of the Hastings Association matches has not yet been settled upon.

MR W. H. PONTON, Registrar, has been appointed Returning Officer in the forthcoming Provincial election in West Hastings. He has received the writ.

THE boys who raided Mr. J. A. Phippen's melon patch last Saturday night are invited to come back and take the balance. It's the last chance they will have, as Mr. Phippen says he will raise no more melons.

THE joint show of the West Hastings Agricultural Society and the Belleville Horticultural Society will open one week from to-day. We hope to see an improvement on the exhibitions of the past few years.

SOME complaints are heard about the absence of street crossings on Front St. Two or three old crossing which were taken up have not been replaced. In the present muddy condition of the street their absence is felt.

A MEETING of the provisional directors of the Belleville Car Works Company will be held some evening next week, when steps will be taken to procure a charter. The project is not dead—only in a sort of comatose condition.

ONE or two private citizens living on Taylor's Hill have been trimming the shade trees in front of their residences, but no movement has yet been made towards having the trees trimmed on a large scale though this is growing more and more necessary.

J. O. REYNOLDS takes pleasure in announcing to the ladies of Belleville and vicinity that he has been appointed sole agent in Belleville for the sale of Butterick's Patterns, lately held by Mr McCormock. A fine stock including October, will be opened in about a week.

COMPLAINT is made to us that the owner of a couple of cows lets them loose on Taylor's Hill at night to graze. One is a black, white-faced cow. A reward will be paid to any one that will give the owner's name, as they did damage last night, for which he will be held responsible.

THE Cricket Club will certainly send an eleven to Napanee on Friday, though it is almost equally as certain that it will be impossible to send a team which will worthily represent the club.

THE arrangements which have been going on for some time for making the Oddfellows' Band the band of the 15th Battalion have now been completed, and the Oddfellows' Band will hereafter be known as the Consolidated Military and Oddfellows' Band. The members have already taken possession of the greater part of the uniforms and instruments belonging to the old 15th Batt. Band. The Band will, however, be provided with two new uniforms before long—one for military use, and one for ordinary occasions.

WEATHER PROBABILITIES—Toronto, Sep. 20.—Lakes, and Upper St. Lawrence moderate to fresh northwesterly to northerly winds, cloudy to fair cooler weather, with a few local showers.

HARVEST DINNER AT SHANNONVILLE.—Yesterday a Harvest Dinner was given by the Presbyterians at Shannonville in aid of the building fund of the new church. The building is being roofed and will soon be ready for occupation. The dinner was served in the new building, tables being extemporised for about 400 guests. There was a goodly number at the second service, which shows how successful the social gathering proved. The ladies deserve the highest credit both for the matter and the manner of the spread. After dinner the guests met in the Orange Hall, which was filled to overflowing. The Rev. D. Mitchell, who is Moderator of the session of the Melrose, Lonsdale and Shannonville charge, was called to the chair, and the meeting after being opened with devotional exercises was addressed by Rev. Messrs. Andrews and Ash, of the Methodist Churches at Shannonville, by Mr. Young, student missionary at Melrose and Shannonville, and by Mr. Henderson, student. The chairman, being pressed to give one of his popular lectures, addressed the meeting on "How to get on in the World." The choir, with Mr. Young, Missionary, as leader, gave a number of beautiful anthems. After votes of thanks, the friends separated about 5 o'clock, all well pleased with the entertainment.

A SPIRITUALIST ON SLADE.—We have been shown a copy of the *Religio Philosophical Journal*, of Chicago, which contains a long letter from a prominent American Spiritualist, Mr. Bronson Murray, on the subject of Slade's exposure in Belleville. The letter is not only well written, but is just and candid in its tone, though the writer is plainly prejudiced in favor of spiritualism, and is writing on the assumption that Slade's manifestations are genuine, though he gives the INTELLIGENCER and the gentlemen who were instrumental in causing Slade's exposure, credit for holding honest opinions on the subject. The letter is chiefly valuable as showing the ferment which the Belleville exposure has caused in the minds of honest American spiritualists. Mr. Murray concludes as follows:—"I have said Mr. Slade's confession was not to be justly held against him as conclusive, being in the nature of a duress and threat production. *Prima facie*, it is against him. He has the opportunity now to relieve himself of it, and it is duty to do so. He is in his own country, not subject to unjust arrest. Let him meet these Canadians or their representative in Detroit or Buffalo, as they shall elect, and give evidence with his feet, legs, arms and hands all in plain sight, that they form no part of the explanation for the observed phenomena; or else, if they do form a part, let him acknowledge the fact and then demonstrate that spirits, and not himself, are the controllers of his limbs. Should Mr. Slade fail to offer this or some similar opportunity for proof to the Canadians, the cause of spiritualism as well as the reputation of Mr. Slade will very properly suffer from his confession in Canada. It is not sufficient to say, as he has, that the sleight of hand used by him was so slight that the Canadians could not discover it; nor that he was made drunk by some of them and is not responsible for his acts, as the INTELLIGENCER says he told the cabman who took him to the depot. Neither will a sheer denial of all the allegations be sufficient in the judgment of impartial men (who may even be friendly to him), since the testimony of the many parties named by the INTELLIGENCER, and who, on the face of it, are to be accepted as respectable, must properly outweigh Mr. Slade's unsupported denial."

BEFORE purchasing Ready made Clothing be sure and look through HENNESSY'S stock. He has over 300 suits in all, and is offering them at actual cost.

Burrell's Axe Factory.

AN AXE A MINUTE.

Thirty years since the late Mr. Burrell began the manufacture of axes in Belleville, making then some eight axes per day, which were hammered out in the old fashioned manner; and this was the germ from which the present extensive manufactury originated.

A good article, the axes then manufactured won for themselves a name, so that throughout the length and breadth of the land a "Burrell axe" was the guarantee of a good axe. The industry grew steadily, until, at the present time it is the largest manufactury of the kind in Canada. It is only during the last few years that the industry has advanced with rapid strides, the output having more than doubled since 1880.

The manufactory is well worth a visit. From the office to the building in the rear, men are busily engaged in labelling and packing away the finished axes in boxes that are made on the premises. To the right is the tempering room, where is performed the most delicate process in the manufacture. Further on is the workshop, where ponderous machinery and great hammers mould the heated iron and steel into shape. Adjoining is located the grinding room, where large grind stones are constantly shaping the rough axes, when they pass to the finishing room, where half a dozen emery wheels are kept busy polishing and finishing the axes.

Throughout the establishment between seventy and eighty hands are employed, whose weekly wages amount to about $700, and new machinery is being added, so that the present output of 700 axes per day, or more than an axe a minute, will shortly be greatly increased. This increase is made imperative by the demand, the proprietor having six months orders ahead. The increase, he says, is due very much to the demand in the North-west, which the present Government has retained for Canada by a protective policy, or otherwise this demand would have been supplied from the Western States. Yet, still croakers say, "Away with the National Policy!" in the face of the stubborn fact that that policy has retained the manufacturing trade of the North west for Canada, and, as the proprietor informs us, no increase has been made in the price of axes.

Throughout the establishment the faces of many old hands are seen, some of whom worked with Mr. Burrell when he began business, the foreman, Archie Rawley, being one of the oldest hands in the establishment. During the past year a new eighty-five horse power engine has been added, which gives ample power.

It is the intention of the proprietor to keep up to the times, and he confidently expects within the next six months to be manufacturing 1,200 axes daily, or an average of two axes per minute.

☞ The Diamond Dyes always do more than they claim to do. Color over that old dress. It will look like new. Only 10 cents

The War in Egypt

ABDALLAH PASHA READY TO SURRENDER.

ALEXANDRIA, Sep. 19.—Abdallah Pasha telegraphs from Damietta that he never intended to disobey the orders of the Khedive, and has intimated his readiness to surrender.

The Vice-Regal Party.

THEIR ARRIVAL IN VICTORIA—GRAND RECEPTION.

VICTORIA, B. C., Sept. 20.—The war ship *Comus*, with the Marquis of Lorne and Princess Louise, arrived last night. The party landed to-day. The road from Esquimault to Victoria, three miles long, is spanned by numerous arches and hanging garlands. Ten thousand strangers are in town.

Oddfellowship.

SESSION OF THE SOVEREIGN GRAND LODGE AT BALTIMORE.

BALTIMORE, Sep. 18.—The Sovereign Grand Lodge, I. O. O. F. began its annual session to-day. 27 Grand Lodges and 26 Grand Encampments were represented. The progress of the Order in the past year is reported highly gratifying. The Lodge membership is 476,000, an increase of 19,000: Encampment members 81,000, an increase of 1,100. Total relief, $1,831,000; total revenue, $4,855,000.

Belleville Cheese Market.

BELLEVILLE, Sept. 20, 1882.

The same dulness as recorded last week still pervades the cheese market, the views of buyers and sellers being still too far apart for trade.

At Ingersoll yesterday there was nothing doing and the only transaction we hear of in this neighborhood is a sale west of here at 10⅝c. August, 11⅛c. Sep. and 11⅛c. balance of season. Choice factories could contract at 11c. for August and 11½c, balance of season, but we have not heard of any factories in this neighborhood accepting the situation. Cable 58s. against 61s. last year and 63s. the year previous

The Late Cheese Markets.

The past week has been one of considerable doubt and uncertainty in the cheese market, New York not having properly responded to the prices paid in the country. Matters dragged along, however, about as they had been until the last of the week, when colored stock dropped to 11¼c. for high, with 11c. the more general price for even the best quality. Shippers have been standing off waiting orders from the other side, but orders do not seem to arrive with the freedom and regularity customary at this season of the year. The shipments from New York for the week ending September 14, amounted to 1,795,748 lbs., while for the same week the Montreal shipments were 1,139,220 lbs., the latter equaling fully three-quarters of the New York shipments. This bears out the claim made by us last week, that the amount of Canadian exports this year is decreasing the demand at New York. In addition to this there is the fact that England also is making more cheese than usual, and that the makers, instead of holding it back as in former seasons, are putting it on the market and disposing of it. The probability is that their stock is made to cure earlier than usual, and it thus comes into competition with our own make. Altogether the prospect is not so brilliant for American cheese as could be wished, although it hardly seems as if there ought to be any material decline. Next week will see the early September make in market, and such stock ought to bring as good prices as any of the season.—*Utica Herald.*

UTICA, N. Y., Sept. 18, 1882.

The cheese of this region is not sold off as closely as usual at this time of year. To-day's sales on the board, in many instances will only bring the factories down to Aug. 24, and scarcely a factory has as yet sold down to Sept. 1. But the last half of August cheese is claimed to be as fine as any of the Sept. make, and that never was finer than it is this year. Moreover it is scarce, and that is probably the secret of to-day's unexpected prices. The make is 40 per cent off from the flush, and from 15 to 20 per cent less than last year at this time. Factorymen, therefore, care little whether they sell now or not, as they confidently look for better prices in a short time. They feel in a measure independent of the export trade, as their belief is that the fall make can nearly all be used for home consumption.

Transactions for the day are as follows: 93 boxes at 10⅝c.; 5 lots, 449 boxes, at 10⅞c.; 50 lots, 4,245 boxes, at 11c.; 9 lots, 843 boxes, at 11⅛c; 5 lots, 506 boxes of small cheese, at 11⅛c.; and 75 at p. t. Sales—6,211 boxes; commissions, 1,714 boxes; total, 7,925 boxes. Ruling price, 11c. Transactions of corresponding day last year, 8,975 boxes, the ruling price being 13c. Two years ago prices were 12 to 12½c., and three years ago 9½ to 11⅛c.

LITTLE FALLS, Sept. 18.

CHEESE.—The market to-day was not as brisk as last week, in fact, matters dragged for a time. Buyers contended that last week's prices were too high, and that the situation of the trade did not warrant them in paying over 11c; accordingly this was struck as the "top price" and little, if any exceeded this rate. Sales were not as free as last week.

Excellent reasons exist why *Dr. Thomas Eclectric Oil* should be used by persons, troubled with affections of the throat or lungs, sores upon the skin, rheumatic pains, corns, bunions, or external injuries. The reasons are, that it is speedy, pure and unobjectionable, whether taken internally or applied outwardly.

"READING NOTICE."

"Twenty-four years' experience," says an eminent Physician, convinces me that the only cure for "Nervous Exhaustion" and weakness of the generative organs is to repair the waste by giving Brain and Nerve Foods, and of all the remedies I have used Mack's Magnetic Medicine is the best. This remedy is now sold by all our Druggists at 50 cts. per box, or 6 for $2 50, and on receipt of an order for 12 boxes, accompanied with $5.00, addressed to Mack's Magnetic Medicine Co., Windsor, Ont., they will forward the goods free, by mail, and send their "written guarantee" to refund the money, if the treatment does not effect a cure. See adv't in another column. Sold in Belleville by Jas. Clark & Co.

Dr. E. C West's Nerve and Brain Treatment is a never failing cure for Nervous Neuralgia, Nervous Headache, Overworked Brain, &c. Sold at James Clarke & Co's.

Hall's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c For sale by Jas. Clarke & Co., Belleville, Ont.

COUGHS AND COLDS.—If taken in time are easily cured,—if allowed to continue will result in incurable consumption. Allen's Lung Balsam has the confidence and support of the medical faculty, and is recommended by all who are acquainted with its virtues.

A New Principle.

The principle upon which PUTNAM' PAINLESS CORN EXTRACTOR acts is entirely new. It does not sink deep into the flesh, thereby producing soreness, but acts directly upon the external covering of the corn, separates it from the under layer, removes the direct pressure from the part, and at once effects a radical cure, without any pain or discomfort. Let those who are suffering from corns, yet skeptical of treatment, try it, and by the completeness of the cure they will be ready to recommend Putnam's Painless Corn Extractor to others. Sold by W. R. Carmichael.

SMITH MEDICINE Co.

GENTLEMEN,—I have made a trial of one box of Dr. Smith's Great German Worm Remedy, with such good effect that I have no hesitation in recommending it to the public as a prompt and reliable medicine. In fact, those who use it once will always do so. Yours truly,

J. Harvie, 172 Cadieux street.

Montreal, December 9th, 1881.

LATEST FROM THE SEAT OF WAR.

THANKING THE TROOPS.

OVERAWING THE ARABS.

ABDALLAH PACHA SHOT.

CAIRO, Sept. 20.—Gen. Wolseley's order, commending the conduct of the troops in the recent campaign, to be read at the head of every British reigment on three successive parades.

LONDON, Sep. 20.—A Cairo despatch says: In consequence of disorders in the Arab quarters Gen. Wolseley threatened in event of their renewal to open fire from the Citadel. There is not much credence attached to the despatch.

CAIRO, Sep. 20.—Abdallah Pacha, commander of Damietta, has been shot by his own soldiers

MORNING DESPATCHES.

EUROPEAN.

ARREST OF AN EXPLOSIVE MANUFACTURER.

VIENNA, Sep. 20.—Overdank, arrested recently while manufacturing bombs, declares the explosives were intended as a greeting of the youths of Italy to the Austrian Imperialists. The accomplice of Overdank has been arrested at Comen.

EMPEROR OF RUSSIA GONE TO MOSCOW.

ST. PETERSBURG, Sep. 20.—The Emperor and Empress, and Grand Dukes Alexis, Sergius and Paul started for Moscow last night. The order for stringent police control in St. Petersburg and Moscow has been prolonged one year.

AMERICAN.

MOVEMENTS OF THE MORMONS.

NEW YORK, Sep. 20.—22 Mormon missionaries sailed for Europe yesterday in search of converts. One of them was robbed of $140 by an unknown thief. A larger party of missionaries are getting ready to leave Utah for Europe next month.

A LIQUOR WAR.

OYSTER BAY, Sep. 20.—The people here are much excited by the warfare carried on by the law and order association against the local liquor dealers. The purpose of the association is to prevent saloon keepers from selling liquor on Sunday or to minors. Several saloon keepers have been convicted. The life of the Rev. Wm. Gray, Baptist, has been threatened because of his interest in the cause of temperance.

NEW YORK NOTES.

NEW YORK, Sept. 20.—Arrived, *Frisia*, from Hamburg.

Edwin Arnold, a petroleum broker, has suspended with liabilities amounting to $60,000.

THE STATE CONVENTIONS.

The *Sun's* Saratoga special says:—At midnight the Folger men who had been in consultation claimed that they had made sufficient inroads on the Cornell forces to secure Folger's nomination beyond a doubt. Cornell's own figures give him 226 on the first ballot. His friends do not claim more than 210.

The *Sun's* Syracuse special says that owing to the demand for lodgings during the Democratic State Convention, the hotels and boarding-houses have advanced the rates one hundred per cent., and find no difficulty in getting their prices. There is a good deal of talk among a few delegates and politicians here as to whether or not Tammany will be admitted to the convention. Flower's friends claim that he will have 160 votes on the first ballot. At midnight it was conceded that no single candidate yet named has the winning lead, and everything depends upon the way in which the New York city difficulty is disposed of.

ABSCONDING SWINDLER ARRESTED.

COLUMBIA, S. C., Sep. 20.—W. A. Maybury, one of the proprietors of the Maybury, Pullman & Hamilton's stranded circus, absconded on Saturday with $20,000 of the company's funds, swindling his partners and leaving a large number of performers and employees penniless. Yesterday he was arrested at Montgomery, Ala.

HOTEL SOLD FOR $200,000.

LONG BEACH, Sep. 20.—The Long Beach Hotel was sold yesterday under foreclosure to the bond holders for $200,000.

$26,000 PAID UNDER PROTEST.

WASHINGTON, Sep. 20.—The Northern Pacific R. R. have paid to the Government under protest $26,000 cost for surveying 744,000 acres of land granted to the road.

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinary or Liver Diseases, as they only relieve for a time and make you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

AFTERNOON DESPATCHES

LIBELLING BISMARCK

BREST, Sep, 20.—A clergyman of some rank has been fined 200 marks for libelling Bismarck in an article on the Chancellor's attitude towards the kultur kampf.

RUSSIA AND MONTENEGRO.

CETTINGE, Sep. 20.—It is announced that offensive and defensive alliance has been concluded between Russia and Montenegro.

Reported Loss of the "Ontario."

The steamer *Ontario*, of the Sarnia line, is reported to have gone down with all on board.

A SIMPLE herb found on the sunny plains of a Southern clime has, under the skillful manipulation of DR. VAN BUREN, proved one of the greatest blessings ever sent to suffering humanity. DR. VAN BUREN'S KIDNEY CURE is acknowledged all the world over as the only perfect remedy for Kidney troubles. Your druggist has it.

One dose of BAXTER'S MANDRAKE BITTERS will relieve Sick Headache. One bottle effects a cure. Price 25c. per bottle.

BAXTER'S MANDRAKE BITTERS never fail to cure Costiveness and regulate the Bowels.

Consumption, that dread destroyer of the human race, is often the result of bad blood and low vitality, a scrofulous condition of the system Burdock Blood Bitters cure Scrofula in its worst form.

Dropsy is essentially a watery condition of the Blood, dependent upon disordered Kidneys. Burdock Blood Bitters are strongly Diuretic and consequently the best known remedy, acting as it does upon the entire Secretory System.

Nervous debility is a result of indiscretion in the mode of living. Heed nature's unerring laws and take Burdock Blood Bitters, the Great System Renovator and Blood, Liver and Kidney regulator and tonic. Sample bottles 10 cents

OSWEGO MARKET.

OSWEGO, N. Y., Sept. 20.—Wheat steady; sales 0,000; white state $1.11 to $0.00, 0,000 red do. $1 10 to $0 00. Corn quiet; sales 0,000, No. 2 Chicago 00; No. 2 western 80; 0,000 rej. 79; Oats quiet; No. 1 state 42. Barley quiet; rye quiet.

Canal freights—Wheat and peas 4½c; corn and rye 4¼; barley 4to New York; barley 3½ to Albany. Lumber, $1.90 to Albany, $2.70 to New York. Lake receipts: barley 6,500; lumber 230,000.

$66 a week in your own town. Terms and $5 outfit free. Address H HALLETT & Co., Portland, Maine.

Commercial.

BELLEVILLE MARKETS.

INTELLIGENCER OFFICE,
Belleville, Sept. 20, 1882.

Grain is moving very slowly this season. Not over 3,000 bushels of barley has been offered as yet, most of which has gone into store.

In Napanee 70,000 bushels of barley has been sold at the price offered here 75c. for No. 1, and 65 to 70c. for No. 2.

A good article of No. 2 sold at 70c yesterday.

Very little of other kinds of grain is offering.

Butter is in fair supply at 26 to 28c., lower prices being taken for baskets. At the close of the market yesterday as low as 20c was taken for some 70 pounds left over.

Eggs are firm at 16 to 18c per doz.

Hides command 8c for inspected, but for lots ½c better would be paid.

Potatoes are plentiful at $1 per bag, and apples are a drug at 50c per bag.

Hay $12 to $14 per ton.

WHEAT—$1.00 to $1.10.
BARLEY—70c. to 75c.
RYE—60c.
OATS—40c.
PEAS—70c. to 75c.
HAMS—12½c.
LAMB—6c to 9c per lb.
BUTTER—Roll 25c to 28c.
EGGS—16c. to 18c. per dozen.
HIDES—Rough $7.00, inspected $8.00.
CALF SKINS—10c per lb.
LAMB SKINS—70c. to 75.
DEAKENS 60c. to 65c.
WOOL—20c.
LARD—11c to 15c.
TALLOW—Rough, 4½c
TALLOW—Rendered, 8c.
POTATOES—$1.00 per bag.
FLOUR—Wholesale, $6.00 per bbl.
FLOUR—Retail, $6.50 to $7.00 per bbl
HAY—$12.00 to $14.00 per ton.
CHICKENS—40c to 75c per pair
GEESE—50c. to 75c. each.
DUCKS—50 to 60c per pair.

TORONTO MARKET.

TORONTO, Sept. 20.—Fall wheat No. 1 $0.00 to 0.00; No. 2, $1.14 to $1 15; No. 3, $1.11 to $1.12. Spring No. 1,—$1.20 to $1.21; No. 2, $1.19 to $0.00; No. 3, $1.13 to $0.00. Barley—No. 1 00 to 00; No. 2, 00 to 00; No. 3 extra, 82 to 83; No. 3, 55 to 56 Peas—No. 1, 00 to 00; 2, 00 to 00 Oats—No. 1, 45 to 46; No. 2, 00 to 00. Corn—00. Wool—00 to 00. Flour—superior, $5.05 to $5.20; extra, $5.00 to $5.10; fancy, $0.00 to $0.00; strong bakers $0.00 to $0.00; spring extra, $0.00 to $0.00; superfine, $0.00 to $0.00; fine, $0.00 to $0.00. Bran $13.00 to $14.00. Clover seed, $0.00 to $0.00. Timothy $0.00 to $0.00. Hogs—$0.00 to $0.00. Butter new 13 to 19. Barley (street) 52? to 80. Rye, 00 to 00c. Spring wheat, $0.00 to $0.00. Fall wheat $0.00 to $0.00. Oatmeal $0.00 to $0.00. Cornmeal $0.00 to $5.60. Pork $00.00 to $00.00.

Market rather better. Flour weak, a lot 500 brls. of superior extra sold at equal to $5.05, but choice worth more. Bran seems rather easy. Wheat very scarce, new No. 2 fall worth $1.04 to $1.05, old No. 3 spring sold at $1.15. Oats scarce and brought 46. Barley stirring a little car of new No. 3 sold at 55, old No. 2 offered at 80. with 70 bid. Peas noml. Rye sold at 65 for October delivery.

MONTREAL MARKET.

MONTREAL, Sep. 20.—Flour, receipts 3,700 brls.; sales none. Market quiet and weak, at unchanged rates. Quotations:—Superiors $5.50 to $5.60; extra $5.30 to $5.35; spring extra $5.30 to $5.35; superfine $4.70 to $4.80; strong bakers, $6.00 to 7.50; fine, $4 00 to $4.25; middlings, $3.75 to $3 85; Pollards, $3.25 to $3.50; Ontario bags $2.40 to $2.75; city do $3.40 to $3.50. for strong bakers.

Grain—Wheat, white winter $1.12 to $1.13; red do $1.28 to $1.30; spring, $1 20 to $1.20. Corn noml. Peas, 97½ to 00. Oats, 37½ to 40. Barley, 60 to 70. Rye, 65 to 66.

Oatmeal $5.65 to $5.75; Cornmeal $4.20 to $4.25.

Provisions—Butter, western, 15 to 18; B. and M. 18 to 20; E. T. 19 to 21. Creamery 22 to 23. Cheese 10½ to 12 Pork $24 00 to $25.00. Lard 15 to 15½. Bacon 14 to 15. Hams 16 to 17.

N. H. DOWNS'

Vegetable Balsamic

ELIXIR!

This valuable medicine is purely vegetable, the discovery of which was the result of many years' close study, in order to discover the cause, the symptoms and the cure—viz.:

Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Influenza, Pleurisy, Hoarseness, Spitting Blood, Bronchitis,

and every species of oppression of the Chest and Lungs. In all cases where this Elixir has been duly administered its efficacy has been invariably manifested, convincing the most incredulous that

CONSUMPTION

is not incurable, if properly attended to.—Consumption at its commencement, is but a slight irritation of the membrane which covers the lungs, then an inflammation, when the cough is more observable, but rather dry; then becomes local fever and the pulse more frequent, the cheeks flushed and chills more common. This Elixir in curing the above complaints, operates so as to remove all morbid irritations and inflammation from the lungs to the surface and finally expel them from the system. It facilitates expectoration.

IT HEALS THE ULCERATED SURFACES

and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. It is free from strong opiate and astringent articles, which are of so drying a nature as to be in great danger of destroying the patient; whereas this medicine never dries or stops the cough, but, by removing the cause, generally destroys the [illegible] [illegible] Price 25cts. and $1 per bottle. [illegible]

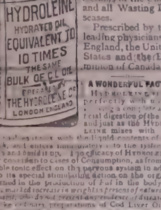
HYDROLEINE



(HYDRATED OIL.)
An artificially digested Cod Liver Oil.

For Consumption, Winter Cough, Affections of the Chest and all Wasting Diseases.

Prescribed by the leading physicians of England, the United States and the Dominion of Canada.

A WONDERFUL FACT.

HYDROLEINE is [illegible] perfectly wh[illegible] being a complete artificial digestion of the oil, and just as the HYDROLEINE mixes with the water, [illegible] with the liquid contents of the stomach, and enters immediately into the system to nourish and build it up. The efficacy of HYDROLEINE is NOT confined to cases of Consumption, as from its valuable tonic effect on the nervous system in addition to its special stimulating action on the organs concerned in the production of Fat in the body, it causes marked increase in weight in persons of naturally thin habit, who do not present any evidence of disease. Unlike ordinary preparations of Cod Liver Oil it produces no unpleasant eructation or sense of nausea, and should be taken in very much smaller doses according to the directions, as will ensure its complete assimilation; this, at the same time, renders its use economical in the highest degree.

For sale by all Druggists.

We have sold the above remedy for several months and find it spoken of very favorably by both the medical profession and the public.

We can safely recommend it to parties needing such a remedy.

Signed,

SHAWN BUIE.

A LEGEND OF KILKEE.

(*From the Dublin University Magazine*)

I scarcely had well seen what was done, ere a shriek from below told the fate of the unfortunate boat, a cry or two for help, and all was silent as the night, while the two men turned to descend the path.

Partly from horror, and partly from fright, I lost the recollection of my situation, and uttered an involuntary groan. So unexpected a sound, in such a place, produced an alarming effect upon my auditors. Whether it was compunction for the deed which had seized the guilty pair, or terror, combined with a sense of guilt, I cannot now pretend to determine; but they stood motionless for upwards of a minute. By lying close to the surface of the ground I succeeded in escaping their sight. They stood for a time utterly confounded. Encouraged by the effect which it produced, and now so far collected as to perceive the danger of my position, I repeated the groan with a more mournful, and at the same time less natural tone.

'Blessed Virgin, save us!' said Shawn's companion, dreadfully alarmed.

'What are yees frightened at!' said the other, evidently as much terrified, but endeavoring to brave it out. 'Are yees a divil or a christian—tell us that!' said he, roaring out, trying with the effort to drown his fears.

I then collected all my energies, and uttered one of the most unearthly and violent shrieks that was ever heard under similar circumstances. The effect was instantaneous; the next moment saw them sliding or rather rolling down the pathway, and allowing me time sufficient to escape in perfect safety.

My first determination was to hasten back, and rouse the village; but, upon second thoughts, it appeared advisable to act more cautiously. I proceeded, therefore, in all haste, to the house of a respectable resident of Kilkee, a gentleman who had lived there for some years, and was well acquainted with the localities, and most of the characters, in the neighbourhood. I roused him out of his bed at twelve o'clock, before which hour I could not reach his house, owing to the darkness of the night, and the caution necessary in finding my way. He listened with great attention; and then for a moment seemed absorbed in thought.

'I will lay my life for it, that the fellow you speak of is Shawn Buie, the celebrated murderer of Catherine Delaney. He has been missing for some years, ever since that occurrence, and I will answer for it that he has returned.'

'I think, sir,' I replied, 'that you are right; for his associate several times repeated the name of Shawn, which I distinctly overheard. What kind of a looking person is he?'

'He is rather a remarkable looking man: badly made, crooked nose, and cursed with a most atrocious expression of countenance.'

'I am sure, then, that he is the person, and that I have seen him.' I then related to him my interview with the stranger on the pathway a short time before.

'He is the very man; and a more villainous ruffian never drew breath. But what was the green leaf he spoke of?'

'Oh, it was a leaf of palm, which my servant put in my hat on the previous Sunday, and I partly forgot, and partly did not care, to remove it.'

'Well, I can tell you, that you had as narrow an escape as most of your friends; for if he suspected that you were likely to have discovered his hiding-place, he would as soon have hurled you from the path, as he did the rock you mention. But we must not lose our time, for he is a crafty devil, and as plentifully stored with resources as a wood fox. Come, we must get some help!'

We then proceeded to the houses of several friends, until we had collected a conclave of eight, and sat down to consider what was best to be done. After some deliberation, we resolved to send to Kilrush for military aid; then to arm ourselves, and with our servants, to hasten to the spot and keep a sharp look out, so as to prevent his escape. It was doubtful, however, that he would not have left the place before we arrived; but we sent instructions to the military to examine every home on their way within three miles of the neighborhood; and to proceed as cautiously, and with as much celerity, as the nature of the circumstances might allow.

It was two o'clock before we reached our destination; we had proceeded very silently, stopping occasionally to observe whether we could distinguish sounds of any kind; several times turning to the edge of the cliff to ascertain if any boats were visible on the sea. The morning's light was just dawning when we arrived; but neither sound nor voice nor footstep was to be heard, or boat to be seen, or human figure on the cliffs; all was as still as death, except when the whispers of our own voices disturbed the morning calm. For a moment it was thought that a figure of woman was seen darting under one of the cliffs; near the Puffing-hole; but so rapid was the motion, and so uncertain the light, and at the same time, such seemed to be the precarious position of a person in that place, that we concluded the whole to be merely the effect of imagination.

Having posted our little party at different points on the line of the cliffs, we waited at the head of the pathway leading to the cavern for the approach of the military.

After spending about three hours in feverish expectation, having risen about the sixth time to refresh my limbs and my head in the fresh cool breeze, I spied at a distance the approach of the military. They were coming by the line of road considerably to the left of the village, and were bringing with them a stranger, apparently in the character of a guide. Our messenger was also with them. After the usual salutations their officer informed us that they had searched every house on their way where they thought it possible that the object of our pursuit could be lurking; and that they were not able to discover any traces of him; and had hired the stranger to lead them to the place of rendezvous. Some advised us to procure boats and go around to the front of the cavern by sea; others, that we should descend at once by the pathway, down which the guide professed his inability to lead them. After some discussion, it was proposed that I should act as leader, which my pride prevented me from refusing; although to tell the truth, the specimen which I had enjoyed that night of the honor to be derived from such an expedition did not much encourage me. To decline, however, would have argued cowardice.

But how were we to be arranged? My knowledge of the localities about here now came to my assistance. I remembered that there was a projecting rock about a pistol shot from the mouth of the cavern and from which it could be distinctly covered, large enough to allow one man to stand upon it, and which provided he could maintain himself in the position with one hand, would enable him to observe distinctly the proceedings below, and to fire upon any person coming out of it with a pistol shot or carbine. The question was then, who would venture there? The officer could not leave his men. After some consultation it was agreed that Mr. R——, a young gentleman of considerable activity and bodily strength, who had joined our party on the evening before, should undertake it. Some presence of mind and coolness, as well as strength were required for this part of the undertaking, as the rock stood more than two hundred feet directly over the sea, and a glance downwards was quite sufficient to satisfy any reasonable person of the practicability of breaking his neck. He undertook to act his part, and with much the same sort of grateful feelings to my considerate friends I prepared for mine. Four soldiers, with their officer, were to be my escort; seven more with a corporal, and the remainder of the volunteering party, were to stop on the cliff and watch the proceedings from above. Just as we were about to descend, the officer called the corporal aside, and whispered in his ear, as he afterwards told me, to keep a close watch on their guide, whom he had every reason to suspect was not a true man.

TO BE CONTINUED.

DELAYS are dangerous, particularly in Kidney Diseases, so take at once DR. VAN BUREN'S KIDNEY CURE and obtain relief from all your sufferings. Your Druggist keeps it.

The market is full of preparations for the hair, some of them good, and many of them good for nothing. R. P. Hall & Co., of Nashua, N. H., manufacture and sell an article of real merit, which has been advertised in the *Express* for the past year, and we have taken no little pains to inquire how it has been liked by the public. One of our druggists informs us that he has sold more than double the amount of Renewer than of all other hair preparations combined, and when a person once uses it, he will use no other: that it is not only bought by the young people as a dressing, but by older persons for removing dandruff, preserving and increasing the growth of the hair and restoring its natural color. Another druggist says that he sells three or four times as much of Hall's, as of all others.—*Hampshire Express, Amherst, Mass.*

Asthma and Bronchitis Cured.

HALIFAX, N. S., Jan. 1882.

C. M. PUTTNER, Esq., Ph. M.:

SIR,—I consider it my duty, not only to yourself, but to my fellow creatures who are suffering from Asthma and Bronchitis, as I had for some time previous to using your "Emulsion of Cod Liver Oil with Hypophosphites," to give my testimony to the most wonderful good effect it had. Having suffered for some time with Asthma and Bronchitis, accompanied with great nervous exhaustion, and having carefully read your Essay on the combination and uses of your Emulsion, I was persuaded to give it a trial, and on using two bottles I began to receive great benefit and relief, and after using three bottles I was completely revived and am to-day perfectly free from either Asthma or Bronchitis, and my nervous system much invigorated and built up. I have found it very pleasant and palatable, and with no taste of the oil whatever, and can with great confidence recommend it to those suffering as I did previous to taking your compound. In conclusion, I consider I owe you a debt of great gratitude for the benefit I have received from your Emulsion and only hope that many may be induced to give it a trial, and receive as great benefit as I have from its use. I am, yours, &c.,

ALEX. STEPHENS, SR.,
Merchant.

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrh, Bronchitis, Asthma and Lung Disease by Dr. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the seat of disease. Read and judge for yourself:—

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. JOHN P. WHELAN, Manager of POST and TRUE WITNESS, Montreal. Mr. C. HILL, Montreal, catarrh and bronchitis. Mr. DEBOUCHERVILLE, of the Indian Department, Ottawa, catarrh of many years; now cured. Mr. GEO. AGER, Ottawa, catarrh and lung disease; cured. Mrs. SMITH, London, wife of Medical Detective, cured of catarrh. GEO. MAGUIRE, Toronto, 482 Adelaide street West; daughter cured of asthma. GEORGE WILLIS, Exeter, Ont., catarrh and bronchitis. J. D. ARMSTRONG, 186 Yonge street, Toronto, catarrh and catarrhal deafness. THOMAS TELFER, 12 Melinda street, Toronto, asthma; cured. Mr. BENJ. A. DRAKE, St. Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. BENOIT, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma and bronchitis for over eight years, and who is now perfectly cured.

Mrs. ADAMSON, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitating in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis. JOHN C. FLEMING, Editor of POST and TRUE WITNESS, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write, inclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr M. Souvielle and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

MEDICINE CHEST IN ITSELF
A PURELY VEGETABLE MEDICINE.
For INTERNAL and EXTERNAL use.
THE OLDEST BEST & MOST WIDELY KNOWN FAMILY MEDICINE

Farmers and Mechanics.

Provide yourselves with a bottle of *PAIN-KILLER* at this season of the year, when summer complaints are so prevalent; it is a prompt, safe, and sure cure. It may save you days of sickness, and you will find it is more valuable than gold. Be sure you buy the genuine *PERRY DAVIS' PAIN-KILLER*, and take no other mixture.

COBOURG, Ont., March 3, 1880.

I have been selling Perry Davis' Pain-Killer for the past six years, and have much pleasure in stating that its sale in that time has been larger than any other patent medicine that I have on my shelves, and in those years I have never heard a customer say aught but words of the highest praise in its favor. It is an article that seems to have combined in it all that goes to make a *first-class family medicine*, and as long as I have a house and store, Perry Davis Pain-Killer will be found in both.

Yours, &c., J. E. KENNEDY.

Beware of Counterfeits and Imitations.

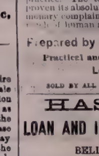
THE BEST REMEDY

FOR

Diseases of the Throat and Lungs.



AYER'S CHERRY PECTORAL.

In diseases of the pulmonary organs a safe and reliable remedy is invaluable. AYER'S CHERRY PECTORAL is such a remedy, and no other so eminently merits the confidence of the public. It is a scientific combination of the medicinal principles and curative virtues of the finest drugs, chemically united, of such power as to insure the greatest possible efficiency and uniformity of results. It strikes at the foundation of all pulmonary diseases, affording prompt relief and rapid cures, and is adapted to patients of any age or either sex. Being very palatable, the youngest children take it readily. In ordinary Coughs, Colds, Sore Throat, Bronchitis, Influenza, Clergyman's Sore Throat, Asthma, Croup, and Catarrh, the effects of AYER'S CHERRY PECTORAL are magical, and multitudes are annually preserved from serious illness by its timely and faithful use. It should be kept at hand in every household for the protection it affords in sudden attacks. In Whooping-cough and Consumption there is no other remedy so efficacious, soothing, and helpful.

Low prices are inducements to try some of the many mixtures, or syrups, made of cheap and ineffective ingredients, now offered, which, as they contain no curative qualities, can afford only temporary relief, and are sure to deceive and disappoint the patient. Diseases of the throat and lungs demand active and effective treatment; and it is dangerous experimenting with unknown and cheap medicines, from the great liability that these diseases may, while so trifled with, become deeply seated or incurable. Use AYER'S CHERRY PECTORAL, and you may confidently expect the best results. It is a standard medical preparation, of known and acknowledged curative power, and is as cheap as its careful preparation and fine ingredients will allow. Eminent physicians, knowing its composition, prescribe it in their practice. The test of half a century has proven its absolute certainty to cure all pulmonary complaints not already beyond the reach of human aid.

Prepared by Dr. J. C. Ayer & Co.,
Practical and Analytical Chemists,
Lowell, Mass.

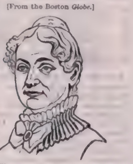
A NOTED BUT UNTITLED WOMAN.

[From the Boston *Globe*.]



Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of *either* sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Philadelphia, Pa. (5) Mrs. A. M. D

ONTARIO BEEKEEPERS.

The Secrets of Successful Wintering Discussed.

VENTILATION AND TEMPERATURE.

Absorption of Moisture and Drainage of Gas.

(*From the Globe Sept. 14th.*)

The Ontario Beekeepers' Association met last night in St. Lawrence Coffee House. The Hon. Louis Wallbridge, of Belleville, presided. About 50 members were present.

The President called upon Mr. R. McNight, the Secretary, to read his report, which showed a considerable increase in the membership of the Association, and in which it was stated that the present was the poorest honey season ever experienced in Canada. The report was adopted. The Secretary read the members' roll of 1881-82 containing 116 names. He also read a financial statement showing a balance on hand of $27.25.

Mr. McNight made a brief statement concerning the action of a committee consisting of the Hon. L. Wallbridge and himself, which had been appointed last year for the purpose of applying to Government in order to secure the incorporation of the Association and a money grant.

The Hon. L. WALLBRIDGE stated that, conjointly with Messrs. Jones and McNight, he had applied to Government for incorporation and a money grant. The Government seemed favorable to an Act of incorporation, but hesitated on the point of grant. For himself he did not see the use of incorporation without a grant. They did not require incorporation, because they did not want to hold lands —not to sue and be sued. If they got a grant it would be necessary to make a return to Government of the expenditure, and about this expenditure they should most likely disagree amongst themselves. They are, in fact, better without the grant. Most people indulged in beekeeping, not only for pleasure but for profit. He regarded Canada as the very best honey-producing country in the world. It had been stated to him that day that there were not in Canada a sufficient number of bees to gather 1-100th part of the honey of the country. He was convinced thot a sufficient development of bee-keeping would diminish the demand for other sweets, especially sugar, and honey is a far healthier sweet than sugar is. Their society had a money object in view, and therefore he did not consider a money grant from Government desirable. They were quite different in that respect from the entomologists and horticulturists. For himself he took a real pleasure in bee-keeping apart from the profits. This study of the habits and developments of bees was most instructive and elevating. They were excellent instructors in mathematics, and set an excellent example in social economy. The honey display at the Exhibition this year was not quite up to the usual mark, owing to the very unfavorable season. The main sources of honey in the country were white clover, basswood, and buckwheat. He did not think it necessary to send to the States for any improved species. They has as good Italian, Syrian or Palestine and Cyprian bees in Canada as were to be had, and as good as imported. There were gentlemen in Canada who raised excellent Italian queens, and from them a supply could be had. Mr. Jones had imported Cyprian and Syrian bees. This species of bees, he admitted, would sting, but this he regarded as an exhibition of their strength and energy. He insisted on the importance of strong and vigorous stock. The stocks strong, early in the season, are those which give the profit. Gentle or tame bees do not seem to possess the energy necessary for gathering surplus honey that all beekeepers were entitled to look for. The bees that were energetic in stinging were also energetic in gathering honey. 26 superior bees had been imported by Mr. Jones, a gentleman whom he regarded as the first beekeeper in America. To raise Cyprian bees they must be separated by at least three miles from any other species, because if the Cyprian or Syrian queens should meet with either Italian or black drones the breed would be impure. Mr. Jones deserves the highest credit for his efforts in carrying out the breeding of pure Cyprians or Syrians.

WINTERING BEES.

The method adopted by the President had been tested by him and found good. He used the Langstroth hive with nine frames. He never interfered with the brood nest except in spring, when he moved empty combs to the center of the brood nest, this hastening brood rearing. He confined his honey raising operations to the filling of surplus boxes. For wintering he removed all the boxes and honey boards, and stripped everything down to the comb frames. With a coarse fabric he formed quilts and cushions, with which he covered the frames, these cushions acting as an absolvent. The hives he piled one above another in his cellar, keeping them apart with small battens. Bottom ventilation was, in his opinion, absolutely necessary, a topic which Mr. Cook in his treatise on cellar wintering had entirely omitted. The temperature of the cellar ought to be about 41. This method he had found most successful. He had no doubt, however, that the experience of others might be different, and he would be glad to hear the subject discussed. He did not approve of letting the bees out to fly in winter. When he had done so he had always met with disappointment.

In reply to a question, he stated that he gave no top ventilation except through the quilt. The moisture passed through the quilt and evaporated on the top. *The great principel was to keep in the heat and let out the moisture.*

MR. JONES was of opinion that the whole secret of wintering was to have plenty of young bees and plenty of store, together with plenty of heat and ventilation. A great danger was the generation of carbonic acid gas. In one instance he had found a stratum of this gas in his cellar to a depth of six inches. As carbonic acid gas was heavier than the atmosphere, and consequently sunk, it was most important to elevate the hives a little and have proper bottom ventilation.

The PRESIDENT said that in his cellar the gas generated was carried away by a small stream of water. His hives were also raised slightly from the ground.

Mr. W. C. WELLS explained how he had applied a stove to secure proper heat and ventilation He let off the noxious gas through a tile, like water.

Dr. SHAVER, of Stratford, throught the cushion or quilt should be filled with sawdust six inches deep. Proper ventilation would remove the carbonic acid gas. The opening of the doors and windows of the cellar was sufficient The colonies should be ventilated either from above or below. He agreed with the President about stacking the hives one above another separated with small stakes. He never took out his bees until the first of May. Early moving in spring caused the queen to begin laying before the weather was warm enough, and bad consequences were sure to follow.

Mr. CHALMERS thought the bees should get out to die, and not be compelled to remain in the hives. He agreed that ventilation of some kind was necessary.

Mr. JONES found by weighing that during the winter his hives consumed about two or six pounds of honey Soft maple blooms were of great value to bees in spring, perhaps about the 1st of April.

Mr. THOS. FORFAR considered that bottom ventilation was an absolute necessity, as the carbonic acid gas being heavier than air, sunk to the bottom.

Mr. TENON, of Newmarket, was convinced that ventilation was required both at top and bottom. He had been very successful in wintering, and he adopted measures to secure this kind of ventilation. He considered dry sawdust packing of the greatest value both in summer and winter. In summer it kept out the heat, and in the winter the cold. He considered feeding in winter a very bad expedient. He did not think that chaff was so good as sawdust, especially on the top, where it got all matted together. It might do at the sides. The sawdust packing prevented the deceitful warming up of a wintry sun, which sometimes lured the bees outside to meet death from cold. He used sawdust to a depth of four inches and left his hives thus protected outside all winter. He had not been successful either in cellar or bee house wintering, but had been quite successful when he left the hives on the summer stands.

Mr. McKnight said it appeared that every one considered the way which he had found to succeed the right way. He proceeded to describe experiments he had made in bee-house, cellar, and outside wintering. He had met with satisfactory success by all methods, and therefore he concluded that there must be several right ways. He used different kinds of hives, but gave preference to the Thomas hive for wintering, owing to the depth of its frame. He had found for packing purposes ground cork better than sawdust, chaff, or anything else. He thought a good transmitter rather than a good absorbent was what was required on the tops of hives.

Mr. THOS. FORFAR, of Brockville, stated the opinion that a great thing to be aimed at in wintering bees was to keep them perfectly dormant. They would then consume no honey. He thought that was an end worthy of trying to attain. He thought that the best thing to cover a hive with was simply a board. The temperature inside a large hive was higher than inside a small one. It was not the cold that killed bees in winter. Last winter his cellar was below freezing point most of the time. Mr. Coons, near Elgin, wintered upwards of 100 in a cellar. He piled them up four high, securing ventilation by separation with batons. That gentleman had lost none. Another gentleman had dumped his hives in holes dug in the ground, and he had been informed that they all came out alive.

Mr. JONES said the question had now been pretty well ventilated. He was satisfied that there were many good ways of wintering. Packing with sawdust was undoubtedly a good way. He was not quite sure whether any ventilation beyond the small amount of air in the hive was needed. It was his opinion that bees could be dug out of twelve feet of sawdust in spring in good condition. He did not believe that bees could be wintered in a temperature under the freezing point.

Sergeant-at-arms of the House of Commons, Mr. D. W. McDonnell, Ottawa, Canada, thus indorses the Great German Remedy: "St. Jacobs Oil is a splendid remedy. I used it on my left hand and wrist for rheumatism and found it all that it is claimed to be."

Take no more nauseous pargatives. Burdock Blood Bitters act mildly, pleasantly and thoroughly upon the Bowels, and occasion no inconvenience, while it regulates the Liver and Kidneys and tones the enfeebled system. Trial bottles 10 cents.

As a cure for all diseases of the Lungs, DOWNS' ELIXIR has no equal.

At the approach of spring great attention should be given to purify the system engorged with foul humors during the winter. Burdock Blood Bitters is Nature's own purifying and regulating tonic.

Rheumatism s greatly dependent on a vitiated condition of the fluids, and may, be eliminated from the system by cleansing the Blood and regulating the Kidneys. Burdock Blood Bitters will do this most effectually. Trial bottles 10 cents.

Mothers ! Mothers !! Mothers!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth ? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it ; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle. 264ly

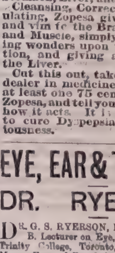
RACKED BY INNUMERABLE PANGS, restless by day. sleepless at night, rising unrefreshed in the morning, without appetite and pestered by varying and perplexing symptoms, the dyspeptic takes indeed a gloomy view of human existence. For him the zest of life seems gone. Heartburn, oppression at the pit of the stomach, and the attendant annoyances of of constipation and biliousness, combine to render him utterly wretched. But there is, if he will but take advantage of it, a reliable source of reliable relief from all misery. NORTHROP & LYMAN'S VEGETABLE DISCOVERY and DYSPEPTIC CURE is, as its name imports, a botanic preparation, free from mineral poison, and an all-sufficient remedy for indigestion in its most obstinate form. It not only enriches the blood by enabling the digestive organs to convert the food received into nutriment, but depurates it by increasing the action of the bowels and kidneys, the natural outlets for its impurities. But while it relaxes the bowels, it never does so violently and with pain, like a drastic cathartic. It aids, but never forces, Nature, invigorating as well as purifying and regulating the system. It thoroughly removes those diseased humors which tend to vitiate the blood, purifies the urinary secretion, and promotes a flow of healthy bile into the natural channel, besides expelling it from the circulation. Experience has proved that this standard medicine is a thorough remedy for dyspepsia, biliousness, costiveness, kidney complaints, scrofula, erysipelas, salt rheum, lumbago and all impurities of the blood. Price $1.00. Sample Bottle 10 cents. Ask for NORTHROP & LYMAN'S Vegetable Discovery and Dyspeptic Cure. The wrapper bears a *fac-simile* of their signature. Sold by all medicine dealers

Rest and Comfort to the Suffering

"Brown's Household Panacea" has no qual for relieving pain, both internal and external. It cures Pain in the Side, Back or owels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful," "Brown's Household Panacea," being acknowledged as great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle. 264ly

The most wonderful curative remedies of the present day, are those that come from Germany, or at least originate there. The most recent preparation placed upon the market is this country, is the GREAT GERMAN INVIGORATOR, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangements of the nervous system. For sale by druggists, or sent free by mail on receipt of the price, $1.00 per box, or six boxes for $5.00 Address James Clark & Co., Sole agent for Belleville. Send for circular.

AFTER many years of patient investigation DR. VAN BUREN, of Germany, finally succeeded in perfecting a Kidney Cure that would permanently relieve all cases of Kidney Disease. Be sure and ask your Druggist for DR. VAN BUREN'S KIDNEY CURE.



EXCHA
a case o
Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys. Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

BELLEVILLE, THURSDAY, SEPT. 21.

A Needed Reform.

The Chief of Police has now a salary of $1,060, and is besides High Constable for the County—a position which also yields him something and occupies a portion of the time for which he is paid by the city. The salary is altogether too large for the office, no matter who fills it, and the matter of fixing that salary ought not to be entrusted to three gentlemen, only one of whom is responsible to the people. The ratepayers, through their representatives, have a right to say how their money shall be disposed of. It will be the duty of the Liberal-Conservative party, should they succeed in the next general election for the Province of Ontario, to give the ratepayers full control of the money which they pay as taxes.

Don't die in the House.

"Rough on Rats." Clears out rats, mice, roaches bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

Ontario Finances.

The Conservatives having in one of the resolutions passed at the Toronto Convention attacked the financial administration of our Ontario rulers, it is incumbent, therefore, upon the party to show the reason why they oppose the Government. Fortunately there is ample material for the purpose. The annual expenditure of the Ontario Government since its establishment seems to have been as follows :

	Ordinary.	Special.	Total.
1868	$1,043,534	$ 138,855	$1,182,389
1869	1,015,961	428,648	1,444,609
1870	1,092,616	488,047	1,580,663
1871	1,223,105	593,762	1,816,867
1872	1,482,594	738,148	2,220,742
1873	1,665,419	1,175,384	2,940,803
1874	1,786,602	2,084,890	3,871,492
1875	1,827,365	1,777,159	3,604,524
1876	1,895,249	1,245,389	,140,628
1877	2,002,967	1,117,447	3,116,414
1878	2,058,393	843,995	2,902,388
1879	2,082,608	1,935,680	4,018,288
1880	2,050,197	1,734,775	3,784,972
1881	2,107,082	2,044,757	4,151,829

The point to be observed, says the Napanee *Standard*, in connection with the ordinary expenditure as given above, is that, whereas during the administration of Mr. Sandfield Macdonald there was but a very small increase, there has been a large one since, and that while the increase of the population since confederation has been but little over 25 per cent., and of the net revenue only about 10 per cent., the increase of the expenditure has been over 102 per cent. In plain words the ordinary expenditure of the Ontario Government has increased four times as fast as the population of the Province and ten times as fast as the revenue. Giving the comparison a somewhat personal complexion, it will be found that the salaries and expenses on account of the Executive Council and Attorney-General's office were as follows :

1869 salaries $ 7,165 ; contingencies $ 852
1881 " 11,670 ; " 2,603

These figures fairly indicate the comparative economy of Mr. Macdonald and Mr. Mowat. A comparison of the departmental expenditures in 1871 and in 1881 will not be without interest, and these are given in the following table :

	1871.	1881.
Civil Government	$114,613.99	$174,803.12
Colonization roads	55,409.04	97,289.80
Legislation	94,177.28	178,950.85
Administration of Justice	182,621.71	251,119.10
Asylums, etc	149,713 17	393,792.26
Central Prison	....	70,159.13
Reformatory Penetang.	21,710.00	33,398.17
Agricultural College	....	25,354.49
School of Technology	....	4,887.55
Immigration	29,712.56	34,826.37
Agricultural, etc	74,927.90	106,936.01
Hospitals and charities	40,260.00	78,092.75
Literary institutions	1,350.00	....
Education	351,306.40	505,824.31
Education refunds	....	8,908.40
Charges on revenue	69,989.97	83,983.28
Miscellaneous	34,559.23	43,820.24

There need be no difficulty in reading the lesson which these figures teach. They are so plain that not another word ought to be needed to justify the verdict that "Mr. Mowat must go !"

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists.

Editorial Brevities.

The Grits of West Hastings will meet on Saturday to select a candidate for the vacant seat in the Legislature. They had better save their strength for the general election next year. It will all be needed then, "and more too."

The Hamilton *Times* informs us that :—"Mr. Lanthier, who has just died, was the last representative in the House of Commons of the Canadian Parliament, of 1844, with the exception of Sir John Macdonald, who was elected in the same year. Of the Parliament elected in 1854 there remain Messrs. Bourassa, Daoust and Desaulniers, and of that elected in 1857, Sir Hector Langevin, Hon. John Carling and Hon. J. H. Pope. The other members of the present House who were members of the old Parliament of Canada are Mr. Rykert, elected in 1860 ; Mr. Blanchard, and Mr. Mackenzie, in 1861 ; Mr. Alonzo Wright, in 1862, and Sir Richard Cartwright and Messrs. Geoffrion, Pinsonneault and Thompson, in 1863." We had imagined that Sir Richard was not a member of the House of Commons.

The Winnipeg *Sun* says :—"Whatever may be alleged with regard to the question of aggrandisement of offices, we do not think that any practical evil has resulted from the Provincial Government of Ontario assuming the control of the licenses. There might be a tendency to introduce politics into the matter, but few complaints of this kind have been made, and, as a matter of fact, many Conservatives have been appointed as commissioners." Surely the *Sun* is not so dull as not to have noticed that, whenever a Conservative has been appointed as a License Commissioner, two Grits have been appointed with him, so that he is powerless. Can the *Sun* or can any of our Grit contemporaries, instance one single license division in which there are two Conservative Commissioners to one Grit ? This is the best way to test the specious plea that the appointment of Conservatives as License Commissioners has affected the schemes of the Ontario centralizers.

Catarrh of the Bladder.

Stinging irritation, inflammation, all Kidney and Urinary Complaints, cured by "Buchupaiba." $1.

The Late Dr. Pusey.

Edward Bouverie Pusey, D. D., whose death has just been announced, exerted an influence in the early part of his career which can hardly be realized by the present generation. He was the son of Hon. Philip Bouverie (who assumed the name of Pusey,) younger brother of the first earl of Radnor, and was born in 1800. He graduated at Christ Church, Oxford, in 1822, took orders, and in 1828 became canon of Christ Church and regius professor of Hebrew in the University. With Cardinal Newman, he originated the so-called Anglo-Catholic movement in the Church of England in 1833, which finds its best exponent in the famous "Tracts for the Times," many of which were written by Dr. Pusey. In late years he published a large number of theological books, several of which have become standard works and are highly prized by theological students.

The New Comet.

The following account of the comet which has just made its appearance comes from the observatory at Washington .—A comet was observed near the sun to-day. It exhibited a short tail with a bright head of considerable extent ; in the telescope the nucleus showed a confused mass of bright light, indicating a large comet with plenty of loose material. Extending on both sides were bright arcs of light, presenting the appearance of a bird with outstretched wings. A despatch has been received from the Paris observatory, stating, "Thallon's comet was observed at Nice about noon on September 18th, three degrees west of the sun. The nucleus gives a continuous spectrum, very brilliant and very much extended towards violet ; the tail and nucleus give sodium lines extremely brilliant, very sharpely divided and characteristic. They seem displaced towards red." These observations are of extraordinary interest, indicating that this is the second comet that has shown sodium spectrum. The first was discovered this year by Wells at Dudley observatory, who reported a displacement of two sodium lines towards the red end of the spectrum, which indicates a comet now moving toward the earth with planetary velocity. Such observations have never before been made in the case of any comet. From the position given in the above despatch, the comet is moving westward from the sun at about five or six degrees daily. It is almost certain the comet has now passed the perihelion. If the comet is identical with the one recently discovered in South America, it will follow that it has approached very near the sun, probably as close as did the great comet of 1880, which had the smallest perihelion distinct on record. Several days must elapse before the particulars of orbit can be calculated. The comet to day, at 3 o'clock, was 9 degrees west of the sun, and it will probably increase the distance by sunrise on the 25th to 12 or 13 degrees. It will, therefore, rise somewhat before the sun, but owing to the fact that it is farther south than the sun, it will not be readily seen before sunrise. In a few days, however, with its present rate and direction, it should become a brilliant object in the morning sky. On the whole, this may be regarded as one of the most extraordinary comets of modern times.

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinary or Liver Diseases, as they only relieve for a time and make you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

MANITOBA FLOUR.

(Hamilton Spectator.)

The arrival in Hamilton of a car load of Manitoba flour is not in itself of much importance. In a short time such an occurrence will be very common. Wheat and flour are now relatively dearer than they will be some years hence, because the influx of emigrants is so great as to consume nearly all, if not the whole, of the products of the country, thus keeping the price up. Freight charges, too, are higher than they will be when the Thunder Bay branch of the Pacific Railway is in full running order and working in connection with lines of lake steamers. Next year Thunder Bay will be as near tide water as Chicago, and Winnipeg will be as favorably situated as Omaha or Kansas City. But it is interesting to notice that even now when the price is relatively high and freights are much higher than they will hereafter be, flour can profitably be brought here for use in our bakeries. There is this further satisfactory demonstration furnished by the transaction : that, so valuable is the flour of the Northwest that it commands a higher price in Winnipeg for shipment to Ontario than flour from the ordinary winter wheat raised in this Province commands at Hamilton. The lesson taught our farmers is that they cannot compete with the Northwest in wheat growing, and that it behooves them to turn their attention to other agricultural products or to stock raising.

O. Bortle, of Manchester, Ontario Co., N. Y. writes :—"I obtained immediate relief from the use of *Dr. Thomas' Eclectric Oil.* I have had Asthma for eleven years. Have been obliged to sit up all night for ten or twelve nights in succession. I can now sleep soundly all night on a feather bed, which I had not been able to do previous to using the Oil."

Nervous debility is a result of indiscretion in the mode of living. Heed nature's unerring laws and take Burdock Blood Bitters, the Great System Renovator and Blood, Liver and Kidney regulator and tonic. Sample bottles 10 cents.

Baxter's Mandrake Bitters never fail to cure Costiveness and regulate the Bowels.

News Condensed.

—The date of the Czar's coronation is kept a profound secret.

—Convicts in British prisons earned £16,000 sterling last year.

—The reported loss of the steamer *Ontario* is found to be untrue.

—A new daylight comet has been discovered 5 degrees from the sun.

—A new transatlantic cable is to be made between Lisbon and the United States.

—General Ben Butler has been nominated for the Governorship by the Massachusetts State Convention.

—Walsh, the Irish murderer, will be hanged to-morrow, the Lord-Lieutenant having refused to respite him.

—The 101st Regiment now at Halifax, will shortly be transferred to Portsmouth, and will not be replaced.

—A deputation left the capital for Kingston to endeavor to have the next Provincial Exhibition held at Ottawa.

—Hon. Mr. Pope did not open the Provincial Exhibition, business of importance having detained him at the Capital.

—The war vessel *Charybdis* is being towed back to Halifax. It is said she will be returned to the British Admiralty.

—A game merchant of Newcastle-on-Tyne has just bought $79,000 worth of North-west farm property and $13,000 worth of real estate in Winnipeg.

—The recent meeting of the British Association at Southampton was attended by 1,253 members, of whom 189 were ladies and 21 were foreign members.

—Of the 278,342 immigrants who arrived at Castle Garden, New York, from the 1st of January to the 30th of June of the present year, 1,223 were on their way to Canada.

"The term *hydra* may be used to represent any manifold evil. If you would battle successfully with this many-headed monster of disease you will find it expedient to keep Mrs. Pinkham's Vegetable Compound always at hand.—*Dr. Banning.*

—Four hundred employees of the Steinway Piano Company, at Hunter's Point, N. Y., struck on Tuesday, on account of the unpopularity of the superintendent. It is said that if the latter is not discharged, 1,000 employees in New York will also strike.

—A young man named George Appleton, employed in Zingham's cabinet factory, Hamilton, shot himself in the breast on Tuesday morning, while suffering from melancholy brought on by an unsuccessful love affair. The wound was not fatal, but may utlimately prove so.

**"Do boldy what you do at all." Boldly do we affirm that Kidney-Wort is *the* great remedy for liver, bowels and Kidney diseases, rheumatism and piles vanish before it. The tonic effect of Kidney-Wort is produced by its cleansing and purifying action on the blood. Where there is a gravelly deposit in the urine, or milky, ropy urine from disordered kidneys, it always cures.

—Henry George, the political economist, explained his views on the land nationalization question in London (Eng.) on Tuesday before a large audience of churchmen. He declared that as a matter of abstract justice, no compensation should be awarded the present landowners. If the State made the land common property by taking the whole rental value in taxation for the public purpose very little hardship would be done.

—It appears from an official statement just published that among the recruits of last year in the British army, the proportion of those born in England and Wales was higher than that of the previous year by 21 per 1,000, while of those born in Scotland the proportion was, on the contrary, 15 per 1000, and of those born in Ireland 8 per 1,000 less. The natives of England and Wales represent 702 per 1,000 of the entire number. Ireland stands next with 202 per 1,000 ; while Scotland furnished only 96 per 1,000.

The Hillsdales and the Press.

The New York *Times* gives the Hillsdale crew the following wholesome advice :—

This wonderful ill-luck in rowing seems to be confined to American crews. According to the doctrine of chances, a crew of Englishmen ought to meet with accidents just as often as an American crew, but in point of fact the former have a remarkable exemption from accidents. English oarsmen are not seized with sudden illness while rowing ; their boats do not run into the bank, and their slides do not break. This is very strange, and some English scientific person ought to investigate it.

While the Hillsdales insist that they would have won the race except for the usual accident, it is very clear that they would have done nothing of the kind. At the beginning of the race they ran into the Thames boat and that this collision was purely the fault of the Hillsdales is evident from the apology that their captain felt compelled to make for it when the race was over.

* * * * * *

Now that the Hillsdales have raced with a second-rate rowing club and have been beaten —of course, in consequence of an accident—will they not come promptly home and permit us to forget, as speedily as possible, that they ever went to England ? They need not stay to be beaten by another English crew, and they need not go to Vienna and be beaten by a German crew. Home is the place for them, and it is earnestly to be hoped that they will come home peaceably and without imitating the Cornells, who finished their rowing career by trying to prove that one of their number was a swindler and that the others were too dull to discover it in time to save themselves from disgrace.

Pearls.—Get your mouth full by using "Teaberry," the new wonder for the Teeth and Breath. Brush vigorously. See directions. 5 cent samples.

"READING NOTICE."

"Twenty-four years' experience," says an eminent Physician, convinces me that the only cure for "Nervous Exhaustion" and weakness of the generative organs is to repair the waste by giving Brain and Nerve Foods, and of all the remedies I have used Mack's Magnetic Medicine is the best. This remedy is now sold by all our Druggists at 50 cts. per box, or 6 for $2.50, and on receipt of an order for 12 boxes, accompanied with $5.00, addressed to Mack's Magnetic Medicine Co., Windsor, Ont , they will forward the goods free, by mail, and send their "written guarantee" to refund the money, if the treatment does not effect a cure. See a'v't in another column. Sold in Belleville by Jas. Clark & Co.

Proclaim it far and wide that Dr. Van Buren's Kidney Cure not only immediately relieves all Kidney diseases, but what is more important to the unfortunate sufferer, will ultimately cure him effectually.

A simple herb found on the sunny plains of a Southern clime has, under the skillful manipulation of Dr. Van Buren, proved one of the greatest blessings ever sent to suffering humanity. Dr. Van Buren's Kidney Cure is acknowledged all the world over as the only perfect remedy for Kidney troubles. Your druggist has it.

The Lost "Asia"

SOME FURTHER DETAILS.

Rev. J. James, a Methodist minister, of Dalyrimple, was one of the passengers on the *Asia*, and is among the lost. Rev. Mr. James was about forty years of age, and had charge of the Seabright circuit, in the Lindsay district. Mr. Tinkiss, one of the two survivors of those on board the lost steamer, knew Mr. James personally, and says he saw him on board. Mr. James was formerly a missionary in the Algoma district, and was on his way to see some old friends when he was lost. He was much esteemed on his circuit as a good pastor.

Collingwood, Sept. 19th.—The steamer *Northern Belle*, which had been despatched to the scene of the *Asia* disaster, arrived in port here to-day noon, with flags flying at half mast, giving evidence that some of the unfortunate bodies of the ill-fated *Asia's* passengers were on board, which proved to be correct. She had on board the bodies of Capt. Savage and McDonald 1st mate ; John Little, of Sault Ste. Marie ; J. W. Callphie, of Gore Bay, and one unknown supposed to be of M. McDougall's gang of shantymen. Mr. Tinkiss was interviewed and his statement varies but little from that already told of the terrible disaster. At the time of the accident the steamer was some nineteen or twenty miles from land. A heavy sea struck the boat and sent her over on her side. Many jumped to the hurricane deck. The boats were cut from their davits, and as the *Asia* went down were shoved off. There is no doubt that the upper decks were carried away and floated after the hull sank. The cabin boy died, and all the bodies were washed overboard by the waves or succumbed to exhaustion or injuries, until only five were left. In the metallic boat in which were Tinkiss and Miss Morrison one after another died, the captain being the last to give up the battle, and at about daylight the two survivors landed. They walked about half a mile up the coast and remained on the beach until found by the Indian as already reported.

The *Asia* contained about 30 state rooms with a single and double berth in each. All were occupied and most were full. There were women and children on board. Two young women occupied the same room with Miss Morrison and went into the boat with her, but were lost the first time the boat capsized. The room occupied by Mr. Tinkiss also contained Mr. Gallagher, mentioned in the last despatch, and Mr. Henry, of Mudge Bay, whose brother was lost on the *Manitoulin*. The two Henry's were well-known lumbermen. One woman with four small children, and another with two, have been mentioned by Miss Morrison. As near as can be learned, eighty five passengers went on board at Collingwood, twelve at Owen Sound, and the crew consisted of about twenty-five all told.

Daily Intelligencer.

BELLEVILLE, THURSDAY, SEPT. 21.

City and Vicinity

The No. 1 express was an hour late again to-day.

If you want a perfect fitting suit go to John Lazier & Son, and try their new cutter. 113d3tw4w

A farmer in Prince Edward raised 34 bushels of rye this year from one bushel sown.

Prof. J. T. Bell, Mr. R. S. Bell and Mr. L. Appleby went on a short hunting expedition this morning.

Mr. John Harris, Bay street, takes pride in a tomato which he has grown. It balances the scale at 29 ounces.

The preliminary examination in the protested election case of Mr. Robertson will probably take place on Monday.

Bro. A. L. Geen has been appointed District Deputy Grand Master of the Oddfellows of the Belleville District.

Atkinson's Jollities Company arrived in the city by the early express from the east, and are stopping at the Dafoe House.

Mr. Paul F. Jones, of this city, leaves town to day with a gang of men for Crookston to work on the Ontario and Quebec Railway.

It is pleasant to notice that the deep mud on Front street is appreciated by some creatures. Three pigs were revelling in it at noon to-day.

Business is beginning to look up in police circles. Five prisoners were in the cells last night—four drunks and one man charged with assault.

Miss Hudgins has replenished her stock of novelties and shows a choice and varied assortment of the "latest" in wools, dolls and fancy goods generally.

Atkinson's Jollities drew immense houses at Montreal, Ottawa and Brockville and people were turned away. They appear in the Metropolitan Hall this evening.

Two of the city clergymen secured sixteen fine black bass yesterday, as the result of a couple of hours fishing. Surely the clergy are not alone fishers of men.

Fakirs and sharpers of every kind have been operating at the Fair at Kingston, but they have not been as successful as usual, owing to the strict vigilance of the police.

Kingston has a musical prodigy in the person of little Miss Loretta Teigmann, who, the *Whig* says, "can perform the most difficult selections on the violin with ease and grace." She is only eight years old.

Mrs. Moon, of Madoc, has re-purchased from Mr. D. Daly Moon's Hotel, which she sold him two or three months ago, and will again manage it. Mrs. Moon sold the hotel to Mr. Daly for $11,500, but could not buy it back for less than $15,000.

Prof. Dyer of Albert College had his face and neck badly burned yesterday afternoon by the explosion of a spirit lamp when at work in the laboratory.

The Kingston *News* refers to Dr. Murphy, of this city, as "a distinguished graduate of Queen's, and erroneously speaks of him as being connected with the Blind Asylum. The Dr. is Physician to the Institute for the Deaf and Dumb.

Rev. Dr. Clarke has returned home from New York. The physicians whom he consulted in that city advised him not to undertake a sea voyage until he was in better health; so the Doctor's trip to Europe has been postponed for the present.

Four drunks were disposed of at the Police Court this morning. Jas. Heffernan and Maggie Herman ("Black Mag") were discharged, Chas. Haggerty was fined $1.00 and costs, and Chas. Smith $3 00 and costs. Jas. Farrell, charged with assaulting Geo. Armstrong, his son-in-law, was remanded until Monday.

The annual rifle matches of the 15th Battalion will be shot on Friday, the 29th inst. There will be three matches—the Battalion, Association, and Company competitions, besides the aggregate prizes. There are a great many good shots among the young members of the 15th, and a lively competition may be expected.

The following is from the *Whig*. The youth mentioned probably gave a fictitious name:—"A youth calling himself Fanning, and saying he was from Belleville, was caught in the act of slipping his hand into a man's pocket at McNaughton's corner last night. Had the gentleman prosecuted it would have been bad for the boy."

A Grit caucus is to be held on Saturday next to nominate a candidate in the interest of a "forlorn hope." Already wires are being pulled to secure the nomination of Mr. Clute in that interest and the *Globe* yesterday in its own language orders the "pairty" to nominate Mr. Clute, who, it says, is spoken of "enthusiastically" by leading Reformers.

Mgr. Farrelly will, as Vicar Apostolic, assist to-day in the installation of Rev. Dr. Jamot, the new Bishop of Peterborough, at Peterborough. Besides himself, the following dignitaries of the Church of Rome will take part in the ceremony; Archbishop Lynch, Bishop Cleary, of Kingston, Bishop Crinnan, of Hamilton, and Bishop O'Mahony, of Toronto.

Our readers should not forget the concert and organ recital to be given in the Bridge St. Church next week. Miss Fetherston, of Montreal, a lady of well-known musical ability and culture, will participate, as well as the best local talent. There will be several numbers played on the grand organ, and a number of solos, duets and selections from the "Elijah," will be given.

At the annual meeting of the Albert College Athletic Association, held at the College building yesterday, the following officers were elected for the ensuing year: Honorary President, Rev. E. I. Badgley; acting President, T. F. Holgate; 1st Vice-President, J. A. Macdonald; 2nd Vice-President, M. L. Massey; Sec.-Treasurer, H. W. Kennedy; Committee of Management, J. R. Street, C. H. Winter, J. H. Packham, A. R. Carman, J. A. McDonald, T. Williams, J. B. Anderson, L. E. M. C. Pomeroy, W. C. Austin.

The Voters' List Court for the Township of Thurlow was held at Canifton yesterday, beginning at 9 o'clock a. m. and prolonging its sitting until 11 p. m. The ignorance of several of those who were challenged, (particularly the proprietor of a Belleville newspaper) as to the property which they were supposed to hold in the township, was something astonishing. Millionaires like Vanderbilt and Gould are evidently not the only individuals who do not know what property they own. The court was adjourned until Monday, when it will be reopened at the Judge's Chambers, Belleville.

Mr. Wm. Powell, who has been on a visit to his old home, the island of Jersey, arrived home yesterday after an absence of ten weeks. He brings with him several specimens of the vegetable growth of that island which are strong evidences of the richness of its soil. Among these are a stout walking stick made from the stalk of a species of cabbage—almost as strong but much lighter than blackthorn; a second-crop potato which would be likely to take a prize at any of our agricultural exhibitions; and beards of fine barley raised after the first crop of potatoes, on the same soil. Surely Jersey must be an "island of the blessed."

Part 11 and 12 of "Picturesque Canada" are now being delivered in the city. They are fully up to the high standard of the preceding numbers, the illustrations of Northwest and Manitoban scenery, and the scenery of the upper lakes, being unsurpassed both in design and finish by any of the illustrations in the first numbers. The subjects, also, are all well chosen, and the literary matter as interesting as ever. This is a national work, and deserves national recognition. The number of subscribers in Belleville is nearly 600, the largest number, we are informed, in proportion to population, that has been secured in any place in the country. Our people know a good thing when they see it.

Weather Probabilities—Toronto, Sep. 21.—Lakes, moderate to fresh winds, mostly between east and north fair cool weather.

Cricket.—The team which will represent the Belleville Cricket Club in the match at Napanee to-morrow will be composed as follows:—W. Peden, W. N. Thomas, E. Corby, T. S. Farrar, E. Reeves, Jas. Jenkins, Jas. D. Clarke, H. A. Hodgson, J. A. Fleming, B. F. Dickens, J. Soby. Mr. W. H. Scholes will officiate as umpire for the team. The steamer *Annie Gilbert* has been chartered for the day by the club, and will leave here about 6.30 a.m. with the team and any others who may be willing to pay 50 cents for the honor of accompany the cricketers to and from Napanee.

Before purchasing Ready made Clothing be sure and look through Hennessy's stock. He has over 300 suits in all, and is offering them at actual cost.

A Truant from Home. Two weeks ago to-day a young girl from Stirling named Marianna Butcher, daughter of Mr. Butcher, G. J. R. station agent at Stirling, ran away from home and came alone to Belleville. She had become tired of the quiet uneventful life of the village and yearned for the "large excitement" of a more active existence. Her discontent was partly occasioned by the opposition which she met with from her parents in her little schemes of pleasure and gaiety. This opposition to her wishes finally grew so strong that she determined to rid herself entirely of the parental authority and go somewhere where she could taste the sweets of pleasure with impunity. She told several of her friends in the village that she was going to Belleville and hire out as a servant, and she seems to have carried her resolution into effect almost as soon as she had made it. Since she left home her parents have received no word from her, nor have they heard anything about her until to-day, when Mrs. Butcher came to town and made some inquiries. The only information which she could glean, however, was that her daughter had been seen in two stores in the city, and that she had been heard to say that she was going to Napanee. Mrs. Butcher, however, is certain that Marianne is still in or near the city. The girl is only fifteen years of age, and is rather stout in build. Any information which will lead to her discovery will be thankfully received by the anxious parents. Mrs. Butcher has placed the matter in the hands of Chief McKinnon.

Dinnie Accommodated.

CHIEF MCKINNON ACCEPTS HIS CHALLENGE ON BEHALF OF MACDONALD.

In an interview with the sporting editor of the *Mail* (an account of which appeared in yesterday's issue of that journal) Donald Dinnie, the Scottish athlete, indulged in some very "tall" talk concerning his past performances, present capabilities, and future intentions, in the athletic line, and announced his willingness to match himself against McLennan or Macdonald, "competition to include any of the recognized heavy-weight events under Caledonia rules, * * * or he would match himself against Macdonald in simply putting the stone." Now, this same Dinnie talked in a similar strain at the late athletic meeting in Montreal, at which Chief McKinnon was present; but when the latter—jealous of the honor of his *protege* A. A. Macdonald—offered to back him against Dinnie and deposit the money on the spot, Mr. Dinnie failed to come to time. Having seen the interview published in yesterday's *Mail*, Chief McKinnon now authorizes us to state that he will match Macdonald against Dinnie for $1,000 a side (or any larger sum which Dinnie may name) at putting the heavy and light stones—namely, 21 and 14 lbs. respectively. As an evidence of good faith, Chief McKinnon has deposited in our hands $250. This direct and above-board acceptance of Dinnie's offer will have the effect of proving whether or not Dinnie means business, or is merely seeking for gratuitous newspaper puffing.

If Nearly Dead

after taking some highly puffed up stuff, with lond testimonials, turn to Hop Bitters and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes, or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides, it is the best family medicine on earth.

Morgan not Murdered.

A STATEMENT THAT A DISTINGUISHED MASON PROMISES TO PROVE.

In an article on the meeting of the anti-Masons in Batavia, New York, the past few days, the *Sun* says: Of the antiquity of Free Masonry we have not time to discuss. Suffice it to say that our friend, Bob Morris, LL.D., of Kentucky, informed us this week that the first three degrees of Free Masonry were conferred upon him in the valley of Jehosephat, by three Arab chiefs, who came a six days' journey across the desert for that purpose. They trace their order back to King Solomon. Mr. Morris has spent years in the Holy Land, especially in the interest of the Masonic fraternity. He has been for years collecting facts and material relative to the disappearance of William Morgan, and is prepared to prove to the world that Morgan was not murdered, but left the country voluntarily, being paid a large sum of money to do so. One thing is certain, it has never yet been established that he was murdered, and no one at all posted pretends to claim that his remains rest in our village cemetery."

Excellent reasons exist why *Dr. Thomas Eclectric Oil* should be used by persons, troubled with affections of the throat or lungs, sores upon the skin, rheumatic pains, corns, bunions, or external injuries. The reasons are, that it is speedy, pure and unobjectionable, whether taken internally or applied outwardly.

A New Principle.

The principle upon which Putnam' Painless Corn Extractor acts is entirely new. It does not sink deep into the flesh, thereby producing soreness, but acts directly upon the external covering of the corn, separates it from the under layer, removes the direct pressure from the part, and at once effects a radical cure, without any pain or discomfort. Let those who are suffering from corns, yet skeptical of treatment, try it, and by the completeness of the cure they will be ready to recommend Putnam's Painless Corn Extractor to others. Sold by W. R. Carmichael

Consumption, that dread destroyer of the human race, is often the result of bad blood and low vitality, a scrofulous condition of the system. Burdock Blood Bitters cure Scrofula in its worst form.

SMITH MEDICINE Co.

Gentlemen,—I have made a trial of one box of Dr. Smith's Great German Worm Remedy, with such good effect that I have no hesitation in recommending it to the public as a prompt and reliable medicine. In fact, those who use it once will always do so. Yours truly,
J. Harvie, 172 Cadieux street.
Montreal, December 9th, 1881.

Hall's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by Jas. Clarke & Co., Belleville, Ont.

One dose of Baxter's Mandrake Bitters will relieve Sick Headache. One bottle effects a cure. Price 25c. per bottle.

Coughs and Colds.—If taken in time are easily cured,—if allowed to continue will result in incurable consumption. Allen's Lung Balsam has the confidence and support of the medical faculty, and is recommended by all who are acquainted with its virtues.

LATEST FROM THE SEAT OF WAR.

Cairo, Sep. 21.—The garrison of Damietta have refused to surrender.

Port Said, Sep. 21.—Fort Ghemlih has surrendered. A garrison of only 80 men remained. The force went to Damietta last evening.

MORNING DESPATCHES.

AMERICAN.

NEW YORK NOTES.

New York, Sep. 21.—The *World* says the nomination of Folger will not heal the breach between the warring Republican factions, but the Democrats at Syracuse must name a candidate as unacceptable as Folger and as conservative.

The *Tribune* says the choice of almost any other candidate named would be given a better promise of harmony and a zealous campaign, yet when all drawbacks are fairly stated the facts remain that Folger is a strong candidate, and if elected will be found a Governor of as high ability as the executive chamber at Albany has known since the days of Marcy and Seward.

The *Herald* says the refusal of the Republican State Convention to nominate Cornell, is a righteous retribution for the shame his administration brought upon the state. The party was equally discreet in nominating Folger but the means by which his majority of the Convention was achieved, remains to be tested.

The *World's* Syracuse special says that Folger's nomination has created much comment. The general impression is that the Republicans have nominated the strongest administration and machine candidate. It is thought that this nomination will compel the Democratic convention to nominate a candidate for Governor who will command the entire party strength.

AFTERNOON DESPATCHES

INTRODUCTION OF CHINESE LABOR INTO GREAT BRITAIN.

London, Sept. 20.—A meeting last evening discussed the proposed introduction of Chinese labor into Great Britain. A motion urging the Government to frame measures to prevent the importation of Chinese was adopted. Parr, of San Francisco, said if Chinese ever came to Great Britain the English workingmen might go and die.

TROUBLE AT SCUTARI.

Cattaro, Sept. 21.—Two reported leaders of the Albanian league at Scutari have resolved to massacre and rob the richest Christians, including the English Consul. Two Hill tribes have marched to Scutari to protect the Christians. The Consuls have asked for the garrison at Scutari to be reinforced.

New York, Sep. 21.—Arrived, the *France* from Havre.

DROWNED.

Exeter, N. H., Sep. 21.—Yesterday Geo. Dollaff, age 24, was drowned while bathing.

FROM LACHINE, P. Q.

EXPLOSION OF A STEAMBOAT BOILER—THREE MEN KILLED.

Lachine, P. Q., Sep. 21.

A dreadful accident occurred this morning on board the ferry steamer *Richelieu*, while on her way from Chateauguay to this port. Three men were killed and one is missing. The names of the unfortunate victims are Pierre Duquette, pilot, James Richardson and Persellius Amoit, of Chateauguay, farmers. The missing man is a son of Duquette, the pilot, and is supposed to be blown overboard by the explosion. Several passengers were severely scalded by the escaping steam. The cause of the accident is at present unknown. The coroner has been notified and an inquest will be held this afternoon.

Agricultural Fairs.

Vegetable Balsamic

ELIXIR!

This [illegible] medicine is purely vegetable, the [illegible] of which [illegible] the result of many years' [illegible] in order to discover the [illegible] symptoms and the [illegible]:

Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Influenza, Pleurisy, Hoarseness, Spitting Blood, Bronchitis,

and every species of oppression of the Chest and Lungs. In all cases where this Elixir has been duly administered its efficacy has been invariably manifested, convincing the most incredulous that

CONSUMPTION

is not incurable, if properly attended to.—Consumption at its commencement, is but a slight [illegible] of the membrane which covers the [illegible] then inflammation, when the cough is more observable, but rather dry; then becomes local fever and the pulse more frequent, the cheeks flushed and chills more common. This Elixir in curing the above complaints, operates so as to remove all morbid irritations and inflammation from the lungs to the surface, and finally expel them from the system. It facilitates expectoration.

IT HEALS THE ULCERATED SURFACES

and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. HYDROLEINE

(HYDRATED OIL.)
An artificially digested Cod Liver Oil.

For Consumption, Winter Cough, Affections of the Chest and all Wasting Diseases.

Prescribed by the leading physicians of England, the United States and the Dominion of Canada.

A WONDERFUL FACT.

HYDROLEINE *mixes* perfectly with *water*, showing a complete artificial digestion of the oil, and just as the HYDROLEINE mixes with the *water*, so does it mix with the liquid contents of the *stomach*, and enters immediately into the *system* to *nourish* and *build* it up. The efficacy of HYDROLEINE is NOT CONFINED to cases of Consumption, as from its valuable tonic effect on the nervous system in addition to its special stimulating action on the organs concerned in the production of *Fat* in the body, it causes *marked increase in weight in persons of naturally thin habit, who do not present any evidence of disease.*

Unlike *ordinary* preparations of Cod Liver Oil, it produces no unpleasant eructation or sense of nausea and should be taken in such *very much smaller doses* according to the directions, as will ensure its *complete assimilation*; this, at the same time, *renders its use economical* in the *highest degree.*

For sale by all Druggists.

We have sold the above remedy for several months and find it spoken of very favorably by both the medical profession and the public.

We can safely recommend it to parties needing such a remedy.

SHAWN BUIE.

A LEGEND OF KILKEE.

(From the Dublin University Magazine)

I then began to lead the way. As we should descend with our faces to the rock, it was resolved that our guns should be fixed behind our backs until we reached the turn in the path. On we went, and had just descended a little below the turn, when, as I was taking my gun rightly in my hand, a shrill whistle from above rang among the rocks. In a moment we had our guns fixed, and every eye below the turn was directed towards the mouth of the cavern. In about half a minute we observed the head of a man extended from behind a piece of jutting rock; and almost at the same instant we heard the report of a gun above us, and saw the slate and dusty gravel of the rock dashed about the face, which disappeared before we could learn whether or not it was hit.

No sooner had I heard the shot, when the officer cried 'Now my lads, down upon them.' We rolled, tumbled, slid, jumped, down the remainder of the path, and were at the mouth of the cavern before we could have thought it possible the minute before. To cock our guns, present bayonets, and charge, was the work of a moment—we were in the centre of the cavern.

'Holy Vargin and blessed Sants defind us!' cried a shrill squeaking voice, from one side of the strange retreat. 'Blessed Mother keep us—what's this at all at all?'

'Hello, my old lady!' cried the officer; 'where are you? Come out my old damsel, and let us get a glimpse of you.' And so saying, he with one or two of the soldiers, groped his way towards the side from whence the voice proceeded.

'Oh, what are yees, at all at all? Sure, an' I thought it was my own Mick that was a coming home to me, and driving the cows before him—God bless him! Oh, thin what!'——

'Cows! my good friend,' said the officer. 'How the devil could cows get here; unless they were sea calves you mean?'

'Och, thin, sure enough, but I thought I was at home; an' where am I, my jewel; an' who are yees?'

'Why, first and foremost, you are in possession of his Majesty the king's troops; and we are come here to take and possess ourselves of the person of a man called Shawn Buie, if you know such an one.'

'Shawn Buie! Is it him that was drowned at the cliffs of Mohir you mane?—an' it 'ill be long before yees find him!'

'Indeed I'm thinking so, with you for our guide!' said one of the men; 'so I think we must put you out of our way for a while.'

'Thur a mon dioul!' said a voice from behind; and at the same moment the soldier staggered back beneath a blow from the direction in which the voice came. A figure darted to the mouth of the cavern; several shots were fired after him but the darkness and the smoke prevented correct aim. A plunge into the sea was heard, and we all rushed out. He had dived, and the direction which he had taken under water we could not at once perceive. The noise of the shots below had awakened the attention of those above, and now every eye was strained to mark the spot where he rose.

'Wurrah sthru, wurrah sthru! will yees kill my child, yees muthering villians, that never did hurt nor harm to baste nor christian? Let him alone, I say agin; or I'll be the death of yees—you red lobsters!' said the old hag, who, at the first alarm, had sprang up, and following us had seized hold of the officer by the throat. One of the soldiers struck her with the butt end of his musket to make her let go her hold; and in return received a blow from a stone on the head which levelled him to the earth. The row now became general. Several soldiers fired into the cavern at once. A cry was heard, followed by a deep groan. For a moment I felt horrified; and would have given my best Rigby that we had not fired. The next thing, however, was to see what work we had done. We groped our way in, unmolested by the poor old woman, whom the violence of the blow and the cry of the wounded person had quite overcome—she had fainted. After a short time we found the body of a little boy, who was sent with the fugitive from the dancing party a few Sundays before. The poor little fellow was quite dead—he had been shot through the heart.

In the meantime, our friends above kept a sharp look out. As soon as Shawn Buie had risen to the surface of the water, he was saluted with a discharge of musketry, which, however, appeared to prove ineffectual in consequence of the deceptive distance. Several balls fell far short; some beyond; only one seemed to be well aimed. He did not, however, appear to be struck; but turned over and dived again like an expert swimmer. I had returned from the cavern before he rose the second time; the officer pointed in the direction where he expected him rise. I rested my rifle upon a jutting portion of rock, ready to fire; for I found that I had now too far involved myself to decline acting as I was commanded. After some time, having waited longer than we thought it possible for a living person to remain under water, we saw the bare feet of a man rise out of the sea, and then settle down, the body ascending slowly after them, and turning on its back.

'He is dead!' cried all at once.

'Who is dead? Is it my child? Have yees killed my child, you murthering divils? Have yees killed my child, I say agin? Och, then, has it come to this; that I'——and she fainted again.

I now ascended the cliff as speedily as I could, leaving the military to guard those below, in order to consult with my friends on the top as to the proper mode of proceeding. It was considered best to despatch messengers for two or three boats, which could convey the bodies and the old woman home, instead of forcing her, and dragging them up the cliff. Three gentlemen set off forthwith, and I remained above with the rest of the volunteers. All began again to assume the appearance of tranquillity. The stranger lay beside me, tied by the wrists and legs; his face swollen and bloody, which I was told was caused by a blow which he received from one of the guards when he gave the whistle that first started us, which put a decided negative on any further signals from him. The body of Shawn Buie floated on the surface of the blue sea, rising up and down with every tossing wave.

After repeating the occurrence which happened in the cave more than once, we began to turn our eyes toward the line of coast from whence the boats should come, by degrees one of us observed the body drift away close to Bishop's Island; but still we thought, perhaps, the rising of the tide might have that effect. We turned our eyes towards Kilkee; and when we looked again, the body had vanished. We sprung to our feet—every eye was strained; but no vestige of his appearance remained, save the ruffling of the water where he had been. We looked until our eyes strained again. Some said that a shark must have carried the body down; but that was negatived at once. Others said that he dived again; but it seemed impossible that he could be alive. We suggested; we contradicted; we looked; we strained; but all to no purpose—the body of Shawn Buie had vanished, and was never heard of more.

THE END.

BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, blotches, pimples and the various humors and blemishes of the skin are only symptomatic of bad blood that needs purifying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidneys, skin, etc, and strengthening while it regulates and purifies.

CINGALESE. A name well known in connection with the HAIR RENEWER, which restores grey hair to its natural color by a few weeks use. Sold at 50 cents per bottle by all Druggists.

Samson lost his strength with his hair. Thousands of men and women lose their beauty with theirs, and very large numbers restore the ravages of time by using the famous Cingalese Hair Restorer. Sold at 50 cents per bottle by all Druggists.

DELAYS are dangerous, particularly in Kidney Diseases, so take at once DR. VAN BUREN'S KIDNEY CURE and obtain relief from all your sufferings. Your Druggist keeps it.

The market is full of preparations for the hair, some of them good, and many of them good for nothing. R. P. Hall & Co., of Nashua, N. H., manufacture and sell an article of real merit, which has been advertised in the *Express* for the past year, and we have taken no little pains to inquire how it has been liked by the public. One of our druggists informs us that he has sold more than double the amount of Renewer than of all other hair preparations combined, and when a person once uses it, he will use no other: that it is not only bought by the young people as a dressing, but by older persons for removing dandruff, preserving and increasing the growth of the hair and restoring its natural color. Another druggist says that he sells three or four times as much of Hall's, as of all others.—*Hampshire Express, Amherst, Mass.*

Asthma and Bronchitis Cured.

HALIFAX, N. S., Jan. 1882.

C. M. PUTTNER, Esq., PH. M.:

SIR,—I consider it my duty, not only to yourself, but to my fellow creatures who are suffering from Asthma and Bronchitis, as I had for some time previous to using your "Emulsion of Cod Liver Oil with Hypophosphites," to give my testimony to the most wonderful good effect it had. Having suffered for some time with Asthma and Bronchitis, accompanied with great nervous exhaustion, and having carefully read your Essay on the combination and uses of your Emulsion, I was persuaded to give it a trial, and on using two bottles I began to receive great benefit and relief, and after using three bottles I was completely revived and am to-day perfectly free from either Asthma or Bronchitis, and my nervous system much invigorated and built up. I have found it very pleasant and palatable, and with no taste of the oil whatever, and can with great confidence recommend it to those suffering as I did previous to taking your compound. In conclusion, I consider I owe you a debt of great gratitude for the benefit I have received from your Emulsion and only hope that many may be induced to give it a trial, and receive as great benefit as I have from its use. I am, yours, &c.,

ALEX. STEPHENS, SR.,
Merchant.

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrah, Bronchitis, Asthma and Lung Disease by Dr. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the seat of disease. Read and judge for yourself:—

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. JOHN P. WHELAN, Manager of POST and TRUE WITNESS, Montreal. Mr. C. HILL, Montreal, catarrh and bronchitis. Mr. DEBOUCHERVILLE, of the Indian Department, Ottawa, catarrh of many years; now cured. Mr. GEO. AGER Ottawa, catarrh and lung disease; cured. Mrs. SMITH, London, wife of Medical Detective, cured of catarrh. GEO. MAGUIRE, Toronto, 482 Adelaide street West; daughter cured of asthma. GEORGE WILLIS, Exeter, Ont., catarrh and bronchitis. J. D. ARMSTRONG, 186 Yonge street, Toronto, catarrh and catarrhal deafness. THOMAS TELFER, 12 Melinda street, Toronto, asthma; cured. Mr. BENJ. A. DRAKE, St. Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. BENOIT, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma and bronchitis for over eight years, and who is now perfectly cured.

Mrs. ADAMSON, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitating in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis. JOHN C. FLEMING, Editor of POST and TRUE WITNESS, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write, inclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souvielle and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

UNCONDITIONAL, INCONTESTABLE

LIFE POLICIES.

THE objection is often made that the Companies may take advantage of some of the conditions on their Policies, and thus either avoid entirely the payment of claims, or compromise with the widow for a small sum. This argument cannot be used against

THE SUN

LIFE ASSURANCE CO'Y OF MONTREAL,

which issues absolutely unconditional policies to selected lives. There is no restriction of any kind on them. The assured may travel to any part of the world without extra premium. He may change his occupation at will, or do anything else he chooses. The contrast is remarkable with other policies. Ask an agent to show you one; it speaks for itself.

THE BEST REMEDY

FOR

Diseases of the Throat and Lungs.

AYER'S
CHERRY
PECTORAL.

In diseases of the pulmonary organs a safe and reliable remedy is invaluable. AYER'S CHERRY PECTORAL is such a remedy, and no other so eminently merits the confidence of the public. It is a scientific combination of the medicinal principles and curative virtues of the finest drugs, chemically united, of such power as to insure the greatest possible efficiency and uniformity of results. It strikes at the foundation of all pulmonary diseases, affording prompt relief and rapid cures, and is adapted to patients of any age or either sex. Being very palatable, the youngest children take it readily. In ordinary Coughs, Colds, Sore Throat, Bronchitis, Influenza, Clergyman's Sore Throat, Asthma, Croup, and Catarrh, the effects of AYER'S CHERRY PECTORAL are magical, and multitudes are annually preserved from serious illness by its timely and faithful use. It should be kept at hand in every household for the protection it affords in sudden attacks. In Whooping-cough and Consumption there is no other remedy so efficacious, soothing, and helpful.

Low prices are inducements to try some of the many mixtures, or syrups, made of cheap and ineffective, ingredients, now offered, which, as they contain no curative qualities, can afford only temporary relief, and are sure to deceive and disappoint the patient. Diseases of the throat and lungs demand active and effective treatment; and it is dangerous, experimenting with unknown and cheap medicines, from the great liability that these diseases may, while so trifled with, become deeply seated or incurable. Use AYER'S CHERRY PECTORAL, and you may confidently expect the best results. It is a standard medical preparation, of known and acknowledged curative power, and is as cheap as its careful preparation and fine ingredients will allow. Eminent physicians, knowing its composition, prescribe it in their practice. The test of half a century has proven its absolute certainty to cure all pulmonary complaints not already beyond the reach of human aid.

THE ROYAL INSURANCE CO.

Of England.

CAPITAL	$10,000,000.
Funds Invested	$23,000,000
Annual Income	5,000,000.

Over $600,000 invested in Canada for the protection of Canadian Policy holders.

Farm Property Insured against damage by Lightning. Losses to live stock by lightning and fire anywhere on the farm made good.

FACTS WORTH REMEMBERING.

The Royal has the largest surplus funds of any Fire Insurance Company in the world.

The Royal has the largest deposit with the Dominion Government of any other Insurance Company.

The conditions of the Royal's Policies are more liberal than those of other Companies doing business in Canada.

In conclusion remember that security should be the first consideration, and that it is to your interest to insure with the Company that gives the *greatest* security. You may better carry your own risk than entrust it where you have not absolute security.

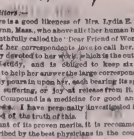
DISTRICT AGENT

A NOTED BUT UNTITLED WOMAN.

[From the Boston *Globe*.]



Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of *either* sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Philadelphia, Pa. (3) Mrs. A. M. D.

Daily Intelligencer.

About Coal.

(*From the Halifax Herald.*)

The coal duties were never intended to be prohibitory. It is, therefore, with no feelings of discomfiture that we see the continued importation of American coal into Ontario. The duty on coal is a legitimate source of revenue as the duty on clothing. Both articles of merchandize serve the same purpose. And if it is found that our neighbors across the way pay the coal duty for us, there is the additional gratification of adding to our revenues without additional taxation. So long as it lasts, the Ontario consumers need not complain of increased taxation. Of the effect that the method of the dealers has on our coal procuring interests, we shall speak presently.

While the coal tax is not in itself any more objectionable than the tax on oil, and is therefore, a legitimate source of revenue, that is not its only or principal purpose. Its primary purpose was to secure a sale for Nova Scotia coal in neutral markets, or markets that were nearly neutral. That this end has been accomplished no one now doubts. Quebec is such a market. In 1878 the quantity of coal sent from Nova Scotia to Quebec was 84,000 tons. Last year it had risen to 268,600 tons. This increase had been constant and gradual. In 1879, during the greater part of which there was a duty on coal, 153,000 tons were sent to Quebec. In 1880 the amount was 239,000. The most earnest advocates of the protective duty on coal could not have hoped for more than this, that our exportation to one Province should be more than trebled in three years.

Our opponents say that the duty has been ineffective, inasmuch as the importation into Quebec from abroad has greatly increased. The obvious reply is that while the quantity sent from Nova Scotia to Quebec has increased 320 per cent. what it was in 1878, the quantity imported into that province from all other countries is only 122 per cent. of the importation in 1878. Four years ago Quebec bought 41 per cent of her coal from Great Britain, 34 per cent. from the United States, and 25 per cent. from Nova Scotia. Last year, less than 36 per cent from Great Britain, less than 28 per cent. from the United States, and more than 46 per cent. from Nova Scotia.

The returns of the current year, so far as they are now in, show a more marked increase, and the moral in favor of protection for coal will be doubly pointed, and the tale of prosperity in that industry adorned still more when the full returns arrive. It is proper also to state that the increase in the relative quantity shipped from Nova Scotia into Quebec, dates from the year that the coal duties were imposed. Previous to that time the sales of Nova Scotia coal in Quebec had been falling off.

The following figures show the decline and fall and the subsequent rise and progress of our coal trade with Quebec. It is worthy of attention, as that Province is our best market.

We sold to Quebec:—

1873	187,059	tons.
1874	162,269	"
1875	189,794	"
1876	117,303	"
1877	95,118	"
1878	83,710	"
1879	154,118	"
1880	239,091	"
1881	268,628	"

The sale will probably be over 300,000 tons this year.

Now, one word to the charge that no benefit can come to Nova Scotia mines if the Pennsylvania dealer pays the duty. The fact that good *has* come to the mines, while the Pennsylvania dealer has paid the duty, might be held a sufficient answer, but as our opponents have a decided aversion to the inductive method, we shall show easily how it is. Suppose the chances are equal between us and the U. S., for coal sales in Quebec. They have the duty against them and must throw off 50 cents a ton to get a share of the market. They do that and manage to hold their own, take a share of the trade, and make a very small profit, say 10 cents a ton. Then the moment that a piece of railway is built, shortening the distance between our coal fields and the market; or the instant that the capacity of our mines is increased, so that coal can be produced 10 cents per ton cheaper than before, the Pennsylvania man loses his profit and abandons the market. This is occurring in Quebec, and will happen in the eastern portion of Ontario. For coal can be raised cheaper when more of it can be raised, and the facilities for carrying it are increasing. Hence the increased output of the Nova Scotia mines, which have nearly doubled their production within the last four or five years, and have only begun to expand.

Trotting Extraordinary.

DIVULGING A SECRET—LADY THORNE'S MYSTERIOUS MILE—DID SHE EQUAL MAUD S.'S BEST RECORD?

From the Spirit of the Times.

We presume our readers have all heard of that very private trial, in the year 1870, when Mace drove Lady Thorne a ghostly mile in the gray of the morning, and only two others, John L. Doty and William H. Saunders timed the mare. In regard to this trial, her driver said: "I never saw Lady Thorne trot a full mile at her best but once, and there are two other men living besides myself who can tell how fast that was, but I shall never tell, and it is probable that they will not. It was so fast that I would never mention the time. But I will say this much: It was a faster gait for the whole than I ever saw kept up by any other horse for a single quarter." For a round dozen of years did Dan Mace maintain his determination to "never tell," but in an unguarded moment, a short time ago, out popped the secret. On the occasion to which we refer Dan had become much interested in conversation with a gentleman about that year, 1870, when Lady Thorne was to meet Goldsmith Maid at Buffalo. She had beaten the Maid whenever they had contended on Eastern tracks, but the party of the little bay mare were quite confident of a victory at Buffalo. Dan, after the trial referred to, felt abundant confidence himself, and he related, on this recent occasion, how he met Mr. Smith, the owner of the Maid, and told him he would beat her.

"But," said Mr. Smith, "we can trot three heats better than 2:20"

"So can I," said Dan.

"We can trot three heats better than 2:18."

"So can I," said Dan.

"We can trot three heats in 2:16."

"So can I," said Dan.

The gentleman to whom Mace related the foregoing conversation casually asked, "Why, Dan, how fast did you ever drive Thorne?"

Dan impulsively replied: "I drove her a mile just as fast as a mile was ever trotted in public, and the last half in 1:05."

The secret of the decade was now more fully out. Lady Thorne trotted a mile in 1870 in 2:10¼, last half in 1:05, timed by two of the most experienced men on the turf, both still in the flesh, and driven by a man who now lacks only three years of his three score.

As a cure for all diseases of the Lungs, DOWNS' ELIXIR has no equal.

Colonization Companies.

Nearly 300 Northwest colonization companies were formed last winter and this spring, all of course with brilliant prospectuses. But before the second payments had become due, the shareholders in 283 of these concerns had realized the fact that far away fields look greener than they often turn out to be. The second payments fall due on September 1, and of the 300 companies, only seventeen were able to meet them, as follows:—

Dominion Lands Colonization Co.
P. Purcell and others.
Dustan, Scarth and others.
Montreal and Western Co.
Dundee Land Investment Co.
Shell River Co.
Scottish Ontario and Hamilton Co.
William Sharples and others.
W. H. C. Meyer.
P. V. Valin.
Prince Albert Colonization Co.
York Farmers' Co.
Primitive Methodist Co.
Temperance Colonization Society.
Farmers' N. W. Land Co.
Alexander Scott and Timothy Hay.
E. J. A. Balfour.

Among the other unfortunates the Press Colonization Company came to grief. What course the Government will pursue with regard to the defaulters remains to be seen. The indentures of agreement provide that in case of default, the contract with the Department shall be cancelled and the reserves revert to the public domain. The prompt enforcement of that provision would be hailed with satisfaction throughout the Northwest.—*Winnipeg Times.*

A Famous Rogue Elephant Shot.

From the Pall Mall Gazette.

Mr. Albert G. R. Theobald of the forest department has succeeded in shooting the famous rogue elephant of the Proonassy hills in the Kollegal Taluk. Mr. Theobald was twice charged by the brute, which was a huge tusker measuring eleven feet in height, and which kept the hill villagers in terror for a very long time. This elephant was a few years back driven with twenty-four others into the Kollegal Keddah, at Allambady, but he resisted every effort to capture him, and, being such a large tusker, no pains were spared to secure him, though it was all in vain.

Out of the twenty-four elephants captured with him, he killed no less than nineteen, and finally broke through the keddah gate in spite of the shots fired at him and the fires kept burning. After his escape he is known to have killed three, two women and a man, and many others had very narrow escapes from his furious headlong charges. Besides human beings he has killed several cattle and destroyed great quantities of standing crops, causing immense loss to the ryots.

Take no more nauseous purgatives. Burdock Blood Bitters act mildly, pleasantly and thoroughly upon the Bowels, and occasion no inconvenience, while it regulates the Liver and Kidneys and tones the enfeebled system. Trial bottles 10 cents.

At the approach of spring great attention should be given to purify the system engorged with foul humors during the winter. Burdock Blood Bitters is Nature's own purifying and regulating tonic.

Rheumatism is greatly dependent on a vitiated condition of the fluids, and may be eliminated from the system by cleansing the Blood and regulating the Kidneys. Burdock Blood Bitters will do this most effectually. Trial bottles 10 cents.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle. 264ly

HACKED BY INNUMERABLE PANGS, restless by day, sleepless at night, rising unrefreshed in the morning, without appetite and pestered by varying and perplexing symptoms, the dyspeptic takes indeed a gloomy view of human existence. For him the zest of life seems gone. Heartburn, oppression at the pit of the stomach, and the attendant annoyances of of constipation and biliousness, combine to render him utterly wretched. But there is, if he will but take advantage of it, a reliable source of reliable relief from all misery. NORTHROP & LYMAN'S VEGETABLE DISCOVERY and DYSPEPTIC CURE is, as its name imports, a botanic preparation, free from mineral poison, and an all-sufficient remedy for indigestion in its most obstinate form. It not only enriches the blood by enabling the digestive organs to convert the food received into nutriment, but depurates it by increasing the action of the bowels and kidneys, the natural outlets for its impurities. But while it relaxes the bowels, it never does so violently and with pain, like a drastic cathartic. It aids, but never forces, Nature, invigorating as well as purifying and regulating the system. It thoroughly removes those diseased humors which tend to vitiate the blood, purifies the urinary secretion, and promotes a flow of healthy bile into the natural channel, besides expelling it from the circulation. Experience has proved that this standard medicine is a thorough remedy for dyspepsia, biliousness, costiveness, kidney complaints, scrofula, erysipelas, salt rheum, lumbago and all impurities of the blood. Price $1.00. Sample Bottle 10 cents. Ask for NORTHROP & LYMAN'S Vegetable Discovery and Dyspeptic Cure. The wrapper bears a *fac-simile* of their signature. Sold by all medicine dealers

Rest and Comfort to the Suffering

"Brown's Household Panacea" has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful." "Brown's Household Panacea," being acknowledged as great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle. 264ly

CINGALESE. A name well known in connection with the HAIR RENEWER, which restores grey hair to its natural color by a few weeks use. Sold at 50 cents per bottle by all [illegible]

[illegible] his strength with his hair. Thousands of men and women lose their [illegible] with theirs, and very large numbers [illegible] ravages of time by using the famous [illegible] Hair Restorer. Sold at 50 [illegible] bottle by all Druggists.

[illegible] are dangerous, particularly in Kidneys, so take at once DR. VAN BUREN'S KIDNEY CURE and obtain relief from all your sufferings. Your Druggist keeps it.

The most wonderful curative remedies of the present day, are those that come from Germany, or at least originate there. The most recent preparation placed upon the market is this country, is the GREAT GERMAN INVIGORATOR, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangements of the nervous system. For sale by druggists, or sent free by mail on receipt of the price, $1.00 per box, or six boxes for $5.00 Address James Clark & Co., Sole agent for Belleville. Send for circular.

AFTER many years of patient investigation DR. VAN BUREN, of Germany, finally succeeded in perfecting a Kidney Cure that would permanently relieve all cases of Kidney Disease. Be sure and ask your Druggist for DR. VAN BUREN'S KIDNEY CURE.

WILL YOU EXCHANGE a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys.

Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

Daily Intelligencer.

BELLEVILLE, FRIDAY, SEPT. 22.

British Valor.

Great as was the achievement of the British army in the late war in Egypt in attacking a force double their number in a strongly entrenched position, and putting them to the rout, it was but another illustration of the fact that the British are unconquerable. As a feat of arms it has many times been surpassed by the British soldiers of former times, notably at Balaclava and Inkerman, and during the campaigns in the Peninsula. One of the grandest instances of British courage, dash and perseverance was furnished by the fusilier brigade at Albuera. In this action Soult, with 19,000 choice infantry, 4,000 cavalry and about 2,000 men of other arms, including a numerous and powerful artillery, attacked the British, Portuguese and Spaniards, under Marshal Beresford, who were covering the siege of Badajos, to raise which was Soult's object. The British numbered about 8,000, and the remainder of the force, nearly equal to that of the French, was made up of Portuguese and Spaniards—chiefly of the latter. The French General attacked that part of the position, held by the Spaniards, and nearly all the Dons fled, whilst one or two of their regiments kept up a mad, blind, unabating fusilade, which fell heavily not upon the enemy, but upon the British, who had rushed to their aid. Our two or three regiments, which alone held the height that formed the key of the position, had run out of ammunition, and the whole of the French army, in heavy masses, were crossing the height and placing their artillery, having swept all before them. Beresford considered the day lost and was issuing orders for a retreat; but there was a gallant young officer on the field who saw that the battle might yet be won. This was Lieut. Col. Hardinge—afterwards Viscount Hardinge—who, on his own responsibility, hurled General Cole's fusilier brigade of about 6,000 men against the enemy, who numbered not less than 25,000. The result was that the fight was won for the British, but at a fearful cost. The charge—perhaps the greatest deed of valor in the military annals of the world, numbers and quality of the opposing forces considered—is thus described by Sir William Napier, in words which will live as long as the language does and form a model for historians for all time to come:

"Such a gallant line issuing from the midst of the smoke, and rapidly separating itself from the confused and broken multitude, startled the enemy's heavy masses, which were increasing and pressing onward as to an assured victory. They wavered, hesitated, and then vomiting forth a storm of fire, hastily endeavored to enlarge their front, whilst a fearful discharge of grape from all their artillery whistled through the British ranks. Sir William Myers was killed, Cole, and the three colonels, Ellis, Blakeney and Hawkeshaw, fell wounded, and the fusilier battalions, struck by the iron tempest, reeled and staggered like sinking ships. Suddenly and sternly recovering, they closed with their terrible enemies, and then was seen with what a strength and majesty the British soldier fights. In vain did Soult, by voice and gesture, animate his Frenchmen; in vain did the hardiest veterans, extricating themselves from the crowded columns, sacrifice their lives to gain time for the mass to open out on so fair a field; in vain did the mass itself bear up, and, fiercely arising, fire indiscriminately on friends and foes, whilst the horsemen, hovering on their flank, threatened to charge the advancing line. Nothing could stop that astonishing infantry. No sudden burst of undisciplined valor, no nervous enthusiasm weakened the stability of their order; their flashing eyes were bent on the dark columns in their front; their measured tread shook the ground; their dreadful vollies swept away the head of every formation; their deafening shouts overpowered the dissonant cries that broke from all parts of the tumultuous crowd, as foot by foot and with a horid carnage, it was driven by the incessant vigor of the attack to the farthest edge of the hill. In vain did the French reserves, joining with the struggling multitude, endeavor to sustain the fight; their efforts but added to the irremediable confusion, and the mighty mass, giving way like a loosened cliff, went headlong down the steep. The rain flooded after in torrents discolored with blood, and 1,500 unwounded men, the remnant of 6,000 unconquerable British soldiers, stood triumphant on the fatal hill."

No wonder that, with such glorious examples set by their forefathers, the British troops are practically unbeatable.

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists,

Another Wreck.

THE SCHOONER NELLIE SHERWOOD GONE TO THE BOTTOM.

The Kingston *News* says:—Private advices to a gentleman in this city announce that the schooner *Nellie Sherwood*, with Capt. Blanchard and a crew of four, was lost off Cabot's Head Point, Georgian Bay, on Monday last. The *Sherwood* was owned by Mr. Pierson, of Owen Sound, and was bound for Algoma Mills, loaded with building stone. She was formerly owned by Messrs. Folger Bros., of this city; but was sold last spring to her present owner

Don't die in the House.

"Rough on Rats." Clears out rats, mice, roaches, bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

Hall's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by Jas. Clarke & Co., Belleville, Ont.

Correspondence.

Whilst correspondents will be accorded space for the expression of their ideas on topics of public interest, it must be in all cases understood that the views so expressed are simply those of the correspondents themselves.

To the Editor of the Intelligencer.

SIR,—Will you please let me know where all the new crossings have been placed that so much has been said about, and which, dear knows, have cost enough? In a walk up and down Front St. to day I failed to discover any place where there was less dirt than another. Will the Alderman who put them down, rise and explain, or what will be much better, get the crossings to rise.

PEDESTRIAN

Belleville, Sep. 21. 1882.

Catarrh of the Bladder.

STINGING irritation, inflammation, all Kidney and Urinary Complaints, cured by "Buchupaiba." $1.

Hop Market.

EXCITEMENT AMONG THE DEALERS LAST MONDAY.

The late "boom" in hops, says the New York *Commercial Bulletin*, which has been smouldering for some few weeks past, broke out anew yesterday, and at the close of business city dealers were refusing to sell except at an advance of five cents per pound over the prices current the middle of last week. Telegrams from the hop growing sections of this state reported a similar condition of affairs there, by reason of growers asking 65 cents per pound for best qualities. The excitement was brought about by cable reports that the extraordinary prices of £15 per cwt had been paid for American hops in London on Saturday last, and of additional bids of the same price for additional lots, together with authentic reports that the German crop is turning out 25 per cent. less than was promised a short time since. "The American crop," said a prominent dealer, "will not be within 26 per cent. of last year; England's crop is a total failure, and Germany will have very few hops beyond what will be needed there. England alone consumes 600,000 cwts., and will raise but 65,000 cwts., while for the balance Germany can be depended upon for not over 100,000 cwts., and America for but 50,000 cwts. This you see, leaves a balance of 320,000 cwt., that can be secured only by English brewers overbidding everybody else." Within about three days, according to current reports, fully 5,000 bales have changed hands here and in the interior markets, and fully one-half the new crop has already passed from first hands. Most of this stock was purchased at 55c. to 58c per pound, but nearly all the large dealers are refusing less than 60c to 65c., according to quality, and some of them remarked that they would not give more than twenty-four hours' refusal of those prices. The more sanguine dealers went so far as to predict that 75c. will be paid within two months.—*Utica Herald.*

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinary or Liver Diseases, as they only relieve for a time and make you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

Crimes and Accidents.

ST. JOHN, N. B., Sep 19.—Mrs Jas. Trainer, of Mill Cove, P. E. I., was accidentally poisoned the other day. Mr. Trainer had bought by his wife's request a mixture of rhubarb and magnesia for her, and at the same time bought a quantity of arsenic in order to poison rats, and put the packages in different pockets. When he got home at 11 p. m., he hung up his coat and went outside. While he was gone one of the children put her hand into a pocket of the coat, took out a parcel and took it to her mother, saying, "There is the medicine father got for you." The mother took some of it, mixed, and drank it. The package proved to be arsenic, and the mother died in a few hours.

ST. JOHN, N. B., Sep. 21—Henry McAndrews, of this city, employed on the Intercolonial Railway, received injuries at Sussex this morning which resulted fatally. He was running along on the top of the cars and his light going out he missed his footing in the dark and fell between two cars of the moving train. He was badly mangled, both arms being wrenched almost from his body and his injuries were such that he died in a few hours.

WOODSTOCK, Sept. 19.—A terrible suicide was committed here on Sunday by Sadie E. Elstone, a much respected young lady. The unfortunate girl, who has only returned home from Grand Haven, Mich, a short time previous, had been troubled with dyspepsia, but did not show any signs of mental aberration. Her family was somewhat surprised that she did not go to church in the evening, it being her custom to attend regularly, but thought nothing of it. Later in the evening, Mr. Hopkins, a next-door neighbor, saw a fire among the newly gathered shocks of corn in Mr. Elstone's field. He ran over, and found the poor victim standing over a fire which she had kindled, holding her arms out, her clothing all burnt off and her hair on fire. He dragged her from the fire, extinguished the flames, and sent for a physician, and to inform the family, who were at church. The unfortunate girl was burnt from her neck to her feet. She lingered for some hours, taking incoherently, and at last, uttering the words "I'm going to Jesus," expired without a struggle. In the house was found a note stating that she was tired of living in this world, and had made up her mind to sacrifice herself. She was a young girl of great aptness and intelligence, and of a sanguine, cheerful disposition, which makes her action the more astonishing.

O. Bortle, of Manchester, Ontario Co., N.Y. writes:—"I obtained immediate relief from the use of *Dr. Thomas' Eclectric Oil.* I have had Asthma for eleven years. Have been obliged to sit up all night for ten or twelve nights in succession. I can now sleep soundly all night on a feather bed, which I had not been able to do previous to using the Oil."

Nervous debility is a result of indiscretion in the mode of living. Heed nature's unerring laws and take Burdock Blood Bitters, the Great System Renovator and Blood, Liver and Kidney regulator and tonic. Sample bottles 10 cents.

BAXTER'S MANDRAKE BITTERS never fail to cure Costiveness and regulate the Bowels.

COUGHS AND COLDS.—If taken in time are easily cured,—if allowed to continue will result in incurable consumption. Allen's Lung Balsam has the confidence and support of the medical faculty, and is recommended by all who are acquainted with its virtues.

News Condensed.

The Pittsburg, Pa., strike has ended.

Stanley, the African explorer, has arrived at Lisbon.

The Imperial Court has been established at the Kremlin in Moscow.

—Conley, of Halifax, has challenged Wallace Ross to row a five mile race.

—The New York Republicans have nominated Mr. Folger as their candidate for Governor.

—About fifty thousand people were in attendance at the Kingston exhibition yesterday.

—The genuine Colorado beetle has appeared in Pictou and Colchester counties, Nova Scotia.

The Venetian police have unearthed the plot for the assassination of the Emperor Francis Joseph of Austria.

—Judge Hagner, of Washington, has granted Senator Christiancy a divorce from his wife on the ground of desertion.

—Commander Rawson, who was recently promoted for his gallantry at Tel-el-Kebir, has just died at Malta of his wounds.

—It is said that the 8th Royal Rifles of Quebec will disband, and return their arms and accoutrements to the Minister of Militia.

—The Right Rev. J. F. Jamot, D. D., has been installed as first Bishop of the newly created Roman Catholic diocese of Peterborough.

—Large quantities of phosphate continue to be taken out of the mines in Templeton. The demand is good at present quotations, from $20 to $22 per ton.

—A courier from Concordia, near Mazatlan, reports that five people were killed in a church there by lightning. A great rush followed and a number were seriously injured.

—Emanuel, *alias* Minnie Marks, *alias* "The Red-headed Jew," one of the most noted sneak thieves in America, has been arrested in Kingston on the charge of stealing a watch.

—The remains of Rev. Dr. Pusey were interred in Oxford Cathedral on the 21st. Mr. Gladstone was one of the pall bearers, and Cardinal Manning accompanied the coffin.

—The fastest time on record in crossing the Atlantic has just been made by the *Alaska*, which has accomplished the voyage from New York to Queenstown in six days and eight hours.

—A plot of the Albanian League to massacre and rob the Christians at Scutari, including the British Consul, was only frustrated by two of the hill tribes, who marched to the assistance of their co-religionists.

—Three of the six guns of H.M.S. *Phœnix*, ashore on Prince Edward Island, have been saved. The crew have been taken on board the *Northampton*, and the commander will be court-martialled on reaching England.

*The term *hydra* may be used to represent any manifold evil. If you would battle successfully with this many-headed monster of disease you will find it expedient to keep Mrs. Pinkham's Vegetable Compound always at hand.—*Dr. Banning.*

—It is stated that owing to the release of a number of prisoners consequent upon the immediate expiration of the Coercion act, the Dublin authorities have sent away certain persons suspected of informing, fearing that they might be murdered if they remained.

—The steamer "Chieftian," arrived at Kingston, reports that during the wind storm on Friday night an oak raft which she was towing was broken up and the timber scattered over the lake. The raft was valued at $100,000, and was not insured.

—An official of the Marine and Fisheries Department, commissioned to hold an investigation into the cause of the disaster to the *Asia*, has left Ottawa for the scene of the occurrence. Immediately upon his arrival, which will probably be to morrow, the investigation will be commenced.

—Combined operations by Gen. Wood on land and Admiral Seymour at sea will be conducted to day for the reduction of Damietta. The fortifications at Kafr-el-Dwar have been abandoned by the British. The project for the evacuation of Egypt by the British troops will have to be abandoned owing to the unsettled state of the country.

,"Do boldy what you do at all." Boldly do we affirm that Kidney-Wort is the great remedy for liver, bowels and Kidney diseases. rheumatism and piles vanish before it. The tonic effect of Kidney-Wort is produced by its cleansing and purifying action on the blood. Where there is a gravelly deposit in the urine, or milky, ropy urine from disordered kidneys, it always cures.

—Nominations took place at Hampton, N. B., on the 20th, for two seats in the local Legislature. For King's, Mr. Morton, Solicitor-General, and Mr. Flewelling were nominated as Government candidates; Dr. Taylor and Mr. G. Rix Price as Opposition candidates, and Mr. J. W. Smith as Independent. The election is next Wednesday.

—The report of the Committee on Union was read at the session of the General Conference of the Methodist Church of Canada at Hamilton on the 21st. It recommends the appointment of a committee of 27, to be elected by each of the Annual Conferences in a certain proportion, to go to Toronto on the last Tuesday in November, there to meet with the Union Committees of other churches, and if a plan of union is agreed on it is mitted to be submitted to the quarterly meetings throughout the Church, and if two-thirds of these meetings vote in favor of it, then the General Conference shall be called together to give effect to the proposed union. The report was not discussed, but was ordered to be printed.

WRECK OF THE PICTON.—The *Mail* says: "Much excitement was occasioned in the city yesterday when a telegram was received by Mr. J. C. McCuaig, announcing that the *Picton* had gone ashore off Rondeau Point, Lake Erie, and a rumor circulated that Captain Dunn, with the crew, numbering eighteen, had gone down. Fortunately, however, the rumor was false, as no lives were lost. The *Picton* belonged to the Bay of Quinte Navigation Company, was built in 1870, and rebuilt at Portsmouth, near Kingston, last winter. She left Toronto last Saturday, having been engaged by the Toronto, Grey, and Bruce railway to run in conjunction with the Africa between Owen Sound and Sault Ste Marie, and was to have made her first trip on Monday next. The Toronto, Grey, and Bruce Railway Company had just spent $800 on her in putting in heating apparatus. She is valued at $25,000, and is insured in the Ætna and Royal Insurance Campanies for $10,000.

PEARLS.—Get your mouth full by using "TEABERRY," the new wonder for the Teeth and Breath. Brush vigorously. See directions. 5 cent samples.

"READING NOTICE."

"Twenty-four years' experience," says an eminent Physician, convinces me that the only cure for "Nervous Exhaustion" and weakness of the generative organs is to repair the waste by giving Brain and Nerve Foods, and of all the remedies I have used Mack's Magnetic Medicine is the best. This remedy is now sold by all our Druggists at 50 cts. per box, or 6 for $2.50, and on receipt of an order for 12 boxes, accompanied with $5.00, addressed to Mack's Magnetic Medicine Co., Windsor, Ont., they will forward the goods free, by mail, and send their "written guarantee" to refund the money, if the treatment does not effect a cure. See a'v't in another column. Sold in Belleville by Jas. Clark & Co,

PROCLAIM it far and wide that DR. VAN BUREN'S KIDNEY CURE not only immediately relieves all Kidney diseases, but what is more important to the unfortunate sufferer, will ultimately cure him effectually.

A SIMPLE herb found on the sunny plains of a Southern clime has, under the skillful manipulation of DR. VAN BUREN, proved one of the greatest blessings ever sent to suffering humanity. DR. VAN BUREN'S KIDNEY CURE is acknowledged all the world over as the only perfect remedy for Kidney troubles. Your druggist has it.

Dropsy is essentially a watery condition of the Blood, dependent upon disordered Kidneys. Burdock Blood Bitters are strongly Diuretic and consequently the best known remedy, acting as it does upon the entire Secretory System.

RUPTURES.

Springless Trusses & Supporters

PROF. G. W. HOTCHKIN.

OF Albion, Orleans Co., N. Y., will again visit as follows:—

TRENTON, St. Lawrence Hall, Nov. 6 & 7.

BELLEVILLE, Anglo American Hotel, Nov. 8, 9, 10, 11, 12 and 13.

PICTON, Royal Hotel, Nov. 14 and 15.

NAPANEE, Campbell House, Nov. 16, 17, and 18.

Prof. H. having had 30 years experience has become master of his profession and *defies* the hernia he cannot hold in its place. He uses different trusses of his own manufacturing for the different hernia. Prof. H. treats Inguinal, Umbilical, Varicocele and children, all of which he has been very successful in this vicinity. Go and see for yourselves. d&wtd

Clerk's Notice of First Posting of Voters' List.

Municipality of the Township of Rawdon, County of Hastings.

NOTICE is hereby given, that I have transmitted or delivered to the persons mentioned in the third and fourth sections of the Voters' List Act, the copies required by said Sections to be so transmitted or delivered of the list, made pursuant to said Act, of all persons appearing by the last revised Assessment Roll of the said Municipality to be entitled to vote in the said Municipality at Elections for Members of the Legislative Assembly, and at Municipal Elections; and that said list was first posted up at my Office, at Springbrook, on the 18th day of Sept., 1882, and remains there for inspection.

Electors are called upon to examine the said List, and if any omissions or any other errors are found therein, to take immediate proceedings to have the said errors corrected according to law.

Dated at Springbrook, the 18th day of September, 1882.

GEO. D. WIGGINS,
d1tw2t Clerk of the said Municipality.

REMOVED.

THE Hastings Loan and Investment Society have removed their Office to Robertson's Block, east side Front Street, opposite Brignall & Thompson's Dry Goods Store.

J. P. C. PHILLIPS,
d4t Manager.

ADMINISTRATOR'S
NOTICE TO CREDITORS.

THE creditors of James A. Clark, late of the Township of Thurlow, in the County of Hastings, Butcher, deceased, who died on or about the fourth day of February, 1882, and all others having claims against his estate are hereby notified to send by post prepaid or otherwise deliver to the undersigned Administrator, with the will annexed, of the estate and effects of the said deceased, at S. A. Lazier's store, Front Street, Belleville, on or before the twenty-first day of October next, their christian names and surnames, addresses and description, the full particulars of their claims, a statement of their accounts, and the nature of their securities (if any) held by them, and in default thereof, and immediately after the said twenty-first day of October next, the assets of the said James A. Clark, deceased, will be distributed amongst the parties entitled thereto, having regard only to claims of which notice shall have been given, as above required. And this notice being given under the provisions of the revised Statutes of Ontario, chapter one hundred and seven, section thirty-four, the administrator will not be liable for the said assets or any part thereof, to any person of whose claim notice shall not have been received by him at the time of such distribution.

Daily Intelligencer.

BELLEVILLE, FRIDAY, SEPT. 22.

City and Vicinity.

MR. THOS. WATKIN shipped about 700 boxes of cheese to Liverpool to-day.

THE Presbyterians of Norwood are talking about an excursion to Belleville.

A MEETING of the Driving Park Association will be held on Monday evening next, in Mr. Corby's office.

THERE was a solitary drunk brought out of the wind and the rain and given shelter in the police cells last night.

ST. THOMAS' CHURCH is being beautifully decorated with fruits, vegetables and flowers for the harvest thanksgiving festival on Sunday.

THE noon train should be called the 2 o'clock train until it gets back to regular habits. It was between 1 and 2 hours late again to day.

REV. MR. BELL, representative of the Irish Society, is to address the people of Belleville on the subject of the aims of the society, on the 11th prox.

MR. M. KERR, of Tweed, while trolling in Stoco Lake, on Wednesday last caught four maskinonge weighing respectively 12½, 15¾, 17¾, and 25 lbs. They were caught inside of three hours.

A SUBSCRIPTION is being circulated in aid of Joseph Hurst, who had his leg broken by the caving-in of the excavation on Octavia St. The object is a worthy one, as Hurst is a man with a large family.

MR. GEO. EAKINS, formerly of Belleville, who has been engaged in the drug business in Campbellford for the past eighteen months, has sold out his stock to Dr. Goldsmith, having determined to retire from business.

SEE Prof. Hotchkin's Springless Truss and Supporter advertisement in another column of this paper. He *defies* the hernia he cannot hold. Go and see him at the Anglo American Hotel, Nov. 8, 9, 10, 11, 12 and 13.

MR. GEO. THOMAS has just received from Birmingham a splendid specimen of the true English bull-terrier. He is without doubt the best-bred dog of the kind that has ever been seen in Belleville. Mr. Thomas is going to have him photographed.

A VERY heavy gale prevailed in this district early this morning, lasting from 4 till 6 o'clock. The wind blew as strongly as it has blown this season. The gale was followed by rain, which continued till about 11 o'clock, when the weather partially cleared.

THE cricket team showed their devotion to the game by going down to Napanee this morning in spite of the heavy wind and rain which were prevailing when they started. The *Annie Gilbert* could not venture out in the gale, and the team went down in one of Lake & Jenkins' large rigs. As the weather has partly cleared, it is probable that a match will be played.

JAMES WHITTEN, of Plum Grove factory, Rawdon, has been awarded the first prize of $50 and a gold medal for the best colored factory cheese, at the Provincial Exhibition at Kingston, also the first prize for white cheese. This is the same gentleman who won the gold medal and $70 at Toronto in 1881 for a similar exhibit.

A GENTLEMAN writes to the Peterborough papers to the effect that Sir Garnet Wolseley had an uncle, a clergyman, who lived for many years in the township of Douro, now included in the village of Lakefield, and who died and was buried there. He also had a cousin named Ivan O'Beirne who was for many years a resident of Peterborough. Probably Sir Garnet's early nurses will soon be coming forward to claim a share in his popularity.

WEATHER PROBABILITIES—Toronto, Sep. 22.—Lakes, fresh to strong winds, gradually shifting towards the west, cloudy weather with rain areas, followed by partially clearing weather, stationary or higher temperature.

WARNING.—If the young man who is defacing and tearing down the bills offering $500 reward for information regarding the late fires, and the West Hastings Agricultural bills, does not desist he will be summoned before the Police Magistrate and punished as the law directs.

ATKINSON'S "JOLLITIES."—This nondescript performance was witnessed by a large audience last night. It was one of the performances of that class which a person laughs at because he cannot help it, and afterwards is rather disgusted with himself for doing so. It was one of those performances in which the matter is nothing and the manner is everything. There was no plot to speak of; the music was tame and commonplace; the libretto and dialogue were contemptible—(they were written by C. F. Pidgin, by the way, and may be called "Pidgin English"); there was no attempt at true delineation of character (excepting the maid-of-all-work of Miss Chester, which, though greatly overdrawn, was very life-like in its way); the piece was unredeemed by a spark of genuine wit or a ray of real humor; it was simply a mixture of pure grotesquerie and unadulterated nonsense. And yet, granting all this, we would venture to say that there was not a person in the audience who was not amused in spite of himself—not at anything which was said or done as much as the way in which it was said or done. Miss Temple has a pleasant though not a powerful voice, and an easy and graceful manner. She is also extremely good-looking, but is too conscious of her good looks. Mr. Stevens has a good tenor voice, but does not know how to use it. The other two performers, Messrs. Felch and Daniels (Miss Chester we have already mentioned) were successful in creating new characters; they must have evolved them from their own inner consciousness, for they most assuredly never saw anything like them in real life.

MATRIMONIAL.—It is our pleasant duty to announce that Mr. Duncan Shaw (formerly a clerk in the Belleville branch of the Montreal Bank) and Miss Dora O'Hare, eldest daughter of the late John O'Hare, Esq., were quietly married this morning at St. Thomas' Church by Rev. Mr. Burke. Mr. Shaw is now a prominent citizen of Brandon, Man., and is the proprietor of extensive and valuable tracts of land near that embryo city. He was one of the pioneer surveyors of the Canada Pacific Railway, and few men have as extensive and at the same time as intimate a knowledge of the Northwest as he. Mr. Shaw has made good use of his knowledge, and bids fair to become one of the wealthiest and most influential men of that section of the Northwest which he has chosen as his future home. During his residence in Belleville he made many warm friends, who will be heartily glad to learn of his prosperity. As for the bride, she has long been one of the most popular and most highly esteemed of the young ladies of Belleville, and she will bear with her to her new home warm wishes for her future happiness from innumerable friends. The bride and bridegroom left for the east by the noon express. In ancient times every wedding feast had its bard; but in these degenerate times such occasions are described in the most prosaic prose. Let us make an exception in this case, and celebrate the auspicious of this morning by the best imitation event which, on such short notice, we can furnish of Burns' celebrated song:—

Duncan Shaw cam' here to woo—
Ha, ha, the wooin' o't!
Cam' an' saw, an' conquered too—
Ha, ha, the wooin' o't!

Conquered, an' was conquered by
(Ha, ha, the wooin' o't!)
A lassie wi' a deep blue eye—
Ha, ha, the wooin' o't!

But Duncan westward needs must roam,
Ha, ha, the wooin' o't!
To find his lass a braw new home—
Ha, ha, the wooin' o't!

He roamed the west for many a year,
Ha, ha, the wooin' o't!
An' rich he grew in wardly gear -
Ha, ha, the wooin' o't!

Now eight lang weary years are sped,
Ha, ha, the wooin' o't!
Duncan Shaw comes back to wed—
Ha, ha, the wooin' o't!

So here's to Duncan an' his wife,
Ha, ha, the wooin' o't!
Health, wealth, good luck, an' a merry life!
Ha, ha, the wooin' o't!

BEFORE purchasing Ready made Clothing be sure and look through HENNESSY'S stock. He has over 300 suits in all, and is offering them at actual cost.

NEW CONSERVATIVE DAILY.—We learn that a number of Conservatives in Brockville, recognizing the necessity which exists for a Conservative daily in that town, have formed themselves into a Company and purchased Merrill's job office, whence they will shortly issue a daily journal, to be called the *Times*. We wish the venture success.

HARVEST TIME.—Every season is a harvest time in some country of the globe. In Australia, New Zealand, Chili, and some other countries in South America the harvest takes place January. In India it begins in February and is completed in March. In Mexico, Persia and Syria it takes place in April; in Asia Minor, Algeria, Morocco and parts of China and Japan in May, and after this in California, Spain, Portugal, Italy, Sicily, Greece and some of the southern departments of France. In July it begins in France, Austria, Hungary, Poland, Russia and the Middle United States. The turn of Germany, Belgium, Denmark, and Holland comes in August, and of Scotland, Northern America, Sweden and Northern Russia in September.

Excellent reasons exist why *Dr. Thomas Eclectric Oil* should be used by persons troubled with affections of the throat or lungs, sores upon the skin, rheumatic pains, corns, bunions, or external injuries. The reasons are, that it is speedy, pure and unobjectionable, whether taken internally or applied outwardly.

A New Principle.

The principle upon which PUTNAM' PAINLESS CORN EXTRACTOR acts is entirely new. It does not sink deep into the flesh, thereby producing soreness, but acts directly upon the external covering of the corn, separates it from the under layer, removes the direct pressure from the part, and at once effects a radical cure, without any pain or discomfort. Let those who are suffering from corns, yet skeptical of treatment, try it, and by the completeness of the cure they will be ready to recommend Putnam's Painless Corn Extractor to others. Sold by W. R. Carmichael.

The Katie Gray at Toronto—How She lost the Race.

From the Oswego Express.

The yacht *Katie Gray*, Captain W. B. Phelps, jr., has arrived home again after a tempestuous voyage from Toronto, to which place she went with the intention of taking part in all races of her class, at the regatta held by the Toronto Yacht Club. Capt. Phelps found it impossible to procure an efficient crew until the last day's races, when Capt. Alex. Cuthbert took the yacht, and with four sailors who had never been aboard of her before, started in the race. She crossed the line at the start 32 minutes after the *Emma*, *Gracie* and *Gipsy* about one and a half miles behind them. As the second buoy was about to be turned, the *Katie Gray* suddenly dodged in among the leaders, crossing the bows of the *Gracie* and *Gipsy*, and rapidly bore down on the *Emma*, which was in the advance. The crew of the latter were surprised at the *Katie's* sudden appearance, supposing that she had not started. Balloon jibs, water sails and everything that would "pull" was crowded on, and the Oswego and Toronto yachts, sailed by two of the most experienced yachtsmen on the lakes, Dow Claus in the Emma and Capt. Cuthbert in the Gray, began to race in earnest. As they glided by the home buoy, the distance was reduced to a few lengths, and two minutes and fifty seconds went down to the winner. The Katie Gray gained over 28 minutes on the Emma, but the rules of the yacht club read, "no time will be allowed for crossing the line late," hence the Gray lost the race. The Gracie came in five minutes after the Katie Gray, with the Gipsy far in the rear. In the Katie Gray's race with the Emma at Belleville, in 1880, Capt. Cuthbert sailed the latter and Dow Claus the former. It was the most exciting race ever held in the Bay of Quinte. The Gray won.

If Nearly Dead

after taking some highly puffed up stuff, with lond testimonials, turn to Hop Bitters and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes, or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides, it is the best family medicine on earth.

A Cheese Factory in Court.

A very interesting case to cheese makers and patrons of factories, was tried by jury at the Division Court in Campbellford, last Thursday, the parties concerned being Mrs. Laura Allan and Mr. George Connors. The plaintiff is a cheese maker and was employed by the defendant at the "Woodlands" cheese factory in Seymour west, for the season at a salary of $100. For several mornings in succession Mrs. Allan was late arriving at the factory, and the explanation she gave in accounting for her absence was that she had been picking berries. Mr. Connors reminded her of her neglect of duty, and three times threatened to discharge her if she did not be more punctual. Upon the same thing occurring, Mr. Connors paid her for the length of time she had been in the factory and dismissed her from his service. The plaintiff refused to be dismissed, on the ground that she was employed for the season, and left only through threats, as she claimed, of being ejected from the premises. At this treatment she entered an action against the defendant to recover the balance of the wages and the amount of her board, for the remainder of the season. At the Court the plaintiff tried to prove that though late she was always on duty prior to the arrival of the last drawing, and in readiness for the heating of the milk; while the counsel for the defendant endeavored to show a breach of the agreement between the parties which justified the action of Mr. Connors Several witnesses were called, and the case occupied the attention of the Court for hours. The jury returned a verdict for the plaintiff for $30 and costs. Messrs. Holden and Anderson, of Belleville, acted as Counsel for the plaintiff, and Mr. Clute, of the same city, for the defendant. We believe Mr. Connors will apply for a new trial.—*Campbellford Herald.*

A Unique Description of Talmage.

Talmage is described as follows by the Boston *Herald* correspondent:—

"His mouth, like his church, is more commodious that of any other American clergyman. Otherwise he is a common-looking man. His hair is straight, and reaches to his coat-collar behind, but not nearly to his forehead in front. When he smiles you know it, but you do not see the idiotic grin of a clown. He steps high in walking to and fro on the platform, but does not jump up and crack his heels to-gether. He uses his arms freely in gesticulation, but they never look like more than two. He is not a jumping jack—at least he was not on this occasion. Perhaps there was nothing in the sermon exciting enough to pull the string." The same writer credits Talmage with memorizing his sermons so perfectly that, without copy or notes, his delivery is almost, sentence for sentence, identical with the manuscript which he had studied. "When it is considered," he says, "that the longest role in a play seldom equals a sermon in length, and that the actor is aided by the breaking up of his lines into dialogue, by the dramatic situations in which he is placed, and by the prompter, whenever his recollection fails, then Talmage's two feats of memory every Sunday may be fully commended."

A BIG SUN DIAL.—Mr. Jardine, M. P., has recently had erected, in the grounds at Castlemilk, a sun dial of extraordinary dimensions. It consists of a large twenty triangular-sided stone supported on a pedestal thirteen feet high, and is after the style of Queen Mary's dial in Holyrood grounds. There are altogether fifteen dials. Two indicate Greenwich time, two tell the time of night by the moon; the others indicate the rising and setting of the sun, the length of the day; tell when it is noon at the principal places over the globe, the sun's declination, etc. Altogether the structure is a novelty, and has been exciting wonder among the simple folks about Lockerbie.—*London World.*

—It is now announced that the sole object of the Czar visiting Moscow is to see the Exhibition, which closes on October 1, and that no improvised coronation will take place.

—At the Kent Assizes on the 21st, Wm. Rowland, a farmer of Howard township, was found guilty of the murder of his wife by shooting her on June 14th. He was recommended to mercy by three of the jury. His Lordship passed capital sentence, but declined to make any recommendations to the Executive Government either for or against the prisoner. The defence set up was that the shot was fired under the influence of a delusion or hallucination, as indicated by the notion that his wife was trying to poison him.

SMITH MEDICINE Co.

GENTLEMEN,—I have made a trial of one box of Dr. Smith's Great German Worm Remedy, with such good effect that I have no hesitation in recommending it to the public as a prompt and reliable medicine. In fact, those who use it once will always do so. Yours truly,

J. Harvie, 172 Cadieux street.
Montreal, December 9th, 1881.

One dose of BAXTER'S MANDRAKE BITTERS will relieve Sick Headache. One bottle effects a cure. Price 25c. per bottle.

For 30 Years

The dark-eyed and lovely daughters of Spanish America have used MURRAY & LANMAN'S FLORIDA WATER as their only cosmetic and toilet perfume. It is the most fragrant, as well as the most lasting of all Floral Waters, and possesses refreshing and invigorating properties not contained in any other preparation of the kind.

LATEST FROM EGYPT.

Arabi Trying to Justify Himself.

CAIRO, Sept. 22.—It is stated that Arabi says he never wrote a letter to Gladstone nor authorized anybody to write one. He also says he never himself had any political communication with the Sultan. It is stated that after the massacre of the Christians at Tantah, Arabi sent the military to hang 12 ringleaders of the mob. He also sent orders through the country that the Christians must be left unmolested under pain of death.

MORNING DESPATCHES.

EUROPEAN.

PRICE OF CHEESE.

LIVERPOOL, Sep. 22.—Cheese, 55s.

EXHIBITION BUILDINGS BURNED.

LONDON, Sep. 22.—The Exhibition building at Sydney, New South Wales, has been burned with all the contents.

FATAL DUEL.

ST. PETERSBURG, Sept. 22.—Lieutenant Stalephie Prebrajenski, of the guards, fought a duel on Wednesday with pistols at 15 paces, with Capt Skakawskai. Three officers and Count Zalabub were witnesses. Three shots were to be fired. Skakawskai fell at the first shot, slightly wounded in the side, but in falling mortally wounded Stalephie. The cause of the duel was a long enmity.

QUEENSTOWN, Sep. 22.—Arrived, *Bothnia.*

AMERICAN.

THE STAR ROUTE TRIAL.

WASHINGTON, Sep 22.—Dorsey's friends say that Ben. Butler has been retained to defend Dorsey in the next Star Route trial. Senator Jones, of Nevada, expresses the opinion that at the next trial the chief conspirators will be convicted. He says the Administration is thoroughly in earnest.

THE NEW YORK REPUBLICAN NOMINEE.

NEW YORK, Sep. 22.—The *Times'* Washington special says that Folger stated last night that he never said he would resign from the Treasury immediately after his nomination for Governor. Folger's successor will naturally be a New York man, and suggests the new Secretary will be Congressman Crowley.

The *Herald's* Washington special says that Folger is still in the hands of his physicians being treated for a severe malarial attack, which may develop into malarial fever.

ANOTHER SWINDLER.

NEW ORLEANS, Sep 22.—It has been discovered that Joseph Tomlinson, Chief Clerk of the Custom House, has swindled the Government to the extent of $10,000. Tomlinson has confessed and resigned.

A MARRIAGE IN PROSPECT.

FLOOMINGTON, Ill., Sep. 22.—It is announced that Senator David Davis will, in November, marry Annie Green, aged 25, a daughter of a wealthy prominent citizen of Fayette, N. C., who is a Democratic candidate for Congress.

EXPLOSION IN A SHOP.

SPRINGFIELD, Mass, Sep. 22.—A boy employed in Mayott's store snapped the trigger of a loaded gun in a show case. It went off, exploding 200 shot cartridges. The boy was blown out of the store. The show cases were smashed, and the windows of Mayott's and neighboring stores demolished. A lamp was upset and started a small fire. Four persons in the store escaped with slight injuries.

WHEELING, W. Va., Sep. 22.—Iron manufacturers of Wheeling district have resolved not to start the mills until the labor prices are equalized with Pittsburgh. Heretofore, the prices paid have been higher than at Pittsburgh.

AFTERNOON DESPATCHES

MURDERER HANGED.

GALWAY, Sept. 22.—Patrick Walsh was hanged to day for the murder of Martin Lyden. Walsh protested his innocence and maintained that a witness swore falsely. The crowd outside the prison were orderly. When the black flag was hoisted the convict's mother in the crowd gave way to wailing, and refused to leave the spot. Her friends also joined in the melancholy cries. A large guard of soldiers were on the ground.

RAILWAY ACCIDENT.

NEW YORK, Sept. 22.—It is reported that an accident occurred at 9:30 a. m. in the New York Central and Hudson River R.R. tunnel between 86th street and 4th avenue. A number of people were killed and injured.

LATER.—The Harlem Railway Transit Train telescoped the Harlem train in the tunnel. Five injured persons were sent to the hospital and a number of people are yet under the train.

LATER.—It is now stated that four persons were killed and five injured in the railroad accident.

The War.

As a matter of useful reference in connection with the Egyptian war, the following calendar of its most important events may be of interest:—

July 11.	Alexandria bombarded by the English fleet.
July 12.	Arabi Bey withdraws with his army.
July 13.	Alexandria occupied by the English.
July 18.	Kafr-el-Dwar occupied by Arabi Bey.
July 21.	Skirmish between English and Arabs at Mahalla.
July 24.	Ramleh occupied by the English with small loss.
Aug. 2.	Skirmish near Meks. The English pickets driven in.
Aug. 3.	Suez occupied by English marines.
Aug. 5.	Skirmish near Ramleh. The English retire.
Aug. 18.	An English expedition sets sail from Alexandria.
Aug. 20.	Port Said occupied by the English.
Aug. 21.	Small engagements at Shuluf and Nefiche.
Aug. 22.	An engagement at Serapeum
Aug. 24.	The English advance from Ismailia, Magfar occupied.
Aug. 26.	Ramses captured by the English.
Aug. 28.	Kassassin occupied by the English.
Aug. 29.	The English repulse a Bedouin attack at Kassassin.
Sept. 7.	British skirmish near Kassassin.
Sept. 9.	Arabi Bey repulsed in an important engagement three miles west of Kassassin.
Sept. 13.	Tel el Kebir carried by Sir Garnet Wolseley, Arabi put to flight and two thousand Egyptians slain.
Sept. 13.	General McPherson captured Zagazig.
Sept. 14.	Cairo surrendered to the British, ten thousand Egyptians lay down their arms, Arabi Pasha arrested and handed over to the British.

The war lasted nine weeks.—*Ottawa Free Press.*

☞ The Diamond Dyes always do more than they claim to do. Color over that old dress, It will look like new. Only 10 cents.

Consumption, that dread destroyer of the human race, is often the result of bad blood and low vitality, a scrofulous condition of the system. Burdock Blood Bitters cure Scrofula in its worst form.

Professor Bowlin's Great Golden Seal Discovery.

The greatest and latest discovery of the nineteenth century. A sure and permanent cure for Fits, Hysterics, Dizziness, and all nervous complaints. When ordering a bottle send full description of disease, age and condition of patient, advice free, price $1.00 per bottle. RICHEES, BARBEAU, & Co., 101 St. Francois Xavier St., Montreal, sole agents for Canada.

Dr. E C West's Nerve and Brain Treatment is a never failing cure for Nervous Neuralgia, Nervous Headache, Overworked Brain, &c. Sold at James Clarke & Co's.

Sure, safe and effectual, that old remedy, DOWNS' ELIXIR, for the cure of Coughs and Colds.

MARRIED.

At St. Thomas' Church, on Friday, the 22nd Sept., by the Rev. J. W. Burke, Rector, DUNCAN W. SHAW, of Brandon, Man., to DORA HELEN, eldest daughter of the late John O'Hare, Esq., Belleville, and granddaughter of the late A. N. Buell, Master in Chancery, Toronto.

Commercial.

N. H. DOWNS'
Vegetable Balsamic
ELIXIR!

This valuable medicine is purely vegetable, the discovery of which was the result of many years' close study, in order to discover the cause, the symptoms and the cure—viz:

Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Influenza, Pleurisy, Hoarseness, Spitting Blood, Bronchitis,

and every species of oppression of the Chest and Lungs. In all cases where this Elixir has been duly administered its efficacy has been invariably manifested, convincing the most incredulous that

CONSUMPTION

is not incurable, if properly attended to.—Consumption at its commencement, is but a slight irritation of the membrane which covers the lungs; then an inflammation, when the cough is more observable, but rather dry; then becomes local fever and the pulse more frequent, the cheeks flushed and chills more common. This Elixir in curing the above complaints, operates so as to remove all morbid irritations and inflammation from the lungs to the surface, and finally expel them from the system. It facilitates expectoration.

IT HEALS THE ULCERATED SURFACES

and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. It is free from strong opiates and astringent articles, which are of so drying a nature as to be in great danger of destroying the patient; whereas this medicine never dries or stops the cough, but by removing the cause, generally destroys the [illegible] so that the cough is entirely gone. [illegible] the cough is cured the [illegible] address for pamphlet giving full directions for cure of pulmonary diseases. Price 25cts. and $1 per bottle. Sold everywhere.

HENRY, JOHNSONS & LORD, Props.
MONTREAL, P. Q.

$200.00 REWARD!

Will be paid for the detention and conviction of any person selling or dealing in any bogus, counterfeit or imitation Hop Bitters, especially Bitters or preparations with the word Hop or Hops in their name or connected therewith, that is intended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as Hop Bitters. The genuine have a cluster of Green Hops (notice this) printed on the white label, and are the purest and best medicine on earth, especially for Kidney, Liver and Nervous Diseases. Beware of all others, and of pretended formulas or receipts of Hop Bitters published in papers or for sale, as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted.

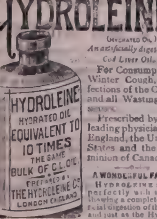
HYDROLEINE



(HYDRATED OIL)
An artificially digested Cod Liver Oil.

For Consumption, Winter Cough, Affections of the Chest and all Wasting Diseases.

Prescribed by the leading physicians of England, the United States and the Dominion of Canada

A WONDERFUL FACT.

Hydroleine mixes perfectly with water, showing a complete artificial digestion of the oil, and just as the Hydroleine mixes with the *water, so does it mix with the liquid contents of the stomach, and enters immediately into the system to nourish and build it up.* The efficacy of Hydroleine is not confined to cases of Consumption, as from its valuable tonic effect on the nervous system in addition to its special stimulating action on the organs concerned in the production of *Fat* in the body, it *causes marked increase in weight in persons of naturally thin habit, who do not present any evidence of disease.*

Unlike ordinary preparations of Cod Liver Oil, it produces no unpleasant eructation or sense of nausea and should be taken in such *very much smaller doses* according to the directions, as will ensure its *complete assimilation*; this, at the same time, *renders its use economical in the highest degree.*

For sale by all Druggists.

We have sold the above remedy for several months and find it spoken of very favorably by both the medical profession and the public.

We can safely recommend it to parties needing such a remedy.

Visiting good Farms.

The many fairs that are being held in various sections of the country are doing much towards advancing a far more enlightened agriculture. We have already pointed out some of the advantages to be gained by a careful study of the exhibits, and the importance of taking an active part in these fairs. Another suggestion to the same end is here offered, which, if acted upon, will supplement the work of the fairs and do much good to all progressive farmers. It is the duty of every farmer to visit yearly some of the best farms in the county, and there gather practical lessons in improved agriculture. There is no method of learning about any farm subject equal to being on the farm where it is practised, and having it explained by one who has made it a success. It may be the way of feeding stock, or a plan of preserving roots, ensilage, or other fodder. A farmer may contemplate a system of underdrains for his wet fields; in this case it would be best to make a visit to some farmer who has thus drained his farm, and gain from him many valuable hints and suggestions in this important work. Such visits not only give new ideas, but are a wholesome recreation, and many a farmer who at the first thought may say, "I cannot afford it!" will find by experience that he has spoken too soon. Take a day to go and visit some of the best farms in the county, and this will open the way for further visits and a wider knowledge of the best methods of farming.—*American Agriculturist for October*

The Hessian Fly.

There are two broods of the Hessian fly (*Cedidomyia destructor*,) one in the spring and the second in autumn. The fall brood appears in August or September, and each female deposits about thirty eggs on the leaves of the young winter wheat. The eggs hatch in four days, and the larvæ or maggots make their way down to the base of the leaf, and remain between the leaf and stem, where they feed upon the juices of the plant, and cause it to turn yellow. In about a month after the eggs are laid, the "flax-seed" state is assumed, in which the larva remains until the warm days of spring, when it passes into the pupa, and afterwards emerges as the mature fly, at the end of April. The eggs laid by these flies soon hatch, and the maggots, after a few weeks, go into the little, brown, oval form of the "flax-seed" state, and produce flies in autumn, thus completing the cycle in the life of this destructive pest of the farmer.

As a precaution, it is recommended to sow a part of wheat early, and if afflicted by the fly, plough and sow the rest late in the season. If the pest is not abundant, the crop may be saved by the use of additional manure, or by cultivation. Pasturing the infested wheat field with sheep in late autumn, will destroy many of the eggs and young insects. The same good results are obtained by rolling the wheat crop. Only the hardy, and more vigorous varieties of wheat should be sown in infested localities. There are a number of natural enemies of the Hessian fly, such as the Ichneumon parasities, whose combined efforts destroy nearly nine tenths of all the flies that are hatched. The burning of stubble is therefore not recommended, as it will destroy the useful parasities in large numbers, as well as the pest upon which they prey.—*American Agriculturist for October.*

Blanching the Celery.

We last month described the manner of bringing the leaves of the celery into an upright position, or "handling," as the gardeners term it. The stalks are still green, and not fit for use until they have been whitened or "blanched." This is done by the complete exclusion of the light, which is usually affected by a banking up of earth. Any other method that will completly shut out the light will answer. The banking up is done with a spade, one person on each side taking the soil from between the rows and forming a steep bank against the plants, covering all except a few inches of the longest leaves; this bank is 10 or 12 inches wide at the bottom, and should be compact and smooth. In three or four weeks after banking the celery may be used. Only that which is needed early requires to be banked; the stock for winter use is blanched in trenches, or in boxes, and needs only the handling to bring the plants into the proper shape. A trench is dug in a dry place, 10 inches wide, and deep enough to contain the whole plant, so that the top will be level with the surface. The celery is then placed in the trench, packing it as closely as possible, in an erect position. When cold weather comes the celery, which is not injured by a moderate frost, must be covered with straw or leaves, the thickness of which must be increased as the weather becomes colder. For family use, celery is often stored in boxes in the cellar, but the cellar must be cool. Boxes are made nine or ten inches wide, of any convenient length, and of a height a little less than that of the plants; the bottom is covered with an inch or two of sand or soil, and the celery placed in it as in the trenches. The taking up and storing of the main crop, in the latitude of New York, is left until the middle of next month, but in more northern localities it should be done earlier.—*American Agriculturist for October.*

Picking Apples.

The proper picking and packing of apples is of great importance. The best keeping sorts will not be preserved well unless the fruit is uninjured in gathering, and packed securely. The most approved method of picking is by hand, with ladders, the fruit being put into a grain sack. The bottom and top of the sack are brought together and tied, and then hung upon the shoulder. A short stick may be used to keep the mouth of the sack open. The sack is quickly and easily emptied by lowering the mouth end and lifting upon the bottom. The sack can be lowered into the barrel and the apples will run out without being bruised as when they are poured in from a basket from the top. Many apple growers prefer to put the fruit in heaps for a few days that the skin may toughen before barreling. In short the aim in picking should be to not bruise the fruit, and in this way enhance its keeping quality. The fruit should not move about in the barrels during shipment, and to this end the apples must be shaken down when the barrel is half full and again when full, after which the head is put on and pressed into place with considerable force. It is much better to have the upper apples somewhat flattened than to leave the fruit so it will stir in the package. The opposite head should be marked as well as the one to be opened. The mistake is sometimes made of not sorting the fruit. Make at least two qualities or grades, and mark each package with its grade. This will secure uniformity in the fruit in each barrel, and a better price. There is much to be gained in the way of a reputation for careful picking, honest assorting and the proper packing of all kinds of fruit. *American Agriculturist for October.*

Bad Blood.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, blotches, pimples and the various humors and blemishes of the skin are only symptomatic of bad blood—that needs purfying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidneys, skin, etc, and strengthening while it regulates and purifies.

"The Beare is a Beastie," says a quaint old book, published in London three centuries ago, "whose flesh is good for mankynd; his fat is good, with laudanum, to make an ointment to heale balde-headed men to receive the hayre agayne." We know of many "balde headed men" who would be glad to "receive the hayre agayne," but we do not desire to encourage them in a trial of Bear's fat and laudanum. Far from it. We, however, do not hesitate to commend Dr. J. C. Ayer & Co.'s Hair Vigor, which not only has the effect in some cases of making the hair grow on heads once bald, but cleans the scalp and restores gray and faded hair to its original color and vitality, imparting to it the glossiness and softness of youth. The evidences of its utility are too numerous and of too high a character to admit of any doubt. It required years of study and scientific experiment to decide upon the combination of ingredients that would accomplish what Ayer's Hair Vigor now does. —*The Interior, Chicago, Ill.*

Asthma and Bronchitis Cured.

Halifax, N. S., Jan. 1882.

C. M. Puttner, Esq., Ph. M.:

Sir,—I consider it my duty, not only to yourself, but to my fellow creatures who are suffering from Asthma and Bronchitis, as I had for some time previous to using your "Emulsion of Cod Liver Oil with Hypophosphites," to give my testimony to the most wonderful good effect it had. Having suffered for some time with Asthma and Bronchitis, accompanied with great nervous exhaustion, and having carefully read your Essay on the combination and uses of your Emulsion, I was persuaded to give it a trial, and on using two bottles I began to receive great benefit and relief, and after using three bottles I was completely revived and am to-day perfectly free from either Asthma or Bronchitis, and my nervous system much invigorated and built up. I have found it very pleasant and palatable, and with no taste of the oil whatever, and can with great confidence recommend it to those suffering as I did previous to taking your compound. In conclusion, I consider I owe you a debt of great gratitude for the benefit I have received from your Emulsion and only hope that many may be induced to give it a trial, and receive as great benefit as I have from its use. I am, yours, &c.,

Alex. Stephens, Sr.,
Merchant.

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrah, Bronchitis, Asthma and Lung Disease by Dr. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the seat of disease. Read and judge for yourself:—

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. John P. Whelan, Manager of Post and True Witness, Montreal. Mr. C. Hill, Montreal, catarrh and bronchitis. Mr. DeBoucherville, of the Indian Department, Ottawa, catarrh of many years; now cured. Mr. Geo. Ager, Ottawa, catarrh and lung disease; cured. Mrs. Smith, London, wife of Medical Detective, cured of catarrh. Geo. Maguire, Toronto, 482 Adelaide street West; daughter cured of asthma. George Willis, Exeter, Ont., catarrh and bronchitis. J. D. Armstrong, 186 Yonge street, Toronto, catarrh and catarrhal deafness. Thomas Telfer, 12 Melinda street, Toronto, asthma; cured. Mr. Benj. A. Drake, St Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. Benoit, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma and bronchitis for over eight years, and who is now perfectly cured.

Mrs. Adamson, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitating in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis. John C. Fleming, Editor of Post and True Witness, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write, inclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souville and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

KIDNEY-WORT

Acts at the Same Time on Kidneys, Liver and Bowels.

FOR THE PERMANENT CURE OF CONSTIPATION.

No other disease is so prevalent in this country as Constipation, and no remedy has ever equalled the celebrated Kidney-Wort as a cure. Whatever the cause, however obstinate the case, this remedy will overcome it.

PILES. THIS distressing complaint is very apt to be complicated with constipation. Kidney-Wort strengthens the weakened parts and quickly cures all kinds of Piles even when physicians and medicines have before failed.

☞ If you have either of these troubles

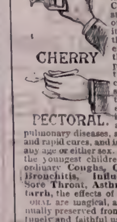
THE BEST REMEDY
FOR
Diseases of the Throat and Lungs.



AYER'S CHERRY PECTORAL.

In diseases of the pulmonary organs a safe and reliable remedy is invaluable. Ayer's Cherry Pectoral is such a remedy, and no other so eminently merits the confidence of the public. It is a scientific combination of the medicinal principles and curative virtues of the finest drugs, chemically united, of such power as to insure the greatest possible efficiency and uniformity of results. It strikes at the foundation of all pulmonary diseases, affording prompt relief and rapid cures, and is adapted to patients of any age or either sex. Being very palatable, the youngest children take it readily. In ordinary Coughs, Colds, Sore Throat, Bronchitis, Influenza, Clergyman's Sore Throat, Asthma, Croup, and Catarrh, the effects of Ayer's Cherry Pectoral are magical, and multitudes are annually preserved from serious illness by its timely and faithful use. It should be kept at hand in every household for the protection it affords in sudden attacks. In Whooping-cough and Consumption there is no other remedy so efficacious, soothing, and helpful.

Low prices are inducements to try some of the many mixtures, or syrups, made of cheap and ineffective ingredients, now offered, which, as they contain no curative qualities, can afford only temporary relief, and are sure to deceive and disappoint the patient. Diseases of the throat and lungs demand active and effective treatment; and it is dangerous experimenting with unknown and cheap medicines, from the great liability that these diseases may, while so trifled with, become deeply seated or incurable. Use Ayer's Cherry Pectoral, and you may confidently expect the best results. It is a standard medical preparation, of known and acknowledged curative power, and is as cheap as its careful preparation and fine ingredients will allow. Eminent physicians, knowing its composition, prescribe it in their practice. The test of half a century has proven its absolute certainty to cure all pulmonary complaints not already beyond the reach of human aid.

Prepared by Dr. J. C. Ayer & Co.,

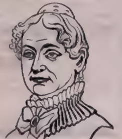
A NOTED BUT UNTITLED WOMAN.

[From the Boston *Globe.*]



Messrs. Editors:—

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits, it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaint of *either* sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are *the best in the world* for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its special line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Philadelphia, Pa. (2) Mrs. A. M. D.

Daily Intelligencer.

THE THREE LITTLE CHAIRS.

They sat alone by the bright wood fire,
The grey-haired dame and the aged sire,
Dreaming of days gone by;
The tear drops fell on each wrinkled cheek,
They both had thoughts they could not speak,
And each heart uttered a sigh.

For their sad and tearful eyes descried
Three little chairs, placed side by side,
Against the sitting room wall.
Old fashioned enough as there they stood,
Their seats of flag and their frames of wood,
With their backs so straight and tall.

Then the sire he shook his silvery head,
And, with trembling voice, he gently said:
"Mother, those empty chairs!
They bring us such sad thoughts to-night,
We'll put them forever out of sight
In the small dark room up-stairs."

But she answered: "Father, no; not yet;
For I look at them and I forget
That the children are away;
The boys come back, and our Mary, too,
With her apron on of checkered blue,
And sits there every day.

"Johnny still whittles a ship's tall masts,
And Willie his leaden bullets casts,
While Mary her patchwork sews.
At evening their three childish prayers
Go up to God from three little chairs
So softly that no one knows.

"Johnny comes back from the billowy deep,
Willie wakes from the battle-field sleep
To say 'good night' to me;
Mary's a wife and mother no more,
But a tired child whose play time is o'er
And comes to rest at my knee.

"So let them stand there, though empty now,
And every time when alone we bow
At the Father's throne to pray,
We'll ask to meet the children above,
In our Saviour's home of rest and love,
Where no child goeth away."

TABERNACLE SERMONS.

Discourse by Rev. T. De Witt Talmage.

UNFAIRNESS.

"With what measure ye mete, it shall be measured to you again."—St. Matthew, vii., 2.

In the greatest sermon ever preached—a sermon about fifteen minutes long, according to the ordinary rate of speech—a sermon on the Mount of Olives, the preacher, sitting while He spake, according to the ancient mode of oratory, the people were given to understand that the same yardstick that they employed upon others would be employed upon themselves. Measure others by a harsh rule and you will be measured by a harsh rule. Measure others by a charitable rule and you will be measured by a charitable rule. Give no mercy to others and no mercy will be given to you. "With what measure ye mete, it shall be measured to you again."

There is a great deal of unfairness in the criticism of human conduct. It was to smite the unfairness that Christ uttered the words of the text, and my sermon will be a re-echo of the divine sentiment. In estimating the misbehavior of others we must take into consideration the pressure of circumstances. It is never right to do wrong, but there are degrees of culpability. When men misbehave or commit some atrocious wickedness, we are disposed, indiscriminately, to tumble them all over the bank of condemnation. Suffer they ought, and suffer they must, but in difference of degree.

In the first place, in estimating the misdoing of others, we must take into calculation the hereditary tendency. There is such a thing as good blood, and there is such a thing as bad blood. There are families that have had a moral twist in them for a hundred years back. They have not been careful to keep the family record in that regard. There have been escapades and maraudings and scoundrelisms and morals deficits all the way back, whether you call it kleptomania or pyromania or dipsomania, or whether it be in a milder form and amount to no mania at all. The strong probability is that the present criminal started life with nerve, muscle and bone contaminated. As some start life with a natural tendency to nobility and geniality and kindness and truthfulness, there are others who start life with just the opposite tendency, and they are born liars, or born malcontents, or born outlaws, or born swindlers. There is in England a school that is called the Princess Mary School. All the children in that school are the children of convicts. The school is supported by high patronage. I had the pleasure of being present at one of their anniversaries in 1879, presided over by the Earl of Kintore. By a wise law in England, after parents have committed a certain number of crimes, and thereby shown themselves incompetent rightly to bring up their children, the little ones are taken from under pernicious influences and put in reformatory schools where all gracious and kindly influences shall be brought upon them. Of course the experiment is young, and it has yet to be demonstrated how large a percentage of the children of convicts may be brought up to respectability and usefulness. But we all know that it is more difficult for children of bad parentage to do right than for children of good parentage. In this country we are taught by the Declaration of American Independence that all people are born equal. There never was a greater misrepresentation put in one sentence than in that sentence which implies that we are all born equal. You may as well say that flowers are born equal, or trees are born equal, or animals are born equal. Why does one horse cost $100 and another horse cost $5,000? Why does one sheep cost $10 and another sheep cost $500? Difference in blood? We are all wise enough to recognize the difference of blood in horses, in cattle, in sheep, but we are not wise enough to make allowance for the difference in human blood. Now I demand by the law of eternal fairness that you be more lenient in your criticism of those who were born wrong, in whose ancestral line there was a hangman's knot, or who came from a tree the fruit of which for centuries has been gnarled and worm-eaten. Dr. Harris, a reformer, gave some marvellous statistics in his story of what he called "Margaret, the Mother of Criminals." Ninety years ago she lived in a poor village in upper New York State. She was not only poor, but she was vicious. She was not well provided for. There was no almshouses there. The public, however, somewhat looked after her, but chiefly scoffed at her and derided her and pushed her farther down in her crimes. That was ninety years ago. There have been 623 persons in that ancestral line, 200 of them criminals. In one branch of that family there were twenty, and nine of them have been in State prison, and nearly all of the others turned out badly. It is estimated that that family cost the county and State $100,000, to say nothing of the property they destroyed. Are you not willing, as sensible people, to acknowledge that it is a fearful disaster to be born in such an ancestral line? Does it not make a great difference whether one descends from Margaret the mother of criminals, or some mother in Israel? whether you are the son of Ahab or the son of Joshua? It is a very different thing to swim with the current, as some of you have, no doubt, found in your summer recreation. If a man finds himself in an ancestral current where there is good blood flowing smoothly from generation to generation, it is not a very great credit to him if he turn out good and honest and pure and upright and noble. He could hardly help it. But suppose he is born in an ancestral line, in a hereditary line, where the influences have been bad and there has been a coming down over a moral declivity, if the man surrender to the influences he will go down under the overmastering gravitation unless some superhuman aid be afforded him. Now, such a person deserves not your excoriation but your pity. Do not sit up with the lip curled in scorn and with an assumed air of angelic innocence looking down upon such moral precipitation. You had better get down on your knees and first pray Almighty God for the rescue, and next thank the Lord that you have not been thrown under the wheels of that Juggernaut. In Great Britain and the United States, in every generation, there are tens of thousands of persons who are fully developed criminals and incarcerated. I say in every generation. Then I suppose there are tens of thousands of persons not found in their criminality. In addition to them there are tens of thousands of persons who, not positively becoming criminals, nevertheless have a criminal tendency. Anyone of all those thousands, by the grace of God, may become Christians, and resist the ancestral influences and open a new chapter of behavior, but the vast majority of them will not, and it becomes all men, professional and unprofessional, ministers of religion, judges of courts, philanthropists and Christian workers, to recognize the fact that there are these Atlantic and Pacific surges of hereditary evil rolling on through the centuries. I say, of course, a man can resist this tendency just as in the ancestral line mentioned in the first chapter of Matthew. You see in the same line in which there was a wicked Rehoboam and desperate Manasses, there afterward came a pious Joseph and a glorious Christ. But, my friends, you must recognize the fact that there is a disease going on from generation to generation. I am glad to know, however, that a river which has produced nothing but miasma for a hundred miles may after a while turn the wheels of factories, and help support industrious and virtuous populations, and there are family lines which were poisoned that are a benediction now. At the last day it will be found out that there are men who have gone clear over into all forms of iniquity and plunged into utter abandonment, who before they yielded to the first temptation resisted more evil than many a man who has been moral and upright all his life. I suppose you are all good men and women. There never were so many good people as there are now in the world. Of all the centuries this is the best century, and of all the decades this is the best decade, and of all the years this is the best year, and of all months this is the best month, and of all the days this is the best day. We stand this moment at the apex of six thousand years of progress. It is easier now to raise a thousand dollars for a charitable object than it used to be to raise ten cents. The world is five hundred per cent. better now than it used to be. But supposing now that in this age, when there are so many good people, you are the very best. Supposing all that, I will come down into this audience and I will select the very best man in it. I do not mean the man who would style himself the best, for he probably is a hypocrite; but I mean the man who before God is really the best. I will take you out from all your Christian surroundings. I will take you back to boyhood. I will put you in a depraved home. I will put you in a cradle of iniquity. Who is that bending over the cradle? An intoxicated mother. Who is that swearing in the next room? Your father. The neighbors come in to talk and their jokes are unclean. There is not in the house a Bible or a moral treatise, but only a few scraps of an old pictorial. After a while you are old enough to get out of the cradle, and you are struck across the head for naughtiness, but never in any kindly manner reprimanded. After a while you are old enough to go abroad, and you are sent out with a basket to steal. If you come home without any spoil you are whipped until the blood comes. At fifteen years of age you go out to fight your own battles in this world, which seems to care no more for you than for the dog that has died of a fit under the fence. You are kicked and cuffed and buffeted. Some day, rallying your courage, you resent some wrong. A man says: "Who are you? I know who you are. Your father had free lodgings at Sing Sing. Your mother—she was up for drunkenness at the Tombs Court. Get out of my way, you low-lived wretch!" My brother, suppose that had been the history of your advent and the history of your earlier surroundings, would you have been the Christian man you are this morning, seated in the house of God? I tell you nay. You would have been a vagabond, an outlaw, a murderer on the scaffold atoning for your crime. All these considerations ought to make us merciful in our dealings with the wandering and the lost.

Again, I have to remark, that in our estimate of the misdoings of the people who have fallen from high respectability and usefulness, we must take into consideration the conjunction of circumstances. In nine cases out of ten a man who goes astray does not intend any positive wrong. He has trust funds. He risks a part of those funds in investment. He says: "Now if I should lose that investment I have my own property, five times as much, and if this investment should go wrong I could easily make it up; I could five times make it up." With that wrong reckoning he goes on and makes the investment and it does not turn out quite as well as he expected, and he makes another investment, and strange to say, at the same time all his other affairs get entangled, and all his other resources fail, and his hands are tied. Now he wants to extricate himself. He goes a little further on in the wrong investment. He takes a plunge further ahead, for he wants to save his wife and children, he wants to save his home, he wants to save his membership in the church. He takes one more plunge and all is lost. Some morning at 10 o'clock the bank door is not opened, and there is a card on the door, signed by an officer of the bank, indicating there is trouble, and the name of the defaulter or the defrauder heads the newspaper column, and hundreds of other men say, "Good for him!" hundreds of other men say, "I'm glad it's found out at last," hundreds of other men say, "Just as I told you;" hundreds of other men say, "I couldn't possibly have been tempted to do that; no conjunction of circumstances could ever have overthrown me," and there is a superabundance of indignation, but no pity. The heavens full of lightning, but not one drop of dew. If God treated us as society treats that man, we would all have been in hell long ago! Wait for the alleviating circumstances. Perhaps he may have been the dupe of others. Before you let all your hounds out from their kennel to maul or tear that man, find out if he has not been brought up in a commercial establishment where there was a wrong system of ethics taught; find out whether that man has not an extravagant wife who is not satisfied with his honest earnings, and in the temptation to please her he has gone into that ruin into which enough men have fallen, and by the same temptation, to make a procession from New York Battery to Central Park. Perhaps some sudden sickness may have touched his brain, and his judgment may be unbalanced. He is wrong, he is awfully wrong, and he must be condemned, but there may be mitigating circumstances. Perhaps under the same temptation you might have fallen. The reason some men do not steal $200,000 is because they do not get a chance! Have righteous indignation if you must about that man's conduct, but temper it with mercy. But you say, "I am sorry that the innocent should suffer." Yes, I am too—sorry for the widows and orphans who lost their all by that defalcation. I am sorry also for the business man, the honest business men who have had their affairs all crippled by that defalcation. I am sorry for the venerable bank president, in whom the credit of that bank was a matter of pride. Yes, I am sorry also for that man who brought all the distress, sorry that he sacrificed body, mind, soul, reputation, heaven, and went into the blackness of darkness forever. You defiantly say, "I could not be tempted in that way." Perhaps you may be tested for a while. God has a very good memory, and He sometimes seems to say, "This man feels so strong in his innate power and goodness, he shall be tested; he is so full of bitter invective against that unfortunate, it shall be shown now whether he has the power to stand." Fifteen years go by. The wheel of fortune turns several times, and you are in a crisis that you never could have anticipated. Now, all the powers of darkness come around, and they chuckle and they chatter, and they say, "Aha! here is the old fellow who was so proud of his integrity and who bragged he couldn't be overthrown by temptatation, and was so uproarious in his demonstrations of indignation at the defalcation fifteen years ago. Let us see." God lets the man go. God, who had kept that man under His protecting care, lets the man go and try for himself the majesty of his integrity. God letting the man go, the powers of darkness pounce upon him. I see you some day in your office in great excitement. One of two things you can do. Be honest and be pauperized, and have your children brought home from school your family dethroned in social influence. The other thing is, you can step a little aside from that which is right, you can only just go half an inch out of the proper path, you can only take a little risk and then you have all your finances fair and right. You have a larger property, you can leave a fortune for your children, and endow a college, and build a public library in your native town. You halt and wait, and halt and wait until your lips get white. You decide to risk it. Only a few strokes of the pen now. But, oh! how your hand trembles; how dreadfully it trembles. The die is cast. By the strangest and most awful conjunction of circumstances anyone could have imagined you are prostrated. Bankruptcy, commercial annihilation, exposure, crime. Good men mourn and devils hold carnival, and you see your own name at the head of the newspaper column in a whole congress of exclamation points, and while you are reading the anathema in the reportorial and editorial paragraph, it occurs to you how much this story is like that of the defalcation fifteen years ago, and a clap of thunder shakes the window-sill, saying, "With what measure you mete, it shall be measured to you again!" You look in another direction. There is nothing like an ebullition of temper to put a man to disadvantage. You, a man with calm pulses and oxine digestion and perfect health, cannot understand how anybody should be capsized in temper by an infinitesimal annoyance. You say, "I couldn't be unbalanced in that way." Perhaps you smile at a provocation that makes another man swear. You pride yourself on your imperturbability. You say with your manner, though you have too much good taste to say it with your words, "I have a great deal more sense than that man has, I have a great deal more equipoise of temper than that man has. I never could make such a puerile exhibition of myself as that man has made." My brother, you do not realize that that man was born with a keen, nervous organisation, that for forty years he had been under a depleting process, that sickness and trouble have been helping undo what was left of original healthfulness, that much of his time it has been with him like filing saws, that his nerves have come to be merely a tangle of disorders, and that he is the most pitiable object on earth, who, though he is very sick, does not look sick and nobody sympathizes! Let us see. Did you not say that you could not be tempted to an ebullition of temper? Some September you come home from your summer watering place, and you have inside, away back in your liver or spleen, what we call in our day malaria, but what the old folks called chills and fever. You take quinine until your ears are first buzzing beehives and then roaring Niagaras. You take roots and herbs, you take everything. You get well. But the next day you feel uncomfortable, and you yawn, and you stretch, and you shiver, and you consume, and you suffer. Vexed more than you can tell, you cannot sleep, you cannot eat, you cannot bear to see anything that looks happy, you go out to kick the cat that is asleep in the sun. Your children's mirth was once music to you. Now it is deafening. You say, "Boys, stop that racket!" You turn back from June to March. In the family and in the neighborhood your popularity is ninety-five per cent. off. The world says: "What is the matter with that disagreeable man? what a woebegone countenance! I can't bear the sight of him." You have got your pay at last—got your pay. You feel just as that man felt, that man for whom you had no mercy, and my text comes in with marvelous appositeness: "With what measure ye mete, it shall be measured to you again!" In the study of society I have come to this conclusion, that the most of the people want to be good, but they do not exactly know how to make it out. They make enough good resolutions to lift them into angelhood. The vast majority of people who fall are the victims of circumstances; they are captured by ambuscade. If their temptations should come out in a regiment and fight them in a fair field, they would go out in the strength and the triumph of David against Goliath. But they do not see the giant and they do not see the regiment. Suppose temptation should come up to a man and say: "Here is alcohol; take three tablespoonsful of it a day until you get dependent upon it; then, after that, take half a glass three times a day until you get dependent upon that amount; then go on increasing the amount until you are saturated from morning until night, and from night until morning?" Do you suppose any man would become a drunkard in that way? Ah! no. Temptation comes and says: "Take these bitters, take this nervine, take this nightcap." The vast majority of men and women who are destroyed by opium and by rum first take them as medicine. In making up your dish of criticism in regard to them take from the caster the cruet of sweet oil and not the cruet of Cayenne pepper. Be easy on them. Do you know how that physician, that lawyer, that journalist became the victim of dissipation? Why, that physician was kept up night by night on professional duty. Life and death hovered in the balance. His nervous system was exhausted. There came a time of epidemic and whole families were prostrated, and his nervous strength was gone. He was all worn out in the service of the public. Now, he must brace himself up. Now, he stimulates. The life of this mother, the life of this child, the life of this father, the life of this whole family, must be saved, and of all these families, must be saved, and he stimulates, and he does it again and again. You may criticise his judgment, but remember the process. It was not a selfish process by which he went down. It was magnificent generosity through which he fell. That attorney at the bar for weeks has been standing in a poorly ventilated court room listening to the testimony and contesting in the dry technicalities of the law, and now the time has come for him to wind up, and he must plead for the life of his client, and his nervous system is all gone. If he fail in that speech his client perishes. If he have eloquence enough in that hour his client is saved. He stimulates. He must keep up. He says, "I must keep up." Having a large practice, you see how he is enthralled. You may criticise his judgment, but remember the process. Do not be hard. That journalist has had exhausting midnight work. He has had to report speeches and orations that kept him up till a very late hour. He has gone with much exposure working up some case of crime in company with a detective. He sits down at midnight to write out his notes from a memorandum scrawled on a pad under most unfavorable circumstances. His strength is gone. Fidelity to the public intelligence, fidelity to his own livelihood, demand that he keep up. He must keep up. He stimulates. Again and again he does that, and he goes down. You may criticise his judgment in the matter, but have mercy. Remember the process. Do not be hard.

My friends, this text will come to fulfillment in same cases in this world. The huntsman in Farinstoen was shot by some unknown person. Twenty years after, the son of the huntsman was in the same forest and he accidentally shot a man, and the man dying said, "God is just; I shot your father just here twenty years ago." A Bishop said to Louis XI., of France: "Make an iron cage in which the captive can neither lie down or stand straight up." It was fashioned—the awful instrument of punishment. After a while the bishop offended Louis XI., and for fourteen years he was in that cage, and could neither lie down or stand up. Tit for tat. It is a poor rule that will not work both ways. "With what measure ye mete, it shall be measured to you again." Robespierre sends innocent people to die on the guillotine. Time passes on, and Robespierre, by that very instrument, is decapitated. Maximinus has the eyes of Christians put out. He dies with a disease of the eyes. Valens has Christians burned to death in escaping from their pursuers. He is burned to death in his own house. The Donatists threw the holy sacrament of Jesus Christ to the dogs. They themselves were devoured by the dogs. "With what measure ye mete, it shall be measured to you again." O, my friends, let us go home resolved to scold less and pray more. That which in the Bible is used as the symbol of all gracious influences is the dove, not the porcupine. We may so unskilfully manage the lifeboat that we shall run down those whom we want to rescue. The first preparation for Christian usefulness is warm-hearted common sense, practical sympathy for those whom we want to save. What headway will we make in the judgment if in the world we have been hard on those who have gone astray? What headway will you and I make in the last great judgment when we must have mercy or perish? The Bible says: "They shall have judgment without mercy that showed no mercy." I see the scribes of heaven looking up into the face of such a man and saying: "What! you plead for mercy, you, who in all your life never had any mercy on your fellows. Don't you remember how hard you were in your opinions of those who went astray? Don't you remember when you ought to have given a helping hand you employed a hard heel? Mercy! You must misspeak yourself when you plead for mercy here. Mercy for others, but no mercy for you." "Look!" say the scribes of heaven, "look at that inscription over the throne of judgment, the throne of God's judgment." See it coming out letter by letter, word by word, sentence by sentence, until your startled vision reads it and your remorseful spirit appropriates it. "With what measure ye mete it shall be measured to you again. Depart, ye cursed."

Take no more nauseous purgatives. Burdock Blood Bitters act mildly, pleasantly, and thoroughly upon the Bowels, and occasion no inconvenience, while it regulates the Liver and Kidneys and tones the enfeebled system. Trial bottles 10 cents.

At the approach of spring great attention should be given to purify the system engorged with foul humors during the winter. Burdock Blood Bitters is Nature's own purifying and regulating tonic.

Rheumatism is greatly dependent on a vitiated condition of the fluids, and may be eliminated from the system by cleansing the Blood and regulating the Kidneys. Burdock Blood Bitters will do this most effectually. Trial bottles 10 cents.

RACKED BY INNUMERABLE PANGS, restless by day, sleepless at night, rising unrefreshed in the morning, without appetite and pestered by varying and perplexing symptoms, the dyspeptic takes indeed a gloomy view of human existence. For him the zest of life seems gone. Heartburn, oppression at the pit of the stomach, and the attendant annoyances of of constipation and biliousness, combine to render him utterly wretched. But there is, if he will but take advantage of it, a reliable source of reliable relief from all misery. NORTHROP & LYMAN'S VEGETABLE DISCOVERY and DYSPEPTIC CURE is, as its name imports, a botanic preparation, free from mineral poison, and an all-sufficient remedy for indigestion in its most obstinate form. It not only enriches the blood by enabling the digestive organs to convert the food received into nutriment, but depurates it by increasing the action of the bowels and kidneys, the natural outlets for its impurities. But while it relaxes the bowels, it never does so violently and with pain, like a drastic cathartic. It aids, but never forces, Nature, invigorating as well as purifying and regulating the system. It thoroughly removes those diseased humors which tend to vitiate the blood, purifies the urinary secretion, and promotes a flow of healthy bile into the natural channel, besides expelling it from the circulation. Experience has proved that this standard medicine is a thorough remedy for dyspepsia, biliousness, costiveness, kidney complaints, scrofula, erysipelas, salt rheum, lumbago and all impurities of the blood. Price $1.00. Sample Bottle 10 cents. Ask for NORTHROP & LYMAN'S Vegetable Discovery and Dyspeptic Cure. The wrapper bears a *fac-simile* of their signature. Sold by all medicine dealers.

Rest and Comfort to the Suffering

"Brown's Household Panacea" has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful," "Brown's Household Panacea," being acknowledged as the great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle. 264ly

Mothers! Mothers!! Mothers!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle. 264ly

The most wonderful curative remedies of the present day, are those that come from Germany, or at least originate there. The most recent preparation placed upon the market is this country, is the GREAT GERMAN INVIGORATOR, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangements of the nervous system. For sale by druggists, or sent free by mail on receipt of the price, $1.00 per box, or six boxes for $5.00. Address James Clark & Co., Sole agent for Belleville. Send for circular.

AFTER many years of patient investigation DR. VAN BUREN, of Germany, finally succeeded in perfecting a Kidney Cure that would permanently relieve all cases of Kidney Disease. Be sure and ask your Druggist for DR. VAN BUREN'S KIDNEY CURE.

EXCHA

a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys.

Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

The Election Cases.

In the North York, North Wellington, and Russell election cases, Mr. Justice Cameron held that the High Court of Justice as formed under the Ontario Statute is not an Election Court of the Dominion, but that the Courts of Queen's Bench, Chancery and Common Pleas are still in existence for Dominion election cases. Under this decision it appears that all election petitions presented to the former officer of those Courts will be regular, and all presented in the High Court of Justice irregular. This decision, unless it be upset on appeal, seems to dispose of the West and East Hastings petitions, which were entered in the High Court of Justice, Queen's Bench division.

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists.

Quebec's Better Term.

The *Globe*, with its usual disregard for truth, keeps before its readers its declaration that the Conservative party of Quebec is agitating for "better terms" from the Dominion Government than that Province now enjoys; the object being to convince the Ontario people that have much to fear from Conservative rule in Ottawa. We have before pointed out that all this agitation, so far as the Conservative party was concerned, was but another attempt on the part of the Grits, failing any legitimate complaints, to arouse sectional jealousies and create discontent among the people. Any demands that have been made on the part of the press and politicians of Quebec, have come from the Grits and Rouges, and not from the Conservatives, in the hopes of creating a division in the ranks of the Conservative party, believing that if they demand concessions from the Ottawa Government, they will compel the Conservative French to follow or lose power and popularity in the Province. As an evidence of this we have the Montreal *Herald* declaring that "Quebec's demand for better "terms is neither unjust nor unreasonable; "our representatives have only to stand "firm, and there is little danger of its being "refused." Upon this recommendation of the *Herald's* to the representatives of Quebec, to do that which the *Globe* attributes to the Conservative party, the Montreal *Gazette* replies:

"Quebec has made no demand for better terms. The twin leader of the Liberal party, Mr. Mercier, being in opposition and not over scrupulous on questions of principle, has mooted a scheme for obtaining better terms from the Dominion for this Province, and he has been supported in the new departure by the journal which acted as mouthpiece of the English Liberal party until it became a syndicate organ; but on the part of the Government or of the people there has been no such demand. A very brief discussion of the proposition served to expose not only its inopportuneness and its dangers, but also the impossibility of putting it into operation without seriously weakening the stability of the Confederation. It was a mistake in the first instance to establish financial relations between the Provinces and the Dominion. It would have been wiser to have provided once and for all the measure of assistance to be extended to the Provinces and compelled them to rely wholly upon their own resources for the maintainance of government; but while it is now too late to adopt that course, we can at least reduce the evil to a *minimum* by closing the door to the admission of such a claim as Mr. Mercier and the *Herald* advance on behalf of Quebec. The very means advocated for enforcing the demand is sufficient to condemn it. It is openly advised that the representatives of the Province should band together, irrespective of political principles, and force by the influence of their votes compliance on the part of the Dominion Government. Under such an assault the Confederation would assuredly crumble to atoms. Corruption would become the basis of power, and the position of the Government simply intolerable. So immoral, so ignorant, so base, is the proposal to compel better terms by taking the Government by the throat, that we cannot believe Mr. Mercier and his friendly journal would dare to advocate it, were it not for the paucity of the Liberal representation in the House of Commons. It is in keeping with the morality of Mr. Mercier and the *Herald* to inaugurate the policy of spoilation, since politically they have nothing to lose, and everything to gain if by any chance they can create an impression favorable to their views either among the people or the Conservative members of Parliament. But the electors are not to be caught by sordid appeals of this character. The resources of Quebec are yet far from exhausted; the Government is in no danger of encountering financial difficulties with which they cannot successfully cope. If an adequate revenue cannot be derived from existing sources of income, there are many feasible methods of restoring an equilibrium between revenue and expenditure. It is a long step between our present position and the recourse of a raid upon the Dominion Treasury, and some of these methods will undoubtedly be adopted before the Province is driven to the dangerous course advocated by the *Herald*." This ought to be sufficient to show the falsity of the *Globe's* charge that the agitation for better terms lies at the door of the Conservative party.

Don't die in the House.

"Rough on Rats." Clears out rats, mice, roaches bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

Hall's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by Jas. Clarke & Co., Belleville, Ont.

Editorial Brevities.

It is evident that something must be done to provide for the safety of passengers travelling our inland waters by steamers, especially on propellers which navigate the lakes. The upper works, it seems to us, are the great cause of disaster. Therefore, we throw out the suggestion that the height and extent of the upper works should be limited, in accordance with the beam and depth of the vessels, and that a greater degree of strength should be required in the hulls of lake steamers than is at present prescribed. In addition to this, captains commanding such craft should be required to pass an examination as to capacity and to be given certificates of competency, just as engineers are.

The convention to nominate the Conservative candidate for West Hastings will be held on Tuesday afternoon. We hope to see a large attendance.

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinary or Liver Diseases, as they only relieve for a time and make you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

News Condensed.

—The Earl of Aberdeen lately entertained his whole tenantry—4,000 people, comprising 882 families.

—Stanley, the African explorer, penetrated 300 miles beyond Viva and established fifteen trading stations.

—Mr. R. Platt Carpenter has been nominated by the Republicans for Lieutenant-Governor of New York.

—The average annual rainfall on Dartmoor, Devonshire, England, where the great convict prison stands, is 80 inches.

—The old cathedral of Usponski at Moscow is now undergoing restoration for the coronation of Alexander III.

—Although the Labrador fishery is a failure this season the Nova Scotia fishermen have had good catches on the Bank.

—A man named Watchorn, residing in a suburb of Ottawa, laid information against his better half for maltreating him.

—This country sent 50,000 head of cattle to the old country markets last year, for which $3,000,000 were paid to our farmers.

—A quantity of Souris coal was put to the test in one of the Canadian Pacific Railway engines, at Winnipeg, on the 20th, and resulted satisfactorily.

—William M. Tweedle, of Mount Allison, N S., Wesleyan College, has taken the Gilchrist scholarship, standing second on the list of matriculants.

—Point-lace stockings are the latest craze, Their popularity is due to the fact that being pretty much all holes in the first place they never require mending.

—The Government has appointed Captain Scott, R N., of Halifax, chairman of the board which will investigate the circumstances attending the loss of the Asia

—Robert Murray, car inspector, while standing on the Intercolonial track at Richmond, N. S., on the 21st, was struck by a flat car and died in twenty minutes.

—Grover Cleveland, Mayor of Buffalo, has received the nomination of the Democratic State Convention for Governor of New York in opposition to Secretary Folger, Republican.

—The idea that the devil is black in color is said to have originated with the Greeks. A French artist has lately brought him out as a white man, and he looks quite presentable.

—The boiler of a donkey engine on the ship *Queen of Nations* at Montreal, exploded, instantly killing one of the crew, a Swede named Anderson, and fatally injuring three others.

—Forged requisition obligations issued during the late war have been discovered at Belgrade, and the President of the last Skuptschina arrested for being implicated in the forgeries.

—Four young children of Fraserville, Que., who went to pick blueberries on Monday morning, have not yet returned to their homes, and people in large numbers are scouring the woods.

—Sir E. Selby Smyth, formerly Chief Officer commanding the militia in Canada, has been offered the Governorship of Newfoundland by the Imperial Government. The present Governor leaves on account of ill-health.

*The term *hydra* may be used to represent any manifold evil. If you would battle successfully with this many-headed monster of disease you will find it expedient to keep Mrs. Pinkham's Vegetable Compound always at hand.—*Dr. Banning.*

—Mr. E. Dwyer Gray advocates the formation of an association to push Irish manufactures. He also suggests that the Irish citizens of the United States can assist their brethren in Ireland by making tariff modifications in favor of their manufactures.

—Owing to the almost incessant rain the provincial exhibition at Kingston has, financially, proved anything but a success, and, to make matters worse, some of the exhibitors are grumbling at the damage done to their goods owing to the leakiness of the exhibition buildings.

—The first sod of the Emerson & North-Western Railway was turned at Emerson on Thursday by Mrs. Casper Killer, wife of the Vice President of the road, and Mrs. W. H. Nash. Construction was immediately commenced, and will be pushed forward with vigour

⁂ "Do boldy what you do at all." Boldly do we affirm that Kidney-Wort is *the* great remedy for liver, bowels and Kidney diseases, rheumatism and piles vanish before it. The tonic effect of Kidney-Wort is produced by its cleansing and purifying action on the blood. Where there is a gravelly deposit in the urine, or milky, ropy urine from disordered kidneys, it always cures.

—The system of selling goods on installments, with the proviso that the seller may seize the articles whenever a single payment has been neglected, and that without refunding anything, has received a blow in the English County Court The Judge described the agreement in common use as most infamous, and ordered a non suit, declining to hear the plaintiff's solicitor or to grant a case of appeal.

O. Bortle, of Manchester, Ontario Co., N.Y. writes:—"I obtained immediate relief from the use of *Dr. Thomas' Eclectric Oil*. I have had Asthma for eleven years. Have been obliged to sit up all night for ten or twelve nights in succession. I can now sleep soundly all night on a feather bed, which I had not been able to do previous to using the Oil."

Nervous debility is a result of indiscretion in the mode of living. Heed nature's unerring laws and take Burdock Blood Bitters, the Great System Renovator and Blood, Liver and Kidney regulator and tonic. Sample bottles 10 cents.

COUGHS AND COLDS. If taken [illegible] easily cured,—if allowed to continue will result in incurable consumption. Allen's Lung Balsam has the confidence and support of the medical faculty, and is recommended by all who are acquainted with its virtues.

Dropsy is essentially a [illegible] the Blood, dependent up[illegible] Kidneys Burdock Blood Bitter[illegible] Diuretic and consequently the best known remedy, acting as it does upon the entire Secretory System.

Sure, safe and effectual, that old remedy, DOWNS' ELIXIR, for the cure of Coughs and Colds.

Correspondence.

Whilst correspondents will be accorded space for the expression of their ideas on topics of public interest, it must be in all cases understood that the views so expressed are simply those of the correspondents themselves.

To the Editor of the Intelligencer.

DEAR SIR,—A few evenings since, as the train was passing out of Toronto, I remarked to a gentleman sitting in the seat in front of me, "That is a very fine building." He replied "It is." I inquired for what purpose it was intended. The gentleman replied—for a sugar refinery. I answered: 'That is business; that is what I like to see.' Having nothing else to talk about, I thought I would inquire a little farther. I asked how it was built—was it a joint stock company, or was it individual property? I was a little surprised at his answer, when he replied, "One cent and a half per pound." I saw at once what he was driving at. "Oh" said I, "that's the way the thing is going to work; the person that makes use of the most sugar will be the largest shareholder in the concern." He replied in the affirmative. I suppose it would take me two hours to write all that was said, for we had a considerable discussion of the subject. He was soon joined by another gentleman of the same stripe. He made an assertion and stated it very emphatically, so that one could not wink at the other one to help him, namely, that laboring men were getting 25c. per day less in Mr. Crossen's car works in Cobourg at the present time, than was paid to working men in Toronto four years ago in the agricultural manufactories. Mr. Editor, I expect you can answer this question. Is it so or is it not so? For my own part, I am an unbeliever in the gentleman's assertion. Yours truly, N. P.

Campbellford, Sept. 20, 1882.

NOTE.—We have no knowledge of the rate of pay in Mr. Crossen's works, but this we do know, that in Belleville and elsewhere throughout the Province, laborers are getting at least twenty-five per cent. higher wages than they did four years ago, and we have the authority of a large employer of labor in Belleville for saying that he has now to pay his mechanics 25 per cent. higher wages than under the Mackenzie regime. As to sugar, the Canadian refiners are now supplying better and cheaper sugar than was formerly procurable from the Yankee refineries. Granulated sugar is sold to the Canadian public at 10c. per pound, whilst across the lines the retail price of the same grade of sugar is 11c. per pound.—ED. INT.

Catarrh of the Bladder.

STINGING irritation, inflammation, all Kidney and Urinary Complaints, cured by "Buchupaiba." $1.

Bees.

ARE THEY CONSERVATIVE OR GRIT?

To the Editor of the Intelligencer.

We must not allow our zeal to flag and must address ourselves to every one and to every one's peculiarities. The Beekeepers' ideas centre on bees and they can see wisdom in everything the bees do. Now, you bee men, if your bees are Conservative, why are you not so too? They are, in fact, the real *fossil tories*; they build their cells to-day just as they built them at first, and that is the bottom idea of Conservatism—permanence. They regard order in everything—and work with mathematical precision describing rhombs, prisms, hexagons, angles—always the same angle—strength of material—always adhering to that which has proved the best; and what material can be formed into a shape so thin, and yet so strong! thus "proving all things and holding fast that which is good." They, nevetheless, keep up with the times. They get up the hum just as we have done with our National Policy. Bee-keepers hive them, as it is said Sir John hived the Grits, they adapt this hexagonal prison work to new forms of hives, showing that they are not adverse to progress, yet maintaining their fixed mathematical precision in their work. Let anyone attack the hive and they rush out, as we do to defend our country, prepared to do or die. They have but one queen, and woe betide the bee or man who touches her. They have a sacred regard for their brood, and we fight for our wives, and children and homes. A hive that cannot get up them we know is doomed, that was the state of our country at the time Sir John took the helm. Now, let us *keep* up the Hum and we shall feel that we are prospering.

"ONE OF THEM."

Sept. 22nd 1882.

To the Editor of the Intelligencer.

SIR,—"To the pure all things are pure," and by the converse, to the impure all things are impure. Mr. Crooks has made a discovery. He has found out that Sir Walter Scott's grandest poem, "Marmion," is unfit to form part of the educational course of our High Schools, and his organ and the organ of his party informs us that the cause of its rejection is its *immorality*. Now, Sir, it is only a just tribute to the great departed author to say that he has never given to the public, either in verse or prose, a single sentence which could raise a blush on the cheek of the most innocent maid, or the chastest matron, and this feature of his works has contributed, in a corresponding degree with the interest of his narratives, the verisimilitude of his characters, and the beauty of his diction, to raise his reputation to the high degree of estimation in which it is held not only by his countrymen, but wherever the English language is spoken, and wherever virtue is reverenced and vice abhorred.

In the poem of "Marmion" the best and highest attributes of its author are fully displayed. Independent of the interest of the plot, the skillful management of the historical names and characters, brought out in living tracery before the eye of the reader, and the truthfulness of his local descriptions, to the entire accuracy of which the writer can bear ample personal testimony, the moral lesson which it conveys is brought out with a distinctness and dramatic force which is not excelled even by Shakespeare himself. If the highest function of fiction is to exemplify the triumph of virtue and the punishment of vice, surely Mr. Crooks himself cannot deny that that end is most thoroughly accomplished in the catastrophe of the poem. With respect to its probable effect upon the youthful mind, I well recollect in my early boyhood, during my convalescence from a severe sickness, not only reading, but committing to memory large portions of this magnificent work of genius under the supervision of an affectionate, a prudent and virtuous mother, who would have thrust her right hand into the fire, rather than that it should have placed before her fatherless boy any thing that could by any possibility excite in his mind a single impure or improper idea. And yet, Mr. Crooks discovers so much immorality in the work as to render it unfit to be placed in the hands of the youth of Canada; while the *Globe* would prefer to have them study the works of Tom Paine and Voltaire.

PROH PUDOR.

PEARLS.—Get your mouth full by using "TEABERRY," the new wonder for the Teeth and Breath. Brush vigorously. See directions. 5 cent samples.

BAXTER'S MANDRAKE BITTERS never fail to cure Costiveness and regulate the Bowels.

"READING NOTICE."

"Twenty-four years' experience," says an eminent Physician, convinces me that the only cure for "Nervous Exhaustion" and weakness of the generative organs is to repair the waste by giving Brain and Nerve Foods, and of all the remedies I have used Mack's Magnetic Medicine is the best. This remedy is now sold by all our Druggists at 50 cts. per box, or 6 for $2.50, and on receipt of an order for 12 boxes, accompanied with $5.00, addressed to Mack's Magnetic Medicine Co., Windsor, Ont., they will forward the goods free, by mail, and send their "written guarantee" to refund the money, if the treatment does not effect a cure. See a'v't in another column. Sold in Belleville by Jas. Clark & Co.

One dose of BAXTER'S MANDRAKE BITTERS will relieve Sick Headache. One bottle effects a cure. Price 25c. per bottle.

ADMINISTRATOR'S NOTICE TO CREDITORS.

THE creditors of James A. Clark, late of the Township of Thurlow, in the County of Hastings, Butcher, deceased, who died on or about the fourth day of February, 1882, and all others having claims against his estate are hereby notified to send by post prepaid or otherwise deliver to the undersigned Administrator, with the will annexed, of the estate and effects of the said deceased, at S. A. Lazier's store, Front Street, Belleville, on or before the twenty-first day of October next, their christian names and surnames, addresses and description, the full particulars of their claims, a statement of their accounts, and the nature of their securities (if any) held by them, and in default thereof, and immediately after the said twenty-first day of October next, the assets of the said James A. Clark, deceased, will be distributed amongst the parties entitled thereto, having regard only to claims of which notice shall have been given, as above required. And this notice being given under the provisions of the revised Statutes of Ontario, chapter one hundred and seven, section thirty-four, the administrator will not be liable for the said assets or any part thereof, to any person of whose claim notice shall not have been received by him at the time of such distribution.

BELLEVILLE, SATURDAY, SEPT. 23.

City and Vicinity.

CHEESE cable to day, 55s. 6d.

A SINGLE drunk rested in the cells last night.

A PIECE has been broken out of the western dial of the city clock.

JUDGE and Mrs. Sherwood arrived in the city from Toronto to-day.

TO-DAY'S market was the largest one that has been in Belleville for several weeks.

MISS FETHERSTON, of Montreal, will sing a solo in Christ Church to-morrow evening.

THERE is quite a little garden of weeds flourishing in the eaves of the city building.

IF you want a perfect fitting suit go to John Lazier & Son, and try their new cutter. 113d3tw4w

THE annual matches of the 15th Battalion Rifle Association are in progress this afternoon.

FOSTER & REID announce their fall opening for Tuesday and Wednesday next. See advertisement.

IT is probable that the elevator to be built here by the Midland Railway Company will be commenced in the winter.

THE person who sent us an "on dit" must substantiate the statement by furnishing his name as a guarantee of good faith.

GRAIN is very slow in moving this season. Only about half a dozen car loads have come down over the Grand Junction as yet.

DR. JAQUES, of Albert. University will occupy the pulpit of the Bridge St. Methodist Church to-morrow morning and evening.

THE Rev. Mr. Forneri has returned from his trip west, much improved in health. He will officiate in St. John's Church to-morrow.

THE programme of the musical part of the thanksgiving services which are to be held in St. Thomas's Church to-morrow, is published in another column.

ANOTHER "Uncle Tom's Cabin" Company, called the Minnie Foster Company, is to give a performance in the Metropolitan Hall on Thursday evening next.

THE West Hastings Agricultural Fair and the Exhibition of the Belleville Horticultural Society will be held on Wednesday and Thursday, the 27th and 28th inst.

WE have received from the Queen's Printer a copy of the Dominion statutes for 1882. The volume is a very large one, comprising about 800 pages in all.

A MAN named Geo. Morgan was brought to the city this afternoon and lodged in the cells, charged with attempting to shoot a man named Cooley in Trenton last night.

No. 1 express was on time once more today. The great passenger traffic occasioned by the fairs having subsided, the trains will no doubt be as regular as they were before the rush commenced.

THE Woman's Christian Association have agreed to resume their former relations with the City Council, and have accepted $200 from the Chairman of Finance, for distribution among the poor.

PATRICK CULHANE, of Marysville, appeared before the Police Magistrate this morning to answer a charge of selling liquor during prohibited hours on Saturday night The case was adjourned till this afternoon.

SEE Prof. Hotchkin's Springless Truss and Supporter advertisement in another column of this paper. He *defies* the hernia he cannot hold. Go and see him at the Anglo American Hotel, Nov. 8, 9, 10, 11, 12 and 13.

A case of cruelty to animals was tried at the Police Court this morning. John Elliott was charged by John Graham (both Huntingdon farmers) with cruelly beating his (Graham's) horses, which were trespassing in the defendant's field. The charge was sustained, and Elliott was fined $10 and costs.

The "Silver Leaf" Base Ball Club of Napanee were worsted in a match with the "Useless" Club of Camden, being defeated by a score of 11 to 8. The Leafs, however, were dissatisfied with the result, and offered to play the Useless men for $100. The challenge was accepted, and the match will be played at Odessa some day next week

CAPT. CUTHBERT left to day for New York, whence he will bring the yacht *Atalanta* back to Belleville, the offers received for her having been too low. The voyage will be made by the canal, and the yacht will hauled out at Oswego and cleared of the barnacles which attach themselves to vessels that are not coppered, in salt water. The trip will probably occupy about three weeks.

ST. THOMAS CHURCH has been beautifully decorated for to-morrow's harvest thanksgiving services. The materials of decoration are wheat, barley, fruit and vegetables of all kinds in season, grapes, flowers, mosses, &c. The decorations of the pulpit and chancel are especially artistic and beautiful, and the *tout ensemble* of the interior is harmonious as well as striking. The service of thanksgiving will be all the more hearty and spontaneous when the worshipers see around them so much to be thankful for.

A PRINCE EDWARD man named J. C. Palmer was charged with drunkenness at the Police Court this morning. The excuse he gave for his condition was, that he was "troubled with a raging tooth," and had taken a toothful of whiskey to deaden the pain. The magistrate wanted to know whether it was his wisdom tooth that ached, but this joke was lost on Palmer. He was dismissed, with the advice that he should keep himself out of temptation by spending 25 cents in having the offending tooth drawn.

CHRIST CHURCH.—The Rev. Mr. Daniell of Toronto, will preach both morning and evening in this church to-morrow.

WEATHER PROBABILITIES—Toronto, Sep. 23.—Lakes, moderate to fresh westerly to northwesterly winds, fine weather, stationary or slightly higher temperature.

ST. NICHOLAS FOR OCTOBER.—The last number of the present volume, shows no diminution in the excellence that has distinguished the previous issues of the year, and is a better augury for the volume to come than are pages of prospectus.

HOPS.—Buyers have been busy during the past week picking up al the hops they can procure at from 45c to 50c. per lb. At these figures the Prince Edward hop growing district has been pretty well cleared up. We hear of a large sale here to-day at 50c.

THE MARKETS.—The supply of grain to-day was poor. Barley brought 75c. for No. 1, peas, 60c., wheat $1 00 to $1.10 and oats 40c. to 45c. for small lots. Butter was scarce at 28c. to 30c. per lb. Eggs 20c per doz., dealers paying 18c. per doz. Chickens 50c. to 60c. per pair. Ducks 60c. per pair. Potatoes $1.00 a bag.

THE ASIA DISASTER.—"The inquest upon the body of one of the victims of the *Asia* disaster opened at Collingwood on the 22nd. The Great Northern Transit Company's bookkeeper was sworn, and gave evidence regarding the amount of freight on board the ill fated vessel when she foundered. The inquest was then adjourned to obtain the attendance of the two survivors. From Owen Sound news is received of three additional victims who sailed from that port. A passenger who got off the *Asia* at Owen Sound states that there were upwards of one hundred persons on board when she left Owen Sound.

CRICKET.—In spite of the wind and rain of yesterday, a match was actually played at Napanee between the Belleville and Napanee clubs. The arrival of the Belleville team was something of a surprise to the Napanee Club, the members of which did not expect their Belleville visitors on such a day; but, with commendable energy, they got a team together, and not only gave our club a good game, but succeeded in defeating them. The ground was in a miserable condition from the rain, and the scores made were consequently very small; but this was also owing to the splendid fielding and bowling on both sides. Thomas especially distinguished himself, taking eight of the Napanee men's wickets in one innings. The Napanee team went to the bat first, and retired with the magnificent score of 25. But the Belleville team could not rise to the sublimity of even that score, and were compelled to retire with only 13. In their second innings the Napanee men made 33—leaving the Belleville team 46 to beat. This they should have done with ease, but they were only able to come within 18 of the required number, all going out for 28 runs. The Napanee Club thus won the match by 17 runs.

BEFORE purchasing Ready made Clothing be sure and look through HENNESSY'S stock. He has over 300 suits in all, and is offering them at actual cost.

Marine.

The schrs. Hanlan, Grant and *Mary Taylor* arrived yesterday from Oswego, light.

The steambarge *Kingsford* arrived yesterday, light, from Oswego.

The schr. *Frank Smith* is in from Deseronto with lumber, and the schr. *John Wesley*, from the same place with bunch wood

The departures are: steambarge *Kingsford*, Trenton, light; the schrs. *Hanlan*, *Mary Taylor* and *Grant* cleared to-day for Oswego.

EXCELLENT reasons exist why *Dr. Thomas Eclectric Oil* should be used by persons, troubled with affections of the throat or lungs, sores upon the skin, rheumatic pains, corns, bunions, or external injuries. The reasons are, that it is speedy, pure and unobjectionable, whether taken internally or applied outwardly.

A New Principle.

The principle upon which PUTNAM' PAINLESS CORN EXTRACTOR acts is entirely new. It does not sink deep into the flesh, thereby producing soreness, but acts directly upon the external covering of the corn, separates it from the under layer, removes the direct pressure from the part, and at once effects a radical cure, without any pain or discomfort. Let those who are suffering from corns, yet skeptical of treatment, try it, and by the completeness of the cure they will be ready to recommend Putnam's Painless Corn Extractor to others. Sold by W. R. Carmichael.

The English Hop Market

The yearly report of Messrs. W. H. & H. Le May, dated London, September 2, has just reached us, and we present it herewith entire:

The hop season of 1882 having commenced, we again take the opportunity of addressing to you our annual circular, although under the present disastrous state of the hop crop of England, we cannot say we have much pleasure in doing so as usual.

After a careful and thorough personal examination of the hop gardens of England, we are of opinion that this will be the shortest crop per acre ever grown, and will not produce more than £32,000 old duty, or an average of 1 cwt. per acre. We have calculated that there are least 30,000 acres that will not produce any hops; 20,000 that will not exceed 1 cwt. to the acre; 10,000 that will not exceed 2 cwt. to the acre; and 5,500 that will not exceed 5 cwt. to to the acre; or a total of say 65,000 cwts.

The best district is East Kent, where the vermin did not attack so early or so severely; but mould is now ravaging the more promising grounds. Mid Kent comes next; but here the vermin came early, and stuck fast, and it was only those planters who persistently washed that got any bine worth speaking about; and now, unfortunately, the mould is making sad havoc in many of those grounds that looked like pulling through the insect blight.

The Weald of Kent and Sussex, with the exception of the grounds of a few enterprising and far-seeing farmers, who washed early and late, will not produce ½ cwts. to the acre; poles bare of a single hop and almost leafless is the character of the grounds in these districts and the same remarks apply equally to Farnham town and district, Hereford; Worcester and Hampshire

The continent and America will not produce more than two-thirds of last year's yield, and then last year, with only small a demand from England, they consumed all that crop. It is a fallacy to suppose they can send us heavy consignments this year, even if the prices are extremely high; they have a home consumption that must be satisfied before any export business of any magnitude can be entered into; and if they should ship any, they will be buyers before Christmas. All circumstances point to prices ruling very firm at current rates, and would warrant an advance. Our consumption is 600,000 cwts.; England may produce 65,000 cwts; America may send 50,000 cwts.; and the continent 10,000 cwts.; stocks of all kinds do not exceed 36,000 cwts.; making a total of 250,000 cwts.; which will give a deficiency of 350,000 cwts.; which cannot be filled up. These quantities are calculated on an extremely liberal estimate; and it is probable that the result will be one-third less, as our latest reports from America say the new crop will be as least 20,000 bales less than their own consumption.

There have been a few parcels of the new crop on the market, some of which are of good quality, and realized as follows: Sussex, £20 per cwt; Weald, £20 per cwt.; Mids, £22; East, £25 per cwt.; those which showed signs of disease made from £15 to £18 per cwt.; and there is no doubt that some choice East Kents will realize £30 per cwt.

In addition, we also have the weekly circular of the same firm dated September 16. It says: There is a sprinkling of new hops on the market, which are taken freely at £18 to £25 per cwt. Some diseased samples, mouldy and discolored by wind, have been taken at £15. 1881 hops are again dearer, and nothing now remains under £12, and £16 is asked for best samples Mould and wind are seriously injuring the hops in many gardens; those that have been picked come down at least half short of estimate. The imports of foreign hops into England last week were 2,305 bales. For the corresponding week last year, 77 bales.

Current prices for 1882 hops:

East Kents....	£20 0 0	to 25 0 0
Wealds............	18 0 0	to 22 0 0
Sussex..............	17 0 0	to 20 0 0

Consul Tanner at Liege, Belgium, reports as follows on the English hop crop: This has been a most disastrous year for the English hop crop. The enormous value of this crop is little known, even in England. The acreage in hops in the kingdom is close upon 70,000, and the difference between a good crop, say of 10 hundred weight to the acre, and a blighted crop of only two hundred weight per acre., is represented by millions. A good large crop would realize an average of $25 per hundred weight, while a crop of only two hundred weight per acre, of probably as good quality as the other in the production of young, fresh vines, would probably fetch $50 per hundred weight. The importations from the United States, however, so completely rule prices, that figures cannot be relied upon with certainity, until the quantities of said importations be ascertained. An approximate idea can be formed as follows: Ten hundred weight per acre at $25 per hundred weight is $250 per acre, which, on 70,000 acres would amount to $17,500,000. Two hundred weight per acre at $50 per hundred weight would amount to $100, 70,000 to $7,000,000 which would show a difference of $10,500,000. This may be taken as a fair approximation of the hop crop, exclusive of some incidentals to be treated further on. This considerable loss is a great blow to the great industry. Nor is it the only one the English farmer will be called upon to face this year. A regular pest of flies and lice prevails, and this, in addition to the bad weather, has proved destructive to the hopes of the planters. The cost of picking a large crop, including the drying, pole pulling and other incidentals, would be at the rate of one shilling per seven bushels, or 20 shillings per hundred weight, or $50 per acre. This, on 70,000 acres, would amount to $3,500,000 The cost is greater per hundred weight for picking a small crop than for a large one, from the difficulty of finding hops when thinly scattered. Thirty shillings per hundred weight would be about the price to be paid. This, on 70,000 acres, at two hundred weight to the acre, would be about $10,500, so that, in four weeks' work, the laborer would sustain a loss of $2,450,000 in a season such as prevails this present year. The above figures show that the total approximate loss to the hop industry this year will amount to about $14,000,000. In this estimate there have not been taken into account the further expenses and loss incidental to hop cultivation, such as washing the plant with a decoction of soft soap and tobacco juice, and the outlay for engines to spray this decoction on the plant with sufficient force to kill the parasites. These items still further increase the loss, and that, too, by a no means insignificant degree. The effects of the foregoing are vast and far-reaching. The price of land is on the constant downward tendency, and is now 40 per cent. lower than its value of three years ago. Farms that had been handed down in families from generation to generation, have new tenants, and there is little inclination apparent to run the risk of taking farms at any price.

SMITH MEDICINE Co.

GENTLEMEN,—I have made a trial of one box of Dr. Smith's Great German Worm Remedy, with such good effect that I have no hesitation in recommending it to the public as a prompt and reliable medicine. In fact, those who use it once will always do so. Yours truly,
J. Harvie, 172 Cadieux street.
Montreal, December 9th, 1881.

PROCLAIM it far and wide that DR. VAN BUREN'S KIDNEY CURE not only immediately relieves all Kidney diseases, but what is more important to the unfortunate sufferer, will ultimately cure him effectually.

For 30 Years

The dark-eyed and lovely daughters of Spanish America have used MURRAY & LANMAN'S FLORIDA WATER as their only cosmetic and toilet perfume. It is the most fragrant, as well as the most lasting of all Floral Waters, and possesses refreshing and invigorating properties not contained in any other preparation of the kind.

A SIMPLE herb found on the sunny plains of a Southern clime has, under the skillful manipulation of DR. VAN BUREN, proved one of the greatest blessings ever sent to suffering humanity. DR. VAN BUREN'S KIDNEY CURE is acknowledged all the world over as the only perfect remedy for Kidney troubles. Your druggist has it.

LATEST FROM EGYPT.

A REVOLUTION AT MECCA.

More Murderers Hanged.

DAMIETTA SURRENDERED.

ALEXANDRIA, Sept. 23.—It is officially announced that the Grand Sherief of Mecca has been deposed and imprisoned at Saiffe where Midhat Pacha was taken prisoner. Abdallah Abricoun has been named Grand Sherief. He is a brother to the Sherief who was murdered some time ago, as then supposed by orders from the Sultan because he was favorable to the British.

ALEXANDRIA, Sep. 23.—Two men implicated in the Juno massacres here were hanged today.

DAMIETTA, Sep. 23.—Gen. Wood arrived here this morning. Abdallal Pasha surrendered at the railway station. Of the original garrison of 7,000 all deserted except 800 blacks. The latter plundered the barracks, Governor's house and many private residences and exchanges. The robbers then escaped

MORNING DESPATCHES.

NEW YORK NOTES.

NEW YORK, Sept. 23.—Arrived, the *Pollux* from Amsterdam.

The petroleum exchange was in a fever of excitement all yesterday, in consequence of a jump in prices which followed the failure of the Gas Co.'s oil wells. Pennsylvania district was advanced 5c. in less than two hours.

Sylvester Roe Comstock, President of the National Citizens' Bank, dropped dead from heart disease in the Bank building yesterday. He was 74 years old.

Alonzo Follett, dealer in commercial paper, Wall Street, is embarrassed. He handled millions of dollars of the box paper every year. For nearly 20 years he has been a medium between the banks and other money lenders, and a large number of leading business concerns in the city, in the negotiation of loans. His chief customers have been in the habit of leaving their paper at his office and drawing money against it, according to their necessity. It is stated he received from some customers large amounts of paper, for which he cannot now pay them. It appears he either sold or hypothecated the paper. Liabilities to customers estimated at $400,000 to a million. The general presumption is that he has lost money in speculation. Brokers who have been large purchasers of paper from Follett state that they are amply secured. He was bailed in $12,000. Follett said his customers were receiving from him good paper in satisfaction of their claims. The banks would carry along weak ones, and everything turn out all right in the end. Follett has been regarded as worth half a million.

BRADSTREET'S WEEKLY REPORT.

NEW YORK, Sep. 23.—Special telegrams to Bradstreet's *Journal* from the leading trade centres to-day, indicate that the general trade maintains the ample proportion previously noted The distribution of dry goods is especially active. Wheat is being held back for higher prices by farmers, and the corn crop is well nigh secured from possible frost. The condition of the cotton crop is improved. The total number of failures for the week is one hundred and forty-one, two more than last week, and forty-five more than the corresponding week of last year. Canada had twenty-one, two less than last week.

If Nearly Dead

after taking some highly puffed up stuff, with loud testimonials, turn to Hop Bitters and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes, or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides, it is the best family medicine on earth.

AFTERNOON DESPATCHES

AN UNLIKELY RUMOR.

PARIS, Sep. 23.—A newspaper here asserts that negotiations are progressing between the Porte and the British looking to the cession of Egypt to England, on the consideration of an annual payment by the latter of £320,000 sterling.

FLOODS IN ITALY.

ROME, Sep. 23.—It is reported that the floods in the various districts of Italy caused great damage to property, and large loss of life

A DESPERADO KILLED.

HOT SPRINGS, Ark., Sep. 23.—Matthew Edition, who was killed by Col. Rugg yesterday, had been concerned in many desperate encounters. His wife was from Buffalo, N. Y.

QUEENSTOWN, Sep. 23.—Arrived, the *Celtic*.

Trenton Correspondence.

TRENTON, Sep. 22nd.

A nearly fatal accident occurred at Gilmour's saw mill here this afternoon, about 3 o'clock. Two men named Henry Welbanks and J. Dorancean were attending one of the large double edgers, when a board which was being edged somehow got pinched between the saw, and flying back struck Doranceau on the shoulder, inflicting an ugly gash. At the same time a splinter struck Welbanks over one of his eyes, fracturing the skull and imbedding itself in the head. It is thought impossible for him to recover. Doranceau's injuries will not prove fatal.

Messrs Gilmour & Co. have just received from the Manchester Locomotive Works, of Manchester, N. H., one of their large sized Monarch double acting steam fire engines, which will be kept constantly in the mill yard, together with a trained brigade, ready for immediate action in case of fire. The engine cost the company over five thousand dollars, and at the test on Wednesday last proved itself well worth the amount.

Midland Railway of Canada.

PETERBOROUGH, Ont., Sep. 20th 1882.

The traffic of the above railway for the week ending Sep. 16th 1882, was as follows:

Passengers and Mails, $11,884.38; Freight, $13,431.54; Total, $25,315.92, as compared with $23,372.88 for the corresponding week of 1881, being an increase of $1,943.04; and the aggregate traffic to date is $718,498.57, being an increase of $165,020.15 over 1881.

J. FRITH JEFFERS,
Auditor.

—The General Conference of the Canada Methodist Church discussed the report of the Committee upon Union Many of the members addressed the Conference and the question was evidently approached in a conciliatory spirit. An adjournment was had, however, without a vote being taken.

—Dr. Schultz is to be called to the Senate as a representative of Manitoba

—Hon. J. C. Aikins has been appointed Lieut-Governor of Manitoba in the room of Hon. Mr Cauchon, whose term expires on the 8th of October.

The Diamond Dyes always do more than they claim to do. Color over that old dress. It will look like new. Only 10 cents

Consumption, that dread destroyer of the human race, is often the result of bad blood and low vitality, a scrofulous condition of the system. Burdock Blood Bitters cure Scrofula in its worst form.

Dr. E. C. West's Nerve and Brain Treatment is a never failing cure for Nervous Neuralgia, Nervous Headache, Overworked Brain, &c. Sold at James Clarke & Co's.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, New York City*, [w6m143eod

Professor Bowlin's Great Golden Seal Discovery.

The greatest and latest discovery of the nineteenth century. A sure and permanent cure for Fits, Hysterics, Dizziness, and all nervous complaints. When ordering a bottle send full description of disease, age and condition of patient, advice free, price $1.00 per bottle. RICHER, BARBEAU, & Co., 101 St. Francios Xavier St., Montreal, solejagents for Canada.

Commercial.

N. H. DOWNS' ELIXIR

N. H. DOWNS'

Vegetable Balsamic

ELIXIR!

This valuable medicine is purely vegetable, the discovery of which was the result of many years' close study, in order to discover the cause, the symptoms and the cure—viz.:

Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Influenza, Pleurisy, Hoarseness, Spitting Blood, Bronchitis,

and every species of oppression of the Chest and Lungs. In all cases where this Elixir has been duly administered its efficacy has been invariably manifested, convincing the most incredulous that

CONSUMPTION

is not incurable, if properly attended to.—Consumption at its commencement, is but a slight irritation of the membrane which covers the lungs, then an inflammation, when the cough is more observable, but rather dry; then becomes local fever and the pulse more frequent, the cheeks flushed and chills more common. This Elixir in curing the above complaints, operates so as to remove all morbid irritations and inflammation from the lungs to the surface, and finally expel them from the system. It facilitates expectoration.

IT HEALS THE ULCERATED SURFACES

and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. It is free from strong opiate and astringent articles, which are of so drying a nature as to be in great danger of destroying the patient, whereas this medicine never dries or stops the cough, but, by removing the cause, generally destroys the hectic [illegible] cough is entirely gone. Consequently, when the cough is cured the patient is well. Send address for pamphlet giving full directions for cure of pulmonary diseases. Price 25cts. and $1 per bottle. Sold everywhere.

HENRY, JOHNSON & LORD, Props.
MONTREAL, P. Q.

$200.00 REWARD!

Will be paid for the detention and conviction of any person selling or dealing in any bogus, counterfeit or imitation HOP BITTERS, especially Bitters or preparations with the word HOP or HOPS in their name or connected therewith, that is intended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as HOP BITTERS. The genuine have a cluster of GREEN HOPS (notice this) printed on the white label, and are the purest and best medicine on earth, especially for Kidney, Liver and Nervous Diseases. Beware of all others, and of pretended formulas or receipts of HOP BITTERS published in papers or for sale, as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted.

HYDROLEINE

HYDROLEINE
HYDRATED OIL
EQUIVALENT TO
10 TIMES
THE SAME
BULK OF C.L.OIL
PREPARED BY
THE HYDROLEINE Co
LONDON ENGLAND

(HYDRATED OIL)
An artificially digested Cod Liver Oil.

For Consumption, Winter Cough, Affections of the Chest and all Wasting Diseases.

Prescribed by the leading physicians of England, the United States and the Dominion of Canada

A WONDERFUL FACT.

HYDROLEINE mixes perfectly with *water* showing a complete artificial digestion of the oil, and just as the HYDROLEINE mixes with the *water*, so does it mix with the liquid contents of the *stomach*, and enters immediately into the *system* to nourish and *build* it up. The efficacy of HYDROLEINE IS NOT CONFINED to cases of Consumption, as from its valuable tonic effect on the nervous system in addition to its special stimulating action on the organs concerned in the production of *Fat* in the body, it *causes marked increase in weight in persons of naturally thin habit, who do not present any evidence of disease.*

Unlike *ordinary* preparations of Cod Liver Oil, it produces *no* unpleasant eructation or sense of nausea and should be taken in such *very much smaller dose* according to the directions, as will ensure its *complete assimilation*; this, at the same time, *renders its use economical* in the *highest degree.*

For sale by all Druggists.

"We have sold the above remedy for several months and find it spoken of very favorably by both the medical profession and the public. We can safely recommend it to parties needing such a remedy." Signed,

L. W. YEOMANS & CO.
A. L. GEEN.

THE STORY OF THE GATE

Across the pathway, myrtle-fringed,
Under the maple, it was hinged
The little wooden gate,
'Twas there, within the quiet gloam
When I had strolled with Nellie home
I used to pause and wait

Before I said to her "Good-night,
Yet loth to leave the winsome sprite
Within the garden pale;
And there, the gate between us two,
We'd linger, as all lovers do,
And lean upon the rail.

We'd talk in fitful style, I ween
With many a meeting glance between
The tender words and low,
We'd whisper some dear, sweet conceit,
Some idle gossip we'd repeat,
And then I moved to go.

"Good-night," I'd say, good-night, goodby,
"Good-night"—from her, with half a sigh
"Good-night," "good-night." And then,
And then I do not go, but stand,
Again lean on the railing, and
Begin it all again.

Ah! that was many a day ago
That pleasant summer time although
The gate is standing yet;
A little cranky, it may be,
A little weatherworn—like me
Who never can forget!

The happy—"End?" My cynic friend,
Pray save your sneers there was no 'end.'
Watch yonder chubby thing!
That is our youngest, hers and mine,
See how he climbs, his legs to twine
About the gate and swing.

Scribner's.

VANISHED HOURS.

Where are they gone, those dear dead days
Those sweet past days of long ago,
Whose ghosts go floating to and fro
When evening leads us through her maze?
Where are they gone? Ah! who can tell?
Who weave once more that long-passed spell?

They did exist when we were young,
We met our life with strength and trust,
We deemed all things were pure and just,
Nor knew life had a double tongue.
We lightly sing a happy song,
Nor dreamed our way could e'er be wrong.

And then all changed, as life went by,
The friend deceived, or bitter death
Smiled as he drank our dear one's breath,
And would not let us also die,
Day followed day; as on they went
Each took some gift that life had sent.

Yet it was ours; that perfect past!
We did have days that knew not pain,
We once had friends death had not ta'en,
And flowers and songs that could not last,
Were ours in that most blessed time,
When earth seemed Heaven's enchanted clime.

And so I think when lights burn low
And all the house is fast asleep,
From out a silence vast and deep
Those dear dead days we worshipped so,
Breathe on us from their hidden store
Their long-lost peace, their faith once more.

God keep those dear old times; ah me!
Beyond our vision they may rest
Till on some perfect day and blest
Once more those dear, dead days will be,
For death who took all, may restore
The past we loved, to us once more.

Justice Carey Taking Pay for His Time.

A young man came into Justice Carey's court room, at Carson City, Nev., with the rim of his hat drawn down over his eyes, and remarked:

'Do you know me?'

'I think,' replied the court meekly, 'that you're the chap I sentenced for stealing, about a year ago.'

'That's the hairpin I am,' replied the other, 'and there is $20 for my fine.'

'But you served your term in jail,' said the judge 'and owe no fine.'

'That's right, old boy, but I'm about to commit an assault and battery, and I guess I'll settle now. You're the man I propose to lick.'

'Oh! that's it,' rejoined the court, pocketing the coin; 'then you can start in and we'll call it square.'

The young man advanced to the judge and let out his left.

The judge ducked his head, and rising up, lifted the intruder in the eye with a right-hander, and sent him over against the wall. In a moment the court was climbing all over the man, and in about three minutes his face was hardly recognizable. The man begged the court to let up, which he finally did. As the fellow was about to go out, Carey went after him with:

'See here, young man, I don't think the fighting you did ought to be assessed at more than $2.50—here's $17.50 in change. I ain't charging you anything for the fighting, but just for the time. Next time I won't charge you a cent.'

The rough took the change and the next train for Virginia City.—*Carson City Appeal.*

The Matter with the Telephone.

'I don't know vhat I shall do mit dat telephone of mine,' observed a citizen as he entered the headquarters of the company yesterday and sat down in a discouraged way.

'Out of order, is it?'

'Sometimes it vhas, und sometimes it vhas all right. If I go to speak mit her coal man, or der city hall, or der butcher, it vhas all right, und I can hear every word. If somebody vhants to order my peer, I get the name shust as plain as daylight.'

'And when does it fail?'

'Vhell, shust like two hours ago. A saloon man he owes me $18, und I rings him oop and calls out, 'Hello! hello! I likes dot monish to-day!' Den he vhants to know who I am, und he says he can't catch der name. I tell him oafer, und by und by he calls out dot he doan' deal in watermelons, und dot he goes in to pave Gratiot street, und dot he is sorry he can't sign my petition to der council. Den I haf to go all oafer again, und he tells me to stand back, und to come closer, and to speak louder, und at last he gits mad und tells me dot if I call him a dandy again he'll proke my head. It's no use—I can't make one of my customers hear me. If somethings doan' ail my telephone, it may be ash my voice is giving out. I vish you would examine me und see if I had better let my son Shon do der talking while I keep der books.—*Detroit Free Press.*

It never pays for two young men to fight about a girl. Nine girls out of ten invariably nurse and marry the one who gets whipped, while the victor always finds that no other girl wants a fellow who has made such a fool of himself over that "horrid Miss——."

A young man of Maryland committed suicide because he was too poor to marry. This is an isolated case. The poor man generally marries, and if his wife doesn't commit suicide a year or two afterward it is not because she hasn't sufficient provocation.

As a cure for all diseases of the Lungs, DOWNS' ELIXIR has no equal.

CINGALESE. A name well known in connection with the HAIR RENEWER, which restores grey hair to its natural color by a few weeks use. Sold at 50 cents per bottle by all Druggists.

Samson lost his strength with his hair. Thousands of men and women lose their beauty with theirs, and very large numbers restore the ravages of time by using the famous Cingalese Hair Restorer. Sold at 50 cents per bottle by all Druggists.

DELAYS are dangerous, particularly in Kidney Diseases, so take at once DR. VAN BUREN'S KIDNEY CURE and obtain relief from all your sufferings. Your Druggist keeps it

BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, blotches, pimples and the various humors and blemishes of the skin are only symptomatic of bad blood—that needs purifying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidneys, skin, etc, and strengthening while it regulates and purifies.

"THE BEARN IN A BEASTIE," says a quaint old book, published in London three centuries ago, "whose flesh is good for mankynd; his fat is good, with laudanum, to make an ointment to heale balde-headed men to receive the hayre agayne." We know of many "balde-headed men" who would be glad to "receive the hayre agayne," but we do not desire to encourage them in a trial of Bear's fat and laudanum. Far from it. We, however, do not hesitate to commend Dr. J. C. Ayer & Co.'s Hair Vigor, which not only has the effect in some cases of making the hair grow on heads once bald, but cleans the scalp and restores gray and faded hair to its original color and vitality, imparting to it the glossiness and softness of youth. The evidences of its utility are too numerous and of too high a character to admit of any doubt. It required years of study and scientific experiment to decide upon the combination of ingredients that would accomplish what Ayer's Hair Vigor now does.—*The Interior, Chicago, Ill.*

Asthma and Bronchitis Cured.

HALIFAX, N. S., Jan. 1882.

C. M. PUTTNER, Esq., PH. M.:

SIR,—I consider it my duty, not only to yourself, but to my fellow creatures who are suffering from Asthma and Bronchitis, as I had for some time previous to using your "Emulsion of Cod Liver Oil with Hypophosphites" to give my testimony to the most wonderful good effect it had. Having suffered for some time with Asthma and Bronchitis, accompanied with great nervous exhaustion, and having carefully read your Essay on the combination and uses of your Emulsion, I was persuaded to give it a trial and on using two bottles I began to receive great benefit and relief, and after using three bottles I was completely revived and am to-day perfectly free from either Asthma or Bronchitis, and my nervous system much invigorated and built up. I have found it very pleasant and palatable, and with no taste of the 'oil' whatever, and can with great confidence recommend it to those suffering as I did previous to taking your compound. In conclusion, I consider I owe you a debt of great gratitude for the benefit I have received from your Emulsion and only hope that many may be induced to give it a trial, and receive as great benefit as I have from its use. I am, yours, &c.,

ALEX. STEPHENS, SR.,
Merchant.

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrh, Bronchitis, Asthma and Lung Disease by Dr. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the seat of disease. Read and judge for yourself:—

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. JOHN P. WHELAN, Manager of Post and TRUE WITNESS, Montreal. Mr. C. HILL, Montreal, catarrh and bronchitis. Mr. DEBOUCHERVILLE, of the Indian Department, Ottawa, catarrh of many years; now cured. Mr. GEO. AGER, Ottawa, catarrh and lung disease; cured. Mrs. SMITH, London, wife of Medical Detective, cured of catarrh. GEO. MAGUIRE, Toronto, 482 Adelaide street West; daughter cured of asthma. GEORGE WILLIS, Exeter, Ont., catarrh and bronchitis. J. D. ARMSTRONG, 186 Yonge street, Toronto, catarrh and catarrhal deafness. THOMAS TELFER, 12 Melinda street, Toronto, asthma; cured. Mr. BENJ. A. DRAKE, St. Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. BENOIT, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma and bronchitis for over eight years, and who is now perfectly cured.

Mrs. ADAMSON, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitating in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis. JOHN O. FLEMING, Editor of Post and TRUE WITNESS, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write, inclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souville and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

KIDNEY-WORT

FOR THE PERMANENT CURE OF CONSTIPATION.

No other disease is so prevalent in this country as Constipation, and no remedy has ever equalled the celebrated Kidney-Wort as a cure. Whatever the cause, however obstinate the case, this remedy will overcome it.

PILES. THIS distressing complaint is very apt to be complicated with constipation. Kidney-Wort strengthens the weakened parts and quickly cures all kinds of Piles even when physicians and medicines have before failed. ☞ If you have either of these troubles

UNCONDITIONAL, INCONTESTABLE LIFE POLICIES.

THE objection is often made that the Companies may take advantage of some of the conditions on their Policies, and thus either avoid entirely the payment of claims, or compromise with the widow for a small sum. This argument cannot be used against

THE SUN LIFE ASSURANCE CO'Y OF MONTREAL,

which issues absolutely unconditional policies to selected lives. There is no restriction of any kind on them. The assured may travel to any part of the world without extra premium. He may change his occupation at will, or do anything else he chooses. The contrast is remarkable with other policies. Ask an agent to show you one; it speaks for itself.

MEDICINE CHEST IN ITSELF
A PURELY VEGETABLE MEDICINE
For INTERNAL and EXTERNAL use.
THE OLDEST BEST & MOST WIDELY KNOWN FAMILY MEDICINE.

Farmers and Mechanics.

Provide yourselves with a bottle of *PAIN-KILLER* at this season of the year, when summer complaints are so prevalent; it is a prompt, safe, and sure cure. It may save you days of sickness, and you will find it is more valuable than gold. Be sure you buy the genuine *PERRY DAVIS' PAIN-KILLER*, and take no other mixture.

COBOURG, Ont., March 3, 1880.

I have been selling Perry Davis' Pain-Killer for the past six years, and have much pleasure in stating that its sale in that time has been larger than any other patent medicine that I have on my shelves, and in those years I have never heard a customer say aught but words of the highest praise in its favor. It is an article that seems to have combined in it all that goes to make a *first-class family medicine*, and as long as I have a house and store, Perry Davis Pain-Killer will be found in both.

Yours, &c., J. E. KENNEDY.

Beware of Counterfeits and Imitations.

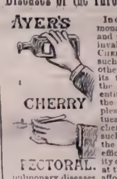
$1,000 Forfeit!

Having the utmost confidence in its superiority over all others, and after thousands of tests of the most complicated and severest cases we could find, we feel justified in offering to forfeit One Thousand Dollars for any case of Coughs, colds, sore throat, influenza, hoarseness, bronchitis, consumption, in its early stages, whooping cough, and all diseases of the throat and lungs, except Asthma, for which we only claim relief, that we can't cure with West's Cough Syrup, when taken according to directions. Sample bottles 25 and 50 cents; large bottles one dollar. Genuine wrappers only in blue. Sold by all druggists, or sent by express on receipt of price. JOHN C. WEST & Co., sole proprietors, 81 and 83 King St. East Toronto, Ont. For sale at Jas. Clarke & Co.'s Drug Store.

THE BEST REMEDY

FOR

Diseases of the Throat and Lungs.



In diseases of the pulmonary organs a safe and reliable remedy is invaluable. AYER'S CHERRY PECTORAL is such a remedy, and no other so eminently merits the confidence of the public. It is a scientific combination of the medicinal principles and curative virtues of the finest drugs, chemically united, of such power as to insure the greatest possible efficiency and uniformity of results. It strikes at the foundation of all pulmonary diseases, affording prompt relief and rapid cures, and is adapted to patients of any age or either sex. Being very palatable, the youngest children take it readily. In ordinary **Coughs, Colds, Sore Throat, Bronchitis, Influenza, Clergyman's Sore Throat, Asthma, Croup, and Catarrh**, the effects of AYER'S CHERRY PECTORAL are magical, and multitudes are annually preserved from serious illness by its timely and faithful use. It should be kept at hand in every household for the protection it affords in sudden attacks. In **Whooping-cough and Consumption** there is no other remedy so efficacious, soothing, and helpful.

Low prices are inducements to try some of the many mixtures, or syrups, made of cheap and ineffective ingredients, now offered, which, as they contain no curative qualities, can afford only temporary relief, and are sure to deceive and disappoint the patient. Diseases of the throat and lungs demand active and effective treatment; and it is dangerous experimenting with unknown and cheap medicines, from the great liability that these diseases may, while so trifled with, become deeply seated or incurable. Use AYER'S CHERRY PECTORAL, and you may confidently expect the best results. It is a standard medical preparation, of known and acknowledged curative power, and is as cheap as its careful preparation and fine ingredients will allow. Eminent physicians, knowing its composition, prescribe it in their practice. The test of half a century has proven its absolute certainty to cure all pulmonary complaints not already beyond the reach of human aid.

Daily Intelligencer.

LOSS OF THE "ASIA."

A Heroic Girl's Story.

PARRY SOUND, Sept. 20.—Miss Morrison is still very weak and confined to her bed, but the doctor considers her out of danger. She was able this afternoon to furnish the following account of the disaster:

"I went on board the Asia at Owen Sound. I had a ticket for Sault Ste. Marie. The Asia reached Owen Sound at 11 o'clock Wednesday night, and remained about an hour, taking in passengers and freight. I saw seven persons buy tickets at Owen Sound, five men and two women. One of the women had a child about a year old with her. Two of the gentlemen looked like commercial travellers, the others like laboring men I knew none of their names. There may have been more got on board there, but these are all I observed. I got to a stateroom along with two other young ladies—one a Miss McNab, who got on board at Collingwood. I do not remember the name of the other. They were not companions, but the rooms were so full that the cabin maid put them into the double berth, and gave me the other. I went to bed before the boat touched Presqu'Ile, but was awake. The mate, Macdonald, told me in the morning that they took in hay, but no passengers at Presqu'Ile. The mate was my cousin. It did not get very rough till about 8 in the morning I was up then, but was sea sick, and took no breakfast. I saw four women with children in the cabin; one had four, one had two, and two had one child each There were two families who took deck passage. I noticed the four women and their children particularly, as the women were all sick, and the cabin maid was feeding the children. There may have been other ladies in the staterooms. I kept out in the open air, and did not go to my stateroom until a few moments before the boat went down. I knew there was danger before that. I saw people putting on life preservers. I laid down, and I could not move if the boat were sinking. The boat rolled on her side and I thought it was sinking. I jumped up and went into an adjoining stateroom where the woman with the two children was, found her asleep, woke her, but think she never left the cabin. Her children were very small, one about two years and the other a child in arms. I then put on a life preserver and sat by the cabin door.

Before I went to my stateroom I asked the mate if there was great danger. He said there was a very heavy sea, but they had already thrown some of the horses overboard, and would throw off all the freight they could, and that they were very heavily loaded. I could hear a great noise made by the horses. I had hopes that the boat would be saved till I saw the water coming into the cabin; I was on the upper side of the boat. She was now on her side, and I took hold of the rail, and slid down into the water and sank, and came up by the side of the captain's boat.

He took me by the wrist, and the mate helped to pull me in. My stateroom companions were both in the same boat, but no other women or children. I saw the other two life-boats, both full. The captain and mate had oars, and tried to take care of the boat. The steamer was now down, and the wreckage was floating all around. I saw the other two boats upset twice. Each time the number was reduced. The three boats drifted together for a short piece. Heard the other boats call to the captain for an oar. One of the two boats had no oars, one had one oar, and our boat two. The captain could spare none. Our boat went along quite nicely for some minutes. The others capsized almost immediately. They had nothing to help themselves with.

It was sitting in the bow of the boat looking back towards the wreck, and saw the other two boats tip over three times. When I saw them last they were empty; no one even clinging to the sides. I feel sure that none were saved except Tinkiss and I; finally our boat upset, and we lost both oars. We were then at the mercy of the waves, and upset four times in all. There were eighteen in before we upset. The two women were lost the first time It got calmer near dark, and the boat did not upset again. About this time we picked up a floating oar; but all were too exhausted to use it.

When the mate helped me in he told me to hold on to the life line whatever happened, and I never let go. When the boat upset I hung on and came up with it. None of the five men died until after dark. The mate got up on his knees and said he could see land, and this cheered us all. The captain seemed very sad and seldom spoke. None had hats on and none coats on but Tinkiss. I had neither hat nor shawl; we were all in water up to our knees, but the water was not up to the seats. If we had had a bailing dish we could have bailed out the boat after the sea went down, but had nothing to do it with.

The men all died quietly, as if they seemed to go to sleep. The mate put his head up to my face in the dark, and asked if it was me. I said "Yes" My hair was flying around and he seized it in his death grasp and pulled down my head. I asked the captain, who was near, to release my hair. He did so, and the mate soon breathed his last. We saw a light, Bying Inlet, about dark, and could see it all night but were drifting south. Shortly after the mate died the captain laid his head down. I tried to arouse him, but he was dead. I think this was about midnight.

Mr. Tinkiss and I kept up a conversation. I was nervous and feared that Mr. Tinkiss would lay his head down like the rest. I asked him to come to the bow, but he said he would balance the boat better by remaining as we were, and that he would not go to sleep.

Daylight finally dawned, and revealed the shore near by. Tinkiss worked the boat towards the shore with the oar we had picked up. It was a beautiful warm morning, and the sun warmed us and dried our clothes. We got on the rocks shortly after sunrise, and attempted to walk across the island, and we thought we might find some houses I could not walk, and we returned to the boat. Tinkiss took the bodies out, I could not help him. He then took out some of the water, and pried the boat off with an oar. He then worked the boat down the beach, but made poor headway. Dark coming on, I was afraid it would get rough, and we then landed, broke boughs for our beds, put some under us and some over us, and I slept some, but was nervous We were up before sunrise, got into the boat, it was calm then, rowed a short piece and gave up, went ashore, laid down on the rocks and went to sleep. An Indian came along and woke us up, and asked if we were lost. We said we were. His squaw was in the boat. We asked how far it was to a house He said twenty-two miles. He asked us if we were hungry, and got some bread and pork from his boat. I could not eat, but drank some cold tea Tinkiss gave him his watch to bring us to Parry Sound. We had but little to eat on the way. The squaw made me a bed in the boat, and I slept there on Saturday night. I was quite comfortable. Tinkiss never gave up except on Saturday morning, when we laid down on the rocks to die. I thought of the "Babes in the Woods," but saw no hope of rescue.

As a cure for all diseases of the Lungs, DOWNS' ELIXIR has no equal.

Hypercritical Mr. Crooks.

The Montreal *Star* is so independent in its views that both parties quote from it occasionally. It says.—"Hon. Adam Crooks, the Ontario Minister of Education, is becoming decidedly hypercritical. A few years ago, when Toronto University required a professor and a tutor of classics, Mr. Crooks, a graduate of the University (judging others' qualifications by his own, it must be supposed), with a fine contempt for Canadians, passed over applications from some of our best scholars, some of whom had had the benefit of a partial Old World training, and selected Englishmen for the positions. Now he comes to the front with an order that "Marmion," the finest poem of one of the finest men that ever lived, is not to form part of the high school examinations. Owing to the demand which had formerly existed for the book, large numbers of it had been laid in by booksellers and some 15,000 are said to have been already purchased by students. The Minister of Education finds "Marmion" immoral and offensive to religious susceptibilities, and for these reasons has struck it off the list for the examinations. If the Senate of Toronto University, composed of men of great educational experience and ability, find nothing unsuitable in "Marmion," it became the Hon. Minister of Education, a young man of whom Canadian educationalists are not too fond, to put up with it, whatever his opinion might be, resting assured that older and wiser heads than his knew more of such matters than he did, even though they were not Ministers of Education."

The Artesian Well at Grenelle, Paris.

Artesian wells derive their name from Artois, in France, anciently called Artesium, where they have very long been in use. An artesian well is a small hole bored in the earth to a great depth, till it strikes one of the strong underground currents of water.

To understand this thoroughly, it is well to know that the interior surface is full of fissures, channels and basins, through which the water is gradually working its way wherever it finds or makes a way. Where the current of one of these rivers is very rapid, and the presure from above great, and the channel thus tapped, the water is forced up to the height nearly of the basin from which it started. An artesian well must, therefore, be sunk in a lower ground, surrounded by a more elevated tract, which can collect the water.

The deepest well of this kind in the United States, and perhaps in the world, is that sunk by the Belchers, at their sugar refinery in St. Louis. It was driven down to the depth of 2,199 ft., and then, on March 12, 1854, water was reached, but so charged with mineral matter as to be unfit for use.

That of Grenelle, in the Paris basin, was more profitable. It was commenced on the 24th of December, 1841, at the depth of 1,792 ft., the boring rod suddenly penetrated the rock arch of the subterranean aqueduct, and fell some 14 ft. Then the water gushed out, and after a short time became perfectly limpid. It rises 34 10 metres above the mouth of the well—that is, more than 100 feet. It was essential to success that it should attain such a height as to allow it to descend to Paris. From this pipe the water is drawn off to the reservoirs in the Place du Pantheon, Its importance in supplying water may be seen from the fact that it gives out 500,000 gallons in twenty-four hours. The well was near the Place Breteuil, and to make the tall structure needed both useful and ornamental, pipes were laid to conduct the water to the square at the junction of the roads leading to the Military School and the Invalides. Here the architect Delaperche raised a strong yet graceful structure. It has a beautiful appearance, is of cast-iron, from the foundry at Fourchambault, is 42.85 metres, or we may say, yards in height, and 3.55 metres in diameter at the base. It weighed 100,000 kilogrammes.

Take no more nauseous purgatives. Burdock Blood Bitters act mildly, pleasantly and thoroughly upon the Bowels, and occasion no inconvenience, while it regulates the Liver and Kidneys and tones the enfeebled system. Trial bottles 10 cents.

AFTER many years of patient investigation DR. VAN BUREN, of Germany, finally succeeded in perfecting a Kidney Cure that would permanently relieve all cases of Kidney Disease. Be sure and ask your Druggist for DR. VAN BUREN'S KIDNEY CURE.

Rheumatism is greatly dependent on a vitiated condition of the fluids, and may, be eliminated from the system by cleansing the Blood and regulating the Kidneys. Burdock Blood Bitters will do this most effectually. Trial bottles 10 cents.

RACKED BY INNUMERABLE PANGS, restless by day, sleepless at night, rising unrefreshed in the morning, without appetite and pestered by varying and perplexing symptoms, the dyspeptic takes indeed a gloomy view of human existence. For him the zest of life seems gone. Heartburn, oppression at the pit of the stomach, and the attendent annoyances of of constipation and biliousness, combine to render him utterly wretched. But there is, if he will but take advantage of it, a reliable source of reliable relief from all misery. NORTHROP & LYMAN'S VEGETABLE DISCOVERY and DYSPEPTIC CURE is, as its name imports, a botanic preparation, free from mineral poison, and an all-sufficient remedy for indigestion in its most obstinate form. It not only enriches the blood by enabling the digestive organs to convert the food received into nutriment, but depurates it by increasing the action of the bowels and kidneys, the natural outlets for its impurities. But while it relaxes the bowels, it never does so violently and with pain, like a drastic cathartic. It aids, but never forces, Nature, invigorating as well as purifying and regulating the system. It thoroughly removes those diseased humors which tend to vitiate the blood, purifies the urinary secretion and promotes a flow of healthy bile into the natural channel, besides expelling it from the circulation. Experience has proved that this standard medicine is a thorough remedy for dyspepsia, biliousness, costiveness, kidney complaints, scrofula, erysipelas, salt rheum, lumbago and all impurities of the blood. Price $1.00. Sample Bottle 10 cents. Ask for NORTHROP & LYMAN'S Vegetable Discovery and Dyspeptic Cure. The wrapper bears a *fac-simile* of their signature. Sold by all medicine dealers

Samson lost his strength with his hair. Thousands of men and women lose their beauty with theirs, and very large numbers restore the ravages of time by using the famous Cingalese Hair Restorer Sold at 50 cents per bottle by all Druggists.

Rest and Comfort to the Suffering.

"Brown's Household Panacea" has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful," "Brown's Household Panacea," being acknowledged as the great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle. 264ly

BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, blotches, pimples and the various humors and blemishes of the skin are only symptomatic of bad blood—that needs purifying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidneys, skin, etc, and strengthening while it regulates and purifies.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle. 264ly

The most wonderful curative remedies of the present day, are those that come from Germany, or at least originate there. The most recent preparation placed upon the market in this country, is the GREAT GERMAN INVIGORATOR, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangements of the nervous system. For sale by druggists, or sent free by mail on receipt of the price, $1.00 per box, or six boxes for $5.00. Address James Clark & Co., Sole agent for Belleville. Send for circular.

CINGALESE. A name well known in connection with the HAIR RENEWER, which restores grey hair to its natural color by a few weeks use. Sold at 50 cents per bottle by all Druggists.

Will you EXCHANGE a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys.

Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

Daily Intelligencer.

BELLEVILLE, MONDAY, SEPT. 25.

West Hastings.

A GRIT CANDIDATE IN THE FIELD.

A mass meeting of the supporters of the Mowat Government, which secured but a small attendance, was held in Belleville on Saturday, for the purpose of selecting a gentleman to prevent the unopposed return of the Conservative candidate for the unexpired term of the present Legislature. Several gentlemen were nominated, including Messrs. R. O. Clute, E. G. Sills, John N. Lee, and others. All the gentlemen nominated withdrew, except Mr. Lee, and he in consequence received a unanimous nomination.

And here comes in a little bit of history. Mr. Lee, who has always been known as a Grit, in May last issued an address to the electors of the riding, in which he declared himself an Independent candidate, he having found the N. P. to be a good thing, judged by its working. However, to prevent a split in the ranks, he was induced to attend the party meeting, which resulted in the nomination of Mr. Brown, Mr. Lee withdrawing on the understanding that he should get the nomination for the Legislature. This understanding has now been carried out, thanks to the well-grounded belief in the minds of men who would be much stronger candidates than he, that they had no hope of success, and Mr. Lee will now have his ambition for cutting a figure in politics gratified by receiving an unmerciful beating.

As the Grit candidate is unknown to nineteen-twentieths of the electors, we would state, for their information, that he is a respectable resident of Trenton, of which place he was twice Deputy Reeve, but on offering for the Reeveship he was badly beaten, thus shewing his unpopularity in his own town. That he will be successful in his candidature for the Legislature we cannot believe that even he can for a moment imagine, as the odds are overwhelmingly against him.

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists.

The License Law.

The *Globe* offers a very lame defence of the license law tyranny of its *proteges* the Government of Ontario. Amongst other things it says:

> "Under the old system every man got a license who could bring the requisite amount of influence to bear on the municipal bodies which was a fruitful source of intrigue and corruption."

If such was the result of the applications under the old law—which we emphatically deny—what has been the result under the present law? The *Globe* omits any reference to this branch of the subject, thereby seeking to leave the impression that honesty and impartiality have characterized the proceedings of the Commissioners appointed by the Mowat Government. Our knowledge of the administration of the law in Belleville is such that we can not permit such an impression to go abroad unchallenged.

Instead of purity, there have been unfairness and corruption of the grossest kind. In this city, parties have been licensed simply because the premises which they occupy are owned by prominent Grits; others have been refused license simply because they are Conservatives; the law has been broken by some of the Commissioners by issuing an undue number of licenses, they having been identified for doing so; and the more wealthy applicants for licenses were for two years obliged to pay black-mail to a brother of a former Chairman of the Commissioners before they could get their applications favorably considered. It is unnecessary to again give particulars of these charges, which we have time and again particularized with facts and figures, so far as was necessary. We have been threatened with a libel suit concerning the last named charge, and dared the accused to bring one, but the person whom we have charged has failed to take action. We were promised an investigation by the Ontario Government, but nothing has been done to that end, because Mr. Mowat and his colleagues know that their friends only would suffer thereby.

Add to this that Mr. James Ross was dismissed from the position of Inspector because he was too honest a man to become a mere political tool, and that the Government outraged every feeling of propriety by reappointing as a Commissioner the man who had broken the law as above stated and whose brother had blackmailed applicants for license, and it will be seen how much better was the old system than the new one. True, the outrage involved in the reappointment referred to was not consummated, but no thanks are due to the Government for this, as it was owing to the resignation of another member of the Board, who refused to sit with a man who had been convicted in court of violating the law, and whose brother had failed to take action against the INTELLIGENCER for formulating the charge of blackmail, that the appointee unwillingly bowed to public opinion.

These are but a few of the infamous effects of this villainous law. In Trenton [illegible] that similar results could, we are [illegible], be found. What, then, must have been the result throughout the country?

If the Conservative party had no other plank in their platform than the abolition of the license law, they ought to succeed on that alone.

Don't die in the House.

For the Intelligencer

SEPTEMBER 23, 1882.

MR EDITOR,—I returned last evening from Montreal, having been an eye witness to the melancholy circumstance that occurred on the small steamer *Richelieu*, that runs from Lachine to Chateauguay Basin. We left Chateauguay wharf about half past seven, a. m., and as it happened there were very few passengers, five carts and horses. The horses were detached from the carts. When about midway over, or about a mile or more from each shore, a very sudden and loud report occurred, and all of a sudden we were wrapped up in dense steam, so that we could not see a foot ahead of us. I made no attempt to move, but held on to the seat, as I expected we would sink. After a short time the steam cleared some, but came on again, and soon cleared away. It was then found that the boat would not sink, as the hull was not injured. I then saw some men drawing two dead men from the explosion; one was the pilot or captain, and as he lay on his back his flesh had not the least appearance of natural color. It was black, and every tooth was surrounded with blood. Another, young Richardson, a respectable young man about twenty, the only son of an old respectable farmer, depending on this son to manage his farm, being about 6 miles from Chateauguay. His sister was on the boat, not hurt, but lay all day at Lachine, under the doctor's care, from the effects of the shock. The fourth one was not found before I left, one being literally torn to pieces in the machinery. One of the horses jumped overboard from the fright. He swam about and then steered for Caughnawaga, and the Indians came out and caught him and took him ashore. A tug came to us and took us to land. The seat I occupied, with one of my nephews, was about 15 feet from where the explosion occurred, towards the stern, an open seat. My other nephew was in the bow of the boat, and thank God neither of us was hurt, the explosion being between us, while others more unfortunate came to an untimely end.

GEORGE BOULTER.

Catarrh of the Bladder.

STINGING irritation, inflammation, all Kidney and Urinary Complaints, cured by "Buchupaiba." $1.

Official News.

OTTAWA, Sep. 23.

The *Canada Gazette* contains the following: T. Moore Benson, of Port Hope, to be Deputy Judge of the county court of Northumberland and Durham in the absence of His Honor George J. Clark, junior judge.

The election in the petition for the revocation of the Temperance Act will be held in Fredericton, N. B., on Thursday, 26th. Thos. Temple, Sheriff of the county of York, N. B., is appointed returning officer. The result will be made known on 28th October.

The Hon. Jno. Schultz is called to the Senate and the Hon. Mr. Aikins is to be Lieutenant Governor of Manitoba from the 8th of October next. John Maxwell, of L'Orignal, barrister, is to be Deputy Judge of Prescott and Russell during the leave of absence of Judge Darnell.

The Rivers and Streams Act of Ontario was disallowed on the 20th inst.

Application for letters patent have been made by the North-West, Qu'Appelle and Long Lake Syndicate.

Her Majesty's Government have had under their consideration the position of aliens naturalized in a colony when travelling beyond the limits of the colony in which naturalization has been granted, and they have decided that aliens naturalized in British colonies shall, as regards their claim to British protection out of Her Majesty's Dominions, be placed, in future, on the same footing as aliens naturalized in this country under the naturalization act. Forms of passports are also given.

The Temperance Act has been declared in force at Pictou, N. S.

The order in council of 5th July, 1882, approving certain regulations for the abatement of the duty charged on spirits for such quantity of fusil oil or other refuse as may be separated therefrom by a second process of distillation and destroyed has been cancelled and new regulations provided. The duty on steam boiler plates has been fixed at 12½ per cent. Sewing machines imported into Canada shall be appraised and entered at the price at which they are sold at the place of manufacture by the agents of the manufacturers, and not the prices which the manufacturers supply such agents. And the duty shall be levied and collected upon the value so ascertained and not upon a lower value.

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinary or Liver Diseases, as they only relieve for a time and make you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

Grapes Ripened in a Paper Bag.

Yesterday we were shown a bunch of grapes which were grown and ripened in a paper bag without a ray of sunlight. Mr. Eugene H. Burr, in order to preserve his grapes from the ravages of rose-bugs, enveloped several hundred bunches, when the grapes were only about the size of pea heads, in paper bags and trusted to chance for their growing and ripening. The experiment worked to a charm, the grapes ripening perfectly, and they were entirely free from dirt or dust. He liked the result so well he will follow the same plan next year, rose-bugs or no rose-bugs.—*Hartford Times.*

O. Bortle, of Manchester, Ontario Co., N. Y., writes:—"I obtained immediate relief from the use of *Dr. Thomas' Eclectric Oil.* I have had Asthma for eleven years. Have been obliged to sit up all night for ten or twelve nights in succession. I can now sleep soundly all night on a feather bed, which I had not been able to do previous to using the Oil."

Nervous debility is a result of indiscretion in the mode of living. Heed nature's unerring laws and take Burdock Blood Bitters, the Great System Renovator and Blood, Liver and Kidney regulator and tonic. Sample bottles 10 cents.

COUGHS AND COLDS.—If taken in time are easily cured,—if allowed to continue will result in incurable consumption. Allen's Lung Balsam has the confidence and support of the medical faculty, and is recommended by all who are acquainted with its virtues

Sure, safe and effectual, that old remedy, DOWNS' ELIXIR, for the cure of Coughs and Colds.

News Condensed.

—The steamer *Picton* has gone to pieces. Most of her cargo was recovered.

—The Grand Trunk Railway has obtained running powers over the Canada & Atlantic line to Ottawa.

The English harvest has turned out much better than was anticipated, and the root crops are wonderfully good.

—Saturday was the biggest day ever known in the Pittsburg Oil Exchange. Nearly seven million barrels exchanged hands.

The Trade Congress, which has just concluded its annual session in Manchester, pronounced in favor of nationalization of the land.

—Eighty immigrants, who arrived at Quebec by recent ocean steamships, have been employed as laborers on the Canadian Pacific Railway at $2 per day.

—The order for the withdrawal of the 101st regiment from the Halifax, N.S., garrison has been countermanded, in consequence of the turn of affairs in Egypt.

—Patrick Farrel, a Liverpool sailor, was shot and killed by a colored woman named Lizzie Hann in a brothel at North Sydney, Nova Scotia, on the 21st.

—The Prime Minister will be asked by the workingmen to use his influence with the Chinese Government to stop the exportation of Coolie labor to England.

—Rev. John Pringle, late of Georgetown, Ont., was on Thursday inducted pastor of Kildonan Presbyterian church, Winnipeg, as successor to the late Dr. Black.

—A train conveying Austrian troops fell through a bridge over the river Drave, at Essek, on Saturday, drowning 15, and seriously injuring 30 hussars. High water caused the disaster.

—Next year Lord Chas. Beresford will probably be appointed to the command of the new screw corvette Canada, in which it is expected that Prince George of Wales will make his next voyage.

—The Sovereign Grand Lodge, I.O.O.F., which has been in session for several days past at Baltimore, closed its proceedings on Saturday, and adjourned to meet at Providence in September next.

—The Dominion Government have decided to rescind the charters of all Colonization Companies which have not strictly fulfilled the conditions of the Dominion Lands Regulations by the 15th October.

—The Montreal Bonsecours street scheme for a permanent and central depot has been agreed to by a committee of the corporation and the Canadian Pacific Railway. The cost is estimated at more than a million dollars.

—An Alpine guide with a pack on his back leaned against a rail that ran along the edge of a precipice, and was warning his party of tourists of the necessity of keeping a sure footing, when the barrier broke, and he was killed by the fall.

*The term *hydra* may be used to represent any manifold evil. If you would battle successfully with this many-headed monster of disease you will find it expedient to keep Mrs. Pinkham's Vegetable Compound always at hand.—*Dr. Banning.*

—An informer has made revelations to the police regarding a wide-spread conspiracy which exists in Ireland. Eight persons, four of them released suspects, have been arrested at Armagh in consequence, charged with treason and felony.

—Passengers on the Midland railroad, in England, fell into a habit of flinging their emptied bottles out of the car windows. After several persons had been hit the company put up placards requesting travellers to be more considerate.

—Justice as administered in the pretty courts of England is rigorous, if the offender is poor and friendless. Two reputable laborers stole a handful each of oats from a field to feed their hungry donkey, and a magistrate sent them to prison for two months.

—Thomas Guerin, C. E., has returned to Winnipeg with an engineering party from exploring Water Hen river, connecting Lakes Manitoba and Winnipeg. He finds that by slight improvements it can be rendered navigable for vessels drawing five feet of water.

***"Do boldly what you do at all," Boldly do we affirm that Kidney-Wort is *the* great remedy for liver, bowels and Kidney diseases, rheumatism and piles vanish before it. The tonic effect of Kidney-Wort is produced by its cleansing and purifying action on the blood. Where there is a gravelly deposit in the urine, or milky, ropy urine from disordered kidneys, it always cures.

—The new knitting mill at Kingston has commenced operations. It is stated that the Company have orders on hand sufficient to keep the mill running for two months, and that 75 to 100 dozen shirts and drawers per day can be made. The building, constructed of bricks, is three stories high, one hundred feet long and sixty wide, and cost $17,000.

—The steamer *Lepanto*, from Hull, has arrived at Cork, and reports having been in collision on the 21st inst. with the steamship *Edam* from New York to Amsterdam. The latter blew up and sank immediately after the collision. Two of the crew of the *Edam* were lost. Her passengers and remainder of her crew were taken aboard the *Lepanto*, and safely landed at Cork.

—The General Conference of the Methodist Church of Canada continued the debate upon Methodist Union on Saturday. An amendment setting forth that "while this General Conference is not aware of any general desire among the members of the Methodist Church of Canada for lay representation in the Annual Conference, yet agrees in order to promote union to concede the principle, provided no change is made in regard to the examinations of ministerial character or the position of the stationing committee," was adopted.

—The chief feature in the news from Egypt and the East is the concession by the Porte, which yields to the Grecian terms upon the frontier question. The Khedive's march through Cairo promises to be an imposing pageant. The natives are decorating their houses, and outward manifestations of joy are everywhere observed. The comments by the *Times* upon the possible construction of another canal by England has alarmed the Suez Canal Company, and it is said several of the directors propose to concede almost any terms England may desire in order to prevent the construction of a competing water-way.

PEARLS.—Get your mouth full by using "TEABERRY," the new wonder for the Teeth and Breath. Brush vigorously. See directions. 5 cent samples.

"READING NOTICE."

"Twenty-four years' experience," says an eminent Physician, convinces me that the only cure for "Nervous Exhaustion" and weakness of the generative organs is to repair the waste by giving Brain and Nerve Foods, and of all the remedies I have used Mack's Magnetic Medicine is the best. This remedy is now sold by all our Druggists at 50 cts. per box, or 6 for $2.50, and on receipt of an order for 12 boxes, accompanied with $5.00, addressed to Mack's Magnetic Medicine Co., Windsor, Ont., they will forward the goods free, by mail, and send their "written guarantee" to refund the money, if the treatment does not effect a cure. See a v't in another column. Sold in Belleville by Jas. Clark & Co.

Death of the Oldest Native Canadian.

On Saturday last the remains of the late Mr. God Love Moss arrived at St. George station for interment. The deceased was in his 103rd year, being born in Kingston, Ont., in the year 1779. He was the oldest native Canadian known. He settled in North Dumfries about 50 years ago, on what is known as the Campbell farm, and when the late Mr. Dickson, of Galt, brought out his colony of Scotchmen, he persuaded Mr. Moss to take the farm in South Dumfries in exchange for the one on which he was then located. On this farm he resided until about 5 years ago, when he sold it and removed with his grandsons to Walsingham. It was there where he died, and at his request he was brought to St. George for interment. The deceased retained his faculties to the last, although he had been blind for the past few years.

"GOLDEN MEDICAL DISCOVERY" (Trade-mark registered) is not only a sovereign remedy for consumption, but also for consumptive night-sweats, bronchitis, coughs, spitting of blood, weak lungs, shortness of breath, and kindred affections of the throat and chest. By druggists.

Hall's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by Jas. Clarke & Co., Belleville, Ont.

Dropsy is essentially a watery condition of the Blood, dependent upon disordered Kidneys. Burdock Blood Bitters are strongly Diuretic and consequently the best known remedy, acting as it does upon the entire Secretory System.

One dose of BAXTER'S MANDRAKE BITTERS will relieve Sick Headache. One bottle effects a cure. Price 25c. per bottle.

WELLAND CANAL.

Notice to Contractors.

SEALED TENDERS, addressed to the undersigned and endorsed "Tender for Welland Canal," will be received at this office until the arrival of Eastern and Western mails on FRIDAY, the 6th day of OCTOBER next, for forming, at the water line, a stone facing or protection to the banks of the canal on the summit level between Thorold and Humberstone.

Specifications of the work to be done can be seen at the offices of the Resident Engineers at Thorold and Welland, where forms of Tender, and general information on subject, can be obtained on and after MONDAY, the 25th instant.

Contractors are requested to bear in mind that tenders will not be considered unless made strictly in accordance with the printed forms.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,
A. P. BRADLEY,
Secretary.

Department of Railways & Canals,
Ottawa, September 20th, 1882. d2twtd

BELLEVILLE, MONDAY, SEPT. 25.

City and Vicinity.

ONE drunk only reposed in the cells since Saturday.

THE 15th Battalion annual matches will be shot next Friday.

THE Grits of West Hastings have put their helm hard-a-Lee.

THERE was quite a heavy frost last night and the thermometer at 6 o'clock was as low as 44°.

REV. DR. JAQUES, of Albert College, preached in Bridge St. Methodist church yesterday.

Two more cars of grain came down over the G. J. R. to-day, consigned to Downey & Preston.

A STUDENT from St. John's, Newfoundland, is now in attendance at the Ontario Business College.

THE Voters' List Court for the Township of Thurlow is being held to-day at the Judge's Chambers.

THIS is the last week of the season that the *Nellie Cuthbert* will run between the city and Massassaga.

A PHOTOGRAPH of the interior of St. Thomas' Church, with its harvest decorations, has been taken by Mr. Ford.

THE congregation of the Episcopalian Church of Shannonville intend holding a picnic at Massassaga Point on Thursday next.

THE Liberal Conservative Association for West Hastings will meet to-morrow afternoon to nominate a candidate for the Legislature.

MR. REYNOLDS has secured the McDowell Company for two nights this season—Nov. 29th and 30th., when they will perform the celebrated plays "Our Boys" and "Diplomacy."

AN agent of the contractors for the Murray Canal tried to-day to engage men in town to work on the canal, but unsuccessfully, although the rate of pay offered was $1.50 per day.

THE preliminary examination of Mr. Robertson, M.P., in the protested election case, has been further postponed, owing to the absence of Mr. Clute, the counsel for the petitioner.

PROF. DYER, of Albert College, continues to suffer greatly from the severe accident which befell him last week. His face and neck are terribly burned, and it is feared that his eyesight will be affected.

MISS FETHERSTON was unable, owing to a heavy cold, to sing in Christ Church last evening. Her place was filled by Miss Dulmage, who sang with considerable effect Mendelssohn's "O Come Let us worship."

W. DONALDSON, a former member and now an honorary member of the Oka Lacrosse Club, played in the Toronto team in the match with the Shamrocks at Montreal on Saturday. He took the fourth game for the Torontos.

THE date of the concert to be given by Bridge St Methodist Church choir has been fixed for Tuesday, the 3rd of October.

REV. MR. DANIELS, of St. Peter's Church, Toronto, officiated in Christ Church yesterday at both services, and preached two excellent sermons. An effort will be made to secure his services until the rector, Rev. Dr. Clarke, is fully restored to health and able to resume his duties. Rev Dr. Wilson of Kingston will officiate next Sunday.

AT this morning's Police Court A. Parrent, of Trenton, was charged by the License Inspector with selling liquor after hours on Saturday night. The case was enlarged till Wednesday. Geo. Vanblack, a drunk who looked as if he might be one of the Egyptian survivors of the attack at Tel-el-Kebir, was allowed to go after paying $1 00 for his lodging. Geo. Morgan, charged with attempting to shoot parties in Trenton, desired to be tried by a jury, and was committed for trial.

THE harvest thanksgiving services in St. Thomas' Church, yesterday were attended with gratifying success in every respect. In the morning and afternoon the church was filled to the utmost capacity, and in the evening hundreds were unable to gain admittance. The interior of the sacred edifice was profusely and tastefully decorated with all the fruits and vegetables of the season, besides grain and flowers, arranged in artistic devices; and the effect was striking and beautiful in the extreme. But the most admired feature of the service was the music, in the preparation of which a great deal of care and time had been expended. Mr. Oldham and his efficient choir, as well as the gentlemen who assisted with orchestral instruments, are to be congratulated on the success which attended their efforts. It is gratifying to note that the thanksgiving collections were very liberal.

WEATHER PROBABILITIES—Toronto, Sep. 25.—Lakes, moderate to fresh winds, mostly easterly fine weather, not much change in temperature.

GRUBS AT THE ROOTS OF THE GRASS.—The Rochester *Democrat* of the 9th inst, says:—"As many as fifty robins were seen at one time the other day on Jarvis Lord's lawn, in Pittsford, diligently and with seeming gusto thrusting their beaks through the yielding sod of a considerable area of an unaccountably withered grass plot. The gardener had the curiosity to turn up a portion of the punctured turf, and discovered to his amazement that the earth beneath was alive with a greedy multitude of large, white grubs, which had completely consumed the roots of the grass. He continued the easy work, and every fresh removal of the sod the same phenomenon presented itself, until quarts of the pestiferous larvæ were gathered and destroyed. Large patches of withered grass are numerous over the extensive grounds, and men and boys have been at work now for five days tossing away the turf and ridding the soil of the enemy. The grub is to be examined by the entomologists of Pittsford, and, it is hoped, identified. A gentleman in the place, who has had some experience and observation as a gardener, is of the opinion that the larvæ is that of the May beetle." The above described grub is the same which was lately found destroying the potatoes in Mr. F. Wallbridge's garden. Score one for the robin.

BEFORE purchasing Ready made Clothing be sure and look through HENNESSY'S stock. He has over 300 suits in all, and is offering them at actual cost.

Ameliasburg Correspondence

The equinoctial storm is apparently over, and according to the predictions of the weatherwise, we shall have plenty of heavy north and west winds during the next six months, and plenty of snow for good sleighing.

The wind-fall of apples caused a lull in the apple trade for a time, in consequence of fruit growers forcing their fallen apples on the market at about one half their commercial value. If farmers would assort the bruised apples from the sound ones and take the usual care of them, till they matured sufficiently to become marketable, the only loss they would sustain would be in the loss of growth. But the trouble is, our farmers think they must get rid of their fallen apples at any price. This is a great mistake, as winter and late fall apples will save much better by being packed before maturity. Green fruit is of little value for evaporating, and the evaporating factory that evaporates green apples will find that it will not receive the second order from the same establishment. The evaporating establishment at Belleville very wisely refused to buy, or work any green apples.

Francis Peck, of this township, was quite successful at the Provincial Exhibition at Kingston, having taken prizes to the sum of $52 in fruits and vegetables.

Those persons from Prince Edward and Hastings who exhibited at Kingston declare that they will never go to Kingston again to attend an exhibition; that the Kingston people charged extortionate prices, and that railway officials were anything but obliging.

The people here are getting ready for the West Hastings show on Wednesday night and Thursday next. Quite a large number of entries were made on Saturday last and not a few before that date.

The barley trade has not opened here to any extent.

Sep. 25, 1882.

Agricultural Fairs.

AMELIASBURG, at Roblin's Mills, Saturday, October 14.
HALLOWELL, at Bloomfield on 7th October.
SOPHIASBURGH, at Demorestville Oct. 10th.

EXCELLENT reasons exist why *Dr. Thomas Eclectric Oil* should be used by persons troubled with affections of the throat or lungs, sores upon the skin, rheumatic pains, corns, bunions, or external injuries. The reasons are, that it is speedy, pure and unobjectionable, whether taken internally or applied outwardly.

A New Principle.

The principle upon which PUTNAM' PAINLESS CORN EXTRACTOR acts is entirely new. It does not sink deep into the flesh, thereby producing soreness, but acts directly upon the external covering of the corn, separates it from the under layer, removes the direct pressure from the part, and at once effects a radical cure, without any pain or discomfort. Let those who are suffering from corns, yet skeptical of treatment, try it, and by the completeness of the cure they will be ready to recommend Putnam's Painless Corn Extractor to others. Sold by W. R. Carmichael

Dr. E. C. West's Nerve and Brain Treatment is a never failing cure for Nervous Neuralgia, Nervous Headache, Overworked Brain, &c. Sold at James Clarke & Co's.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, New York City.* [w6m145eod

The Rifle.

The annual matches of the 49th Battalion Rifle Association took place on Saturday afternoon. The weather was favorable, and the scores made were very fair, considering that the marksmen had had hardly any preliminary practice. Corp. Hilton led in the aggregate with a total of 78 out of a possible hundred—almost an average of inners—and Sergt. Tammage came close after with a score of 73. The scores in the matches, together with the aggregate score, are as under:—

FIRST MATCH.

200 and 500 yards, five shots at each range, 6 prizes.

1.	Corp. Hilton	41
2.	Pte. J. Marshall	38
3.	Lt W. H. Biggar	37
4	Sergt. Tammadge	35
5	" Cunningham	33
6.	Major P. H. Hambly	31

SECOND MATCH.

400 and 600 yards, 5 shots at each range, 6 prizes.

1	Sergt. Tammadge	38
2.	Corp Hilton	37
3.	Sergt. Cunningham	36
4.	Pte. Marshall	33
5.	Lt. W. H. Biggar	31
6	Major P. H. Hambly	31

AGGREGATE, 5 PRIZES.

1.	Corp. Hilton	78
2	Sergt. Tammadge	73
3.	Pte Marshall	71
4.	Sergt Cunningham	69
5.	Lt. W. H. Biggar	68

Sporting Notes.

The Montreal lacrosse club beat the Garrys of Winnipeg at Montreal on Saturday. Four games were played, the visitors taking the first.

In the championship match between the Shamrocks and Torontos, the latter were defeated. The champions took the first, third and fifth games in 21, 7 and 1 minute respectively, whilst the second and fourth games were won by the Torontos in 25 and 31 minutes

The *Whig* of Saturday says:—"Next week there will be a tournament in cricket. The Syracuse and Kingston Clubs have a contest on Wednesday, and on Thursday there will be a competition between Syracuse players and a team of Belleville, Picton or Napanee men. The Kingstonians will meet one of these clubs on Friday."

The lacrosse match for the intermediate championship, played between the Victorias of Toronto and the second twelve of the Montreals, at Toronto on Saturday, was won by the latter team.

A $20.00 Biblical Reward.

The publishers of *Rutledge's Monthly* offer ten valuable rewards in their *Monthly* for October, among which is the following:

We will give $20.00 in gold to the person telling us which verse in the Old Testament Scriptures contains the greatest number of words by October 10th, 1882. Should two or more correct answers be received, the reward will be divided. The reward will be divided. The reward will be forwarded to the winner October 15th. 1882. Persons trying for the reward must send 20 cents in silver (no postage stamps taken) with their answer, for which they will receive the November *Monthly*, in which the name and address of the winner of the reward and the correct answer will be published. This may be worth $20.00 to you; cut it out. Address RUTLEDGE PUBLISHING COMPANY, Easton, Penna.

The Terms of Settlement.

LONDON, September 23.—It is reported that the basis for the settlement of affairs in Egypt is being negotiated by Lord Granville and the Khedive. The terms proposed are said to be, England to withdraw from the Canal, and convene a congress of powers to guarantee its maintenance as an international highway. The Anglo-French financial control to be abolished and replaced by an international commission on public debt. The suzerainty of the Sultan to be re-affirmed, also the firmans securing sovereignty of the Khedive; English troops to evacuate Egypt at an early day, but England to have the right to continue the occupation of Alexandria and the adjacent forts two years, the Egyptian army to be replaced by gendarmie, of which the leading commanders shall be Englishmen and the subordinate officers English, Turkish and Egyptians, and part of the Indian contingent to be placed at the disposal of the Khedive until the maintenance of order is assured.

—Orders have been received in Montreal from Australia for $75,000 worth of railway supplies for that colony.

—There are but two election cases which, under Judge Cameron's decision, have been properly entered, namely those for Bothwell and Muskoka.

—A private despatch received on Saturday announces the safe arrival at Collingwood of the steamer *City of Owen Sound*, about which considerable anxiety was felt, in consequence of its being three days overdue.

—The trial at Sweetsburg, Que., of William Richards for the murder of Joseph Jackson, closed on Saturday evening. A verdict of murder was returned, and the prisoner was sentenced to be hanged on Saturday, Nov. 24.

—The Montreal exhibition closed on Saturday. The aggregate attendance was sixty thousand, or twenty-five thousand less than last year. The total receipts were under $20,000, or six thousand dollars less than in 1881. The falling off is attributed to bad weather. The annual exhibition will be given up, and arrangements made with other cities to take turn about.

SMITH MEDICINE Co.

GENTLEMEN,—I have made a trial of one box of Dr. Smith's Great German Worm Remedy, with such good effect that I have no hesitation in recommending it to the public as a prompt and reliable medicine. In fact, those who use it once will always do so. Yours truly,

J. Harvie, 172 Cadieux street.
Montreal, December 9th, 1881.

PROCLAIM it far and wide that DR. VAN BUREN'S KIDNEY CURE not only immediately relieves all Kidney diseases, but what is more important to the unfortunate sufferer, will ultimately cure him effectually.

For 30 Years

The dark-eyed and lovely daughters of Spanish America have used MURRAY & LANMAN'S FLORIDA WATER as their only cosmetic and toilet perfume. It is the most fragrant, as well as the most lasting of all Floral Waters, and possesses refreshing and invigorating properties not contained in any other preparation of the kind

A SIMPLE herb found on the sunny plains of a Southern clime has, under the skillful manipulation of DR. VAN BUREN, proved one of the greatest blessings ever sent to suffering humanity. DR. VAN BUREN'S KIDNEY CURE is acknowledged all the world over as the only perfect remedy for Kidney troubles. Your druggist has it.

Professor Bowlin's Great Golden Seal Discovery.

The greatest and latest discovery of the nineteenth century. A sure and permanent cure for Fits, Hysterics, Dizziness, and all nervous complaints. When ordering a bottle send full description of disease, age and condition of patient, advice free, price $1.00 per bottle. RICHMER, BARDEAU, & Co., 101 St. Francois Xavier St., Montreal, sole agents for Canada.

Consumption, that dread destroyer of the human race, is often the result of bad blood and low vitality, a scrofulous condition of the system. Burdock Blood Bitters cure Scrofula in its worst form.

LATEST FROM EGYPT.

The Khedive at Cairo.

ALEXANDRIA, Sep. 25.—The Khedive and Consul General departed for Cairo this morning. The Bengal Lancers escorted them to the railway station. The route was lined with troops and the English band performed the Egyptian National Anthem. The ministry have gone to Cairo on the same train.

CAIRO, Sep 25.—Among Arabi's papers are offers of service from French, German and Russian officers, which were all declined.

The Khedive has arrived.

MORNING DESPATCHES.

NEW YORK NOTES.

NEW YORK, Sep. 25.—Folger arrived here yesterday and called on the President.

The steamer *Edam* was sunk in a collision with the *Lepanto*. She cost $300,000.

It is stated that Jay Gould is building a large yacht and intends to start in July next on a two years' voyage around the world.

The damage by the recent storm in the city is not great.

The meeting of the Anti-Monopolist State Convention has been postponed till Oct. 3rd. It is claimed that the object of the postponement is to learn definitely the views of the Candidates on the Republican and Democratic State ticket towards the principles of anti-monopolism.

Yesterday an unknown man was seen by a policeman acting strangely on the top of Belvidere Observatory at Central Park. The policeman ordered him to come down, and the man not obeying, the officer started to climb to the top of the Observatory. The man then jumped to the pavement, a distance of forty feet, terribly injuring himself. He died some hours later.

A rainfall undermined the fence surrounding the House of Reception, of New York, and the Juvenile Asylum, and thirty boys yesterday escaped. Several have been recaptured

A friend of Follett, the embarrassed broker, says the trouble is due to Follett's liberal manner in doing business. He claims Follett is betrayed by his supposed friends and never speculated as has been alleged.

SUICIDE.

CLAREMONT, N. Y., Sept, 25th.—Matthew Conley, aged 14, suicided by shooting, because he was reproved by his mother.

A PRISONER BURNED.

CINCINNATI, Sept. 25.—Edward Siddons, jailed for assaulting a girl, went to sleep all last night leaving a burning lamp, which somehow overturned and exploded, firing the mattress and burning him to a crisp.

ARRESTED.

HARRISBURG, Pa., Sept. 25.—Mrs. Mary Jones was arrested, charged with choking an infant grandchild to death.

EXCITEMENT IN DAKOTA.

DEVIL'S LAKE, Dakota, Sept. 25.—There is great excitement and indignation over an order of the War Department for a preliminary survey of a strip of land ten miles wide, on the west and north side of the lake, for a military reservation. The settlers claim that if the reservation is located there, it would compel 6,000 people to lose their all. A syndicate at Creelsburg invested $12,000 in implements, &c. This, as well as a dozen other town sites, will be confiscated by the Government. Settlers claim that there is no excuse for the order, as the present reservation is large enough. If the order is carried out, there may be serious trouble.

CANDIDATE FOR CONGRESS.

ISLIP, L. I., Sept. 25.—It is reported that the Republicans will try to induce Wm. K., son of Wm. H. Vanderbilt, to run for Congress against Perry Belmont, who will probably be renominated by the Democrats.

CIRCUS TRAIN WRECKED.

LANCASTER, Ky., Sep. 25.—Early yesterday morning while the train conveying a portion of Sell Bros. show was coming around a curve near Point Lick, a car, from some unknown cause, jumped the track and with fifteen others rolled down an embankment. The cars were loaded principally with the baggage of the company's tableau, and the waggon with the electric light machine, and a cage containing tigers. Two attaches of the circus, and a boy who was stealing a ride, were killed. Three men were probably fatally injured, and seven or eight others more or less injured The cage containing the tigers burst open and two of the animals escaped, creating consternation. At daylight the tigers returned to their prison and were secured. The electric light and tableaux waggons were destroyed. The track was torn up for 100 yards. The cars were piled in a confused mass. The engine with three cars was uninjured.

INDIAN TROUBLES.

SAN FRANCISCO, Sep. 25.—Sitka advices state that large quantities of Hoochenoo is manufactured in Horah and vicinity. Fighting, gambling and witchcraft are daily occurrences. A squaw was stabbed to death, and several others held up to the exhortation of the evil spirit. At Juneau, an Indian, drunk, while attempting to break into a house was severely injured. Other Indians coming, a general fight took place, and a number of Indians were badly hurt. The miners drove the Indians off. The natives threatened to murder the whites.

RAILWAY TRACK REPAIRED.

POKEEPSIE, Sep 25.—The damage to the track of the Hudson River Railway has been repaired so that trains are running regularly.

DAMAGES BY STORMS.

JERSEY CITY, Sep. 25.—The damage by storm in this county is estimated at one million, although the individual losses are comparatively small. The greatest sufferers are probably the city and the Pennsylvania Railway. Fifteen sewers burst here and the streets are badly damaged and many buildings are flooded.

HOBOKEN, N. J., Sep. 25.—The damage to property here by the flood is estimated at $75,000, and $50,000 damage near Hawthorne.

If Nearly Dead

after taking some highly puffed up stuff, with loud testimonials, turn to Hop Bitters and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes, or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides, it is the best family medicine on earth.

AFTERNOON DESPATCHES

HEAVY FAILURES.

LONDON, Sep. 25.—Francisco Gaston, a merchant and mine owner, has failed. Liabilities £62,000.

AN EMINENT CHEMIST DEAD.

GOTTINGEN, Sep, 25.—Friedrich Mohler, an eminent chemist, is dead.

TERRIBLE COAL MINE ACCIDENT

LONOCONING, Md., Sep. 25.—A heavy fall of roof coal occurred this morning in the Kingsland Mine. Forty miners including the boss, Wm. Byers, are known to be under the coal. The dead body of James Brehaney was brought out and Louis Cook was brought up dying.

IRISH AFFAIRS.

DUBLIN, Sep 25.—Dillon has written a letter announcing his retirement from parliament on account of ill health. He says it will not be possible for him to take part in Irish politics for the next few years.

The military and police in the county of Mayo evicted 50 families in the last few days in the Barony of Erris. The people have been ordered not to shelter them

THE MORMONS IN ENGLAND.

LONDON, Sept 25.—Gladstone reiterates the declaration that he is unable to interfere with the operations of Mormons in England, as he presumes that their converts go with them willingly.

☞ The Diamond Dyes always do more than they claim to do. Color over that old dress. It will look like new. Only 10 cents

BIRTH

On Sunday, the 24th, the wife of T. J. SPAFFORD, of a son

MARRIED

On Wednesday, Sept, 6th, at the residence of the bride's parents, by the Rev. W. B. Tucker, LEVI F. TRUMBLE, of the Township of Limerick, to PHEBE VICTORIA, youngest daughter of Malcolm Maybee, Esq., of the the Township of Cashel.

By the same, at Thanet, on Tuesday, Sept. 12th, CHARLES E. STEANYER, of the Village of Bancroft, in the Township of Faraday, to MARY JANE, daughter of Alexander Booth, Esq., of the Township of Faraday.

Commercial.

There is no excuse for suffering from
CONSTIPATION
and a thousand other diseases that owe their origin to a disordered state of the Stomach and Bowels, and inaction of the Digestive Organs, when the use of

DR. HENRY BAXTER'S MANDRAKE BITTERS,

will give immediate relief, and in a short time effect a permanent cure. After constipation follows Biliousness, Dyspepsia, Indigestion, Diseases of the Kidneys, Torpid Liver, Rheumatism, Dizziness, Sick Headache, Loss of Appetite, Jaundice, Apoplexy, Palpitations, Eruptions and Skin Diseases, etc., all of which these Bitters will speedily cure by removing the cause. Keep the Stomach, Bowels, and Digestive Organs in good working order and perfect health will be the result. Ladies and others subject to SICK HEADACHE will find relief and permanent cure by the use of these Bitters. Being tonic and mildly purgative they PURIFY THE BLOOD by expelling all Morbid Secretions.

PRICE 25 CTS. PER BOTTLE.

For sale by all dealers in medicine. Send address for pamphlet, free, giving full directions.

HENRY, JOHNSONS & LORD, PROPS.,
MONTREAL.

$200.00 REWARD!

Will be paid for the detection and conviction of any person selling or dealing in any bogus, counterfeit or imitation Hop Bitters, especially Bitters or preparations with the word Hop or Hops in their name or connected therewith, that is intended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as Hop Bitters. The genuine have a cluster of Green Hops (notice this) printed on the white label, and are the purest and best medicine on earth, especially for Kidney, Liver and Nervous Diseases. Beware of all others, and of pretended formulas or receipts of Hop Bitters published in papers or for sale, as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted.

Daily Intelligencer.

Two Wedding Days.

Everything had been duly and properly arranged for our wedding. The engagement of Miss Nell Bartley to Mr. Bertram Langley had been duly announced in the fashionable column of a leading society journal, and the wedding day had arrived.

I am Bertram Langley—commonly called Bert—and while I confess to be most sincerely and entirely in love with my little Nell, I must add I had been quite annoyed about our marriage, first at the persistence with which she insisted upon a grand wedding.

I hate fuss and parade, and have an old time notion that a marriage rehearsal giddily and eventually solemnised before a crowd of gossipping, gaping people, is robbed of all its sweet purity. Then, too, the trousseau! The whole business is a nuisance! Excuse the big word, but my feelings are strong on that point. What on earth a woman wants of clothes enough to last her five years, and gewgaws more than she can ever hope to use, I never could see; unless, indeed, she entertained a horrible suspicion that the new firm may refuse to furnish a fresh supply.

'It's all right I suppose, since they all do it (no slang intended), but it was a trying time for me, I can tell you. I could scarcely get a glimpse of Nell, she was so busy with dressmaking, milliners etc.; and when I did see her she was in such a rattling hurry to be off to keep an appointment with some workwoman or other, that I actually grew a little savage.

For a month before we were to be married I believe I never entered the house once but Kate, Nell's sister rushed into the room with an—

'Excuse me, Bert, but Nell is wanted a moment.' Or, 'Don't look cross, Bert, but Nellie must see Madame This or That,' till I lost all patience.

There was another cause for annoyance, too; Nell's father was a rich man, and as able as he was willing to furnish his daughter with as much finery as she might desire. While I, on the contrary, was a man with his way to still make in the world.

True, I had a fair income and fair prospects, but I could not hope to give Nell as luxurious a home or as elaborate a wardrobe as her papa provided, at least, not for some years; but I could afford to support a wife, and I loved Nell with all my heart.

When I asked Mr. Bartley's consent to our marriage, he was at first just a little inclined to find fault with my financial condition. An older man, with a well-secured fortune, would have suited him better. He had a most unwholesome dread of fortune-hunters, and even went so far as to have a mild suspicion that I might be just a bit interested that way; but all that wore off in time, and we were on the best of terms.

I only mention this to show how a suspicion once entertained will return on the faintest invitation, and, not infrequently on none at all, for the time came when Mr. Bartley not only entertained this unjust surmise, but eagerly hugged this foul thought to his heart, and grew murderous in that vital organ toward me—Bertram Langley—as innocent a man as ever stepped.

The day before the one fixed for our marriage Nell and I had our first tiff. I called to inform her of the smallest possible hitch in the church machinery. The regular sexton was obliged to leave town, but had secured the services of his brother (a very deaf and stupid man, as it turned out). Possibly she might have some instructions to give him.

I waited full half an hour in the reception room, cooling my heels and warming my wrath, before Nell rushed in.

'What is it, Bert?' she asked, breathlessly, 'I am awful busy!'

A spark is enough to ignite a whole city if it only falls upon highly inflammable material, and a word is quite enough to raise a furious temper in a man who is aching to get mad; so I answered curtly:

'If you are in such a hurry, it is no matter what I wished to say.'

Nell opened her brown eyes in surprise.

I've got to select some lace,' she exclaimed, 'and Kate can't wait.'

'Neither can I,' I retorted shortly, pulling on my gloves. Then after a moment I added: "You think a great deal of furbelows, don't you?'

'Indeed I do!'

'I am afraid you will have to do with vastly less when you are married.'

Nell tossed her head saucily.

'All the more reason I should be allowed to enjoy these papa gives me.'

That shot went home. I bit my lips, but managed to keep cool outside, though inwardly I was boiling.

'It was too late to beat a retreat,' I said coolly. 'If you repent your bargain, there is time to escape.'

Nell's eyes grew big with horror at the idea.

'Indeed, it is entirely too late!' she cried out. 'Why, everybody knows it! All our set have cards—I should die of mortification to put it off now! We must go on, any way; I have no fancy for being a laughing stock for every one.'

'Better be laughed at for a week than miserable for a lifetime,' I retorted.

Nell opened her lips to answer, but just at that moment Kate put her head in at the door.

'Nell! Nell! Excuse me, Bert—'

I stayed to hear no more, but turned on my heel and strode away.

No sooner had I reached my hotel when I was heartily ashamed of myself; and when Tom, my elder brother, and only living relative, rushed in and told me that he had left his wife ill at home, so anxious was he to see me married, the last bit of crossness departed and a great wave of tenderness stole over my heart for the brown-eyed girl whom I knew loved me far better than the elegance of her father's home or the costly trifles he could give her.

Tom was ill at ease and worried, and I know nothing but my marriage or funeral could have induced him to leave home when Lettie was ill.

Next morning I saw Nellie for a moment only, but the kiss I pressed on her dear little mouth was a silent plea for pardon, and a promise for better control over my temper next time.

Evening came—the church was packed—and I, feeling most uncommonly stiff and awkward in a span new suit and speckless gloves, was awaiting in the vestry.

Nellie was to enter on her father's arm, followed by her bridesmaids and groomsmen—six in number—while I [illegible] in the nick of time from the [illegible] minister from his study, and meet [illegible] before the altar.

It was all very pretty, but I almost knew I would make a mess of it—and I did, with a vengeance.

I had requested to be allowed to be alone so as to keep my part in mind, and for the same reason went early to the church not to be stared at and confused, for this show affair was not one bit to my mind.

Just at the last moment Tom came rushing in, followed by the regular sexton.

'I've got a telegram from Lettie,' said Tom, his voice quivering. 'She is worse, and I must start at once. Just time to catch the train. Good bye, old boy! God bless you!'

TO BE CONTINUED.

At the approach of spring great attention should be given to purify the system engorged with foul humors during the winter. Burdock Blood Bitters is Nature's own purifying and regulating tonic.

Delays are dangerous, particularly in Kidney Diseases, so take at once Dr. Van Buren's Kidney Cure and obtain relief from all your sufferings. Your Druggist keeps it.

"The Beare in a Beastie," says a quaint old book, published in London three centuries ago, "whose flesh is good for mankynd; his fat is good, with laudanum, to make an ointment to heale balde-headed men to receive the hayre agayne." We know of many "balde-headed men" who would be glad to "receive the hayre agayne," but we do not desire to encourage them in a trial of Bear's fat and laudanum. Far from it. We, however, do not hesitate to commend Dr. J. C. Ayer & Co.'s Hair Vigor, which not only has the effect in some cases of making the hair grow on heads once bald, but cleans the scalp and restores gray and faded hair to its original color and vitality, imparting to it the glossiness and softness of youth. The evidences of its utility are too numerous and of too high a character to admit of any doubt. It required years of study and scientific experiment to decide upon the combination of ingredients that would accomplish what Ayer's Hair Vigor now does. —*The Interior, Chicago, Ill.*

Asthma and Bronchitis Cured.

Halifax, N. S., Jan. 1882.

C. M. Puttner, Esq., Ph. M.:

Sir,—I consider it my duty, not only to yourself, but to my fellow creatures who are suffering from Asthma and Bronchitis, as I had for some time previous to using your "Emulsion of Cod Liver Oil with Hypophosphites," to give my testimony to the most wonderful good effect it had. Having suffered for some time with Asthma and Bronchitis, accompanied with great nervous exhaustion, and having carefully read your Essay on the combination and uses of your Emulsion, I was persuaded to give it a trial, and on using two bottles I began to receive great benefit and relief, and after using three bottles I was completely revived and am to-day perfectly free from either Asthma or Bronchitis, and my nervous system much invigorated and built up. I have found it very pleasant and palatable, and with no taste of the oil whatever, and can with great confidence recommend it to those suffering as I did previous to taking your compound. In conclusion, I consider I owe you a debt of great gratitude for the benefit I have received from your Emulsion and only hope that many may be induced to give it a trial, and receive as great benefit as I have from its use. I am, yours, &c.,

Alex. Stephens, Sr.,
Merchant.

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrah, Bronchitis, Asthma and Lung Disease by Dr. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the seat of disease. Read and judge for yourself:—

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. John P. Whelan, Manager of Post and True Witness, Montreal. Mr. C. Hill, Montreal, catarrh and bronchitis. Mr. DeBoucherville, of the Indian Department, Ottawa, catarrh of many years; now cured. Mr. Geo Ager, Ottawa, catarrh and lung disease; cured. Mrs. Smith, London, wife of Medical Detective, cured of catarrh. Geo. Maguire, Toronto, 482 Adelaide street West; daughter cured of asthma. George Willis, Exeter, Ont., catarrh and bronchitis. J. D. Armstrong, 186 Yonge street, Toronto, catarrh and catarrhal deafness. Thomas Telfer, 12 Melinda street, Toronto, asthma; cured. Mr. Benj. A. Drake, St. Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. Benoit, 114 Cathedral street, daughter of, Mrs. David Perrault, who suffered from asthma and bronchitis for over eight years, and who is now perfectly cured.

Mrs. Adamson, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitating in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis. John C. Fleming, Editor of Post and True Witness, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write, inclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souville and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

KIDNEY-WORT

FOR THE PERMANENT CURE OF CONSTIPATION.

No other disease is so prevalent in this country as Constipation, and no remedy has ever equalled the celebrated Kidney-Wort as a cure. Whatever the cause, however obstinate the case, this remedy will overcome it.

PILES. THIS distressing complaint is very apt to be complicated with constipation. Kidney-Wort strengthens the weakened parts and quickly cures all kinds of Piles even when physicians and medicines have before failed.

Ayer's
Sarsaparilla

Is a compound of the virtues of sarsaparilla, stillingia, mandrake, yellow dock, with the iodide of potash and iron, all powerful blood-making, blood-cleansing, and life-sustaining elements. It is the purest, safest, and most effectual alterative medicine known or available to the public. The sciences of medicine and chemistry have never produced so valuable a remedy, nor one so potent to cure all diseases resulting from impure blood. It cures Scrofula and all scrofulous diseases, Erysipelas, Rose, or St. Anthony's Fire, Pimples and Face-grubs, Pustules, Blotches, Boils, Tumors, Tetter, Humors, Salt Rheum, Scald-head, Ring-worm, Ulcers, Sores, Rheumatism, Mercurial Disease, Neuralgia, Female Weaknesses and Irregularities, Jaundice, Affections of the Liver, Dyspepsia, Emaciation, and General Debility.

By its searching and cleansing qualities it purges out the foul corruptions which contaminate the blood and cause derangement and decay. It stimulates and enlivens the vital functions, promotes energy and strength, restores and preserves health, and infuses new life and vigor throughout the whole system. No sufferer from any disease which arises from impurity of the blood need despair who will give Ayer's Sarsaparilla a fair trial.

It is folly to experiment with the numerous low-priced mixtures, of cheap materials, and without medicinal virtues, offered as blood-purifiers, while disease becomes more firmly seated. Ayer's Sarsaparilla is a medicine of such concentrated curative power, that it is by far the best, cheapest, and most reliable blood-purifier known. Physicians know its composition, and prescribe it. It has been widely used for forty years, and has won the unqualified confidence of millions whom it has benefited.

Prepared by Dr. J. C. Ayer & Co.,
Practical and Analytical Chemists,
Lowell, Mass.

THE ROYAL INSURANCE CO.

Of England.

CAPITAL	$10,000,000.
Funds Invested	$23,000,000
Annual Income	5,000,000.

Over $600,000 invested in Canada for the protection of Canadian Policy holders.

Farm Property Insured against damage by Lightning. Losses to live stock by lightning and fire anywhere on the farm made good.

FACTS WORTH REMEMBERING.

The Royal has the largest surplus funds of any Fire Insurance Company in the world.

The Royal has the largest deposit with the Dominion Government of any other Insurance Company.

The conditions of the Royal's Policies are more liberal than those of other Companies doing business in Canada.

In conclusion remember that security should be the first consideration, and that it is to your interest to insure with the Company that gives the *greatest* security. You may better carry your own risk than entrust it where you have not absolute security.

Daily Intelligencer.

CUSTOMS SEIZURES.

The Frauds by Montreal Importers of Canvas.

Full Penalties to be Enforced.

Startling Developments Forthcoming in the Flour Cases.

BIG SWINDLES IN AMERICAN PORK.

From the Mail's Correspondent.

MONTREAL, Sep. 23.—Importers of canvas and white duck were intensely excited to-day on the report becoming current that the Customs authorities in Ottawa had given adverse decisions in two of the first seizures of canvas made here by the pro-collector and one of the inspectors. It would seem there was good reason for the excitement, as the Minister of the Department, Hon. Mackenzie Bowell, has sat down emphatically upon those who practise frauds, under any pretence whatever, upon the exchequer of the country. The decisions which he gave against Christopher and Thomas Sonne, which are the only cases yet decided of a large number pending before him, are to inflict

PENALTIES AGGREGATING FULLY FIVE THOUSAND DOLLARS,

the amount of the goods confiscated in one case being three thousand, and in the other two thousand dollars. It is understood that these amounts, large as they are, will not be all these parties will be called on to make good to the Government, for an investigation is in progress by the Customs officials, extending back to the 1st of January, 1881, in order to trace the consignments of similar goods received, and how they were disposed of. It appears that all or very nearly all the canvas and white duck landed here from England since the new tariff was entered at the Customs for the use of ships, and it was represented as going into the hands of ship chandlers for that purpose. The facts which had been lately developed prove the very contrary, nearly all the canvas and white duck being employed in entirely different channels. The greatest number of these entries, made under oath it must be remembered, were

DELIBERATE FRAUDS UPON THE REVENUE

to save 10 per cent additional duty that would have been called for if the entry in the Custom-house book had been honest and straightforward. The two cases of the Sonne Brothers are the smallest on the whole list, which includes very many of the oldest firms in the business here. The total amount of goods seized in the port cannot be less than fifty or sixty thousand dollars, if it does not exceed the maximum. One house alone has over $10,000 worth under the care of the Customs officers. The charge is the same in all the cases as in those decided, and the defence in most of them is even not so strong as in that of Sonne. The fact is that some of the accused have tacitly, if not actually,

ADMITTED THEIR GUILT

and are ready to make restitution, if they are not prosecuted by the Government for perjury which, however, is likely to follow the settlement of all the complaints in Ottawa In the cases now pending investigations are going on to find out the actual amount the country has been defrauded of by the parties since the 1st of January, 1881. The sum in the aggregate which these fraudulent importers have pocketed, it is said, will startle people when made known. "It is no wonder they are all rich," said a man to-day, who went out of the business some years ago because he could not compete with the illegitimate dealings of others in the trade. It is believed here that the judgment against the Sonnes may be taken as an example of what will be done in those remaining for decision, and that is what is causing the intense excitement here.

FLOUR FRAUDS.

It is also alleged on the very best and most reliable authority that some startling developments are on the eve of coming to light in connection with the wholesale swindling of the revenue on flour imported from the Western States ostensibly for export. In one single instance it is stated that the amount which a firm here will have to pay for duty on flour sold to local bakers and other consumers for the period running back, as in the canvas cases, to January, 1881, will amount to from ten to fifteen thousand dollars. The Government is debarred from extending its enquiries further back than the date mentioned, although it is firmly believed the frauds commenced over three years ago, and have been systematically kept up ever since.

AMERICAN PORK.

It is further stated that the Government will institute immediate searching inquiries into the importation of American pork, upon which it is alleged the revenue has been more extensively swindled out of the differential duty than upon any other article of commerce.

THE TEA CASES.

In the case of teas brought here from New York no decision has yet been given, neither has any settlement of the Pullman car difficulty been arrived at. The honest and fair-dealing merchants of the city are in ecstacies at the determination manifested by the Government to stamp out with an iron and impartial hand the wholesale fraudulent dealing which has been carried on in so many different departments of commerce here. There are citizens in Montreal who say they were driven out of the United States by the rascally smuggling tolerated in that country to the prejudice of fair business, and they were not long engaged here in that trade until they found the same practices prevailing as across the border. It was out of the frying pan into the fire with those merchants It is thought now that when Mr. Bowell gets through with all his judgments the local commercial horizon will be purified, if not permanently at least for some time to come.

The Rocky Mountains.

The following account of an ascent to the summit of the Rocky Mountains will be interesting to our readers:

"Putting hands and feet in the crevices between the blocks, I succeeded in getting over it, and when I reached the top, found my companions in a small valley below. Descending to them, we continued climbing, and in a short time reached the crest. I sprang upon the summit, and another step would have precipitated me into an immense snowfield 500 feet below. The edge of this field was a sheer icy precipice, and then, with a gradual fall, the field sloped off for about a mile, until it struck the foot of another lower ridge. I stood on a narrow crest about three feet in width, with an inclination of about 20 degrees north, 51 degrees east. As soon as I had gratified the first feeling of curiosity, I descended, and each man ascended in his turn—for I would only allow one at a time to mount the unstable and precarious slab, which it seemed a breath would hurl into the abyss below. We mounted the barometer in the snow of the summit, and, fixing a ramrod in a crevice, unfurled the national flag to wave in the breeze where never flag waved before. During our morning's ascent, we had met no sign of animal life, except the small, sparrow-like bird already mentioned. A stillness the most profound, and a terrible solitude, forced themselves constantly on the mind as the great features of the place. Here, on the summit, where the stillness was absolute, unbroken by any sound, and the solitude complete, we thought ourselves beyond the region of animated life; but while we were sitting on the rock, a solitary bee (*bombus*, the bumble bee) came winging his flight from the eastern valley, and lit on the knee of one of the men.

"It was a strange place, the icy rock and the highest peak of the Rocky Mountains, for a lover of warm sunshine and flowers; and we pleased ourselves with the idea that he was the first of his species to cross the mountain-barrier, a solitary pioneer to foretell the advance of civilization. I believe that a moment's thought would have made us let him to continue his way unharmed: but we carried out the law of his country, where all animated nature seems at war; and seizing him immediately, put him in at least a fit place—between the leaves of a large book, among the flowers we had collected on our way. The barometer stood 18.293, the attached thermometer at 44 degrees; giving for the elevation of this summit 13,570 feet above the Gulf of Mexico, which may be called the highest flight of the bee. It is certainly the highest known flight of that insect. From the description given by Mackenzie of the mountains where he crossed them, with that of a French officer still further to the north, and Colonel Long's measurements to the south, joined to the opinion of the oldest traders of the country, it is presumed that this is the highest peak of the Rocky Mountains. The day was sunny and bright, but a slight shining mist hung over the lower plains, which interfered with our view of the surrounding country. On one side we overlooked innumerable lakes and streams, the spring of the Colorado of the Gulf of California; and on the other was the Wind River Valley, where were the heads of the Yellow stone branch of the Missouri; far to the north we could just discover the snowy heads of the hills, where were the sources of the Missouri and Columbia Rivers; and at the southern extremity of the ridge, the peaks were plainly visible, among which were some of the springs of the Nebraska, or Platte River. Around us, the whole scene had one main striking feature, which was that of terrible convulsion. Parallel to its length, the ridge was split into chasms and fissures; between which rose the thin, lofty walls, terminated with slender minarets and columns. According to the barometer, the little crest of the wall on which we stood was 3,570 feet above that place, and 2,780 above the little lakes at the bottom, immediately at our feet.

TO LADIES

suffering from functional derangements or any of the painful disorders or weaknesses incident to their sex, Dr. Pierce's treatise, illustrated with wood cuts and colored plates, suggests sure means of complete self-cure. Sent for three letter postage stamps. Address WORLD'S DISPENSARY MEDICAL ASSOCIATION, Buffalo, N. Y.

A schoolmaster in Nice has formed among his pupils a society for the protection of vegetation, the members of which destroy injurious larvæ and protect harmless birds. Their interest in the work is kept up by the election of laureates and the award of prizes. In four months of 1881 the children destroyed 4,555 belts of moth eggs, representing no fewer than 1,363,590 larvæ, 1,583 grass-hoppers, 529 butterflies, 58,911 slugs and snails, 1,274 grubs and 35,731 insects of various kinds.

As a cure for all diseases of the Lungs, DOWNS' ELIXIR has no equal.

Rheumatism is greatly dependent on a vitiated condition of the fluids, and may be eliminated from the system by cleansing the Blood and regulating the Kidneys. Burdock Blood Bitters will do this most effectually. Trial bottles 10 cents.

RACKED BY INNUMERABLE PANGS, restless by day, sleepless at night, rising unrefreshed in the morning, without appetite and pestered by varying and perplexing symptoms, the dyspeptic takes indeed a gloomy view of human existence. For him the zest of life seems gone. Heartburn, oppression at the pit of the stomach, and the attendant annoyances of constipation and biliousness, combine to render him utterly wretched. But there is, if he will but take advantage of it, a reliable source of reliable relief from all misery. NORTHROP & LYMAN'S VEGETABLE DISCOVERY and DYSPEPTIC CURE is, as its name imports, a botanic preparation, free from mineral poison, and an all-sufficient remedy for indigestion in its most obstinate form. It not only enriches the blood by enabling the digestive organs to convert the food received into nutriment, but depurates it by increasing the action of the bowels and kidneys, the natural outlets for its impurities. But while it relaxes the bowels, it never does so violently and with pain, like a drastic cathartic. It aids, but never forces, Nature, invigorating as well as purifying and regulating the system. It thoroughly removes those diseased humors which tend to vitiate the blood, purifies the urinary secretion, and promotes a flow of healthy bile into the natural channel, besides expelling it from the circulation. Experience has proved that this standard medicine is a thorough remedy for dyspepsia, biliousness, costiveness, kidney complaints, scrofula, erysipelas, salt rheum, lumbago and all impurities of the blood. Price $1.00. Sample Bottle 10 cents. Ask for NORTHROP & LYMAN'S Vegetable Discovery and Dyspeptic Cure. The wrapper bears a *fac-simile* of their signature. Sold by all medicine dealers

Samson lost his strength with his hair. Thousands of men and women lose their beauty with theirs, and very large numbers restore the ravages of time by using the famous Cingalese Hair Restorer. Sold at 50 cents per bottle by all Druggists.

Rest and Comfort to the Suffering

"Brown's Household Panacea" has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful," "Brown's Household Panacea," being acknowledged as great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle. 264ly

"THE BEARE IS A BEASTIE," says a quaint old book, published in London three centuries ago, "whose flesh is good for mankynd; his fat is good, with laudanum, to make an ointment to heale balde-headed men to receive the hayre agayne." We know of many "balde headed men" who would be glad to "receive the hayre agayne," but we do not desire to encourage them in a trial of Bear's fat and laudanum. Far from it. We, however, do not hesitate to commend Dr. J. C. Ayer & Co.'s Hair Vigor, which not only has the effect in some cases of making the hair grow on heads once bald, but cleans the scalp and restores gray and faded hair to its original color and vitality, imparting to it the glossiness and softness of youth. The evidences of its utility are too numerous and of too high a character to admit of any doubt. It required years of study and scientific experiment to decide upon the combination of ingredients that would accomplish what Ayer's Hair Vigor now does. —*The Interior, Chicago, Ill.*

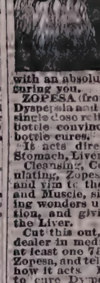
BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, blotches, pimples and the various humors and blemishes of the skin are only symptomatic of bad blood—that needs purifying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidneys, skin, etc, and strengthening while it regulates and purifies.

Mothers! Mothers!! Mothers!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle. 24ly

The most wonderful curative remedies of the present day, are those that come from Germany, or at least originate there. The most recent preparation placed upon the market in this country, is the GREAT GERMAN INVIGORATOR, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangements of the nervous system. For sale by druggists, or sent free by mail on receipt of the price, $1.00 per box, or six boxes for $5.00. Address James Clark & Co., Sole agent for Belleville. Send for circular.

CINGALESE. A name well known in connection with the HAIR RENEWER, which restores grey hair to its natural color by a few weeks use. Sold at 50 cents per bottle by all Druggists.



WILL EXCHANGE a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys.

Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

PIANOS & ORGANS.

BELLEVILLE, TUESDAY, SEPT. 26.

Liberal Conservative Candidate for West Hastings.

Mr. Baltis Rose was unanimously chosen as a candidate in the interest of the Liberal Conservative party for West Hastings at a meeting of delegates held to-day.

The Crooks Act—License Inspectors.

Mr. D. B. Chisholm, of Hamilton, one of the most earnest and devoted temperance men in Canada, is reported to have used the following language in reference to the licensing system under the Crooks Act in a speech delivered on Sunday, the 17th inst., in Hamilton:

> It was the greatest fraud ever perpetrated upon a country. He said that the whole license system was bad, but the Crooks Act was worse than any other license system; it was a fraud of the worst class. In its workings it was a political machine. The Inspector of Licenses, Mr. Mackenzie, was appointed, not because of his fitness for the office, but because of his politics. He was totally unfit for the position, being too big and too high to attend to the duties of the office, while drunkenness ran riot throughout the city.

Some ardent political advocates, who think more of their party than they do of their temperance principles, have been trying to weaken the force of the truthful statement made by Mr. Chisholm, by elaborate explanations, etc. They may explain till doomsday. The correctness of the statement cannot be controverted, as every man in this city and county can testify. Witness the blackmailing of some of the applicants here, and the reappointment as a Commissioner of the blackmailer's brother, after the facts were known, and the whole thing a public scandal. What did the Mowat Government care for that, provided the services of unscrupulous political partizans would be secured to do the work of the party? Let us hope that the time is fast approaching when this power will be taken from such men as now misgovern Ontario, and given into the hands of the municipalities, where it legitimately belongs.

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists.

A Reformer's Reasons for Becoming a Liberal Conservative.

At the late Liberal Conservative Convention held in Toronto, Mr. Edward Gurney, a life long Reformer, gave his reasons for allying himself with the Conservative party, and abandoning his former leaders, Messrs. Mackenzie and Blake. He said:

> "I must give a reason for the faith that is in me. I must tell you why I am prepared this day to declare myself a Liberal-Conservative. Here we have two great parties in a position of strong antagonism. The one party is a party of affirmatives; the other is the party of negatives. If you or I were called upon this afternoon to say where our Reform friends stand, we should say that the chief plank of their platform is opposition—opposition to everything under Heaven. Now, I am a Canadian and in full sympathy with everything Canadian. In common with all men in the country, I have been pained to see the young men going to the south of us to find employment for talents they possessed which could not be used in agriculture. But I am glad to say that as every country has a statesman, so we have one. That statesman, and I honor him for it, saw all this. He saw, too, that there was a destiny for Canada. But he did not at once declare his whole plan. I can see now, however, as I look back, how he unfolded that plan to himself. How first, with wonderful courage, he inaugurated Confederation, how he acquired next for Canada the great North-West, and how, as a next step, he inaugurated the great railway system by which we are to control that country. When the railway scheme was first spoken of I, in common with many others, looked upon it as one of the wildest schemes ever proposed, and my sympathies were entirely with my leaders, who, without hesitation, declared it a wild scheme. But after the accession of my friend to power they attempted to carry on the undertaking, and devised an amphibious scheme—one wheel in the water and the other on the track. Now, gentlemen, I am prepared to say that Sir John Macdonald in devising that scheme showed a foresight which at once proclaims him a great statesman. Being a Canadian, and in full sympathy with everything that tends to add to the progress and development of the country, I can no longer stand on the side of the counter with the party which is in opposition to every proposed advance in our material prosperity."

These sentiments are held by a large class of the old Reformers of Hastings, whose love of country is superior to that of mere party and faction. Many of these, however, while privately expressing similar opinions, have not publicly avowed themselves, but make their opinions felt by means of the ballot box. The above declaration is from one of the coolest headed and most successful business men in Canada, and shows the tendency of the minds of all business men in the Dominion to look to the Liberal Conservative party as the party most calculated to develop the country, and make its people prosperous and contented.

Don't die in the House.

"Rough on Rats." Clears out rats, mice, roaches bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

Editorial Brevities.

The Grit party of West Hastings is in a very bad way. It has since May last been making Lee-way, and at the close of the contest now pending will find itself wrecked on a Lee shore.

Says the *Mail*:—"It is not true, as alleged by a number of Reform organs, that it is the intention and the desire of the Liberal Conservative party to increase the number of liquor licenses, and to abolish the regulation requiring the closing of saloons at certain hours. The resolution adopted by the Convention states clearly that the intention is to remove the liquor licensing system from the control of political parties 'without interfering with the laws regulating the liquor traffic and limiting the number of licenses that may be issued.'"

The Toronto *Telegram* says:—"It is doubtless the fact, although friends of Mr Mowat do not care to admit it, that the tide of public opinion is running in favor of the Opposition. At least this is the conclusion arrived at by impartial observers of the political situation in this Province—those who are neither predisposed towards nor prejudiced against the Administration." This change in public opinion the *Telegram* rightly attributes to the centralizing tactics of the Grit Government.

The Provincial Exhibition.

WHAT EXHIBITORS FROM THIS VICINITY WON.

The receipts of the Provincial Exhibition were rather small. They would have been doubled but for the rain. The gate receipts for each day were as follows:—

Tuesday	$ 156 90
Wednesday	2,520 73
Thursday	2,827 00
Friday	498 00
A total of	$6,002 63

There were eight hundred members' tickets sold besides, to which must be added the amount received for entries. When the Local and Dominion grants are taken into consideration, the Association will come out square. The Manitoba exhibits will be distributed, part of them going to England, some to Ottawa, some to the Ontario experimental farm, and the balance to other places in Canada. The grasses, etc., will be returned to Winnipeg, where they go to form the nucleus of a museum in connection with the Department of Agriculture.

The prize list, so far as it has come to hand, shows that the following prizes were won by exhibitors from this vicinity:

Francis Peck, Albury—1st for sample of new variety of grass not heretofore cultivated as a farm crop, capable of producing 2 tons of dried feed per acre; 1st for Climax potatoes; 2nd for Compton's Surprise potatoes; 2nd for Garnet Chili potatoes; 1st for Ruby potatoes; 1st for six varieties of garden potatoes; 2nd for collection of field potatoes; 1st for Early York and St. Denis, and second for Oxheart and Winningstadt cabbages; 3rd for sweet corn; and first for table squash. Fruit—1st for St. Lawrence, Swaar and Grime's Golden apples; 1st for 4 varieties of cultivated crabs; 1st for largest and best variety of cultivated crabs; 2nd for watermelon; and 1st for yellow flesh melon. In all, Mr. Peck's winnings amounted to $52.

Mr. A. Sprague, of Demorestville, won first prize ($15) for hops.

In heavy draught horses Mr. B. Morden, Rossmore, won first prize for stallion 3 years old and upwards with his imported Percheron horse, which also gained the Dominion silver medal for stallion of any age.

Mr. Rathbun's cattle from his farm at Deseronto won some prizes, namely: In Durhams, 2nd for bull 2 years old. In Jerseys or Alderneys, 2nd for bull 3 years old and upwards, 1st for yearling bull.

In dairy produce the chief prizes went to the Plum Grove factory of Wellman's Corners, Rawdon, as previously noted, but others from this vicinity were also successful exhibitors. The prize list as to cheese contains the following:

Three factory cheese (white), capacity of factory and manufacture of not less than the milk of 100 cows.

Best cheese made during the 1st 15 days in August, 1882, J. Whitten & Co., Hastings, $50; 2nd, J. Stacy, Bornholm, $40; 3rd, R. Robinson, Tweed, $30; 4th, W. Russell, Napanee, $20; 5th, W. Harris, Atwood, $15; 6th, G. Vancott, Camborne, $10; 7th, Gordanier & Phippen, $5.

3 factory cheese (colored), capacity of factory and manufacture of not less than 100 cows' milk.

Best cheese made during the first 15 days in August, 1882, J. Whitten, $50; 2nd, M. Spafford, $40; 3rd, G. Noble, $30; 4th, J. Bissell, Algonquin, $20; 5th, R. Robinson, $15; 6th, W. J. Thorburn, $10; 7th, G. Vancott, $5.

3 dairy cheese, not less than 30 lbs., W. R Dow, $8; 2nd, G Horning, $6.

3 Stilton cheese, not less than 8 lbs. each, Mrs. Eliza Parsons, Guelph, $8.

3 Gloucester or Wiltshire loaf or Truckle cheese, not less than 8 lbs. each, J. Robertson, Willowbank, $8; 2nd, W. Huxley, Fullerton Corners, $6; 3rd, T. Stacy, $4.

Collection of butter tubs, for shipping purposes; 1st W. H. Lynch, International Supply Co., Toronto, $6.

Five cheese boxes, for shipping purposes; 1st, A. W. Covell, Lombardy, $6; 2nd, Rawfleisch & Schaeffer, Tavistock, $4.

Best outfit for manufacturing cheese; H. Ashley, Belleville, $25.

Best outfit for manufacturing butter; W. H. Lynch, International Supply Co., $15.

Dominion sweepstakes for the best made and most perfect lots of cheese in any class that has taken a first prize, James Whitten, Plum Grove, N. Hastings, gold medal and $50.

Catarrh of the Bladder.

STINGING irritation, inflammation, all Kidney and Urinary Complaints, cured by "Buchupaiba." $1.

—A fire broke out in the drying room of the boiler and engine house of the Dundas Cotton Mills about 11 o'clock on Saturday night. The origin of the fire is not known. The building was completely burnt out, doing considerable damage to the engines and boilers. The total loss will probably be $10,000, which is fully covered by insurance. The company has put on a gang of men to clear the *debris*, but it will take about six weeks to get the mill in operation again. Five hundred hands are temporarily thrown out of employment. Owing to the superhuman efforts of the citizens the total destruction of the cotton mill was prevented.

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinary or Liver Diseases, as they only relieve for a time and make you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

—Overdank, arrested in connection with the Socialist agitation in Austria has confessed to an intention to assassinate the Emperor Francis Joseph.

—Nina McCarthy, aged 12, was struck by a train near Charleston Station, on the Toronto, Grey and Bruce Railway on the 25th, and died from the effects of her injuries.

O. Bortle, of Manchester, Ontario Co., N.Y. writes:—"I obtained immediate relief from the use of *Dr. Thomas' Eclectric Oil.* I have had Asthma for eleven years. Have been obliged to sit up all night for ten or twelve nights in succession. I can now sleep soundly all night on a feather bed, which I had not been able to do previous to using the Oil."

Nervous debility is a result of indiscretion in the mode of living. Heed nature's unerring laws and take Burdock Blood Bitters, the Great System Renovator and Blood, Liver and Kidney regulator and tonic. Sample bottles 10 cents.

COUGHS AND COLDS.—If taken in time are easily cured,—if allowed to continue will result in incurable consumption. Allen's Lung Balsam has the confidence and support of the medical faculty, and is recommended by all who are acquainted with its virtues.

Sure, safe and effectual, that old remedy, DOWNS' ELIXIR, for the cure of Coughs and Colds.

News Condensed.

Hugh McWhinney escaped from Kingston gaol yard on Saturday.

The hugest surprise in store for your rheumatism is a rub with St. Jacobs Oil.

—General Wolseley and Admiral Seymour have been created Barons for their services in Egypt.

Delegates representing 20,000 English miners have resolved to demand an increase of 15 per cent. in their wages.

—Captain Risley will investigate the boiler explosion which caused such serious loss on board the *Richelieu* at Lachine.

—A new North American Land and Lumbering company is in formation in England with a capital of half a million.

—Hon. Mr. Masson, it is understood, will succeed to the seat in the Senate vacated by the late Hon. L. Dumouchel.

—The Local Government has withdrawn its suit for the collection of the special tax against several insurance companies in Montreal.

—Watford was visited with a destructive fire on Saturday morning. Total loss on buildings about $7,000; on stock $15,000.

—Dr. E. Stone Wiggins of the Finance Department predicts that a great storm will strike this planet on the 9th of March next.

—On Friday night a little child of a Mrs. Burns, Hamilton, pulled a pan of scalding water over itself, and has since died from the injuries it received.

—Six more arrests have been made in Ireland in connection with the Lough Mask murder. Most of the batch of prisoners are recently released suspects.

—It is said the training-ship *Charybdis*, which arrived at Halifax on Saturday from St. John, in tow of the Government steamer *Newfield*, will go to Bermuda.

—An appeal is made in aid of the people of Labrador, who are in imminent danger of starvation owing to the failure of the crops and of the seal and cod fisheries.

—The body of Mr. A. Duncan, of Hamilton, one of the victims of the *Asia* disaster, was recovered on Saturday fifteen miles from Byng Inlet by Mr. Parkhill's party.

—An old negress named Munson, living at Woodstock, has been committed for trial on a charge of murder. The crime was abortion on a girl named Ellen Weingardner or Camp.

—Preparations for the coming winter's operations in the woods on the upper Ottawa have commenced with a rush this fall and are being carried on more vigorously than for a number of years past.

—On Saturday afternoon Gen. Sherman, General-in Chief of the army of the United States, paid a brief visit to Kingston. The General was accompanied by his wife and daughter, and by General Titball and Mrs. Titball.

—An entry was effected into the office of Mr. Neelon's mill at St Catharines on Friday night by the breaking of a pane of glass. The thief succeeded in opening one of the safes with a key, and secured about $300. No clue to the thief.

—Dr. Honeyman has consented to divide the collection of Nova Scotia minerals in the Kingston exhibition between the Royal Military College and Queen's University. The allotment given to the latter will be placed in the museum.

*The term *hydra* may be used to represent any manifold evil. If you would battle successfully with this many-headed monster of disease you will find it expedient to keep Mrs. Pinkham's Vegetable Compound always at hand.—*Dr. Banning.*

—The total Grand Trunk traffic return for the week ending Sept. 16 was $368,165, an increase of $30,343 over the corresponding period last year. The receipts for passenger, mail and express freights were $164,784, and for freight and live stock $203,371.

—As an emblem of perseverance and industry we boldly put forth the mosquito. For persistence it will beat both the bee and the ant, while for cheerfulness it will leave them both far in the rear, for it is always singing at its work and rests not night or day.

—The Ontario Treasurer, Mr. Wood, was unable to attend the interview recently arranged for between him and the Quebec Treasurer for the purpose of settling the relative accounts of the two provinces, and consequently fresh negotiations must be entered into.

—There has been about 600 million superficial feet of lumber cut in the Ottawa valley this season, which is fully 50 per cent. more than the cut of last year. The quantity of square timber cut is about 10 million cubic feet. Gilmour's Gatineau mills will be closed for the season on Tuesday.

—The entries for the Western fair, which opens to day, in London, show a falling off from that held in 1880 of over 1,000, principally on fruit and grains. So far they number 6,633, against 7,510 in 1879, and 7,669 in 1880; but from 750 to 1,000 are expected to be taken to the secretary.

—The four lost children at Riviere du Loup have been found in the woods. From the time of their disappearance they had been wandering about unable to extricate themselves, and, when discovered, were in a very weak state from hunger, exposure, and fatigue.

—The *Mail's* Ottawa despatch says:—Statements in relation to Mr Carling's approaching resignation continue to appear, and even Conservative journals are sometimes mislead into publishing them. Mr. Carling has not resigned, has not proposed to resign, and has no idea of relinquishing his present position.

—At the session of the General Conference of the Methodist Church of Canada at Hamilton on Monday, the principle of a general superintendence, in a form that will not interfere with the Stationing and Transfer Committees or other Church Courts, was conceded and affirmed in order to promote union with the other Methodist bodies.

—The *Tribune's* London cable says:—Lord Dufferin shares the congratulations heaped on Sir Garnet Wolseley by Irishmen. Whether by the stupidity of the Porte, or by careful design, he kept the Turks out of Egypt, and prevented the execution of the commission given the Sultan without offending the powers. The *Times* says he is a worthy successor to Lord Stratford de Redcliffe.

—Julie Boisvert, who was charged with poisoning the child of Mr. Noel, was found guilty at the Montreal assizes on Saturday of administering poison with intent to commit murder. It is a very strange case, being apparently without any motive for the crime. The verdict has been based principally upon the medical evidence for the prosecution which was certainly very strong.

***"Do boldly what you do at all." Boldly do we affirm that Kidney-Wort is *the* great remedy for liver, bowels and Kidney diseases, rheumatism and piles vanish before it. The tonic effect of Kidney-Wort is produced by its cleansing and purifying action on the blood. Where there is a gravelly deposit in the urine, or milky, ropy urine from disordered kidneys, it always cures.

—The Khedive made his triumphal entry into Cairo yesterday, and received a friendly welcome from his subjects. General Wolseley, the Duke of Connaught, and Sir Edward Malet enjoyed the unprecedented distinction of riding in the Khedive's carriage. Colonel Valentine Baker, late of the 10th Hussars, has been entrusted with the reorganization of the Egyptian army.

—Some time ago 4 young men were tried at Gananoque and sentenced to the penitentiary for committing a rape on Eliza Wheeler. One of the men has gone crazy, and another is following suit, having taken their imprisonment so much to heart. The girl has a bad name, and has been arraigned for perjury. While under bail she cleared out, and is now supposed to be in Kingston. The public are moving to have the young men liberated.

—Mr. Collingwood Schreiber, C.E., Inspector of Government Railways, has returned from a trip on the C.P.R. west. He went a distance of 444 miles, within eight miles of Old Wives Lakes, and reports work much heavier than he expected, the line substantially built and the grading well raised. Of the Thunder Bay division he states that a great portion of it is in fair condition, but 16 or 20 miles were not. He was certain passenger traffic would not be allowed over it. The contractors were not authorized to run freight at present, though he understood they were doing so to some extent.

The Emerson and North-Western Railway intend proceeding with the construction of the road as promptly as possible. The Secretary of the road asserts that the Grand Trunk Railway is supporting the enterprise.

PEARLS.—Get your mouth full by using "TEABERRY," the new wonder for the Teeth and Breath. Brush vigorously. See directions. 5 cent samples.

"READING NOTICE."

"Twenty-four years' experience," says an eminent Physician, convinces me that the only cure for "Nervous Exhaustion" and weakness of the generative organs is to repair the waste by giving Brain and Nerve Foods, and of all the remedies I have used Mack's Magnetic Medicine is the best. This remedy is now sold by all our Druggists at 50 cts. per box, or 6 for $2.50, and on receipt of an order for 12 boxes, accompanied with $5.00, addressed to Mack's Magnetic Medicine Co., Windsor, Ont., they will forward the goods free, by mail, and send their "written guarantee" to refund the money, if the treatment does not effect a cure. See a'v't in another column. Sold in Belleville by Jas. Clark & Co.

Hall's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by Jas. Clarke & Co., Belleville, Ont.

Dropsy is essentially a watery condition of the Blood, dependent upon disordered Kidneys. Burdock Blood Bitters are strongly Diuretic and consequently the best known remedy, acting as it does upon the entire Secretory System.

One dose of BAXTER'S MANDRAKE BITTERS will relieve Sick Headache. One bottle effects a cure. Price 25c. per bottle.

PROCLAIM it far and wide that DR. VAN BUREN'S KIDNEY CURE not only immediately relieves all Kidney diseases, but what is more important to the unfortunate sufferer, will ultimately cure him effectually.

ADMINISTRATOR'S NOTICE TO CREDITORS.

THE creditors of James A. Clark, late of the Township of Thurlow, in the County of Hastings, Butcher, deceased, who died on or about the fourth day of February, 1882, and all others having claims against his estate are hereby notified to send by post prepaid or otherwise deliver to the undersigned Administrator, with the will annexed, of the estate and effects of the said deceased, at S. A. Lazier's store, Front Street, Belleville, on or before the twenty-first day of October next, their christian names and surnames, addresses and description, the full particulars of their claims, a statement of their accounts, and the nature of their securities (if any) held by them, and in default thereof, and immediately after the said twenty-first day of October next, the assets of the said James A. Clark, deceased, will be distributed amongst the parties entitled thereto, having regard only to claims of which notice shall have been given, as above required. And this notice being given under the provisions of the revised Statutes of Ontario, chapter one hundred and seven, section thirty-four, the administrator will not be liable for the said assets or any part thereof, to any person of whose claim notice shall not have been received by him at the time of such distribution.

NOTICE.—Messrs. Britton & Geary wish to announce to the people of Belleville that they have reduced the price of all kinds of meats, and have constantly on hand a good supply of the best meat in the market. A call is solicited, Britton & Geary, Riverside Meat Market.

Daily Intelligencer.

BELLEVILLE, TUESDAY, SEPT. 26.

City and Vicinity.

MR. JOHN H. HOLDEN, of Winnipeg, is in the city.

THE cells gave shelter to only one prisoner—a drunk—last night.

IF you want a perfect fitting suit go to John Lazier & Son, and try their new cutter. 113d3tw4w

MESSRS. BRIGNALL & THOMPSON will tomorrow hold their fall opening of novelties in every department.

MR. MCMURRAY delivered an able and earnest address on temperance, last evening, in the Holloway street Church.

ON Thursday evening "Uncle Tom's Cabin" will be performed in the Metropolitan Hall by the Minnie Foster Company.

THE new comet is now exciting the wonder of the scientific world. Its movements are clearly traceable in broad daylight, and thousands of telescopes are carefully scanning it.

THE police were out yesterday hunting up unregistered dogs. Quite a large number were discovered by them, and more will probably be found to-day. Their owners will be required to explain at the Police Court.

IT is hardly necessary to announce the fact that the united exhibitions of the West Hastings Agricultural and Belleville Horticultural Associations will be held to-morrow evening and Thursday at the ground of the former.

THE picture painted by Mr. W. S. Hunter, which was described in these columns two or three weeks ago, has been hung in the reading-room of the Mechanics' Institute. It is being greatly admired by the frequenters of the Institute.

BARNEY HENRY had the honor of appearing before the Police Magistrate this morning in company with Cynthia Harris. Barney was charged with drunkenness; he was allowed to go. Cynthia appeared on remand on a charge of vagrancy; she was further remanded for a week.

MARIANNE BUTCHER, the girl who ran away from her home in Stirling nearly three weeks ago, has been recovered. She had been living as a servant at the house of a Mr. Sweeney, 1st Concession of Thurlow, near the city, and was recognized by Mrs. P. O'Brien a day or two ago. Mrs. Butcher was communicated with, and went down to Sweeney's yesterday, but the girl had taken alarm and had risen before daylight and came to the city, where she went to the house of a friend. Her mother, however, discovered where she was and followed her. The scene between the mother and daughter was most affecting. The latter expressed her contrition for her hasty and ill-advised action, and promised, if she were forgiven, never to leave her parents' roof again without their consent. She was taken home.

THERE will be an excursion to-morrow (Wednesday) afternoon to Massassaga Point per steamer *Nellie Cuthbert*. Mr. J. H. Ford, photographer, is going down to take a number of Views on the Point. The boat will leave her wharf at 3 o'clock. 16

MRS. MOSHER, wife of Capt. J. R. N. Mosher, who made the voyage in the ship *Vicereine*, commanded by her husband, from Glasgow to California and back, has returned to Belleville and will reside here. She came out by the fine new steamship *Sarnia*, of the Dominion line.

IT seems that our announcement to the effect that the Woman's Christian Association had agreed to resume its relations with the City Council and had accepted the remainder of the poor appropriation ($200) for distribution, was not exactly correct. The President of the Association had accepted from the Chairman of the Poor and Sanitary Committee an order from the Chairman of Finance to this amount, with the express understanding that the Association would not be bound by her action. The reason why Ald. Vandusen pressed the order upon the President of the Association was, that he was going out of the city, and would not for a long time have another opportunity of acting the part of reconciler between the Council and Association. Though the order was conditionally accepted, it was never made use of, and Mrs. Jones, learning that the feeling of the Association would be decidedly against the course proposed by Ald. Vandusen, returned the order to Ald. Dickson. In spite of this apparent irreconcilability, however, we have reason to believe that the Association would again undertake the distribution of the city's poor funds if the Council would show its willingness to have them do so. The Council is composed of gentlemen and the Association of ladies, and according to the laws of chivalry the former body should make the first advance towards a reconciliation.

WEATHER PROBABILITIES—Toronto, Sep. 26.—Lakes, moderate to fresh northerly to easterly winds, fine weather, not much change in temperature.

DRIVING PARK ASSOCIATION.—A meeting of this Association was held last evening in Mr. H. Corby's office, a large number of the members being present. A good deal of business was transacted, including the election of a new Treasurer (Mr. John Lake) and Secretary (Mr. A. I. Bird.) The expenditure was found to have been, according to the Treasurer's report, about $250 more than the receipts; but about $280 of subscriptions remain uncollected, and steps are to be taken for the immediate collection of these subscriptions. The President was authorised to procure a code of by-laws and report at the next meeting. It was decided not to have any races this fall, but in the spring the association will hold a meeting in connection with the central circuit.

THE OCTOBER CENTURY.—Unusually varied and interesting are the contents of the October Century, which closes the first year of the magazine under the new name. Most noteworthy, perhaps, are the two portraits of Abraham Lincoln, which have never before been published. The larger of these, the frontispiece of the magazine, engraved by Cole, is a fine copy of an ambrotype which was made two days after Lincoln was nominated in 1860. The smaller one is a copy of the last photograph for which Lincoln sat, and was taken on the balcony of the White House six weeks before the President's death. Other articles of practical or timely value are E. V. Smalley's third paper on the New Northwest, an admirable statement of "The Growth of the United States," by Francis A. Walker, the Superintendent of the last census; and an account by Judge Farman, late Consul General at Cairo, of his "Negotiations for the Obelisk." Short papers of literary interest are, "Some (hitherto unpublished) Letters of Charles Lamb to John Howard Payne," with an introduction by R. S. Chilton, and William P. Andrew's account of "An Inspired Life"—that of Jones Very, the New England Poet. The poems of the number are by the late Sidney Lanier, Mr. Boyesen, Frances Hodgson Burnett, H. C. Bunner, S. M. B. Patt, Robertson Trowbridge, J. P. Irvine, and in "Bric-a-Brac," by J. A. Macon and others.

CHANGES IN THE DIOCESE OF KINGSTON.—Bishop Cleary has reached most of the Diocese of Kingston and is now able to judge of the requirements of the various parishes. There are rumors of many changes, but only a few of them have been verified. A number of parishes have been divided. Morrisburg and Winchester have been made separate stations. The latter will be under the direction of Rev. Father Fitzpatrick, of Fenelon Falls. Trenton and Frankford have been divided. Rev. Father Walsh, of Toledo, has been transferred to the former, as successor to Rev. Father Brettargh, who has left the Diocese. Yesterday Bishop Cleary, returning from Peterboro, remained at Trenton and installed Rev. Father Walsh. The priest has not been named for Frankford. Father J. Walsh is temporarily stationed at Toledo, but the Rev. Father Brophy, of North Tyendinaga, will ultimately go there. Rev. James Connolly, of Peterboro, has been transferred to Prescott, and Father Murphy from Prescott to Peterboro. Bishop Cleary will arrive here in a day or so and then proceed to Toledo.—*Whig.*

BEFORE purchasing Ready made Clothing be sure and look through HENNESSY'S stock. He has over 300 suits in all, and is offering them at actual cost.

Bogart Correspondence.

BOGART, Sep. 25th.

Fall ploughing is being pushed on pretty rapidly since the late rains.

Railroading is being pushed on pretty rapidly now throughout this section. Messrs. Carroll & Co. have a steam drill to work in the rock cuts.

Miss Pyne, of Belleville, has taken charge of our school, as sickness would not permit Mr. Gabourie to teach any longer.

An evening of very pleasant enjoyment was spent at the house of Mr. Peter S. Key, on the 13th inst. What made the evening more pleasant was the marriage of Mr. Peter Luffman to Miss Lydia S. Key, all of this place.

A new lodge room is to be erected by the members of L. O. L. No. 1135. It is likely to be built of brick.

Hay is in good demand here at $14 and $15 per ton.

Potatoes are somewhat cheaper than usual, as they are only fetching 75 and 90 cents per bag. The crop is on an average about the same as last year.

Excellent reasons exist why *Dr. Thomas Eclectric Oil* should be used by persons, troubled with affections of the throat or lungs, sores upon the skin, rheumatic pains, corns, bunions, or external injuries. The reasons are, that it is speedy, pure and unobjectionable, whether taken internally or applied outwardly.

A New Principle.

The principle upon which PUTNAM' PAINLESS CORN EXTRACTOR acts is entirely new. It does not sink deep into the flesh, thereby producing soreness, but acts directly upon the external covering of the corn, separates it from the under layer, removes the direct pressure from the part, and at once effects a radical cure, without any pain or discomfort. Let those who are suffering from corns, yet skeptical of treatment, try it, and by the completeness of the cure they will be ready to recommend Putnam's Painless Corn Extractor to others. Sold by W. H. Carmichael.

Fall Opening.

FOSTER & REID.

This firm held its "fall opening" to-day and their show rooms were visited by a large number of ladies. There were plenty of new and beautiful things to admire, especially in the millinery department. Here were to be seen in profusion flowers and ribbons and plumes of all hues and shades, and bonnets and hats of the newest and strangest styles, some gorgeously and some neatly and unobtrusively trimmed. There was the "Recamier," a saucy looking poke which would have set off to admirable advantage the lovely face of her after whom it was named; there was the "Duchess of Abercorn," a large splendidly trimmed hat which would engender misanthropic feelings in the heart of a person sitting behind it at a theatre; there was the "Matadore," a beautiful bonnet for a beautiful face, though why so called is a mystery; there was an exquisite French bonnet without a name, but the most chaste and attractive in the whole display—pure white, with two soft drooping plumes in front; there was another nameless work of art, with trimmings of "terra cotta"—the new æsthetic shade; and last but not least, there was the "Ras-el-Tin," a massive hat of soft white felt, with a beaver crouching on a maple log painted on the broad brim. The prevailing colors which one sees in the show-room, and which no doubt will be the fashionable colors of the season, are "strawberry" (red), "cactus" (green), "alicante" (brown), "huzard," "cadet" and "sevres" (blacks.) A feature of the display worth noting is the feather trimmings, which are very attractive, particularly the English jay and Mediterranean nightingale.

In the other departments there is also much to see and linger over. The mantle department is rich in new and elegant cloths, the colors being chiefly alicante and matallese. There are plain and embossed plushes, satin marveilleaux, striped, plain, and black. The stock of general goods is also much larger and more varied this fall than it has has ever been in the history of this enterprising firm.

If Nearly Dead

after taking some highly puffed up stuff, with loud testimonials, turn to Hop Bitters and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes, or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides, it is the best family medicine on earth.

Sporting Notes.

When the last mail left England, the Australians were in the thick of a match with I Zingari, and were in a position which makes a single innings defeat of the visitors not impossible. The Australians scored 153 in their first innings, the only two good scores being Massie's 51 and Horan's 32. I Zingari then went in and ran up 279 before going out; Lord Harris made 37, G. B. Studd 36, R. A. H. Mitchell 32, A. G. Steele 20, A. P. Lucas 26, and C. T. Studd 21. The visitors then went in again and scored 30 with the loss of one wicket, Massie being caught out with 18

Lately Mr. Alfred Nixon, hon. Secretary of the London (Eng.) Tricycle Club, journeyed from John o'Groat's to Land's End, a distance of 1,007 miles, on a tricycle, accomplishing the distance in 13 days, 23 hours, 55 minutes. His machine weighed 95 lbs., and his luggage 10 lbs. *Bell's Life* says:—"On referring back to the journey of the Hon. Ion Keith Falconer over this route in June last, we are confirmed in our view of the comparative speed of bicycles and first-class tricycles for touring purposes, as Mr. Nixon did only five miles per day less than the well-known Cantab, who, for both speed and power of endurance on a bicycle, has but few equals. Those who follow up the pastime of tricycling in our opinion owe much to the hon. secretary of the London Tricycle Club, who has thus shown what can be done on a three-wheeler."

The cricket match between the Australians and Shaw's Eleven, which took place at Leeds on the 11th and 12th inst., resulted in a victory for the Antipodeans by 89 runs. Scores: Australians, 79 and 126; Shaw's Eleven, 79 and 37.

The Australians played a drawn match on Sept 9 and 10 with the Zingari. Australians, 153 and 423 for six wickets. Bannerman, 120 (not out), and G. J. Bonner 122 (not out); Zingari, 279.

The Vice-Regal Tour.

KINDNESS OF THE PRINCESS.

VICTORIA, B.C., Sept. 25.—The week has been one of public enjoyment and enthusiasm over the arrival of the Royal guests. To-morrow a drawing room will be held in the Assembly Chamber, and a garden party on Tuesday. Yesterday the Governor-General and Princess visited the water-works. While there a little girl, the child of a farmer, fell and broke an arm. The Princess as soon as the accident came to her knowledge took the child in her arms and carried her to the house, remaining with and alleviating her distress till the surgeon whom the Governor General sent for arrived from town. This kindly action upon the part of the Princess completely won the hearts of the large crowd of all classes who were present, and the cheers in her honor were hearty in the extreme. To-morrow the Royal party will visit the manufacturing establishments in town.

The greatest and latest discovery of the nineteenth century. A sure and permanent cure for Fits, Hysterics, Dizziness, and all nervous complaints. When ordering a bottle send full description of disease, age and condition of patient, advice free, price $1.00 per bottle. RICHES, BARBEAU, & Co., 101 St. Francios Xavier St., Montreal, sole agents for Canada.

SMITH MEDICINE Co.

GENTLEMEN,—I have made a trial of one box of Dr. Smith's Great German Worm Remedy, with such good effect that I have no hesitation in recommending it to the public as a prompt and reliable medicine. In fact, those who use it once will always do so. Yours truly,

J. Harvie, 172 Cadieux street.

Montreal, December 9th, 1881.

Dr. E. C. West's Nerve and Brain Treatment is a never failing cure for Nervous Neuralgia, Nervous Headache, Overworked Brain, &c. Sold at James Clarke & Co's.

Consumption, that dread destroyer of the human race, is often the result of bad blood and low vitality, a scrofulous condition of the system. Burdock Blood Bitters cure Scrofula in its worst form.

BAXTER'S MANDRAKE BITTERS never fail to cure Costiveness and regulate the Bowels.

LATEST FROM EGYPT.

THE KHEDIVE'S RECEPTION.

CAIRO, Sep. 26.—The Khedive yesterday drove for an hour through the illuminated streets and was well received. The Khedive will bestow upon Gen. Wolseley the Grand Cordon of the Order of Osmanli

MORNING DESPATCHES.

LARGE COMET DISCOVERED.

WILLIAMS, Arizona, Sept. 26.—A comet larger than that of 1860 was discovered here on Saturday morning. No instruments here to correctly locate it. It rises south by east, and about two degrees east of the sun, travelling very rapidly west by north.

STAR ROUTE CASE.

KANSAS CITY, Sept. 26.—Col. Jas. B. Price, indicted for conspiracy in connection with the Star route cases, gave bonds in $10,000 yesterday for his appearance before the Supreme Court at Washington next term.

THE TARIFF COMMISSION.

WASHINGTON, Sept. 26.—An estimate of the expenses of the tariff commission outside of a salary of $10 per day each, shows the average cost per witness to have been about $450.

NEW YORK, Sep. 26.—Arrived, the *Abyssinian* from Liverpool.

NEW YORK NOTES.

NEW YORK, Sep. 26.—Joseph Redmond, aged 12, who disappeared from his home last June, and a month later his parents identified a body found in the North River as the remains of their son and buried it. It is now learned that Joseph is in a house of refuge, where he was committed for petty larceny. An effort will be made to secure his discharge.

13 inexperienced sailors, shipped at Havre on the American ship *Undaunted*, yesterday complained to the Emigration Commissioners that they were terribly abused on the voyage by the officers and regular seamen. One of their comrades, through terror of his persecutors, fell into the hatchway and was killed. Two others were strung up by their wrists, and beaten till nearly dead. The men allege they were insufficiently fed, and cheated out of their wages

NEW YORK, Sep. 26.—Arrived, the *Herder* from Hamburg.

MELVILLE WILLING TO COMMAND ANOTHER ARCTIC EXPEDITION.

WASHINGTON, Sep. 26.—Melville says he is willing to command another expedition to the north pole, provided he could have a ship built, manned and equipped to suit him. He still believes the course to the pole is by the Franz Josef land route.

W. K. VANDERBILT A DEMOCRAT.

RIVER HEAD, L. I., Sept. 26.—As Wm. K. Vanderbilt is a Democrat, it is not likely that he will be nominated for Congress by the Republicans.

GOLD DISCOVERY.

BLISSFIELD, Mich., Sept. 26.—There is great excitement here over the discovery of gold in paying quantities.

WIFE MURDERER ARRESTED.

MONITOW, Wis., Sep. 26.—George Rathsook, a wife murderer, was arrested while hiding in a tree top. He attempted suicide with a knife. The citizens are preparing to lynch him.

ACQUITTED.

ATHENS, Ohio, Sep. 26.—Rev. Dr. Scott, President of the Ohio University in Ohio, on trial before the M. E. Conference, for heresy, has been acquitted.

TRAMPS ARRESTED.

PORT JERVIS, Sep. 26.—Three tramps were found in a freight car this morning near Howell's and ejected when the train reached here. Five large bags were found which were filled with boots and shoes which they had stolen. The property is awaiting identification.

ROBBED OF $1,000.

BARTON, Wis., Sep. 26.—The other night Jacob Kuntz, who was about to get off a train on the Chicago and North Western Railway here, was assaulted by some unknown parties and robbed of $1,030 and thrown from the train on to the platform. He was found unconscious with his leg and jaw broken and a hole in his head. He soon died. It is supposed the crime was committed by Missouri train robbers.

RAILWAY COLLISION.

NEWARK, N. J., Sep. 26.—The passenger train on the Pennsylvania R. R. last night collided, at a curve near West Newark, with a freight Lehigh Valley train. The passenger train was wrecked and the passengers had great difficulty in getting out of the cars. Several persons were seriously injured. The freight train was considerably damaged.

AFTERNOON DESPATCHES

DEATH OF AN ARCHBISHOP.

ROME, Sep. 26.—The Archbishop of Seville is dead.

THE SALVATION ARMY IN TROUBLE,

CALCUTTA, Sep. 26.—Three members of the Salvation Army who recently arrived have been arrested in order to prevent a riot which is imminent. Only one member of the contingent is now at liberty.

DILLON'S POSITION.

DUBLIN, Sep. 26.—A Dublin correspondent intimates that Dillon has withdrawn from active political life because he does not fall in with what he considers the milk and water policy of his associates.

SOCIALISTS IN COUNCIL.

PARIS, Sep. 26.—The Socialistic Labor Congress has opened, there being 1,500 delegates. The proceedings thus far have mainly been angry disputes between the delegates, some of whom advocate pacific, instead of armed revolution.

TROUBLE IN EGYPT.

CAIRO, Sept. 26.—The Bedouins have cut the fresh water canal above Nefich.

NEWMARKET RACES.

NEWMARKET, Eng., Sep. 26.—In the fourth great Foal stakes for three year olds, Dutch-oven won. Shrewsbury and Nellie lead in the heat for the second. Seven starters, including Lorillard's Gerald.

MOVILLE, Sep. 26. -Arrived, the *Ethiopia*.

FATAL SHOOTING ACCIDENT.—A shocking and probably fatal accident occurred on Monday at Eastman's Springs, near Ottawa. A party of boys or young men were shooting for amusement, when one them named Robbins, an English immigrant, aimed his revolver at another named Fitzsimmons. The revolver went off, and the bullet entered Fitzsimmon's head above the right eye. A doctor who was called refused to probe for the bullet, as the operation would certainly, he said, be fatal. The lad is not expected to live, and Robbins will be arrested. Fitzsimmons is the son of a farmer with whom Robbins had recently come to board. Fitzsimmons, sr., has recently left for British Columbia to work on the Pacific railway.

☞ The Diamond Dyes always do more than they claim to do. Color over that old dress. It will look like new. Only 10 cents

For 30 Years

The dark-eyed and lovely daughters of Spanish America have used MURRAY & LANMAN'S FLORIDA WATER as their only cosmetic and toilet perfume. It is the most fragrant, as well as the most lasting of all Floral Waters, and possesses refreshing and invigorating properties not contained in any other preparation of the kind.

A SIMPLE herb found on the sunny plains of a Southern clime has, under the skillful manipulation of DR. VAN BUREN, proved one of the greatest blessings ever sent to suffering humanity. DR. VAN BUREN'S KIDNEY CURE is acknowledged all the world over as the only perfect remedy for Kidney troubles. Your druggist has it.

Commercial.

[illegible] is no excuse for suffering from

CONSTIPATION

[illegible] of the Stomach and Bowels and [illegible] of the Digestive Organs, when the use of

DR. HENRY BAXTER'S MANDRAKE BITTERS

will give immediate relief, and in a short time effect a permanent cure. After constipation follows Biliousness, Dyspepsia, Indigestion, Diseases of the Kidneys, Torpid Liver, Rheumatism, Dizziness, Sick Headache, Loss of Appetite, Jaundice, Apoplexy, Palpitations, Eruptions and Skin Diseases, etc., all of which these Bitters will speedily cure by removing the *cause*. Keep the Stomach, Bowels, and Digestive Organs in good working order and perfect health will be the result. Ladies and others subject to SICK HEADACHE will find relief and permanent cure by the use of these Bitters. Being tonic and mildly purgative they PURIFY THE BLOOD by expelling all Morbid Secretions. PRICE 25 CTS. PER BOTTLE. For sale by all dealers in medicine. Send address for pamphlet, free, giving full directions. HENRY, JOHNSONS & LORD, PROPS., MONTREAL.

$200.00 REWARD!

Will be paid for the detection and conviction of any person selling or dealing in any bogus, counterfeit or imitation HOP BITTERS, especially Bitters or preparations with the word HOP or HOPS in their name or connected therewith, that is intended to mislead and cheat the public, or for any preparation put in any form, pretending to be the same as HOP BITTERS. The genuine have a cluster of GREEN HOPS (notice this) printed on the white label, and are the purest and best medicine on earth, especially for Kidney, Liver and Nervous Diseases. Beware of all others, and of pretended formulas or receipts of HOP BITTERS published in papers or for sale, as they are frauds and swindles. Whoever deals in any but the genuine will be prosecuted.

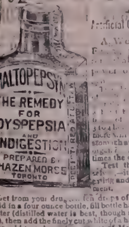
MALTOPEPSYN



MALTOPEPSYN
THE REMEDY FOR DYSPEPSIA AND INDIGESTION
PREPARED BY HAZEN MORSE TORONTO

Artificial Gastric Juice.

A WONDERFUL [illegible] proving the [illegible] digestive power of Maltopepsyn. [illegible] egg in a [illegible] much more [illegible] in the stomach assisted by that organ. About twenty times the quantity. Test this for yourself—it is an interesting and useful experiment.

Get from your druggist ten drops of Hydrochloric Acid in a four ounce bottle, fill bottle half full of tepid water (distilled water is best, though soft water will do), then add the finely cut white of a hard boiled egg, then add two doses (30 grains) of Maltopepsyn and shake bottle thoroughly every 15 or 20 minutes, keep the bottle warm, as near the temperature of the body (100° fahrenheit) as possible, and in 3 to 4 hours the egg will be entirely dissolved or digested.

Maltopepsyn is endorsed by the leading Physicians and Chemists throughout the Dominion of Canada.

Send for Pamphlet, 24 pages, giving full treatment of Dyspepsia with the rules of Diet, etc., mailed free upon application by HAZEN MORSE, TORONTO.

Price per bottle, with dose measure attached, 50 cents, contains 48 doses or about one cent per dose.

We have sold the above remedy for several months and find it spoken of very favorably by both the medical profession and the public.

We can safely recommend it to parties needing such a remedy.

Two Wedding Days.

'I'm going, too, just come to wish you joy, Mr. Bert,' said the Sexton, who had known me since I was a lad. 'Sorry I can't see you married. My road's the same as your brother's, so I'll go with him; and off they both hurried, the door shutting with a sharp click behind them.

The time for the arrival of the wedding party drew near; I advanced to the door that opened in the church, designing to open it and peep through. It resisted my efforts. I struggled with it sharply, no use! the door was locked.

Muttering a curse on the stupidity of the sexton, I strode to the outer gate. In shutting the door, it too, had become locked, and was as as fast as fate.

Great drops of perspiration stood out on my forehead. What was to be done? I asked myself the question, and mopped my face with my immaculate handkerchief, but failed to find the answer.

Then I flew back to the inner door and listened. The organ was playing gayly, and a subdued hush told me that Nellie was entering on her father's arm, and here I was standing, caged like a rat.

Oh, how I tried to open that door! My gloves split, and the perspiration ran in rivers down my face and dropped off the end of my nose; but not one inch could I budge it.

I have wondered since how I should looked if I had succeeded in bursting open the door and been suddenly projected before the *creme de la creme*, with limp collar, torn gloves, and distended eyes. I can smile now, but I can assure you I saw no fun in it then.

I tried the door till positively no hope remained in that direction. Then I flew again to the outer door, and pounded, and even shouted, but to no purpose.

Utterly hopeless, I returned to the inner door once more. All was silent. Should I thunder upon its panels and proclaim my presence and demand to be 'let out?' No body likes to look like a fool if he can help it—and I hesitated.

I glanced around. The windows caught my eye—why I had not thought of them? I could at least make my escape, and the ceremony might be delayed, and consequently awkwark; still Nell would not be utterly put to shame. Like the madman I was, I had seized the table, dragged it to the window, sprang upon it, and climbed on to the high and narrow window sill; throwing up the sash, I prepared to leap out; but I had reckoned without my host; the cord that held the weight was broken; and consequently the moment my hand left the sash the window descended with startling rapidity, striking me full upon the head, and knocking me off the narrow sill, dashing my head against the sharp corner of the table, and at last landing me full length upon the floor.

I tried to rise; something warm rushed over my face; I put up my hand to clear my eyes—my hand was covered with blood.

I felt giddy and weak, still I staggered to my feet; then a black mist arose around me, and I knew no more.

This was Thursday eve. Sunday afternoon the sexton, returning to his duties, found me lying upon the floor half dead, wholly delirious, my face covered with blood, and a hole in my head large enough to let the life out of any man. That mine was spared because I had fallen with the wound down, and the soft pile of the carpet acted like lint to staunch the blood.

As soon as I could control my thoughts I begged to know of Nellie. Poor little girl! she had been quite overwhelmed. When I failed to appear Kate's husband rushed out to enquire of the sexton if he had seen me. He was positive that I had been there, and equally positive that I had left again in company with his brother—said he could not be mistaken—both seemed in a great hurry, and had jumped into a carriage and been driven rapidly away.

Messengers were sent to my hotel, but without gaining a clew to my whereabouts; so after a mortifying wait Nellie had been taken home, and the very morning of the day I was discovered the whole family sailed for Europe.

As soon as I was able to stand, I sailed in search of the woman I had so innocently humiliated. Not knowing her whereabouts, it was two months before I found her. At last one evening, wandering on the seashore of a quiet little English town, I espied her—and alone.

That she believed me a most blackened villain was plain, for the look she gave me when she recognized my presence was one of unutterable contempt. Now that I had found her I was determined she should hear the truth.

'Nellie,' I cried, hurrying to her and grasping both her little hands before she had time to escape.

'Well, sir,' she replied, haughtily, trying to, but trying in vain, to free her hands.

'My darling,' I pleaded, 'you will at least hear a man before you condemn him?'

Her face flushed angrily.

'What can you say,' she burst out hotly, 'that will make your conduct less dastardly? Have you not made me the object of every one's ridicule and contemptuous pity? Offering me a public insult no woman could ever forgive! Have you not made me hate everybody, myself most of all? What more do you wish, Bertram Langley, you villain?'

I winced a little at the word, as I thought of my broken head—though God knows I did not blame her, believing as she did.

'Why are you here? And why did you run away?' she demanded, with a whole world of scorn on the words 'run away.'

'I did not run away; I was locked up.'

'Locked up! For what? Where?' cried poor Nell, starting back, a look of horror creeping up into the brown eyes.

I verily believe that she thought for an instant I had added murder to other crimes.

'Why in the vestry,' I explained a little foolishly. 'Come and sit down and let me tell you. I am quite ill yet.'

This was a master stroke. Nell seated herself without demur, and I, half sitting, half lying at her feet, related to her the chapter of my misfortunes.

Dear little girl! her face brightened before I was half through—indeed, I am sorry to say she laughed quite heartily; but she became sober when I told her about the window coming down, and leaned over and kissed the scar on my head tenderly, and I knew that peace and confidence were restored.

After a while we fell to talking over it in a general way.

'It was a dreadful blow to me,' said Nell, pensively; 'By Jove, I thought my head was broken! When that window came down it knocked me higher than Gilderoy's kite! The next time we are married, Nell, I won't be left to dig out of any such ridiculous hole as a vestry; if there are any windows that have got to be jumped out off, we'll hop out together.'

Great was the family wonder to see us walk in together; but everything was all right as soon as explained, and Mr. and Mrs. Bartley consented that Nell and I might be married next day in the quaint little church in the place.

And so we were. I led my bride in myself, and Papa and Mamma Bartley followed soberly behind, and Kate and her husband were all the crowd we had.

A curate, who had a bad cold, officiated, and the time-honored and world-renowned Dickens woman pew opener, shabby, and snuffy, was on hand to make everything romantic and proper.

So this is why we were married without bridesmaids, and had two wedding days.

THE END.

At the approach of spring great attention should be given to purify the system engorged with foul humors during the winter. Burdock Blood Bitters is Nature's own purifying and regulating tonic.

DELAYS are dangerous, particularly in Kidney Diseases, so take at once DR. VAN BUREN'S KIDNEY CURE and obtain relief from all your sufferings. Your Druggist keeps it.

Take no more nauseous purgatives. Burdock Blood Bitters act mildly, pleasantly and thoroughly upon the Bowels, and occasion no inconvenience, while it regulates the Liver and Kidneys and tones the enfeebled system. Trial bottles 10 cents.

AFTER many years of patient investigation DR. VAN BUREN, of Germany, finally succeeded in perfecting a Kidney Cure that would permanently relieve all cases of Kidney Disease. Be sure and ask your Druggist for DR. VAN BUREN'S KIDNEY CURE.

Asthma and Bronchitis Cured.

HALIFAX, N. S., Jan. 1882,

C. M. PUTTNER, Esq., PH. M.:

SIR,—I consider it my duty, not only to yourself, but to my fellow creatures who are suffering from Asthma and Bronchitis, as I had for some time previous to using your "Emulsion of Cod Liver Oil with Hypophosphites," to give my testimony to the most wonderful good effect it had. Having suffered for some time with Asthma and Bronchitis, accompanied with great nervous exhaustion, and having carefully read your Essay on the combination and uses of your Emulsion, I was persuaded to give it a trial, and on using two bottles I began to receive great benefit and relief, and after using three bottles I was completely revived and am to-day perfectly free from either Asthma or Bronchitis, and my nervous system much invigorated and built up. I have found it very pleasant and palatable, and with no taste of the oil whatever, and can with great confidence recommend it to those suffering as I did previous to taking your compound. In conclusion, I consider I owe you a debt of great gratitude for the benefit I have received from your Emulsion and only hope that many may be induced to give it a trial, and receive as great benefit as I have from its use. I am, yours, &c.,

ALEX. STEPHENS, SR.,
Merchant.

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrah, Bronchitis, Asthma and Lung Disease by Dr. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the seat of disease. Read and judge for yourself:—

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. JOHN P. WHELAN, Manager of POST and TRUE WITNESS, Montreal. MR. C. HILL, Montreal, catarrh and bronchitis. MR. DUBOUCHERVILLE, of the Indian Department, Ottawa, catarrh of many years; now cured. MR. GEO. AGER Ottawa, catarrh and lung disease; cured. MRS. SMITH, London, wife of Medical Detective, cured of catarrh. GEO MAGUIRE, Toronto, 482 Adelaide street West; daughter cured of asthma. GEORGE WILLIS, Exeter, Ont., catarrh and bronchitis. J. D. ARMSTRONG, 186 Yonge street, Toronto, catarrh and catarrhal deafness. THOMAS TELFER, 12 Melinda street, Toronto, asthma; cured. MR. BENJ. A. DRAKE, St Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of MRS. BENOIT, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma and bronchitis for over eight years, and who is now perfectly cured.

MRS. ADAMSON, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitating in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis. JOHN C. FLEMING, Editor of POST and TRUE WITNESS, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write, inclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souville and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

UNCONDITIONAL, INCONTESTABLE LIFE POLICIES.

THE objection is often made that the Companies may take advantage of some of the conditions on their Policies, and thus either avoid entirely the payment of claims, or compromise with the widow for a small sum. This argument cannot be used against

THE SUN

LIFE ASSURANCE CO'Y OF MONTREAL,

which issues absolutely unconditional policies to selected lives. There is no restriction of any kind on them. The assured may travel to any part of the world without extra premium. He may change his occupation at will, or do anything else he chooses. The contrast is remarkable with other policies. Ask an agent to show you one; it speaks for itself.

Ayer's
Sarsaparilla

Is a compound of the virtues of sarsaparilla, stillingia, mandrake, yellow dock, with the iodide of potash and iron, all powerful blood-making, blood-cleansing, and life-sustaining elements. It is the purest, safest, and most effectual alterative medicine known or available to the public. The sciences of medicine and chemistry have never produced so valuable a remedy, nor one so potent to cure all diseases resulting from impure blood. It cures Scrofula and all scrofulous diseases, Erysipelas, Rose, or St. Anthony's Fire, Pimples and Face-grubs, Pustules, Blotches, Boils, Tumors, Tetter, Humors, Salt Rheum, Scald-head, Ring-worm, Ulcers, Sores, Rheumatism, Mercurial Disease, Neuralgia, Female Weaknesses and Irregularities, Jaundice, Affections of the Liver, Dyspepsia, Emaciation, and General Debility.

By its searching and cleansing qualities it purges out the foul corruptions which contaminate the blood and cause derangement and decay. It stimulates and enlivens the vital functions, promotes energy and strength, restores and preserves health, and infuses new life and vigor throughout the whole system. No sufferer from any disease which arises from impurity of the blood need despair who will give AYER'S SARSAPARILLA a fair trial.

It is folly to experiment with the numerous low-priced mixtures, of cheap materials, and without medicinal virtues, offered as blood-purifiers, while disease becomes more firmly seated. AYER'S SARSAPARILLA is a medicine of such concentrated curative power, that it is by far the best, cheapest, and most reliable blood-purifier known. Physicians know its composition, and prescribe it. It has been widely used for forty years, and has won the unqualified confidence of millions whom it has benefited.

THE ROYAL INSURANCE CO.

Of England.

CAPITAL	$10,000,000.
Funds Invested	$23,000,000
Annual Income	5,000,000.

Over $600,000 invested in Canada for the protection of Canadian Policy holders.

Farm Property Insured against damage by Lightning. Losses to live stock by lightning and fire anywhere on the Farm made good.

FACTS WORTH REMEMBERING.

The Royal has the largest surplus funds of any Fire Insurance Company in the world.

The Royal has the largest deposit with the Dominion Government of any other Insurance Company.

The conditions of the Royal's Policies are more liberal than those of other Companies doing business in Canada.

In conclusion remember that security should be the first consideration, and that it is to your interest to insure with the Company that gives the *greatest* security. You may better carry your own risk than entrust it where you have not absolute security.

July 13th, 1882. 54dtf

Daily Intelligencer.

Miscellaneous

London is to have four new theatres.

Wendell Phillips will not lecture this season.

Mr. Kerr, a brother-in-law of Lord Dunraven, has purchased a seat in the New York stock exchange.

What we really need is a contemptibly small percentage of that which we are positive we can't do without.

The most biased partisan is always independent enough to draw his own salary for wasting another man's time.

Susan B. Anthony is said to carry two moderate sized trunks instead of a single huge "Saratoga," for fear of adding to the overburdened baggage man's afflictions. How many younger ladies have ever thought of this?

Many Chinese are dying along the Northern Pacific railroad in Oregon of a disease supposed to be scurvy. They employ none but Chinese physicians, hence the exact nature of the disease cannot be learned. They eat no vegetables, and live mostly on salt fish.

Memphis and New Orleans are this season exempt from epidemical diseases, and have but a few cases of sporadic sickness. This comes of extraordinary efforts made to cleanse the two cities. In Memphis an entirely new and extensive system of drainage was adopted and the sewers are kept well flushed. It is the same in New Orleans, where there is a great deal of surface washing and flushing.

The practice of placing the pen behind the ear when not in actual use is ancient. According to Wilkinson, the scribe of ancient Egypt would clap his reed pencil behind his ear when listening to any person on business, as the painter was also in the habit of doing when pausing to examine the effect of his paintings. In the middle ages, also, public clerks and registrars carried a pen behind the ear.

The official report on silk culture in Hungary is regarded as encouraging. It appears that last year's product amounted to 41,537 kilogrammes of cocoons, against 10,182 kilogrammes in the year preceding, the value of the same respectively, being £3,485 and £922. The number of cultivators in the year first mentioned was 2,976, and in the other 1,059. A school for agriculture is to be established under government patronage.

The Montreal *Gazette* complains that at the recent meeting of the American Association for the advancement of science, the language in which all the communications of the association were made was that of science—an unknown tongue to the mass of mankind. The consequence was that the general public gained little if any information from the statements of the scientists who presented papers. Some popular lectures would have done good, and might have inspired not a few with a love of science and scientific methods.

The first and only painting unearthed at Pompeii having for its subject a scriptural incident was discovered and placed in the museum at Naples last month. It is a picture sixty-six inches long and nineteen inches wide, and it represents the Judgment of Solomon. There can be no doubt as to the subject, but owing to the heads of the figures being unnaturally enlarged it is believed by some that it was intended as a caricature to throw ridicule on the Jews and their religion. Others believe that the heads were made large in order better to portray the feelings of the actors by their facial expression.

The Liverpool Mercury's London writer thinks that with one exception London has no equal of Edwin Booth as an actor. This exception is probably Henry Irving, the fashionable dramatic star of the London firmament. Having unlimited means placed at his command, and undivided authority on the Lyceum stage, Mr. Irving has shewn the value of a perfect stage setting and of a performance of equal excellence by all the members of the cast. With these great attractions he has made a conscientious attempt to portray some of the great characters of the stage, and has secured the reputation of artistic power on the strength of his pecuniary success. Nevertheless, while Mr. Irving is a great manager he is not a great actor, and he cannot compare with Booth for genius or talent.

London Society thinks that the following challenge, issued by Lady Butterfield, proves that the women of "the teacup days of patch and hoop" could hold their own at masculine sports: "This is to give notice to all my honored masters and ladies, and the rest of my loving friends, that my Lady Butterfield gives a challenge to ride a horse, to leap a horse, or run on foot, or halloa, with any woman in England seven years younger, but not a day older, because I wont undervalue myself, being now 74 years of age. My feast will be the last Wednesday of this month, April, when there will be good entertainment for that day and all the year after in Wanstead, in Essex." This cartel of defiance to the sex was issued annually; but we have never heard that there was any Amazon who picked up the gauntlet. It was before the time of "Mrs." Thornton, who rode for thousands of guineas and hogsheads of claret, at Doncaster and York, and beat even the 'crack' jockey Frank Buckle himself, otherwise Lady Butterfield might have found a foewoman worthy of her steel in the mistress of the eccentric owner of Thornton Royal.

Women Gaining College Honors in London.

From the London Queen.

The list of candidates who have obtained honors at the recent examination of the metropolitan university has been issued.

In intermediate examinations in medicine no woman's name appears in either sections of anatomy, material medica, chemistry or physiology, but in the examinations in arts and science, more particularly in the sections of modern languages, women are far more successful. The critical study of their mother tongue, however, seems hardly to be so much affected by them as that of French and German although Miss Annie Dawe of Bedford College and Miss Louisa Brown of Cheltenham are in the second and third classes of honors in English. In Latin though no feminine name appears in the first class, Miss Louisa Macdonald of University College heads the second, and Miss Helen Pattison of the same college, and Miss H E. Macklin of Bedford are in the third.

In the French and German, however, the ladies more than hold their own. Miss Marguerite D. M. Goldschild of Bedford College is first of the first division in French, carrying off also the extra prize, and in the third class are the names of Miss C. Rickett of Bedford College, Miss Adelaide Klein, and Miss E. Macklin, both of Queen's College, and Miss Edith M. Pope. In German again the list is headed by a lady, Miss E. A. S. Dawes, and Miss Macklin of Bedford College is in the third class.

In the science subjects that are not strictly medical, the name of one lady, Miss Elizabeth F. Toone, appears in the third class of honors in organic chemistry, while in experimental physics Miss Edith Aitken, of Girton, is in the second class, and Miss Toone and Miss C. M. Pele of Bedford College in the third. Honors in botany fall to the share of but two ladies; Miss Aitken, who is in the first class, and Miss Isabel Clare Evans of Mason College, Birmingham, in the second, while the zoological honors are all taken by men.

In the mathematical honor list the names of women do not appear, nor in that for zoology. In science generally the female students can hardly be said to be pre-eminently successful, while in modern languages other than English they have secured far more than an average proportion of the honors due to their numbers.

To the doctrinaires who maintain the absolute identity of the intellectual powers in the two sexes, the publication of these results must be the reverse of gratifying; while to those who recognize the rapid perception and great intellectual acuteness of well trained girls, the list will not be surprising. That they should not be equal to them in abstract or practical science will disappoint no one, except those crotchety individuals whose conclusions can hardly be excused, even on the ground of their want of experience.

Unlike other cathartics, Dr. Pierce's "Pellets" do not render the bowels costive after operation, but, on the contrary, establish a permanently healthy action. *Being entirely vegetable* no particular care is required while using them. By druggists.

The Chinese wall is the largest wall in the world. It was built by the first emperor of the Tsin dynasty, about 220 B. C., as a protection against Tartars. It traverses the northern boundary of China, and is carried over the highest hills, through the deepest valleys, across rivers and every other natural obstacle. Its length is 1,250 miles. Including a parapet of five feet, the total height of the wall is twenty feet, thickness at the base twenty five feet, and at the top 15 feet. Towers or bastions occur at intervals of about 100 yards.

The manufacturer of the Charm Baking Powder, Mr. Rohrer, 125 Locust street, St. Louis, Mo., says that St. Jacobs Oil cured his wife of chronic neuralgia in one night, after ineffectual treatment by the ablest physicians

As a cure for all diseases of the Lungs, DOWNS' ELIXIR has no equal.

Rheumatism is greatly dependent on a vitiated condition of the fluids, and may be eliminated from the system by cleansing the Blood and regulating the Kidneys. Burdock Blood Bitters will do this most effectually. Trial bottles 10 cents.

RACKED BY INNUMERABLE PANGS, restless by day, sleepless at night, rising unrefreshed in the morning, without appetite and pestered by varying and perplexing symptoms, the dyspeptic takes indeed a gloomy view of human existence. For him the zest of life seems gone. Heartburn, oppression at the pit of the stomach, and the attendant annoyances of of constipation and biliousness, combine to render him utterly wretched. But there is, if he will but take advantage of it, a reliable source of reliable relief from all misery. NORTHROP & LYMAN'S VEGETABLE DISCOVERY and DYSPEPTIC CURE is, as its name imports, a botanic preparation, free from mineral poison, and an all-sufficient remedy for indigestion in its most obstinate form. It not only enriches the blood by enabling the digestive organs to convert the food received into nutriment, but depurates it by increasing the action of the bowels and kidneys, the natural outlets for its impurities. But while it relaxes the bowels, it never does so violently and with pain, like a drastic cathartic. It aids, but never forces, Nature, invigorating as well as purifying and regulating the system. It thoroughly removes those diseased humors which tend to vitiate the blood, purifies the urinary secretion, and promotes a flow of healthy bile into the natural channel, besides expelling it from the circulation. Experience has proved that this standard medicine is a thorough remedy for dyspepsia, biliousness, costiveness, kidney complaints, scrofula, erysipelas, salt rheum, lumbago and all impurities of the blood. Price $1.00. Sample Bottle 10 cents. Ask for NORTHROP & LYMAN'S Vegetable Discovery and Dyspeptic Cure. The wrapper bears a *fac-simile* of their signature. Sold by all medicine dealers

Samson lost his strength with his hair. Thousands of men and women lose their beauty with theirs, and very large numbers restore the ravages of time by using the famous Cingalese Hair Restorer. Sold at 50 cents per bottle by all Druggists.

Rest and Comfort to the Suffering

"Brown's Household Panacea" has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful," "Brown's Household Panacea," being acknowledged as great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle. 264ly

"THE BEARE IS A BEASTIE," says a quaint old book, published in London three centuries ago, "whose flesh is good for mankynd; his fat is good, with laudanum, to make an ointment to heale balde-headed men to receive the hayre agayne." We know of many "balde-headed men" who would be glad to "receive the hayre agayne," but we do not desire to encourage them in a trial of Bear's fat and laudanum. Far from it. We, however, do not hesitate to commend Dr. J. C. Ayer & Co.'s Hair Vigor, which not only has the effect in some cases of making the hair grow on heads once bald, but cleans the scalp and restores gray and faded hair to its original color and vitality, imparting to it the glossiness and softness of youth. The evidences of its utility are too numerous and of too high a character to admit of any doubt. It required years of study and scientific experiment to decide upon the combination of ingredients that would accomplish what Ayer's Hair Vigor now does. —*The Interior, Chicago, Ill.*

Asthma and Bronchitis Cured.

HALIFAX, N. S., Jan. 1882.

C. M. PUTTNER, Esq., PH. M.:

SIR,—I consider it my duty, not only to yourself, but to my fellow creatures who are suffering from Asthma and Bronchitis, as I had for some time previous to using your "Emulsion of Cod Liver Oil with Hypophosphites," to give my testimony to the most wonderful good effect it had. Having suffered for some time with Asthma and Bronchitis, accompanied with great nervous exhaustion, and having carefully read your Essay on the combination and uses of your Emulsion, I was persuaded to give it a trial, and on using two bottles I began to receive great benefit and relief, and after using three bottles I was completely revived and am to-day perfectly free from either Asthma or Bronchitis, and my nervous system much invigorated and built up. I have found it very pleasant and palatable, and with no taste of the oil whatever, and can with great confidence recommend it to those suffering as I did previous to taking your compound. In conclusion, I consider I owe you a debt of great gratitude for the benefit I have received from your Emulsion and only hope that many may be induced to give it a trial, and receive as great benefit as I have from its use. I am, yours, &c.,

ALEX. STEPHENS, SR.,
Merchant.

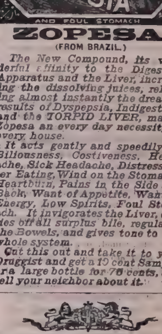
BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, bloches, pimples and the various humors and blemishes of the skin are only symptomatic of bad blood—that needs purifying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidneys, skin, etc, and strengthening while it regulates and purifies.

Mothers! Mothers!! Mothers!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle. 24ly

☞ The most wonderful curative remedies of the present day, are those that come from Germany, or at least originate there. The most recent preparation placed upon the market in this country, is the GREAT GERMAN INVIGORATOR, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangements of the nervous system. For sale by druggists, or sent free by mail on receipt of the price, $1.00 per box, or six boxes for $5.00. Address James Clark & Co., Sole agent for Belleville. Send for circular.

CINGALESE. A name well known in connection with the HAIR RENEWER, which restores grey hair to its natural color by a few weeks use. Sold at 50 cents per bottle by all Druggists.



ZOPESA.

(FROM BRAZIL.)

The New Compound, its wonderful affinity to the Digestive Apparatus and the Liver, increasing the dissolving juices, relieving almost instantly the dreadful results of Dyspepsia, Indigestion, and the TORPID LIVER, makes Zopesa an every day necessity in every house.

It acts gently and speedily in Biliousness, Costiveness, Headache, Sick Headache, Distress after Eating, Wind on the Stomach, Heartburn, Pains in the Side and Back, Want of Appetite, Want of Energy, Low Spirits, Foul Stomach. It invigorates the Liver, carries off all surplus bile, regulates the Bowels, and gives tone to the whole system.

Cut this out and take it to your Druggist and get a 10 cent Sample, or a large bottle for 75 cents, and tell your neighbor about it.

A MASS MEETING

—OF THE—

Friends and Supporters of Mr. Rose,

In the contest for the representation of West Hastings in the Ontario Legislature will be held in

The Liberal-Conservative Rooms, Intelligencer Building,

—ON—

FRIDAY EVENING, SEPT. 29TH,

AT 7:30 P. M.,

For the formation of Committees and arranging for the work of the compaign.
LET THERE BE A GRAND RALLY.

Daily Intelligencer.

BELLEVILLE, WEDNESDAY, SEPT. 27.

West Hastings.

THE CONTEST OPENED—MR. ROSE THE CONSERVATIVE CANDIDATE.

The result of the meeting of the Conservative delegates appointed to choose a candidate for the vacant seat in the Legislature for West Hastings, was the selection of BALTIS ROSE, Esq., of Sidney as the standard bearer of the party. The meeting, together with that of the Conservative Association, which immediately followed it, was one of the most respectable and one of the most strongly representative political gatherings that we have ever attended, and its choice was an exceedingly happy one. It had been generally expected, since Mr. Robertson vacated the seat, that Mr. Rose would be chosen as his successor, because it was generally conceded that no other Conservative out of Parliament had such strong claims upon the party or was so popular with the electors. For nearly twenty years Mr. Rose had served the public. Thirteen times was he elected Reeve and twice Deputy Reeve of the Township of Sidney, and once had he occupied the honorable position of Warden, after filling which office he voluntarily retired. Although Mr. Rose has all his life been a Conservative—having in 1842 cast his first vote for the late Hon. Edmnd Murney—although he was at times opposed by highly popular men of the opposite party, and although Sidney was a Reform township, yet he was never defeated. This was the highest sort of testimony, from those who knew him best, to the honesty, the ability, and the sterling worth of Mr. Rose that man could receive, and we have no doubt that the contest in which he has now engaged will result, as all others to which he was a party have done, namely in a glorious victory. The party are proud of their candidate, and well they may be.

That Mr. Rose will receive the hearty support of his party in all parts of the Riding, and of many Reformers as well, we are fully assured. From a local standpoint Trenton, which has never had the representation, had undoubtedly a strong claim, and put forth a worthy and able claimant to the suffrages of the delegates in Mr. G. W. Ostrom, its popular Reeve. The personal claims of Mr. Rose overpowered mere local considerations; but Trenton's claims will beyond doubt be recognized at an early day. Meanwhile the large vote which Mr. Ostrom received in the Convention shows that he is highly popular, and on a future occasion, should he again be chosen on behalf of the rising town of Trenton, his chances of receiving the nomination will amount almost to a certainty. Mr. Ostrom and the other delegates from Trenton showed the manly stuff of which they are made and their loyalty to the party by proposing and seconding the resolution to make the nomination unanimous, and pledging themselves to work heartily to secure the return of the gentleman chosen by the Convention—an act of self-denial which redounds strongly to their credit. That their fellow townsmen will follow their example we have not the slightest doubt.

It is necessary, in order to secure a decided victory, that Mr. Rose's friends should at once organize thoroughly in every part of the riding. There is every incentive for this that could be desired, namely a candidate in every respect acceptable, a righteous cause, and a sure prospect of success, provided due and proper exertion be made. Let us, then, Conservatives of West Hastings, unite and put down deceit, hypocrisy, extravagance, and tyranny veiled under the specious title of "Reform." Belleville will commence the work of organization on Friday night, and no doubt Sidney and Trenton will speedily take similar action.

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists.

COUGHS AND COLDS.—If taken in time are easily cured,—if allowed to continue will result in incurable consumption. Allen's Lung Balsam has the confidence and support of the medical faculty, and is recommended by all who are acquainted with its virtues.

Sure, safe and effectual, that old remedy, DOWNS' ELIXIR, for the cure of Coughs and Colds.

"Marmion."

Mr. Crooks is "catching it" on all hands, and deservedly so, because of his stupid bigotry in decreeing that Marmion shall not be used as a text book in the examinations. The Independent press are particularly severe on the Minister of Education. the Toronto *Telegram* says

> No doubt the real reason for the suppression of Marmion was not that it was immoral, but that it reflected upon Rome. But there is no book of a historical nature that was ever printed that did not reflect upon somebody. What is as good proof as any that there is nothing in Marmion that any thinking Catholic would take exception to is the fact that the editor of the *Mail*, evidently speaking for Catholics, ridicules the idea of such a thing, and says that Scott was "never offensive to any Roman Catholic who had even an average education or an intellect above the level of a poodle." We shall probably next hear of the Minister of Education suppressing Shakespeare, because he reflects upon Richard the Third.

The *World* is equally emphatic. It concludes a judicially impartial article as follows:

> It should be borne in mind, that if English literature is to be studied at all in high schools and colleges, the process of expurgation of texts must be constantly resorted to if all allusions to illicit love are to be omitted. It is possible for us as a people to become insufferably prurient about such matters. On the same grounds as to "Marmion," exceptions might be taken to Tennyson's "Idyls of the King," to several books of "Paradise Lost," and to almost every one of Shakespeare's plays. Where is this process of selection to end? And is it to be applied to Latin and Greek, and French, and German, as well as English writers? The line must be drawn somewhere, and we know of no good reason for placing "Marmion" in the "Index Expurgatorius."

To all of which it may be added, that if every book which depicts vice in order to show its hideousness, and completes the moral lesson by pourtraying virtue rewarded, is to be banished from our schools and colleges, then even the Bible will have to go, and Crooks or some other person of the same intellectual calibre will have to write the namby-pamby stuff which, to Mr. Crooks' overstrained ideas of morality, shall appear to be moral and proper, and therefore fit to be placed in the hands of the youth of the country. We do not think the people wish to have their educational interests placed in the care of such hypercritical individuals as Mr. Crooks. They would prefer a permanent, non-political head for the Education Department.

Catarrh of the Bladder.

STINGING irritation, inflammation, all Kidney and Urinary Complaints, cured by "Buchupaiba." $1.

To the Editor of the Intelligencer.

DEAR SIR,—It may be interesting to the readers of your valuable journal to learn of the works that are in progress at and around Chisholm's rapids—works that are the harbinger of adding to the commercial extension of progressive Canada. The canal and locks that had their origin as early as the year 1837, are now being thoroughly overhauled to meet the demands for opening of the Trent Valley navigation, which will extend from the Bay of Quinte to Midland Bay, on Lake Huron. The completion of the works at Chisholm's Rapids is under the control of Mr. Thos. Croly, of Peterboro', the old veteran, well noted as an able and efficient man, a contractor of public works for many years. As far as Government works are concerned his superior knowledge and experience have always given satisfaction at headquarters.

The Central Ontario R. R. that is in progress through this place, from Weller's Bay, in the County of Prince Edward, is being prosecuted with vigor. A large number of men are employed between Frankford and this place. A magnificent iron bridge, with stone piers, is being erected over the Trent River at this place, by the contractors, Messrs. Hendershot & Irwin. They are the right men in the right place, as from observation their progress and energy are enviable. It is without doubt that the completion of this road will not only tend to the development of the mineral region of the North Country, but add extensively to the commercial progress and unknown wealth of Northern and Central Ontario.

I learn that this portion of the County of Hastings is to undergo the turmoil of of another election, but if all the fuss and feathers that will attend it, would add through the Mowat Government the same prosperous times, splendid wages and development of our natural resources as the Macdonald *regime* offers, it would be a happy augury to Canadian prosperity.

VERAX.

Don't die in the House.

"Rough on Rats." Clears out rats, mice, roaches bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

Sporting Notes.

The *Whig* will have it that the Emma is a faster yacht than the Katie Gray, but the record shows the contrary. These yachts have met six times, and the Katie Gray has won four out of the six races, namely: At Toronto and Belleville in 1879, both won by the Katie In the annual regatta, of 1880 at Belleville, and in a match the day following; both won by the Katie. In 1881 and 1882 at Kingston and Toronto the Emma won Granting that the 1879 race at Toronto was virtually won by the Emma, that of this year at the same place was virtually won by the Katie, which lost 25 minutes at the start, and was beaten less than 3 minutes. Our estimate, formed from the record of these, the two fastest crafts on fresh water, is that in standing ballast races the Katie Gray is the fastest, and that the Emma can beat the Katie under their present rigs, in shifting ballast contests, owing to the former's much larger spread of canvas. It must also be remembered that for three years past the Katie Gray, when racing, always leaked very badly, which leak was discovered and stopped this season.

By mutual consent the matches between Edward Hanlan, the champion, and Kennedy and Ross respectively, have been postponed until June, 1883.

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinary or Liver Diseases, as they only relieve for a time and make you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

—The practical engineers who examined the machinery of the *Richelieu* report that the explosion which resulted in the loss of four lives was caused by the defective condition of the water jacket and check valve. The machinery generally showed great negligence.

O. Bortle, of Manchester, Ontario Co., N.Y. writes:—"I obtained immed[illegible] the use of *Dr. Thomas' Eclectr*[illegible] had Asthma for eleven years. [illegible] obliged to sit up all night for ten or twelve nights in succession. I can now sleep soundly all night on a feather bed, which I had not been able to do previous to using the Oil."

Nervous debility is a result of indiscretion in the mode of living. Heed nature's unerring laws and take Burdock Blood Bitters, the Great System Renovator and Blood, Liver and Kidney regulator and tonic. Sample bottles 10 cents.

One dose of BAXTER'S MANDRAKE BITTERS will relieve Sick Headache. One bottle effects a cure. Price 25c. per bottle.

WEST HASTINGS ELECTION

Mr. Baltis Rose Chosen as the Candidate.

Enthusiastic Endorsation of His Candidature.

A meeting of the Liberal Conservative delegates appointed to choose a candidate for the Legislature for West Hastings was held in their rooms, in Belleville, on Tuesday, the 26th inst.

The delegates having been called to order, the following gentlemen were nominated:—

BALTIS ROSE, of Sidney, nominated by Clement Armstrong, seconded by Angus McFee.

G. WELLINGTON OSTROM, of Trenton, nominated by Henry Gill, seconded by James A. Orr.

Those were the only names submitted to the Convention, and on the ballot being taken, it was found that there was a majority in favor of Mr. Rose

MR. OSTROM moved to make the nomination unanimous, and in doing so said he had a strong personal regard for Mr. Rose, for whom he would have wished a unanimous vote, but at the request of his friends he had allowed his name to be voted on. He urged unanimity in order to secure a large majority, and said he would go home to Trenton and ask his friends to acquiesce in the decision of the Convention, which they would, beyond doubt, loyally do. Mr. Ostrom's excellent speech was loudly applauded.

MR. CORNWALL, of Trenton, seconded the motion, saying Trenton was a rapidly growing place and, sooner or later, would urge its claims to the representation. At present he was content to support the nominee of the Convention.

Hon. ROBT. READ, who acted as Chairman, agreed with Mr. Cornwall as to the claims of Trenton, and said that fine town had always been loyal to the Conservative party, and her claims would be recognized in the near future. He spoke of Mr. Rose's fidelity to his party, and said that gentleman's claims upon the party were stronger than those of any other man. He had always been trusted by his neighbors with the charge of their public affairs, and he (Mr. Read) predicted that Mr. Rose would prove as good a representative in the Legislature as he had done in the County and Municipal Councils.

The resolution was then put and carried unanimously, and the meeting of the delegates adjourned *sine die*.

The Association then met, and the report of the delegates was pro[illegible]ed and adopted, on motion of Mr. Ostrom.

The Chairman then tendered the nomination to

Mr. ROSE, who was received with loud applause. He said he thanked them warmly for the honor conferred on him. He had always been a Conservative, and his principles strengthened with age. He would accept the nomination, and felt sure they would support him up to the close of the polls. He asked their aid in the contest, and if he were elected, and at the close of his year of service they found anything wrong, he hoped they would choose another man in his place. He had always been a Conservative, his first vote having been given for the late Hon. Edmund Murney. He placed himself in their hands, and would by all lawful and manly means try to succeed, and he believed he would succeed. It might be that Trenton felt that her claims ought to have been recognized on this occasion, but he would say this, that he would not prove untrue to Trenton's interests. Mr. Rose resumed his seat, after a few further equally happy remarks, amidst loud applause.

MR. K. GRAHAM stated that he expected a large majority for Mr Rose in Sidney. He opposed the Mowat Government for their interference in Dominion affairs, thus violating their principal of neutrality between the Provincial and Dominion Governments, which they had laid down. They had been extravagant in increasing the pay and the number of members, thus violating another of their principles. They had filled the Cabinet with lawyers, five out of the six of the heads of departments being lawyers, thus violating another of their principles. They had also violated another principle by appointing members of the Legislature to office. In no way had they carried out their principles. Mr. Ostrom was worthy of their support; had he been chosen he (Mr. Graham) would have taken off his coat, and gone to work for him As to Mr. Rose, he did not know how to do a mean act. He urged all to go to work and crush out deceit and hypocrisy. Trenton need not fear for her interests in Mr. Rose's hands and he would say that Mr. Ostrom would yet be the candidate of the party in the time to come. Mr. Graham concluded an able and stirring speech amidst applause.

The Convention then adjourned.

News Condensed.

—Smallpox is raging at Capetown.

—King Cetewayo has arrived at Capetown.

—The estimated yield of corn in Kansas this year will be 150,000,000 bushels.

—J. Parrot & Son, Camden East, are erecting a factory for the manufacture of sorghum syrup.

—2,500 cans daily is the out-put of the Picton canning factory. Large quantities of apples are being dried.

—It is announced that the writs for the local bye-elections in Laval, Vaudreuil, and Two Mountains will be issued shortly.

—There is now a row in the Treasury Department at Washington over the promotion of fifty colored clerks. The white gentlemen are indignant.

—Mr. Bernard McNamee, of Lansdowne, having taken the first prize for butter at the Provincial show, is voted the champion butter maker of the district.

—Chief Samson Green (Annosothkoe), of Deseronto, was elected President of the Grand Indian Council at its recent session at the Grand River reserve.

—The differences betwen engineers on the Gould railroads and officials of that system have been settled, the engineers securing an advance over old rates.

—The druggists in Iowa are allowed to sell alcohol "for artistic purposes," and some of the old topers get it under that excuse in order to paint their noses.

—Frank Rogers, a young man who left Kingston, N.B., recently, for the United States, is supposed to have been murdered near North Stratford, N.H.

—Mr. Gideon Mastin, of Picton, has shown the largest melons in that section. One specimen of a water-melon measured 3 ft. around, and 3 ft. 7 in. over the ends.

—La Banque Nationale has decided to pay no dividend on the stock for the current half year. The usual payment would have been on the first of November next.

—The French topographical expedition has been attacked by marauding tribes near Kairouan, Tunis, and the commander killed and seven men disabled. Thirty brigands were killed.

—There is said to be a Mormon settlement near Hagerstown, Md., composed of natives who have been converted by Mormon missionaries. Though strong in that faith they respect the State laws relative to polygamy.

*The term *hydra* may be used to represent any manifold evil. If you would battle successfully with this many-headed monster of disease you will find it expedient to keep Mrs. Pinkham's Vegetable Compound always at hand.—*Dr. Banning.*

The Kingston and Pembroke railroad is progressing satisfactorily. Construction is being pushed betwen Clydon and Calabogie Lake, and is expected that trains will run through to within fifteen miles of Renfrew by this time next year. The heaviest work on the road is filling in Calabogie Lake, which will cost $100,000, the lake being upwards of a mile in length

"," "Do boldy what you do at all." Boldly do we affirm that Kidney-Wort is *the* great remedy for liver, bowels and Kidney diseases, rheumatism and piles vanish before it. The tonic effect of Kidney-Wort is produced by its cleansing and purifying action on the blood. Where there is a gravelly deposit in the urine, or milky, ropy urine from disordered kidneys, it always cures.

THE ASIA DISASTER.—The investigation into the loss of the *Asia* before Captain Scott, N.N., the Government Commissioner commenced at Collingwood on Tuesday. Important testimony was presented regarding the steamer and her equipment; also the force and direction of the hurricane in which she foundered. The Manager of the Great Northern Transit Co. was called but could give little testimony concerning the vessel, and had never bored her to ascertain whether she was seaworthy or not, and as he had never seen her certificate did not know how many passengers she was certified to carry. Former members of the crew of the *Asia* were called and testified to her build and career, and one of them thought that her upper works showed signs of weakness and that as a rule the upper works of the steamers plying on the upper lakes are defective in construction. A former master testified that the lost vessel when deep in the water did not answer her helm as she should have done. The opinion was also offered by another witness that she was too high out of the water to be a good seagoing boat.

PEARLS.—Get your mouth full by using "TEABERRY," the new wonder for the Teeth and Breath. Brush vigorously. See directions. 5 cent samples.

"READING NOTICE."

"Twenty-four years' experience," says an eminent Physician, convinces me that the only cure for "Nervous Exhaustion" and weakness of the generative organs is to repair the waste by giving Brain and Nerve Foods, and of all the remedies I have used Mack's Magnetic Medicine is the best. This remedy is now sold by all our Druggists at 50 cts. per box, or 6 for $2.50, and on receipt of an order for 12 boxes, accompanied with $5.00, addressed to Mack's Magnetic Medicine Co., Windsor, Ont., they will forward the goods free, by mail, and send their "written guarantee" to refund the money, if the treatment does not effect a cure. See adv't in another column. Sold in Belleville by Jas. Clark & Co

Hall's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by Jas. Clarke & Co., Belleville, Ont.

Dropsy is essentially a watery condition of the Blood, dependent upon disordered Kidneys. Burdock Blood Bitters are strongly Diuretic and consequently the best known remedy, acting as it does upon the entire Secretory System.

PROCLAIM it far and wide that DR. VAN BUREN'S KIDNEY CURE not only immediately relieves all Kidney diseases, but what is more important to the unfortunate sufferer, will ultimately cure him effectually.

Daily Intelligencer.

BELLEVILLE, WEDNESDAY, SEPT. 27.

City and Vicinity.

The police station slate was clean again this morning.

Costello's fall opening of millinery and dress goods will take place on Tuesday Oct. 3rd.

The case of A. Parent, of Trenton, charged with selling liquor during prohibited hours, was dismissed by the Police Magistrate this morning.

Peterborough boasts that she is ahead of Belleville in many respects. She certainly leads Belleville in one respect this year: there was a snow-storm there yesterday afternoon.

In addition to the prizes taken at the Provincial Exhibition by local exhibitors, which we published yesterday, Mr. G. A. Brown took several prizes for carriages of different styles.

The Voters' List Court for Thurlow has been adjourned peremptorily to Canifton Town Hall, Friday morning at 10 o'clock. The Judge warned all those interested to be in attendance, otherwise their names would be struck off the list.

A wedding took place in St. Thomas' Church this morning, the contracting parties being Mr. Robt. Wray, of Port Huron, and Miss I. MacWhirter of this city. Rev. Mr. Burke performed the ceremony, which was witnessed by a large number of the friends and relatives of the bride.

Exhibitors at the Agricultural and Horticultural Exhibitions to-night and tomorrow are busily engaged in arranging their exhibits in the building this afternoon. It is probable that there will be an unusually fine display of fruits and flowers. The exhibition will open to-night at 7 o'clock.

Lazier & Meyers have a rather novel attraction in the show-window of their fur store. This is nothing less than a bear-cub about 6 months old. The little fellow is not only live, but lively, and walks up and down behind his bars as though his one object in life was to take exercise. He attracts a great deal of attention from passers-by.

Mr. D. W. McDermid, teacher at the Deaf & Dumb Institute, is about to leave that institution, having been offered (and accepted) a similar, but much more lucrative, position in the State Deaf & Dumb Institute of Iowa, which is situated at Council Bluffs in that State. When he goes, the Institute will lose a good teacher and many persons, both in the Institute and in the city, will lose sight of a friend.

The following receipt for tomato soup is going the rounds of the press, and will doubtless be interesting to housewives at this season:—Take one dozen of thoroughly ripe tomatoes, peel them and put them into two quarts of water. Let them boil for a short time, and, before taking them off the fire, put in about one half teaspoonful of baking soda. When it is done frothing take off the scum and add one quart of fresh milk, the size of an egg of butter, four or five crackers rolled fine and sufficient pepper and salt to flavor. Serve hot and you have the genuine tomato soup, which resembles the best oyster soup so closely that a difference can hardly be observed.

Weather Probabilities—Toronto, Sep. 27.—Lakes, easterly winds, fine weather, stationary or higher temperature.

The English Church at Shannonville will hold an excursion to Massassaga Point tomorrow. The *Nellie Cuthbert* will make a trip from the city to the Point at 3 p. m., for the accommodation of those who may wish to meet the excursionists.

Two gentlemen from New York were in the city to day on a mission which is very important to this part of the country. They are agents of an American Transit Company, and this object is to describe the Bay of Quinte district both with pen and pencil with a view to establishing a regular tourists' route. They say that this part of the country is pratically a *terra incognita* to the bulk of American tourists, and their object is to make it known, recognising the fact that, when the Murray Canal is opened, the Bay of Quinte will offer unsurpassed attractions for summer tourists. So it is likely that in the beautiful solitudes of our bay, the crack of the sportsman's gun will soon give place to the laughter and chatter of our American cousins, who will "take them in" in the course of their summer tour.

W. T. A.—At a meeting of the Workingman's Temperance Association, held last Tuesday evening, the following brethren were elected as office bearers for the ensuing quarter:—

President, Bro.	W. Jeffers Diamond.
1st Vice do. "	P. Murphy.
2nd " " "	Thos. Seal.
Rec. Sec'y. "	H. White.
Fin. " "	W. B. Walker.
Treasurer, "	Hugh Walker.
Conductor, "	P. Harrison.
Ass't. do. "	P. Servias.
Warden, "	D. Urquhart.

The meetings of this Association are held every Tuesday evening in their Hall, in the Robertson Block.

Before purchasing Ready made Clothing be sure and look through Hennessy's stock. He has over 300 suits in all, and is offering them at actual cost.

Belleville Cheese Market.

Belleville, Sept. 27, 1882.

There has been nothing done in cheese during the past week, no sales being made that we have heard of. On Saturday last 11c for September and 11½ for balance of season was offered, but without inducing trade. The cable stands to-day at 55s. 6d. against 61s. last year and 64s. the year previous. There was nothing done in the Ingersoll market yesterday.

Agricultural Fairs.

West Hastings, at Belleville, Sept. 27 and 28.

East Hastings, at Thrasher's Corners, Oct 4.

Dungannon and Faraday, at L'Amable, Oct. 18

Central, Guelph, Oct. 3 and 4.

West Peterboro, Peterboro' Oct. 3 and 4.

Lennox, Napanee, Oct. 4 and 5

East Peterboro, Norwood, Oct. 10 and 11.

Cheese Fair, Woodstock, Oct. 11 and 12.

Prince Edward, at Picton, Oct. 5.

Murray, at Wooler, on Wednesday, Oct 18.

Tyendinaga, at Shannonville, Saturday, Oct. 7.

Hungerford, at Tweed, Oct. 11

North Hastingt, at Garner's Tuesday, October 10.

Ameliasburg, at Roblin's Mills, Saturday, October 14.

Hallowell, at Bloomfield on 7th October.

Sophiasburgh, at Demorestville Oct. 10th.

A Minister's Death.—The *Whig* says:—"Last week a horse owned by the Rev. Stephen Winter, Canadian Methodist minister at Arden, ran away. The owner was thrown out and sustained injuries which resulted in his death. The deceased was much beloved by his flock. He was an Englishman who came to Canada about five years ago. He was stationed at Vennachar for three years, then at Arden. He leaves a widow and four small children. It is Mrs. Winter's intention to return to England if sufficient funds can be secured. She is the recipient of sympathy from all classes."

Honors all Round.—The appreciation of the services of Earl Dufferin in his arduous position as Ambassador at the Sultan's Court has been marked by the bestowal of a marquisate upon him. This mark of favor is especially pleasing to the British public, who are tickled by the easy manner in which Lord Dufferin outwitted those masters of diplomacy, the Sultan's advisers. Baron Wolseley will also receive the Grand Cordon of the Order of Osmanli at the hands of the Khedive. The restored ruler has been received with apparent joy by his subjects, and drove through the streets of Cairo on Monday evening to witness the illumination in honor of his restoration. He still refuses, however, to admit implicated Pashas and Beys to his presence. The settlement of the Græco-Turkish frontier question is also announced.

—The St. James Street Methodist Church, Montreal, is to give way to commerce. The present edifice is for sale, and a new building will be erected on St. Catharines street.

—A sergeant of the 39th Battalion at Niagara, named McLim, committed suicide by hanging at an early hour on Tuesday morning, it is supposed while he was delirious. The deceased was suffering at the time from congestion of the lungs.

—The exciting libel case of McNamee against the *Evening Post* was begun at Montreal on the 26th. Sixty winesses, including the Premier, Sir John Macdonald, Sir Alexander Campbell, Sir Francis Hincks, ex-Minister, and other statesmen were summoned.

—Mr. Meredith delivered a vigorous speech on Tuesday night at the inauguration of the Liberal-Conservative Association reading-rooms at St. Thomas. The leader of the Ontario Opposition defined the policy of the Conservatives of this province in the event of the return of the party to power at the coming election, and was repeatedly and enthusiastically cheered.

—At Osgoode Hall on Tuesday an order *nisi* was granted to set aside the petition in the West Hastings election case on the old ground of want of competent jurisdiction in the High Court of Justice to hear it. The argument on the preliminary objections in the North York and West Huron cases stands till next Tuesday. The argument in the North Wentworth case stands till Friday.

—H.M.S. *Northampton* has arrived at Halifax from the wreck of H.M.S. *Phœnix* at East Point, P.E.I., bringing all the officers and crew of the wrecked vessel. When the *Northampton* left the wreck Sunday the vessel was still standing. All the guns, stores and materials had been saved and the vessel's propeller and rudder recovered. The wreck is filled with water. The engines are still in the vessel. H.M.S. *Contest* was left at East Point.

Excellent reasons exist why *Dr. Thomas Eclectric Oil* should be used by persons, troubled with affections of the throat or lungs, sores upon the skin, rheumatic pains, corns, bunions, or external injuries. The reasons are, that it is speedy, pure and unobjectionable, whether taken internally or applied outwardly.

A New Principle.

The principle upon which Putnam' Painless Corn Extractor acts is entirely new. It does not sink deep into the flesh, thereby producing soreness, but acts directly upon the external covering of the corn, separates it from the under layer, removes the direct pressure from the part, and at once effects a radical cure, without any pain or discomfort. Let those who are suffering from corns, yet skeptical of treatment, try it, and by the completeness of the cure they will be ready to recommend Putnam's Painless Corn Extractor to others. Sold by W. B. Carmichael.

Fall Opening.

Brignall & Thompson.

All that taste and art could do, in the arrangement of a great quantity of rich, showy and elegant materials, was done to make the establishment of Messrs. Brignall & Thompson attractive and striking on the occasion of their "fall opening" this morning; and the spectacle which presented itself, even to the uncritical gaze of a man, was one which the eye lingered on with pleasure. As usual, the millinery show-room was the centre of attraction. Here all the latest, most fashionable, and most beautiful hats and bonnets which the milliner's art could produce were on exhibition. A noticeable feature in the trimmings was the great use which was made of birds; hardly a hat or bonnet was to be seen which did not have either a whole bird or the breast, wings or head of a bird, on the brim. Among the most conspicuous specimens of millinery the following may be particularly noted:—A large black hat with beaver crown, drooping ostrich plume and a bird of paradise; a white plush hat, with two bright humming birds nestling cunningly on the brim; a sapphire plush hat with pheasants' breasts in front; a seal-fur bonnet with a saucy looking pheasant's head peering out in front; a drab fur hat with large ostrich plumes and brown plush trimmings; a bronze beaver with marabout facings, and trimmed with pheasants' and woodcocks' feathers; but the *chef d'ouvre* of the display would possibly be considered by many to be a massive hat of velvet of the peculiar color known as "London smoke," with a sea-bird lying flat along the brim. This last mentioned bit of millinery is from the establishment of the celebrated Parisian milliner M'me. Cotel. The display of feathers, flowers, ribbons, &c., in the show rooms is of course exceedingly rich and varied. One notable feature is the prominence of the new color, "cadet blue," which is to be seen on every hand and in every kind of trimming.

The most attractive object in the mantle department is a mantle from Worth's, of silk brocade trimmed with plush and chenille passementerie, and lined with bronze satin. This beautiful garment will probably go to Winnipeg, it having been seen, admired and partly bargained for by a lady who is going to the Heart City.

The brocaded velvets and satins, figured and embossed plushes, and delicate-shaded Satin-de-Lyons, will be lovingly and admiringly regarded by feminine visitors.

The entrances to the show room are hung with curtains of antique and Nottingham lace, which cannot fail to attract attention and win admiration. They are exceedingly rich and beatiful. Innumerable attractions are to be met with in the main store, the stock being largely augumented by recent importations. Among the novelties may be mentioned the fine furniture tapestries and hangings. An hour may be spent to good advantage in Brignall & Thompson's and one can hardly come out of the establishment after a careful survey of the beautiful things displayed there without having his æsthetic faculties in some degree cultivated.

The Late Cheese Markets.

The Utica *Herald* of Sept. 26th says:—The past week has again proved unsatisfactory, the New York markets not having responded to the prices paid at Utica on Monday. The finest goods, those which have a reputation behind them and sold at the highest price in the country, were probably the most remunerative; but considerable of the stock which sold at 11c. must either be still on hand, or was sold in New York at a price that did not include a commission. Everybody is disappointed at the result of last week's markets, as it is surprising to see shippers hold off as they are doing at this time of the year. If there is no fault to be found with the cheese itself, they don't want it because it wasn't made on a particular day of the month. At the *Bulletin* pertinently puts it, "A matter of a single day earlier than buyers had made up their minds as the date they wanted had spoiled many a sale, and some receivers seemed to think that a little longer period for negotiation would have brought the date discrimination down to a single hour." This week will bring September stock into market, and we shall hope to see a more hopeful tone prevailing. If it does not, there will be grave reason to doubt much further advance this season. So far as quality is concerned, it can truthfully be said that fall cheese has seldom if ever been more perfect than it is this year; and the fault found shows that the trade is slow and very difficult to satisfy. If the market was a favorable one, the make of the season would be classed as exceptionally good.

There was more September cheese sold here to day than was anticipated; in fact almost everything that was offered was of September make, if salesmen are to be implicitly credited. The market demanded Septembers, and that was the thing they were selling. Of one thing there is no doubt, viz: that the quality is as fine as could be asked for. The latter part of August cheese are really as choice as any made this month, but apparently almost every one had sold out his Augusts last week, and as a consequence the Septembers predominated to-day. The make has somewhat improved of late, and is larger than it was two weeks ago. There was no attempt however, to make a boom on September stock. The market was simply held steady at about the same rate as last week, nor was there any expectation that it would do better to-day. But it is still hoped that when the full September make comes into market there will be somewhat better prices. Sales to-day were 258 boxes, in 40 lots, at 11c.; 4 lots, 325 boxes, at 11⅛c.; 16 lots, 773 boxes, some of them 40 and 50 pound cheese, at 11¼c.; and 1,569 boxes, 12 lots, Septembers and small cheese, at private terms. Sales, 6,255; commissions, 1,934; total 8,189 boxes. Ruling price 11c. A year ago cheese was held back, so that only 2,265 boxes were sold at 12½ to 13⅝c. Two years ago the transactions were 9,261 boxes at 11¼ to 13¼c.

Little Falls, Aug. 25, 1882.

The market was a slight improvement upon that of last week, both in activity and in prices. It is claimed several lots brought higher figures than we have quoted for them, but the prices we give for them were most reliable that could be obtained up to the close of the market.

Professor Bowlin's Great Golden Seal Discovery.

The greatest and latest discovery of the nineteenth century. A sure and permanent cure for Fits, Hysterics, Dizziness, and all nervous complaints. When ordering a bottle send full description of disease, age and condition of patient, advice free, price $1.00 per bottle. Richeen, Barbeau, & Co., 101 St. Francios Xavier St., Montreal, sole agents for Canada.

SMITH MEDICINE Co.

Gentlemen,—I have made a trial of one box of Dr. Smith's Great German Worm Remedy, with such good effect that I have no hesitation in recommending it to the public as a prompt and reliable medicine. In fact, those who use it once will always do so. Yours truly,

J. Harvie, 172 Cadieux street.

Montreal, December 9th, 1881.

Dr. E. C. West's Nerve and Brain Treatment is a never failing cure for Nervous Neuralgia, Nervous Headache, Overworked Brain, &c. Sold at James Clarke & Co's.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. Joseph T. Inman, *Station D, New York City.* [w6m143eod

MORNING DESPATCHES.

EUROPEAN.

EGYPTIAN AFFAIRS

London, Sep. 27.—Fawcett, the Postmaster-General, speaking at Hackney said that England has no selfish objects. Her chief concern is to secure to the Egyptians the best government and the greatest amount of liberty possible. The abuse connected with the late control will be avoided in the future. The Egyptians will not have to submit to the injustice of an unduly large part of their revenues being appropriated by foreign officials.

AMERICAN.

THE NOMINATION FOR GOVERNOR.

Boston, Sept. 27.—The *Journal* says there is a strong growing feeling that Butler will decline the Democratic nomination for Governor.

NEW YORK NOTES.

New York, Sept. 27.—The Grand Jury found indictments for violation of the lottery law against seventy persons yesterday. The Jury to-day take up some new cases.

John Tuttle, a retired merchant who has endorsed paper for Follett, the failed note broker has assigned. He also endorsed for Jacob VanWagener a former partner in the leather trade. Tuttle has been rated worth $350,000 to $500,000. He is said to be an endorser on paper amounting to $500,000 to $1,000,000. VanWagener says, it given time he can meet all his engagements

SATISFACTORY SETTLEMENT.

Newburgh, Sept. 27.—A settlement has been made in the notorious poker case between Weed, the victim, and Dr. Hedges and Scott. A motion to nolle-prosequi indictments against Hedges and Scott was granted yesterday. It is understood that Weed accepted $30,000, in full settlement of the matter. This reduces Weed's loss to about $3 000. It is stated that overtures for settlement came from Weed.

DAMAGE BY THE STORM.

Coney Island, Sep. 27.—The damage here by the recent storm is estimated at $100,000 to $250,00.

POISONED BY SUPPOSED MUSHROOMS.

Kingston, N. Y., Sep. 27.—The family of George Everett, at Plattskill, were taken sick on Sunday, after eating supposed mushrooms. On Monday evening the grandmother died Everett's wife and daughter are in a critical condition.

REPORTS DENIED.

Washington, Sep. 27.—The report that Ben Butler will defend Dorsey is denied. It is stated Ex-Senator Dorsey is contemplating a brief visit abroad.

New York, Sep. 27.—Jay Gould denies that he has been attempting to buy the *Journal of Commerce* and *Times*.

STEAMSHIP ARRIVALS.

New York, Sep. 27.—Arrived the *Hermod* from Havre; *Nuremberg*, from Bremen, and the *Island*, from Copenhagen.

STUDENTS DISMISSED.

Easton, Pa., Sep. 27.—Eleven Sophomores have been sent from Lafayette College for hazing Freshmen.

DROWNED BY A FLOOD.

Heathville, Pa., Sep. 27.—During the storm on Friday night while a man named Bush went to look after the safety of his mill the flood carried away his house with his wife and five children, all of whom were drowned.

FATAL ACCIDENT.

Kingston, N. Y., Sep. 27.—At the works of the Newark cemetery on Monday Peter Basten missed his footing and fell down a shute 35 feet, striking on his head. He died soon afterwards. He was the son of a prominent physician.

ESCAPE OF A BALLOON.

Melford, Mass., Sept. 27.—A balloon escaped this morning, with Prof. Allen in the baket. He had no anchor, the preparations for the journey had not been completed, and the valves were not in working order. When last seen the balloon was passing East Douglass, and going southwest.

If Nearly Dead

after taking some highly puffed up stuff, with loud testimonials, turn to Hop Bitters and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes, or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides, it is the best family medicine on earth.

AFTERNOON DESPATCHES

DEATH OF AN INVENTOR.

Paris, Sep. 27.—Leclarche, inventor of the Leclarche electric pile and other improvements in electricity, is dead.

A BONAPARTIST ROW.

While the Jeromist section of Bonapartists were holding a meeting to denounce the newspaper *Petit Caporal*, the opposite section of the party forced an entrance into the hall with revolvers and sword canes displayed. A number of the assailants were committed. The Jeromists declare that the recent duel between Dechard, editor of the *Petit Caporal*, and De Mosse, editor of the *Combat*, in which the latter was killed, was virtually assassination. The feud between the two sections is becoming very intense. The Republicans are delighted at the dissensions among their enemies.

A BALLOON VOYAGE.

Putnam, Conn., Sep. 27.—Allen's balloon landed two miles from here. It passed over Putnam very low down and the occupant seemed to be all right.

THE DUTCH CONSTITUTION.

Amsterdam, Sep. 27.—The Government of the Netherlands have appointed commission to examine the proposal for the liberal revision of the constitution.

Arrived the *State of Indiana* from Glasgow.

FATAL FOOLING.

South Lebanon, Ohio, Sep. 27.—A skiff containing Abraham Lucas, Belle Lucas, Newton Wallace and Ella Wallace capsized in the Little Meanie River last night and all were drowned. The capsizing of the boat was due to a playful struggle for possession of the oars.

EGYPTIAN AFFAIRS.

London, Sep. 27.—The British Anti-Slavery Society have appealed to Gladstone to suppress slavery and servitude in Egypt.

The Government have obtained documents showing that at the time of Dervish Pashas mission to Egypt, the Sultan offered Arabi the position of field marshal and Governor of Tripoli.

THE POWERS AND EGYPT.

Berlin, Sep. 27.—It is semi-officially announced that the powers expect a communication from Great Britain within a few days, as to the expression of their views upon the state of affairs in Egypt.

FLOODS IN ITALY.

Rome, Sep. 27.—The situation of a number of communes in the northern part of Italy continues to be critical. General floods have taken place throughout the kingdom, but the weather is now improving. The municipalities of Rome and Florence have issued appeals to the public for charity.

☞ The Diamond Dyes always do more than they claim to do. Color over that old dress. It will look like new. Only 10 cents

For 30 Years

The dark-eyed and lovely daughters of Spanish America have used Murray & Lanman's Florida Water as their only cosmetic and toilet perfume. It is the most fragrant, as well as the most lasting of all Floral Waters, and possesses refreshing and invigorating properties not contained in any other preparation of the kind

Consumption, that dread destroyer of the human race, is often the result of bad blood and low vitality, a scrofulous condition of the system. Burdock Blood Bitters cure Scrofula in its worst form.

—The Government will on the 30th instant redeem over four millions dollars' worth of five per cent. Dominion stock, dividing the amount equally between the insurance companies and the public.

Baxter's Mandrake Bitters never fail to cure Costiveness and regulate the Bowels.

A simple herb found on the sunny plains of a Southern clime has, under the skillful manipulation of Dr. Van Buren, proved one of the greatest blessings ever sent to sufferings humanity. Dr. Van Buren's Kidney Cure is acknowledged all the world over as the only perfect remedy for Kidney troubles. Your druggist has it.

MARRIED.

At St. Thomas' Church on the 27th inst., R. C. S. Wray, C. & G. T., Port Huron, to Ida, third daughter of the late David McWhirter.

Commercial.

TORONTO MARKET.

Toronto, Sept. 27.—Fall wheat No. 1 $0.00 to 0.00; No. 2, $1.14 to $1 15; No. 3, $1.12 to $1.18. Spring No. 1,—$1.21 to $1.22; No. 2, $1.20 to $0.00; No. 3, $0.00 to $0.00. Barley—No. 1 75 to 76; No. 2,00 to 00; No. 3 extra, 82 to 83; No. 3, 55 to 56 Peas—No. 1,00 to 00; 2,00 to 00 Oats-No. 1, 40 to 41; No. 2, 00 to 00. Corn—00. Wool—00 to 00. Flour—superior, $4.95 to $5.00; extra, $4.90 to $0.00; fancy, $0.00 to $0.00; strong bakers $0.00 to $0.00; spring extra, $0.00 to $0.00, superfine, $0.00 to $0.00; fine, $0.00 to $0.00. Bran $13 00 to $00.00. Clover seed, $0.00 to $0.00. Timothy $0.00 to $0.00. Hogs—$0.00 to $0.00. Butter new 12½ to 20. Barley (street) 75c to 82. Rye, 00 to 00c. Spring wheat, $0.00 to $0.00. Fall wheat $0.00 to $0.00. Oatmeal $0 00 to $0 00. Cornmeal $0.00 to $5.60. Pork $00.00 to $00.00.

Market quiet. Flour easy and quiet. Bran Bran lower sold at $13.00. Wheat scarce, old fall sold on private terms, new No. 2 fall offered at a lake port, east, and not taken. Oats lower with sales at 40 and 41. Barley unchanged, but street receipts large. Peas noml. Rye sold at 65 on street. Eggs still scarce and wanted at 20.

MONTREAL STOCKS.

The following is the official report of the Montreal Stock Exchange, Sept. 27 —

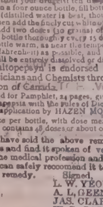
MALTOPEPSYN



MALTOPEPSYN
THE REMEDY FOR DYSPEPSIA AND INDIGESTION
PREPARED BY HAZEN MORSE TORONTO
REGISTERED AT OTTAWA

Artificial Gastric Juice.

A WONDERFUL FACT, proving the remarkable digestive power of Maltopepsyn

Two doses (30 grains), of Maltopepsyn will digest the entire white of a hard boiled egg in a bottle of water, in from 3 to 4 hours. How much more will it digest in the stomach assisted by that organ? About twenty times the quantity.

Test this for yourselves,—it is an interesting and useful experiment.

Get from your druggist ten drops of Hydrochloric Acid in a four ounce bottle, fill bottle half full of tepid water (distilled water is best, though soft water will do), then add the finely cut white of a hard boiled egg, then add two doses (30 grains) of Maltopepsyn and shake bottle thoroughly every 15 or 20 minutes, keep the bottle warm, as near the temperature of the body (100° fahrenheit) as possible, and in 3 to 4 hours the egg will be entirely dissolved or digested.

Maltopepsyn is endorsed by the leading Physicians and Chemists throughout the Dominion of Canada.

Send for Pamphlet, 24 pages, giving full treatment of Dyspepsia with the rules of Diet, etc., mailed free upon application by HAZEN MORSE, TORONTO.

Price per bottle, with dose measure attached, 50 cents, contains 48 doses or about one cent per dose

We have sold the above remedy for several months and find it spoken of very favorably by both the medical profession and the public.

We can safely recommend it to parties needing such a remedy. Signed,

L. W. YEOMANS & CO.
A. L. GEEN.

Daily Intelligencer.

The Last of Nine.

'Did you know that Tom Bailey was dead?'

The speaker was John McWilliams, and we were sitting on the piazza of his home in Bradford.

'Yes. Do you know the particulars, John?'

'Particulars! Well, I don't know as there are any. Some old story, you know. Didn't pack the nitro glycerine in the waggon carefully, and when the waggon went over a log the load exploded—and—and that was all.'

There was no need for further explanation, for I could reason it all out clearly enough, and could almost fancy I saw the ghastly remains of the ill-starred Tom Bailey, who went out one morning to superintend the shooting of a well, and never came back. Bailey was an employe of the Roberts torpedo company, and John McWilliams, the man with whom I was in conversation, was his division superintendent on the same 'run,' or district.

'Family, John.'

'No—that is, he hadn't a wife, but he had a widowed mother and a young sister.'

What will they do?'

'Oh, the company won't see them starve, and, besides, I guess Tom was worth something when he died. Poor old boy!' and tears trickled down the cheeks of the bearded man at my side.

'I never told you about Tom and the rest of the boys, did I?' continued the sorrowing man.

'The rest?'

'Yes; there were nine of us, you know—but you don't know, for I have never told a living soul. This sudden death of Tom's quite unmans me, for I am now the only one left—the last of nine.'

I waited a long time for John to gain control of his feelings, for I knew that he had a story to tell of more than usual interest. It was a beautiful night, full of soft moonlight and drowsy with the hum of humanity in the city beneath our feet. A delicate and almost imperceptible mist hung about the city, and from our hillside piazza we could see far down the valley where the Tunungwant stream faintly glimmered in the moonlight, and where the huge tanks of oil loomed up gloomy and black against the mellow brightness of the night. Over at Prospect Park, near Mount Raub, the lights were flashing and flaring, while faintly to our ears came the strains of a Strauss waltz. Away off on another hill came the sound of a laboring engine, and the thud of a walking beam told that the ponderous drill at a well was being lowered into the earth as fast as men working night and day could sink the hole. Down below, the city flashed up at us its countless lights and shadows, and hum of business and pleasure. It was a strangely beautiful night for a story of oil. John spoke at last, slowly and with evident hesitation.

'Yes,' he said, 'there were nine of us, and I'm the last one alive. It's a queer thing, and it makes me feel strangely; perhaps more so because poor Tom—is—'

'You doubtless saw that I was in the army during the late war. I saw some pretty tough fighting, and after Shiloh I was made a captain, and at the same time Tom Bailey, who was in the same company, was promoted to a lieutenancy for bravery. He deserved it, too, for there never was a braver or better boy—a trifle reckless, you might say, but brave and generous to a fault. At the close of the war we went home together. There wasn't much, to be sure, for we had done some terrible fighting and many of the boys had gone down through the valley of the shadow. Like the rest of the returned soldiers we went into the oil country, which was just then turning the heads of the people, and after knocking around for a while and losing what money we had, we concluded to go into the business of shooting wells. Tom and I went into the business for ourselves and soon hired four of the men who had been in our company and a friend of mine who had been wealthy but was 'broke,' to work for us. Two fishermen came along that we had known before, and we engaged them. That made nine of us, and we used to live in one room and do our cooking, for women were scarce in the oil country at that time. Everything went along finely and we made money hand over fist. Old Colonel Roberts hadn't got the monopoly of the nitro-glycerine business then at any man could engage in it who cared to run the risk.

'Our crowd was extremely fortunate at first, and we were beginning to feel that nitro-glycerine wasn't such a terrible thing as some persons made out. Well, we worked along about six months without an accident, when one day one of our men was killed while taking glycerine from a waggon. This gave us considerable of a shock, but we laid the blame on the man's carelessness and worked on as usual. Within a year three more of our men were blown to fragments at the same time through pure recklessness. None of these men drank liquor to excess; so you couldn't attribute their death to intoxication. The rest of us were mighty careful after that, and only staid in the business because we could make money faster than at anything else. We didn't have any more accidents while we were doing business for ourselves and we began to take courage.

'When the Roberts company gained monopolistic control of the torpedo business the remaining five of our crowd went to work for them. Everything went on swimmingly for some time, but at last three of the crowd had some trouble, real or fancied, with the company and the result was that the men quit entirely and went to moonlighting—shooting wells at night in defiance of the law giving the Roberts company the monopoly. Moonlighting is just about twice as dangerous as torpedoing in the lawful way; and it wasn't long before those three fellows were blown skyward. I wasn't a bit surprised, for when a man gets down so low as to go into moonlighting when he can make good wages at a legitimate business, I naturally look to see his death announced before a great while in the papers.

'Well that's left just two—Tom Bailey and I—of the original nine that went into business a few years ago. One by one our boys have dropped off, until to-day I helped to bury what remained of poor Tom. Poor old boy. I know it wasn't his fault, he was the most careful man I ever saw. There were nine of us when we started—all banded together to work for one another's interest—and now they are all gone but me, and I am—the—last—of nine.'

His unsmoked cigar slipped from his nerveless fingers and fell to the ground. He trembled violently, as with the ague, a nameless horror and fear looking out of his eyes into the vacancy.

'John,' said I, gently touching his arm, 'come into the house; it is chilly out here.'

'Yes, yes, let us go in. But stay—I feel—so strangely. I never thought of it before, but if my wife—should see me as I saw Tom Bailey to-day it would—it would—would kill her!' and the strong man sank into a chair completely overpowered with the awful thought.

Business called me away from Bradford and the oil country the next day, and I did not return for some weeks. Having business at Smithport, the county seat of McKean county, I passed through that village and started for Bradford by way of the Bradford, Bordell & Kinzua railway. When within a few miles of Bradford an accident happened to the locomotive, which would delay the train several hours. Being anxious to reach the city as soon as possible, four of the passengers, including myself, started over the mountain a foot, hoping to reach our destination by 3 o'clock in the afternoon. We walked along quite briskly, and while following the ridge of a mountain were hailed by a voice which I recognised as belonging to the torpedo superintendendent having in charge the district adjoining that of John McWilliams.

'Hallo! come over here!' the man shouted, accompanying his words with emphatic gestures.

Curiously wondering what Smolley could want, we went toward him. Two or three were leaning against the stump of a tree and merely nodded as we approached. Smolley was searching on the ground for something at some distance from his companions.

'What's the trouble, Smolley?' and as I spoke the glycerine man raised a pained looking face and mutely pointed his finger in the direction of the men around the stump.

TO BE CONTINUED.

At the approach of spring great attention should be given to purify the system engorged with foul humors during the winter. Burdock Blood Bitters is Nature's own purifying and regulating tonic.

DELAYS are dangerous, particularly in Kidney Diseases, so take at once DR. VAN BUREN'S KIDNEY CURE and obtain relief from all your sufferings Your Druggist keeps it.

Take no more nauseous purgatives. Burdock Blood Bitters act mildly, pleasantly, and thoroughly upon the Bowels, and occasion no inconvenience, while it regulates the Liver and Kidneys and tones the enfeebled system. Trial bottles 10 cents

AFTER many years of patient investigation DR. VAN BUREN, of Germany, finally succeeded in perfecting a Kidney Cure that would permanently relieve all cases of Kidney Disease. Be sure and ask your Druggist for DR. VAN BUREN'S KIDNEY CURE.

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrh, Bronchitis, Asthma and Lung Disease by Dr. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the seat of disease. Read and judge for yourself:—

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. JOHN P. WHELAN, Manager of POST and TRUE WITNESS, Montreal. MR. C. HILL, Montreal, catarrh and bronchitis. MR. DEBOUCHERVILLE, of the Indian Department, Ottawa, catarrh of many years; now cured. MR. GEO. AGER Ottawa, catarrh and lung disease; cured. MRS. SMITH, London, wife of Medical Detective, cured of catarrh. GEO MAGUIRE, Toronto, 482 Adelaide street West; daughter cured of asthma. GEORGE WILLIS, Exeter, Ont., catarrh and bronchitis. J. D. ARMSTRONG, 186 Yonge street, Toronto, catarrh and catarrhal deafness. THOMAS TELFER, 12 Melinda street, Toronto, asthma; cured. MR. BENJ. A. DRAKE, St Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. BENOIT, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma and bronchitis for over eight years, and who is now perfectly cured.

Mrs. ADAMSON, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitating in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis. JOHN C. FLEMING, Editor of POST and TRUE WITNESS, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write. inclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souville and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

MEDICINE CHEST IN ITSELF
A PURELY VEGETABLE MEDICINE
For INTERNAL and EXTERNAL use.
THE OLDEST BEST & MOST WIDELY KNOWN FAMILY MEDICINE.

Farmers and Mechanics.

Provide yourselves with a bottle of *PAIN-KILLER* at this season of the year, when summer complaints are so prevalent; it is a prompt, safe, and sure cure. It may save you days of sickness, and you will find it is more valuable than gold. Be sure you buy the genuine *PERRY DAVIS' PAIN-KILLER*, and take no other mixture.

COBOURG, Ont., March 3, 1880.

I have been selling Perry Davis' Pain-Killer for the past six years, and have much pleasure in stating that its sale in that time has been larger than any other patent medicine that I have on my shelves, and in those years I have never heard a customer say aught but words of the highest praise in its favor. It is an article that seems to have combined in it all that goes to make a *first-class family medicine*, and as long as I have a house and store, Perry Davis Pain-Killer will be found in both.

Yours, &c., J. E. KENNEDY.

Beware of Counterfeits and Imitations.

Price 20c., 25c., and 50c. per bottle.

KIDNEY-WORT

FOR THE PERMANENT CURE OF

CONSTIPATION.

No other disease is so prevalent in this country as Constipation, and no remedy has ever equalled the celebrated Kidney-Wort as a cure. Whatever the cause, however obstinate the case, this remedy will overcome it.

PILES. THIS distressing complaint is very apt to be complicated with constipation. Kidney-Wort strengthens the weakened parts and quickly cures all kinds of Piles even when physicians and medicines have before failed.

42- If you have either of these troubles

PRICE $1. USE Druggists Sell

KIDNEY-WORT

Acts at the Same Time on Kidneys, Liver and Bowels.

MONEY TO LOAN.

THE Western Canada Loan and Savings Company of Toronto, having increased their capital stock by One Million of Dollars, are prepared to lend any sum of money on mortgage security in this County through the undersigned at the rate of six and one half (6½) per cent., payable yearly or half yearly, as the applicant may prefer.

Titles must be first class, and the land offered as security valuable.

No commission is charged, and satisfaction is guaranteed to the borrower.

Privileges as to repayment at times to suit the borrower are always guaranteed.

PRIVATE FUNDS.

To those preferring to borrow from parties residing in Belleville or the country, we are prepared to lend private funds in any sums, at low rates of interest.

Ayer's
Sarsaparilla

Is a compound of the virtues of sarsaparilla, stillingia, mandrake, yellow dock, with the iodide of potash and iron, all powerful blood-making, blood-cleansing, and life-sustaining elements. It is the purest, safest, and most effectual alterative medicine known or available to the public. The sciences of medicine and chemistry have never produced so valuable a remedy, nor one so potent to cure all diseases resulting from impure blood. It cures Scrofula and all scrofulous diseases, Erysipelas, Rose, or St. Anthony's Fire, Pimples and Face-grubs, Pustules, Blotches, Boils, Tumors, Tetter, Humors, Salt Rheum, Scald-head, Ring-worm, Ulcers, Sores, Rheumatism, Mercurial Disease, Neuralgia, Female Weaknesses and Irregularities, Jaundice, Affections of the Liver, Dyspepsia, Emaciation, and General Debility.

By its searching and cleansing qualities it purges out the foul corruptions which contaminate the blood and cause derangement and decay. It stimulates and enlivens the vital functions, promotes energy and strength, restores and preserves health, and infuses new life and vigor throughout the whole system. No sufferer from any disease which arises from impurity of the blood need despair who will give AYER'S SARSAPARILLA a fair trial.

It is folly to experiment with the numerous low-priced mixtures, of cheap materials, and without medicinal virtues, offered as blood-purifiers, while disease becomes more firmly seated. AYER'S SARSAPARILLA is a medicine of such concentrated curative power, that it is by far the best, cheapest, and most reliable blood-purifier known. Physicians know its composition, and prescribe it. It has been widely used for forty years, and has won the unqualified confidence of millions whom it has benefited.

Prepared by Dr. J. C. Ayer & Co.,
Practical and Analytical Chemists,
Lowell, Mass.
SOLD BY ALL DRUGGISTS EVERYWHERE.

Daily Intelligencer.

The Harvest in Canada.

(From the Montreal Gazette.)

The Grand Trunk Railway company has obtained from its agents a very full and comprehensive report of the result of the harvest which has just been gathered in Canada. A synopsis of these returns, compared with those of the three preceding years, gives the following result:—

CHARACTER OF THE CROP REPORTS, 1882.

	Average	Below av'ge.	Above av'ge.	Total.
Fall wheat	42	9	59	110
Spring wheat	55	15	35	105
Oats	70	15	57	142
Pease	50	30	27	107
Barley	67	13	52	132
Hay	55	7	65	127

CHARACTER OF THE CROP REPORTS, 1881.

	Average.	Below av'ge.	Above av'ge.	Total.
Fall wheat	36	11	39	86
Spring wheat	51	9	39	99
Oats	69	4	54	127
Pease	39	19	22	80
Barley	56	5	46	107
Hay	59	51	17	127

CHARACTER OF THE CROP REPORTS, 1880.

	Average.	Below av'ge.	Above av'ge.	Total.
Fall wheat	55	20	11	86
Spring wheat	24	92	5	121
Oats	77	12	40	129
Pease	52	10	19	81
Barley	77	12	22	111
Hay	65	10	51	126

CHARACTER OF THE CROP REPORTS, 1879.

	Average.	Below av'ge.	Above av'ge.	Total.
Fall wheat	40	2	53	95
Spring wheat	57	66	19	142
Oats	68	5	76	149
Pease	53	21	25	99
Barley	61	6	57	114
Hay	45	11	99	155

The above diagnosis of the returns shows the crop of this year to have been a full average one, equalling that of any previous season. As in the three preceding years the oat crop has been a heavy one. It was extensively sown in all parts of the country and harvested in good condition. Spring wheat does not appear from the reports to have been very extensively sown, owing in a measure to the failure of this crop in 1879 and 1880, and from Western Ontario complaints of rust are heard, while in the Eastern section late frost caused some damage. Fall wheat, however, has been a large and excellent crop, the yield throughout Western Ontario having exceeded the average, while the acreage under seed was greater than ever before. Barley gave an unprecedentedly abundant return, the yield surpassing even the fine one of last year, but unfortunately a considerable portion of the grain was harvested in wet weather and thereby badly discolored. It is a common occurrence to find in the reports from the district north and west of Toronto that the barley has been damaged by damp, both in color and weight, and that not much more than half the crop will be marketable. In the chief barley district, the Bay of Quinte, the grain was housed in good condition, but a large proportion of the whole crop can hardly be graded above No. 3 or No. 2. Peas are again somewhat a failure, the yield being only fairly good, while many complaints of ravages by the bug are made. The crop that has proved most uniformly good is hay, than which a larger yield has never been out. Excepting in the Hastings district, the hay crop may be said to have everywhere exceeded the average, and in Western Ontario, where hay was a signal failure last year, the yield has been especially heavy. It will thus be seen that fall wheat, oats and hay have resulted most satisfactorily, that barley is an abundant crop, but deteriorated in quality, and that spring wheat and peas are hardly up to the mark. The fruit crop, particularly apples, is almost a total failure, the orchards in many districts being practically nude, although this is the apple year. The crop of small fruits, however, has been fair, and the root crop promises well.

These returns tally closely with the report of the harvest issued by the Ontario Bureau of Industries, from which we learn that with the exception of occasional fields of late oats and peas harvesting operations were pretty generally concluded by the 1st of September. The heavy rains which prevailed almost universally throughout Western Ontario in the earlier part of August, not only made the harvest season an unusually long and tedious one, but seriously impaired the quality of the grain crops, and especially fall wheat and barley. The yield of fall wheat will be even greater than was estimated in former reports; but a considerable portion of the crop has been housed in a damp condition, and rust and sprouting prevailed in many localities. In the western peninsula barley is very generally discolored, though the grain is large and plump, and the yield fully a large as was anticipated. In Lennox, Addington and Prince Edward, however, where this grain is so largely sown, the harvest was favored by the finest weather, and the crop was reaped and housed in excellent condition. Indeed, throughout Eastern Ontario the farmers escaped the almost continuous rains which rendered harvesting operations so uncertain in the west, and as a result the crops have been much better saved, though the yield is not so heavy. Many correspondents report that the spring wheat has been badly injured by rust and midge, while in more limited localities damage is suffered from the rainy weather which followed closely on a period of drought. On the whole, it is less than an average crop. Oats were late in ripening, and in some of the western counties shelled badly in harvesting. The grain did not fill out well in many districts on account of rust, but there will be fully an average crop. Peas are rather a light crop, partly owing to the ravages of their unfailing enemy, the bug, and partly to unfavorable weather. Returns made by correspondents, based on the threshing machine records of their several localities, show that the total produce of fall wheat in the Province of Ontario is 32,352,403 bushels; of spring wheat, 9,295,793 bushels; of barley, 23,545,050 bushels; of oats, 52,997,169 bushels; and of peas, 11,428,479 bushels. These figures exceed the estimates made on the 1st of June, especially the figures of wheat and oats.

Taken as a whole there is abundant reason to be gratified with the harvest of 1882, which for the fourth year in succession richly rewards the labor of the husbandman. Prices of wheat and barley are considerably lower than those prevailing at this time last year, and Great Britain and the United States having enjoyed bountiful crops it is improbable that any appreciable advance in values will be made. But the larger yield of these cereals will compensate the producer for the reduced prices, while consumers and transportation companies will derive an advantage from the lower range of values, and the greater surplus available for export. As yet the export movement has been light, and it is to be hoped that farmers will not pursue the foolish course of holding back their grain in expectation of an advance in prices, which is not likely to be realized. Such a policy would entail loss of interest and loss by shrinkage to the producer, while more or less deranging the trade of the country.

British Forced Marches.

MARCHING POWER AS A FACTOR IN THE EGYPTIAN CAMPAIGN.

At the present moment a retrospective analysis of the great march from Cabul to Kandahar, compared with some other forced marches, is of much intrest. Such a study is furnished by Surgeon-General Crawford in a special report to the Army Medical Department, which is marked by great care and ability. The facts of the Cabul and Kandahar march had, of course, to be conducted without a base of operations or communications of any kind, through a hostile country towards a definite point (Kandahar). For the details and all arrangements connected with this march reference must be made to Deputy-Surgeon General Hanbury's special report thereon; it must suffice, in this place, to touch on a few of its more salient points. The march commenced on August 9th. Ghazni, a distance of 97½ miles, in which the Zambarak pass (7,000 feet) and the Sher-i-Daban pass (9,000 feet) were crossed, was reached on the 15th August. For this part of the march an average distance of 13 13-14 miles was covered daily. The remaining distance of 134½ miles was covered in eight days, or 16 13-16 miles daily. Ten thousand one hundred and forty-eight troops, 8,143 native followers, and 11,224 animals, including cavalry horses, composed the column; the daily supplies for all these were drawn from the country after arrival in camp. Food was distributed and cooked with fuel (with difficulty procurable and brought in from a distance) during the eight days' march from Ghazni to Khelat-i-Ghilzai, the longest marches on any one day were 20 miles, from Ghazni to Zerghalta, and 21 miles from Mukur to Paniac. *En passant* it may be interesting to refer here to some other marches recorded. General Crawford marched with the 43rd, 52nd, and 85th Regiments of Foot to reinforce Sir A. Wellesley at the battle of Talavera in July, 1810: the brigade marched 62 miles in twenty-six hours, carrying arms, ammunition, and pack—in all, a weight of between 50 and 60lbs per man. In the late Franco-German war, very long and difficult marches were performed by the Germans. Dr. Roth, who served as chief medical officer with the Saxon army, mentions that the 18th Division marched from October 29th to November 17th, 55½ German miles, which is equal to 260 English miles, in 9 days, nearly 18 miles a day; while on December 16th and 17th, in the various manœuvres about Orleans, they marched 54 English miles. They were very heavily accoutred, and the roads were bad. A company of a regiment of Chasseurs of MacMahon's army, after being on grand guard, without shelter or fire, during the rainy night of August 5th-6th, started at three in the morning to rejoin its regiment in retreat on Neiderbronn, after the battle of Weissenburg. It arrived in this village at half past three in the afternoon, and started again for Phalsbourg at six o'clock. The road was across the hills and along forest tracks which were very difficult for troops. It arrived at Phalsbourg at half-past eight in the evening of the next day. The men had therefore marched part of the night of August 5th-6th, the day of the 6th, the night of the 6th-7th, and the day of the 7th till 8:30 p. m. The halts were eight minutes every hour, from 3.30 to six, one hour in the night of the 6th-7th, and 2½ hours on the 7th; altogether including the halts, the march lasted 41½ hours, and the men must have been actually on their feet about 30 hours, in addition to the guard duty on the night before the march. The exact distance is not known, but considering the extreme difficulty of that rugged mountain country and the bad weather, this is perhaps, the most toilsome march on record.

Remarkable for penetration and mysterious in action is St. Jacobs Oil.

RACKED BY INNUMERABLE PANGS, restless by day, sleepless at night, rising unrefreshed in the morning, without appetite and pestered by varying and perplexing symptoms, the dyspeptic takes indeed a gloomy view of human existence. For him the zest of life seems gone. Heartburn, oppression at the pit of the stomach, and the attendent annoyances of of constipation and biliousness, combine to render him utterly wretched. But there is, if he will but take advantage of it, a reliable source of reliable relief from all misery. NORTHROP & LYMAN'S VEGETABLE DISCOVERY and DYSPEPTIC CURE is, as its name imports, a botanic preparation, free from mineral poison, and an all-sufficient remedy for indigestion in its most obstinate form. It not only enriches the blood by enabling the digestive organs to convert the food received into nutriment, but depurates it by increasing the action of the bowels and kidneys, the natural outlets for its impurities. But while it relaxes the bowels, it never does so violently and with pain, like a drastic cathartic. It aids, but never forces, Nature, invigorating as well as purifying and regulating the system. It thoroughly removes those diseased humors which tend to vitiate the blood, purifies the urinary secretion, and promotes a flow of healthy bile into the natural channel, besides expelling it from the circulation. Experience has proved that this standard medicine is a thorough remedy for dyspepsia, biliousness, costiveness, kidney complaints, scrofula, erysipelas, salt rheum, lumbago and all impurities of the blood. Price $1.00. Sample Bottle 10 cents. Ask for NORTHROP & LYMAN'S Vegetable Discovery and Dyspeptic Cure. The wrapper bears a *fac-simile* of their signature. Sold by all medicine dealers

Samson lost his strength with his hair. Thousands of men and women lose their beauty with theirs, and very large numbers restore the ravages of time by using the famous Cingalese Hair Restorer. Sold at 50 cents per bottle by all Druggists.

"THE BEARE IS A BEASTIE," says a quaint old book, published in London three centuries ago, "whose flesh is good for mankynd; his fat is good, with laudanum, to make an ointment to heale balde-headed men to receive the hayre agayne." We know of many "balde-headed men" who would be glad to "receive the hayre agayne," but we do not desire to encourage them in a trial of Bear's fat and laudanum. Far from it. We, however, do not hesitate to commend Dr. J. C. Ayer & Co.'s Hair Vigor, which not only has the effect in some cases of making the hair grow on heads once bald, but cleans the scalp and restores gray and faded hair to its original color and vitality, imparting to it the glossiness and softness of youth. The evidences of its utility are too numerous and of too high a character to admit of any doubt. It required years of study and scientific experiment to decide upon the combination of ingredients that would accomplish what Ayer's Hair Vigor now does.—*The Interior, Chicago, Ill.*

BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, blotches, pimples and the various humors and blemishes of the skin are only symptomatic of bad blood—that needs purifying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidneys, skin, etc, and strengthening while it regulates and purifies.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle. 264ly

☞ The most wonderful curative remedies of the present day, are those that come from Germany, or at least originate there. The most recent preparation placed upon the market in this country, is the GREAT GERMAN INVIGORATOR, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangements of the nervous system. For sale by druggists, or sent free by mail on receipt of the price, $1.00 per box, or six boxes for $5.00. Address James Clark & Co., Sole agent for Belleville. Send for circular.

CINGALESE. A name well known in connection with the HAIR RENEWER, which restores grey hair to its natural color by a few weeks use. Sold at 50 cents per bottle by all Druggists.

FOR THE LIVER
ZOPESA
Cures
DYSPEPSIA
AND FOUL STOMACH

ZOPESA.

(FROM BRAZIL.)

The New Compound, its wonderful affinity to the Digestive Apparatus and the Liver, increasing the dissolving juices, relieving almost instantly the dreadful results of Dyspepsia, Indigestion, and the TORPID LIVER, makes Zopesa an every day necessity in every house.

It acts gently and speedily in Biliousness, Costiveness, Headache, Sick Headache, Distress after Eating, Wind on the Stomach, Heartburn, Pains in the Side and Back, Want of Appetite, Want of Energy, Low Spirits, Foul Stomach. It invigorates the Liver, carries off all surplus bile, regulates the Bowels, and gives tone to the whole system.

Cut this out and take it to your Druggist and get a 10 cent Sample, or a large bottle for 75 cents, and tell your neighbor about it.

WEST HASTINGS ELECTION.

A MASS MEETING

—OF THE—

Friends and Supporters of Mr. Rose,

In the contest for the representation of West Hastings in the Ontario Legislature will be held in

The Liberal-Conservative Rooms, Intelligencer Building,

—ON—

FRIDAY EVENING, SEPT. 29TH,

AT 7:30 P. M.,

For the formation of Committees and arranging for the work of the campaign.
LET THERE BE A GRAND RALLY.

Daily Intelligencer.

BELLEVILLE, THURSDAY, SEPT. 28.

Organization.

The presence of all who intend to take part in the campaign on behalf of Mr. Rose is requested at the meeting to-morrow night. Organization is necessary in order to win, and the more thorough the organization can be made, the more certain will the victory be. The candidate is worthy the best efforts of his friends, and the party platform is one which every honest man must approve. Therefore on Mr. Rose's behalf, and on that of the party, we ask the opponents of the Mowat Government to turn out *en masse* on this occasion.

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists.

The Dominion Surpluses.

The growl of the Grits anent surpluses which have flowed into the Dominion treasury during the past three years meets with the following happy retort from the St. John (N.B.) *Evening News* :—Well, the country has had a series of surpluses for the last three years. They amount in the aggregate to fully fifteen million dollars. Is that really and truly dreadful in the circumstances? Is it something for anybody responsible to be ashamed of? We like to be impartial. We favor the "utmost moderation" way of looking at things when at all practicable; but in this case, we cannot see eye to eye with the grannies, bless them all the same. The taxation under which the surpluses have gone on developing has not been painfully felt by the general consumer. Sugars have been as cheap as they would have been under the Cartwright tariff, and in some cases cheaper. Molasses has been moderately taxed. Fuel has been lightly affected. Tea and coffee come in untaxed. Plain cottons and plain woollens have become as cheap as they would be under a purely revenue tariff; and the general burden of taxation has not been sorely felt. The surpluses have been easily raised.

Were they unneeded? Were they uncalled for? Was there no good purpose to be served by them? They were very much needed, very loudly called for, and there were most important purposes to be served by them.

They were needed to pay off the accumulated Cartwright deficits. They were needed to carry on improvements required by the public service. They were needed to improve the public credit. They were needed to lessen the amount that but for them would have to be borrowed to ensure the construction of our great transcontinental railway. They were greatly needed.

They came in the nick of time, and they had served excellent purposes. They have done and are doing great good for the country. They are keeping down the public debt, and rendering easy the performance of tasks once deemed difficult and dreaded.

We trust they will continue to present themselves for many a year yet. Indeed, we hold to the opinion, that a surplus of moderate size is desirable for every country with a debt to reduce. We hold further that the time to make sure of a surplus is the time of special prosperity. While the sun shines the hay should be made, if the grass will bear cutting. Therefore, we rejoice with Sir Leonard in his surpluses, notwithstanding the hysterical lamentations of the venerable Scree-males.

Catarrh of the Bladder.

STINGING irritation, inflammation, all Kidney and Urinary Complaints, cured by "Buchupaiba." $1.

Backing Down.

If the Toronto *Telegram* is correctly informed, Mr. Crooks has made an inglorious backdown with regard to Marmion. It says :—

> We learn that the Minister of Education has notified High School masters that those of them who have begun with Marmion are at liberty to go on for the present.

PEARLS.—Get your mouth full by using "TEABERRY," the new wonder for the Teeth and Breath. Brush vigorously. See directions. 5 cent samples.

Editorial Brevities.

The Hamilton *Times* quotes approvingly from the Montreal *Star* :

> "The interference of Sir John Macdonald in the politics of Ontario is so very palpable that it will be interesting to note whether or not the people will resent it at the polls. No good can ever come of thus making Provincial and Dominion politics identical, when the same principles are not at stake."

The issue was made by Mr. Mowat not by Sir John, as, under Mr. Mowat's direction, the Legislature passed at its last session a resolution attacking the commercial policy of the Dominion Government. This is a fact of which the electors should not lose sight.

The policy of the Dominion Government in paying the expenses of delegates chosen by the tenant-farmers of Europe to view and report upon the agricultural resources and capabilities of Canada, has already produced marked results in a great influx of well-to-do farmers from the old countries, and it is safe to say the future effects will be greater than those which have already been experienced. In the London *Canadian* of the 13th inst. we find the following advertisement:

> FARMING IN CANADA.—I am one of the Tenant Farmers' delegates sent to Canada in the Autumn of 1880, and intend going out this Autumn to select a Farm for myself. I will also TAKE CHARGE OF GENTLEMEN'S SONS, who wish to get them well placed with good practical farmers, for a small premium.—For address, apply Box, "A. H." Office of the London Canadian, 82, Ludgate Hill, London, E. C.

As example is known to be better than precept, this action on the part of one of the reliable men who has "spied out the land" for himself will be of even greater effect than any report, no matter how favorable.

The N. P. is doing splendid work as a stimulant of immigration. The demand for skilled labor is such that it cannot be supplied at home, hence employers are obliged to advertise for hands in the English papers. For instance, in the London *Canadian* of September 13th, we find McDougall & Co., of Galt, advertising for a moulder; the Kingston Locomotive Works for rivetters; Smith Bros., Dresden, for a loom fixer; and the "Little Giant" Water wheel works, of Picton, for machinists. Many men thus offered situations will emigrate who otherwise would not do so, hence the N. P. is to be credited with inducing the emigration to Canada of many skilled mechanics who otherwise would not come. In the same paper we find George Kitchen & Co., contractors on the Ontario and Quebec Railway, advertising for 500 laborers and 50 stone masons to work at Crookstown and Tweed.

Don't die in the House.

"Rough on Rats." Clears out rats, mice, roaches bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

Fatal Accident.

A YOUNG MAN INSTANTLY KILLED BY A RUNAWAY.

The Hamilton *Times* says :—"Yesterday about 10 o'clock a shocking accident occurred in the township of Onondaga near the farm of Mr. Wm. Taws. It seems that Samuel Stewardson, a promising young man in Mr. Taws' employ, was sitting on the seat of a threshing engine which was being driven by him along the road when the horses became restive and ran away, throwing Stewardson from the machine. One of the wheels passed over his head, killing him instantly. A son of Mr. I. Sharp, who was sitting at the back of the thresher, jumped off, thus saving his life. His escape was a narrow one, however, as he fell within an inch or two of the other wheels. Stewardson was an industrious young man, and had the respect of the community. The team belonged to Mr. Taws."

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinary or Liver Diseases, as they only relieve for a time and make you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

Three Persons Drowned.

A farmer aged about 54, and named Isaac Savard, with his wife and the child of a young couple residing in Montreal, were all lost in the Saguenay while attempting to cross between Ste. Anne and Chicoutimi. It seems that their bark canoe floated on the edge of a little rapid in the stream and was overturned, the four occupants, Savard, his wife, a young married woman from Montreal and her two year old child, being all precipitated into the water. Mr. Savard clung for some time to the canoe, but was finally overcome and sank to rise no more. The young woman from Montreal also clung to the canoe and was saved. She held on to her child, but the exposure proved fatal to it. Savard himself was half an hour in the water when overpowered by fatigue and cold. He was the father of 13 children.

O. Bortle, of Manchester, Ontario Co., N.Y. writes :—"I obtained immediate relief from the use of *Dr. Thomas' Eclectric Oil*. I have had Asthma for eleven years. Have been obliged to sit up all night for ten or twelve nights in succession. I can now sleep soundly all night on a feather bed, which I had not been able to do previous to using the Oil."

Nervous debility is a result of indiscretion in the mode of living. Heed nature's unerring laws and take Burdock Blood Bitters, the Great System Renovator and Blood, Liver and Kidney regulator and tonic. Sample bottles 10 cents.

One dose of BAXTER'S MANDRAKE BITTERS will relieve Sick Headache. One bottle effects a cure. Price 25c. per bottle.

PROCLAIM it far and wide that DR. VAN BUREN'S KIDNEY CURE not only immediately relieves all Kidney diseases, but what is more important to the unfortunate sufferer, will ultimately cure him effectually.

Sure, safe and effectual, that old remedy, DOWNS' ELIXIR, for the cure of Coughs and Colds.

Professor Bowlin's Great Golden Seal Discovery.

The greatest and latest discovery of the nineteenth century. A sure and permanent cure for Fits, Hysterics, Dizziness, and all nervous complaints. When ordering a bottle send full description of disease, age and condition of patient, advice free, price $1.00 per bottle. RICHER, BARBEAU, & Co., 101 St. Francois Xavier St., Montreal, sole agents for Canada.

West Hastings Agricultural Exhibition.

The annual exhibition of the W. H. Association is now being held conjointly with that of the Belleville Horticultural Association, at the Agricultural Grounds. The building was thrown open to the public last night, but the public did not appear to appreciate the privilege afforded it, the number of visitors being very small. Apart from the horticultural display, however, the show was hardly worth a walk from the city to see, for though the exhibits which were there were mostly good, there were so few of them that a very few minutes sufficed to examine them all carefully.

ROOTS AND VEGETABLES.

The exhibit in this department was not as large as it was last year, but the smallness of the display was partially redeemed by its quality. There were several splendid individual specimens of roots and vegetables, and the average display was creditable to the farmers of this section. The first objects which caught the eye of the visitor were several immense squashes and pumpkins, which were fully equal to anything of the kind ever exhibited in the building. A number of baskets of tomatoes, also, which were ranged above them, were really tempting specimens of that fruit, and near by lay a pile of carrots which would be delicious if they were as fine in flavor and fibre as they were in size. The turnip and potato show was, as a whole, not noteworthy. There was, however, one collection of "Beauty of Hebron" potatoes, and one of "Burbank Seedlings" which were splendid specimens of the potato kind. There were only about half a dozen exhibits of carrots, but they were all excellent, and the same may be said of the very small display of turnip-beets. As for cabbages, there were three mammoth heads shown by Rev. W. K. Burr; the rest of the exhibit was not worth mentioning. The specimens sent in by the agricultural department of the Deaf and Dumb Institute were arranged together, and, though not of startling excellence, they averaged as well as the remainder of the display in this department.

ST. CHARLES' CARRIAGES AND SLEIGHS.

The next exhibit after the roots and vegetables was that of Mr. St. Charles, who showed a number of fine specimens of the carriage maker's art. He had altogether, eleven pieces—six carriages and five sleighs. A two-seated covered democrat attracted a good deal of attention among our farmers who were present last night. It was a fine substantial roomy vehicle, but neatly finished and upholstered in green leather. Three top buggies and a covered pony-phaeton formed the carriage exhibit. All of these were very attractive, being not only beautifully finished, but gracefully and strongly built. One of them deserves special mention. It was a three-springed buggy, the rear axle of which was of iron, and was not only stout, but light and really artistic in appearance. The finishings of this vehicle were also in the highest style of the upholsterer's art. This buggy was made to order, and the price of it is $225. The pony-phaeton was also very much admired and appeared to be more coveted by its female admirers even than the more pretentious carriage near it, on account of its safe and apparently easy-going qualities. An ordinary buggy with a Tompkins gear attracted considerable attention. Mr. St. Charles' sleighs consisted of one single seated, and three two-seated vehicles; all were stoutly made; four were upholstered in crimson plush, and all had adjustable seats. The three seated sleigh was iron geared throughout and was attractive enough to slip after a pair of Bonner's or Vanderbildt's 2:20 teams in Central Park on a bright winter's day. A compact and cunning little French cariole completed Mr. St. Charles' exhibit.

STOVES.

Mr. Linklater had three fine stoves on exhibition. One of these was an immense affair—a Berwick range manufactured by Copp Bros., of Hamilton. It is a most complete cooking apparatus. By a very simple arrangement it can be made to consume either coal or wood, and by another contrivance, equally simple, the heat can be distributed to all parts of the range, or confined in any particular part. This range is valuable both as a labor-saver and from an economical standpoint. Mr. Linklater also exhibited a Westminster coal-stove, in which the gearing is admirably simple and easily worked.

Messrs. G & J. Brown showed four ordinary cooking-stoves of their own manufacture—with no pretension to ornament, but substantial and well made.

MR. G. A. BROWN'S CARRIAGE AND SLEIGH EXHIBIT.

The next collection of exhibits which caught the eye of the visitor was the show of carriages and sleighs manufactured by Mr. G. A. Brown. It was the most satisfactory exhibit ever made by him. It consisted of five carriages and four sleighs. One of the carriages was a two-seated extension top, vehicle, cushioned with fine brown cloth. This magnificent carriage was plain and unpretentious in appearance, and yet such were its merits of build and finish that it took first prize at the Provincial Fair at Kingston, at which there were scores of competing carriages of the same kind from every part of the Province. The next carriage was a top-phaeton silver mounted, and finished in maroon leather. This took a second prize at the Provincial Fair. A Central Park phaeton, exquisitely graceful in its outlines, silver mounted and finished in maroon leather, was the third of Mr. Brown's prize vehicles. It won the first prize in its class at Kingston. Mr. Brown has reason to be proud of the almost unexampled success which he achieved with his carriages at the Exhibition; but this success is not to be wondered at when one examines the carriages which won the prizes—so substantial and yet light and powerful are they in build, and so beautifully finished and upholstered. The remainder of Mr. Brown's exhibit consisted of a canopy-top pony phaeton, a two seated democrat, a family pleasure sleigh, a dog-cart sleigh, a piano-box cutter, and a Portland front piano-box cutter. All of these showed the same honest, thorough workmanship and tasteful finish which are exhibited in the prize carriages.

TOMBSTONES AND MONUMENTS.

Mr. J. Coughlin made a fine display of marble headstones and monuments manufactured at the Belleville Marble Works, near the lower bridge. One of those—a monument about eight feet in height—is of Rutland clouded marble and is creditable to the manufacturer, in respect to design as well as finish. The other specimens of Mr. Coughlin's manufacture are simple headstones, unpretentious, but all carefully finished. He also showed a monument eight feet high, made of Nova Scotia granite, which was quite as beautiful as any specimen of Scotch granite that is seen in this country. The monuments of Canadian granite are in reality monuments of National Policy, for, as Mr. Coughlin assures us, they were hardly manufactured before the N. P. was enforced, on account of the heavy competition in Scotch granite; whereas now it is as much as marble dealers can do to supply the demand for Canadian granite. Mr. Coughlin says that he has two extensive orders which he received four or five months ago, and has not yet been able to fill them, so great is the demand. The Canadian granite, he says, may be said to have already supplanted the Scotch—excepting in the case of Scotchmen with strong paternal prejudices, who would not have anything resting over the remains of their deceased friends except the stone of their native land.

UP STAIRS

there is a great deal of vacant space, and but for the flowers and fruit the hall would present an almost deserted appearance.

FLOWERS.

There is a very fine display in this department, considerably excelling that of last year. Mr Wm. Matthews is the only professional who exhibits, and of the amateurs Messrs. John Bell, A. S. Brown, the Deaf and Dumb Institute, W. J. Diamond, Wm Connors, John Jenkins, and others made a magnificent display, the time of the year considered.

BIBLES, &C.,

Mr. L. W. Yeomans, Depository of the Bible Society, shows Bibles and Testaments in forty-six languages. This exhibit attracted much attention.

SEWING MACHINES

The "Genuine Singer" and "Williams Singer," both well known and favorite machines, are shown by their respective agents, Messrs D. Benson and Wm. Davis. A number of various styles of each machine are shown.

LEATHER AND ITS MANUFACTURE.

Mr. Wm. Davis shows a set of double carriage harness silver mounted, and two sets of single harness silver and rubber covered.

Messrs. Vermilyea exhibit a fine selection of boots and shoes of all styles, valises, &c., from their stock, and make a highly creditable display.

FRUIT.

This department is, next to flowers, the best in the show—and, considering the unfavorable season, is an excellent one. The magnificent apples, pears, crabs, grapes, melons, &c., which could not be excelled anywhere, show that this district is one of the finest for fruit in the country. The exhibitors were numerous. Their names will be found in the prize list.

DOMESTIC MANUFACTURES.

This department grows smaller year by year. The display this year is the smallest and least worthy of note that we have witnessed at the West Hastings Exhibition.

SHIRTS AND GENTS' FURNISHINGS.

Mr. S. G. Retallack, of the up-town Shirt factory, makes an excellent display of shirts of his own manufacture, jewellery, and many other articles of gents' furnishings, all fine goods, including a number of leading and attractive novelties.

FINE ARTS.

The display in this attractive department is very meagre, consisting of some portraits by Mr. Mason and photographs and other pictures by Mr. Ford, and a very fine case of stuffed birds, shown by Rev. W. K. Burr.

LADIES' DEPARTMENT.

Another slim exhibit, in which there is nothing of surpassing merit. We particularize two quilts of thousands of pieces, in which no two pieces were alike.

TO-DAY'S EXHIBITION.

MUSICAL INSTRUMENTS.

The only new important feature of the exhibition to be seen down stairs this morning was the small collection of pianos and organs, consisting of two upright pianos—one Stevenson and one Newcome—and three cabinet organs—one Mason & Hamlin, one Chatham (Ont.) instrument, manufactured by Morrish & Co., and one Dominion organ. These instruments were critically examined by two judges, Dr. Crozier and Prof. Stanistreet, who awarded the first prize in the organs to the Chatham instrument, which is, in point of tone, power, external adornment and finish, a really splendid specimen of the modern cabinet-organ. It has eleven stops, all of which are pure in tone and blend together exquisitely. The Mason & Hamlin organ was a small one with only five stops, and could not compete with its more powerful neighbor; neither could the Dominion instrument, which was somewhat smaller than the Chatham, though considerably larger than the Mason & Hamlin. It was not hard for the judges to decide on the comparative merits of the two pianos, and they unhesitatingly awarded the first prize to the Stevenson, which, though weak in the bass, was clear and pure in the middle and upper notes. The Newcome instrument was not such a one as should have been exhibited, and was below the average of the Newcome make.

BUTTER, SEEDS, &C.

About a dozen crocks and baskets of butter were on exhibition. The butter was, without exception, excellent in quality. There was also a fine show of seeds and grains. The seed corn was particularly good, indeed, remarkable when it is considered how unfavorable the past season has been for corn.

Quite a number of roots and vegetables were added to the display of last night, but none which were superior to those already noted.

AGRICULTURAL IMPLEMENTS.

The exhibit in this line was quite up to that of last year, if not superior.

G. & J. Brown showed twelve pieces—Brown's New Single Reaper; the New Belleville Mower (an excellent implement, now for the first time exhibited), a straw-cutter, which can be worked either by hand or horse power; two gang ploughs, two furrowed; two general purpose ploughs; one Victor plough and one Fullerton; a corn cultivator; a new patent churn power; and three Bennet's improved fanning-mills. The churn power is a peculiarly simple and ingenius contrivance, by which a six year old child can sit and work a churn all day with no more effort than is required to rock a cradle.

J. W. Walker & Co. showed eight pieces—all of novel pattern and the very finest workmanship. The exhibit was made up of Walker's Improved Gang Plough, introduced by Walker & Co. into this part of the country; one finely finished Lilly Plough with wrought-iron beam, steel board and land slide; one Hulbert Plough, with steel mouldboard and land-slide; one corn cultivator; one sulky cultivator, improved by Walker & Co from recent patents—a strong, ingenious, convenient, well-balanced and in every way admirable implement; an improved straw-cutter, with the gearing placed under cover so that the danger of accidents, which so often happen in using these machines, is greatly lessened, the cutters can be used either by horse power or by hand; one Sell's Improved Cider Mill, a useful and compact machine which has already attained a very large scale; and finally a corn-crusher—one of the three kinds manufactured by Walker & Co.—which grinds the grain and cob together, which can be adjusted to any size of cob, and can be made to grind coarse or fine at will.

Mr. R. P. Hamilton showed six pieces—a Honey Fanning Mill, manufactured by Mr. W. T. Dingle, of Oshawa, the peculiar merit of which is its long screen, which cleans the grain much more effectively than by the ordinary methods; a pair of iron harrows; a gang plough and land roller, manufactured by Hare & Co., of Oshawa; a steel plough manufactured by Peter Hamilton, of Peterboro'; and a Hoosier Combined Seed Drill and Broadcast Seeder, manufactured by Noxon Bros., of Ingersoll—the merits of which have already been described.

Patterson Bros., of Patterson, Ont., had eight pieces on exhibition—a spring-tooth harrow; one of the Patterson straw-cutters; a gang plough, with solid cast-iron wheels, and with a single lever, which simplifies the handling of the implement; a spring-tooth cultivator, on wheels; Patterson's Friction Dump Horse Rake; Patterson's Star Mower, the machinery of which is admirably simple and well made; the new Canadian Reaper (manufactured by Patterson Bros.) with several new ones; and finally, and chiefly, Patterson's Harvester and Twine Binder. This last-mentioned machine is now exhibited for the first time in this part of the country, and deserves more than a cursory notice. By a most ingenious contrivance—or rather series of contrivances, all of which can be easily managed from the driver's seat—the grain is reaped, bound in sheaf with twine and thrown on the ground—all by purely automatic action. The machine can be easily raised and lowered by simple leverage, the driver having as full control of it as he would have over the movements of an ordinary Reaper, and the whole machine weighs no more than the old Johnson Reaper. That this excellent machine is sure to come into general use is proved by the fact that Patterson & Bro. have already received an order for 400 of them from one individual. Farmers who did not visit the Fair grounds and missed the opportunity of seeing the Reaper and Binder, may see it at Patterson Bros.' Warerooms, near the Footbridge.

Patterson Bros., of Whitby, showed a splendid Whitby harvester—the only machine of five rakes on the ground. This implement was the only one which received a prize at the Kingston Fair—and good judges gave their opinion to-day that it was eminently worthy of that distinction. One of the chief merits of this harvester is its powerful leverage. The same firm also showed a fine Mower, the peculiar merits of which which were, that its bar could be made either shifting or stationary at pleasure, to suit the character of the ground and its sections are closer together than in the ordinary mower, giving it an advantage on stony ground. They also showed a grain crusher, worked by horse power—capable of grinding from 15 to 20 bushels of grain an hour with four horse power, and with more power capable of going as high as 30 bushels; and it grinds either coarse or fine—fine enough in fact, to grind foxtail grass seed. One set of plates will grind 1,500 bushels, and the cost of replacing the plates is only $2 00.

The attendance at the ground, both last night and this morning, was not very encouraging.

A report of the live stock and horse exhibition has to be laid over until to-morrow.

The Diamond Dyes always do more than they claim to do. Color over that old dress. It will look like new. Only 10 cents

"READING NOTICE."

"Twenty-four years' experience," says an eminent Physician, convinces me that the only cure for "Nervous Exhaustion" and weakness of the generative organs is to repair the waste by giving Brain and Nerve Foods, and of all the remedies I have used Mack's Magnetic Medicine is the best. This remedy is now sold by all our Druggists at 50 cts. per box, or 6 for $2 50, and on receipt of an order for 12 boxes, accompanied with $5.00, addressed to Mack's Magnetic Medicine Co., Windsor, Ont, they will forward the goods free, by mail, and send their "written guarantee" to refund the money, if the treatment does not effect a cure. See adv't in another column. Sold in Belleville by Jas. Clark & Co,

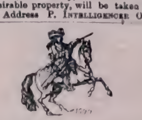
BAXTER'S MANDRAKE BITTERS never fail to cure Costiveness and regulate the Bowels.

Wanted.

WANTED—A good reliable girl as general servant. Wages liberal. Apply to Mrs. JOHN J. HAINES, Jr., Hotel Street, Belleville.

WANTED—A man. Must be sober and industrious and thoroughly understand horses. S. S. LAZIER. 110dtf

WANTED, a comfortable brick dwelling, in good locality, with barn attached and desirable property, will be taken for a term. Address P. INTELLIGENCER OFFICE.



MASS MEETING

THE Orangemen, Orangemen with Certificates, Orange Young Britons, and Prentice Boys of this District, are requested to attend a Mass Meeting to be held in the Orange Hall, Belleville, on

Friday Evening Next, 29th Inst.,

to make arrangements for attending Divine worship on the 5th November.

DAVID SERVISS,
Dist. Master.

Belleville, Sept. 27, 1882. 1t

Wanted,

BELLEVILLE, THURSDAY, SEPT. 28.

City and Vicinity.

The annual matches of the 15th Battalion will be held to-morrow.

If you want a perfect fitting suit go to John Lazier & Son, and try their new cutter. 113d3tw4w

An excursion from Norwood, *via* the Grand Junction, is to visit the city to-morrow.

This is glorious Fair weather, but something else besides weather is necessary to make fairs successful.

"Uncle Tom's Cabin" is to be performed in the Metropolitan Hall this evening by the Minnie Foster Company.

A grand bazaar is to held in aid of the Loretto Convent, and will last from the 16th to the 19th of December.

Mrs. Charlotte Orme, wife of Mr. J. L. Orme, who kept a music store in Belleville several years ago, died in Ottawa on Tuesday.

Full assortment Butterick's patterns opened to-day. The Monthly *Metropolitan* Fashion paper for October arrived. Supplied free at Reynolds'.

The Winnipeg *Sun* of the 21st says:—"Mr. S. H. Phippen, of Belleville has purchased block 1 (containing 27 lots) on Logan and Alexander streets, west of McPhilips street, for $5,200."

Mr. A. R. Gilbert threshed on the farm of Mr. Peter Goldsmith, third concession Sidney, 555 bushels of barley, 395 bushels of oats, 5 bushels of wheat, and 2 bushels of peas in 9 hours.

Work on the Murray Canal is almost at a standstill at present on account of the extreme difficulty in securing labor. No healthy man in or around the city has any excuse to be idle, for work can be obtained at any time on the Murray Canal. The canal will, it is probable, be commenced from the eastern end.

Two young men from Trenton got themselves into an unpleasant fix this morning. They became partially drunk, and going on the market became so disorderly that constable Hayes was sent for and arrested them. On the person of one of the prisoners a revolver was found, for the carrying of which he will have to answer before the Magistrate to-morrow.

Larry Flannery appeared before the Police Magistate this morning, charged with drunkenness. He was remanded until to-morrow. An old farmer from Thurlow, up on the same offence was discharged. A young man named Jas. Simmons was charged with stealing a small sum of money from a fellow-boarder named Thos. Morris. His case was laid over till to-morrow.

Weather Probabilities—Toronto, Sep 28.—Lakes fresh to strong easterly winds, fair to cloudy weather with local rains, stationary or slightly higher temperature.

The following item of news comes from Ottawa:—"A young man named Albert Noble, who, while confined in gaol, became the confidant of Sparrow and Rajotte, the counterfeiters, and gave up their incriminating correspondence to the police, has since been detained at the residence of the Chief of Police, Mr. A. P. Sherwood, as an important witness against those culprits at the approaching assizes. Last evening he absconded, taking with him the horse and buggy of the deputy sheriff, a brother of the chief of police, but it appears that he repented on the road, as this evening he returned and humbly confessed his fault. He is once more an inmate of the county gaol." The Deputy Sheriff, as many of our readers are aware, is Mr. E. D. Sherwood, formerly of this city. Another account of the affair states that the absconder, besides running away with Mr. Sherwood's buggy, took some valuable jewelry belonging to him.

Before purchasing Ready made Clothing be sure and look through Hennessy's stock. He has over 300 suits in all, and is offering them at actual cost.

Marine.

The schrs. *Jessie McDonald* and *Anna M. Foster* have arrived from Fairhaven, light, and will load iron ore.

The schooners *Hanlan*, *Mary Taylor* and *D. Freeman* have arrived from Oswego. The two former are light and the latter brings coal oil.

News Condensed.

—The unknown victim of the Asia disaster has been identified as Isaac Lecarte, of Angus.

—Richardson's grain warehouse, at Kingston, was burned on Tuesday night Loss $20,000; insured for $12,000.

—A land agent's son, named Keene, has been murdered in Ireland, near Keldyvart. His father recently evicted tenants.

—Word has been received at Collingwood from Chicago that Captain Savage's papers have been found and are being forwarded to the former place.

—An unknown man has been found shot through the breast under suspicious circumstances at Ridgetown, Ont., necessitating the holding of an inquest.

—The election in King's county, N. B., on the 27th, resulted in the return of Solicitor-General Morton and his colleague G. Hudson Flewelling, by a large majority.

—Eleven persons were found on Bird rock in the gulf the other day to be entirely without food, there being no communication with shore on account of rough weather.

—The Montreal hardware houses have advanced the price of bar and manufactured iron ten per cent on account of strikes in England as well as the enormous demand for iron and the increase of freights.

—Russia, under the pretext of reforming her army, is increasing her horse batteries from four to six guns, besides furnishing two extra complete ammunition waggons to all the batteries garrisoning the Austrian and German frontiers.

*The term *hydra* may be used to represent any manifold evil. If you would battle successfully with this many-headed monster of disease you will find it expedient to keep Mrs. Pinkham's Vegetable Compound always at hand.—*Dr. Banning.*

—The Inspector of Steamboats at Toronto has cancelled the certificates for the remainder of the season of the steamers *Emerald* of the Northern Transit Co., and the *City of Toronto*. The latter steamer has also been seized by the Inspector.

—A spectator who stood in the way of a Salvation Army procession at Harwich, England, was knocked down and kicked by the captain in command, and his injuries were such that a jury awarded him $250, which Gen. Booth will pay out of the army fund.

—A letter received by the Bishop of Ontario states that as the Prince of Wales will next year be elected President of the British Association for the Advancement of Science, it is not impossible that his Royal Highness may be induced to attend the meeting of the Association in Montreal.

"Golden Medical Discovery" (Trade-mark registered) is not only a sovereign remedy for consumption, but also for consumptive night-sweats, bronchitis, coughs, spitting of blood, weak lungs, shortness of breath, and kindred affections of the throat and chest. By druggists.

—Another veteran of the war of 1812 has gone, in the person of Joseph G. Woodrow, who died at his residence in North Norwich on Sunday morning the 24th, at the age of 93 years. He was drafted into the service in 1812, and served through the whole war. In 1816 he settled in Norwich, on the farm where he has just died.

—The libel suit McNamee v. the Montreal *Evening Post*, in which nearly a hundred witnesses were subpœnaed for the defence, has come to a sudden standstill owing to the inability of the defence to secure the attendance of a large majority of their cloud of witnesses. The defence rested its case, and the arguments of counsel will be heard to-day.

—On the 4th of October the Hon. Mr. Mousseau, Premier of Quebec, will go to Ottawa with Mr. Wurtele, the Provincial Treasurer, where they will meet Mr. Wood, the Treasurer of Ontario, when they will have an interview with the Premier regarding the unsettled accounts standing between the Government of the Dominion and of the Governments of the two Provinces.

*** "Do boldy what you do at all." Boldly do we affirm that Kidney-Wort is *the* great remedy for liver, bowels and Kidney diseases, rheumatism and piles vanish before it. The tonic effect of Kidney-Wort is produced by its cleansing and purifying action on the blood. Where there is a gravelly deposit in the urine, or milky, ropy urine from disordered kidneys, it always cures.

—At the Criminal Assizes which will open at Toronto on 6th prox, before His Lordship Judge Armour, four persons will be tried for murder. They are John Albert, the constable who shot Andrew Young at High Park, Samuel Cooper and William Ashby, charged with beating William Long to death on the 12th of July, and James Bibby, charged with the murder of his wife at Riverside.

—The Militia Department have received intimation that the four 40-pounder rifled field guns recently purchased in England by the Militia Department, and for which an appropriation was voted last session, have arrived at Quebec by the steamship *Erl King*. In pattern these guns are similar to those recently used by the British troops in Egypt, and which did such capital execution among the followers of Arabi. The final disposition of the guns has not as yet been decided upon.

—A Capetown despatch says smallpox is raging there. There has been 2,000 cases thus far, mostly natives; 600 proved fatal. The disease has reached the military. Capetown has been declared infected, and all vessels sailing thence for other ports in the colony will be quarantined. The greatest excitement prevails in the diamond fields. Illegal measures have been taken to exclude persons arriving there who are suspected of having the infection. The streets of Capetown have a deserted appearance, and business is suffering greatly.

Excellent reasons exist why *Dr. Thomas Eclectric Oil* should be used by persons, troubled with affections of the throat or lungs, sores upon the skin, rheumatic pains, corns, bunions, or external injuries. The reasons are, that it is speedy, pure and unobjectionable, whether taken internally or applied outwardly.

A New Principle.

The principle upon which Putnam' Painless Corn Extractor acts is entirely new. It does not sink deep into the flesh, thereby producing soreness, but acts directly upon the external covering of the corn, separates it from the under layer, removes the direct pressure from the part, and at once effects a radical cure, without any pain or discomfort. Let those who are suffering from corns, yet skeptical of treatment, try it, and by the completeness of the cure they will be ready to recommend Putnam's Painless Corn Extractor to others. Sold by W. R. Carmichael.

MORNING DESPATCHES.

EUROPEAN.

CHILI AND PERU.

Lima, Sept. 28.—It is reported that ex-Dictator Pero a is about to return to Peru in the character of an embassary of peace He alleges that he has made a bargain with the Chilians.

AMERICAN.

REPORT DENIED.

Washington, Sep. 28.—Secretary Chandler denies the rumor that he will succeed Folger as Secretary of the Treasury.

TARIFF COMMISSION REPORT.

A member of the Tariff Commission being asked as to the probable tenor of the Commissions report said there will be a clearing away of the cobwebs that affect the workings of the tariff and interfere with its smooth workings. The tendency will be in the direction of a wholesome reduction in the industries that have grown up and are able to stand on their own feet without assistance. Representatives of leading industries like cotton, iron, silk and others are now conferring together and will present written statements to us in New York and that is the reason why they have not appeared. The Commission will make specific recommendations as to the various articles in the tariff and will embody in the report the draft of the law which in its opinion will remove all defects in the existing tariff, and remove all reasonable complaints against it. The report will be submitted before the holidays.

PETITION AGAINST RACES.

Trenton, N. J., Sep 28.—A bill has been filed praying for an injunction against the Monmouth Park Association to restrain it from holding races or permitting gambling. The bill also questions the validity of the certificate of incorporation. The argument upon the motion for a rule to show cause why the injunction should be issued will probably take place on Tuesday.

NEW YORK NOTES.

New York, Sep. 27.—It is stated that the President has left for Alexandria Bay and among the Thousand Islands where he will spend ten days in fishing.

Duncan Grant, dealer in laces and embroideries, has assigned. Liabilities $125,000; assets unknown.

Thos. McCabe, aged 16 who shot his stepmother, was found guilty of manslaughter in the second degree yesterday. The crime has attracted much attention because of the exceptional atrocity. There is great surprise over the leniency of the verdict.

A PROFESSOR DEPOSED.

Boston, Sept. 28.—Dr. Ezra P. Gould has been removed by the trustees from the chair of New Testament interpretation at Newton Theological institution (Baptist) which he has occupied 14 years, because his views were alleged to be too liberal.

A CURIOUS CASE.

St. Louis, Sept. 28.—In the Federal Court here, Mrs. Wackerle sues the Mutual Life Insurance Co. of New York to recover insurance on the life of her husband, killed by a train in Shreveport, La., in 1872. The defence claim that Wackerle is still alive, and will produce a man claiming to be Wackerle who obtained a pension under his name, and who had been identified by some old acquaintances in Minnesota. Mrs. Wackerle denies that the man is her husband. His identity is also denied by some old acquaintances.

RECEPTION TO A R. C. PASTOR.

New Port, R. I., Sep. 28.—His Grace, the pastor of St. Mary's Catholic church, arrived last night from Europe. At a public reception he remarked that he could faithfully say that while in Ireland he saw no evidence of want, hunger or misery. He carefully and sympathizingly investigated the condition of the people.

DAMAGE FROM HIGH TIDE.

Long Branch, Sep. 28.—The tide yesterday was the highest for many years, and did great damage along the coast from Seabright to Monmouth beach.

AFTERNOON DESPATCHES

NEWMARKET RACES.

Newmarket, Eng., Sep. 28.—For the Rutland stakes, 2 years old, the Golden Farmer won, Lorillard's Comanche was the only other starter. For the October handicap, 3 years and upwards, Wandering Nun won, St. Relitza 2nd, Raystone 3rd. Six started, including Walton's Sutler.

DISTURBANCE AT KALASCHIN.

Cataiera, Sep. 28.—A disturbance has broken out among the Montenegrins in Kalaschin. The Governor of Navi Bazar sent a body of troops to occupy Turkish Kalaschin.

Queenstown, Sep. 28.—Arrived the *Wyoming*

TROOPS SENT TO HADJEZ.

Constantinople, Sep. 27,—Five battalions of troops have been despatched to Hadjez, Arabia, where an outbreak is reported. The outbreak is probably connected with the recent deposition of the Grand Shireef of Mecca.

THE RUSSIAN EMPEROR SECRETLY CROWNED.

Vienna, Sep. 28.—A newspaper publishes the story that the Emperor and Empress of Russia were secretly crowned during their recent visit to Moscow. If the Emperor survives the secret of the ceremony will be considered void. In the event of his death it will be made public so as to avoid the difficulty of proclaiming the Czarewitch Alexander as lawful successor to the crowned monarch.

LATEST FROM EGYPT.

Cairo, Sept. 28.—Wolseley will not leave here until the urgent questions awaiting solution in connection with court martials, withdrawal of British troops, and reorganization of the Egyptian army, are settled. There have been riots, several in upper Egypt, owing to efforts of the officials to enforce demonstrations of loyalty to the Khedive. Flags and devices have been torn down by Arabs, and Christians have been insulted and maltreated.

Alexandria, Sep. 28.—It is stated that two companies of the 49th regiment have been suddenly ordered to Tantah. It is stated the Egyptian Government possesses a telegram from Prince Ibrahim to Arabi congratulating him on his supposed Egyptian victory at Kassassin and hoping at the next feast of Bairam that Englishmen will be sacrificed instead of sheep.

Constantinople, Sep. 28.—The British Ambassador has communicated to the British Foreign Secretary a note from the Porte thanking Great Britain for reestablishing order in Egypt, and expressing a hope that the bonds of friendship at present subsisting between Turkey and England will be drawn still closer. The Secretary replied expressing satisfaction at the sentiments of the Ottoman Government.

If Nearly Dead

after taking some highly puffed up stuff, with loud testimonials, turn to Hop Bitters and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes, or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides, it is the best family medicine on earth.

Coughs and Colds.—If taken in time are easily cured,—if allowed to continue will result in incurable consumption. Allen's Lung Balsam has the confidence and support of the medical faculty, and is recommended by all who are acquainted with its virtues.

A simple herb found on the sunny plains of a Southern clime has, under the skillful manipulation of Dr. Van Buren, proved one of the greatest blessings ever sent to sufferings humanity. Dr. Van Buren's Kidney Cure is acknowledged all the world over as the only perfect remedy for Kidney troubles. Your druggist has it.

—It is understood that the Hon Mr. Masson will succeed the late Hon. L. Dumouchel, of Mille Isles, Que., as Senator for that division.

—Narcisse Bonenfant, foreman of the G. T. R. St. Michel, Que., ballast pit, committed suicide on the morning of the 25th by taking strychnine when going to his work.

Hall's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by Jas. Clarke & Co., Belleville, Ont.

Dr. E. C. West's Nerve and Brain Treatment is a never failing cure for Nervous Neuralgia, Nervous Headache, Overworked Brain, &c. Sold at James Clarke & Co's.

For 30 Years

The dark-eyed and lovely daughters of Spanish America have used Murray & Lanman's Florida Water as their only cosmetic and toilet perfume. It is the most fragrant, as well as the most lasting of all Floral Waters, and possesses refreshing and invigorating properties not contained in any other preparation of the kind.

SMITH MEDICINE Co.

Gentlemen,—I have made a trial of one box of Dr. Smith's Great German Worm Remedy, with such good effect that I have no hesitation in recommending it to the public as a prompt and reliable medicine. In fact, those who use it once will always do so. Yours truly,

J. Harvie, 172 Cadieux street,
Montreal, December 9th, 1881.

Consumption, that dread destroyer of the human race, is often the result of bad blood and low vitality, a scrofulous condition of the system Burdock Blood Bitters cure Scrofula in its worst form.

DIED.

In Kingston, on the 27th inst., in the Lord, Mrs. Harriet Ann Post, youngest daughter of William and Phœbe Sproule, aged 20 years.

[Funeral to-morrow (29th inst.) from Belleville station to the cemetery at 10 o'clock a. m. Friends will please attend without further intimation.

Commercial.

YOUR CAPITAL.

Those desiring to make money on small and medium investments in grain, provisions and stock speculations, can do so by operating on our plan. From May 1st, 1881, to the present date, on investments of $10.00 to $1,000, cash profits have been realized and paid to investors amounting to several times the original investment, still leaving the original investment making money or payable on demand. Explanatory circulars and statements of fund W sent free. We want responsible agents, who will report on crops and introduce the plan. Liberal commissions paid. Address, FLEMMING & MERRIAM, Commission Merchants, Major Block, Chicago, Ill.

ADMINISTRATOR'S

NOTICE TO CREDITORS.

THE creditors of James A. Clark, late of the Township of Thurlow, in the County of Hastings, Butcher, deceased, who died on or about the fourth day of February, 1882, and all others having claims against his estate are hereby notified to send by post prepaid or otherwise deliver to the undersigned Administrator, with the will annexed, of the estate and effects of the said deceased, at S. A. Lazier's store, Front Street, Belleville, on or before the twenty first day of October next, their christian names and surnames, addresses and description, the full particulars of their claims, a statement of their accounts, and the nature of their securities (if any) held by them, and in default thereof, and immediately after the said twenty-first day of October next, the assets of the said James A. Clark, deceased, will be distributed amongst the parties entitled thereto, having regard only to claims of which notice shall have been given, as above required. And this notice being given under the provisions of the revised Statutes of Ontario, chapter one hundred and seven, section thirty-four, the administrator will not be liable for the said assets or any part thereof, to any person of whose claim notice shall not have been received by him at the time of such distribution.

There is no excuse for suffering from
CONSTIPATION
and a thousand other diseases that owe their origin to a disordered state of the Stomach and Bowels, and inaction of the Digestive Organs, when the use of

DR. HENRY BAXTER'S

MANDRAKE BITTERS

will give immediate relief, and in a short time effect a permanent cure. After constipation follows Biliousness, Dyspepsia, Indigestion, Diseases of the Kidneys, Torpid Liver, Rheumatism, Dizziness, Sick Headache, Loss of Appetite, Jaundice, Apoplexy, Palpitations, Eruptions and Skin Diseases, etc., all of which these Bitters will speedily cure by removing the *cause*. Keep the Stomach, Bowels, and Digestive Organs in good working order and perfect health will be the result. Ladies and others subject to SICK HEADACHE will find relief and permanent cure by the use of these Bitters. Being tonic and mildly purgative they PURIFY THE BLOOD by expelling all Morbid Secretions.

PRICE 25 CTS. PER BOTTLE.

For sale by all dealers in medicine. Send address for pamphlet, free, giving full directions.

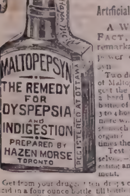
MALTOPEPSYN



MALTOPEPSYN
THE REMEDY FOR DYSPEPSIA AND INDIGESTION
PREPARED BY HAZEN MORSE TORONTO
REGISTERED AT OTTAWA

AN Artificial Gastric Juice.

A WONDERFUL FACT, proving the remarkable digestive power of Maltopepsyn.

Two doses (30 grains), of Maltopepsyn will digest the white of a hard boiled egg in a bottle of water, in from 3 to 4 hours. How much more will it digest in the stomach assisted by that organ? About twenty times the quantity.

Test this for yourselves,—it is an interesting and useful experiment.

Get from your druggist ten drops of Hydrochloric Acid in a four ounce bottle fill bottle half full of tepid water (distilled water is best, though soft water will do), then add the finely cut white of a hard boiled egg, then add two doses (30 grains) of Maltopepsyn and shake bottle thoroughly every 15 or 20 minutes, keep the bottle warm, as near the temperature of the body (100° fahrenheit) as possible, and in 3 to 4 hours the egg will be entirely dissolved or digested.

Maltopepsyn is endorsed by the leading Physicians and Chemists throughout the Dominion of Canada.

Send for Pamphlet, 24 pages, giving full treatment of Dyspepsia with the rules of Diet, etc., mailed free upon application by HAZEN MORSE, TORONTO.

Price per bottle, with dose measure attached, 50 cents, contains 48 doses or about one cent per dose.

We have sold the above remedy for several months and find it spoken of very favorably by both the medical profession and the public.

We can safely reccomend it to parties needing such a remedy.

Daily Intelligencer.

The Last of Nine.

I looked and saw a strange sight. The wreck of an oil derrick and its machinery lay scattered over the ground in small pieces. In an instant it all came to me—there had been an explosion of nitro-glycerine. The derrick had been blown to atoms and scattered far and wide; the ponderous bull-wheels were dismantled and broken into a thousand fragments. On every hand was ruin such as only nitro-glycerine can produce. The thought came was anybody hurt? I glanced inquiringly at three men. One of them pointed silently at a small baking powder box lying at their feet. I stepped forward.

'My God! John—John McWilliams!' and I would have fallen had not one of the men supported me.

The last of nine! I stood and looked down into a little wooden box filled with ghasty flesh and blood and bones—all that was mortal of noble hearted John McWilliams. A side of the head and face remained as noble and handsome as in life, but what remained of the body could be placed in a ten-quart pail. Smolley came and leaned his arm against my shoulder in silent sympathy.

'How did it happen, Smolley?' This after a long period of silence.

'The well made a heavy flow of gas and oil as John was lowering the torpedo, and when the shell came to the top of the hole John stood there and caught it in his hands, and as he turned to take the thing away it exploded in his hands with the result you see. There never was a more careful man than John.'

For years and years John McWilliams had laughed at nitro-glycerine, and had toyed with it as with a shackled monster, but at last the monster, waiting patiently for years, had sprung upon him and avenged its wrongs. Sorrowfully we lifted the little box and carried it homewards. Along the mountain ridge we moved, a melancholy procession, and when on the summit of Mount Raub we rested and looked down upon the clustered buildings of Bradford. In the glory of the afternoon sun even Bradford's homely buildings were beautiful, the picture of the loveliness of life, while over and beyond the hill, looking over in silent grandeur, were voiceless witnesses of God's immortality.

One of the passengers who had come with me from the train, produced a powerful field glass. Almost mechanically I turned and looked at John McWilliams' hillside home. A door was standing open, and a lace curtain streamed idly from the window. In through the open door I could see the tea table set and waiting. In the lawn a handsome graceful woman romped with two children, frequently shading her eyes with her hand and looking down the street long and earnestly. It was Mrs. McWilliams, and she was waiting and watching for the loving husband and father, who would come not again on this earth, never, nevermore.

Slowly the sun crept behind the western hills, and with aching hearts we took up our burden again and prepared to descend into the city, my brain ringing with the words of the ill-fated John on that night many weeks before: "If my wife—should—should see me as I saw Tom Bailey today it would—it would—would kill her!"

THE END.

F'rinstance.

He was one of those opinionated men who are especially pleased to express their views in public places. The conversation had turned upon a recent bold robbery, and he had just fixed the attention of all the passengers in the car upon a demure looking man who sat next to him by addressing him *sotto voce*: 'Now I'm a detective and you stole that money.'

As a matter of fact, the young man had not stolen anything, nor was the older man accusing him; he was simply about to explain to the unsophisticated youth how detectives operate in running down a criminal. He was playing detective, and had cast the young man as the thief, just for instance, you know, and warming to his subject, feeling that he had his illustration splendidly in hand, the old man settled right down to business.

'You stole that money,' he repeated, 'and I'll show you how easily you tripped yourself up.'

Everybody in the car became intensely interested.

'Last evening,' continued the old man, 'a person answering to your description was observed by several parties to pass and repass the scene of the robbery."

Here the lady who sat next the young man left the seat and stood up in the far end of the car.

'Footprints made by boots exactly of your size were discovered in the yard and on the roof of the verandah, whereby your entrance was affected, and a piece of the very goods from which your clothes are made had been torn out and was found adhering to a sharp point of iron work.

About this time the young man became conscious that he had for some reason been singled out by the passengers as an object of great interest, and it suddenly occurred to him that they might think that the old man's remarks were personal to himself. He endeavored to get in a word or two, but the old man would brook no interruption.

'But that's not all,' he went on, 'a servant girl discovered your presence, the alarm was given, a shot fired at your retreating figure which penetrated your hat.'

Here the passengers noticed a pair of clean cut holes in the young man's hat. The evidence was complete. 'Murmurs of 'What a pity!' 'So young, too!' 'The little scoundrel!' greeted the young man's ears.

Crimson and speechless, in his mortification he fled the car, followed by all the passengers but the old man.

'Going to let him get away!' asked the conductor.

'Yes,' responded the old man, keeping up the joke: 'I pity the poor boy.'

'Well, you'll have to pay his fare, then, I didn't get it.' And that was where the joke turned on the old man.—*Cin. Sat. Night.*

Rheumatism is greatly dependent on a vitiated condition of the fluids, and may be eliminated from the system by cleansing the Blood and regulating the Kidneys. Burdock Blood Bitters will do this most effectually. Trial bottles 10 cents.

DELAYS are dangerous, particularly in Kidney Diseases, so take at once DR. VAN BUREN'S KIDNEY CURE and obtain relief from all your sufferings. Your Druggist keeps it.

Take no more nauseous purgatives. Burdock Blood Bitters act mildly, pleasantly and thoroughly upon the Bowels, and occasion no inconvenience, while it regulates the Liver and Kidneys and tones the enfeebled system. Trial bottles 10 cents.

AFTER many years of patient investigation DR. VAN BUREN, of Germany, finally succeeded in perfecting a Kidney Cure that would permanently relieve all cases of Kidney Disease. Be sure and ask your Druggist for DR. VAN BUREN'S KIDNEY CURE.

As a cure for all diseases of the Lungs, DOWNS' ELIXIR has no equal.

At the approach of spring great attention should be given to purify the system engorged with foul humors during the winter. Burdock Blood Bitters is Nature's own purifying and regulating tonic.

Rest and Comfort to the Suffering

"Brown's Household Panacea" has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful," "Brown's Household Panacea," being acknowledged as great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle. 264ly

Dropsy is essentially a watery condition of the Blood, dependent upon disordered Kidneys. Burdock Blood Bitters are strongly Diuretic and consequently the best known remedy, acting as it does upon the entire Secretory System.

Asthma and Bronchitis Cured.

HALIFAX, N. S., Jan. 1882.

C. M. PUTTNER, Esq., PH. M.:

SIR,—I consider it my duty, not only to yourself, but to my fellow creatures who are suffering from Asthma and Brohchitis, as I had for some time previous to using your "Emulsion of Cod Liver Oil with Hypophosphites," to give my testimony to the most wonderful good effect it had. Having suffered for some time with Asthma and Bronchitis, accompanied with great nervous exhaustion, and having carefully read your Essay on the combination and uses of your Emulsion, I was persuaded to give it a trial, and on using two bottles I began to receive great benefit and relief, and after using three bottles I was completely revived and am to-day perfectly free from either Asthma or Bronchitis, and my nervous system much invigorated and built up. I have found it very pleasant and palatable, and with no taste of the oil whatever, and can with great confidence recommend it to those suffering as I did previous to taking your compound. In conclusion, I consider I owe you a debt of great gratitude for the benefit I have received from your Emulsion and only hope that many may be induced to give it a trial, and receive as great benefit as I have from its use. I am, yours, &c.,

ALEX. STEPHENS, SR.,
Merchant.

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrah, Bronchitis, Asthma and Lung Disease by Dr. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the seat of disease. Read and judge for yourself:—

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. JOHN P. WHELAN, Manager of POST and TRUE WITNESS, Montreal. Mr. C. HILL, Montreal, catarrh and bronchitis. Mr. DEBOUCHERVILLE, of the Indian Department, Ottawa, catarrh of many years; now cured. Mr. GEO. AGER Ottawa, catarrh and lung disease; cured. Mrs. SMITH, London, wife of Medical Detective, cured of catarrh. GEO. MAGUIRE, Toronto, 482 Adelaide street West; daughter cured of asthma. GEORGE WILLIS, Exeter, Ont., catarrh and bronchitis. J. D. ARMSTRONG, 186 Yonge street, Toronto, catarrh and catarrhal deafness. THOMAS TELFER, 12 Melinda street, Toronto, asthma; cured. Mr. BENJ. A. DRAKE, St Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. BENOIT, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma and bronchitis for over eight years, and who is now perfectly cured.

Mrs. ADAMSON, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitating in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis. JOHN C. FLEMING, Editor of POST and TRUE WITNESS, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write. inclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souville and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

Ayer's
Sarsaparilla

Is a compound of the virtues of sarsaparilla, stillingia, mandrake, yellow dock, with the iodide of potash and iron, all powerful blood-making, blood-cleansing, and life-sustaining elements. It is the purest, safest, and most effectual alterative medicine known or available to the public. The sciences of medicine and chemistry have never produced so valuable a remedy, nor one so potent to cure all diseases resulting from impure blood. It cures **Scrofula and all scrofulous diseases, Erysipelas, Rose, or St. Anthony's Fire, Pimples and Face-grubs, Pustules, Blotches, Boils, Tumors, Tetter, Humors, Salt Rheum, Scald-head, Ring-worm, Ulcers, Sores, Rheumatism, Mercurial Disease, Neuralgia, Female Weaknesses and Irregularities, Jaundice, Affections of the Liver, Dyspepsia, Emaciation, and General Debility.**

By its searching and cleansing qualities it purges out the foul corruptions which contaminate the blood and cause derangement and decay. It stimulates and enlivens the vital functions, promotes energy and strength, restores and preserves health, and infuses new life and vigor throughout the whole system. No sufferer from any disease which arises from impurity of the blood need despair who will give AYER'S SARSAPARILLA a fair trial.

It is folly to experiment with the numerous low-priced mixtures, of cheap materials, and without medicinal virtues, offered as blood-purifiers, while disease becomes more firmly seated. AYER'S SARSAPARILLA is a medicine of such concentrated curative power, that it is by far the best, cheapest, and most reliable blood-purifier known. Physicians know its composition, and prescribe it. It has been widely used for forty years, and has won the unqualified confidence of millions whom it has benefited.

THE ROYAL INSURANCE CO.

Of England.

CAPITAL	$10,000,000.
Funds Invested	$23,000,000
Annual Income	5,000,000.

Over $600,000 invested in Canada for the protection of Canadian Policy holders.

Farm Property Insured against damage by Lightning. Losses to live stock by lightning and fire anywhere on the farm made good.

FACTS WORTH REMEMBERING.

The Royal has the largest surplus funds of any Fire Insurance Company in the world.

The Royal has the largest deposit with the Dominion Government of any other Insurance Company.

The conditions of the Royal's Policies are more liberal than those of other Companies doing business in Canada.

In conclusion remember that security should be the first consideration, and that it is to your interest to insure with the Company that gives the *greatest* security. You may better carry your own risk than entrust it where you have not absolute security.

Daily Intelligencer.

Passing Through the Suez Canal.

After coaling at Malta we steamed down the Mediterranean, over the smoothest sea and beneath the bluest sky it was ever my happy portion to see. It was about five o'clock one morning when we first saw the lighthouse at Port Said, and at eight o'clock we entered between two piers which guard the entrance to the canal and stretch far out into the Mediterranean. Passing a Turkish frigate and a French ram, we slowly steamed close to the left hand shore and made fast to a buoy. No sooner were we fast than the Arabs swarmed on board, and soon coal was coming over the side and into the bunkers at a rapid rate from barges alongside. On the left hand for a long distance stretched coal sheds, for this is the great coaling port for steamers bound eastward, there being quite a difference in the price here and at the other end of the canal. On the right was the town of Port Said, while in front, lost far in the desert, appeared the canal, the grandest engineering feat of the age. Just fancy the amount of labor, when it was necessary to carry the sand a mile off into the desert, and at the same time prevent the surrounding sand from drifting and rolling into its place. Just take a handful of sand out from a pile and see how quickly the hollow is filled up, and you then form some idea of the undertaking. I was told out there that the English abandoned the work through inability to obtain laborers at any price, and that the French only succeeded through convict labor; that the soldiers stood guard and a refusal to work was instantly followed by a shot, and that every foot of the canal is a monument to some poor devil sent in short order to the Arabian Paradise. However this was, the canal was finished, and is to-day the only route for steamers to the east. About one o'clock the pilot came on board, and in a few minutes we left our moorings and steered into the canal. The channel has about twenty-six feet of water in it, and which is only kept at that depth by constant work at the dredges, and by strengthening the sides with sinking rock and walling up the sides where they are most threatening. On both sides the embankments rise up to a height of ten or fifteen feet, and are composed of the dull brown sands which stretch away on both sides as far as the eyes can see, the horizon shrouded in the blinding glare of the heated air rising from the burning sands till the eyes ache and the heart sickens at the dismal scene. With what relief we turn to the canal, stretching like a blue sparkling ribbon, and feast our eyes at the sight of a station looming up a half-mile ahead with its little cottage, its shrubbery trees, planted right in the midst of a desert and drawing life from a soil which has been brought one hundred miles to make life endurable to the station-master, banished away out here, hundreds of miles from his own fair France; for who else but a Frenchman would think of bringing his garden with him, with its flowers and trees, out here in this wilderness of sands? We tied up for a few seconds to let one of the P. & O. steamers pass us; for every vessel must give way to the "Royal Mail," except men-of-war, which have the right of way everywhere. The "canal" is not wide enough for vessels to pass each other, so every quarter of a mile or so there is a wider place for tying up, and the vessel reaching there first makes fast to the bank and allows the other one to pass, except in the case of a vessel carrying the mail, or a man-of-war, both of which go right on through without stopping except during the night.

On the right hand side runs a track, and I was startled by the familiar sound of the engine whistle, and the next minute a train swept by at the rate of forty miles an hour, while overhead—

Like strings of ghosts
The telegraph posts
Came quickly trooping by.

I noticed on the other bank a veritable caravan, such as one reads about and sees so much of in the pictures of the desert—horses and camels and the old man all wrapped up in his white clothes, with the same same long rifle with its crooked stock which I have seen duplicated on canvas, till I felt an inclination to extend a hand and say, "How are you old boy?" for old acquaintance sake. And then I thought what a difference between the banks. Here the railroad, the telegraph—and there the old Arab travelling, as his father and his grandfather and his great-grandfather did a hundred years ago; a century separated by this narrow stream.

At dusk we tied up, having made about thirty miles, as we were only allowed to go "slow" through the canal for fear of injuring its banks. The next morning found us on our way, and soon we we were threading the crooked channel through the lake with the town of Ismailia broad off the port beam. After about two hours' steaming at full speed we again slowed down and entered the other part of the canal, and again passed through between the same brown banks with disgust, and only enlivened by the stations, with their few feet of surroundings verdure and occasional steamers bound to the westward, too few and far between, which we passed, until we finally steamed into the Gulf of Suez about five in the afternoon.

Off on our left gleamed the houses of Suez, and here we left our French pilot and took a native Red Sea pilot, black as coal and mute as one of the sphinxes which adorn his native deserts.—*Correspondence St. Louis Republican.*

Why He Quit Preaching.

'I understand, Uncle Amos, that you have quit preaching,' said the Secretary of State to an old colored man, who for years has had charge of a church in Little Rock.

'Yes, boss, I'se stopped aside.'

'Why did you quit?'

'Well, dar was numerous pressure brought to bar agin de ole man; de charged me with stealing a ham for one thing, and 'vise me ter quit.'

'They couldn't prove that you stole the ham, could they?'

'No, sah, de couldn't, an' ef I hadn't knoledged it de neber would hab probed it.'

'Why did you acknowledge it?'

'Case de found de ham under my bed, sah.'

DELAYS are dangerous, particularly in Kidney Diseases, so take at once DR. VAN BUREN'S KIDNEY CURE and obtain relief from all your sufferings. Your Druggist keeps it.

Marriageable Royalty.

It accordance with its annual custom, the Herald, of St. Petersburg, has just published a complete list of the marriageable princes and princesses living at the present moment in Europe. The marriageable age for a prince is taken to be from 24 to 40, and for a princess from 18 to 25. The former, therefore, has sixteen marriageable years, as against a poor decade of the other. On the other hand, the number of eligible princes exceeds that of marriageable princesses. There are only thirty-one of the former and twenty-four of the latter. Most of these princes naturally belong to prince-ridden Germany. There are, indeed, no less than twenty German princes now on the marriage market. In this list is not included any representative of the royal house of Prussia, the oldest son of the crown prince being married already, and the second being only 20 years old. The most eligible bachelor of the number is no doubt King Ludwig, of Bavaria, but no more obdurate bachelor and misogynist exists. The rest of the princes are little better than princelings, and in mentioning one of them—Henry XVII., prince of Reuss, the chronicler from whom we are quoting thinks himself bound to add that though the principality is but small, the prince is uncommonly well off. The rest of Europe has but a supply of princes by the side of Germany. France offers a Bourbon in the person of Prince Peter d'Orleans, born in 1855, and now occupying the humble position of lieutenant in the French navy. Denmark supplies a candidate in the shape of the king's youngest son, Prince Waldemar. The royal house of Italy furnishes that eligible widower Prince Amadeo, once king of Spain. Another widower of a less eligible description is Prince Albert, lord and master of tiny Monaco. The Netherlands, Austria, Russia, and Portugal each furnish one or more representatives to the list. Of princesses there is in the first place and above all our own Princess Beatrice, the only remaining daughter of the Queen, now 25 years old. Other princesses are to be found by the wooer with the necessary qualifications in Spain, Portugal, Holstein, Hessen, and other minor German principalities. Lastly, if any one is bold enough to woo a new Penthysilea, she is perhaps to be found in that descendant of a line of warrior chieftains, the Zorka of Montenegro.—*Manchester Guardian.*

TO LADIES

suffering from functional derangements or any of the painful disorders or weaknesses incident to their sex, Dr. Pierce's treatise, illustrated with wood-cuts and colored plates, suggests sure means of complete self-cure. Sent for three letter postage stamps. Address WORLD'S DISPENSARY MEDICAL ASSOCIATION, Buffalo, N. Y.

—Senator Dumouchel died on Monday, aged seventy-two.

Miss Clara Alcott, of Mahwah, Bergen County, N.J., says: I bruised my limb and it became greatly swollen and stiff. A physician treated it without any benefit. Procured a bottle of St. Jacobs Oil which cured me. It acted like magic.

RACKED BY INNUMERABLE PANGS, restless by day, sleepless at night, rising unrefreshed in the morning, without appetite and pestered by varying and perplexing symptoms, the dyspeptic takes indeed a gloomy view of human existence. For him the zest of life seems gone. Heartburn, oppression at the pit of the stomach, and the attendant annoyances of of constipation and biliousness, combine to render him utterly wretched. But there is, if he will but take advantage of it, a reliable source of reliable relief from all misery. NORTHROP & LYMAN'S VEGETABLE DISCOVERY and DYSPEPTIC CURE is, as its name imports, a botanic preparation, free from mineral poison, and an all-sufficient remedy for indigestion in its most obstinate form. It not only enriches the blood by enabling the digestive organs to convert the food received into nutriment, but depurates it by increasing the action of the bowels and kidneys, the natural outlets for its impurities. But while it relaxes the bowels, it never does so violently and with pain, like a drastic cathartic. It aids, but never forces, Nature, invigorating as well as purifying and regulating the system. It thoroughly removes those diseased humors which tend to vitiate the blood, purifies the urinary secretion, and promotes a flow of healthy bile into the natural channel, besides expelling it from the circulation. Experience has proved that this standard medicine is a thorough remedy for dyspepsia, biliousness, costiveness, kidney complaints, scrofula, erysipelas, salt rheum, lumbago and all impurities of the blood. Price $1.00. Sample Bottle 10 cents. Ask for NORTHROP & LYMAN'S Vegetable Discovery and Dyspeptic Cure. The wrapper bears a *fac-simile* of their signature. Sold by all medicine dealers

Samson lost his strength with his hair. Thousands of men and women lose their beauty with theirs, and very large numbers restore the ravages of time by using the famous Cingalese Hair Restorer. Sold at 50 cents per bottle by all Druggists.

"THE BEARE IS A BEASTIE," says a quaint old book, published in London three centuries ago, "whose flesh is good for mankynd; his fat is good, with laudanum, to make an ointment to heale balde-headed men to receive the hayre agayne." We know of many "balde-headed men" who would be glad to "receive the hayre agayne," but we do not desire to encourage them in a trial of Bear's fat and laudanum. Far from it. We, however, do not hesitate to commend Dr. J. C. Ayer & Co.'s Hair Vigor, which not only has the effect in some cases of making the hair grow on heads once bald, but cleans the scalp and restores gray and faded hair to its original color and vitality, imparting to it the glossiness and softness of youth. The evidences of its utility are too numerous and of too high a character to admit of any doubt. It required years of study and scientific experiment to decide upon the combination of ingredients that would accomplish what Ayer's Hair Vigor now does. —*The Interior, Chicago, Ill.*

Rest and Comfort to the Suffering

"Brown's Household Panacea" has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful." "Brown's Household Panacea," being acknowledged as the great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, should be in every family handy for use when wanted, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle. 264ly

Dropsy is essentially a watery condition of the blood, dependent upon disordered Kidneys. Burdock Blood Bitters are strongly Diuretic and consequently the best known remedy, acting as it does upon the entire Secretory System.

At the approach of spring great attention should be given to purify the system engorged with foul humors during the winter. Burdock Blood Bitters is Nature's own purifying and regulating tonic.

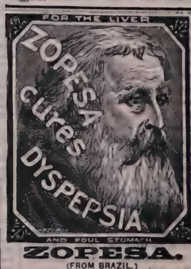
BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, blotches, pimples and the various humors and blemishes of the skin are only symptomatic of bad blood—that needs purifying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidneys, skin, etc, and strengthening while it regulates and purifies.

Mothers! Mothers!! Mothers!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle. 264ly

The most wonderful curative remedies of the present day, are those that come from Germany, or at least originate there. The most recent preparation placed upon the market is this country, is the GREAT GERMAN INVIGORATOR, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangements of the nervous system. For sale by druggists, or sent free by mail on receipt of the price, $1.00 per box, or six boxes for $5.00. Address James Clark & Co., Sole agent for Belleville. Send for circular.

CINGALESE. A name well known in connection with the HAIR RENEWER, which restores grey hair to its natural color by a few weeks use. Sold at 50 cents per bottle by all Druggists.



ZOPESA.

(FROM BRAZIL.)

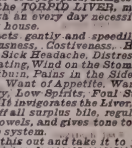
The New Compound, its wonderful affinity to the Digestive Apparatus and the Liver, increasing the dissolving juices, relieving almost instantly the dreadful results of Dyspepsia, Indigestion, and the TORPID LIVER, makes Zopesa an every day necessity in every house.

It acts gently and speedily in Biliousness, Costiveness, Headache, Sick Headache, Distress after Eating, Wind on the Stomach, Heartburn, Pains in the Side and Back, Want of Appetite, Want of Energy, Low Spirits, Foul Stomach. It invigorates the Liver, carries off all surplus bile, regulates the Bowels, and gives tone to the whole system.

Cut this out and take it to your Druggist and get a 10 cent Sample, or a large bottle for 75 cents, and tell your neighbor about it.

THE GREATEST

WONDER OF MODERN TIMES!



HOLLOWAY'S PILLS AND OINTMENT.

THE PILLS

purify the Blood, correct all Disorders of the LIVER, STOMACH, KIDNEYS, AND BOWELS, They invigorate and restore to health *Debilitated Constitutions,* and are invaluable in all Complaints incidental to Females of all ages. For Children and the aged they are priceless.

WEST HASTINGS ELECTION.

A MASS MEETING

—OF THE—

Friends and Supporters of Mr. Rose,

In the contest for the representation of West Hastings in the Ontario Legislature will be held in

The Liberal-Conservative Rooms, Intelligencer Building.

—ON—

FRIDAY EVENING, SEPT. 29TH,

AT 7:30 P. M.,

For the formation of Committees and arranging for the work of the compaign.
LET THERE BE A GRAND RALLY.

Daily Intelligencer.

BELLEVILLE, FRIDAY, SEPT. 29.

The Coming Elections.

On October 18th seven elections will occur, to fill vacancies in the Ontario Legislature. Of these seven seats, five—namely South Bruce, Muskoka, North Renfrew, East Simcoe and South Waterloo—were held by Reformers, and three—South Essex Glengarry and West Hastings—by Conservatives. There is one more seat vacant, namely that for North Renfrew, which was vacated by a Grit, but a compromise has been arrived at, by which Mr. Edwards, Secretary of the Conservative Association, will represent the constituency for the unexpired year of the term. Thus the Government have already lost one seat, whilst they will probably lose South Bruce and possibly East Simcoe as well. It is not probable that any one of the constituencies previously held by the Opposition will change its political allegiance.

Of the three Conservatives who vacated seats in the Legislature to enter the wider field of Dominion politics, all were successful; but of the Grits two were defeated, namely Messrs. Murray, of North Renfrew, and Miller, of Muskoka. These gentlemen lose their seats, as neither of them has been renominated.

The result of the voting in the eight constituencies at the last election was as follows:

CONSERVATIVE CONSTITUENCIES.

SOUTH ESSEX.

Wigle	1,418
Balfour	1,261
Majority for Wigle	157

GLENGARRY.

Macmaster	1,331
Rayside	1,291
Majority for Macmaster	40

WEST HASTINGS.

Robertson	1,402
Holden	1,075
Majority for Robertson	327

Robertson unseated on petition; new election in January, 1880, with the following result:

Robertson	1,306
Sills	1,157
Majority for Robertson	149

GRIT CONSTITUENCIES.

SOUTH BRUCE.

Wells	2,865
Baird	2,796
Majority for Wells	69

MUSKOKA.

Miller	1,704
Boys	1,235
Majority for Miller	469

NORTH RENFREW.

Murray	1,066
Deacon	962
Majority for Murray	104

EAST SIMCOE.

Cook	1,324
Steele	1,006
Majority for Cook	318

SOUTH WATERLOO.

Livingston	1,690
Phin	1,262
Majority for Livingston	428

The candidates so far placed in nomination are as follows:

BRUCE, S.—H. P. O'Connor, G. Opposition candidate not yet chosen.

ESSEX, S.—Peter Wright, C. W. D. Balfour, G.

HASTINGS, W.—Baltis Rose, C. John N. Lee, G.

MUSKOKA—Prowse, C. Bettes, G.

RENFREW, N.—Edwards, C. No Government candidate will be nominated.

In Glengarry, East Simcoe and South Waterloo, no candidates have yet been chosen by either party.

Catarrh of the Bladder.

STINGING irritation, inflammation, all Kidney and Urinary Complaints, cured by "Buchupaiba." $1.

—Smallpox has carried off five victims in Stinking River, Manitoba, during the last three months.

PEARLS.—Get your mouth full by using "TEABERRY," the new wonder for the Teeth and Breath. Brush vigorously. See directions. 5 cent samples.

PROCLAIM it far and wide that DR. VAN BUREN'S KIDNEY CURE not only immediately relieves all Kidney diseases, but what is more important to the unfortunate sufferer, will ultimately cure him effectually.

Editorial Brevities.

We again remind all opponents of the Mowat tyranny of the meeting of Mr. Rose's friends and supporters in the L. C. A. rooms to-night, for the purpose of organization. Mr. Rose's duties as President of the West Hastings Agricultural Society have pretty well occupied him since the nomination, but he has found time to pay a flying visit to Trenton, where he was heartily received. His candidature has also been received with great favor in Sidney and Belleville.

The Ottawa *Free Press* says.—

> "Sir Francis Hincks swore in the McNamee-Post libel trial yesterday that he did not know what "a Political Bummer" is. Yet Sir Francis was a member of Sir John Macdonald's Ministry. How some person's memories do fail!"

And yet this same Sir Francis Hincks was one of the three arbitrators on the boundary question, whose so-called award was received with enthusiasm by the Grits, who desire its confirmation.

Mr. Lee canvassed very actively at the Show yesterday. He asked a well-known Conservative to "give him a lift," and received a very polite affirmative; but Mr. Lee did not consider that the Irish attach a peculiar meaning to the words, and that it was an Irishman with whom he was conversing. The "lift" which Mr. Lee will get from that particular elector will not be to his taste, namely an "Irish hoist."

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists.

News Condensed.

—The building this season at Rapid City, Manitoba, will reach $75,000.

—Lieutenant-Governor Cauchon goes for a year to Europe at the completion of his term.

—The University of Laval has conferred the honorary degree of LL. B. on Sir Hector Langevin.

—Hon. L. F. R. Masson has been appointed to the Senate in the room of the late Hon. S. Dumouchel.

—A verdict of "not guilty" has been returned in the famous libel suit McNamee *vs* the Montreal *Post*.

—Fifteen hundred dollars' worth of silks and satins have been seized by the Customs authorities at St. Andrew's, N. B., for alleged non-payment of duty.

—During the past month some ten convicts have been dismissed from the Penitentiary, they having completed their terms. Six of these were sent up for larceny, two for stealing horses or cattle, and one for bigamy.

*The term *hydra* may be used to represent any manifold evil. If you would battle successfully with this many-headed monster of disease you will find it expedient to keep Mrs. Pinkham's Vegetable Compound always at hand.—*Dr. Banning*.

—The Edmonton *Mail*, dated 2nd, says half the crops are cut, and the yield is excellent. No damage has been done by frost. At Battleford, the same date, all the crops were garnered, and the quality and quantity leave nothing to desire. The harvest was completed at Prince Albert three weeks ago. The wheat was secured without damage from frost.

—The largest engine ever built in the United States was turned out of the Grand Trunk shops at Port Huron last week for use on the Chicago & Grand Trunk. It is 59 feet long; the height from the rail to the top of the smoke-stack is 15 feet, 7 inches; the diameter of the drive wheel is six feet, and the cylinders are 18 by 24 inches. Nine more like it will be built at once.

***"Do boldy what you do at all." Boldly do we affirm that Kidney-Wort is *the* great remedy for liver, bowels and Kidney diseases. rheumatism and piles vanish before it. The tonic effect of Kidney-Wort is produced by its cleansing and purifying action on the blood. Where there is a gravelly deposit in the urine, or milky, ropy urine from disordered kidneys, it always cures.

—Of the 4,499 cattle, 14 horses, and 3,445 sheep carried this year from Montreal to Great Britain by Allan's freight ships, only 4 oxen and 22 sheep have died on the passage out. Considering that when the exportation of live stock from that port commenced, four or five years ago, it was the usual thing to lose from 10 to 20 head of cattle on each cargo, this is good evidence of the perfection to which the accommodation for live stock has been brought on the steamships of the Montreal fleet.

Don't die in the House.

"Rough on Rats." Clears out rats, mice, roaches, bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

WHAT MANITOBA IS WORTH TO EASTERN CANADA.—The Winnipeg *Times* publishes an official return showing that the value of the dry goods, groceries, liquors, settlers' effects, machinery, manufactures of leather, hardware, and manufactures of iron, furniture, agricultural implements, lumber, ready-made houses, breadstuffs, and other goods imported into Manitoba from the other provinces, during the fiscal year ending June 30th last, was $10,576,000. The *Times* says the imports for the current fiscal year will exceed $16,000,000, and adds that Eastern Canada has no reason to complain of the N. P., which has taken the custom of Manitoba from the Americans and given it to the eastern merchants and manufacturers.

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinary or Liver Diseases, as they only relieve for a time and make you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

—His Excellency the Governor-General and the Princess Louise opened the Agricultural Show Victoria, B. C., on Wednesday. In reply to an address the Governor-General advised the people to accept any labor which offered in order to secure the early completion of the railway. He also announced that the President of the company had informed him of the adoption of the Kicking Horse Pass, and the intention to complete the road by Jan. 1, 1887.

O. Bortle, of Manchester, Ontario Co., N.Y. writes:—"I obtained immediate relief from the use of *Dr. Thomas' Eclectric Oil*. I have had Asthma for eleven years. Have been obliged to sit up all night for ten or twelve nights in succession. I can now sleep soundly all night on a feather bed, which I had not been able to do previous to using the Oil."

Nervous debility is a result of indiscretion in the mode of living. Heed nature's unerring laws and take Burdock Blood Bitters, the Great System Renovator and Blood, Liver and Kidney regulator and tonic. Sample bottles 10 cents.

One dose of BAXTER'S MANDRAKE BITTERS will relieve Sick Headache. One bottle effects a cure. Price 25c. per bottle.

Professor Bowlin's Great Golden Seal Discovery.

The greatest and latest discovery of the nineteenth century. A sure and permanent cure for Fits, Hysterics, Dizziness, and all nervous complaints. When ordering a bottle send full description of disease, age and condition of patient, advice free, price $1.00 per bottle. RICHES, BARBEAU, & Co., 101 St. Francios Xavier St., Montreal, sole agents for Canada.

West Hastings Agricultural Exhibition.

The attendance on Thursday afternoon was a great improvement on that of the previous evening and forenoon. There must have been fully three or four thousand people on the grounds, and considerable interest was manifested in the horse competitions.

LIVE STOCK AND POULTRY.

This department is always interesting, and, though hardly as large this year as it has been in former years, there was a sufficient number of fine specimens both of live stock and poultry to attract large numbers of visitors to that part of the grounds.

There was a fair display of sheep. Mr. R. Garbutt's Leicesters and Mr. Nightingale's Cotswolds deserve special mention, as being excellent specimens of their classes. Mr. Jno. Harry also showed some fine Leicesters, and Mr. Albert Thrasher a number of excellent looking Southdowns.

The show of swine was rather small. Mr. Harry's specimens of Suffolks, and Messrs. Garbutt's, Vanblancom's, Jose's and Buskard's Berkshires were the most prominent features in it.

As for cattle, there were very few animals to be seen, but those few were of choice breeds and good-looking. In blood cattle, the finest specimens were H. B. Rathbun's splendid Durham bull, heifer and calf, Mr. Chapman's Durhams, Rev. W. K. Burr's Ayrshire bull, heifer and calf, and Mr. Geo. Purdy's Ayrshire heifer and calf. The display of grade cattle was more satisfactory than that of blooded animals.

There was an interesting poultry show—not strikingly extensive, but containing a good many choice specimens of geese, ducks and poultry. The collection of Mr. R. G. Martin, of Tyendinaga, was the best; indeed it is doubtful whether better geese and poultry were ever exhibited at a West Hastings Agricultural Exhibition than were those shown by this exhibitor Rev. Mr. Burr and R. H. Trimble also showed a number of fine birds, and were very little behind Mr. Martin in their exhibits.

The horse show was the most attractive feature of the afternoon, and was almost up to the show of last year. The show of thoroughbreds, however, was very slim—the only blood horses being the fine old stallion "War Cry" owned by Potter & Williams of Napanee, the stallion "Gold-dust," and a yearling colt out of "Leamington," shown by Mr. Jas. Nolan. These three were, however, worth a walk to the grounds to see. There was a lively series of competitions in single and pair roadsters, carriage and draught horses. Two or three exciting races took place, and the competitions were all keen and close. Mr. Geo. Purdy had a splendid pair of roadsters, and drove them with all the dash which characterizes his driving—passing everything on the track, single and double. The first prize for the best pair of draught horses was won by the Deaf and Dumb Institute team. Mr. Jones' and Mr. Chapman's animals were very little inferior to the winners. There were five or six fine animals entered in the competition of carriage horses in harness. The first prize was awarded to a sorrel owned and driven by Mr. A. G. Vermilyea—and deservedly was, for the winner is a beautiful specimen of horseflesh. He was sired by "Tippoo" out of a "Clarion" mare. The most exciting event of the horse show was the roadster-in-harness contest. There were only two entries—a little bay horse entered by Mr. P. R. Palmer, and driven by Mr. Job Lingham, and a lively looking bay horse owned by Mr. G. A. Brown and driven by him. The race between the two horses was keen and exciting in the extreme, and the competitors were vociferously cheered by the crowd. Mr. Lingham handled the reins with great dexterity and urged his lively little animal forward with voice as well as whip and reins. Mr. Brown also did well, but he was unable to overtake the speedy and plucky little beast driven by Mr. Lingham, and after going two or three times round the track he stopped, and Mr. Lingham returned to the judges' stand triumphant and evidently highly gratified. On the whole, the horse show may be considered, next to the horticultural display, the most interesting feature of the Exhibition.

The following is the list of prizes awarded:

BLOOD CATTLE.

DURHAM.

Bull 3 years old and upwards, 1st H. B. Rathbun, 2nd A. N. Denyes; Bull 1 year old, 2d W. H. Chapman. Milch Cow, 1st H. B. Rathbun & Son, 2nd W. H. Chapman; Heifer 2 years old 1st H. B. Rathbun & Son; Heifer 1 year old, 1st H. B. Rathbun & Son; Heifer Calf, 1st H. B. Rathbun & Son, 2d W. H. Chapman; Best pure bred Bull of any age or breed, imported since last show, (by Elias Ketcheson), 1st A. N. Denyes.

AYRSHIRES.

Bull 3 years old and upwards, 1st W. K. Burr; Bull Calf, 1st Geo. Purdy, 2d W. K. Burr; Milch Cow, 1st K. C. Burr, 2d W. K. Burr; Heifer 2 years old, 1st Geo. Purdy, 2d W. K. Burr; Heifer 1 year old, 1st K. C. Burr, 2d W. K. Burr; Heifer Calf, 1st W. K. Burr, 2d K. C. Burr.

Judges—B. Storey, Jno. Steel, N. A. Peterson.

GRADE OR COMMON CATTLE.

Bull 3 years old—1st, J. Buskard. Bull 2 years old—1st, Geo. A Ridley. Milch Cow—1st, P R Palmer; 2d, G A Chapman; 3d, G Jose. Heifer 2 years old—1st, Geo Jose; 2d, H P Jose; 3d, G A Ridley. Heifer 1 y'r old—1st, G Jose; 2d, W H Chapman; 3d, H P Jose. Heifer Calf—1st, W H Chapman; 2d, R R Ross; 3d, G A Ridley. Best Yoke Oxen—1st, G R Purdy

Judges—Elias Ketcheson, James J. Sutton, Henry Fenn.

HORSES.

THOROUGHBRED HORSES.

Best Stallion—1st, Potter Williams; 2d, J Jackson. 1 year old Colt, 1st, Jas Nolan.

OTHER HORSES.

Stallion that stood for mares during the whole season of 1882, in No. 4 Electoral Division and East Northumberland—1st, W G Stafford; 2d, G M Caldwell. Pair Carriage Horses (Iron Beam Steel Plough by R S Patterson)—1st, W R Parry; 2d, P Goldsmith; 3d, R J Graham Pair Draught Horses (A. Robertson, M.P. 1st prize)—1st, A Stevenson; 2d, G Jose; 3d, W H Chapman. Pair Roadsters in Harness (Patterson Bros., W H Vantassell Agent, near Footbridge) goods—1st, G Purdy; 2d, H Wellbanks. Roadster in Harness (G A Brown)—1st, P R Palmer; 2d, G A Brown. Carriage Horse in harness (first prize by Baltis Rose)—1st, A G Vermilyea; 2d, A E Davis. Saddle Horse (by W. N. Ponton, Esq. first prize)—1st, P R Palmer.

Judges—Elias C. Ketcheson, A. Spencer, Dennis Carr.

3 year old Roadster in harness (by James Bird) 1st, R Ross. Brood Mare with foal by her side (by S. T. Wilmot, Esq. 1st prize)—1st, J Nightingale. Horse Colt, yearling—1st, Minor Brickman; 2d, S Brickman; 3d, E Ketcheson. Gelding 2 years old—1st, S Brickman; 2d, A A Thrasher. Mare Colt 2 years old—1st, H P Jose. Yearling Filly—1st, S Brickman; 2d, W Anderson; 3d, A A Thrasher. Suckling Foal—1st, Elias Ketcheson.

Judges—N. J. Boulter, John F Henderson, James Cronk.

[NOTE.—W. H. Chapman had a colt on the ground, but it was overlooked by the Judges, who considered it worthy of a prize.]

SHEEP.

LEICESTERS.

Ram, 2 years old and over, 1st, R J Garbutt. Two aged Ewes, 1st, R J Garbutt; 2nd, Jas Harry; 3rd Jno Harry. Two shearling Ewes, 1st R J Garbutt; 2nd, Jno Harry. Ram Lamb, 1st, Jno Harry; 2nd, R J Garbutt; 3d, Jas Harry. Pair Ewe Lambs, 1st, R J Garbutt; 2nd, Jas Harry. Best pen of Leicesters, consisting of 6 Ewes and one Buck, 1st, R J Garbutt.

COTSWOLD.

Ram, 2 years old and over, 1st, J Nightingale. Ram, shearling, 1st, J Nightingale. Two aged Ewes, 1st, J Nightingale. Two shearling Ewes, 1st, J Nightingale. Ram Lamb, 1st, J Nightingale. Pair Ewe Lambs, 1st, J Nightingale. Best pen of Cotswolds, consisting of 6 Ewes and 1 Buck, 1st, J Nightingale.

SOUTHDOWNS.

Ram, shearling—1st, A A Thrasher. Two aged ewes, 1st, A A Thrasher. Two shearling ewes, 1st A A Thrasher. Ram lamb, 1st, A A Thrasher; 2nd Geo Purdy. Pair ewe lambs, 1st, A A Thrasher.

Judges.—J M Herrington, Edw. Marsh, J Buskard.

SWINE

SUFFOLK BREED

Boar, 1st, Jas Harry. Breeding sow, 1st, Jas Harry; 2nd, J Buskard. Sow pig, 1882, 1st, Jas Harry; 2nd Jno Harry.

BERKSHIRE OR OTHER SMALL BREEDS.

Boar, 1st, R J Garbutt; 2nd, W Vanblaricom. Breeding sow, 1st, H B Jose; 2nd R J Garbutt; 3rd, Wm Anderson. Boar pig, 1882, 1st, Jer Buskard; 2nd, H P Jose; 3rd, C H Bonestell. Sow pig, 1882, 1st, R J Garbutt; 2nd, Geo Jose, 3rd, H P Jose.

Judges.—Jacob Tice, Jesse Carr.

SEEDS.

Daily Intelligencer.

BELLEVILLE, FRIDAY, SEPT. 29.

City and Vicinity.

THE annual matches of the 15th Battalion are being shot this afternoon.

WE will have another visit from the Fisk Jubilee Singers before long.

AN excursion is to be run to the city and Massassaga Point from Norwood next Tuesday.

THE Oddfellows' Band will be engaged to play at the East Hastings Fair at Thrasher's Corners.

A BAND is about to be organized in Foxboro', and an effort has already been made to secure the services of Mr. W. B. Riggs as instructor.

ANDREW BURNS and Wm. Clarke were charged with drunkenness at the Police Court this morning. The former was discharged, and the latter remanded for a week.

A MASS meeting of Orangemen will be held this evening in the Orange Hall to make arrangements for attending divine service in Holloway St. Methodist Church on the 5th of November.

ONE of the richest specimens of quartz ever seen here is now in possession of Mr. Angus McKee, having been taken from the Feigel Mine, Marmora, a few weeks ago. It gleams with free gold on every side.

A BOY named Fred Cobb was creating a disturbance at the Metropolitan Hall last night. He was arrested and locked up, and this morning was condemned by the Magistrate to remain another day in the cells.

WE are pleased to be able to publish a notice of the marriage of a gentleman who has many friends in Belleville—Mr. Horace Whelpley, was who married on Wednesday to a young lady of Grimsby, Miss L. V. Roy.

DON'T forget the excursion to-morrow (Saturday) to Northport, and intermediate ports, by the str. *Nellie Cuthbert*. Time of leaving as usual, 3 p. m. This will be her last excursion to Northport for the season.

BROCKVILLE'S new conservative daily, the *Times*, has been issued, the first number having appeared on Wednesday. It is a neat sheet of 24 columns and is well written and newsy. It has the appearance of a successful venture.

MESSRS. Chard & Scott, of Stirling, have presented Conductor Morris, of the G. J. R., with a handsome silver conductor's lantern for night work on his train. This is but one proof of Mr. Morris' popularity with the travelling and business public.

THE two young men from Trenton, Jas. Benham and George Crouter, who were arrested in the market yesterday morning charged with drunkenness, were brought before the Magistrate this morning. The latter was allowed to go with a warning. Benham was not fined for his drunkenness. but was called on to pay $20 for carrying a revolver. He was given until to-morrow to procure the money.

THREE Front Street merchants were brought before the Police Magistrate this morning, charged with obstructing the street with boxes. The By-law under which the charge was brought reads that a "reasonable time" shall be allowed merchants to remove their boxes, and as a dispute was likely to arise as to what time was a reasonable time, the Magistrate dismissed the offenders—with a warning, however, that if they appeared again on the same offence he would fine them.

THERE was quite a large number of excursionists from Shannonville at Massassaga Point yesterday, and they were joined in the afternoon by a number of friends from Belleville. The weather was delightful at the Point, and a very pleasant day was spent. This is just the time for picnicking—during the day.

AMONG the arrivals at the Dafoe House are, Philip H. Stuart, Hamilton; W. McLean, Goderich; Colonel Rhodes, Quebec; Wm. E. Jones, Stratford; Thos. Dunnet, Toronto; F. W. Nye, Toronto; Thos. A. Hurley, Toronto; A. F. Wood, Madoc; H. Hunt and daughter, Owen Sound.

THE case of Jas. Simmons, charged with stealing money from Thos. Morris, came up again this morning at the Police Court, and was further enlarged. An assault case from the country occupied considerable time. The complainant was Geo. Chisholm and the defendant John Elmer. The charge was sustained, and Elmer was fined $5.00 and costs.

THE erection of a new brick outbuilding has been commenced at the G. T. R. station. It is to be hoped that it is meant for the outbuilding of the main structure, the erection of which will speedily follow. If it is completed and the old passenger station allowed to remain, people would be mistaking the one for the other—which would cause considerable confusion.

ONE of our city Oddfellows' lodges was visited last night by an old Oddfellow from Napanee, Bro. Woodward, who was initiated in old Victoria Lodge, in this city, in the year 1847. He received a warm welcome from the Belleville brethren, whom he greatly interested by dwelling on his reminiscences of the early history of Oddfellowship in this Province. The old Victoria Lodge of Belleville, which has long ceased to exist, was the fifth lodge organized in Canada and the first in Upper Canada, or Ontario. Many of the books and records of the old lodge were carefully preserved by the late E. W. Holton, Esq., who was one of the Secretaries, and just before his death he gave them to Mr. Allan McFee, of Belleville Lodge, who in his turn presented them to the Grand Lodge. The minute books of the old institution will show the names of many of the early residents of Belleville.

THE performance of a new and thrilling drama bearing the strange name of "Uncle Tom's Cabin" in the Metropolitan Hall last evening was witnessed by a vast audience, which filled the hall in every part, leaving very little space even for standing room. As is usual on first nights, the audience was indulgent, and bent on discovering merits rather than detecting faults in the performance; but, to tell the truth, the faults were so few and the merits so many that the kind audience did not have much difficulty in finding out the latter and overlooking the former. A character made up of strange contradictions, whims, oddities, and grotesque humors, bearing the outlandish name of *Topsy*, appeared to be the chief character, and was acted by Miss Minnie Foster, and acted with admirable spirit and humor by her. She was well supported by the rest of the company. We hope to hear more of this play, for it deserves to succeed, and we will stake our journalistic and critical acumen on the prediction that it will eventually become one of the most popular dramas on the boards.

WEATHER PROBABILITIES—Toronto, Sep. 29.—Lakes, moderate to fresh easterly to southerly winds, fair to cloudy weather, possibly a few local showers stationary or slightly higher temperature.

A HEARTY SEND-OFF.—One of the most popular of the young men of Belleville, Mr. Geo. Sutherland, has left town, having accepted a good position as traveller for the large wholesale millinery firm of Graham, Barber & Co., of Montreal. He left last night by the midnight train. The few hours prior to his departure were spent among friends, a supper having been given in his honor by a number of Mr. Sutherland's intimates. This happy event—which will not readily be forgotten by any person who was present—was held at the Hub saloon, and was neatly got up and served. Alex. Robertson, Esq., M. P., occupied the chair, and Mr. Chas. Corby the vice-chair, and around the tables were nearly all Mr. Sutherland's most intimate friends. It was a congenial and happy company, the one object of which appeared to be to neutralize by conviviality the sadness of parting and make pleasant the last few moments which the guest of the evening was to spend in Belleville. The effort was crowned with success, for seldom has such a pleasant occasion of this kind been seen here. One of the most pleasing features of the evening was the presentation by the Chairman to Mr. Sutherland, on behalf of a number of his friends, of a beautiful and valuable gold locket, together with an address couched in terms of the warmest friendship. Mr. Sutherland, though taken by surprise, made a sensible and feeling reply. Then followed toasts, speeches, songs and recitations, until it was time to leave for the train. Nearly the whole party accompanied Mr. Sutherland to the station, and the last thing which he heard as he stood on the platform of the last car and as the train moved away from the station was the enthusiastic cheers of his friends rising above the strains of "Auld Lang Syne."

BEFORE purchasing Ready made Clothing be sure and look through HENNESSY'S stock. He has over 300 suits in all, and is offering them at actual cost.

Sporting Notes.

The little steam launch, formerly owned by A. W. Hepburn, of Picton, was not traded for the *Lady Agnes*, but was sold to Mr. Cooley, of Trenton. Mr. Cooley has now exchanged the steamer for the yacht *Enid*, owned by Mr. D. R. Leavens.

The *Atalanta* was to leave New York, homeward bound, on Wednesday. Her spar will be taken out at Troy and replaced at Oswego.

The Napanee and Syracuse cricket clubs played a spirited match at Kingston on the 28th. Syracuse went first to bat, and made 100 runs, the batting being unusually strong. Napanee was fair in the field, but weak in batting, and did not in two innings make as many as Syracuse in the first innings. They made only 20 runs in the first innings and in the second innings scored 60, unfinished,

The Chicago base ball club have again won the championship; Providence second.

Excellent reasons exist why *Dr. Thomas Eclectric Oil* should be used by persons, troubled with affections of the throat or lungs, sores upon the skin, rheumatic pains, corns, bunions, or external injuries. The reasons are, that it is speedy, pure and unobjectionable, whether taken internally or applied outwardly.

A New Principle.

The principle upon which PUTNAM' PAINLESS CORN EXTRACTOR acts is entirely new. It does not sink deep into the flesh, thereby producing soreness, but acts directly upon the external covering of the corn, separates it from the under layer, removes the direct pressure from the part, and at once effects a radical cure, without any pain or discomfort. Let those who are suffering from corns, yet skeptical of treatment, try it, and by the completeness of the cure they will be ready to recommend Putnam's Painless Corn Extractor to others. Sold by W. R. Carmichael.

COUGHS AND COLDS.—If taken in time are easily cured,—if allowed to continue will result in incurable consumption. Allen's Lung Balsam has the confidence and support of the medical faculty, and is recommended by all who are acquainted with its virtues.

MORNING DESPATCHES.

AMERICAN.

WOMAN SUFFRAGE.

OMAHA, Sept. 29.—The National Woman's Suffrage Convention closed yesterday. There has been a lively interest in the suffrage movement here, and the meetings have been spirited and ably conducted.

AN INSANE MAN'S LEAP.

RICHMOND, Ind., Sept. 29th.—United States Senate Clerk, George Ames, grandson of the late Bishop Ames, of the Methodist Church, and whose mother is a sister of U. S. Senator Booth, jumped from a third story window of the Rand hotel last night, and was probably fatally hurt. He was insane. He leaped to escape the officers and physicians about to take him into custody. He is cousin of a man who died in the Baltimore madhouse on Monday. His insanity was induced by novel reading at the time of his confinement.

NEW YORK NOTES.

NEW YORK, Sep. 20.—The party who is contesting the will of the late Mrs. Jno C. Hamilton, is her grandson, and not her son, as previously stated.

Jonh Finkle, a letter carrier, was arrested yesterday for stealing letters containing money. He said the trouble was due to the fact that he had four wives.

Arrived the *D. Steinman*, from Antwerp; the *Stella*, from Amsterdam.

DAMAGE FROM HIGH TIDE.

LONG BRANCH, Sep. 29.—The damage here by the high tide is estimated at $50,000.

DRIVEN OUT BY SNAKES.

DALLAS, N. C., Sep. 29.—Charles Folias, a well-known moonshiner, escaped from the officers and took refuge in a cave in the northern part of the County, but was driven out by rattlesnakes, and surrendered to the officers who had been hunting him for years.

If Nearly Dead

after taking some highly puffed up stuff, with loud testimonials, turn to Hop Bitters and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes, or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides, it is the best family medicine on earth.

AFTERNOON DESPATCHES

AFFAIRS IN EGYPT.

CAIRO, Sep. 26.—The authorities consider that the country generally is so rapidly returning to its normal condition that the further display of force in the provinces is unnecessary.

Explosions at the railway station yesterday continued, at brief intervals, for over three hours. By the energetic efforts of the military, although they were hampered by lack of pumping gear, the fire was prevented from spreading, and finally gotten under control. The passenger station was saved, but all the freight sheds, containg ten days provision for the army, and two hundred trucks of ammunition, was destroyed. It is reported that five men were killed and 20 wounded. The railway officials express the belief that the fire was incendiary. They noticed that trucks on the two separate lines blazed up simultaneously. Subsequent to the first explosion two Arabs were seized in the act of firing the trucks. The third escaped. The fire began among the ammunition captured from the Egyptians. Some accounts attribute it to the accidental blowing up of a percussion shell while the military were removing ammunition stored in trucks in the railway sheds. It appears clear, however, that the Arabs endeavored to spread it if they did not cause the fire. Troops patrolled the streets last night. During the fire at the railway station yesterday, two men with torches were seized while endeavoring to fire an adjacent quarter of the town.

SUSPECTS RELEASED.

DUBLIN, Sept 30.—All the suspects in custody have been released with a view to the expiration to-morrow of the Coercion Act.

THE FLOODS IN THE TYROL.

LONDON, Sep. 30.—The floods in the Tyrol have reduced hundreds of wealthy land owners to poverty. The laboring class are in terrible distress and the approaching winter greatly aggravates the situation.

12,000 BRITISH SOLDIERS TO REMAIN IN EGYPT.

The *Times* says it has been decided to retain for the present 1,200 men in Egypt to carry on and consolidate the work for which the suppression of Arabi does little more than clear the way.

—The defalcations of McNeil, the employe in the Montreal city treasurer's office, are now placed at fifteen thousand dollars.

—The local election in Kent, N. B., resulted in the re-election of the Conservative candidates by largely increased majorities.

—An explosion occurred on an ammunition train at Cairo on the 28th. Three soldiers of the 60th rifles were killed and 6 wounded.

—James Hickey was murdered near Templemore, county Tipperary, Ireland, on the 27th. Two brothers of a family lately evicted were arrested on suspicion.

—The Dominion Government have entered a suit against Mr. Gilbert, of the Canada Engine Works, for breach of contract, in connection with changing guns to breach loaders. Damages, $9,000.

—General Wolseley will not leave Cairo until the final settlement of the urgent matters now awaiting solution, such as the court-martials, the withdrawal of the British troops, and the reorganization of the Egyptian army.

A SIMPLE herb found on the sunny plains of a Southern clime has, under the skillful manipulation of DR. VAN BUREN, proved one of the greatest blessings ever sent to sufferings humanity. DR. VAN BUREN'S KIDNEY CURE is acknowledged all the world over as the only perfect remedy for Kidney troubles. Your druggist has it.

"READING NOTICE."

"Twenty-four years' experience," says an eminent Physician, convinces me that the only cure for "Nervous Exhaustion" and weakness of the generative organs is to repair the waste by giving Brain and Nerve Foods, and of all the remedies I have used Mack's Magnetic Medicine is the best. This remedy is now sold by all our Druggists at 50 cts. per box, or 6 for $2.50, and on receipt of an order for 12 boxes, accompanied with $5.00, addressed to Mack's Magnetic Medicine Co., Windsor, Ont., they will forward the goods free, by mail, and send their "written guarantee" to refund the money, if the treatment does not effect a cure. See adv't in another column. Sold in Belleville by Jas. Clark & Co,

Sure, safe and effectual, that old remedy, DOWNS' ELIXIR, for the cure of Coughs and Colds.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, *Station D, New York City*. [w6m143eod

For 30 Years

The dark-eyed and lovely daughters of Spanish America have used MURRAY & LANMAN'S FLORIDA WATER as their only cosmetic and toilet perfume. It is the most fragrant, as well as the most lasting of all Floral Waters, and possesses refreshing and invigorating properties not contained in any other preparation of the kind.

SMITH MEDICINE Co.

GENTLEMEN,—I have made a trial of one box of Dr. Smith's Great German Worm Remedy, with such good effect that I have no hesitation in recommending it to the public as a prompt and reliable medicine. In fact, those who use it once will always do so. Yours truly,

J. Harvie, 172 Cadieux street.

Montreal, December 9th, 1881.

BAXTER'S MANDRAKE BITTERS never fail to cure Costiveness and regulate the Bowels.

Hall's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by Jas. Clarke & Co., Belleville, Ont.

Consumption, that dread destroyer of the human race, is often the result of bad blood and low vitality, a scrofulous condition of the system. Burdock Blood Bitters cure Scrofula in its worst form.

BIRTH.

In Kingston, on Sunday the 24th inst., Mrs. Geo. T. Vair of a daughter.

MARRIED.

At St. Andrew's Church, Grimsby, Ont., on the 26th inst, H. A. WHELPLEY, of Belleville, to Miss L. V. ROY, of Grimsby.

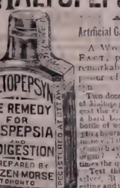
MALTOPEPSYN



MALTOPEPSYN
THE REMEDY FOR DYSPEPSIA AND INDIGESTION
PREPARED BY HAZEN MORSE TORONTO
REGISTERED AT OTTAWA

Artificial Gastric Juice.

A Wonderful Fact, proving the remarkable digestive power of Maltopepsyn.

Two doses (30 grains) of Maltopepsyn will digest the entire white of a hard boiled egg in a bottle of water, in from 3 to 4 hours. How much more will it digest in the stomach assisted by that organ? About twenty times the quantity.

Test this for yourselves. It is an interesting and useful experiment.

Get from your druggist ten drops of Hydrochloric Acid in a four ounce bottle, fill bottle half full of tepid water (distilled water is best, though soft water will do), then add the finely cut white of a hard boiled egg, then add two doses (30 grains) of Maltopepsyn and shake bottle thoroughly every 15 or 20 minutes, keep the bottle warm, as near the temperature of the body (100° fahrenheit) as possible, and in 3 to 4 hours the egg will be entirely dissolved or digested.

Maltopepsyn is endorsed by the leading Physicians and Chemists throughout the Dominion of Canada.

Send for Pamphlet, 24 pages, giving full treatment of Dyspepsia with the rules of Diet, etc., mailed free upon application by HAZEN MORSE, TORONTO.

Price per bottle, with dose measure attached, 50 cents; contains 48 doses or about one cent per dose.

We have sold the above remedy for several months and find it spoken of very favorably by both the medical profession and the public.

We can safely reccomend it to parties needing such a remedy.

Signed,

Daily Intelligencer.

Cutting the Curbs.

A Western correspondent inquires concerning the breaking of curds in cheese making. He asks which is the better way—to cut the curds fine in the first instance, or to cut coarsely, and then finish breaking with the hands. He says: "An old New York dairyman, who has settled in the neighborhood, strongly advocates the latter plan, claiming that at some of the best New York factories the curds are kept very coarse, or about the size of chestnuts, while working to separate the whey."

In reply, it should be remarked that great changes have been made in cheese manufacture during the past twenty years. The old plan was to cut the curds coarsely and do all the subsequent breaking or manipulation of the mass with the hands. It was claimed that the curds had what may be called a "natural grain," and that by lifting them carefully by the hand they split or fell apart in accordance with this grain, and that by a careful manipulation in this manner the butter globules incased or held in the curds were not so liable to be broken, and hence more butter was retained in the cheese. When much cutting with sharp knives is done, it was argued, the little butter sacs would be cut and the oil escaping must pass off in the whey, not only impoverishing the cheese, but lessening its weight. Proceeding upon this idea, the "coarse curd" system was inaugurated, and for a time gained high repute in the hands of certain skillful manufacturers. It was observed, however, that cheese made upon this plan was somewhat defective in texture, the coarse particles not uniting after the cheese was pressed so perfectly as to make a uniform, solid mass. Another objection was that all the particles of curd were not cooked evenly and alike. These and other faults complained of so operated against the "coarse curds system" that it was generally abandoned, and our best New York factories are now working on the Cheddar plan of *fine curds.* That this plan is the correct one for the kind of cheese manufactured for export to Britain will be seen from the philosophy of this part of the process in obtaining desired results. The object in breaking the curds is threefold,—first, to facilitate the expulsion of whey; second, to have all the particles operated upon evenly and alike by heat; and third, that the whole mass, when the manipulation is finished, may present a uniform texture and consistency throughout. To effect these objects in the best manner, the curds are cut finely in the first instance. They are cut with the horizontal knives which divide the mass into thin flakes, one upon the other; then the perpendicular knives are passed through in opposite directions, leaving the mass in blocks, and a further use of the knives brings the mass into a finely divided state, not much larger than wheat kernels. It is found that a sharp knife going through the curds is not liable to do so much injury to the butter particles as the manipulation or breaking with the hands, while the labor in reducing the curd to a fine state is vastly less. The curds now being in a fine state can be evenly acted upon by heat while stirring, and going through what is called the "scalding" or "cooking" process.

The danger of injury to the curds, by pressing out the oily particles, is during the early stages of the process, while the curds are young and tender—hence a division with a knife is likely to do less damage than by operating with the hands, however carefully. But, as a rule, carefulness in breaking with hands, as all cheese makers know, cannot be depended upon. Late devices in cheese making do all the stirring of the curds by machinery, oven to the mixing in of the salt; and it is the univeral testimony of old and experienced cheese makers who have tested these machines that they do better work with less loss and damage to the curds than when the work is done by hand. Of course with these new machines a vast amount of labor is saved, which is an important item in large establishments.

I do not pretend to say that good cheese cannot be made by breaking and manipulating the curds with the hands. It can be so made with proper care and attention, as is well known; but if cheese of equal quality and quantity can be produced by cutting finely with the knives, as has been described, why submit to the greater labor of hand-work? Why run the risk of damaging cheese from time to time by inefficiet or careless hand-work which might be avoided by a better plan?

We are now getting down to more systematic methods in cheese making. The business may now be said to be lifted out of the rut of old traditions; manufacturers are seeking the reason for operating by certain processes instead of blindly following a rule handed down by a former generation. Thus old methods once popular are dropping out for something better, and for the doing of which a sound reason can be given. There is much yet to be learned concerning the dairy and its management. Every year brings out something new, and unless one keeps well abreast of the progress that is being made he soon finds himself in no condition to compete with those working by improved processes and methods.—*X. A. Willard, in Rural New Yorker.*

Ice For Raising Cream.

The question is often asked if cream can be injured by being "raised" too cold, and the only reply is certainly. It can be about or quite ruined. It is a well-known fact, that under the old, or tin-pan system of butter making, if the cream was frozen or chilled the fine nutty flavor of the butter was destroyed; even the grain was injured, and a mealy butter resulted. In many patent creamers brought out, the cold setting principle is employed, the object being to make a radical distinction between the serums and the fats of the milk, but while the idea of intense cold may cause the cream to be rapidly thrown up, the same effect is produced as to allow the cream to become chilled after removal. Whenever cream, on or off the milk, is forced below 45 degrees, there is danger of destroying the grain and nutty flavor of butter, and the best results will always be found in a temperature between 45 and 55 degrees. In talking with a noted dairyman of New York recently, he made the remark that the finest flavored and keeping butter in the world was made in a room in which the temperature could be kept at a uniform point, and the milk set in tin pans.

A nice paint is also being raised about the chemical difference between cream that is forced out of the milk in a few hours and cream raised by the old tin-pan process. There may be and then there may not be any. If a difference does exist it is this: Cream that is rapidly forced out of milk has got to be exclude from the air, i. e., raised in a vacuum, and thence it does not become oxygenized, as is the case with cream raised from open pans. The aromatic flavor is now believed to be the result of a decomposition of some of the elements of the cream produced by the action of the oxygen of air rather than the feeding of any particular food to influence this flavor. The rapidly raised cream baving been chilled by this contact with ice water, has thus had a chemical change before its contact with the oxygen of the air; hence is not similarly affected. Milk set in pails, in a pool of water, with their covers removed, so that the air can come in contact with it while coming to the surface would probably not be inferior to milk set in pans in pure air—the most perfect of all systems as regards high flavored butter, but far from being the handiest and most expeditious method in this fast age, when minutes are of more value than were hours to our grandfathers.—*Cleveland Herald.*

After many years of patient investigation Dr. Van Buren, of Germany, finally succeeded in perfecting a Kidney Cure that would permanently relieve all cases of Kidney Disease. Be sure and ask your Druggist for Dr. Van Buren's Kidney Cure.

As a cure for all diseases of the Lungs, Downs' Elixir has no equal.

Rheumatism is greatly dependent on a vitiated condition of the fluids, and may be eliminated from the system by cleansing the Blood and regulating the Kidneys. Burdock Blood Bitters will do this most effectually. Trial bottles 10 cents.

Take no more nauseous pargatives, Burdock Blood Bitters act mildly, pleasantly and thoroughly upon the Bowels, and occasion no inconvenience, while it regulates the Liver and Kidneys and tones the enfeebled system. Trial bottles 10 cents.

Asthma and Bronchitis Cured.

Halifax, N. S., Jan. 1882.

C. M. Puttner, Esq., Ph. M.:

Sir,—I consider it my duty, not only to yourself, but to my fellow creatures who are suffering from Asthma and Brohchitis, as I had for some time previous to using your "Emulsion of Cod Liver Oil with Hypopnosphites," to give my testimony to the most wonderful good effect it had. Having suffered for some time with Asthma and Bronchitis, accompanied with great nervous exhaustion, and having carefully read your Essay on the combination and uses of your Emulsion, I was persuaded to give it a trial, and on using two bottles I began to receive great benefit and relief, and after using three bottles I was completely revived and am to-day perfectly free from either Asthma or Bronchitis, and my nervous system much invigorated and built up. I have found it very pleasant and palatable, and with no taste of the oil whatever, and can with great confidence recommend it to those suffering as I did previous to taking your compound. In conclusion, I consider I owe you a debt of great gratitude for the benefit I have received from your Emulsion and only hope that many may be induced to give it a trial, and receive as great benefit as I have from its use. I am, yours, &c.,

Alex. Stephens, Sr.,
Merchant.

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Catarrh, Bronchitis, Asthma and Lung Disease by Dr. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the seat of disease. Read and judge for yourself:—

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. John P. Whelan, Manager of Post and True Witness, Montreal. Mr. C. Hill, Montreal, catarrh and bronchitis. Mr. DeBoucherville, of the Indian Department, Ottawa, catarrh of many years; now cured. Mr. Geo. Agee Ottawa, catarrh and lung disease; cured. Mrs. Smith, London, wife of Medical Detective, cured of catarrh. Geo. Maguire, Toronto, 482 Adelaide street West; daughter cured of asthma. George Willis, Exeter, Ont., catarrh and bronchitis. J. D. Armstrong, 186 Yonge street, Toronto, catarrh and catarrhal deafness. Thomas Telfer, 12 Melinda street, Toronto, asthma; cured. Mr. Benj. A. Drake, St Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. Benoit, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma and bronchitis for over eight years, and who is now perfectly cured.

Mrs. Adamson, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitating in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis. John C. Fleming, Editor of Post and True Witness, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write, inclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souvielle and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

Ayer's
Sarsaparilla

Is a compound of the virtues of sarsaparilla, stillingia, mandrake, yellow dock, with the iodide of potash and iron, all powerful blood-making, blood-cleansing, and life-sustaining elements. It is the purest, safest, and most effectual alterative medicine known or available to the public. The sciences of medicine and chemistry have never produced so valuable a remedy, nor one so potent to cure all diseases resulting from impure blood. It cures **Scrofula and all scrofulous diseases, Erysipelas, Rose, or St. Anthony's Fire, Pimples and Face-grubs, Pustules, Blotches, Boils, Tumors, Tetter, Humors, Salt Rheum, Scald-head, Ring-worm, Ulcers, Sores, Rheumatism, Mercurial Disease, Neuralgia, Female Weaknesses and Irregularities, Jaundice, Affections of the Liver, Dyspepsia, Emaciation, and General Debility.**

By its searching and cleansing qualities it purges out the foul corruptions which contaminate the blood and cause derangement and decay. It stimulates and enlivens the vital functions, promotes energy and strength, restores and preserves health, and infuses new life and vigor throughout the whole system. No sufferer from any disease which arises from impurity of the blood need despair who will give Ayer's Sarsaparilla a fair trial.

It is folly to experiment with the numerous low-priced mixtures, of cheap materials, and without medicinal virtues, offered as blood-purifiers, while disease becomes more firmly seated. Ayer's Sarsaparilla is a medicine of such concentrated curative power, that it is by far the best, cheapest, and most reliable blood-purifier known. Physicians know its composition, and prescribe it. It has been widely used for forty years, and has won the unqualified confidence of millions whom it has benefited.

THE LORD'S PRAYER.

Paraphrased into an acrostic by Thomas Sturtevant, jr., a soldier in the Twenty-Sixth Regiment United States infantry, and a prisoner of war in the Province of Upper Canada, June 7, 1812:

OUR Lord and King, who reign'st enthroned on high,
FATHER of light! mysterious Deity!
WHO art the great I AM—the last, the first—
ART righteous, holy, merciful and just,
IN realms of glory, scenes where angels sing,
HEAVEN is the dwelling place of God our King,
HALLOWED thy name, which doth all names transcend,
BE thou adored, our great Almighty Friend,
THY glory shines beyond creation's space,
NAMED in the book of justice and of grace;
THY kingdom towers beyond the starry skies;
KINGDOM satanic falls, but thine shall rise,
COME let thine empire, O, thou holy one,
THY great and everlasting will be done.
WILL God make known his will, his power display?
BE it the work of mortals to obey,
DONE is the great, the wondrous work of love?
ON Cavalry's cross he died, but reigns above,
EARTH bears the record in thy holy word;
AS heaven adores thy love, let earth, O Lord,
IT shines transcendent, in th' eternal skies,
IS praised in heaven—for man the Saviour dies,
IN songs immortal angels laud his name,
HEAVEN shouts for joy, and saints his love proclaim,
GIVE us, O Lord, our food, nor cease to give
US that food on which our souls may live.
THIS be our boon to-day, and days to come
DAY without end, in our eternal home.
OUR needy soul supply from day to-day;
DAILY assist and aid us when we pray.
BREAD though we ask, yet, Lord, thy blessing lend,
AND make us grateful when the gifts descend.
FORGIVE our sins, which in destruction place
US, the vile rebels of the rebel race;
OUR souls to save, even Adam's guilty race,
DEBTS to thee in gratitude and love,
AND in that duty paid by saints above.
LEAD us from sin, and in thy mercy raise
US from the tempter and his hellish ways,
NOT in our own, but in his name who bled,
INTO Thine ear we pour our every need.
TEMPTATION'S fatal charm help us to shun,
BUT may we conquer through thy conquering Son.
DELIVER us from all which we can annoy
US in this world and my our souls destroy.
FROM all calamities which men betide—
EVIL and death—O turn our feet aside
FOR we are mortal worms, and cleave to clay;
THINE it is to rule and mortals to obey.
IS not thy mercy, Lord, forever free?
THE whole creation knows no God but Thee.
KINGDOM and empire in thy presence fall—
THE King eternal reigns the King of all.
POWER is with thee—to thee be glory given,
AND be Thy name adored by earth and heaven.
THE praise of saints and angels is Thine own—
GLORY to Thee, the Everlasting One.
FOREVER be Thy holy name adored—
AMEN. Hosanna! Blessed be the Lord!

TABERNACLE SERMONS.

Discourse by Rev. T. De Witt Talmage.

POISON.

So they poured out for the men to eat, and it came to pass as they were eating of the pottage that they cried out and said: "O, thou man of God, there is death in the pot;" and they could not eat thereof.—II. Kings, iv., 40.

Elisha had gone down to lecture to the students in the theological seminary at Gilgal. He found the students very hungry, as students are apt to be. It is very seldom the world makes large provision for those who give themselves to intellectual toil. In order that these students may be prepared to hear what Elisha says, he first feeds their hunger. He knew very well it is useless to talk, to preach, to lecture, to argue with hungry men. Christ recognized that fact out in the wilderness when he had a vast multitude to preach to. They were all hungry. Which came first, the sermon or the loaves of bread? The loaves of bread. First, the bread of this life He gives them, then they are ready to receive the bread of the next life. So Elisha, recognizing this common sense principle, which every Christian ought to recognize, sends servants out to get food for these hungry students. They pick up some good, healthful herbs, but they happen to pick up some coloquintida, a bitter, poisonous, deathful herb. They bring all these, they put them into the boiling pot, they stir them up, and then a portion of this food is brought to the students and their professors. Seated at the table, one of the hungry students begins immediately to eat and he happens to get hold of some of the coloquintida. He knew it by the taste. He cries out: "Poison, poison! O, thou man of God, there is death in the pot." Consternation is thrown over the whole group. What a fortunate thing it was this student so early found the coloquintida in the mixture at the table! You will by reference find the story is precisely as I have mentioned it. Well, in our day there are great caldrons of sin and death. Colquintinda of mighty temptation is pressed into it. Some dip it out, and taste, and reject it, and live. Others dip it out, taste it, keep on and die. And it is the business of every minister of religion and every man who wishes well to the human race and who wants to keep the world back from its follies and its sufferings, to cry out: "Beware! poison! poison! Look out for the caldron! Stand back! Beware!" In Florence, there is a fresco by Giotto that for many ages was covered up by two thicknesses of whitewash. It is only within a very few years that the artist's hand has come and removed that covering, and the fresco comes out as fair and beautiful as it was before. You say it was a great sacrifice thus to cover up a fine fresco. Yes, but it is a sadder thing that the image of God in the human soul should have been covered up and obliterated. The work is beyond any human hand to restore the divine lineaments. Sin has done an awful work in our world. It has gone out through all the ages, it has mixed up a great caldron of trouble and suffering and pain, and the whole race is poisoned—poisoned in body, poisoned in mind, poisoned in soul. But blessed be God that the Gospel of Jesus Christ is the antidote, and where there was sin there shall be pardon, and where there was suffering there shall be comfort, and where there was death there shall be life.

Last Sabbath, some of you will remember, I persuaded you of the importance of being charitable in judgment of others. At the same time I said to you briefly what this morning I wish to say with great emphasis, that while we sympathize with the sinner, we must denounce the sin; that while we pity the unfortunate, we must be vehement against transgression. Sin is a jagged thing, that needs to be roughly handled. You have no right to garland it with fine phrases or lustrous rhetoric. You cannot catch a buffalo with a silken lasso. Men are very willing to have their sin looked at, if you look at it in a pleasant light. They are willing to sit for their photographs, provided you take a handsome picture. But every Christian reformer must sometimes come in rough collision with transgression. I was in a whaling port, and I stood on the wharf, and I saw a whaling vessel come in from a long cruise, and I saw it had patched sail and spliced rigging and bespattered deck, showing it had had rough weather and hard work; and Christian philanthropists coming back have to testify that they have not found it like yachting over summer seas, but it has been wrestling with a cyclone, it has been harpooning great behemoths. A group of emigrants settle in a wild region. The next day a wild beast comes down from the mountain and carries off one of the children. The next day a wild beast comes down from the mountain and carries off another child. Forthwith all the neighbors band together, and they go out with torch in one hand and gun in the other to hunt these monsters down, to find their hiding place, to light up and ransack the caverns and to destroy the invaders of their homes. So we want now not merely to talk about the sins and the follies of the world; we want to go behind them, back of them. Down into the caverns where they hide we need to go, with the torch of God's word in one hand and the sword of God's eternal spirit in the other, to hunt out and slay these iniquities in their hiding places. Or, to come back to the figure suggested by my text, we want to find what are the caldrons of sin and death from which the iniquities of society are dipped out.

In the first place, I remark that unhappy and undisciplined homes are the caldrons of great iniquity. A good home is deathless in its influence. The parents may be dead. The old homestead may have been sold, and it may have gone entirely out of the possession of the family. The house itself may be torn down. The meadow brook that wound in front of it may have changed its course, or entirely dried up. The long line of old fashioned hollyhocks and the ridges and hedges of wild rose may have been graded, and in place there may be now the beauties of modern gardening. The old poplar trees may have cast down their crown of verdure, and they themselves may have gone in the dust. Some day you say, "I think I'll go and look at the old place." You go and look at the old place, but O! how changed. Your eyes are full of tears all the time you are walking around the old place. But notwithstanding all the changes in that place, it is holding an influence over you, and will hold an influence over you until you die. The dewdrops that you dashed from the chickweed as thirty years ago you drove the cattle afield, the fireflies that flashed in your father's house on a summer night when the evenings were too short for a candle, the tinged pebbles you gathered into your apron from the margin of the brook, the berries you strung for a necklace, and the daisies you plucked for your hair. They have all become part of the fibre of your immortal nature. The trundle bed where you slept, the chair where you sat, the blue-edged dish out of which you ate, your sister's skipping rope, your brother's ball, your kite, your hoop, your mother's smile, your father's frown, are a part of your indestructible nature. You never get away from it. If you live to ninety years, you will never get away from it. The mother of Missionary Swartz threw light on the brow of the dusky savages to whom he preached thirty years after she was dead. The mother of Lord Byron, through her baleful disposition followed him to the ends of the earth, and stretched a gloom into Childe Harold and Don Juan, and hovered in darkness over the lonely grave at Missolonghi. There is a hand that holds me that long ago turned to dust. Rascally and scoundrelly people for the most part come from iniquitous homes, from undisciplined homes. Parents harsh and cruel on the one hand, or on the other hand loose in their government, wickedly loose in their government, are raising up a generation of vipers. A home where scolding and fretfulness are dominants is blood relation to the gallows and the penitentiary. Petulance is a serpent that crawls up into the family nursery sometimes and crushes everything. Why, there are parents who even make religion disgusting to their children. They scold them for not loving Christ. They have an exasperating way of doing their duty. The house is full of the warhoop of contention, and from such a place husband and son go out to die. O! is there a Hagar leading away Ishmael into the desert to be smitten of the thirst and parched of the sand? In the solemn birth hour a voice fell to thee from the throne of God, saying: "Take this child and nurse it for me, and I will give thee thy wages." At even time, when the angels of God hover over that home, do they hear the children lisping the name of Jesus? O! traveller for eternity, your littles ones gathered under your robes, are you leading them on the right road, or are you taking them out on the dangerous, winding bridle path off which their inexperienced feet may slip, and up which comes the howling of the wolf and the sound of loosened ledge and tumbling avalanche? Blessed is the family altar at which the children kneel. Blessed is the cradle in which the Christian mother rocks the child. Blessed is the song the little one sings at nightfall when sleep is closing the eyes and loosening the hand from the toy on the pillow. Blessed is that mother whose every heartthrob is a prayer for her children's welfare. The world grows old, and the stars will cease to illuminate it, and the water to refresh it, and the mountains to guard it, and the heavens to overspread it, and its long story of sin and shame and glory and triumph will soon turn to ashes; but influences that started in the early hour roll on and roll up through all eternity—blooming in all the joy, waving in all the triumph, exulting in all the song, or shrinking back into all the darkness. Father, mother, which way you are leading your children? A house took fire, and the owner was very careful to get all his furniture out. He got all his book out, and he got all his pictures out, and he got all his valuable papers out, but he forgot to ask, until it was too late, "Are my children safe?" O! when the earth shall melt with fervent heat, and the mountains shall blaze, and the seas shall blaze and the earth shall blaze, will your children be safe? will your children be safe? Unhappy and undisciplined homes are the source of much of the wretchedness and sin of this world. I know there are exceptions to it sometimes. From a bright and beautiful home a husband or a son will go out to die. O! how long you had that boy in your prayers. He does not know how many sleepless nights you have spent over him. He does not understand how many tears you have shed for his waywardness. Oh! it is hard after you have toiled for a child and given him every advantage and every kindness to have him pay you back in ingratitude. As last Sabbath morning a father came to the foot of the pulpit as I stepped out of it and said: "Oh! my son, my son, my son." There is many a young man proud of his mother who would strike into the dust any man who would insult her, who is at this moment by his evil-doing and his bad habits sharpening a dagger to plunge through that mother's heart. A telegram brought in from afar. He went bloated and scarred into the room and he stood by the lifeless form of his mother. Her hair was very gray. It had turned gray in sorrow. Those eyes had wept floods over his wandering. That still white hand had done him many a kindness, and had written many a long invitation and good counsel. He had broken her old heart. He came into the room and threw himself on the casket, and he sobbed outright, "Mother, mother!" But those lips that had kissed him in infancy and uttered many kind words, spake not; they were sealed. Rather than have such a memory come on my soul, I would prefer to have roll over on me the Alps and the Himalaya. "The eye that mocketh at its father and refuseth to obey its mother, the ravens of the valley shall pick it out and the young eagles shall eat." But while sometimes there are some who turn out very badly coming from good homes, I want to tell you for your encouragement it is a great exception. A scoffer asked an old doctor of divinity, "You believe in the Bible?" He replied, "Of course I do." "You believe that passage, "Train up a child in the way he should go and when he is old he will not depart from it?" "Of course I do." "Well," said the scoffer, "Doctor, how then do you account, how then do you harmonize that with the behavior of your bad boy Bill?" The old doctor of divinity, a professor in one of the colleges, said to the scoffer: "You don't put the emphasis on the right word; you put the emphasis on the right word, and it's all right. Train up a child in the way he should go, and when he is *old* he will not depart from it. Bill isn't old yet." Sure enough, God kept His promise, and the wandering son came to his father's God and lived many years of eminent Christian character and died in the glorious hope of the gospel. O! ye who have wandering sons, they are not old yet. Notwithstanding all this we must admit that an unhappy and undisciplined home is the poisonous caldron from which a vast multitude drink their death.

I remark that another caldron of iniquity is an indolent life. All the rail trains down the Hudson river yesterday, all the rail trains on the Pennsylvania route, all the trains on the Long Island road brought to these cities young men to begin commercial life. Some of them are here this morning, I doubt not. Do you know what one of your great temptations is going to be? It is the example of indolent people in our cities. They are in all our cities. They dress better than some who are industrious. They have access to all places of amusement, plenty of money, and yet idle. They hang around our great hotels—the Pierrepont House, the Fifth Avenue, the Windsor, the Brunswick, the Stuyvesant, the Gilsey House—all our beautiful hotels. You find them around there any day—men who do nothing, never earn anything, yet well-dressed; they have plenty. Why should I work? Some of them hang around the City Halls of our great cities, toothpick in their mouth, waiting for some crumb to fall from the officeholder's table. Some of them hang around the City Hall for the city van bringing criminals from the station houses. They stand there and gloat over it—really enjoy the disgrace and suffering of those poor creatures as they get out of the city van and go into the courts. I should as soon think of standing at the gate of Greenwood to enjoy a funeral as to stand at the City Hall when the city van comes up, and look at the men and the women who are moral carcasses—men and women slain for both worlds. I cannot see how any people can find satisfaction in looking at them. But these people have nothing to do. They wander about. Where do they get their money? That is what they ask. Only four ways of getting money—only four: by inheritance, by earning it, by begging it, by stealing it, and there are a vast multitude among us who get their living not by inheritance, nor by earning it, nor by begging it. I do not like to take the responsibility of saying how they get it! Now, these men are a constant temptation. Why should I toil and wear myself out in the bank, or the office, or the store, or the shop, or the factory? These men have nothing to do. They get along a great deal better, and that is the temptation under which a great many young men fall. They begin to consort with these men, these idlers, and they go down the same awful steeps. The number of men in our cities, who are trying to get their living by their wits and sleight of hand, is all the time increasing. A New York merchant saw a young man, one of his clerks, in half disguise going into a very low place of amusement. The merchant said to himself: "I must look out for that clerk; he is going in bad company and going in bad places; I must look out for him." A few months passed on, and one morning the merchant entered his store and this clerk of whom I have been speaking came up in assumed consternation and said: "Oh, sir, the store has been on fire; I have put out the fire, but there are a great many goods lost; we have had a great crowd of people coming and going!" Then the merchant took the clerk by the collar and said: "I have had enough of this; you cannot deceive me. Where are those goods that you stole?" The young man instantly confessed his villainy. O, the numbers of people in these great cities who are trying to get their living not honestly! And they are a mighty temptation to the industrious young man who cannot understand it. While these others have it so easy they have it so hard. Horatius of olden time was told that he could have just much ground as he could plough around with a yoke of oxen in one day. He hooked up the oxen to the plough, and he cut a very large circle and ploughed until he came to the same point where he started. All that property was his. But I have to tell you to-day that just so much financial, just so much moral, just so much spiritual possession you will have as you compass with your own industries—just so much as from the morning of your life to the evening of your life you can plough around with your own hard work. "Go to the ant, thou sluggard; consider her ways and be wise." One of the most awful caldrons of death to-day is an indolent life. Thank God that you have to work.

Once more I remark, that the dramshop is a great caldron of iniquity in our time. Anacharsis said that the vine bore three grapes. The first was pleasure, the next was drunkenness, and the next misery. Richard III. drowned his own brother in a butt of wine. Both incidents very typical. Every drinking saloon above or under ground is a fountain of iniquity. It may have a license, and it may go along quite respectably for a while; but after a while the cover will fall off, and the color of the iniquity will be displayed. You put a grogshop in the finest block of houses in New York or Brooklyn, and the property goes down 5 per cent., 10 per cent., 20 per cent., 30 per cent., 40 per cent, 50 per cent. How much is that house worth to day? Thirty thousand dollars. Let a grogshop be opened next door with some prospects of continuance for a long time. How much will the property be worth to-morrow? Twenty-five thousand dollars? No. Twenty thousand? No. Fifteen thousand? Perhaps. Fifty per cent. off. "Oh!" says someone, "you ought to be easier on such a traffic as that when it pays such a large revenue to the government, and helps support your schools and your great institutions of mercy." And then I think of what William E. Gladstone said—I think it was the first time he was Prime Minister of England—when men engaged in the ruinous traffic came to him and said their business ought to have more consideration from the fact that it paid such a large revenue to the English government. Mr. Gladstone said: "Gentlemen, don't worry yourselves about the revenue; give me 30,000,000 of sober people, and we'll have revenue enough and a surplus. We might in this country—this traffic perished—have less revenue, but we would have more happy homes, and we would have more peace and we would have fewer people in the penitentiary, and there would be tens of thousands of men who are now on the road to hell who would start on the road for Heaven. But the financial ruin is a very small part of it. This iniquity of which I speak takes everything that is sacred out of the family, everything that is holy in religion, everything that is infinite to the soul and tramples it under foot. The marriage day has come. The twain are at the altar. Lights flash. Music sounds. Gay feet go up and down the drawing room. Did ever a vessel launch on such a bright and beautiful sea? The scene changes. Dingy garret. No fire. On a broken chair a sorrowful wife. Last hope gone. Poor, forsaken, trodden under foot, she knows all the sorrows of being a drunkard's wife. "Oh!" she says, "he was the kindest man that ever lived; he was so noble, he was so good. God never made a grander man than he was, but the drink did it, the drink did it!" Some day she will press her hands against her temples and cry: "Oh! my brain, my brain!" or she will go out on the abutment of the bridge some moonlight night and look down on the glassy surface and wonder if under that glassy surface there is not some rest for a broken heart. A young man, through the intercession of metropolitan friends, gets a place in a bank or store. He is going to leave his country home. That morning they are up early on the old homestead. The trunk is on the waggon. Mother says: "My son, I put a Bible in the trunk. I hope you will read it often." She wipes the tears away with her apron. "Oh!" he says, "come, don't you be worried. I know how to take care of myself. Don't be worried about me." The father says, "My son, be a good boy and write home often; your mother will be anxious to hear from you." Crack goes the whip, and over the hills goes the waggon. Five years have passed on, and a dissipated life has done its work for that young man. There is a hearse coming up in front of the old homestead. The young men of the neighborhood who have stayed on the farm come in and say, "Is it possible? Why he doesn't look natural, does he? Is that the fair brow we used to know? Is that the healthy cheek we used to know? It can't be possible that is him!" The parents stand looking at the gash in the forehead, from which the life oozed out, and they lift their hands and say, "My son Absolom, my son, my son Absolom! Would God I had died for thee. O, Absolom! my son, my son."

Lorenzo de Medici was very sick, and some of his superstitious friends thought if they could dissolve a certain number of pearls in a cup and then he would drink them, it would cure him of the disease. So they went around and they gathered up all the beautiful pearls they could find, and they dissolved them in a cup and the sick man drank them. O! it was an expensive draught. But I tell you of a more expensive draught than that. Drunkenness puts into its cup the pearl of physical health, the pearl of domestic happiness, the pearl of respectability, the pearl of Christian hope, the pearl of an everlasting Heaven, and presses it to the hot lips. I tell you the dramshop is the gate of hell. The trouble is they do not put up the right kind of a sign. They have a great many different kinds of signs now on places where strong drink is sold. One is called the "restaurant," and another is called the "saloon," and another is called the "hotel," and another is called the "wine cellar," and another is called the "sample room." What a name to give one of those places! A "sample room!" I saw a man on the steps of those "sample rooms," the other day, dead drunk. I said to myself: "I suppose that is a sample!" I tell you it is the gate of hell. "Oh," says some man, "I am kind, I am indulgent to my family, I am right in many respects. I am very generous and I have too grand and generous or moral a nature to be overthrown in that way." Let me say that the persons who are in the most peril have the largest hearts, the best education, the brightest prospects. Thus sin chooses the fattest lambs for its sacrifice. The brightest garlands are by this carabuncled hand of drunkenness torn off the brow of the poet and the orator. Charles Lamb, answer! Thomas Hood, answer! Sheridan, the English orator, answer! Edgar A. Poe, answer! Thomas Marshall, answer! Oh! come and look over into it while I draw off the cover; hang over it and look down into it and see the seething, boiling, loathesome, smoking, agonizing, blaspheming hell of the drunkard. Young man, be master of your appetites and passions. Oh! there are hundreds—might I not say thousands—of young men of fair prospects. Put your trust in the Lord God and all is well. But you will be tempted. Perhaps you may this moment be addressed on the first Sabbath of your coming to the great city, and I give you this brotherly counsel. I speak not in a perfunctory way. I speak as an older brother. I put my hand on your shoulder this day and commend you to Jesus Christ who Himself was a young man and died while yet a young man and His sympathy for all young men. Oh! be master by the grace of God, of your appetites and passions. Frederick the Great, before he was the Great, sat with his roystering and drunken companions at a table, and they were half imbecile in their drunkenness, when there was a knock at the door and a messenger came in with the announcement that his father was dead and that the empire was his. He rose from the table, stepped out from the boisterous crew, and said: "Stop your fooling; I am emperor!" O, young man, by imperial command bring your appetite and passions under control. "Better is he that ruleth his spirit than he that taketh a city." Be emperor!

I close with a peroration. Ministers and speakers are very apt to close with a peroration, and they generally roll up some grand imagery to express what they have to say. I close with a peroration mightier than was ever uttered by mere human lips. Two quotations. The first is this:

"Who hath woe? who hath babbling? who hath wounds without cause? They that tarry long at the wine; they that go to seek mixed wine. Look not upon the wine when it is red, when it moveth itself aright in the cup; for at the last it biteth like a serpent and stingeth like an adder."

Here is the other quotation. Make up your mind as to which is the more impressive. I think the last is the mightier.

"Rejoice, O young man, in thy youth, and let thy heart cheer thee in the days of thy youth, and walk thou in the sight of thine own eyes; but know thou that, for all these things, God will bring thee into judgment."

Unlike other cathartics, Dr. Pierce's "Pellets" do not render the bowels costive after operation, but, on the contrary, establish a permanently healthy action. *Being entirely vegetable* no particular care is required while using them. By druggists.

"THE BEARE IS A BEASTIE," says a quaint old book, published in London three centuries ago, "whose flesh is good for mankynd; his fat is good, with laudanum, to make an ointment to heale balde-headed men to receive the hayro agayne." We know of many "balde-headed men" who would be glad to "receive the hayre agayne," but we do not desire to encourage them in a trial of Bear's fat and laudanum. Far from it. We, however, do not hesitate to commend Dr. J. C. Ayer & Co.'s Hair Vigor, which not only has the effect in some cases of making the hair grow on heads once bald, but cleans the scalp and restores gray and faded hair to its original color and vitality, imparting to it the glossiness and softness of youth. The evidences of its utility are too numerous and of too high a character to admit of any doubt. It required years of study and scientific experiment to decide upon the combination of ingredients that would accomplish what Ayer's Hair Vigor now does. —*The Interior, Chicago, Ill.*

Dropsy is essentially a watery condition of the Blood, dependent upon disordered Kidneys. Burdock Blood Bitters are strongly Diuretic and consequently the best known remedy, acting as it does upon the entire Secretory System.

Samson lost his strength with his hair. Thousands of men and women lose their beauty with theirs, and very large numbers restore the ravages of time by using the famous Cingalese Hair Restorer. Sold at 50 cents per bottle by all Druggists.

BAD BLOOD.—The blood is the true essence of vitality, without pure blood there can be no healthy action in the system. Boils, bloches, pimples and the various humors and blemishes of the skin are only symptomatic of bad blood—that needs purifying at its fountain head, to render its tributaries pure. Burdock Blood Bitters effectually cleanse the blood from all humors, obtains a healthy action of the liver, bowels, kidneys, skin, etc, and strengthening while it regulates and purifies.

Mothers! Mothers!! Mothers!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere at 25 cents a bottle.

☞The most wonderful curative remedies of the present day, are those that come from Germany, or at least originate there. The most recent preparation placed upon the market is this country, is the GREAT GERMAN INVIGORATOR, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangements of the nervous system. For sale by druggists, or sent free by mail on receipt of the price, $1.00 per box, or six boxes for $5.00. Address James Clark & Co., Sole agent for Belleville. Send for circular.

CINGALESE. A name well known in connection with the HAIR RENEWER, which restores grey hair to its natural color by a few weeks use. Sold at 50 cents per bottle by all Druggists.

FOR THE LIVER
ZOPESA
CURES
DYSPEPSIA
AND FOUL STOMACH

ZOPESA.
(FROM BRAZIL.)

The New Compound, its wonderful affinity to the Digestive Apparatus and the Liver, increasing the dissolving juices, relieving almost instantly the dreadful results of Dyspepsia, Indigestion, and the TORPID LIVER, makes Zopesa an every day necessity in every house.

It acts gently and speedily in Biliousness, Costiveness, Headache, Sick Headache, Distress after Eating, Wind on the Stomach, Heartburn, Pains in the Side and Back, Want of Appetite, Want of Energy, Low Spirits, Foul Stomach. It invigorates the Liver, carries off all surplus bile, regulates the Bowels, and gives tone to the whole system.

Cut this out and take it to your Druggist and get a 10 cent Sample, or a large bottle for 75 cents, and tell your neighbor about it.

THE GREATEST
WONDER OF MODERN TIMES!

NEVER DESPAIR

HOLLOWAY'S
PILLS AND OINTMENT.

THE PILLS

purify the Blood, correct all Disorders of the LIVER, STOMACH, KIDNEYS, AND BOWELS.

They invigorate and restore to health *Debilitated Constitutions,* and are invaluable in all Complaints incidental to Females of all ages. For Children and the aged they are priceless.

THE OINTMENT

is an infallible remedy for Bad Legs, Bad Breasts, Old Wounds, Sores and Ulcers. It is famous for Gout and Rheumatism. For disorders of the Chest it has no equal.

FOR SORE THROATS, BRONCHITIS, COUGHS, COLDS, GLANDULAR SWELLINGS, and all Skin Diseases it has no rival.

Manufactured only at Professor HOLLOWAY'S Establishment,

78, New Oxford St. (late 533, Oxford St.) London,

and sold at 1s. 1½d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Box and Pot, and in Canada at 36 cents, 90 cents, and $1 50 and the larger sizes in proportion.

☞*CAUTION.—I have no Agent in the United States, nor are my Medicines sold there. Purchasers should therefore look to the Label on the Pots and Boxes. If the address is not 533, Oxford Street, London, they are spurious.*

The Trade Marks of my said Medicines are registered in Ottawa, and also at Washington.

J. H. SIMPSON,
Chairman Div. No. 7.
N. B. FALKINER,
Chairman Div. No. 8.

Daily Intelligencer.

BELLEVILLE, SATURDAY, SEPT. 30.

The Campaign.

The election campaign on behalf of Mr. Rose was fairly opened last night by a very influential meeting of his friends in the Conservative Association's rooms. The work of organization was perfected by the election of a Central Committee and Ward Committees, the personnel of which latter bodies will be almost identical with that of those formed for the Commons election in June last. Mr. John Taylor was unanimously chosen Chairman, and Mr. W. J. Diamond Secretary, of the Central Committee. A better selection could not have been made. Mr. Rose, Hon. L. Wallbridge, and other gentlemen, made brief speeches. The campaign thus auspiciously opened wil now be prosecuted with vigor to a successful conclusion.

The Ward Committees will meet at the call of their Chairman, and the Central Committee will meet on Thursday evening.

Catarrh of the Bladder.

STINGING irritation, inflammation, all Kidney and Urinary Complaints, cured by "Buchupaiba." $1.

—In an interview with Sir John A. Macdonald on Friday a deputation of the Brotherhood of Locomotive Engineers were informed by the Premier that the Government were not responsible for the dismissals from the Intercolonial of the members of the Brotherhood. The request of the deputation that the dismissed men be reinstated was referred to Sir Charles Tupper, who is absent at present.

PEARLS.—Get your mouth full by using "TEABERRY," the new wonder for the Teeth and Breath. Brush vigorously. See directions. 5 cent samples.

PROCLAIM it far and wide that DR. VAN BUREN'S KIDNEY CURE not only immediately relieves all Kidney diseases, but what is more important to the unfortunate sufferer, will ultimately cure him effectually.

License Commissioners.

As evidence that the Mowat Government have acted fairly in the appointment of License Commissioners, the Huron *Signal*—a Grit paper says:

> For many years Mr. Shannon, the late Tory candidate in South Huron sat on the Board of License Commissioners in East Huron, and in West Huron Mr. John Acheson, who was an active supporter of Mr. Porter in the West Huron election, occupies a seat at the License Board. The lies about no Conservative being Commissioner won't take in this county.

We should like the *Signal* or the *Globe*, which quotes the above approvingly, to state if at any time there has been more than one Conservative on the Board in Huron or elsewhere—if, in other words, the Grits have not always had control since the political scheme of appointing License Commissioners to control the liquor traffic was put into execution. In West Hastings there has generally been one Conservative on the Board—except, we believe, in 1880 and 1881, when the blackmailing was perpetrated, but of course he was powerless, the two Grits doing as they chose, and this the more readily as the Commissioners met in private. One Conservative member of the Board in this district was, in fact, obliged to resign because he would not approve of the proceedings of his fellow members of the Board. This shows how the Mowat Government have been trying to humbug the people by appointing a few Conservatives as License Commissioners, taking care at the same time that the power should remain in the hands of their own supporters.

We have challenged the *Globe* to show one single license division in which the Board of Commissioners was composed of two Conservatives and one Grit. It has not replied, for the very good reason that it cannot do so. What, then, becomes of the pretence of liberality made on behalf of our Ontario rulers? We have also laid before the public the facts as to infamies that were perpetrated under the law here; but the *Globe* has passed them by in silence, and so has our local contemporary, which promised, on proof being adduced, to join in the condemnation of the offenders. No better proof can be given than the fact that the parties whom we have charged with these offences, after threatening libel suits, have not dared to appeal to a jury of their country, or, if anxious, it could get the facts from the Treasurer's Report. Still, our contemporary and the other Grit organs remain silent, because the offenders are Grits, thus proving that they are ready to condone any iniquity, provided the offenders are their political friends. The same spirit animates the heads of the party, hence the failure to hold an investigation, the use of Hardy's intolerant shears, and other acts of the most contemptibly mean nature, born of heated partizanship.

It is a Government that rendered such things possible by enacting a law in their lust for power, under which they can be perpetrated, and winks at their perpetration, that Mr. Lee would support and assist in maintaining in power. Will the electors of West Hastings endorse such villanies by sending Mr. Lee to the Legislature? We can not insult them by supposing that they will do so.

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists,

Editorial Brevities.

The Ottawa *Free Press* says:

> Interference of Federal Ministers in provincial elections is regarded with justifiable alarm in the Maritime provinces.

What of the interference of Provincial Ministers in Federal elections?

Says the Kingston *News*:—"Mr. John Lee, the Grit candidate selected to contest West Hastings in the interest of the Mowat administration, was an independant in May last, when he issued an address declaring that he had found the National Policy to be a wise and prudent piece of legislation. Now, if this be the case, Mr. Lee will be in duty bound to oppose the Mowat clan when they declare war against the aforesaid N. P. Nineteen-twentieths of the electors are said to be unacquainted with Mr. Lee, but the remnant would do well to bear his inconsistent attitude in mind."

Some of the Grit papers have been publishing long columns of figures anent the working of the Crooks Act, but they omit to particularize the amounts paid by applicants for licenses as black mail, and by owners of premises to indemnify Commissioners for breaking the law by granting licenses in excess of the limit fixed by law.

The ferry lease has nearly expired, but the Mowat Government will not decide on the claims of Belleville and Ameliasburg, Mr. Striker wishing to make political capital out of the matter. The trade of Belleville and part of Prince Edward may suffer, but what care the Ontario Government so long as one of their supporters can forward his political ends?

Don't die in the House.

"Rough on Rats." Clears out rats, mice, roaches bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

Belleville Cheese Market.

BELLEVILLE, Sep. 30.

The cheese market remains in a very unsatisfactory state for all interested. The cable has fallen to 54s. but factorymen cannot make up their minds to accept the situation. In Brockville on Thursday 10½c. was taken for August make, and 11c. for the balance of the season. These figures are about the ideas of buyers here, but we did not hear of any transactions.

O. Bortle, of Manchester, Ontario Co., N.Y. writes:—"I obtained immediate relief from the use of *Dr. Thomas' Eclectric Oil*. I have had Asthma for eleven years. Have been obliged to sit up all night for ten or twelve nights in succession. I can now sleep soundly all night on a feather bed, which I had not been able to do previous to using the Oil."

Nervous debility is a result of indiscretion in the mode of living. Heed nature's unerring laws and take Burdock Blood Bitters, the Great System Renovator and Blood, Liver and Kidney regulator and tonic. Sample bottles 10 cents.

Literary Notice.

The Westminster Review, No. 233, July 1882. Contents: Canada as a home; Camille Desmoulins; the Decay of Faith; Darwin; Kant's Moral Philosophy; England's first football in the East; Caroline Fox, John Sterling and John Stuart Mill; Invention and Patent Law; Contemporary Literature; India and our Colonial Empire.

The first named article is a clear, well written exposition of the advantages, natural, political and social, which our country offers as a field of emigration, over those that are presented by other colonies, and especially by the United States. The second is a concise sketch of the career of one of the prominent characters of the first French Revolution. Article four is an interesting resume of the life and works of the late Charles Darwin, and the remaining arricles will be read with more or less interest according to the peculiar bent of the reader's mind. The third article we cannot allow to pass with such slight notice. We feel it a solemn duty to enter a firm and uncompromising protest against the cool assumption of the author to represent the opinion of the present generation of mankind, when he denies in plain and unmistakeable terms the truth of the Christian religion, the immortality of the soul, and the very existence of a God.

In order that we may not be suspected of putting a forced interpretation upon, or misrepresenting, or in any degree exaggerating the tenor or intention of the reviewer, we shall give a few extracts, the *ipsissima verba* of the author, from the article.

"Every scientific discovery, every mechanical device or engineering triumph, every industrial success that afforded increased employment or placed additional comforts within the reach of the masses, brightened life here, and dimmed the conception of a life hereafter. Whatever added to the dignity and sense of power of humanity, every victory over nature, weakened men's sense of dependence upon the "unseen and unspiritual." * * * With increased happiness here, men sigh faintly for the doubtful happiness hereafter. Although not extinguished, yet it must be admitted that religion under the influences we have described has been not only profoundly modified but attenuated. Its influence has declined, its area has been circumscribed It no longer commands the absorbing interests of all classes, as it did but a century or two ago. Religion has now come to be regarded as a holiday suit to be donned on special occasions and on Sundays. Practically, all that is left to religion is a shadowy belief in a Deity, and in a future life."

"The idea of the universal reign of law, and the gradual abandonment of the notion of divine interference with natural operations or the course of events, has resulted, however, in a material decay in the belief in the efficacy of prayer, a decline in its habitual use, and a corresponding loss of influence to religion."

"But theology has made another and even more powerful appeal to our lower instincts. It affirmed a future and eternal state of existence for the human soul. * * * This doctrine of the immortality of the human soul is of a comparatively modern and restricted origin. * * * Besides to interpose the existence of soul is to destroy the homogeneity of creation. An immortal human soul is an anachronism in the cosmos, and is analogically an impossibility."

"At what time did man come to have an immortal soul? Why should man have that inestimable privilege more than other animal forms?"

"The idea of the universal reign of law has now excluded all conceptions of personal interference with the order of natural events. The spiritual world has wholly disappeared, and materialism, pure and simple, usurps its place."

"The utter disproportion between the scanty evidence of the truth of Christianity, and the vast superstructure which it professes to support, is becoming to the laity painfully apparent."

"The historical basis of Christianity has vanished. The logical evidence used in support of the central thought of theology receives no countenance from modern science. The class isolated and interested to defend religion is distrusted and discredited. Morality needs no support from religion; and, indeed, is stifled by the parasitical growth entwining it in its poisonous folds. The material advantages promised to the earnest prayers of true believers have disappeared before science like a morning mist under a summer sun. Only the dream of immortality, as baseless a phantasy as ever beguiled the human judgment, remains as an effective opinion, propping up the cumbering fabric of religion and superstition."

We trust that we have given enough of the article in question to justify our thorough condemnation of the author and his ideas. Most especially do we indignantly repudiate his assumption to speak the sentiments of the mass of mankind now existing, while in fact he only expresses the baseless conclusions of a numerically insignificant clique of pseudo philosophers, who have a much smaller right to speak for the living millions than the three tailors of Tooley Street to speak for the people of England; and we can only describe it as a foul, false and scandalous libel on human nature itself, to impute such a creed of negations to any considerable portion of its living representatives.

The title of his paper is a misnomer, and contains a falsehood. Faith is not decaying. It is undergoing a process of purification from the absurdities and puerilities with which it has been encumbered and disfigured, and as these blemishes fall off successively under the efforts of faithful workers, the great and grand principles of our religion, the existence of GOD, the immortality of the human soul, the responsibility of man to his Maker, and the remission of sins through the sacrifice of Christ, will shine forth in increasing lustre through all future generations.

Bright's Disease, Diabetes.

Beware of the stuff that pretends to cure these diseases or other serious Kidney, Urinary or Liver Diseases, as they only relieve for a time and make you ten times worse afterwards, but rely solely on Hop Bitters, the only remedy that will surely and permanently cure you. It destroys and removes the cause of disease so effectually that it never returns.

One dose of BAXTER'S MANDRAKE BITTERS will relieve Sick Headache. One bottle effects a cure. Price 25c. per bottle.

Professor Bowlin's Great Golden Seal Discovery.

The greatest and latest discovery of the nineteenth century. A sure and permanent cure for Fits, Hysterics, Dizziness, and all nervous complaints. When ordering a bottle send full description of disease, age and condition of patient, advice free, price $1.00 per bottle. RICHERS, BARBEAU, & Co., 101 St. Francios Xavier St., Montreal, sole agents for Canada.

"READING NOTICE."

"Twenty-four years' experience," says an eminent Physician, convinces me that the only cure for "Nervous Exhaustion" and weakness of the generative organs is to repair the waste by giving Brain and Nerve Foods, and of all the remedies I have used Mack's Magnetic Medicine is the best. This remedy is now sold by all our Druggists at 50 cts. per box, or 6 for $2.50, and on receipt of an order for 12 boxes, accompanied with $5.00, addressed to Mack's Magnetic Medicine Co., Windsor, Ont., they will forward the goods free, by mail, and send their "written guarantee" to refund the money, if the treatment does not effect a cure. See adv't in another column. Sold in Belleville by Jas. Clark & Co,

COUGHS AND COLDS.—If taken in time are easily cured,—if allowed to continue will result in incurable consumption. Allen's Lung Balsam has the confidence and support of the medical faculty, and is recommended by all who are acquainted with its virtues.

A SIMPLE herb found on the sunny plains of a Southern clime has, under the skillful manipulation of DR. VAN BUREN, proved one of the greatest blessings ever sent to sufferings humanity. DR. VAN BUREN'S KIDNEY CURE is acknowledged all the world over as the only perfect remedy for Kidney troubles. Your druggist has it.

The Diamond Dyes always do more than they claim to do. Color over that old dress. It will look like new. Only 10 cents

Dr. E. C. West's Nerve and Brain Treatment is a never failing cure for Nervous Neuralgia, Nervous Headache, Overworked Brain, &c. Sold at James Clarke & Co's.

WELLAND CANAL.

Notice to Contractors.

SEALED TENDERS, addressed to the undersigned and endorsed "Tender for Welland Canal," will be received at this office until the arrival of Eastern and Western mails on FRIDAY, the 6th day of OCTOBER next, for forming, at the water line, a stone facing or protection to the banks of the canal on the summit level between Thorold and Humberstone.

Specifications of the work to be done can be seen at the offices of the Resident Engineers at Thorold and Welland, where forms of Tender, and general information on subject, can be obtained on and after MONDAY, the 25th instant.

Contractors are requested to bear in mind that tenders will not be considered unless made strictly in accordance with the printed forms.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,
A. P. BRADLEY,
Secretary.

BELLEVILLE, SATURDAY, SEPT. 30.

City and Vicinity.

Two drunks were in the cells last night.

THE *Parisian* arrived at Rimouski at 3:40 a.m. to-day.

HARRY WEBBER in "Nip & Tuck" will be here on Monday, Oct. 9th.

A REGULAR meeting of the City Council will be held on Monday evening.

THE fall openings of Ritchie & Co. and Costello will take place on Tuesday next.

IF you want a perfect fitting suit go to John Lazier & Son, and try their new cutter. 113d3tw4w

THE Congregation of Christ Church is to have "its darkness lightened" by a new gas-lamp.

THE new comet can be seen now every morning about 4 o'clock. It is a beautiful spectacle.

G. E. HENDERSON, Q. C., has been appointed to conduct the Crown business at Peterboro'.

A MEETING of the Bay of Quinte Yacht Club will be held next Wednesday evening, at Hambly's.

MESSRS. J. M. WALKER & Co. are thinking about lighting their enlarged premises with electric light.

THE South Hastings Teachers' Convention will be held on Thursday and Friday, Oct. 12th and 13th.

CITY Mission meeting at Mrs. Bonter's, corner of Pinnacle St., to-morrow evening commencing at 7 p.m.

SEVERAL fine woodcocks, shot by Mr. H. G. Pretty, are to be seen in the window of St. George's Restaurant.

MESSRS. Walmsley & Spafford have erected a handsome new sign at their store in the Victoria buildings.

THE Philadelphia Church Choir will give an operatic performance in the Metropolitan Hall on Thursday, Oct. 26th.

REV. DR. WILSON, of Kingston, will occupy the pulpit of Christ Church to-morrow, morning and evening.

It is probable that quite a number of Bellevillians will "take in" the cheap excursion to Chicago on Tuesday next.

THE Canada Consolidated Gold Mining Co. have just finished another roasting furnace, which is already in operation.

DR. JEFFERS has returned home from the General Conference, and will occupy the pulpit of Bridge St. Church to morrow.

IT is said that Rev. Father Brettargh intends coming back to Trenton, to live the remainder of his days among his old parishioners.

MR. E. GINGRAS has engaged about 25 men to work on the Murray Canal, and will take them up to the scene of operations to-morrow afternoon.

A LARGE amount of goods was disposed of at the Customs sales which was held yesterday. Several enviable bargains were secured by purchasers.

MR. LINGHAM wishes us to state that the horse driven by him on Thursday at the West Hastings Fair was his own, and not the property of Mr. Palmer.

WE have to thank Mr. Mathison, Superintendent of the Deaf and Dumb Institute, for a magnificent bouquet of dahlias, some of the flowers composing which are amongst the finest of the kind we have ever seen.

CALL at Reynolds' and see his immense stock of ten cent selection music full size, latest songs, waltzes, galops, operas, &c. Butterick's patterns now complete.

THERE were only two cases before the Police Magistrate this morning—Wm. Frizzel, a vagrant, who was fined $1.00, and Benj. Williams, drunk, also fined $1.00.

THE example of Miss Marianna Butcher, who ran away from her home in Stirling, but returned a few days ago, has influenced a younger sister, who has also left home without leave.

A NUMBER of desirable lots in Belleville, belonging to the Reynolds estate, are to be sold by auction by Mr. Wilkins at the Dominion House on October 24th. See advertisement for particulars.

IN our issue of the 28th, W. J. Thorburn was credited with having received sixth prize for colored cheese, at the Provincial Exhibition, instead of W. H. Thompson, of West Huntingdon.

REVS. DR. JEFFERS and S.J. Shorey, of this city, are to deliver addresses at the opening of a new Methodist Church near Stirling next Wednesday, and Mr. Shorey will preach on the following Sunday.

AN effort is being made by several local liberals to secure the services of ex-Rev. Geo. Chainey, the noted American orator, for one lecture in Belleville. Mr. Chainey was at one time a clergyman, but is now one of the most conspicuous opponents of orthodoxy on the continent.

Two more "Uncle Tom's Cabin" Companies are booked at the Metropolitan Hall within the next month—Fred R. Wren's Company on the 11th, and Anthony & Ellis' on the 28th of October. There is a probability of another company, playing the same piece, coming in between these two dates.

THE Trenton *Courier* informs us that the Murray Canal contractors are working 30 teams and 75 men at the upper end of the canal. Their dredge will be at work at once in Presqu'Ile entrance. They have 40 men cutting down the bush on the line of the canal through Benj. Rowe's farm, making it into 30 inch wood for the dredges.

MR. W. HUNTER, formerly of the Prince Edward House, had a narrow escape from death yesterday. While he and a companion were shooting snipe on the south side of Zwick's Island, some other party was shooting from the mainland at a mark on the island, and a rifle ball struck Mr. Hunter's hat, piercing the crown and just grazing his head.

A MEETING of the Finance Committee of the City Council was held last evening. The only business transacted was the passage of a few accounts, as follows:—Wm. Connors, lighting coal oil lamps for one quarter, $174.53; H. B. Rathbun, coal, $21.24; same, $23.52; R. McCoy, teaming, $6 50; same, $7.50; H. Owens, shingles, $11.00; Street pay-list, $308.45; INTELLIGENCER Pub. Co., $138 24.

R. S. WILLIAMS & Sons, Toronto, piano forte manufacturers, do not expect or wish to sell their goods on other makers' reputation. Their piano is no imitation, but is the genuine article, manufactured in the largest factory in Canada, and of the very best material, thoroughly seasoned, and will compare favorably with the very best genuine American pianos. W. BRINKMAN, Agent.

As the G. J. R. train from Peterboro' was coming down Pinnacle street this morning, a farmer's horses and waggon were standing on the track near the Custom House, and came very near being run over. The engineer reversed the engine just in time, and the train stopped within a few feet of the waggon. Two or three seconds later and the horses, and probably the driver, would have been run into and perhaps killed.

THE A. & A. Egyptian Rite of Memphis was introduced into Peterboro, on Thursday evening by the institution of Beniah Rose Croix Chapter, No. 10, by M. Ill. Bro. Robert Ramsay 96°, Grand Master, assisted by R. Ill. Bro. Lawrence H. Henderson 95°, Provincial Grand Master, Eastern Ontario, R. Ill. Bro. E. H. D. Hall, Provincial Grand Master, Central Ontario, and R. Ill. Bro. J. Parker Thomas 95°, Grand Orator.

As there is a rumor afloat that Madame Tourgis intends leaving the city, she takes this opportunity of contradicting this report and at the same time begs to state that she has resumed her classes in Music and French. Madame T. will be happy to receive pupils desirous of taking lessons. A reduction in terms will be made to those taking up both branches. Madame T. is also desirous of organizing a French class for young boys. There are still vacancies open for those wishing to join the class which is now forming. For terms, etc., apply at residence 214 George street.

THE Water & Gas Committee of the City Council met last night, those present being Alderman McIninch (Chairman), Dunnet, Laroche, Macoun and Tickell. The principal business transacted, besides the passage of two or three accounts, was a recommendation to have the account of the Gas Company referred back to the Committee to have it paid in full—Mr. Earle, the Secretary of the Company, having made satisfactory explanation. The amount of the account is $960.05. It was decided to recommend that the petition of John Grotto, asking for the privilege of erecting a tank and pump near the new ferry dock, be granted—subject to removal by order of the Council. The petition asking for a water-supply for the tank near Severn's brewery, was laid over. It was decided to recommend that a new gas lamp be placed near Christ Church, and the coal-oil lamp already there be changed to a gas-lamp.

SERIOUS ACCIDENT.—A little boy, son of Mr. John Kelly, Front of Sidney, yesterday was going to school when, in endeavoring to jump into a milk waggon, he slipped and caught his foot in the wheel, which, in its revolution, drew the boy's leg up under the box of the waggon and against a bolt. The bolt ran down through the box, and the leg was lacerated in a horrible manner, the flesh being stripped from the bone. The boy is in delicate health and his recovery is doubtful.

OLD DOCUMENTS.—Mr. R. Crawford, of this city, has in his possession a letter dated Montreal, September 9th, 1783, addressed to his grandfather, Capt. Crawford, 2nd battalion King's Royal Regiment, Carleton Island, by one John Johnson. The writer requests Capt. Crawford to obtain for him "a private grant of the island of Tanti (Amherst Island) and the land opposite to it on the main, between the two rivers I have marked with two dots each, as far up as you may judge it worth while, two, three or four miles, till it reaches places fit for mills, if any in them." The letter is written in a good hand and the spelling is generally in accord with modern ideas. Accompanying it is a little "hasty sketch of the north shore of Lake Ontario from Presqu'Ile, on the Carrying place at Kente Bay to Toniata on the St. Lawrence." This little sketch is pretty accurate in some respects, but is erroneous in others. A "Lake Kente" is laid down as just north of Presqu'Ile, east of which a peninsula called "Kente" is laid down, and the distance from Presqu'Ile to the Carrying Place is made too great, whilst the Bay proper is called Couir. The two rivers above referred to are located on the little map between "Cadarachqui" (Cataraqui—Kingston) and the upper end of Amherst Island, where no such rivers exist. These old documents are decidedly interesting.

WEATHER PROBABILITIES.—Toronto, Sep. 30.—Lakes, moderate winds, fair weather, not much change in temperature.

THE GRAIN MARKET.—The market for grain to day exhibited an improvement in receipts with a slight increase in the price paid for barley, very choice No. 1 selling up to 80c. per bushel, at which price several lots were contracted to-day. Medium and poor sold down to 50c. per bushel. Rye, steady, at 60c. Fall wheat, bright, 90c. per bushel.

GRAND SACRED CONCERT AND ORGAN RECITAL.—We have been shown a programme of the sacred Concert to be given in the Bridge Street Church on Tuesday evening next, and would judge from the numbers to be performed and the ladies and gentlemen who will assist, that a rich musical treat is in store for those who will be present. Miss Gertrude Fetherston, of Erskine Church, Montreal, who is to assist, has a highly cultivated and rich voice, and has won many admirers and friends during her brief stay in the city.

BEFORE purchasing Ready made Clothing be sure and look through HENNESSY'S stock. He has over 300 suits in all, and is offering them at actual cost.

The Rifle.

ANNUAL MATCHES OF THE 15TH BATTALION.

The annual rifle matches of the 15th battalion took place on the range yesterday, with satisfactory results. The day was favorable, the wind being light, and the scores were fair, considering that several of the competitors are but young shots. The results were as follows:

ASSOCIATION MATCH,

200 and 500 yards, 7 shots.

1	Pte Soby No. 1 Co	50
2	Pte. Vermilyea No 4 Co	48
3	Pte. Pope, No. 1 Co	45
4	Lt. Ponton, No. 1 Co	45
5	Lt. Hastings, No. 1 Co	39
6	Pte. McKay, No. 3 Co	38
7	Sergt. Donald, No. 1 Co	36
8	Pte. Packham, No. 3 Co	35

BATTALION MATCH.

400 and 600 yards, 7 shots.

1	Lt. Hastings, No. 1 Co	57
2	Pte. Pope, No. 1 Co	48
3	Pte. Soby, No. 1 Co	46
4	Pte. Vermilyea, No. 4 Co	43
5	Lt. Ponton, No. 1 Co	40
6	Sergt. Donald, No. 1 Co	38
7	Pte. Packham, No. 3 Co	35
8	Pte. Redick, No. 1 Co	32

The company competition for the cup was taken for the third and last time by No. 1 Company, no other Company putting in a team to compete.

AGGREGATE PRIZES.

1	Pte. Soby, No 1 Co	93 } a tie.
2	Lt. Hastings, No. 2 Co	96 }
3	Pte. Pope, No. 1 Co	93—Cash $3.

Marine.

The schr. *Forest Queen* arrived last evening light, from Charlotte, and will load iron ore for Fairhaven.

The departures are: schrs. *W. W. Grant* and *Mary Taylor* for Oswego with lumber from the Eagle Mill; *Hanlan*, with lumber from Lingham Mill to Oswego; *Sea Foam* for Dexter with lumber from Sutherland's; *D. Freeman* from Downey & Preston's with barley for Oswego; *Jessie McDonald*, with iron ore for Fairhaven; *John Wesley* with lumber from Wm. Sutherland's mill, for Kingston.

Folger Bros., of Kingston, have purchased the schr. *Eureka*, and intend putting her into the iron ore business between here and Fairhaven.

The schr. *Mary Baldwin* has arrived with a load of melons from Sackett's Harbor.

News Condensed.

—Ald. Henry Edmund Knight, of Cripplegate Ward, has been elected Lord Mayor of London.

—The insurgents in the Herzegovina are daily becoming stronger, and have attacked the Austrian troops.

—Gerald Fitzgibbon, prominent among the counsel for the defence in the Irish State trials in 1843, is dead.

—The water in the Saskatchewan is so low, that it is doubtful if steamers can get up the river again this year.

—The south-western branch of the Canadian Pacific Railway has been built to a point 37 miles from Winnipeg. The main line is now some 90 miles west of Regina.

—The Norwegian barque "Agatha," of the Carbille line, from Halifax for London, takes over fourteen thousand three hundred cases lobsters, worth seventy thousand dollars.

*The term *hydra* may be used to represent any manifold evil. If you would battle successfully with this many-headed monster of disease you will find it expedient to keep Mrs. Pinkham's Vegetable Compound always at hand.—*Dr. Banning.*

—A brother of the Walsh who was hanged recently at Galway for murder has been found guilty also of the murder of a constable, and sentenced to be hanged October 28th. The jury recommended him to mercy, but the judge refused to hold out any hope that the recommendation would be acted on.

."Do boldly what you do at all." Boldly do we affirm that Kidney-Wort is *the* great remedy for liver, bowels and Kidney diseases, rheumatism and piles vanish before it. The tonic effect of Kidney-Wort is produced by its cleansing and purifying action on the blood. Where there is a gravelly deposit in the urine, or milky, ropy urine from disordered kidneys, it always cures.

—At New Orleans on Thursday morning Melissa Power and Addie Johnson, young women, fought with butcher knives in the yard of their residence about a young man who had been paying attentions to both of them. Both women were frightfully cut on the face and all parts of the body. Melissa Power received a stab wound in the breast, from which she died almost instantly. Addie Johnson is in a critical condition.

—An unfortunate accident occurred at the International Railway Bridge, Fort Erie, on Friday. The dummy car, which runs between Victoria and Black Rock, was crossing the Niagara River when the car jumped the abutment, and went down into the river, about twenty-five feet below. The engineer was instantly killed, and Mr. Hershey, ex-Warden of Welland, also lost his life. Several others received severe, if not fatal, injuries.

—A cure for corns: Carbolic acid, 1 part; distilled water, glycerine and soap liniment each 10 parts. Apply by means of a piece of cloth or lint, and cover it well with sheet-rubber, so that no evaporation may take place. The corn may be soon detached, on the following morning. Inflamed and swelled bunions may be treated in the same manner, but, in place of the above mixture, another should be applied, composed of dilute solution of subacetate of lead, to which may be added, if desirable, some preparation of opium.

Excellent reasons exist why *Dr. Thomas Eclectric Oil* should be used by persons, troubled with affections of the throat or lungs, sores upon the skin, rheumatic pains, corns, bunions, or external injuries. The reasons are, that it is speedy, pure and unobjectionable, whether taken internally or applied outwardly.

A New Principle.

The principle upon which PUTNAM' PAINLESS CORN EXTRACTOR acts is entirely new. It does not sink deep into the flesh, thereby producing soreness, but acts directly upon the external covering of the corn, separates it from the under layer, removes the direct pressure from the part, and at once effects a radical cure, without any pain or discomfort. Let those who are suffering from corns, yet skeptical of treatment, try it, and by the completeness of the cure they will be ready to recommend Putnam's Painless Corn Extractor to others. Sold by W. R. Carmichael.

BAXTER'S MANDRAKE BITTERS never fail to cure Costiveness and regulate the Bowels.

MORNING DESPATCHES.

EUROPEAN.

IRISH AFFAIRS.

DUBLIN, Sep. 30.—Judge Lawson to-day ordered the release of E. Dwyer Gray, on the payment £500 fine. Gray's bail has been remitted.

DELIGHTED OVER THE EXPLOSION.

CAIRO, Sep. 30.—Many of the natives go about shouting with delight over the explosions here on Thursday, and crying, "This is the people's bonfire lit by the people in honor of the Khedive's infidel friends."

AMERICAN.

DEMOCRATIC STATE COMMITTEE.

NEW YORK, Sept. 30.—The head quarters of the Democratic State Committee opened yesterday at the Park Avenue Hotel. Cleveland's letter of acceptance is expected on Monday. After its receipt, active work on the canvass will be begun. A committee of anti-monopolists talked with Cleveland at Buffalo, and report that his letter of acceptance will contain strong anti-monopoly proclivities. Gen. Tremain says Folger promised in his letter of acceptance to touch on the anti-monopoly question.

MORE TAMPERING WITH LIFE.

Chas. Schmidt, of Bethlehem Centre, Albany County, was found sick in the street yesterday. He took poison because he was swindled in a horse trade. The swindler, hearing of his attempt at suicide, refunded the money.

TWO BILLS OF INDICTMENT.

TRENTON, N. J., Sept. 30.—The Grand Jury have found two new bills of indictment against Col. Haughton, Collector of Customs at Perth Amboy, for transmitting false vouchers to the Secretary of the Treasury. Last year Haughton was commander of the Pa. R. Department. The Railway was indicted last term, for conspiracy to defraud the Government by means of forged pay rolls.

THE PRESIDENT AND PARTY.

ALEXANDRIA BAY, Sep. 29.—Yesterday the Presidental party went to Oak Point in British waters after black bass and mascalonge. The President says he is assigned to the St. Lawrence by a physician to cure malaria.

A WEALTHY WOMAN JOINS A COMIC OPERA TROUPE.

COLUMBUS, Ohio, Sept. 29.—Society is greatly excited over the fact that Mrs. Wm. Neil Dennison, daughter-in-law of ex-Governor Dennison, joined a comic opera troupe in St. Louis. Mrs. Dennison is wealthy. Her husband has been in Colorado during the past year.

A MIXED MARRIAGE.

ST. LOUIS, Sep. 30.—The other day Louis Tierson, a surgeon of the army, and a Catholic, married Maggie Duncan, a Presbyterian. There were two marriage ceremonies, one performed by a priest and the other by a Presbyterian minister. A sensation was caused by article in a Catholic paper, denouncing the groom for submitting to the Presbyterian ceremony. It is stated the priest who performed the Catholic ceremony, will bring the matter officially before the Archbishop.

$9,000 DAMAGES FOR BREACH OF PROMISE.

CROSSHILL, S. C., Sep. 30.—Belle James has obtained a verdict of $9,000 against Irving Fuller for breach of promise of marriage.

RAILWAYS DENOUNCED.

NEW ROCHELLE, Sep. 30.—The public meeting last night, called in consequence of the recent tunnel accident, denounced the management of the New York, New Haven and Hartford Railways.

If Nearly Dead

after taking some highly puffed up stuff, with loud testimonials, turn to Hop Bitters and have no fear of any Kidney or Urinary Troubles, Bright's Disease, Diabetes, or Liver Complaint. These diseases cannot resist the curative power of Hop Bitters; besides, it is the best family medicine on earth.

AFTERNOON DESPATCHES

COURT-MARTIALS AT CAIRO.

CAIRO, Sep. 30.—The court-martials commenced to-day.

JUDGE LAWSON IN HIS OWN DEFENSE.

DUBLIN, Sep. 30.—Judge Lawson while defending his action in imprisoning Gray on legal grounds, said he felt that justice has now been vindicated. A better state of things has been observable.

A FATAL BLAST.

NEWBURGH, N. Y., Sept. 30.—Near Cornwall station on the Middletown branch of the West Shore Railway yesterday three men were killed and three badly hurt by a premature blast. The men that were killed were buried under the mass of earth and rocks, weighing probably 20 tons. Two of them were Germans and had only been in this country eight days, and one Italian was wounded but will probably recover.

ANTI-JEWISH RIOTS.

VIENNA, Sept. 30.—Anti-Jewish riots at Presburg broke out again yesterday evening, and lasted until midnight.

QUEENSTOWN, Sept 30—Arrived, *Parthia*, NEW YORK, Sept. 30.—Arrived, *Germania*, from Liverpool.

Oswego Barley Market.

Irwin & Sloan report under date September 28th:—Receipts of barley by lake from Canada last 48 hours 21,582 bu, of which 10,000 bu came from New Castle, and 11,582 bu from Oshawa. The total receipts of new crop barley from Canada to date aggregate 125,042 bu, of which 50,311 bu came from ports above Brighton, and 74,731 bu from Bay Quinte district. The receipts to corresponding period in 1881 were 485,955 bu; in 1880, 588,857 bu; in 1879, 25,803 bu; in 1878, 718,401 bu. Compared with the receipts in 1881 the deficiency this season is 360,913 bu. Shipments new crop barley to date 57,320 bu—by canal, 38,840 bu to tide water, 4,200 bu to Newburg—by rail, 14 280 bu. Afloat on the canal from lake ports to tide-water 52,740 bu, all Canada product from Oswego. At corresponding period in 1881 the amount afloat was 242,000 bu, in 1880, 204,000 bu, in 1879, 12,500 bu, in 1878, 263,000 bu. No shipments by canal from Buffalo have been made for the past two or three years, all the lake barley by canal, therefore, passes through Oswego. The sales during the last 48 hours have been 5,000 bu No 1 Canada at 97c, 5,000 bu. No. 2 Canada at 91c, 5,000 bu do at 90½c, 2,500 bu do at 90c, 10,000 bu Canada by sample at 88c to arrive.

Sure, safe and effectual, that old remedy, DOWNS' ELIXIR, for the cure of Coughs and Colds.

For 30 Years

The dark-eyed and lovely daughters of Spanish America have used MURRAY & LANMAN'S FLORIDA WATER as their only cosmetic and toilet perfume. It is the most fragrant, as well as the most lasting of all Floral Waters, and possesses refreshing and invigorating properties not contained in any other preparation of the kind.

SMITH MEDICINE Co.

GENTLEMEN,—I have made a trial of one box of Dr. Smith's Great German Worm Remedy, with such good effect that I have no hesitation in recommending it to the public as a prompt and reliable medicine. In fact, those who use it once will always do so. Yours truly,

J. Harvie, 172 Cadieux street.

Montreal, December 9th, 1881.

Hall's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75c. For sale by Jas. Clarke & Co., Belleville, Ont.

Consumption, that dread destroyer of the human race, is often the result of bad blood and low vitality, a scrofulous condition of the system. Burdock Blood Bitters cure Scrofula in its worst form.

MARRIED.

MARY ELIZABETH WALLBRIDGE, only daughter of the late Samuel Shelley Wallbridge, Esq., to THOMAS C. DEMILL, Esq., of Northport, at the residence of the bride's mother, Bay View Farm, Township of Ameliasburg, County of Prince Edward, on the 28th of September, 1882, by the Rev. A. B. Demill, President of Demill Ladies' College, Oshawa.

On the 27th inst., by Rev. J. W. Savage, at the residence of the bride's father, Mr. Jas. Waller, Tweed, MR. THOS. JEFFS, of Queensboro, to MISS SARAH IDA E. WALLER, of Tweed.

Used all the Year Round

JOHNSTON'S

SARSAPARILLA

—FOR—

LIVER COMPLAINT, DYSPEPSIA,

And for Purifying the Blood.

It has been in use for 20 years, and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an impure blood. Thousands of our best people take it and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others.

It is made from Yellow Dock, Honduras Sarsaparilla, Wild Cherry, Stillingia, Dandelion, Sassafras, Wintergreen, and other well-known valuable Roots and Herbs. It is strictly vegetable, and cannot hurt the most delicate constitution. It is one of the best medicines in use for regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

W. JOHNSTON & CO., Manufacturers,

MALTOPEPSYN

MALTOPEPSYN
THE REMEDY FOR DYSPEPSIA AND INDIGESTION
PREPARED BY HAZEN MORSE TORONTO
REGISTERED AT OTTAWA

Artificial Gastric Juice.

A Wonderful Fact, proving the remarkable digestive power of Maltopepsyn.

Two doses (30 grains) of Maltopepsyn will digest the entire white of a hard boiled egg in a bottle of water, in from 3 to 4 hours. How much more will it digest in the stomach assisted by that organ? About twenty times the quantity.

Test this for yourselves,—it is an interesting and useful experiment.

Get from your druggist ten drops of Hydrochloric Acid in a four ounce bottle, fill bottle half full of tepid water (distilled water is best, though soft water will do), then add the finely cut white of a hard boiled egg, then add two doses (30 grains) of Maltopepsyn and shake bottle thoroughly every 15 or 20 minutes, keep the bottle warm, as near the temperature of the body (100° fahrenheit) as possible, and in 3 to 4 hours the egg will be entirely dissolved or digested.

Maltopepsyn is endorsed by the leading Physicians and Chemists throughout the Dominion of Canada.

Send for Pamphlet, 24 pages, giving full treatment of Dyspepsia with the rules of Diet, etc., mailed free upon application by HAZEN MORSE, TORONTO.

Price per Bottle, with dose measure attached, 50 cents, contains 48 doses or about one cent per dose

We have sold the above remedy for several months and find it spoken of very favorably by both the medical profession and the public.

We can safely recommend it to parties needing such a remedy.

DUAL LIFE.

Soft and sound he sleeps, my dear,
Dark fringed lids o'er tired eyes;
Strong hands, thrown in utter rest,
Quiet on the quiet breast;
From lips half fallen to smile apart,
And the pulsing of the heart
Scarcely fans my cheek, who watch
The flutter of his breath to catch,
So very still he lies.

Soft and sound he sleeps, outworn
By the fret and strife
Of the eager hours that fill
Each long day of good or ill;
Of gallant battle for the truth;
Of fiery thoughts of gilded youth;
Of fighting often hand to hand,
With fate he cannot understand,
For full and hard is life.

Soft and sound! No restless dreams
Trouble his repose;
Yet, while the form exhausted sleeps,
The spirit somewhere vigil keeps;
For he who lives, and loves, and makes
His impress on each thing he takes,
To shape, or change, or mould at will,
He does not lie there dumb and still,
As that his servant does.

Soft and sound it sleeps, while he
Breaks his prison bars,
Perchance to soar on fearless wings,
And in unconscious wanderings,
To hold communion full and free
With the beloved we may not see,
Till all our earthly race is run,
Beyond the moon, beyond the sun,
Beyond the great white stars.

Soft and sound, the while I creep
Noiseless, ever near;
My soul is captive as I sit
In the warm frame that waits with it,
And watch o'er him I love the best,
Half jealous of the tranquil rest
That sets his spirit free to rove
Somewhere—where I with all my love
May scarcely follow, dear.

Soft and sound! My fingers glide
Into your nerveless hold;
Beside your head my own I lay,
I try to call your soul away,
Whate'er the holy haunts it seeks,
My will its passionate summons speaks;
My love, and all its royal might,
I clothe my call in strength to-night.
Darling, will you obey?

—*All the Year Round.*

'What's the man yelling at?' asked a farmer of his boy. 'Why,' chuckled the youngster, 'he's yelling at the top of his voice.'

'I wish I was worth five hundred thousand dollars,' said a gentleman. 'What good would it do you, for you don't spend your present income?' rejoined a friend. 'Oh, I could be economical on a larger scale.'

Anecdote of Stonewall Jackson: At a council of officers, early in the war, it was remarked that Major —— was wounded, and would be unable to do the duty assigned him. "Wounded," said Jackson. "If so it must have been by an accidental discharge of duty."

A labor auctioneer: "Yes," said Henderson, lazily removing his pipe from his mouth to say it; "yes, I'm in favor of anything which shall promote home industry." "True for you," replied Fogg; "but I notice you keep away from home when there is anything in the industry line going on there."

A lady had in her employ an excellent girl who had one fault. Her face was always in a smudge. Mrs. —— tried to tell her to wash her face without offending her, at last she resorted to strategy. 'Do you know Bridget,' she remarked in a confidential manner, 'it is said if you wash the face in hot soapy water every day it will make you beautiful?' 'Will it?' answered the wily Bridget. 'Sure it's a wonder ye niver tried it, ma'am.'

Gen. Grant used to tell a story of a blacksmith who started out to make a "clevis" out of a piece of iron. Grant said that the blacksmith hammered away till he discovered he didn't know how to make the instrument named. He then said "I'll make a horseshoe." He failed again. "Then I'll make a horseshoe nail." He failed again. Then, in his wrath, plunging the red hot shapeless mass of iron into the blacksmith's water bucket, he exclaimed, "I'll make a big fizz of you, anyhow."

Two colored dandies were overhead indulging in the following conversation: 'I say, Jim, you doesn't call around as much as yer used ter at de house of Miss Matildy Snowball, the belle of Austin Avenue.' 'De troot am, Julius, I'se called on her so many times, in dese heah clothes dat I'se afeard she will suspect my wardrobe am limited.' 'Pshaw, nigger, you is a fool. Jess keep on going to see her jess as you is, and den she will be sure to take to you, bekase you are so unchanging in your suit; heah! heah! heah!'

A waggon dealer sold a waggon to a granger more than five years ago, and has not yet got his money. A few days ago the countyman came to town in the very waggon, and the waggon man dunned him for the account saying: 'You have had that waggon so long that is nearly worn out, and you have not paid for it yet.' 'Yes, that's so,' retorted the countryman scornfully, 'and here you come and want me to pay as much for a wornout old waggon that has been in use five years as you asked for it when it was new. Well, you certainly have got cheek!'

An eccentric old gentleman who had married his second wife, a hoidenish young creature, entertained a party of gentlemen one afternoon, and was much chagrined by the non-appearance of his girlish spouse. Upon inquiring he ascertained that she was in the garden, and thereupon invited his guests out to be introduced to her. As they rose to accept the invitation his son, a lad of fourteen, exclaimed, 'Don't do it, dad!' 'Why not?' he asked angrily. 'Because,' returned the boy, half apologetically, 'she's up a cherry tree.'

Mr. N. J. Morgan, New River, Va., says that his wife having suffered for a long while with rheumatism was induced to try St. Jacobs Oil, and it gave almost instant relief and had a most happy effect.

After many years of patient investigation Dr. Van Buren, of Germany, finally succeeded in perfecting a Kidney Cure that would permanently relieve all cases of Kidney Disease. Be sure and ask your Druggist for Dr. Van Buren's Kidney Cure.

As a cure for all diseases of the Lungs, Downs' Elixir has no equal.

At the approach of spring great attention should be given to purify the system engorged with foul humors during the winter. Burdock Blood Bitters is Nature's own purifying and regulating tonic.

Rest and Comfort to the Suffering

"Brown's Household Panacea" has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago and any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful," "Brown's Household Panacea," being acknowledged as great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle. 264ly

Rheumatism is greatly dependent on a vitiated condition of the fluids, and may be eliminated from the system by cleansing the Blood and regulating the Kidneys. Burdock Blood Bitters will do this most effectually. Trial bottles 10 cents.

Take no more nauseous purgatives. Burdock Blood Bitters act mildly, pleasantly and thoroughly upon the Bowels, and occasion no inconvenience, while it regulates the Liver and Kidneys and tones the enfeebled system. Trial bottles 10 cents.

Racked by Innumerable Pangs, restless by day, sleepless at night, rising unrefreshed in the morning, without appetite and pestered by varying and perplexing symptoms, the dyspeptic takes indeed a gloomy view of human existence. For him the zest of life seems gone. Heartburn, oppression at the pit of the stomach, and the attendent annoyances of of constipation and biliousness, combine to render him utterly wretched. But there is, if he will but take advantage of it, a reliable source of reliable relief from all misery. Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure is, as its name imports, a botanic preparation, free from mineral poison, and an all-sufficient remedy for indigestion in its most obstinate form. It not only enriches the blood by enabling the digestive organs to convert the food received into nutriment, but depurates it by increasing the action of the bowels and kidneys, the natural outlets for its impurities. But while it relaxes the bowels, it never does so violently and with pain, like a drastic cathartic. It aids, but never forces, Nature, invigorating as well as purifying and regulating the system. It thoroughly removes those diseased humors which tend to vitiate the blood, purifies the urinary secretion, and promotes a flow of healthy bile into the natural channel, besides expelling it from the circulation. Experience has proved that this standard medicine is a thorough remedy for dyspepsia, biliousness, costiveness, kidney complaints, scrofula, erysipelas, salt rheum, lumbago and all impurities of the blood. Price $1.00. Sample Bottle 10 cents. Ask for Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. The wrapper bears a *fac-simile* of their signature. Sold by all medicine dealers

Delays are dangerous, particularly in Kidney Diseases, so take at once Dr. Van Buren's Kidney Cure and obtain relief from all your sufferings. Your Druggist keeps it.

Asthma and Bronchitis Cured.

Halifax, N. S., Jan. 1882.

C. M. Puttner, Esq., Ph. M.:

Sir,—I consider it my duty, not only to yourself, but to my fellow creatures who are suffering from Asthma and Brohchitis, as I had for some time previous to using your "Emulsion of Cod Liver Oil with Hypophosphites," to give my testimony to the most wonderful good effect it had. Having suffered for some time with Asthma and Bronchitis, accompanied with great nervous exhaustion, and having carefully read your Essay on the combination and uses of your Emulsion, I was persuaded to give it a trial, and on using two bottles I began to receive great benefit and relief, and after using three bottles I was completely revived and am to-day perfectly free from either Asthma or Bronchitis, and my nervous system much invigorated and built up. I have found it very pleasant and palatable, and with no taste of the oil whatever, and can with great confidence recommend it to those suffering as I did previous to taking your compound. In conclusion, I consider I owe you a debt of great gratitude for the benefit I have received from your Emulsion and only hope that many may be induced to give it a trial, and receive as great benefit as I have from its use. I am, yours, &c.,

Alex. Stephens, Sr.,
Merchant.

All the People of the Dominion of Canada are Concerned.

Here are some more of the many hundreds of the leading people in the Dominion of Canada who have been cured of Caterrah, Bronchitis, Asthma and Lung Disease by Dr. Souvielle's Spirometer, an instrument which conveys medicinal properties direct to the seat of disease. Read and judge for yourself:—

Several of my family and friends have been cured of bronchitis, asthma and catarrh by using the Spirometer. John P. Whelan, Manager of Post and True Witness, Montreal. Mr. C. Hill, Montrael, catarrh and bronchitis. Mr. DeBoucherville, of the Indian Department, Ottawa, catarrh of many years; now cured. Mr. Geo. Ager Ottawa, catarrh and lung disease; cured. Mrs. Smith, London, wife of Medical Detective, cured of catarrh. Geo. Maguire, Toronto, 482 Adelaide street West; daughter cured of asthma. George Willis, Exeter, Ont., catarrh and bronchitis. J. D. Armstrong, 186 Yonge street, Toronto, catarrh and catarrhal deafness. Thomas Telfer, 12 Melinda street, Toronto, asthma; cured. Mr. Benj. A. Drake, St. Urbain street, Montreal, for many years suffering from bronchitis and asthma, is now cured.

Also, the no less surprising cure of Mrs. Benoit, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from asthma and bronchitis for over eight years, and who is now perfectly cured.

Mrs. Adamson, of Belleville, cured of bronchitis, and her sister cured of bronchitis and lung disease.

I have no hesitating in saying Dr. Souvielle's Spirometer will cure catarrh and bronchitis. John C. Fleming, Editor of Post and True Witness, Montreal.

The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.

Call or write, inclosing stamps for reply, to the International Throat and Lung Institute 75 Yonge street, Toronto, Dr. M. Souville and a competent body of English and French physicians always in attendance. Every information given. Physicians and sufferers can try the Spirometer free at the office.

KIDNEY-WORT

FOR THE PERMANENT CURE OF CONSTIPATION.

No other disease is so prevalent in this country as Constipation, and no remedy has ever equalled the celebrated Kidney-Wort as a cure. Whatever the cause, however obstinate the case, this remedy will overcome it.

PILES. THIS distressing complaint is very apt to be complicated with constipation. Kidney-Wort strengthens the weakened parts and quickly cures all kinds of Piles even when physicians and medicines have before failed.

☞ If you have either of these troubles

UNCONDITIONAL, INCONTESTABLE LIFE POLICIES.

THE objection is often made that the Companies may take advantage of some of the conditions on their Policies, and thus either avoid entirely the payment of claims, or compromise with the widow for a small sum. This argument cannot be used against

THE SUN LIFE ASSURANCE CO'Y OF MONTREAL,

which issues absolutely unconditional policies to selected lives. There is no restriction of any kind on them. The assured may travel to any part of the world without extra premium. He may change his occupation at will, or do anything else he chooses. The contrast is remarkable with other policies. Ask an agent to show you one; it speaks for itself.

PAIN KILLER
MEDICINE CHEST IN ITSELF
A PURELY VEGETABLE MEDICINE
For INTERNAL and EXTERNAL use.
THE OLDEST BEST & MOST WIDELY KNOWN FAMILY MEDICINE.

Farmers and Mechanics.

Provide yourselves with a bottle of *PAIN-KILLER* at this season of the year, when summer complaints are so prevalent; it is a prompt, safe, and sure cure. It may save you days of sickness, and you will find it is more valuable than gold. Be sure you buy the genuine *PERRY DAVIS' PAIN-KILLER*, and take no other mixture.

Cobourg, Ont., March 3, 1880.

I have been selling Perry Davis' Pain-Killer for the past six years, and have much pleasure in stating that its sale in that time has been larger than any other patent medicine that I have on my shelves, and in those years I have never heard a customer say aught but words of the highest praise in its favor. It is an article that seems to have combined in it all that goes to make a *first-class family medicine*, and as long as I have a house and store, Perry Davis Pain-Killer will be found in both.

Yours, &c.,
J. E. KENNEDY.

$1,000 Forfeit!

Having the utmost confidence in its superiority over all others, and after thousands of tests of the most complicated and severest cases we could find, we feel justified in offering to forfeit One Thousand Dollars for any case of Coughs, colds, sore throat, influenza, hoarseness, bronchitis, consumption, in its early stages, whooping cough, and all diseases of the throat and lungs, except Asthma, for which we only claim relief, that we can't cure with West's Cough Syrup, when taken according to directions. Sample bottles 25 and 50 cents; large bottles one dollar. Genuine wrappers only in blue. Sold by all druggists, or sent by express on receipt of price. JOHN C. WEST & Co, sole proprietors, 81 and 83 King St. East Toronto, Ont. For sale at Jas. Clarke & Co.'s Drug Store.

Ayer's
Sarsaparilla

Is a compound of the virtues of sarsaparilla, stillingia, mandrake, yellow dock, with the iodide of potash and iron, all powerful blood-making, blood-cleansing, and life-sustaining elements. It is the purest, safest, and most effectual alterative medicine known or available to the public. The sciences of medicine and chemistry have never produced so valuable a remedy, nor one so potent to cure all diseases resulting from impure blood. It cures **Scrofula and all scrofulous diseases, Erysipelas, Rose, or St. Anthony's Fire, Pimples and Face-grubs, Pustules, Blotches, Boils, Tumors, Tetter, Humors, Salt Rheum, Scald-head, Ring-worm, Ulcers, Sores, Rheumatism, Mercurial Disease, Neuralgia, Female Weaknesses and Irregularities, Jaundice, Affections of the Liver, Dyspepsia, Emaciation, and General Debility.**

By its searching and cleansing qualities it purges out the foul corruptions which contaminate the blood and cause derangement and decay. It stimulates and enlivens the vital functions, promotes energy and strength, restores and preserves health, and infuses new life and vigor throughout the whole system. No sufferer from any disease which arises from impurity of the blood need despair who will give Ayer's Sarsaparilla a fair trial.

It is folly to experiment with the numerous low-priced mixtures, of cheap materials, and without medicinal virtues, offered as blood-purifiers, while disease becomes more firmly seated. Ayer's Sarsaparilla is a medicine of such concentrated curative power, that it is by far the best, cheapest, and most reliable blood-purifier known. Physicians know its composition, and prescribe it. It has been widely used for forty years, and has won the unqualified confidence of millions whom it has benefited.
